FIGHT AT LA QUASINA

17 Killed and 60 Wounded in the Spanish Ambush.

GALLANT DASH AGAINST ODDS.

Details of the First Land Battle Between American and Spanish Troops in the Island of Cuba—Americans Claim a Victory and Say the Spanish Loss Was Heavy.

Juaragua, Cuba, June 25, 4 p.m., per Associated Press despatch boat Dandy, via Kingston, Jamaica, June 26.—(10 a.m.)—The initial fight of Col. Woods' Rough Riders and the troopers of the 1st and 10th regular cavalry will be known in history as the battle of La Quasina. That it did not end in the perfect slaughter of the Americans was not due to any miscalculation in the plan of the Spaniards, for as perfect an ambuscade as was ever formed in the brain of an Apache Indian was prepared, and Lieut.-Col. Roosevelt and his men walked squarely into it. For an hour and a half they held their ground under a perfect storm of bullets from the front and side and then Col. Wood to the right, and Col Roosevelt to the left, led a charge which turned the tide of battle and sent the enemy flying over the hills towards Santiago.

Sixteen Killed, Sixty Wounded.

It is now definitely known that 17 men on the American side were killed while 60 were wounded, or reported to be missing. It is impossible to calculate the Spanish losses, but it is known they were far heavier than those of the Americans, at least as regards actual loss of life. Already 37 dead Spanish soldiers have been found and buried, while many others are undoubtedly lying in the thick underbrush on the side of the gully and on the slope of the hill, where the main body of the enemy was located. The wounded were all removed. A complete list of the killed, wounded and missing on the American side, revised to 4 o'clock Saturday, shows that one officer, five non-commissioned officers and eleven privates were killed; wounded, five officers, two non-commissioned officers, twenty-eight privates and one newspaper correspondent; missing, one officer, one non-commissioned officer and three privates.

The Battle Begins.

At 7.30 a.m. General Young gave the command to the men at the Hotchkiss guns to open fire. That command was the signal for a fight that, for stubbornness, has seldom been equalled. The instant the Hotchkiss guns were fired, from the hillside commanding the road came volley after volley from the Mausers of the Spaniards. "Don't shoot until you see something to shoot at!" yelled General Young, and the men obeyed the order. Crawling along the edge of the road, and protecting themselves as much as possible from the fearful fire of the Spaniards, the troopers, some of them stripped to the waist, watched the base of the hill, and when any part of a Spaniard became visible they fired. In the meantime, away off to the left, could be heard the crack of the rifles of Col. Wood's men, and the regular deeper-toned volley firing of the Spaniards.

Walked Into the Trap.

Over there the American losses were the greatest. Col. Wood's men, with an advance guard well out in front, and two Cuban guides before them, but apparently with no flankers, went squarely into the trap set for them by the Spaniards, and only the unfaltering courage of the men prevented what might easily have been a disaster. As it was, Troop L, the advance guard, under the unfortunate Captain Capron, was almost surrounded, and, but for the reinforcements hurriedly sent forward, every man would probably have been killed or wounded.

Col. Roosevelt's Story.

"There must have been nearly 1,500 Spaniards in front and on the side of us," said Lieut.-Col. Roosevelt to-day, when discussing the fight. "They held the ridges with rifle pits and machine guns and had a body of men in ambush in the thick jungle at the sides of the road over which we were advancing. Our advance guard struck the men in ambush and drove them out. But they lost Captain Capron, Lieut. Thomas and about fifteen men killed or wounded.

"The Spanish firing was accurate; so accurate, indeed, that it surprised me, and their firing was fearfully heavy."

When the firing began, Lieut.-Col. Roosevelt took the right wing, with the Troops G and K, under Captains Llewellyn and Jenkins, and moved to the support of Capt. Capron. At the same time Col. Wood and Major Brodie took the left wing and advanced in open order on the Spanish right wing. Major Brodie was wounded before the troops had advanced 100 yards. Col. Wood then took the right wing and shifted Col. Roosevelt to the left.

A Gallant Charge.

In the meantime the fire of the Spaniards had increased in volume, but, notwithstanding this, an order for a general charge was given, and the men sprang forward. Col. Roosevelt led the advance. On the right wing Capt. McClintock suffered a fracture of the leg from a machine gun ball, while four of his men went down. At the same time Capt. Luna of Troop F lost one of his men. Then the reserves, Troops K and E, were ordered up. Col. Wood, with the right wing, charged straight at the blockhouse 800 yards away, and Col. Roosevelt, on the left, charged at the same time. The men did not stop to return the fire of the Spaniards, but advanced with a determination to capture the blockhouse. When within 500 yards of the coveted point, the Spaniards broke and ran.

Hamilton Fish the First to Fall.

Sergeant Hamilton Fish, jr., was the first man to fall. He was shot through the heart, and died instantly. The Spaniards were not more than one hundred yards off, but only occasional glimpses of them could be seen. The men continued to pour volley after volley into the brush in the direction of the sound of Spanish shots, but the latter became more frequent and seemed to be getting near.

Death of Captain Capron.

Capt. Capron stood behind his men, revolver in hand, using it whenever a Spaniard exposed himself. His aim was sure and two of the enemy were seen to fall under his fire. Just as he was preparing to take another shot and shouting to his men at the same time, his revolver dropped from his grasp, and he fell to the ground with a ball through his body. He was carried from the field as soon as possible and lived only a few hours.

Burial of the Dead.

With the exception of Capt. Capron, all the Rough Riders killed in yesterday's fight were buried this morning on the field of action. Their bodies were laid in one long trench, each wrapped in a blanket. Palm leaves lined the trench and were heaped in profusion over the dead.

Capt. Capron's body was brought into Juaragua this afternoon, but it was deemed inadvisable to send the remains north at this season, and the interment took place on a hillside near the seashore.

Shooting Their Own Men.

During the fight in the thicket several of the troops did some wild shooting into the troops ahead of them, and the American loss is due to this fact. As soon as the position had been changed the Americans poured a more terrific fire than ever into the Spaniards as they got them into more open country and could see them better.

Destroying the Railway.

While the land forces were fighting, four miles northwest of Juaragua, Admiral Sampson learned that the Spaniards were endeavoring to destroy the railroad leading from Juaragua to Santiago de Cuba. This road runs west along the shore, under cover of the guns of the American fleet until within three miles of El Morro, and then cuts through the mountains along the river into Santiago. When the attempt of the Spaniards was discovered, the New York, Scorpion and Wasp closed in and cleared the hill and brush of Spaniards. A portion of the Second Massachusetts was sent out from Juaragua during the afternoon to repair the track.

WITHIN STRIKING DISTANCE.

The Armies Now Only Four Miles Distance From Each Other.

On board the Associated Press despatch boat Dandy, off Juaragua, June 25, 8 p.m., via Kingston, Jamaica, Sunday, June 26.—(8.30 p.m.)—Troops of the United States and Spain are almost face to face, and less than four miles apart. To-night the picket lines at certain points are within hailing distances of the enemy. It seems certain that the battle of Santiago must come within a week.

The troops are all ashore to-night here and at Baiquiri, with the exception of a few scattered companies, that have gone forward. The supplies are sufficient to enable the army to sustain a week's campaign at both landing places. There is a continual procession of small boats riding on the beach through the pounding surf, and, as one week's rations are already landed, it is believed the required supplies will be all ashore by Tuesday, the 28th.

General Wheeler, in his official report, places the number of dead at Sevilla at 23 and the wounded as between 70 and 80. No attempt has yet been made to prepare an official list with the names of the dead and wounded. The high grass and bushes of the battleground make it difficult to find the bodies, but an official list will probably be prepared by Monday.

Camara at Port Said.

Port Said, June 27.—Admiral Camara's squadron is in the harbor, awaiting orders.

MURDERER AT LARGE

Policeman Twohey's Slayer Has Not Been Captured Yet.

MANY WOODEN-LEGGED TRAMPS

Arrests of One-Legged Men Who Did Not Conclusively Answer the Description and Who Were Allowed to Go—The Post-Mortem Reveals a Surprise—The Funeral.

London, June 27.—Interest in the tragic fate of Patrolman Michael Twohey, who was murdered by a tramp on Friday night, continues unabated, and on every hand people are eagerly waiting for news of the culprit's capture. Chief of Police Williams is hourly in receipt of telegrams from various places as to the presence of a one-legged tramp in such and such a vicinity. Detectives W. Rider and Thomas Nickle, together with the Chief, have had only two hours' sleep since the terrible affair took place, but the search for the murderer has so far proved unsuccessful.

Word was received here from Streetsville that a one-legged tramp had been arrested there. He, however, proved to be the wrong man.

Last night Detective Rider went to Port Huron, where another one-legged vagrant was arrested on suspicion, but his description did not in any respect tally with that of the murderer and he was allowed to go.

The number of one-legged tramps who have turned up at different points surrounding London since the murder is surprisingly large.

Coroner Flock has ordered that nothing be said about the post-mortem until the inquest, which has been postponed until Tuesday night. The post-mortem examination was made by Dr. A. MacLaren and Edwin Seaborn. It has been ascertained that Twohey was not shot in the head and the mark supposed to be the place where the bullet entered was nothing more than a nasty scratch which the unfortunate man sustained when he fell by coming in contact with a barbed-wire fence. Both shots were fired into the lower portion of the body. The first one entered the policeman's watch and the second one passed directly through the intestines to the skin on the right side, nearly opposite to where it entered. The revolver was held close to the officer's body, as the powder penetrated the skin. The bullet retained its shape and is in the possession of Dr. MacLaren.

Hundreds of sympathizing citizens visited Twohey's house yesterday to take a last look at the familiar face, but they were disappointed, as the corpse is not in a condition to be viewed. The room in which the remains lie is literally filled with floral tributes from sympathizing societies and munificent citizens. Among them is a handsome pillow from the police, with the word "Comrade" in everlastings. Others are from the A.O.U.W., the firemen, ex-Mayor Little and the Catholic Order of Foresters. The deceased will be buried this morning by the societies to which he belonged. Reference to the sad event was made Sunday in many of the city churches.

Well Made and Makes Well

Hood's Sarsaparilla is prepared by experienced pharmacists of today, who have brought to the production of this great medicine the best results of medical research. Hood's Sarsaparilla is a modern medicine, containing just those vegetable ingredients which were seemingly intended by Nature herself for the alleviation of human ills. It purifies and enriches the blood, tones the stomach and digestive organs and creates an appetite; it absolutely cures all scrofula eruptions, boils, pimples, sores, salt rheum, and every form of skin disease; cures liver complaint, kidney troubles, strengthens and builds up the nervous system. It entirely overcomes that tired feeling, giving strength and energy in place of weakness and languor. It wards off malaria, typhoid fever, and by purifying the blood it keeps the whole system healthy.

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Sold by all druggists. $1; six for $5.

THE CHEESE BOARDS.

(Monetary Times.)

There has been somewhat of a flurry in the cheese market during the past week, and prices at country shops have advanced ¼ to ½ cent per pound. Some dealers say that their is a Leiter in the market, and that supplies are being brought under the control of a single firm. Of course the question is; will this cheese Leiter meet the fate of the Chicago wheat manipumanipulator? We have received reports from 15 boards, at which 31,819 boxes of cheese were offered. This shows a large increase over last year's figures of 30,794 boxes from 20 boards. In the corresponding week a year ago 13 boards offered 33,191 boxes. Shipments abroad for the week ending June 18th, as reported by Messrs. Cunningham & Lemessurier, were 64,988 boxes, as against 105,159 the similar week last year. Shipments to date are 178,342 against 291,162 to the same date last year:

"It will be noticed that Peterborough boarded the largest number of boxes of the fifteen factories mentioned.

THE following, from the address of Mr. B. M. Walker, General Manager of the Canadian Bank of Commerce, at its last annual meeting, is not unpleasant reading: "It is a comfortable state of affairs for this young country to have exports in excess of imports, and at present the excess runs into very handsome figures. Our exports for the ten months of the year which ends 30th June, amount in value to $119,000,000 against $114,000,000 for the same period last year, and $87,000,000 for for 1896. The excess over imports for the ten months is $17,700,000, as against $6,647,000 for the same period last year, and a small excess of imports in 1896. In only one previous year since Confederation has there been an excess of exports over imports."

POSTAL SERVICE FOR THE NORTH.

It is said to be the intention of the Postmaster General to establish a new post office at Taylor's on the Buckhorn Road, eight miles north of Hall's Bridge. This is certainly a commendable action and one that will conduce to the convenience and accommodation of the residents of the immediate locality, whose nearest post office is now Hall's Bridge, an average distance of eight miles for the average resident, taking into consideration those to the north and west who would use the proposed new post office. What, however, we cannot understand in this connection is the proposal to establish a bi-weekly mail service, which, we understand is to be maintained practically to the disadvantage and in practical disregard of the needs and convenience of residents further north of Taylor's. It would seem to us that instead of a bi-weekly mail to Taylor's the service might be divided, for a weekly mail service, to accommodate Westlake's, would be of the greatest advantage to the greatest number, in giving both districts equal advantages. A weekly mail to Westlake's is of almost as great advantage to Westlake's as to Taylor's. The settlement which would be served by a weekly mail to Westlake's is equally as large as that at Taylor's, or nearly so, all the year round. Besides, Westlake's would be a more important service in the winter time, when about one hundred men, chiefly from Peterborough, would be employed in the timber limits of the Dickson Company in Cavendish. The desirability of giving them a mail service that would enable them to communicate with their families once a week at least, should not be overlooked. We cannot think that the local advisers of the Department in recommending a by-weekly mail to Taylor's and none to Westlake's, can be acting in the interests of the northern settlers, especially when the expense of a weekly mail service to both places would be little, if any, larger than a bi-weekly mail service that would accommodate only one place to the disadvantage of the other. It is obviously unfair that one settlement should have a double share and the other none. A weekly service would answer the convenience of both settlements satisfactorily, we believe, to all parties concerned. We trust that Mr. John Lang, M.P., who represents the district, will see that the Department takes the course that will confer the greatest good upon the greatest number. The Department, naturally, cannot understand local matters in their true relations, and it is impressed upon the Department that a bi-weekly mail to Taylor's and none to Westlake's will be regarded as not meting out even-handed justice to the respective localities under discussion.

A New York letter writer sends to The Sun this doleful effect of Canadian railway competition: "Canadian railroads will earn for the year ending June 20, 1898, not less than $20,000,000 in carrying State-to-State traffic. Our own roads are hauling east and west empty cars constantly, and therefore could carry this traffic with very little additional cost. In other words, the traffic earnings which are now diverted from American lines by Canadian roads would be nearly all profit to American roads. Within twenty-five years Canadian railroads, if the bonding regulations continue in force as at present, will divert $50,000,000 of traffic earnings from our own roads annually. This represents interest at 4 per cent. on $1,250,000,000. Why should the United States contribute this enormous sum to sustain railroads under an alien flag?" The answer is easy. It would cost the forwarders of freight probably ten millions a year more to ship around by American railways. The Canadian routes to the sea are the shortest and cheapest.

YOUNG'S POINT.

From Our Own Correspondent.

Mr. John Fitzpatrick is visiting his son, the Rev. Father Fitzpatrick.

Mrs. Wm Barry is also visiting the Rev. Father Fitzpatrick.

Miss Lottie Bell, of Peterporough, also spent a few days at the Point.

Mr. W. Connors spent a few days here this week.

Miss Maggie Young is still keeping her bed and does not seem to improve.

Mrs. John McGrath, who was one of the oldest settlers here, died on Thursday, the 23rd inst. The deceased was in the neighbourhood of ninety-one years of age and had lived at Young's Point for the past forty years. The funeral took place on Saturday, June 25th, to the Lakefield cemetery for interment.

SERIOUS LACK OF COAL.

Naval Manoeuvres Abandoned Because of the Welsh Strike.

London, June 27.—The coal strike in South Wales paralyzes naval and maritime England in a way that would be alarming were a strike to happen in time of war. The usual naval manoeuvres had to be abandoned for want of coal, while the mail steamers are losing speed because they cannot get the South Wales article. Yet, such is the state of the law, that the Government cannot intervene with it until one or the other party to a dispute requests its intervention. Neither party requests, so the dispute must go on, like the engineers' strike, till the back of the trades union is absolutely broken for want of money. The employers, of course, have a bottomless purse.

The Petition Brought In.

Victoria, June 27.—Hon. Edgar Dewdney, who returned from the north by the Athenian Saturday morning, brought for presentation to the Provincial Government a petition from the public meeting at Glenora that a wagon road to Teslin Lake be built at once. It appears that the trail is in good condition, but is not adequate for the travel offering, and unless a wagon road is soon provided the attempt to enter the Yukon by the Stikine route must be given up, except by those travelling light.

Lyon Wants a Jury.

Berlin, Ont., June 27.—Edward Lyon, formerly caretaker of the post-office, had a hearing before Judge Chisholm Friday night, and elected to be tried by jury, which means his trial will not take place till next fall. The charge on which he is held is for abstracting money from letters in the post-office department. In the meantime efforts will be made to secure bail, though it is not decided whether same will be accepted.

FRENCH HUMOR.

M. Francisque Sarcey and His Grotesque Effigy In the Carnival.

It is often said that Frenchmen lack humor and dread ridicule, but M. Francisque Sarcey has given an example of that humorous good sense which defies mockery. At carnival time in Paris it is customary to exhibit on the boulevards grotesque effigies of well known public men. A modest stranger called on M. Sarcey to tell him that his image was to figure in the procession.

"Very good," said M. Sarcey. "What can I do for you?"

"Well, if you would be so kind as to lend us some of your veritable garments, they would make the likeness all the stronger."

"No doubt," responded the critic blandly. "In that cupboard you will find several hats."

"Oh, the veritable hat will not do! You see, your head—I mean the head of the effigy—is enormous."

"Tres bien. Take a coat, then."

Dressed in the veritable coat, the Sarcey dummy was an immense success. It seemed so strange to literary Paris, however, for a man to aid and abet the caricature of himself that M. Sarcey has volunteered an explanation, which is a delicious bit of humor. "Lamartine," he remarks, "would not have consented to lend his coat for such a purpose. He was a poet with a sensitive soul. So was Victor Hugo. But what would you? We cannot all be Lamartines and Hugos. Why should we poor journalists, who have no feelings to speak of, deny ourselves to the populace when we can contribute to their harmless amusement? Besides, they may not always think it worth their while to notice us.

"An agreeable trifler came to me the other day and asked my permission for the use of my name in a burlesque. I gave it cheerfully. 'This may be the last time,' said he. 'What do you mean?' I asked. 'Well, you are going out of date, and next year you may not be worth a laugh!'"—Exchange.

Lying as a Disease.

"The liar is a much abused person," said a well known local physician to a reporter last week. "The liar is not always to blame, and if you have any friends who are addicted to false representation of things advise them to consult their doctors. There is hope for at least one class of liars. Medicine and medical methods are applicable to those who suddenly develop an abhorrence for the truth and lie on all occasions, even though the truth might better suit their purpose. This has come to be thought of only as a species of dementia that is ofttimes successfully treated.

"The malicious liar is a difficult problem, for he knows that he is telling a lie and there is no hope for him. But there are lots of people who just lie naturally, without knowing what they are saying or why they say it. The individual often has nothing whatever to accomplish by lying, but does so just as some people stutter. But, as I said before, he should not be blamed and frowned upon. His mind is unhealthy and his nervous system is out of order. Rest, tonic and good nursing often restore these people to their normal self, and then the love of rectitude returns, and they are effectually cured of a very embarrassing habit.

NERVOUS DIARRHŒA.

Many Speakers, Actors, Singers and Clergymen Suffer from Diarrhœa when they appear in public.

It can be prevented by taking a few doses of Dr. Fowler's Extract of Wild Strawberry.

There are many people whom nervous excitement of any kind effects in a remarkable manner, causing diarrhœa. I knew an estimable clergyman who was afflicted every time he appeared in public. He could get nothing to check this distressing condition of the bowels, until he tried Dr. Fowler's Extract of Wild Strawberry. It acted like a charm in his case, and he always carried a bottle of the remedy with him afterwards. Some men have had to retire from public life altogether on account of their trouble becoming chronic. There is no need of this, however, as Dr. Fowler's Strawberry can control and cure the severest cases.

It is not a new or untried remedy, as it has a record of over forty years of cures to its credit and is recognized on all hands as the only reliable remedy ever offered to the public as a safe and certain cure for diarrhœa, dysentery, colic, cramps, cholera, cholera morbus and summer complaint, whether of children or adults.

The price of Dr. Fowler's Extract of Wild Strawberry is 35 cts. a bottle, and we would warn you against accepting any substitute or imitation. Many of these are positively dangerous and you are risking your life when you take them.

DECISION OF THE VATICAN.

The Rev. Father Lennon's Appeal to Rome Quashed.

Brantford, June 27.—At St. Basil's Church yesterday morning Monsignor McEvay of Hamilton read an important decision of the Holy See.

First, the appeal of Rev. P. Lennon against the Bishop of Hamilton was not sustained.

Second, the rev. gentleman is commanded to obey the regulation of the Bishop regarding ecclesiastical education.

Third, the Bishop is authorized to reopen a new parish in East Brantford and a new pastor will take charge next Saturday.

It is said Rev. Father Lennon will be removed from St. Basil's Church here to an important pastorate in Kingston diocese.

Big Landslide.

Vancouver, June 27.—One of the greatest land and timber slides known to the oldest inhabitants is reported from Loughborough Inlet. The slide was about three-quarters of a mile long and half a mile wide. There was two miles of a solid drift of logs in Loughborough Inlet after the slide. Whole farms are mud-washed.

A PRESSMAN'S STORY.

Mr. Parnham Tells how Dodd's Kidney Pills Cured His Lumbago.

Toronto, June 7.—The story of the escape of the Globe pressman, Mr. John H. Parnham, from the agonies of Lumbago, by using Dodd's Kidney Pills, is unusually interesting.

Mr. Parnham writes to the Dodd's Medicine Co., Limited, thus:—"I am proud to testify to the wonderful efficacy of Dodd's Kidney Pills. About eight months ago I was attacked by severe pains in my back. I consulted an eminent physician, who said I had Lumbago and told me to take Turkish baths. These did me no good.

"A friend advised me to try Dodd's Kidney Pills. I did so, and one box cured me. My back has never troubled me since."

IN RUINS IT LIES.

The World-Famed Clifton House Destroyed by Fire on Sunday—Details of the Blaze.

Niagara Falls, Ont., June 27.—The world-famed Clifton House lies in ruins, being totally destroyed, together with its contents, by fire Sunday morning. When the flames were first noticed, they were in the roar of the big hotel, in the room over the kitchen, and, although the alarm was promptly given and the entire fire departments from both sides of the river responded promptly, the water supply in this particular portion of the town was not equal to the demand.

The fire was noticed about 12 o'clock and burned fiercely until 2 o'clock. The flames that shot out of every window and towered high in the air, seemed to laugh at the futile attempts of the laddies with their toy streams of water, and when they had exhausted their fury the large four-storeyed hotel, with its shady verandahs, supported with immense pillars, stood out a total wreck, the walls only standing to mark the spot of the world-wide hostelry, that had been the home during the summer of the best of families of America, as well as Europe. The hotel counted amongst its many guests the royal families of Europe who have visited Niagara

The hotel was a four-storeyed, large stone roughcast faced building, of letter "L" shape, with a court in the centre that contained a regular greenhouse of cool and shady promenades. The building contained 350 rooms, which were all very expensively furnished, and only the very best of the travel was catered for.

Sunday morning 85 guests were on the register, and all of them, with their belongings, were safely taken out of the place without a single hitch. Amongst those on the register were: Mr. and Mrs. John Pennlan, Paris; Dr. Larau and family, New Orleans; Mayor Taggart, Indianapolis, Ind.; Mr. James Mackenzie, Sarnia, Ont.

The hotel proper was first built by Mr. Harmanius Cryslr, during 1836, who named it the Clifton House. It afterwards got into the hands of Mr. Zimmerman, who made quite an addition to it and brought the place as a fashionable resort before the sightseers at Niagara. Its present proprietor, Mr. George M. Colborn, has controlled the place for 30 years past, and had everything to do with the famous name the hotel has throughout the world. Mr. Colborn is absent from home in Philadelphia, but has been apprised by telegraph of his loss. The hotel was owned by the late Hon. John I. Bush estate. Loss to building $100,000, partially covered by insurance; contents and furnishings, $50,000, partially covered by insurance. The cause of the fire is unknown as yet. The destruction of the hotel will be a big loss to the place and will throw some 100 people out of employment. The fireproof Hotel Lafayette, which stands close to the Clifton House, stood the heat admirably.

DODD'S KIDNEY PILLS AGAIN.

Conductor Hogg Tells the Story of His Rescue From Diabetes.

Toronto, June 13—Special—Mr. H. Hogg, the well-known and popular street railway conductor (No. 107) who has been cured of a very severe case of Diabetes, by Dodd's Kidney Pills, has written as follows to the Dodd's Medicine Co., Limited.

"My sufferings extended over a period of three years, and grew worse every day. I could get nothing to cure the Diabetes, nor to purify my blood. Finally, the dizziness so overpowered me, and I grew so emaciated and weak, that I had to quit work.

"A friend advised me to try Dodd's Kidney Pills. I laughed at him, for I had tried so many remedies, only to be disappointed that I had lost hope. However I did try Dodd's Kidney Pills. Thank God, six boxes cured me entirely."

A NEW FATE FOR ERIN

Gen. McMahon of New York Makes a Proposition

THAT IT BECOME PART OF U. S.

The Irishmen of Montreal Receive the Unique Proposal in Silence - A Regrettable Speech at the 1798 Centenary Celebration - Big Commission Paid by Uncle Sam—Montreal News.

Montreal, June 27.—Those who have wondered over the United States' transportation bill of $15,000,000 will have a little light thrown on the subject when it is learned how much commission, or boodle, as it is called in this country, was to have gone into the pockets of certain middle men in the United States who were interested in the sale of the Beaver Line steamer Lake Ontario to Uncle Sam's much-bled Government. Whether the deal has yet been consummated remains to be seen, but the facts, as related by an eminent member of the Montreal bar, are as follow:

The business was done by two Montreal lawyers, and out of the sum of $400,000 which the United States Government was held to pay for the vessel in question, no less sum than $210,000 was to go to certain patriots from the other side of the line, while the balance, $190,000, was the real price which the company were to receive for their ship. After such a transaction as this, it is not at all surprising that Uncle Sam's transportation bill should reach such tremendous figures.

The Irish Centenary.

The demonstration yesterday to perpetuate the events of 1798 would have been fairly successful had it not been for the tremendous rainfall, which interfered with the procession, composed, as it was, by all of the local Irish national and benevolent societies. The speech-making took place on the Exhibition Grounds, but the crowd did not exceed more than a thousand, so the two-starred programme was reduced to one, and most of the orators were local men.

The speakers were: M. J. F. Quinn, M.P., Hon. Dr. Guerin, F. Carbary, M. P.P. for Quebec West, J. D. Grace of Ottawa, and J. Grattan McMahon of New York, a grandson of the famous Henry Grattan. Mr. McMahon went it very strong. He said the English people were all right, but they wanted nothing to do with the Salisburys, the Balfours, the Chamberlains and such like. The Irish people were a cultured nationality when the English people were wearing buckskins, and were in the depth of barbarism. He ridiculed the so-called Anglo-Saxon alliance, and declared that the ultimate destiny of Ireland was to be a portion of the American Republic.

Mr. Quinn, the member for Montreal Centre, also spoke and took exception to Mr. McMahon's foolish utterances. He ridiculed the New Yorker, and told him that if Ireland changed her position she would rather become a portion of Canada than of the American Republic.

FEARFULLY MANGLED.

Miss Mabel Dawson of London Run Over by a Trolley Car.

London, June 27.—Miss Mabel Dawson, daughter of Mr. J. C. Dawson, postmaster, was probably fatally injured Saturday by a trolley car. The accident happened just in front of the R.C. Cathedral on Richmond street. The unfortunate young lady did not notice the approaching car until too late. the fender striking her, and carrying her half a block, when she was thrown under the car. When picked up one leg was completely severed from her body, and the other broken. She also received some severe scalp wounds, and was otherwise bruised about the body. Her purse was found cut to pieces about half a block from where the accident happened. She was removed to the hospital immediately after the arrival of medical assistance, where she now lies in a precarious condition.

HAWAII WILL PAY

If British Property Is Damaged by the Bombardment of Honolulu.

San Francisco, June 27.—A Honolulu special to the Chronicle says: From a source high in the Foreign Office, it is learned that the Republic of Hawaii has assured the British Consul-General that in case the action of the Hawaiian Government in offering herself as an ally to the United States should result in the bombardment of Honolulu, any damage done to British property or interests would be paid by this Government.

It is also reported that the German consul, learning of the matter, demanded the same guarantee for German merchants. The Hawaiian Government has not yet replied.

A woman's headaches may come from several causes. She may have a headache arising from nervousness, or from digestive disturbances. Nine cases in ten her headaches come from disorders peculiar to her sex. It may show itself in the symptoms which are characteristic of a dozen disorders. Dr. Pierce's Favourite Prescription was compounded for the sole purpose of relieving womankind of these ills and pains. Thousands of women have testified that after taking treatment from several physicians without benefit, the "Favorite Prescription" cured them completely and quickly. WEAK CLOSE FOR WHEAT.

Futures Again Fell Off in Chicago on Saturday—Little Change on the Liverpool Market—The Prices.

Saturday Evening, June 25.

The world's wheat markets have this week shown considerable irregularity. The price of cash wheat at Chicago, after covering a range of 3c per bushel, has again reached the figure at which it closed last Saturday. At the same time the spot article has steadily fallen off in Liverpool until it is now quoted 4d to 9d lower than a week ago. July wheat and the later options have been subject to fluctuations, rallying one day and reacting the next on both sides of the Atlantic. At both Liverpool and Chicago futures to-day closed weak and at a decline as compared with last Saturday. The decline at Chicago is from ½c to 1¼c per bushel and at Liverpool 1½d to 2½d per cental. Markets on the continent of Europe after fluctuating considerably now show little change from a week ago.

Ontario grain markets are dull, with no export demand, and very little doing with millers.

Leading Wheat Markets.

Following are closing prices to-day at important centres:

	Cash.	June.	July.

Killed by a Bull.

Guelph, June 25.—Robert Blythe, reeve of Guelph township, died in the hospital yesterday. Last Sunday Mr. Blythe was charged by a young shorthorn bull, and sustained a double fracture of the left leg. He was brought to the hospital, where blood poisoning set in, and amputation was deemed necessary. The shock of the operation proved fatal

THE ONLY HOPE!

For Victims of Bright's Disease is Dodd's Kidney Pills.

Not a day passes on which the newspapers do not record the death of one or more persons from Bright's Disease. Already its victims number hundreds of thousands. Day by day the awful total grows larger. No class is safe from this destroyer.

War and intemperance, with all their miseries and fatalities, are not responsible for as many deaths as have been caused by Bright's Disease. Yet, there is a way of resisting it; of drawing its poisoned fangs, and making it as harmless as a summer breeze. That great medicine, Dodd's Kidney Pills, has cured thousands of the worst cases. It never fails to cure, hopeless as the case may seem.

Would you safely shield your loved ones from the fatal grip of this curse of mankind—Bright's Disease? Then use Dodd's Kidney Pills, the only cure on earth for this disease.

A STRONG ARGUMENT.

Wm. McCabe, Esq., Managing Director, N. A. L., Toronto:

DEAR SIR,—Please accept my thanks for your cheque just handed to me, for $3,901.28, in settlement of my $3,500 Fifteen Year Endowment Policy in your Company. Such a result as this, after the risk on my life has been carried for fifteen years, beginning from forty-five years of age, argues one thing strongly, namely, that the management of the North American Life must be in competent hands. The other options you have offered me, viz.: a Paid-up Life policy for $6510.00, or a Life Annuity for $401.20, are, I presume, equally liberal, and it affords me much pleasure to recommend your Company to my friends or any desiring insurance.

SUNSHINE BRINGS SALES

Vigorous selling has characterized June's business on account of our retailing at Wholesale Prices, and less. There has been a general rush for Light Headwear. Those who refrained from buying early in the season are benefitting by the riper Bargains which our Mid-summer Reduced Prices naturally bring.

TRIMMED HATS. This store's immense success has been earned by showing the prettiest of Trimmed Hats. Our captivating White Effects has in, finessed June sales remarkably. A new lot of Nobby Sailors going fast at Late-season Prices. Pretty Leghorns and Flower Hats, picked up quickly.

VEILINGS. No woman can look at our Veilings without being convinced that our Styles, Fabrics and Fancy Combinations are very taking. Brisk sales have encouraged us to replenish with some of the latest Novelties out.

RUN ON RIBBONS. Our Stock represents all the late Ribbon Ideas—Plaids, Stripes and fancies. Special values in Roman Effects, pure silk, choice colours. An easy matter to buy Ribbons at a price, but not always easy to get high qualities and latest patterns such as shown here.

CORSET VALUES. Our customers are getting Popular Corsets at prices marked down to quicken sales, but without any expectation of profit. Fine makes of Summer Corsets, faultlessly framed.

LeBrun & Co's Scorchers!

On the eve of the great Bicycle Meet, LeBrun & Co. guarantee the best and cheapest ready-made clothing in Peterborough. Our tandem is highest grade and lowest prices. We are showing handsome summer suitings in fashionable clothes at fast-flying figures. Bicycle suits, outing suits, business suits, and dress suits—correct and up-to-date in every detail—lower than ever before offered. Barrels of bargains in gent's furnishings, underclothing and neckwear of all kinds. No need to look like a beggar or a tramp. Big surprises the order of the day. Right goods at right prices are loosed together, and nowhere [illegible] at H. LeBrun & Co's., City Clothing Store.

The Last Week the Best Week.

This is the last week of the dissolution sale at Clarke & Gibson's jewelry store. The opportunity this sale has afforded for buying standard goods at very unusual prices, has been seized by many who may have felt restricted in their purchases at the regular selling figures. There has also been the assurances of reliability in purchasing, and this confidence in the integrity of the firm and general character of the stock has largely influenced sales. The last week of this sale at the reduced prices ends with June, so there still remains time enough for all who wish to avail themselves of the chances of bonafide bargains in jewellry, watches, clocks, silver plate and artistic novelties, which are embraced in this very large and exceedingly well assorted stock of handsome goods. It is not likely that a similar opportunity will present itself for some time, and lovers of the beautiful in these lines of goods will miss very substantial advantages if the neglect to attend the remaining days of this sale.

—Mr. H. P. Kennedy is shipping away between six and seven hundred head of cattle to Iowa and Nebraska. During the last two weeks he has handled over 1,000 head, and is still open for more business.

NEARLY DROWNED.

Steve Brodie and Capt. Webb Have an Experience Down the Otonabee.

The head clerk and the bookkeeper of a George street store were down the river on Sunday for a paddle and on the return trip to town attempted to paddle through the rocks at Yankee Bonnet instead of following the channel. Steve Brodie was at the helm acting as pilot. As Capt. Webb was with him and neither were afraid of a ducking, it was decided to try and find a new channel through the rocks and thus effect a valuable saving of time. All this was to be done in the interest of the public. The canoe upset and precipitated the two daring explorers into the river and now Steve wants to know if the public will not buy him a new pair of boots, as after paddling to shore in them they were not drawn up on the bank far enough and floated away.

BUTCHER SHOP BURGLARIZED.

It was Entered Some Time on Sunday—The Till Tapped.

The butcher shop of Mr. Sabin, on George street, below Charlotte, was entered from the rear sometime on Sunday and the till robbed of a quantity of small change. A cleaver was also taken. The burglars left no clue, but local parties are suspected.

BROKE THROUGH THE DECK.

Cattle Fall Into the Hold of a Scow.

On Friday evening as the steamer Eclipse was towing a scow load of cattle to town from Harwood for Mr. H. P. Kennedy, the cattle suddenly surged to the front of the barge when near Bensfort Bridge, and broke through the planking into the hold.

As it was very dark, the crew of the Eclipse could not ascertain what had happened, and it was feared some of the animals had gone overboard, but all were on board when the scow reached the wharf.

A FINE LUNGE.

Mr. John Kincaid Lands a Nineteen Pounder.

A magnificent specimen of the king of the Canadian fresh water lakes is on exhibition to-day at J. B. Oke's fish and fruit store.

It is a lunge of most symmetrical proportions, the lines of its head being exceptionally fine. It weighs 19 pounds and is 45 inches in length. Mr. John Kincaid, Harvey street, caught the beauty at Stony Lake, on Saturday.

25c and 40c Bunches of Flowers for 10c, and the 50c and 75c Bunches for 25c, at Turnbull's Remnant Sale; also the balance of their Fancy Shapes that were $1.00, $1.25 and $1.50, for 50c.

For the Bicycle Meet, Friday afternoon, July 1st, now open at the G. T. R. Up-town Ticket Office, (W. Bunton's.) Reserved Seats 50c. each, in covered stand.

BROKE INTO A STORE.

Three Small Boys are Charged With the Crime—Remanded Until Wednesday Next.

Yesterday afternoon the fruit and fish store of Jos. Philp, on George street, was broken into and a large quantity of fish and fruit stolen from the storehouse, which was separated from the fruit store by a locked door.

The three bold burglars are all under arrest in the persons of a trio of small boys, who were observed by Mr. John Montgomery coming out of the lane in the rear of the store on Sunday afternoon, carrying a number of bananas. After their departure he went up the alley to investigate and discovered that one of them entered through an air hole in the window and, opening the door from the inside, admitted the others. About forty pounds of fish were taken and secreted in bags in the lane, while a quantity of fruit was also missing. Officer Stewart and Ernie Lawrence joined in the chase after the culprits. One was caught, and on giving his name his father brought in a younger brother who was one of the party. The third lad was captured this morning.

The boys have been remanded until Wednesday.

Fancy Parasols clearing at 50c and $1.25, were $1.00 to $2.00, at Turnbull's.

Peterborough will never again it is probable, have an opportunity of hearing such a famous band as Lieut. Godfrey's which is in the Charlotte Street Rink to-night. No one can afford to miss it.

CRICKET.

The Peterborough Cricket Club journeyed to Lakefield on Saturday afternoon minus five men to play the eleven of Lakefield on the Sheldrake school grounds.

Peterborough winning the toss and going in to bat first on a rather rough wicket, were all dismissed for 40 runs, Miles Hamilton being the only one to make double figures.

The bowling of A. Bell, a member of the Boston Zingari Club, who is spending his holidays at Stony Lake, was very effective, he taking six wickets for about ten runs.

Lakefield opened their innings very well, but they could not keep up the pace, they all being out for 32. J. Watson's 12 was the highest score.

Taking it altogether Lakefield has the material to make a very good eleven. All they want is practice. They have good bowlers, splendid fielders, and they have in Mr. G. Hilliard a first-class wicket keeper.

The match was decided on the first innings. Peterborough had a second innings to play out time, making in all 57 runs, H. Burnham making top score with a well-played 26.

After the match the team was splendidly entertained to tea by Rev. A. W. Mackenzie.

On departing for home three cheers were given for the ladies, and the Lakefield Cricket Club.

The return match will be played on the Nicholls Park oval in about two weeks. The Pro. is expected on Friday next. The score was as follows :

THE WHEEL.

An army of carpenters are at work at the Driving Park. At a result of their labours last week a most commodious and substantial grand stand now stretches from the old covered stand right down to the entrance gate. A glance beneath the stand will satisfy the most timid that nothing of the kind could be built with a greater regard to the safety of the public. Great timbers and posts are the guarantee of its substantiability. Every portion of the old stand has been removed with the exception of the covered portion which was erected a few years ago.

Two more gates are being cut through the fence in order that the crowd may be handled more easily.

The press men are being well looked after. Their gallery is right in front of the grand stand, opposite the finishing post. Desks and chairs are provided and the reporters have the best view of the proceedings that can be obtained in the grounds. Across the track is the judges stand and a covered platform for the Athenaum band.

The track was freshly harrowed and raked over on Saturday. All the weeds have been removed and the rollers are now at work.

A telegram was received from Fred Loughead this morning to the effect that he would enter all professional and championship events. This will make the races a hundred per cent. more interesting, as Loughead is the holder of the American mile and half mile championships.

The riders are beginning to arrive in droves. This morning McLeod, Boake, Richardson and Wilson came up from Montreal, where they were attending a race meeting. The noon train from Toronto brought in members of the Cleveland pacing team and Messrs. Moore, Taylor and French of the T.A.C. racing team.

The riders suggest that some attention be given the north east corner of the track. It is a little soft just where the riders turn into the stretch.

Owing to the rush for racing wheels in the Brantford factory Mr. Milt Walker's racer did not arrive until this morning and he has had no opportunity of training. Local enthusiasts are endeavouring to persuade him to ride anyway on the lat, but it would be a big handicap to carry considering the shape the visiting riders are in. His new wheel is a beauty and his many friends in town would be more than delighted to see him push it to victory on Friday.

The balance of a line of Ladies' Sailors, were $1.25, to clear at 50c, at Turnbull's Remnant Sale ; also another line at 25c.

PERSONAL.

Mr. W. H. Wrighton is attending the Lindsay cheese board to-day.

Mrs. Louis Archambault, of Lindsay, is visiting friends in town.

Mrs. D. Costello left on Saturday for Rochester, where she will reside.

Mr. J. McCaig, of the Collegiate Institute staff, has left to spend his holidays at his home in Collingwood.

Mr. H. R. H. Kenner left on the midnight train Friday for Montreal, from whence he sailed for Europe on Saturday.

Miss Edna Hoodless, daughter of Mr. John Hoodless, Eastcourt, Hamilton, is visiting in town, the guest of her aunt, Mrs. (Dr.) Hunter, Gilmour street.

Mr. Bolton Armstrong arrived in town on Saturday night from Cincinnati, being called to Peterborough on account of the serious illness of his father.

Miss Helen Rose, daughter of Mr. and Mrs. Ralph Ross, Pembroke, is spending the summer with her grandparents, Mr. and Mrs. W. H. Wrighton, McDonel street.

All ends of Ribbons, Laces, Frillings and Embroideries, at Turnbull's Remnant Sale, at your own prices.

No pleasanter way to spend an evening than by attending the Open-air Entertainment in the Driving Park, evening of July 1st. Splendid programme. All seats in Grand Stand free. Admission 25c. 2d

TWO IMPORTANT BYLAWS.

On Wednesday next, June 29th, two important bylaws will be submitted to the approval of the ratepayers. The voting on both will affect, favourably or unfavourably, our future progress and prospects, as they are approved or rejected. These bylaws are interdependent, since, upon the one, will depend the efficiency, in the public interests, with which the other will, if adopted, be carried into effect.

The main proposition in the bylaw, to change and simplify the mode of representation of the town and the administration of its affairs, is expressed in the following paragraph copied from the bylaw :

(1) The council of the Town of Peterborough shall be composed of a mayor and of one alderman for each one thousand of the population of the town, as determined by the last census of the Dominion of Canada, to be elected by general vote.

This means the election of representatives in the same manner as a mayor is now chosen. That is every ratepayer instead of having votes for three councillors as at present will have a vote for the whole number of aldermen that will be chosen under the new system. Without going into details of the disadvantages in administration that almost necessarily result from the application of the present system to municipal government, it is almost too obvious to need pointing out that the proposed new system will be an advantage to the town, and will improve the status of both electors and elected. The elector will receive an additional feeling of responsibility in exercising his franchise. His choice will be enlarged and he will realize that he is having a voice in the selection of a whole council instead of a mere fraction. He will, therefore, be apt to exercise greater caution and thoughtfulness in selecting the men who will represent the whole town. At the same time the alderman thus elected will have a greater sense of responsibility than he would have if he were the choice of only a section of the town. He will have a larger constituency to serve and will feel that he cannot depend upon any other means of commending himself to the whole body of the electors than a strict discharge of his duties towards the town as a whole. He cannot court popularity by the exercise of favouritism to any particular section, because he represents no section, and it will not pay to incur the hostility of the larger portion of the electors by showing special favours. Thus the adoption of the new mode of representation will place the people and their representatives in a new relation, which will improve the position of both.

A council elected as is proposed by the bylaw will be in a position to take a broader view of municipal matters and to adopt a more comprehensive policy in advancing the interests of the town as a whole. The council can act independently and they can be assured of general approval of their course so long as it has resulted in advancing the general interests of the town. We have advanced beyond the status of a country village and we need councillors and electors who will sympathize with a policy that is worthy of the importance of the interests to be promoted. Another view of the new system is not to be forgotten. Under it we shall have fewer representatives, and of course this means less expense ; for every representative must inaugurate some plan and carry through, if possible, some measure to show to his constituents that he is doing something in the position in which they have placed him. This is the rule in all legislative bodies. Thus the larger number of representatives, the larger the expenditure, and if the expenditures are not made in the general interests of the whole town as they will be necessarily by a council that represents, and is accountable, to the whole town, public injury results.

In every way the change, it seems, will be for the advantage of the public, to whose most thoughtful consideration the bylaw to be voted on on Wednesday is commended. The elector will have a chance to vote for nine or ten councillors, as the case may be, instead of only three as at present. A mature consideration of the circumstances should convince the electors that the step proposed by the bylaw is one in advance, and if that opinion prevails generally among the electors a large vote should be polled to show the public sympathy in the matter. All persons, ladies included, who are entitled to vote at municipal elections are eligible to vote for the above bylaw.

THE EXAMINER has frequently in the public interest called attention to the wasteful and expensive mode of dealing with the streets and walks of the town. For the past fifteen years we have spent upon an average $10,000 a year upon the streets, with the result that we not only have not one mile or even one rod of properly constructed street or pavement, but we have also wretchedly defective streets and walks that a country village would not be proud of. We have put down eighty miles of wooden walk which lasts at the best only a dozen years, with constant expense for repairs. If we had put down concrete pavements a dozen years ago they would have been good yet and for a dozen years more. The cost in the long run is not very much greater ; then why not build walks that will not have to be renewed every few years and not be falling to pieces in spots in the meantime ? Our streets have been treated in the same slipshod fashion. We haven't a mile of good streets ; our streets as a whole are a discredit to the town, and they have cost almost as much as good streets, properly laid down, and practically everlasting would have done. It pays in street work, as well as other work, to do things well, and especially in the matter of streets we should have permanence in view. We cannot construct good streets without proper tools and materials. We have the materials in abundance, but we cannot lay down and properly compact street metal without a good heavy roller. And experience has proven that a proper steam roller is the most effective and cheapest. All authorities on road making insist on the necessity of thorough rolling. If we had a steam roller we could so thoroughly pack the metal on our streets that for purposes of travel it is practically solid. A street thus treated will be a good one, and a street made any other than the right way will be a perpetual bill of expense and a bad street, in spite of all attention.

We have to have several bridges built and it is best they be built as permanent structures, that posterity will get as much benefit of as the present generation. That is why we should ask posterity to help pay for these bridges. In the past many of our bridges have been paid for by a direct tax. It is now proposed in the bylaw to be voted for on Wednesday, June 29th, to get authority to raise $10,000, to be devoted to building new bridges and procuring a steam roller. The merit of this proposition is the principle of permanence involved. The debentures upon which the money is to be raised will run 20 years. Meantime we shall be enjoying all the advantages of these expenditures and shall only be paying a small share year by year. This is the fair way and thus we shall have permanent bridges and permanent streets, with the payments easily distributed over 20 years.

It is understood that Mayor Davis, with commendable interest in the welfare of the town, is preparing a circular letter, dealing generally with the question of street improvement, and setting forth facts that will be worthy of the careful study of every ratepayer. In the past we have been running things in a slipshod way, spending big sums on slipshod temporary street work. It is high time that we adopted a different method, and the building of permanent road beds is the only way to have permanent streets, that will not only last but be a comfort and convenience to those using them. The best authorities say that we can do this effectively and at the same time cheaply, by the help of a steam roller. The ratepayers are urged to consider this question seriously and to decide whether permanent work both for bridges and streets is not the cheapest and best in the long run, giving us at present good streets and bridges for a very small present payment and giving posterity a chance also to pay their share. Only freeholders or tenants on long leases can vote on the proposed money bylaw on Wednesday.

It is to be hoped that the ratepayers will take a large view of the matters that will come before them on Wednesday and decide in the best interests of the present and future progress of the town.

SERMON TO YOUNG MEN

Delivered by Rev. J. E. Moore, Ph. B., Last Evening in the Mark Street Church.

Last evening Rev. J. E. Moore, Ph.B., preached an interesting and effective sermon to "Young Men," taking for his text, "Is the young man Absalom safe ?" The discourse was carefully prepared and delivered in a clear voice and with great earnestness. The name Absalom signifies signifies the father of peace, but he was called the wrong name, he being of an ambitious and contentious disposition. He was the son of King David and was remarkable for his beauty and luxuriance of his hair. He was guilty of grevious wrong-doing and took refuge in his grandfather's court. Through the interposition of Joab he was restored to the King's favour. Ultimately his father's throne became the object of his unholy ambition. He stole the hearts of the men of Israel and got himself proclaimed King at Hebron. David retired from Jerusalem, but Absalom followed him with his men of war and the two armies met in the wood of Ephriam. The battle which ensued was severe and bloody, 20,000 being slain. Absalom's men were defeated. He was riding on a mule and his long hair caught in the branches of an oak tree. Joab thrust three darts through his heart. Cushi carried the king the tidings of the battle, who asked three times :—Is the young man Absalom safe ? When he knew his son had been slain, he went into his chamber and wept bitterly, saying, "O, my son Absalom, my son—my son Absalom, would God I had died for thee, O, Absalom, my son, my son." The possibilities of young men in the commercial, educational and ecclesiastical fields were sketched, urging his hearers to climb for there is plenty of room at the top. The speaker in a most impassionate appeal held up before the promising young men of his congregation the ideal of a lofty moral and intellectual manhood. Important positions in the church and state must be filled by the young men of to-day. The perils to which young men are exposed in town and city life were pointed out, and all were urged to fortify themselves against modern evils by enlisting under the blood-stained banner of Calvary's cross, and engaging in the good fight of faith. Intemperance, lust, gambling, and other kindred evils were held up to scorn, and all were urged to flee from sin as a raging flame. The singing was excellent, and the service was most interesting throughout.

THE WHEEL.

An army of carpenters are at work at the Driving Park. As a result of their labours last week a most commodious and substantial grand stand now stretches from the old covered stand right down to the entrance gate. A glance beneath the stand will satisfy the most timid that nothing of the kind could be built with a greater regard to the safety of the public. Great timbers and posts are the guarantee of its substantiability. Every portion of the old stand has been removed with the exception of the covered portion which was erected a few years ago.

Two more gates are being cut through the fence in order that the crowd may be handled more easily.

The press men are being well looked after. Their gallery is right in front of the grand stand, opposite the finishing post. Desks and chairs are provided and the reporters have the best view of the proceedings that can be obtained in the grounds. Across the track is the judges stand and a covered platform for the Athenaum band.

The track was freshly harrowed and raked over on Saturday. All the weeds have been removed and the rollers are now at work.

A telegram was received from Fred Longhead this morning to the effect that he would enter all professional and championship events. This will make the races a hundred per cent. more interesting, as Longhead is the holder of the American mile and half mile championships.

The riders are beginning to arrive in droves. This morning McLeod, Blake, Richardson and Wilson came up from Montreal, where they were attending a race meeting. The noon train from Toronto brought in members of the Cleveland pacing team and Messrs. Moore, Taylor and French of the T.A.C. racing team.

The riders suggest that some attention be given the north east corner of the track. It is a little soft just where the riders turn into the stretch.

Owing to the rush for racing wheels in the Brantford factory Mr. Milt Walker's racer did not arrive until this morning and he has had no opportunity of training. Local enthusiasts are endeavouring to persuade him to ride anyway on the 1st, but it would be a big handicap to carry considering the shape the visiting riders are in. His new wheel is a beauty and his many friends in town would be more than delighted to see him push it to victory on Friday.

The balance of a line of Ladies' Sailors, were $1.25, to clear at 50c, at Turnbull's Remnant Sale ; also another line at 25c.

TWO IMPORTANT BYLAWS.

On Wednesday next, June 29th, two important bylaws will be submitted to the approval of the ratepayers. The voting on both will affect, favourably or unfavourably, our future progress and prospects, as they are approved or rejected. These bylaws are interdependent, since, upon the one, will depend the efficiency, in the public interests, with which the other will, if adopted, be carried into effect.

The main proposition in the bylaw, to change and simplify the mode of representation of the town and the administration of its affairs, is expressed in the following paragraph copied from the bylaw :

(1) The council of the Town of Peterborough shall be composed of a mayor and of one alderman for each one thousand of the population of the town, as determined by the last census of the Dominion of Canada, to be elected by general vote.

This means the election of representatives in the same manner as a mayor is now chosen. That is every ratepayer instead of having votes for three councillors as at present will have a vote for the whole number of aldermen that will be chosen under the new system. Without going into details of the disadvantages in administration that almost necessarily result from the application of the present system to municipal government, it is almost too obvious to need pointing out that the proposed new system will be an advantage to the town, and will improve the status of both electors and elected. The elector will receive an additional feeling of responsibility in exercising his franchise. His choice will be enlarged and he will realise that he is having a voice in the selection of a whole council instead of a mere fraction. He will, therefore, be apt to exercise greater caution and thoughtfulness in selecting the men who will represent the whole town. At the same time the alderman thus elected will have a greater sense of responsibility than he would have if he were the choice of only a section of the town. He will have a larger constituency to serve and will feel that he cannot depend upon any other means of commending himself to the whole body of the electors than a strict discharge of his duties towards the town as a whole. He cannot court popularity by the exercise of favouritism to any particular section, because he represents no section, and it will not pay to incur the hostility of the larger portion of the electors by showing special favours. Thus the adoption of the new mode of representation will place the people and their representatives in a new relation, which will improve the position of both.

A council elected as is proposed by the bylaw will be in a position to take a broader view of municipal matters and to adopt a more comprehensive policy in advancing the interests of the town as a whole. The council can act independently and they can be assured of general approval of their course so long as it has resulted in advancing the general interests of the town. We have advanced beyond the status of a country village and we need councillors and electors who will sympathize with a policy that is worthy of the importance of the interests to be promoted. Another view of the new system is not to be forgotten. Under it we shall have fewer representatives, and of course this means less expense ; for every representative must inaugurate some plan and carry through, if possible, some measure to show to his constituents that he is doing something in the position in which they have placed him. This is the rule in all legislative bodies. Thus the larger number of representatives, the larger the expenditure, and if the expenditures are not made in the general interests of the whole town as they will be necessarily by a council that represents, and is accountable, to the whole town, public injury results.

In every way the change, it seems, will be for the advantage of the public, to whose most thoughtful consideration the bylaw to be voted on on Wednesday is commended. The elector will have a chance to vote for nine or ten councillors, as the case may be, instead of only three as at present. A mature consideration of the circumstances should convince the electors that the step proposed by the bylaw is one in advance, and if that opinion prevails generally among the electors a large vote should be polled to show the public sympathy in the matter. All persons, ladies included, who are entitled to vote at municipal elections are eligible to vote for the above bylaw.

THE EXAMINER has frequently in the public interest called attention to the wasteful and expensive mode of dealing with the streets and walks of the town. For the past fifteen years we have spent upon an average $10,000 a year upon the streets, with the result that we not only have not one mile or even one rod of properly constructed street or pavement, but we have also wretchedly defective streets and walks that a country village would not be proud of. We have put down eighty miles of wooden walk which lasts at the best only a dozen years, with constant expense for repairs. If we had put down concrete pavements a dozen years ago they would have been good yet and for a dozen years more. The cost in the long run is not very much greater ; then why not build walks that will not have to be renewed every few years and not be falling to pieces in spots in the meantime ? Our streets have been treated in the same slipshod fashion. We haven't a mile of good streets ; our streets as a whole are a discredit to the town, and they have cost almost as much as good streets, properly laid down, and practically everlasting would have done. It pays in street work, as well as other work, to do things well, and especially in the matter of streets we should have permanence in view. We cannot construct good streets without proper tools and materials. We have the materials in abundance, but we cannot lay down and properly compact street metal without a good heavy roller. And experience has proven that a proper steam roller is the most effective and cheapest. All authorities on road making insist on the necessity of thorough rolling. If we had a steam roller we could so thoroughly pack the metal on our streets that for purposes of travel it is practically solid. A street thus treated will be a good one, and a street made any other than the right way will be a perpetual bill of expense and a bad street, in spite of all attention.

We have to have several bridges built and it is best they be built as permanent structures, that posterity will get as much benefit of as the present generation. That is why we should ask posterity to help pay for these bridges. In the past many of our bridges have been paid for by a direct tax. It is now proposed in the bylaw to be voted for on Wednesday, June 29th, to get authority to raise $10,000, to be devoted to building new bridges and procuring a steam roller. The merit of this proposition is the principle of permanence involved. The debentures upon which the money is to be raised will run 20 years. Meantime we shall be enjoying all the advantages of these expenditures and shall only be paying a small share year by year. This is the fair way and thus we shall have permanent bridges and permanent streets, with the payments easily distributed over 20 years.

It is understood that Mayor Davis, with commendable interest in the welfare of the town, is preparing a circular letter, dealing generally with the question of street improvement, and setting forth facts that will be worthy of the careful study of every ratepayer. In the past we have been running things in a slipshod way, spending big sums on slipshod temporary street work. It is high time that we adopted a different method, and the building of permanent road beds is the only way to have permanent streets, that will not only last but be a comfort and convenience to those using them. The best authorities say that we can do this effectively and at the same time cheaply, by the help of a steam roller. The ratepayers are urged to consider this question seriously and to decide whether permanent work both for bridges and streets is not the cheapest and best in the long run, giving us at present good streets and bridges for a very small present payment and giving posterity a chance also to pay their share. Only freeholders or tenants on long leases can vote on the proposed money bylaw on Wednesday.

It is to be hoped that the ratepayers will take a large view of the matters that will come before them on Wednesday and decide in the best interests of the present and future progress of the town.

SERMON TO YOUNG MEN

Delivered by Rev. J. E. Moore, Ph. B., Last Evening in the Mark Street Church.

Last evening Rev. J. E. Moore, Ph.B., preached an interesting and effective sermon to "Young Men," taking for his text, "Is the young man Absalom safe?" The discourse was carefully prepared and delivered in a clear voice and with great earnestness. The name Absalom signifies signifies the father of peace, but he was called the wrong name, he being of an ambitious and contentious disposition. He was the son of King David and was remarkable for his beauty and luxuriance of his hair. He was guilty of grevious wrong-doing and took refuge in his grandfather's court. Through the interposition of Joab he was restored to the King's favour. Ultimately his father's throne became the object of his unholy ambition. He stole the hearts of the men of Israel and got himself proclaimed King at Hebron. David retired from Jerusalem, but Absalom followed him with his men of war and the two armies met in the wood of Ephriam. The battle which ensued was severe and bloody, 20,000 being slain. Absalom's men were defeated. He was riding on a mule and his long hair caught in the branches of an oak tree. Joab thrust three darts through his heart. Cushi carried the king the tidings of the battle, who asked three times :—Is the young man Absalom safe? When he knew his son had been slain, he went into his chamber and wept bittery, saying, "O, my son Absalom, my son—my son Absalom, would God I had died for thee, O, Absalom, my son, my son." The possibilities of young men in the commercial, educational and ecclesiastical fields were sketched, urging his hearers to climb for there is plenty of room at the top. The speaker in a most impassionate appeal held up before the promising young men of his congregation the ideal of a lofty moral and intellectual manhood. Important positions in the church and state must be filled by the young men of to-day. The perils to which young men are exposed in town and city life were pointed out, and all were urged to fortify themselves against modern evils by enlisting under the blood-stained banner of Calvary's cross, and engaging in the good fight of faith. Intemperance, lust, gambling, and other kindred evils were held up to scorn, and all were urged to flee from sin as a raging flame. The singing was excellent, and the service was most interesting throughout.

FOR WEAKNESS AND DEBILITY.

Consumption is often caused by a weak state of the blood, permitting the germs to obtain a foothold. That Dr. Ward's Blood and Nerve Pills cure disease and make the system safe, the following evidence amply proves:

I suffered for two years with what the family doctor claimed was an incurable case of consumption and debility, telling me that my life was but for a few months at the best. As I was about to give up, I picked up your advertisement and resolved thereupon to give Dr. Ward's Blood and Nerve Pills a trial. The first box of them worked such a wonderful change I felt that at last I had struck a medicine that would help me. I continued the use of the Pills, receiving from them day by day flesh, strength and vigor, in fact friends of mine that had not seen me for some time hardly knew me, so great was the change that Dr. Ward's Pills worked. Out of the fullness of my heart in the joy of my being rescued from the grave, comes this testimonial. I shall, as long as God permits me to live, herald forth their usefulness and life-saving power to all afflicted by that monster of disease that almost claimed me for its victim, thereby repaying you in a small measure for the grand, new lease of life Dr. Ward's Blood and Nerve Pills have given me. Yours truly, JOHN P. THORP, Cork St., Guelph, Ont. Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by THE DR. WARD CO., 71 Victoria St., Toronto. Book of Information free.

WILL NAME A COADJUTOR.

An Assistant to Be Appointed to Archbishop Lewis.

Kingston, June 25.—The Synod of Ontario yesterday passed the canon providing for the appointment of a bishop coadjutor, owing to the advanced age and consequent feeble health of Archbishop Lewis, the Metropolitan of Canada. It was also decided that the coadjutor shall have the right of succession to the archiepiscopal see, and that he shall have the same authority over the temporal affairs of the diocese as the archbishop.

The Archbishop and Mrs. Lewis will sail for England on June 30th.

The Synod will meet in October to appoint a coadjutor bishop. The Synod pledged itself to provide a stipend of $2,500, a residence and travelling expenses for the coadjutor.

Making for the Sault.

Sault Ste. Marie, June 25.—While here recently Messrs. Tiffin and White of the Grand Trunk Railway freely stated that the G.T.R. would undoubtedly shortly commence the construction of a line from a point on the Northern to the Sault. The line will run northwest, crossing the French River in the township of Mowat and striking the Sault branch of the C.P.R. at Massey. The G.T.R. has running powers over portions of the road from Massey to the Sault. A good deal of grading and rock cutting was done some years ago on the line east of Massey. As soon as construction is commenced on this side the Northern Pacific will push their line eastward to the Sault from Minneapolis, forming a junction here. The present International Bridge will be utilized for the connection, as the G.T.R. already has a fourth interest in it. With increased development of the water power the Sault will take a fresh start towards becoming a city in the near future.

Salvatori Gets Ten Years.

CAWDOR CASTLE.

How Macbeth, Who Founded It, Happened to Select Its Site.

The late Earl of Cawdor was the owner of two charming residences in Wales—Stackpole Court, Pembrokeshire, where he died, and Golden Grove, Carmarthenshire—but these were more pleasure houses by comparison with the ancestral home of the Campbells, Cawdor castle at Nairn. This fine north British dwelling remained almost undisturbed from the death of Sir Hugh Campbell in 1716 for a period of nearly 150 years, when it was conscientiously restored by its late owner. Cawdor castle itself had its rise in a fierce and wild age, around which traditions of a hazy nature cluster. It is a legend in Nairn that the murder by Macbeth was committed in an old chamber of the castle tower, and visitors wishing to conduct themselves with gravity and respectful reverence are expected to receive this story with an expression of solemnity not untinged with awe. That the "silver skin" of King Duncan was "laced with his golden blood" in this particular apartment is a fable that need not now be enlarged upon.

Cawdor castle by its outward aspect is, however, strongly suggestive in its gaunt and minatory massiveness of the fierce and troublous times of the ambitious Macbeth. The story goes that the thane who founded it was much concerned about the choice of an abode and was warned in a dream to place his worldly wealth in a coffer and to bind it upon the back of an ass and wherever the animal should halt to set about his work. The ass "came to a sandstill at the russetburn at the third hawthorn from the starting point" and lay down. Curiously enough, as if to confirm this tradition, to this day in the dungeon beneath the tower a hawthorn grows. The other two trees have disappeared, the last one as lately as 1836. Many stirring tales are told of the later history of Cawdor castle, which came to be left untenanted for long years owing to the Campbells departing for Wales, where they married young ladies with ample fortunes.—St. James Gazette.

WHERE THE JOKE CAME IN.

The Boys Hauled the Professor Back, Much to Their Chagrin.

A very good story is told of the head of a college who was the possessor of a very clumsy, old fashioned vehicle to which he was very partial and which he constantly used in riding through the streets of the town, to the disgust of most of the students.

A plan was formed among some of the boys that on a certain night they would remove this offensive vehicle from the coachhouse to a wood about half a mile from the college. Their intention was to run the carriage into the thickest of the woods and underbrush and leave it there.

But the principal by some means learned or suspected their intention.

Accordingly, in the evening, he quietly went out to the coachhouse, and, well wrapped up, crouched in a corner of the carriage and waited.

Soon the boys came, very stealthily, and, without looking into the vehicle, began their operations very quietly, and in whispers, and with many a "Hush" and "Take care" and "Look out," they succeeded in getting it out of the house and yard and into the road.

There they were all right, but they were puzzled to find the thing so heavy to haul, and amid grumblings and puffings and pantings, varied occasionally with a strong expression of disgust, they succeeded in reaching the woods, the principal listening to their complaints and rather enjoying the situation.

Having with some difficulty backed the carriage into the brush, they began to congratulate each other on the success of their maneuver. The old gentleman, letting down the window, to their utter surprise and alarm, very quietly said:

"Now, young gentlemen, just take me back very carefully, if you please."—Spare Moments.

Birds as Surgeons.

Some interesting observations made by M. Fatio on the surgical treatment of wounds by birds were recently brought before the Physical society of Geneva. In these it was established that the snipe had often been observed in repairing damages. With its beak and feathers it makes a very creditable dressing and has even been known to secure a broken limb by means of a stout ligature. On one occasion M. Fatio killed a snipe which had on its chest a large dressing composed of down from other parts of the body and securely fixed to the body by coagulated blood. Twice he had snipe with interwoven feathers strapped on to the site of a fracture of one or other limb. The most interesting example was that of a snipe both of whose legs he had unfortunately broken by a misdirected shot. He only recovered it on the following day, when he found that the wounded bird had contrived to apply dressings and a sort of splint to both limbs. In carrying out this operation some feathers had become entangled round the beak, and not being able to use its claws to get rid of them the poor creature was almost dead from hunger when found.—Public Opinion.

INSULTED ONLY HIS HAT.

A Duel Which Didn't Take Place Between Houssaye and Sherbette.

Houssaye and his wife once went to the ball of the Hotel de Ville with Victor Hugo and Mme. Hugo. When they entered the dancing hall, there were very few vacant chairs. Upon one that Houssaye noticed there was merely a man's hat. He took up the hat and gave the chair to Mme. Hugo; then, not wishing to hold the hat the rest of the evening, he put it on the floor. Its owner soon came back. He was a celebrated duellist, a deputy, M. Sherbette. He walked straight up to the chair, saw his hat on the floor and turned savagely to Houssaye:

"Is it you, sir, who have removed my hat?" he said.

"Yes," said Houssaye.

"Did you put it on the floor?"

"Yes. Do you think I ought to have put it on my head?"

"Sir, you have insulted me. Here is my card."

Houssaye in turn took out a card and threw it into the hat.

"Sir," said the deputy furiously, "do you suppose I am going to pick up that hat?"

"Sir," answered Houssaye, "do you suppose I am going to put it on your head?"

"I require, sir," said the deputy, "that you replace my hat on the chair where it was."

Houssaye merely laughed, and finally the deputy, under pretext of looking at the card that had been thrown into the hat, picked the hat up.

"M. Houssaye," he said, "we are from the same town, a reason more for our meeting."

"I await your seconds," said Houssaye.

Within 15 minutes four seconds had been found, and it was decided that there should be a duel with pistols at 20 paces in the Bois de Boulogne at daybreak or as soon as the ball was over. Accordingly after spending the rest of the night dancing principals and seconds met in the cloakroom ready to proceed to the dueling ground.

"It is a nuisance," said one of the deputy's seconds, "to have to go to the Bois in this snowstorm."

"Come," said the other to his principal, "as you are the injured party you can apologize."

"Never!" said the deputy.

The seconds then went to Houssaye.

"Say one word to free us from this task. We want to go to bed."

"Never!" said Houssaye.

He thereupon jammed on his hat with a slant over the right ear, the deputy jammed on his with a slant over the left, and they were ready to start. At this juncture Hugo, who wanted to go home with his wife, interposed.

"After all," he said, "I think that Arsene Houssaye, having insulted only M. Sherbette's hat, might make an apology to it."

The deputy paused.

"If Arsene Houssaye declares," he said, "that in offending my hat he did not mean to offend me, I will be satisfied with his declaration."

Houssaye promptly assured the deputy that he had not aimed at him under his hat, and the duel was at an end.—Exchange.

How much property a man will leave when he dies depends largely upon his health. The man who suffers from ill-health stands little show of being a successful business man. The man who comes to his desk in the morning with a headache, who suffers all day from dullness and drowsiness, who goes to his meals without an appetite and tosses restle sly through the night without sleep, is not likely to leave a competence for his widow and orphans. Success is even more dependent upon health than upon ability.

Few men realize these truths. They think that everything can be accomplished by work, and that health is a secondary consideration. Work is useless unless it is good work, and good work is never done save by a thoroughly healthy man. Dr. Pierce's Golden Medical Discovery is the best of all health restorers and health preservers. It makes the stomach strong and active. It sends a man to his meals thoroughly hungry every time. It facilitates the flow of digestive juices and makes assimilation perfect. It invigorates the liver. It purifies the blood and fills it with the life-giving elements of the food. It is the great blood-maker and flesh-builder. It tears down inert, half-dead tissues and builds new, firm, muscular flesh. It does not build flabby fat like cod liver oil and does not make people more corpulent.

Mr. John Brooks, of Boylston, Mass., writes: "I write to tell you of the great benefit I have received from Dr. Pierce's Golden Medical Discovery. I was taken with a bad cold which settled on my lungs. The doctors said I was in consumption and could not get well. I took Cod Liver Oil and it did me no good. After taking it four months I heard of your 'Golden Medical Discovery' and it saved my life."

PLAGUE OF LEGISLATORS.

Why Some of the States Once Had Two Capitals.

Baton Rouge freely translated means red stick. That is the limit of my understanding of the affair, however. It is a quaint old town, consisting chiefly of river. When I studied geography several decades ago, I knew that Louisiana had two capitals, one at New Orleans and the other at Baton Rouge. They have got tired of entertaining legislators at New Orleans of late years and have unloaded the whole job upon the smaller and more nearly defenseless city.

Looking back to those old days, I recall that Louisiana was one of the very few states which required two vents for their legislatures. Connecticut was one, with Hartford and New Haven as capitals, and Rhode Island, the smallest of states, was another, with Providence and Newport. Of late years there has been a sort of centralization of capitals. The fashion of having one at every enterprising city in a state has fallen into disuse. You might tramp all over any of the states nowadays and not run the risk of blundering into a legislature in full blast where it might have been least expected. I asked the Pocatello man what he thought was the reason for the wealth of capitals in earlier times.

"In those days," he said, "the states were young and tender and had not fully developed their muscle and their power of resisting great assaults. It was therefore to distribute the evil of a legislature sitting over a great deal of country so as not to give any particular city the worst of it. As time went on and a town showed especial hardihood and ability to stand great calamity the legislature was switched upon it as a perpetual and permanent institution. New Orleans and Newport and other towns which in other days were capitals had the good luck to draw two aces and to win out, sending the legislature in the one instance to Baton Rouge and in the other to Providence. It takes a game town to stand a persistent plague of legislature.

COLOR IN FLAGS.

Red Predominates Largely In the Standards of the Chief Nations.

Though the policy of military authorities in using less glaring colors in uniforms has been very marked of late years red remains the most popular color for national standards. Of 35 countries 19 have flags with red in them, the list including the United States, England, France, Germany, Austria, Italy, Spain, Denmark, Belgium, Sweden, Switzerland, Turkey, Mexico, Chile, Portugal, Venezuela and Cuba.

The countries which have blue as an element of their flags are the United States, Russia, France, England, Holland, Ecuador, Sweden, Chile, Venezuela, Portugal and Cuba. Three countries have black as one of the elements of their flags, Germany, Belgium and China, but Germany is the only one of three which has black and white together.

There are five countries (excluding from consideration Ireland, the familiar flag of which is not officially recognized among the national standards) which have green as a color; Brazil, the flag of which is green chiefly; Mexico, Egypt, Italy and Persia. There are nine countries in which the flag is partly of yellow. These countries are Austria, Spain, Belgium, Egypt, Sweden, China, Persia, Brazil and Venezuela. Countries with flags partly white are the United States, France, Germany, Russia, Austria and Italy, six of the seven chief powers.

There is no white in the national standard of England, but the British naval flag has a white background. Other countries having white in their flags are Switzerland, Turkey, Persia, Japan, Mexico, Holland, Denmark, Portugal, Cuba, Chile and Ecuador, the flag of which is nearer white than any other country, being made up of two parallel white columns, between which is a column of blue, upon which are white stars.

Made Sure of It.

Some time ago I was at a small village in Somersetshire fitting up a steam dairy.

As is well known, water is a most essential thing in a dairy. So, being unable to obtain a sufficient supply from a well already sunk, it was suggested to open a disused well near and try the water there.

Instructions were given to the men to be careful on opening the well, as it might be unsafe to descend on account of foul air.

They were told to light a candle and let it down, and if it continued to burn they would then know that there was no danger in descending.

On the following day, on asking if it was safe to go down, one of the men replied: "Yes, that's safe enough. I took the candle down with me, and it burnt beautifully."—London Globe.

A GLOBE REPRESENTATIVE

Cured of Lumbago by Dodd's Kidney Pills after his Doctor Failed.

Toronto, June 20.—(Special).—If there is a good thing in creation a newspaper man will find it out. The truth of this is shown by the case of Mr. John H. Parham, a pressman on the Globe staff.

Mr. Parnham has for months suffered from Lumbago, aggravated by the nature of his work in the pressroom. He consulted an eminent local physician, but no benefit resulted from his treatment.

On the advice of a friend he tried Dodd's Kidney Pills, with the result that he was completely cured.

This case is one more proof of the fact that for Lumbago and every other kidney complaint, there is only one cure and that is Dodd's Kidney Pills.

Discouraging.

Would Be Suitor—Good morning, Miss Brown. Quite an opportune meeting, indeed. I have been waiting for a chance to ask when it would be agreeable for me to call on you.

Miss Brown—Oh, you are at liberty to make your own selection.

Would Be Suitor—Thanks. By the way, I see that you have been getting a new horse and carriage.

Miss Brown—Yes. Come around soon and pa'll take great pleasure in driving you out.

There are about 1,500 American students in Paris, most of them in art, and about 900 in Berlin, most of them in music, philosophy and the sciences. In France the degrees and diplomas are granted by the national government and not by the universities.

Perfumes and Discoveries.

What motives impelled those early navigators and explorers to make such sacrifice of time and money to embark upon such uncertain expeditions upon unknown waters and desert wastes; to imperil their lives and fortunes upon such rash ventures, to undergo years of toil, such terrible anxiety, and suffering? With them, as with men in all ages, gold and glory took front rank among the motives. But, strange as it may now seem, it was not the eye or ear's delight only nor geographic curiosity that was consulted. The sense of smell commanded a greater attention and was a greater factor in prompting the astounding enterprise. We are speaking of an age when sanitary science cut no figure in the affairs of life, an age before the ingenious Yankee had made and patented a thousand varieties of toilet soap, an age before a gospel of personal and general cleanliness was preached or practiced. Perfumery, to take the place of soap and water, was in great demand. Rare, expensive and loud perfumes, to antagonize and stifle the offensiveness of unwashed nature, commanded a premium, and its extravagant use then indicated wealth and the upper crust of fashionable society.

In keeping with the ideas of the times, it was the sign and seal of aristocracy, as creditable then as discreditable and unnecessary now, however rank the perfume. Spices and perfumes were not indigenous in Europe. Such merchandise came from the extreme and unknown east by caravan to Alexandria in Egypt. The transportation, added to the cost of production, made such goods enormously expensive. Portugal first, followed by Spain, and lastly by England, all desired a monopoly of that trade. This it was that brought into prominence the great navigators.—H. Hakes' "John and Sebastian Cabot."

DYING BY INCHES!

But Dodd's Kidney Pills will Yet Renew Life.

Thousands of persons die in the prime of life because doctors think Bright's Disease and Diabetes incurable. But Dodd's Kidney Pills cure them both. They *have cured* thousands of cases.

These diseases and other Kidney complaints are as common as ordinary colds. But people don't realize that they are afflicted till the disease has eaten deep into the system. Even then, Dodd's Kidney Pills will positively cure.

Thousands of *people are dying on their feet, but do not realize it.* They notice one or more of these symptoms: shortness of breath, loss of memory, failing sight, ravenous appetite, pale or reddish urine, with brick-colored deposit, scalding when urinating, constipation, nervousness, pains in the loins. Their *only hope* is Dodd's Kidney Pills. They won't fail. They never do.

Dubious Wish.

Mr. Badger always meant well, but he had an unfortunate talent for saying the right thing in the wrong way.

"Everybody must grow old," remarked Mrs. Badger, with a sigh, as her husband finished some remarks apropos of the sudden aging of one of her friends.

"Not everybody," said Mr. Badger, who was nothing if not exact in his statements. "You mean everybody who lives long enough." Then with a fond smile he added, "I can't bear to think that my dear wife may possibly grow old."

Then Mrs. Badger, who was of a hysterical turn, burst into tears, and her husband was filled with amazement.—Youth's Companion.

HEART DISEASE.

Weak, Palpitating, Fluttering, Throbbing Hearts can be Cured.

MILBURN'S HEART AND NERVE PILLS THE REMEDY.

HEART disease has of late years become frightfully prevalent. Day after day the papers record sudden deaths of those who might have lived for years to fill their places in the world if they had only heeded the first signs and warnings of heart trouble and had their heart strengthened by Milburn's Heart and Nerve Pills.

Dizzy spells, skip beats, palpitation, fluttering of the heart, choking and smothering sensation, getting out of breath easily, especially on going upstairs, pain in the left side of the breast, are all indications that the heart requires help.

No remedy will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a normal and healthy condition as Milburn's Heart and Nerve Pills.

Mrs. Jane Alcorn, Woodstock, N. B., says: "For many years I have been afflicted with palpitation of the heart, pain in the breast and dizzy sensation on rising quickly. My appetite was poor and I was completely run down. I could not sleep at night and the nervous, weakness and general debility from which I suffered intensified my misery. My attention was called to Milburn's Heart and Nerve Pills and I started to use them. They have made a wonderful change in my condition, my appetite has been restored and I now get refreshing sleep. My heart troubles have all disappeared and I consider the results in my case most gratifying."

Milburn's Heart and Nerve Pills are sold by all druggists at 50c. a box or 3 boxes for $1.25. T. Milburn & Co., Toronto, Ont.

The Commiotee on Roads and Bridges beg leave to report as follows:

1. That the matter of engaging a caretaker of the Gannon's Narrows Ferry for the balance of the present season at a salary at the rate of not more than $150 per year be left in the hands of Mr. Shaw with power to act, such caretaker to conform to such rules and regulations as the County Engineer shall submit to and which shall be confirmed by the present session of this committee.

2. That the account of $13 for grading and gravelling the approaches to Lang's bridge be paid and also that the account of $11.58 of Cornelius O'Brien for repairs to Burn's bridge be paid.

3. That a special grant of $75 be given towards the Round Lake road in the township of Belmont between McNicholl's gate to White's corner on condition that the united townships of Belmont and Methuen grant $50, and the Ontario Government grant $100 for the same purpose and that the special grant of $100 heretofore granted by this council towards opening up the boundary line between Marmora and Belmont, between lots 14 and 15, both inclusive, be hereby rescinded.

4. That a special grant of $100 be given in equal shares by this county and the township of Harvey towards repairing the Harvey approaches to the Gannon's Narrows Ferry on condition that the Ontario Legislature grant $100 for the same purpose.

5. That the matter of painting Preston's bridge, in the township of Belmont, be left in the hands of Mr. John Brown, with power to act; that the matter of painting Douglas' bridge, in the township of Dummer, be left in the hands of Mr. Hawthorne, with power to act, and that the matter of painting Hope's bridge, in township of Otonabee, be left in the hands of Mr. Anderson, with power to act, the paint in each case to be supplied by the warden for the county.

6. That a special grant of $50 be given towards repairing the road between Douro and Ashburnham on condition that each of the municipalities of Douro and Ashburnham grant $50 for a like purpose, Mr. Peck to be commissioner for the expenditure of same, he to furnish a detailed statement of the manner in which such moneys are expended.

7. That the report of the county engineer be received.

8. That a copy of the report of the county engineer with respect to the Pigeon Creek bridge be forwarded to the town of Peterborough and the county of Victoria, and that they be notified to make an appointment with the warden of this county to visit this bridge and to arrange for the repairs and expenditures proposed, and that the warden and county engineer have full power to act in the premises.

9. That the further repairs to Buckhorn bridge, referred to in the county engineer's report, be left in the hands of the warden and county engineer with power to act.

10. That a new bridge with stone abutments be built to replace the Burns Bridge, over the Indian River, in the township of Douro, and that the County Engineer prepare plans and specifications for the same and submit the same for approval to a committee composed of the Warden, Mr. Anderson and Mr. Hawthorne, and that such committee are hereby empowered to ask for tenders, let the contracts for and do all things they deem necessary in the matter.

11. That the matter of the expenditure of the special grant of $50, granted by paragraph 12 of the January, 1898, report of this Committee for Roads and Bridges in the township of Galway, be left in the hands of the Warden to investigate, with power to him to take such action in the matter as he shall deem wise.

12. That the Lakefield bridge be repainted under the supervision of the County Engineer and Mr. Casemenh, the paint to be supplied by the Warden for the county.

13. That the matter of the raising of the Nassau Bridge be left in the hands of the County Engineer and Mr. Hawthorne.

14. That a new bridge be built to replace Comstock's Bridge over the River Ouse in the township of Asphodel, and that the County Engineer prepare plans and specifications for the same and submit the same for approval to a committee composed of the Warden, Mr. Anderson, Mr. Hawthorne and Mr. Brown, and that such committee are hereby empowered to ask for tenders, let the contract and do all things they may deem necessary in the matter.

15. That a special grant of $50, be given towards repairing the 8th concession, leading from Chemong Lake, of the township of Smith, on condition that the township of Smith grant $50, and the Ontario Legislature $100 for the same purpose.

16. That a special grant of $25 be given to each of the municipalities of Harvey, the united townships of Galway and Cavendish, Chandos, Burleigh and Anstruther and Methuen, for expenditure on roads and bridges therein, and that Mr. Shaw be commissioner for Harvey, Galway and Cavendish; Mr. Eastland, for Chandos, Burleigh and Anstruther; and Mr. Brown for Methuen, each to furnish a certified statement in detail of the manner in which said moneys are expended.

17. Your Committee recommend that inasmuch as it is necessary to have some slight repairs to the Mud Lake bridge in order to make the same safe for travel, and inasmuch as the town of Peterborough has agreed to contribute one-half of the costs of such repairs, the County Engineer be instructed to confer with the Mayor of the Town of Peterborough that such repairs must be done, otherwise the bridge will be closed

18. Your Committee confirm the regulations of the County Engineer with respect to the operations of the Gannon's Narrows Ferry, and direct that they be printed with the minutes of the council.

19. That the Warden, Messrs. Anderson, Fitzgerald, Middleton and Hawthorne be called the Good Roads Committee of the Council, with instructions to arrange with Messrs. A. W. Campbell, Government Road Inspector, and A. F. Wood of Madoc, to lecture on good roads throughout the county, and with power generally to conduct an educational campaign in favour of better, more modern, and more permanent roads, and with power to buy such road-making machinery and operate the same as they see fit.

20. That paragraph 1 of the January report of the Committee on Roads and Bridges be amended by making W. J. Bullock, Commissioner for expenditure of money granted therein to the Township of Douro.

All of which is respectfully submitted.

WM. ANDERSON, Warden.

County Council Chamber, Peterborough, June 25th, 1898.

The report was adopted.

Mr. Middleton, Chairman, presented the report of the Committee on

COUNTY PROPERTY

as follows:

DECORATE FOR THE MEET.

To the Editor of the Examiner:

SIR—During the next three days the undersigned and members of the Committee on Decorations in connection with the Wheelmen's Meet here on July 1st and 2nd, purpose to see as many as possible of our citizens who have business places, and urge them to make some show of decorations on the days mentioned.

As we may not be able to wait on all, I will thank you for space to urge that a general effort be made in the direction indicated.

It is only what is seemly to make some such display upon our national holiday, and in view of the very large number of people visiting town it is well that they should view our business blocks showing to best advantage.

A moderate display will not be expensive, and I would suggest that such decoration as placed be simple and appropriate.

I would suggest also that if private places and residences were decorated it would add to the general good effect, and tend to make a very good impression.

Hoping this suggestion may receive approval, I remain,

Yours respectfully,
ROBERT FAIR,
Chairman Decoration Com.

CHURCH CHIMES.

Last night at the offertory in St. John's the congregation was delighted with a beautifully sung solo by Mrs. Seward, "Guard While I sleep." It was sung in perfect tune, with great expression and sweetness—altogether in a truly artistic way. It is to be hoped that a more frequent opportunity will be given of hearing Mrs. Seward.

Last evening Miss Falconer delightfully demonstrated what a valuable acquisition she is to the choir of St. Andrew's. She sang in a beautiful manner "The Holy City." Her pure, rich voice showed to great advantage in her excellent singing of this fine selection.

GEORGE STREET CHURCH.

Yesterday was review Sunday in the George street Methodist church Sunday school. The review was taken by Miss Fife, Miss Shortly, Miss Finlay and Miss Irwin in a most capable manner from the superintendent's desk. A duet was sung by the Misses Hill and the opening and closing exercises were conducted by Dr. Fife and Mr. J. Jeffries.

ST. LUKE'S CHURCH NOTES.

Rev. J. Bushell, the newly-appointed incumbent of St. Mark's church, Otonabee, conducted services in that church and at Allendale yesterday. Mr. Bushell headed the list in the recent examination of candidates for Holy Orders.

The Sunday School picnic and excursion of St. Luke's will be held on Thursday, July 14th, to Jubilee. The boat will leave the Peterborough wharf at 8.30 a.m., and the Ashburnham wharf at 9 a.m. Tickets 40cents.

U. S. TO WAKE UP OLD SPAIN.

A Fleet to Be Sent to the Spanish Coast —A Determination at Washington to Force the Fighting Everywhere—Commodore Watson and His Eastern Squadron to Go at Once.

On the Rio Guama, June 26, noon, via Kingston, Jamaica, Monday, June 27, 9 a.m.—The advance force of the American army rests on this stream, with the city of Santiago de Cuba four and one-half miles westward, in plain sight.

Last night the outposts, consisting of two companies of the 7th Regiment under Major Coolridge, occupied positions at right angles to the road, guarding the crossing a mile and a half beyond Sabanilla, where three regiments of Gen. Lawton's division are encamped, the 1st, 4th and 17th. The 8th, 22nd and 2nd Massachusetts, with the Rough Riders, 10th Cavalry and portions of several other regiments strung out behind them toward Juragua. About 800 Cubans under Gen. Gonzales were camped around Gen. Lawton's headquarters, but less than 50 of them did scout duty last night.

Gen. Wheeler, to day, with the 1st, 2nd and 10th Cavalry, and the Rough Riders, with dynamite guns, moved up to where Gen. Lawton's outposts were last night, and four batteries of the 3rd Artillery and four Gatling guns, with a special detail under Lieut. Parker, were brought up and planted on the brow of a hill overlooking the basin in which Santiago de Cuba lies.

The top of every hill and mountain north and east of Santiago is occupied by blockhouses, from which the Spaniards can view the movements of the American army as it advances beyond Sabanilla, while to the eastward of the city, gashing every knoll and bit of high ground are Spanish entrenchments.

The correspondents of the Associated Press, from an elevation to the right of the American line to-day, counted 84 of these entrenchments, completely fencing every approach to the city. The trenches have been dug as the ground admitted. The ends of trenches overlap where breaks in the line occur, thus securing comparative safe retreat from rifle fire in case part of the trenches are captured. Upon one of these works modern guns have been mounted. They can be plainly seen with the naked eye.

Spies report that inside the entrenchments are four parallel lines of rifle pits, shoulder deep, and in front of them are marked ranges and several rows of barbed wire fence.

WILL INVADE SPAIN.

The Washington Authorities Have Decided Fully Upon This Move—Reception of the News.

Washington, D.C., June 28.—The Administration yesterday finally came to a decision to send an American squadron to the Spanish coast and into the Mediterranean. Several times since the war broke out rumors to this effect have circulated, but the project had not matured. It required the Spanish movement to the Philippines by Camara's squadron to decide the Navy Department to adopt this bold stroke.

The first announcement through a bulletin posted at the Navy Department of the Government's intention was received with incredulity. There was a suspicion that the story was being floated to deceive the Spanish Government. However, when later in the day the detail of the vessels selected to constitute Commodore Watson's eastern squadron was announced and official orders were given to provide the fleet for four months, it became apparent to the last doubter that the Government was in earnest in this purpose to despatch the fleet to Europe. Three vessels selected as colliers have started already on their way to Newport News to take on a large supply of coal. It will require about a week to get this down to Sampson's fleet, so if the start is to be made from that point, it will be impossible for Commodore Watson to get away before the fourth of July.

This would seem to be an auspicious date for the beginning of an expedition that will, for the first time in the world's history, start from the new world to attack Continental Europe. No attempt is made to deny that the Government is influenced in ordering this movement by a desire to check the progress eastward of the Cadiz fleet. It was not believed that the Spanish admiral could be guilty of the folly of uncovering his home ports in this fashion, but inasmuch as he seems determined to do so, the naval strategists could not do less than take advantage of the opportunity offered to strike a crushing blow at Spain, and thereby save much loss of life and money in the conduct of the tedious campaign in Cuba.

The determination to send this squadron against Spain was the outcome of direct official advices reaching the State and Navy Departments as to the progress of Admiral Camara's squadron. The squadron is the most formidable Spain has afloat, in total tonnage, strength of individual ships, armor and guns.

The eastern squadron, which the United States will now send against Spain, far outranks the Spanish squadron. The Iowa and Oregon exceed the Pelayo and Carlos V. at every point, while the other United States vessels are far superior ship for ship to those of the Spanish squadron, with the single exception of the two Spanish torpedo boat destroyers

Gen. Miles for Cuba.

Preparations for hurrying reinforcements to General Shafter and for the Porto Rican expedition are progressing as fast as possible. General Shafter's orders are to send back to Tampa as many of the transports with his expedition as he can spare. It was stated officially yesterday that General Miles, commanding the army, would command the next expedition which leaves the United States. Just what this is to be, and where it is to go, could not be ascertained. The number of reinforcements which are to be sent to Shafter will be an expedition nearly as formidable as that which left Tampa two weeks ago.

Camara's Fleet in the Canal.

New York, June 28.—With Camara's fleet at Port Said, Egypt, it is stated, are 4,000 troops, bound for the Philippines. This would look like something more than an attempt to appease the populace at Madrid. The fleet will have to coal at least twice before reaching the Philippines. The first point is supposed to be Port Said.

The fleet presents a very forlorn appearance. The ships have very foul bottoms, and are in an extremely untidy condition. The soldiers are miserably clad, evidently ill-fed, and discontented, and are confined on shipboard.

The fleet is now reported as passing through the Suez Canal.

TO WAKE UP OLD SPAIN.

Uncle Sam Is Sending a Fleet Across the Atlantic Ocean.

Washington, June 28.—The Navy Department has posted the following bulletin under date of yesterday:

Commodore Watson sails to-day in the Newark, to join Sampson, when he will take under his command an armored squadron, with cruisers, and proceed at once off the Spanish coast.

The Eastern Squadron.

The Navy Department has posted the following bulletin, showing Commodore Watson's squadron. It is designated the Eastern squadron and is as follows:

Flagship Newark, battleships Iowa and Oregon, cruisers Yosemite, Yankee and Dixie, and the colliers Scindia, Abarenda and Alexander. The start will be made at once, from off Santiago.

The bulletin also showed the following changes in designation of the divisions of United States war vessels:

North Atlantic fleet, Rear-Admiral Sampson, commanding.

First squadron, Commodore J. A. Howell, commanding.

Second squadron, Commodore W. S. Schley, commanding.

Naval base, Key West, Fla., Commodore Remey, commanding.

Hobson Is Well Treated.

New York, June 28.—In reply to a query British Consul Ramsden cables from Santiago de Cuba:

"Hobson is in a spacious front room on the ground floor of the barracks, in which is a large window looking on the road. The food supplied him is good and not limited to regulation rations.

"Hobson is allowed wine, but some things are wanting in consequence of the blockade, causing a dearth of many articles. Hobson has repeatedly expressed to me his satisfaction at the treatment accorded to him. Nobody here prevents his sending a message, but his rules of service forbid. His men are in a room on the same floor with a large door, in the upper part of which are iron bars, facing the barrack yard. The food is better than that given to the Spanish soldiers, but the dearth of supplies causes very limited choice. I visit them frequently."

The Dying War Correspondent.

New York, June 28.—A Siboney despatch via Port Antonio, says: "Edward Marshall, the New York Journal correspondent, who was shot twice, is making a plucky struggle for life. One bullet entered his abdomen and another his spine. His lower limbs are paralyzed and he is dying.

"Marshall while being rescued asked for a cigarette, and as he lay on a stretcher smoking the cigarette he calmly dictated the story of the battle as he had seen it, his words being taken down on the way back to the American camp."

More Troops for Manila.

San Francisco, Cal., June 28.—Another fleet of transports has sailed out through the Golden Gate to the Pacific. Yesterday afternoon the third fleet of vessels, loaded with soldiers and supplies for the Philippines, hoisted anchor, and, amid the screeching of a hundred whistles and the booming of cannon, proceeded down the bay toward the ocean, and are well on their way to the Philippines.

The ships which left yesterday carried about 4,000 men, under command of General McArthur, who has made the steamer Indiana his flagship. The City of Paris, the Ohio and the Morgan City were the other vessels to sail with the Indiana. The steamer Valencia was not ready for sea, and probably will sail with the steamer Newport on Wednesday. General Merritt and his staff will proceed to the Islands in the Newport, which has been especially prepared for the service.

U. S. Monitors Injured.

Washington, June 28.—The Navy Department yesterday received two cipher messages from Key West. Their contents were carefully concealed. It has been learned that the despatches informed the department that two United States vessels have been damaged, but to what extent could not be ascertained. The vessels injured were the monitors Miantonomah and Puritan.

A Gatling Battery Mounted.

Kingston, Ja., June 28.—Four batteries of American artillery and a gatling gun battery have been planted on a hill overlooking the basin in which Santiago de Cuba lies. The American troops were within 2,800 yards of the Spanish entrenchments last night. In day time the city of Santiago is in plain sight.

TRAIL OF A TRAMP.

Twohey's Slayer Sighted in West Middlesex.

IS NOW HIDING NEAR KERWOOD

Scores of Armed Men Chasing the One-Legged Suspect—Where He Took Supper on Sunday Evening—Why He Fled From London—Fires on His Pursuers.

London, June 28.—Up to 2 o'clock this morning the peg-legged tramp, the assassin of P. C. Twohey, had not been captured. The city is greatly agitated over the result of efforts put forth to capture him during the past few hours. On Sunday evening reports reached police headquarters that a one-legged tramp answering the description of the murderer had been seen in the neighborhood west of London. P. C. Harry Green and Downs were at once sent through Hyde Park to Lobo Village, where they found traces of the tramp. A little later on word was received from Strathroy by telephone that a one-legged man without a hat had been seen near Strathroy, and a second message was sent to London asking the police to hurry up. Detectives Hider and Egelton were at once despatched. Orders were also sent to P. C. Downs and Thomas Paine, who had gone to Lobo, to go at once to Strathroy. Thomas Paine, of the fourth line of Adelaide, informed the police that a one-legged tramp took supper at his place on Sunday evening about 7 o'clock. He was about five feet seven inches in height, of heavy build, stump on the left leg, about 35 or 40 years of age and of very dark skin. Paine said to him: "Why, you look like the tramp that shot the policeman in London." The tramp replied, "Yes, I know I do, and that is why I left there, because I might be arrested for the crime." He thanked Mr. Paine for the meal, and took away a loaf of bread and some butter, which were wrapped in a Friday's London Advertiser. D. Bishop, proprietor of the Queen's Hotel, Strathroy, saw a tramp with a wooden leg on the left side Sunday night about 6 o'clock on the Watford road, answering the description of the man wanted. When the presence of the supposed murderer became known the citizens became suspicious, and Mr. John Newton, merchant, was the first to spy the man in town, and gave chase. The tramp had a pistol in his hand, and is said to have fired to keep back his pursuers. Sunday night fully 100 men were in pursuit with guns and rifles. They were joined by a number of London officers at 3 o'clock in the morning, and the search was renewed. The tramp is remarkably speedy, and is screened by the rye fields and the woods. Before their arrival the tramp escaped into Weeks' swamp, where Chief Dodds and his men followed. Not a trace of the villain was found after he left Weeks' farm. The search was abandoned temporarily, but was resumed in the evening. The villain has doubtless been in hiding by day and traveling by night. When the news of the tramp's discovery was circulated last night 40 men asked to be enrolled as special constables. James Ross, the 70-year-old watchman whom the peg leg assaulted, is at work and little the worse for his experience with the tramp.

Funeral of Policeman Twohey.

London, June 28.—The funeral of the late P. C. Twohey took place yesterday morning. The cortege left the house at 10 o'clock for St. Peter's Cathedral. Long before the appointed hour for the service at the house, the immediate vicinity of the Cathedral was crowded with people, who showed in every way possible their sympathy with the friends of the murdered policeman.

Weak and Run Down, With Heart and Kidneys in Bad Condition—Restored by Hood's Sarsaparilla.

"I was very much run down, having been sick for several months. I had been trying different remedies which did me no good. I would have severe spells of coughing that would leave me prostrate. I was told that my lungs were affected, and my heart and kidneys were in a bad condition. In fact, it seemed as though every organ was out of order. I felt that something must be done and my brother advised me to try Hood's Sarsaparilla. I procured a bottle and began taking it. Before it was half gone I felt that it was helping me. I continued its use and it has made me a new woman. I cannot praise it too highly." MRS. SUMMERVILLE, 217 Ossington Avenue, Toronto, Ontario. Get only Hood's, because

LINDSAY CHEESE BOARD.

28 Factories Offered 2,080 Boxes—Mr. Whitton Purchased 1,280 Boxes at 7¼ Cents.

The Victoria County Cheese Board met yesterday in the Lindsay council chamber at 11 o'clock. President Robertson and the other officers were present, also buyers Whitton, Fitzgerald, Wrighton and Flavelle.

The following factories boarded the number of boxes set opposite their names :

Star	120
Lorneville	50
Cameron	100
Dunford	105
Mariposa	91
Derryville	
Cambray	100
Janetville	84
Omemee	104
Fenelon Falls	80
North Verulam	74
Minden	55
Leskdale	60
Valentia	85
North Ops	75
Pine Grove	80
Reaboro	145
Bobcaygeon	115
Maple Leaf	130
Palestine	110
Red Rock	156
Oakwood	60
Little Britain	30
Manchester	56

Little Britain and Manchester factories boarded for the first time.

Mr. Fitzgerald opened with an offer of 7 3-16c, which was afterwards raised to 7 9-16c for selections and refused. Mr. Whitton then named 7⅞c, and named Star, Lorneville, Cambray, Janetville, Omemee, Fenelon Falls, Pine Grove, Reaboro, Maple Leaf, Bobcaygeon, Red Rock, Oakwood, Palestine and Mariposa, all accepting but Maple Leaf. This give Mr. Whitton 1284 boxes, and when a further offer of 7⅞c was refused, he expressed himself as perfectly satisfied.

The President was then asked if the remaining factories would be permitted to sell off the board, Mr. Flavelle saying that he would like to make an offer of 7⅞c for balance of board if held open till 1 o'clock, to allow him to telegraph his commission men.

Mr. Whitton said he would make the same offer if given a quarter of an hour, but his remarks were unheeded.

The board then adjourned to meet again in two weeks.

ON THE SUNBEAM.

A St. Mary's Boy Describes the Beautiful Scenery Around Stony Lake—A Pleasure Trip on the Queen's Birthday.

We clip the following letter from the St. Mary's Journal of June 18th :

LAKEFIELD, May 30th, 1898.

Dear Editor,—It was my good fortune on Her Majesty's Birthday to view the wonders of Stony Lake. Many times had I heard of the glories to be seen but a few miles north of our village, and naturally my expectations ran high as the day approached, nor was I disappointed.

The small party of picnicers, of which the writer was one, on pleasure bent of course, assembled at the wharf at Lakefield at 9.30 and boarded the Steamer Sunbeam. We sailed up Lake Katchawanooka about five miles when we came to a stop. At this point there is a very picturesque little village Young's Point. A dam six feet high here spans the water, which is comparatively narrow, and access to the higher level is obtained by means of a lock. Passing through the lock we enter Clear Lake, so called because of it being clear of islands. This lake is five miles long and one mile wide. While making our way up the lakes we had ample time to observe the scenery along the shore, at the same time having a social time on board. What we said and did would not look well in print, so out of deference to the rest of the party, whom I hold in high esteem, I refrain from dwelling on that point.

Seriously though, there was an extremely interesting lady on board, in the person of Mrs. Traill, who is the author of several works of historical and botanical interest. I believe she is a resident of Lakefield, and though ninety-seven years of age is remarkably smart, still retaining the use of her faculties to a remarkable degree. The marvel to me was to see her sitting on deck reading a newspaper without the aid even of glasses. I am told that she is informed on matters of interest up to date and is an interesting conversationalist.

Passing through Clear Lake we entered Stony, also about five miles long and two wide. My first impression of this lake was that it was well named. Rock! I never before saw anything like it. The shores are lined, some bare, some overgrown with shrubbery and evergreens. The lake is literally studded with islands, from the small rock just jutting out of the water to the larger ones covering acres. They are composed principally of red granite rock, mostly well wooded. A notable feature in connection with these islands is the fact that on nearly all of them are built pretty summer cottages for the use of tourists and campers. I am informed that when the season is in full swing there is a population of about 1,500 on Stony Lake. The Sunbeam stopped at various islands to allow passengers to disembark.

About noon we arrived at Burleigh Falls. Here the Sunbeam was moored and the genial captain informed us that she would remain here a couple of hours. We were delighted for this would give us an opportunity to see the famous Burleigh locks. A few yards inland is the Burleigh Hotel, built upon the sur face of the rock. The front lawn is a bare rock—not enough earth to drive a croquet wicket into; the back yard is rock, all about is rock. It is not all bare, however. In the crevices, somehow or other, evergreens obtain sufficient nourishment on which to grow and flourish. Notwithstanding the fast that our dinners remained in the baskets, we cared little for that,—we were hungry for natural scenery and here indeed we feasted. Following the wagon road a short distance, we arrived at the Burleigh Locks, where boats are raised and lowered a height of thirty-seven feet. The scenery here is very rugged, huge boulders, jagged rocks and shaggy trees adorn the landscape. We amused ourselves here a while searching for geological specimens, and childlike, throwing stones into the water, and saving the locks we discovered a poster which informed us, to our utter dismay, that all persons found throwing stones and other refuse into the water would be prosecuted, etc., and one of the young gallants was heard to mutter "Where ignorance is bliss, etc." A short canal here connects the locks with the lakes above, which glories in the euphonious appellation of "Lovesick Lake." Whatever significance is attached to that name can best be explained by older and more experienced heads than the writer's.

After spending some time we returned to the Sunbeam, where we partook of the bounteous repast furnished by the fair members of our party. Steaming out from Burleigh the next stopping place was Julian's Landing, where we were given another opportunity to ramble. Here also Nature has lavishly displayed her wonders, an elevation jutting out into the lake has been called Mount Julian. We climbed to the top of the eminence, where we had a delightful view of the lake and some of its islands with their cottages. From the other side of the hill we looked out over the landscape, hilly rough and rocky. A farm house and barn with a winding wagon road running between, and two small patches of ground under cultivation, were the visible signs of cultivation. How a family can eke out a miserable existence in that forsaken land is a mystery to me. Returning again to the Sunbeam, we headed for home, stopping at a number of islands on the way to take on the passengers who had got off in the morning. Ye sons of Nimrod, listen! Ye brothers of Izaak Walton, hearken! Ye who contemplate a summer's outing, lend an ear! Stony Lake is the paradise for you—a veritable happy hunting ground! The resort is justly famous, the woods are stocked with game, the waters teem with their finny inhabitants, and the salubrious summer air is most invigorating. J. HILBORN.

THE ALCHYMISTS

Failed in Their Work of Changing Metals Into Gold.

Diamond Dyes Never Fail to Make Old and Faded Things Look As Good as New.

Alchymists like Geber, Alfarabi, Avicenna, Albertus, Magnus, Artephius and others, who pretended to be able to change all the base metals into gold, were, in their times, first class imposters and deceivers. The art of making old, faded and dingy dresses, capes, shawls, jackets, coats, pants, vests, and other articles of wearing apparel look as good as new has been brought to perfection by the introduction and use of the Diamond Dyes, those triumphs of modern chemistry.

Millions on this continent are saving money each year by using the Diamond Dyes in the home. They are true and faithful family benefactors, and so easy to use that a child can dye successfully with them.

Diamond Dyes have such an extended popularity, fame and immense sale in every locality that imitators have put on the market worthless and adulterated dyes in packages bearing close resemblance to the "Diamond." It is therefore necessary for every woman when buying dyes, to see that the name "Diamond" is on each packet. Package dyes without the name "Diamond" can never give satisfaction. Muddy, dull and streaky colours will be some of the disappointments met with. Diamond Dye colours are guaranteed brilliant, rich and full, and will last as long as the goods hold together.

For internal or external use Hagyard's Yellow Oil cannot be excelled as a pain relieving and soothing remedy for all pain.

AN OFFICIAL DEAD.

End Came Suddenly to Mr. John Boyd, Road and Bridge Inspector.

Toronto, June 28.—A telegram was received at the Parliament buildings yesterday announcing the sudden death of Mr. John Boyd, at his residence in Thessalon, on Monday morning.

Mr. Boyd had been engaged for over a quarter of a century with the Ontario Government as Road and Bridge Inspector in East Algoma, the constituency represented by C. F. Farwell, M.P.P. Mr. Boyd has erected all the principal iron and wooden bridges in that region Deceased originally came from Peterboro, where he was as well known as subsequently in East Algoma. A few months ago he consulted Drs. Graham and Grasett, who agreed that he was suffering from anaemia of the heart and could not possibly live, but they instructed deceased to go home and live quietly. However, after remaining in bed some time, Mr. Boyd declared that he had, through a dream, a revelation that there was nothing wrong with his heart, and immediately got up and attempted to resume his business, with the sad result that, as the doctors had agreed, the clot of blood on his heart burst and death ensued.

THEIR TERMS COMPLETED.

Bustard and Hamilton Released From Kingston Penitentiary.

Kingston, June 28.—Dr. Hamilton and William Bustard were released from the penitentiary on Saturday, having completed their terms. Dr. Hamilton, it is stated, has expressed his determination to return to Toronto and again take up his practice and remove the stain on his character, which, he claims, was fastened unjustly.

Bustard left for Rochester on the steamer North King. He will go to Cleveland to visit relatives. It is stated that he will join an American regiment and go to Cuba.

He Drowned Himself.

At Gananoque George Turner, an aged resident suffering from cancer of the throat for some time, was found drowning in a water tank. He and his wife had no faith in doctors, and he did not have medical aid, and, suffering from the pain, it is supposed the old gentleman decided to vacate this world. He was discovered before life was extinct, and medical assistance called in, but he was beyond help, and expired shortly afterward.

WHAT THE PROTOCOLS SAY.

They Give the Subjects to Be Considered by the Quebec Commission.

Ottawa, June 28.—Copies of the protocols agreed upon by the Governments of Great Britain and the United States for the governance of the approaching international commission at Quebec have been forwarded to the Dominion Government. The commissioners are authorized to consider the following subjects, embracing practically all those on which the Dominion and United States authorities have been at variance for many years: The Behring Sea sealing question, reciprocal mining regulations, the Canada-Alaska boundary dispute, restrictive regulations for preserving the fisheries of the great lakes, the North Atlantic fisheries question and the bonding question connected therewith, the Alien Labor Law and reciprocity of trade. At present it seems improbable that the commission can meet before August. The final meeting will be held in this city.

ON TRIAL FOR HIS LIFE.

Jean Tegulmain Accused of Murdering His Uncle at St. Lobiore.

St. Hyacinthe, Que., June 28.—Jean B Tegilmain, 18 years of age, accused of murdering his uncle, John La Plante, at St. Lobiore in October last, was placed on trial for his life yesterday in the Court of Queen's Bench, before Judge Tellier. The Crown is being conducted by R. E. Prefontaine, Q.C., and J. B. Blanchet, while Mr. Alphonse Heurgeault acts for the defence. The prisoner wore a cheerful demeanor, and seems to treat the matter very lightly. The greater part of the day was consumed in swearing in the jurors.

WOLSELEY WANTED IT.

It Is Said He Suggested His Appointment as Governor-General.

Montreal, June 27.—The Star cable from London says:

There is no doubt of Lord Wolseley's personal wish to go to Canada, and I am told that he himself suggested his own appointment to the Governor-Generalship, but the precedent of selecting a soldier for such a high civil appointment needs the careful consideration of the Colonial Office.

Captured the Escaped Convict.

Toronto, June 27.—Tom Carlyle, who escaped from the Central Prison, was captured on Saturday morning at 15 St. Patrick square. Detectives Slemin, Porter, McGrath, Harrison and Policemen Macdonald and Lougheed surrounded the house. Porter and Slemin overpowered Carlyle, who was armed with a revolver, and handcuffed him. He was taken back to the Central Prison.

APPALLING DEATH

From Kidney Disease Prevented by Dodd's Kidney Pills, Only.

"Kidney Disease." Do you know what it means? It means that the kidneys are either *rotten*, or rotting; the blood is full of poisonous, death-dealing corruption; that the Kidneys can't do their work; that the victim is a walking charnel-house; that his hours are numbered; that the victim MUST take Dodd's Kidney Pills if he does not want to die.

Have you Kidney Disease? Is your skin hot and dry; memory failing; breath short; urine, reddish, or pale colored; does it scald when passing; is your appetite changeable; do your ankles swell; have you bitter taste in the mouth on getting up mornings; is there a brick-dust deposit in your urine?

Any of these signs is proof positive of Kidney Disease. Will you be cured, or will you die? Dodd's Kidney Pills are the only means on earth that will cure you. They never fail.

Wm. McCabe, Esq., Managing Director, N. A. L., Toronto :

DEAR SIR,—Please accept my thanks for your cheque just handed to me, for $3,901.98, in settlement of my $2,500 Fifteen Year Endowment Policy in your Company. Such a result as this, after the risk on my life has been carried for fifteen years, beginning from forty-five years of age, argues one thing strongly, namely, that the management of the North American Life must be in competent hands. The other options you have offered me, viz.: a Paid-up Life policy for $6310.00, or a Life Annuity for $461.90, are, I presume, equally liberal, and it affords me much pleasure to recommend your Company to my friends or any desiring insurance.

NEWS FROM ROCKLAND.

The Lumbermen Have Formed a Union and the Trouble May Break Out Again.

Ottawa, June 27.—The Rockland strike question came up at the allied labor unions Friday night. Delegate Macoun reported that the men were working that day, but it was doubtful if they would continue at work. They had gained one concession—the doing away of the abominable truck system. The speaker had gone down, and as a result a union had been formed. In two hours over four hundred men had been enlisted in the union, and paid in twenty-five cents each. In all about five hundred joined, and Messrs. Fauteux, Quayle and Macoun were elected delegates pro tem of the Rockland Union. What the men wanted was encouragement in organization. If no one had gone to help the strikers it would have lasted all the summer. Delegate Quayle remarked that he had no idea that the scrip system was anything like such a system of injustice as he found it to be.

TO PROTECT BRITISHERS.

The Battleship Illustrious Sails for Lisbon, Portugal.

Will Fight the Assessments.

St. Catharines, June 27.—Of the 3,500 members of the defunct order of Select Knights over 1,100 will contest the efforts of the receiver, Mr. B. J. Leubsdorf, to collect from the assessments for six months after they ceased to meet the levies made upon them. The defendants have consolidated their cases into one test case issue, which will soon be heard in the Court of Appeal.

The claim of the receiver is based upon the fact that a member in default is allowed six months after ceasing to meet his obligations to the order to secure his reinstatement. The defendants claim that in having voluntarily dropped out and surrendered their rights to the claim of the benefits of the order they should be relieved from its obligations.

Circulars have been sent to all the members of the order in Toronto and throughout the province appealing for contributions for a defence fund to fight the case.

Paine's Celery Compound

Makes Them Healthy, Happy and Joyous.

The Great Medicine is Blessed by Thousands of Mothers.

Try it for Your Boys and Girls.

WELLS & RICHARDSON CO.,

DEAR SIRS,—I think it a duty to write you for the benefit of all who have delicate children, and to make known what Paine's Celery Compound has done for my child. She has been delicate all her life. I have tried many medicines, and have had her under allopathic and homœopathic treatment with but little benefit. Almost in despair, and as a last resort, I tried Paine's Celery Compound, and after using three bottles she is now perfectly well and strong. I have also used your medicine myself for complications arising from overwork, and loss of rest, and am greatly benefitted thereby. I would strongly urge all who are in any way afflicted to do as I have done, "try Paine's Celery Compound," and be convinced of its wonderful curing power.

Yours gratefully,

MRS. TRAILL, AUTHOR

In Her 97th Year, the Oldest Living British Writer.

DID GOOD WORK FOR CANADA.

A Lady Who Should Be Recognized as a Large Factor in the Pioneer Life of the People of the Province of Ontario—Her Works and Botanical Researches—Ottawa News.

Ottawa, June 28.—There is living at Lakefield, near Peterboro, the oldest living author in the British Empire in the person of Mrs. Catharine Parr Traill, now in the 97th year of her age. Born in England in 1802, the daughter of Thomas Strickland, she wrote her first work in 1817 at the age of fifteen. She came to Canada in 1832 and wrote her last book in 1895 at the age of 93. So that this remarkable lady has maintained literary activity for nearly 80 years and her intellect is still bright and keen. She bids fair to outlive the century. Among Mrs. Traill's many works are the following: "The Young Emigrant," "Sketches from Nature," "The Backwoods of Canada," "A Peep Into Canadian Forests," "A Guide For Female Emigrants," "Studies of Plant Life in Canada." Her last works, "Pearls and Pebbles, or Notes of an Old Naturalist," and "Cot and Cradle Stories," were published by Briggs of Toronto in 1894 and 1895. It is said that her book, "The Backwoods of Canada," (Charles Knight, London, 1835) had a wide circulation and induced many to turn their eyes to Canada. Mrs. Traill has lived latterly with her daughter, Miss Traill, and granddaughter, Miss K. Traill, at "Westcove," Lakefield, upon an income barely sufficient to keep them in simple comfort. Unfortunately the death a few weeks ago of a trusted agent revealed a disastrous state of affairs with regard to Mrs. Traill's investments, so that the income is now greatly reduced. It is hoped that something may be saved from the wreck. Sir Sandford Fleming of Ottawa, an old friend, and a committee of ladies and gentlemen have started a movement to recognize Mrs. Traill's unique position in the literary world. The story of her arrival in Canada, where she was struck down by cholera the moment she landed, her battles with poverty, in which she enlisted her pen, writing sketches and stories for magazines, and amid all her domestic and literary cares finding time to study the botany of the country, is intensely interesting and instructive. In 1832 Mrs. Traill married a retired army officer. He died 27 years later, leaving four sons and five daughters.

General and Personal.

Louis E. Copping, copyright clerk in the Department of Agriculture, has absented himself from the office without leave; and it is officially stated at the department that his accounts show a deficit of $150. The matter has been placed in the hands of the police.

James Ellison, an inmate of the Old Men's Home on Bank street, took a dose of laudanum last night with suicidal intent. Fortunately he took an overdose and the poison only made him sick. Ellison will be arrested.

A writ was issued yesterday by Messrs. Latchford & Murphy on behalf of Mr. William Young, Rochester, against the City of Ottawa for $2,000 damages for injury done to his premises through the destruction of drains. An injunction was applied for to compel the corporation to replace the drain at once.

Patrick McCurry, barrister, Parry Sound, has been appointed judge of the provincial judicial district of Parry Sound. This is a new district.

Sir Wilfrid Laurier with Lady Laurier has gone to Arthabaskaville, where he intends spending the greater part of his holidays.

Sir Louis Davies has left for Charlottetown, Prince Edward Island.

Mr. Fielding left for Halifax last night.

Mr. Mills will leave for London on Friday next.

There was a washout on the Canadian Pacific Railway near Thurso. The trains were delayed for several hours, but are now running all right.

SUICIDED WITH ACID.

Miss Margaret Eakins of Winnipeg Took a Fatal Dose at Strathroy.

Strathroy, Ont., June 28.—Miss Margaret Eakins, daughter of James Eakins of Winnipeg, committed suicide yesterday morning by taking carbolic acid. She apparently seemed all right and came down town early in the morning and purchased the acid. It is thought she took it before entering the house, as she immediately went upstairs and laid down, followed by her sister, who suspected something wrong, and questioned her, when the girl merely laughed. Several doctors were sent for, but could do nothing, and she died about two hours after. She was living with her sister, Mrs. Walter Wright. No motive can be given for the rash act, excepting she has not been in good health for some time, and at times appeared despondent.

DODD'S KIDNEY PILLS AGAIN.

Conductor Hogg Tells the Story of His Rescue From Diabetes.

Toronto, June 13—Special—Mr. H. Hogg, the well-known and popular street railway conductor (No. 107) who has been cured of a very severe case of Diabetes, by Dodd's Kidney Pills, has written as follows to the Dodd's Medicine Co., Limited.

"My sufferings extended over a period of three years, and grew worse every day. I could get nothing to cure the Diabetes, nor to purify my blood. Finally, the dizziness so overpowered me, and I grew so emaciated and weak, that I had to quit work.

"A friend advised me to try Dodd's Kidney Pills. I laughed at him, for I had tried so many remedies, only to be disappointed that I had lost hope. However I did try Dodd's Kidney Pills. Thank God, six boxes cured me entirely."

WHEAT FUTURES UP.

Chicago Stronger on Reported Over-Estimated Crop—Liverpool Market Lower—The Latest Quotations

Monday Evening, June 27.

The Chicago wheat market firmed up to-day on advices from sections where harvesting and threshing are going on to the effect that incoming crops have been greatly overestimated, and that in many parts the yield will not anything like come up to the forecasts. Good-sized decreases in the American and English visible also helped to imbue the situation with a good tone. The market maintained its strength throughout the session and closed at near top prices for the day, July, September and December deliveries all showing a gain of 1c per bushel since Saturday's close. Cash wheat weakened a little, selling down 1½c.

Futures declined in Liverpool and at the close July wheat was quoted 1d lower than Saturday's close, the September delivery ½d and the December option ¾d per cental lower. Paris wheat rose 15 to 20 centimes to-day. Antwerp closed 50 centimes lower.

Trade in Ontario wheat is at a standstill, red winter still being quoted around 73c per bushel, middle freights.

Visible and Afloat.

As compared with a week ago, the visible supply of wheat in Canada and the United States has decreased 1,804,000 bushels; that of corn has increased 252,000 bushels, and that of oats has increased 516,000 bushels. Following is a comparative statement for the week ending to-day, the preceding week and the corresponding week last year:

	June 27, 1898.	June 20, 1898.	June 28, 1897.
Wheat, bu.	17,225,000	19,089,000	18,794,000
Corn, bu	22,424,000	22,172,000	16,913,000
Oats, bu.	7,600,000	7,093,000	9,035,000

To recapitulate, the visible supply of wheat in Canada and the United States, together with that afloat to Europe, is 57,625,000 bushels, against 63,589,000 bushels a week ago and 33,354,000 bushels a year ago.

Montreal Live Stock.

Montreal, June 27.—There were about 530 head of butchers' cattle, 250 calves and 300 sheep and lambs offered for sale at the East End Abbatoir to-day. The butchers were out in large numbers, but owing to the dirty weather and more liberal supplies of cattle trade was rather slow and prices somewhat lower than on Thursday. Prime beeves sold at a little lower than 4¾c to 5c per lb.; pretty good animals sold at from 3¾c to 4¼c per lb.; the common grasshopper stock at from 2¼c to 3½c per lb. A few head of choice shipping cattle were sold at 5¼c per lb. Good calves sold at from $5 to $8 each, and the common veals at from $1.50 to $4.50 each. Sheep sold at from a little less than 2c per lb. up to nearly 3¼c do. Fat hogs are plentiful and sell at about 5c per lb.

Vigorous selling has characterized June's business on account of our retailing at Wholesale Prices, and less. There has been a general rush for Light Headwear. Those who refrained from buying early in the season are benefitting by the riper Bargains which our Mid-summer Reduced Prices naturally bring.

TRIMMED HATS. This store's immense success has been earned by showing the prettiest of Trimmed Hats. Our captivating White Effects has in. finenced June sales remarkably. A new lot of Nobby Sailors going fast at Late-season Prices. Pretty Leghorns and Flower Hats, picked up quickly.

VEILINGS. No woman can look at our Veilings without being convinced that our Styles, Fabrics and Fancy Combinations are very taking. Brisk sales have encouraged us to replenish with some of the latest Novelties out.

RUN ON RIBBONS. Our Stock represents all the late Ribbon Ideas—Plaids, Stripes and fancies. Special values in *Roman Effects*, pure silk, choice colours. An easy matter to buy Ribbons at a price, but not always easy to get high qualities and latest patterns such as shown here.

CORSET VALUES. Our customers are getting Popular Corsets at prices marked down to quicken sales, but without any expectation of profit. Fine makes of Summer Corsets, faultlessly framed.

Information Wanted

Of the whereabouts of WALLACE MCINDOO, who left his home, 12th concession of Cavan, on the evening of Thursday, June 23rd. He is about five feet six inches high, dark complexion, full beard, about 38 years of age. He wore a light brown coat, dark pants and vest, light blue check shirt, long boots and straw hat. Is slightly deranged and has a habit of picking his fingers while walking. Any information regarding his whereabouts will be thankfully received by his father, Matthew McIndoo, Mount Pleasant Post Office, and anyone keeping him will be rewarded. 3d

Cash on the Wire Rail.

The merchant who has not kept pace with the labour saving conveniences of the day is probably asking himself why other stores have so little trouble with their office work. The cash registers have proven a great boon to many, but the railway cash carriers are sweeping old fogy notions out of sight quicker than any other cash delivery system yet introduced. The enterprising firm of Kingan & Allen, hardware merchants, have just put in one of Lamson's three-station railway cash carrier systems, which fits the store to a decimal. The growing necessity of this live firm's business has demanded a more rapid system, and this new arrangement will enable the salesmen to handle their customers with increased promptness, and facilitate the checking and balancing in the counting room.

The Last Week the Best Week.

This is the last week of the dissolution sale at Clarke & Gibson's jewelry store. The opportunity this sale has afforded for buying standard goods at very unusual prices, has been seized by many who may have felt restricted in their purchases at the regular selling figures. There has also been the assurances of reliability in purchasing, and this confidence in the integrity of the firm and general character of the stock has largely influenced sales. The last week of this sale at the reduced prices ends with June, so there still remains time enough for all who wish to avail themselves of the chances of bonafide bargains in jewelry, watches, clocks, silver plate and artistic novelties, which are embraced in this very large and exceedingly well assorted stock of handsome goods. It is not likely that a similar opportunity will present itself for some time, and lovers of the beautiful in these lines of goods will miss very substantial advantages if the neglect to attend the remaining days of this sale.

Germans to Blame if Manilla Suffers.

Hong Kong, June 28—An American official at Covite writes as follows: If great bloodshed and destruction come to Manilla, Spain may justly blame the Germans. Manilla would have surrendered before the arrival of the German squadron without bloodshed, but now owing to the moral support of its presence, the city refuses to surrender.

A Pregnant Change of Opinion:

London, June 28—The St. James Gazette, commenting upon the prospect of an American force attacking the coast of Spain, says the reception of the news evidences a change in public opinion, which at the commencement of the war, thought Europe should notify the United States that the war must be confined to American waters. It is now recognized that the Americans are fully entitled to make war in their own way, and they are indeed driven to retaliation to Spain in this manner, owing to the tactics which Spain has chosen to pursue.

Torpedo Destroyer Terror Reported Disabled.

Washington, June 28.—The Navy Department officially announces that Captain Sigsbee reports having had a fight with the Spanish torpedo boat destroyer Terror. The Terror was hit three times. One officer and two men were killed and the Terror was compelled to put back into San Juan in a disabled condition. The Yale's arrival at Baquiri is reported.

GODFREY'S BAND CONCERT.

Gives the Music of the Gods—A Night of Splendid Enjoyment—The Most Eager Expectations of Enjoyment Transcended by the Reality.

It is impossible for the lover of music to write critically of the magnificent performance of the Grenadier Guard's Band last night. One is too much taken with the enjoyment of the exquisite as well as grand effects produced by this wonderful musical organization. The perfect balance of the instruments was the first condition of success. The reeds are abundant and the bass instruments are specially well adapted to give with the other instruments a delightful balance of tone. The two strong basses as well as the French horns soften the loud effects in a delightful manner. Therefore one would expect the luxuriously rich harmonies that at times break upon the delighted ear. With perfect balance of instruments with every performer an artist upon his special instrument, and with all playing together with perfect accord, one cannot be surprised at the truly magnificent ensemble achieved. The concert opened with the only selection of really classical music inscribed. The selections were in other respects extremely popular in character, but they were performed with a classical finish that raised them far above the plane of commonplace compositions. The descriptive effects in the overture to "William Tell", which is a musical summary of the movement and motive of the opera, were magnificently brought out. And every feature was justly dealt with, varying in character from the pealing of the Alpine thunderstorm to the brisk warble of the birds and the elegant softness of the pastoral movements. The clarinet solo by Mr. ——— was a magnificent production, and provoked a warm recall, which was responded to. The medley of Scottish airs gave great satisfaction and a repeat was vociferously insisted upon. A quick march was magnificently given and sent the blood tingling through the veins. The cornet solo, "The Children's Home," was the finest example of truly artistic work given during the evening. The theme was simple, without a single florid turn, but the beautifully even, clear, pure sustained tone was exquisitely perfect. An unstinted recall was rewarded with an artistic performance of "The Lost Chord." The other solo, a flute selection, "There's Nae Luck," by Richardson, was brilliantly performed by Mr. Redfern. While not so artistic as the cornet solo, it was magnificently brilliant and exquisitely sweet. Mr. Redfern is an artist with his instrument and the most insurmountable difficulties to a less skilful performer, were handled as easily as a simple scale. This selection struck the popular fancy strongly and Mr. Redfern received something like a popular ovation. In recognition of the enthusiastic applause he performed another exquisite selection. "National Melodies," a descriptive selection, following a troopship from Portsmouth to India, with the chief incidents musically expressed, was a magnificent specimen of mimetic music, and at its conclusion an encore was demanded. When the band struck up and played, as it has never been played in Canada before, "The Maple Leaf," an unexpected accompaniment was introduced—the ringing cheers of the audience. One had reason to be prouder than ever of Canada's grand national air. As performed by Godfrey's band it developed a grandeur of style and lent itself to a richness of harmony that was truly inspiring. It is safe to say that no number on the list gave such great delight as the "Maple Leaf Forever." The last selection was Jullien's rather noisy but stirring composition, "The British Army Quadrille," describing in sound, that sometimes seems to degenerate into something very like noise, the shifting of a camp of British soldiers, the movement of troops, the steady tread of the infantry, the trot and canter of the cavalry, the roar of artillery, the rattle of musketry and various sounds that enter into a great battle. Several airs are introduced, including a compliment to each of the three great racial back-bones of the British Army—"The British Grenadiers," "Garry Owen" and "The Campbells are Coming." The selection, as well as the concert, closed with a ringing rendering of "See the Conquering Hero Comes," and "God Save the Queen."

There was not a very large attendance at the concert, but it would have been immensely greater if the people had known what a magnificent musical treat would be presented. To those that heard Godfrey's great band, there was no exaggeration in the great praises that heralded its coming. Everybody was delighted with the music, which was a treat such as few will ever enjoy again. The acoustics of the skating rink was better than was expected, though the uncomfortable character of some of the seats and the imperfect light in some places was a mitigation of the enjoyment of the performance.

NEWS FROM ROCKLAND.

The Lumbermen Have Formed a Union and the Trouble May Break Out Again.

Ottawa, June 27.—The Rockland strike question came up at the allied labor unions Friday night. Delegate Macoun reported that the men were working that day, but it was doubtful if they would continue at work. They had gained one concession—the doing away of the abominable truck system. The speaker had gone down, and as a result a union had been formed. In two hours over four hundred men had been enlisted in the union, and paid in twenty-five cents each. In all about five hundred joined, and Messrs. Fauteux, Quayle and Macoun were elected delegates pro tem of the Rockland Union. What the men wanted was encouragement in organization. If no one had gone to help the strikers it would have lasted all the summer. Delegate Quayle remarked that he had no idea that the scrip system was anything like such a system of injustice as he found it to be.

TO PROTECT BRITISHERS.

The Battleship Illustrious Sails for Lisbon, Portugal.

London, June 27.—The British first-class battleship Illustrious, of 14,900 tons, sailed Saturday morning for Lisbon, Portugal, under sudden orders received last night to protect British interests there in view of possible war developments.

Will Fight the Assessments.

St. Catharines, June 27 —Of the 3,500 members of the defunct order of Select Knights over 1,100 will contest the efforts of the receiver, Mr. B. J. Leubsdorf, to collect from the assessments for six months after they ceased to meet the levies made upon them. The defendants have consolidated their cases into one test case issue, which will soon be heard in the Court of Appeal.

The claim of the receiver is based upon the fact that a member in default is allowed six months after ceasing to meet his obligations to the order to secure his reinstatement. The defendants claim that in having voluntarily dropped out and surrendered their rights to the claim of the benefits of the order they should be relieved from its obligations.

Circulars have been sent to all the members of the order in Toronto and throughout the province appealing for contributions for a defence fund to fight the case.

Paine's Celery Compound

Makes Them Healthy, Happy and Joyous.

The Great Medicine is Blessed by Thousands of Mothers.

Try it for Your Boys and Girls.

WELLS & RICHARDSON CO.,

DEAR SIRS,—I think it a duty to write you for the benefit of all who have delicate children, and to make known what Paine's Celery Compound has done for my child. She has been delicate all her life. I have tried many medicines, and have had her under allopathic and homœopathic treatment with but little benefit. Almost in despair, and as a last resort, I tried Paine's Celery Compound, and after using three bottles she is now perfectly well and strong. I have also used your medicine myself for complications arising from overwork, and loss of rest, and am greatly benefited thereby. I would strongly urge all who are in any way afflicted to do as I have done, "try Paine's Celery Compound," and be convinced of its wonderful curing power.

Yours gratefully,

MRS. TRAILL, AUTHOR

In Her 97th Year, the Oldest Living British Writer.

DID GOOD WORK FOR CANADA.

A Lady Who Should Be Recognized as a Large Factor in the Pioneer Life of the People of the Province of Ontario — Her Works and Botanical Researches - Ottawa News.

Ottawa, June 28.—There is living at Lakefield, near Peterboro, the oldest living author in the British Empire in the person of Mrs. Catharine Parr Traill, now in the 97th year of her age. Born in England in 1802, the daughter of Thomas Strickland, she wrote her first work in 1817 at the age of fifteen. She came to Canada in 1832 and wrote her last book in 1895 at the age of 93. So that this remarkable lady has maintained literary activity for nearly 80 years and her intellect is still bright and keen. She bids fair to outlive the century. Among Mrs. Traill's many works are the following: "The Young Emigrant," "Sketches from Nature," "The Backwoods of Canada," "A Peep Into Canadian Forests," "A Guide For Female Emigrants," "Studies of Plant Life in Canada." Her last works, "Pearls and Pebbles, or Notes of an Old Naturalist," and "Cot and Cradle Stories," were published by Briggs of Toronto in 1894 and 1895. It is said that her book, "The Backwoods of Canada," (Charles Knight, London, 1835) had a wide circulation and induced many to turn their eyes to Canada. Mrs. Traill has lived latterly with her daughter, Miss Traill, and granddaughter, Miss K. Traill, at "Westoove," Lakefield, upon an income barely sufficient to keep them in simple comfort. Unfortunately the death a few weeks ago of a trusted agent revealed a disastrous state of affairs with regard to Mrs. Traill's investments, so that the income is now greatly reduced. It is hoped that something may be saved from the wreck. Sir Sandford Fleming of Ottawa, an old friend, and a committee of ladies and gentlemen have started a movement to recognize Mrs. Traill's unique position in the literary world. The story of her arrival in Canada, where she was struck down by cholera the moment she landed, her battles with poverty, in which she enlisted her pen, writing sketches and stories for magazines, and amid all her domestic and literary cares finding time to study the botany of the country, is intensely interesting and instructive. In 1832 Mrs. Traill married a retired army officer. He died 27 years later, leaving four sons and five daughters.

General and Personal.

Louis E. Copping, copyright clerk in the Department of Agriculture, has absented himself from the office without leave; and it is officially stated at the department that his accounts show a deficit of $150. The matter has been placed in the hands of the police.

James Ellison, an inmate of the Old Men's Home on Bank street, took a dose of laudanum last night with suicidal intent. Fortunately he took an overdose and the poison only made him sick. Ellison will be arrested.

A writ was issued yesterday by Messrs. Latchford & Murphy on behalf of Mr. William Young, Rochester, against the City of Ottawa for $2,000 damages for injury done to his premises through the destruction of drains. An injunction was applied for to compel the corporation to replace the drain at once.

Patrick McCurry, barrister, Parry Sound, has been appointed judge of the provincial judicial district of Parry Sound. This is a new district.

Sir Wilfrid Laurier with Lady Laurier has gone to Arthabaskaville, where he intends spending the greater part of his holidays.

Sir Louis Davies has left for Charlottetown, Prince Edward Island.

Mr. Fielding left for Halifax last night.

Mr. Mills will leave for London on Friday next.

There was a washout on the Canadian Pacific Railway near Thurso. The trains were delayed for several hours, but are now running all right.

SUICIDED WITH ACID.

Miss Margaret Eakins of Winnipeg Took a Fatal Dose at Strathroy.

Strat roy, Ont., June 28.—Miss Margaret Eakins, daughter of James Eakins of Winnipeg, committed suicide yesterday morning by taking carbolic acid. She apparently seemed all right and came down town early in the morning and purchased the acid. It is thought she took it before entering the house, as she immediately went upstairs and laid down, followed by her sister, who suspected something wrong, and questioned her, when the girl merely laughed. Several doctors were sent for, but could do nothing, and she died about two hours after. She was living with her sister, Mrs. Walter Wright. No motive can be given for the rash act, excepting she has not been in good health for some time, and at times appeared despondent.

DODD'S KIDNEY PILLS AGAIN.

Conductor Hogg Tells the Story of His Rescue From Diabetes.

Toronto, June 13—Special—Mr. H. Hogg, the well-known and popular street railway conductor (No. 107) who has been cured of a very severe case of Diabetes, by Dodd's Kidney Pills, has written as follows to the Dodd's Medicine Co., Limited.

"My sufferings extended over a period of three years, and grew worse every day. I could get nothing to cure the Diabetes, nor to purify my blood. Finally, the dizziness so overpowered me, and I grew so emaciated and weak, that I had to quit work.

"A friend advised me to try Dodd's Kidney Pills. I laughed at him, for I had tried so many remedies, only to be disappointed that I had lost hope. However I did try Dodd's Kidney Pills. Thank God, six boxes cured me entirely."

WHEAT FUTURES UP.

Chicago Stronger on Reported Over-Estimated Crop—Liverpool Market Lower—The Latest Quotations

Monday Evening, June 27.

The Chicago wheat market firmed up today on advices from sections where harvesting and threshing are going on to the effect that incoming crops have been greatly overestimated, and that in many parts the yield will not anything like come up to the forecasts. Good-sized decreases in the American and English visible also helped to imbue the situation with a good tone. The market maintained its strength throughout the session and closed at near top prices for the day, July, September and December deliveries all showing a gain of 1c per bushel since Saturday's close. Cash wheat weakened a little, selling down 1½c.

Futures declined in Liverpool and at the close July wheat was quoted 1d lower than Saturday's close, the September delivery ¾d and the December option ¾d per cental lower. Paris wheat rose 15 to 20 centimes to-day. Antwerp closed 50 centimes lower.

Trade in Ontario wheat is at a standstill, red winter still being quoted around 79c per bushel, middle freights.

Visible and Afloat.

As compared with a week ago, the visible supply of wheat in Canada and the United States has decreased 1,804,000 bushels; that of corn has increased 252,000 bushels, and that of oats has increased 516,000 bushels. Following is a comparative statement for the week ending to-day, the preceding week and the corresponding week last year:

	June 27, 1898.	June 20, 1898.	June 28, 1897.
Wheat, bu.	17,225,000	19,080,000	18,791,000
Corn, bu.	22,424,000	22,172,000	16,913,000
Oats, bu.	7,600,000	7,093,000	9,035,000

To recapitulate, the visible supply of wheat in Canada and the United States, together with that afloat to Europe, is 37,625,000 bushels, against 63,580,000 bushels a week ago and 33,354,000 bushels a year ago.

Montreal Live Stock.

Montreal, June 27.—There were about 530 head of butchers' cattle, 250 calves and 300 sheep and lambs offered for sale at the East End Abbatoir to-day. The butchers were out in large numbers, but owing to the dirty weather and more liberal supplies of cattle trade was rather slow and prices somewhat lower than on Thursday. Prime beeves sold at a little lower than 4¾c to 5c per lb.; pretty good animals sold at from 3¾c to 4½c per lb.; the common grasshopper stock at from 2½c to 3¼c per lb. A few head of choice shipping cattle were sold at 5¼c per lb. Good calves sold at from $5 to $8 each, and the common veals at from $1.50 to $4.50 each. Sheep sold at from a little less than 2c per lb. up to nearly 3¼c do. Fat hogs are plentiful and sell at about 5c per lb.

Daily Examiner.

TUESDAY, JUNE 28, 1898.

TO-MORROW'S VOTING.

To-morrow the electors of Peterborough will be called upon to approve or reject two bylaws which will be submitted to them.

One is to change the system of representation of the town; the effect of this will be, if adopted, to make the council to consist of a mayor and in addition one councillor for every thousand inhabitants according to the latest Dominion census, the councillors to be selected by general vote, like the mayor. The radical part of the change will be that every elector in electing a council will have a vote for nine or ten councillors as the case may be, and for mayor, instead of a vote for mayor and three councillors. THE EXAMINER has many times pointed out the advantage the change would bring. It is desirable that there be a full expression of the opinion of the electors so that the decision whether for or against will be unmistakeable.

The other is a bylaw authorizing the raising by debentures of $10,000 to re-build bridges, and to purchase a steam roller to enable permanent work to be done. In order that the elector may be fully informed, he is urged to read the letter of Mayor Davis in another column, and to carefully digest the facts it presents. The question, in fine, involved in this bylaw is a decision in the one case to adhere to the costly system of performing street work, for the moment at a great expense, which will have to be done over or overhauled again next year, with the result of having nothing to show in the shape of good streets and permanent improvements, conjoined with having annual tax bills every year to pay for work that has to be done over very soon at an exceedingly large outlay. Or, on the other hand, to decide to raise money by loan for permanent work, with the payments extended on easy instalments for a number of years, and with the result of having permanent work done that will be a source of lasting satisfaction and convenience.

In both these cases it is desirable that as full a vote as possible be polled, so that a decisive expression of public opinion may be recorded.

DECORATE FOR DOMINION DAY.

Mr. Robert Fair, chairman of the Decoration Committee of the Wheelmen's Meet, yesterday published an appeal to the citizens to decorate their premises for Dominion Day. This appeal has a double significance. As Canadians we should be proud of an opportunity of thus showing our affection for our Dominion by properly observing the day by visible tokens of the recognition of the gala nature of the anniversary of its confederation. As citizens of the town we should take a commendable pride in showing strangers that we are proud of our town and are able to place it in festal garb for an occasion that amply warrants such a display. It is to be hoped that the public spirit will catch the infection of Mr. Fair's appeal to result in the town being placed in festal attire for Dominion Day and the Wheelmen's Meet.

AWARDED A COMMISSION.

Guy Rogers will Leave Almost Immediately to Join the Imperial Service.

The Commandant of the Royal Military College, Kingston, announces Mr. Guy Rogers' name amongst a number of others, as having been awarded a commission in the Imperial service.

The five others who received commissions are all graduates of the College, and as Guy was only in his second year, he is the recipient of a great honour in the offer which has been made him of a commission. As he has accepted, he will thus take rank with the graduates, and this saves a year in his time of service.

Guy is a son of Lt.-Col. H. C. Rogers and will receive the hearty congratulations of his many Peterborough friends on receiving his commission. He will leave almost immediately to join an English Regiment of the line, from which he hopes to be transferred to the Indian Staff Corps when he will see actual service at the front.

Those who buy camping supplies at the "Spot Cash" have good luck fishing.

Mr. Henry Johnston, of Hastings, was in town for the day.

Mr. K. G. Loch is in Montreal on business for a day or two.

Mr. Frank Clarke, of Warkworth, is visiting friends in town.

Mr. Mark Shiek, representing Belding's silks, is in Peterborough on business.

Mrs. Becker, of Rochester, is spending some weeks with her sister, Mrs. S. J. Griffin, of town.

Mr. Fred Addison is in town making arrangements to spend the summer at Stony Lake with his family.

Messrs. Thos. Sadler, Dan McGribbin, B. F. Reesor and Philip Morgan, of Lindsay, came to Peterborough last night to hear the Godfrey Band.

Prof. Hartranft, Principal of the Groton school, South Dakota, and wife, have been visiting at her grandfather's, Mr. S. J. Griffin, and also with Mrs. B. M. Wylie, of Ashburnham, for a few days. They left town yesterday for Toronto, and will from there go to New York, Boston, Washington and several other points in the Eastern States before returning home.

Mr. Allen Graham has been in town for the last day or two. He leaves in the morning for Grand Forks, Dakota, where he will enter into the clothing business with his brother, Mr. T. H. Graham, the opening to take place on July 1st. Mr. Wm. Merrill, who has had a large experience in the clothing trade in the leading establishment in Ontario, Gough Bros., will accompany Mr. Graham, and hereafter be associated with the Grand Forks enterprise. Both the Graham Bros. are enterprising business men, and genial companions. Their many friends in Peterborough, will wish them the largest measure of success.

MUNICIPAL MANIFESTO.

Mayor Davis' Circular Letter to the Ratepayers.

THE PROBLEM OF GOOD ROADS

Suggestions as to How to Provide Funds.

PERMANENT WORK IS REQUIRED.

A Steam Roller Needed—Distributing the Cost of Constructing Walks and Bridges—Long Date Payments on the Instalment Plan.

In view of the fact that two important bylaws are to be submitted to the popular vote on Wednesday, Mayor Davis has taken a public-spirited course in placing before the people in concise shape the financial standing of the town in relation to the possibilities of street improvements in the following

CIRCULAR LETTER:

LADIES AND GENTLEMEN:

Having been honoured by a large vote of the ratepayers and elected Mayor of the town for the present year, I feel it my duty to acquaint you with the municipal considerations which have taken up much of the time of the council to the present, more especially in view of the vote which will be cast in the course of a few days.

In the first place I will endeavour to explain fully, but briefly the financial position which had to be faced by the councillors when deciding what the rate of taxation should be.

At a rate of 17 mills, our revenue from all sources is nearly	$ 85,000 00
From this you must deduct for schools	28,465 77
Which leaves under control of the council	$ 56,534 23

Now, the following expenditures are fixed and cannot be reduced:

Administration	$ 6,000 00
Interest and sinking fund on money borrowed largely for the purpose of building our schools, town buildings, market, sewers, etc	12,337 29
Cost of taking the vote at Municipal and Provincial Elections	400 00
Cost of 124 Hydrants	3,340 00

NOTE—We have added but one hydrant this year, to protect the properties of the Peter Hamilton M'f'g Co., Bridge Works and Canoe factory.)

Insurance	190 00
Lighting the streets	7,750 00
Voters' List	190 00
Municipal Government	2,273 00
Fire Department	3,700 00
Total	$37,181 99
Deduct from the total amount we have to spend, $56,534 23, the amount of these fixed charges, $37,182.99, and we have left of controllable expense	$ 19,351 24
And yet we have allowed nothing for heating town offices, Board of Health expense, interest to Bank for advances until the taxes are paid, law expenses, market expense, charity, printing and stationery and special grants, all of which cost us last year	9,495 00
Assuming these items will amount to the same this year, we have left for streets and bridges only	9,856 24
We have five bridges which must be re-built and will cost	7,000 00
Then there is snow ploughing, and street watering, which will cost	950 00
The repairing of 80 miles of sidewalk, at least	3,000 00
And added to this is expense connected with the roads which last year cost nearly	10,000 00

Many petitions have come in for more lights, but the council felt that until the revenue of the town increased, we would have to do with what we have.)

But the heaviest expense has not yet been stated, which is this: We have 80 miles of sidewalks; the life of a sidewalk is not more than 12 years.

To re-build our sidewalks, therefore, once in twelve years, we ought to build seven miles a year; not five miles have been re built in the past five years, hence their rotten condition on so many streets in town.

If we had built seven miles this year it would have required about $8,000, so that our rate would have been advanced two mills.

The council, therefore, had only $9 856 24 to face an expenditure for sidewalks, streets and bridges of nearly $30,000.00.

The fact is the town has spent hundreds of thousands of dollars during the last twenty years on this work, yet, to-day, we have rotten sidewalks, five rotten bridges, and muddy and lumpy streets.

Are we to go on in this way, or is it not time to call a halt? The council said "Halt." Other methods will have to be adopted.

The council looked at the question fairly and squarely. They said "These bridges will last over twenty years, it is only fair that the people using them fifteen or twenty years from now should contribute to the cost. We will, therefore, pay for them in twenty payments, so that the ratepayers who use them year after year will pay their share."

Then as to the streets. They are in bad condition to-day notwithstanding the large amount that has been spent on them in the past. What does this prove? Simply that the streets must be made so as to be permanent instead of being patched year by year. More stone must be put on them. Why is it that George street, which has had so much stone placed on it, is in such poor condition? Simply because we have not had a roller heavy enough to make the hard surface which is necessary for permanent work. We have lots of broken stone in our yards, yet to use the stone with our present light roller would be doing but temporary work which has proved so expensive in the past.

If we are going to put quantities of stone on and macadamize our streets then a Steam Roller is absolutely necessary, and I append copies of letters received from the mayors of other towns, similar in size to Peterborough, which I am sure, amply confirms the judgment of your councillors in asking you to authorize the purchase, which will not cost a ratepayer who is assessed for $1,000 00 more than 7 cents a year.

By voting for the bylaw for $10,000.00 you build the bridges, and in addition guarantee to yourselves good roads all over the town at a cost not exceeding our present expenditure.

Now as to the sidewalks; Can we avoid rebuilding seven miles a year at a cost of $8,000.00, and prevent an increase in our rate of two mills from this source? The Council decided "Yes," and this is how they propose to do it. If you have a house and lot fifty feet wide and a bad sidewalk in front of it, get your neighbours living in the same block to petition the Council to put down a concrete walk four feet wide. The Council will then do so, but place it outside the trees. This will add to your lot about eight feet in depth and all you will have to pay yearly for twenty years is about $1 a year, which is better than having two mills added to the rate, thereby increasing the taxes on a $1,000 00 assessment $2 00 a year.

These are the plans the Councillors have laid down for the better, yet more economical expenditure of your money, and they appeal to you to support them in their efforts to carry out the reforms which they believe are in the interest of every ratepayer of the town.

Believing you will give these questions, which I have tried to place frankly before you, your best consideration,

I have the honour to be,
Your obedient servant,
A. L. DAVIS,
Mayor.

Peterborough, June 24th, 1898.

Below are given copies of the opinions held by other towns as to the desirability and, as some regard, the indispensibility of steam rollers:

GALT, June 15th, 1898.

A. L. Davis, Esq., Mayor of Peterborough:

DEAR SIR,—In reply to your letter of the 13th inst., I may say that our steam roller has given us good satisfaction since the purchase of it. I have no hesitation in saying that without the proper machinery it is impossible to make good roads and that our town would not part with our roller for twice what it cost, provided we could not replace it.

Yours truly,
J. H. RADFORD,
Mayor.

BROCKVILLE, June 16th, 1898.

A. L. Davis, Esq., Mayor of Peterborough:

DEAR SIR,—Brockville invested in a steam roller in 1894. All the people of our town are deeply impressed with its usefulness, and those more immediately concerned feel it to be an absolute necessity. Nothing could induce any one here to dispense with its services.

The work we did last year in grading macadamizing and rolling extended to 15 345 lineal feet, or 2 9-10 miles, covered by a period of nine weeks' operation. In 1898 we treated in the same way 12,515 feet, or 2¼ miles, occupying a like period.

We occasionally grade and roll, without macadam, short sections of streets but it is not profitable to indulge much in this work when in earth or clay material. We have no gravel here, and the use of the roller is for the most part limited to the quantity of broken stone we can afford to furnish per season.

The cost of repairs per year has been trifling.

Yours truly,
W. S. SMELLIE,
Town Engineer.

STRATFORD, ONT., June 15th, 1898.

A. L. Davis, Esq., Mayor of Peterborough:

MY DEAR MR. MAYOR,—Re steam roller, your people need have no hesitancy in voting money for the purchase of this. In my municipal experience, covering many years, I can safely say that no investment we have made gives greater satisfaction. Our council met with strong opposition and had we submitted a bylaw for the money it would have been defeated. I am pleased to say that those who talked strongest against the purchase are now its most ardent admirers.

Sincerely yours,
JOHN C. DONOUGHUE,
Mayor.

WOODSTOCK, ONT., June 18th, 1898.

A. L. Davis, Esq., Mayor of Peterborough:

DEAR SIR,—In reply to yours of the 13th inst., I beg to say that we purchased a Buffalo Pitts Steam Roller this spring, for $3,300 00.

The roller is doing excellent work and giving first class satisfaction.

We were not, financially, in a position this year to put sufficient metal on the streets to get the best results from its work. We have been using screened gravel and not enough of that.

I do believe that broken or crushed stone is the best, and in the end, the cheapest material for road making.

In a couple of years I do not think we will have many kickers (as to the roller) in the town.

If you have the metal and can afford to put it on the streets, I say, get the steam roller by all means.

Yours truly,
ANDREW MACKAY,
Mayor.

THE HEALTH OF A NATION DEPENDS ON THE HEALTH OF ITS WOMEN.

22 POUNDS GAINED.

I had been a sufferer like a great many other women with a disease peculiar to my sex. I tried every thing I could read or think about to help me, but was getting worse instead of better. My condition was terrible—I was losing flesh and color, and my friends were alarmed. I consulted a doctor of this town and he said I would never get better; that I would always be sickly and delicate, and that medicines were of little use to me. Hearing what Dr. Ward's Blood and Nerve Pills had done for others I determined to try them myself, and to-day I weigh one hundred and forty pounds, while before I weighed only one hundred and eighteen pounds, and I now have a constitution that is hard to beat. I have not suffered any pain in months, and earnestly hope that Dr. Ward's Blood and Nerve Pills will reach every woman suffering as I did. Sincerely yours,

THE "GHOST SHIP."

BY CHARLES B. LEWIS.

Would you believe that so late as the year 1882 a fine clipper ship had to be sold for a song and converted into a coal barge because of a ghost aboard which gave her a bad name? Such was the case.

The Nemo was a Clyde built ship and was launched in 1870. She was built for and owned by Perry Joslyn of Liverpool, who was the owner of six other ships, all voyaging to India or Australia. As a rule, two or three men are killed and as many more badly injured in the building and rigging of a ship, but in the case of the Nemo no man met with the scratch of a finger. The launch was the fairest of a score of ships from the same yard, and when fully rigged and ready for her maiden voyage the new creation was said to be the handsomest vessel hailing from the great port. A valuable cargo was ready for her, and the owner had the luck to secure a skipper in the person of Captain Halpin, who had commanded half a dozen different ships and never met with a serious accident.

We got to sea one day in a way to please all hands, and inside of 24 hours we found the craft to be a witch for sailing. When she got settled down to her pace, she showed the speed of a steamer and carried favorable winds for the first seven days out. Then, one night at 10 o'clock, the breeze died away until the Nemo lost steerageway, and it was at 11 o'clock that the ghost was first heard of. A man named Charles Jones was on watch on the bows at that hour. He was a sober, dignified man and the best seaman of the crew. As third mate of the ship I had the watch at that time, while the captain and the other mates were asleep and seven or eight men were lounging about on the fore and main decks. Of a sudden Jones screamed out and came running aft in a state of great excitement. He was in such a state of alarm that it was five minutes before he could relate his story. He was pacing to and fro, he said, keeping a bright lookout and not thinking of anything in particular when he suddenly found something walking beside him. He heard no step or sound, but a "something" stood shoulder to shoulder with him. It wasn't exactly a man, nor yet was it a shadow. The sailor felt its breath on his cheek and turned to seize it, but the "something" laughed at him and glided away. I was greatly provoked with the man and charged him with having slept on his post, though I knew that I did him injustice in this. It was a cloudy night, with the moon breaking through now and then, and I contended that his "something" was but a shadow and ordered him back to his post. Nothing further happened that night, and the next morning the captain called the old man aft and gave him to understand that if he saw or felt any more ghostly visitors it would be bad for him. The crew would talk the matter over and side with Jones, but that anything further would be seen of the "something" no man believed.

Four nights later and two hours after midnight, while the ship was making a good eight knots per hour and everything was going smoothly, as the first mate had the deck, the entire ship was aroused by something which happened in the deckhouse. There were eight or nine men sleeping there, and a man from the watch on deck went in to his chest to get a plug of tobacco. The slush lamp had been turned down, so that the place was but dimly lighted. The man was bending over his chest when something seized him in a clammy embrace and forced him to the floor. He thought it was one of the crew playing him a trick, but he scrambled up to find them all in their bunks and to see a shadow glide away. The sailor set up a shout, the watch below turned out, and presently everybody was on deck, and excitement reigned fore and aft. In return for his story the sailor got a dose of rope's end, though after flogging he still maintained that he been hugged by a ghost. On the quarter deck we explained it away by saying that the man was nervous, but every man forward believed his statements and was satisfied that the ship was haunted. We thought it the best policy to treat the affair with contempt, and, although we could not help but notice how the men hung together in pairs after night had come, we gave the matter no attention. When ten days had gone by and nothing more had turned up, we looked upon the ghost as a good joke, and the two men who had seen it were the butt of ridicule. At 1 o'clock of a certain morning, the breeze being small and the night without a moon, though fairly light, the first mate stood looking to windward over the port quarter at what he believed was a sail. His watch were all wide awake, and he could hear the footsteps of the man on lookout as he paced to and fro. The man had been standing still for perhaps five minutes when he felt a hand laid on his arm, an icy breath on his cheek, and as he wheeled about there was the sound of low laughter. To his surprise and consternation no one was visible. His impression as he turned was that one of the other officers had softly approached him to test his nerve. The man at the helm was nearest to him, but he could not be suspected of having left his post to play a trick on his officer. In fact, no sailor aboard would have dared to take such a liberty. For a few seconds the mate was as sure that he had a human being to deal with as that he lived, but when he found nothing before him and yet heard the mocking laughter, as if some one were moving away, his flesh began to creep. Going back to the binnacle, he said to the man at the wheel:

"Williams, have you seen or heard anything queer?"

"Can I speak out, sir?" asked the man, who betrayed excitement in his voice.

"Yes, of course. What did you see?"

"I seen sunthin like a shadder beside you, sir, and I heard a laugh that never come from the throat of a human being. It's a ghost, sir, and this is a doomed ship!"

The mate poohpoohed and bulldozed to make light of the affair, as it was politic to do, but though the man was reduced to silence it was evident that he was fully satisfied that a spook was aboard. Next morning the mate related his experience to the cabin, and as he was a man whose word could not be questioned no one brought ridicule to bear. On the contrary, taking it as an accepted fact that a ghost had been felt, if not seen, by three different persons, we began fishing for some natural and plausible reason to account for the thing. Were the men depressed in spirit? Had they overeaten? Did each one sleep for the moment? Was the icy breath a sudden puff of wind and was the laughter the creaking of bulkheads as the ship lifted or fell? We argued it out that it must be something of the sort, but the men forward had their own ideas and were very much cowed and put out. However, as in the previous instances, the passage of time worked something of a cure. We were bound for Australia, and we had stretched away into the Indian ocean and weeks had gone by before we got another scare. This time it came to the captain himself. At 10 o'clock at night he sat reading in his cabin when a chill suddenly passed over him and he felt two ice cold hands on his neck. It was as if a strong man had put his thumbs together on the back of the neck and clutched the throat with his fingers. Captain Halpin started up and shook his assailant off and turned to strike him. His idea was that the crew had mutinied and one of the men had stolen in to seize him. No person was there, but as if in answer to the captain's oath of astonishment there was the same low, cynical laughter heard by the others. His stateroom door was standing open and had been for two hours, but the laughter died away in that direction and the door closed. The captain came on deck and called me and whispered that a man had passed into his stateroom. Together we entered and made search, and, of course, found nothing. No man could have been more upset. His experience had been even more trying than the others, and all his argument had been torn to shreds. Something had gripped him, though no marks were left to prove it. Some one or something had laughed, though the captain was all alone in his cabin.

I promised Captain Halpin not to say a word even to my brother officers, and he certainly did not mention the matter, but somehow the particulars of the incident leaked out in a day or two, and during the remainder of the voyage, though the ghost did not appear again, it was the hardest kind of work to maintain discipline. When we reached Sydney at last, every man of the crew cut and ran, and such queer stories were put in circulation that the Nemo had hard work to ship a crew for the return voyage. A broken leg sent me to the hospital, and she sailed without me, but I kept myself posted as to the ghost. Midway between Australia and the Cape the first mate had his throat clutched by cold and unseen hands as he lay in his bunk one evening, and two nights later the same thing happened to a man in the deckhouse. While discipline was upset and things in a bad state the trouble would have passed away if the ghost had not played his pranks on the man at the wheel a few nights subsequently. Every man forward then declared his determination to quit the ship, and they had provisioned two boats and were about to lower them when a man-of-war hove in sight. A signal of distress brought her along, and you can judge how the minds of the men were affected when I say that they preferred going aboard of the man-of-war in irons to returning to duty. Enough men were spared to work the ship home, and though the ghost remained quiet there was an uncanny feeling with all. For four weeks after loading for India the Nemo could not ship a man. The ghost business had got into the newspapers, and the stories were circulated in the taverns, and though men would have taken their chances in a leaky ship they fought clear of spooks. A crew was at last secured by paying extra wages, but after the Nemo had been out 17 days the ghost laid its cold hands on one of the men, and the entire crew, led by the third mate, abandoned the ship at sea. The captain and the two mates stood by her and eventually got her into a port, but her reputation was blasted forever. The case was laid before all sorts of men, and scoffers and believers alike visited the ship in search of a clew. Plenty of deductions and conclusions were arrived at, but they satisfied only a certain few. After many months the Nemo loaded at Liverpool for a South American port, and her crew was composed entirely of Germans fresh from a China voyage. Not one had ever heard of her troubles, but they were fated to find out for themselves. A week after sailing the ghost appeared as lively as ever, and again the crew put off and left her in charge of her officers. She was a doomed ship, and her owner did the wisest thing possible by selling her at the best price he could get. As a coal barge she was never troubled again by the ghost, though why it shouldn't have continued aboard no one can tell. You can form your own theories and draw your own conclusions of the whole affair. I bothered with it for several years, hoping to get at some satisfactory elucidation, but it remains a mystery still. If there had been no ghost, the ship would not have been twice abandoned and finally sold for a fifth of her cost, and that such was the case there are a hundred newspaper articles to prove. Indeed the hulk is in commission today, and is always pointed out as the "ghost ship."

Cupid's Lasso.

Its the way of the world. Cupid discovers a man and a maid putting their heads together in a confidential way. The little frontiersman throws his lasso over them and there you are: two people are made more or less happy for life. If she is a bright, healthy, cheerful wife they will be more and more happy as the years go on. If she is weak and ailing and incapable there won't be much happiness for either of them.

A woman makes a grave mistake who enters upon the obligations and trials of married life handicapped by physical weakness or disease. It is her duty to be in the best possible condition to support the duties of wifehood and motherhood.

If every young woman who knows of or suspects any unhealthy condition in her physical make-up would seek competent professional advice she would save herself much future mortification and misery. Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., gladly answers confidential correspondence from women free of charge and gives careful fatherly and professional advice, to suit the individual case.

He has, for thirty years been recognized as among the most eminent of living specialists in the treatment of diseases peculiar to women. His "Favorite Prescription" is the only proprietary remedy in the world designed by an authorized, educated physician specifically to cure female troubles. His great thousand-page illustrated book the "Common Sense Medical Adviser" will be sent free for 21 one-cent stamps *to pay the cost of customs and mailing only*. For 50 stamps a heavier cloth covered copy will be sent.

Barbara A. Mudd, of Indiancreek, Monroe Co., Mo., writes: "I am very thankful for what Dr. Pierce's Favorite Prescription did for me. I was all broken down from nervous prostration, but since taking your medicine I have had more relief than from all the doctors. Your 'Favorite Prescription' did me a world of good."

KINGS AMONG ELEPHANTS.

Two Fine Beasts That Had Slaves to Wait on Them.

It was our good fortune to be present at an important meeting of the khedah at Chila, on the banks of the Ganges, where the Nepalese government had sent down their magnificent troop of tame elephants for the chase of wild ones. They were about 150 in number—magnificent, noble creatures, writes a contributor to the Boston Journal.

The two finest among them were the "kings" of the troop and were called Bijli Prasad and Narian Gaj Prasad. Bijli Prasad, which means "lord of lightning," was such a grand fellow! The width of his brows was so great that he could not put his head through our hall door, and he knows to the smallest point what a mighty creature he is.

He and his companion, Narian Gaj Prasad, which means "the peerless lord," are provided with two slave elephants, and the only duty of the latter is to fetch and provide fodder for Bijli and Narian Gaj. They do their duty right well. At early dawn their mahouts, or drivers, drive them into their jungles, and they work like real slaves. They collect the sweet sugar canes, tearing them up by the roots, the young, succulent grasses and tender leaves and heap them up in masses which weigh about 300 pounds each. These loads are put on their backs, and thrice a day they gladly carry in their burdens and lay them at the feet of their lords.

We went out by moonlight to see the latter fed, and any child would enjoy the strange sight. First of all the mahout makes a great big campfire of twigs and brushwood, and on it he places a large, flat iron dish, supported on two bricks. Then he takes wheat flour and kneads it with water into great round flat cakes about an inch thick and twice the circumference of a soup plate. These cakes he bakes on the iron dish.

We were anxious to taste them, and we found them very good. We punched out with our fingers all the nice brown spots and ate them, piping hot. And to make up to Bijli and Narian for taking part of their supper, we had prepared a treat, of which they are particularly fond. From the bazaar we had brought great balls of sugar cane juice boiled down and made solid, called "goor" in that country. Each ball was twice the size of a tennis ball and in each wheat cake or "capati" we rolled a lump of this molasses. You should have seen how the big beasts enjoyed their feed—how their *great trunks rested* down on our shoulders, always upturned for the forthcoming delicacy!

THE SURGEON FOILED.

Wanted to Perform an Operation.

DR. CHASE'S KIDNEY-LIVER PILLS RENDERED IT UNNECESSARY.

Too many doctors are too ready to use the knife. Many a one is sacrificed on the altar of a surgeon's ambition to operate who could be saved by the use of Dr. Chase's K.-L. Pills. The case of MRS. W. B. AIKEN, of Zephyr, Ont., is one in point. Her husband says that she had been doctoring with several doctors for Inflammation of the Bladder for over a year.

"The last bottle I got from the doctor he said if that did her no good she would be compelled to have an operation performed. I luckily picked up a sample of Dr. Chase's K.-L. Pills in Mr. Dafoe's store, and my wife took one pill that night and one in the morning, and she has never felt the least sign of pain since. I will always keep Dr. Chase's Pills in my house for all our family complaints."

At Home Again.

"I defy any man to stay away from his native town so long that on his return there will be nothing left to remind him of the old days," said a successful western man, who had just paid a visit to his birthplace, a little village of northern New Hampshire.

"When I saw Trowbury, after a lapse of 40 years, it seemed to me there was not a single thing which had remained unchanged. The town has become a place of mills and industry; all its old sleepy charm is gone. My old schoolfellows are gray headed, sober men, and the men of 40 years ago are either tottering with age or at rest in the graveyard.

"When I saw my old chums, 'Bouncing Bob'—so named from his prodigious weight—and 'Slab' Peters, whose name was also the result of nature's allotment of flesh, my heart sank, for Bouncing Bob is lank and bony, while Slab Peters would require two seats in a street car.

"'Doubting' Phipps, who used to mistrust all statements, whether as to the shape of the globe or the price of peanuts, I was told lived on a farm so far away that he seldom came to town.

"The night before I came away I was telling a couple of young men at the postoffice something about my wheat farm, in answer to their questions.

"I had just made a statement in regard to the number of bushels yielded the year before, when I was startled by a drawling voice behind me, proceeding from a man who had entered the store while my back was turned.

"'Sounds very fine,' said the voice, 'but I mistrust it can't be true.'

"The two young men turned with intolerant haste to confront the newcomer, but I wheeled around with a sudden feeling of warmth at my heart.

"'You are Doubting Phipps, I know!' I cried, holding out both hands, and I was not mistaken. We talked for an hour, and at the end of that time I felt that Trowbury was still Trowbury."—Youth's Companion.

A Strong Nation

Consists of strong men and healthy women, and health and strength depends upon pure, rich blood which is given by Hood's Sarsaparilla. A nation which takes millions of bottles of Hood's Sarsaparilla every year is laying the foundation for health, the wisdom of which will surely show itself in years to come.

Hood's Pills are prompt, efficient, always reliable, easy to take, easy to operate. 25c.

GREAT NAVAL DISASTERS.

A list of the greatest naval disasters in which war vessels figured would include the following:

Edgar, English, blew up, 1711; all on board perished.

Namur, English, 1749; 830 lost.

Prince George, English sloop, burned 1758; 400 lost.

Royal George, English frigate, in 1782; lives lost, over 600.

St. George and Defense, English frigates, 1811; nearly 2,000 lives lost.

Meduse, French frigate, 1816; nearly 200 lost.

Birkenhead, English troopship, 1852; 454 lost.

Albany, British sloop of war, 1853; 210 lost, all on board.

Lady Nugent, English troopship, 1854; 400 lives lost.

Eurydice, English training ship, 1878; 300 lost.

U. S. S. Oneida, 1870; 115 persons lost.

Captain, English war vessel, 1870; nearly every one on board perished.

U. S. S. Huron, 1877; 100 lives lost.

Grosser Kurfurst, German ironclad, 1878; about 300 lives lost.

Dotterel, English sloop of war, exploded 1881; 143 killed and drowned.

Victoria, English battleship, 1893; 400 lost.

Reina Regente, Spanish warship, 1895; 420 lost.

U. S. S. Maine, blown up 1898; 264 lives lost.

England has been the unfortunate victim of the two greatest naval disasters on record. On Nov. 26, 1703, the Stirling Castle, 70 guns; Mary, 79 guns; Northumberland, 70 guns; Vanguard, 70 guns; York, 70 guns; Resolution, 60 guns; Newcastle, 60 guns, and Reserve, 60 guns, were all lost in the same storm and many hundreds perished.

Again in October, 1780, the Thunderer, 74 guns; Stirling, 64 guns; Defiance, 64 guns; Phœnix, 44 guns; La Blanche, 32 guns; Laurel, 28 guns; Shark, 28 guns; Andromeda, 28 guns; Deal Castle, 24 guns; Penelope, 24 guns; Scarborough, 20 guns; Barbadoes, 14 guns; Chameleon, 14 guns; Endeavor, 14 guns, and Victor, 10 guns, were lost in the West Indies.—New York Sun.

BAD BLOOD.

You can't be healthy if your blood is impure or watery,—if poison is circulating through your arteries instead of rich, pure, life-giving blood.

If you feel drowsy, languid,—are constipated, have pimples or blotches breaking out on your body the remedy for you is Burdock Blood Bitters.

"I have been using B.B.B., also my brother and sister-in-law, and we find it a most reliable and efficacious blood purifier, and most cordially recommend it. We purchased it from J. R. Ault & Sons of this town." MISS C. M. WATSON, Aultsville, Ont.

B.B.B. is a highly concentrated blood purifying vegetable remedy,—only 1 teaspoonful at a dose,—you add the water yourself.

HOUSEHOLD HINTS.

If one can wear old, loose kid gloves while ironing, they will save many callous spots on the hands.

A few drops of oil of sandalwood, sold by druggists, dropped on a hot shovel, will be found to diffuse a most agreeable balsamic perfume in sickrooms or confined apartments.

Never despair when linen seems hopelessly scorched from an overheated iron. Soak the stain in lukewarm water, squeeze lemon juice on it, sprinkle a little salt over it and place it in the sunshine to bleach.

For polishing oak, woodwork or furniture use raw umber, paraffin oil, turpentine and whiting in the proportion of a pint of oil, a gill and a half of turpentine and three tablespoonfuls each of raw umber and whiting.

Dust cannot gather in the corners of a room if a new corner plate is used which is formed of a triangular sheet of metal with the sides curved in and is forced into the corner by a special tool which causes it to grip the wood and hold itself in place.

The Uses of Children's Pets.

"There is an ethical and scientific use in associating the child with small animals," writes Charles M. Skinner in The Ladies' Home Journal. "Have puppies and kittens in the yard—these will keep the peace if they start in life together—and, if consistent or possible, have a few toads and a turtle, or even a baby alligator. These inhabitants of your premises will be found instructive and amusing, and incidentally I may remark that they are useful in destroying insect pests that will otherwise ravage your pet plants. Do not try to keep a large dog in a small yard. He will chafe under his confinement and may sicken or develop ill temper. Put up a birdhouse and if possible have a few of our own birds to fill it—not the sparrows, but the robins, bluebirds, orioles, warblers and wrens. One of the benefits that come from a friendship with animals will be the growth of justice and chivalry in your children. Teach them to love these dependents, to guard their rights, to protect them from abuse, to discover their many relations to our own species."

A PRESSMAN'S STORY.

Mr. Parnham Tells how Dodd's Kidney Pills Cured His Lumbago.

Toronto, June 27.—The story of the escape of the Globe pressman, Mr. John H. Parnham, from the agonies of Lumbago, by using Dodd's Kidney Pills, is unusually interesting.

Mr. Parnham writes to the Dodd's Medicine Co., Limited, thus:—"I am proud to testify to the wonderful efficacy of Dodd's Kidney Pills. About eight months ago I was attacked by severe pains in my back. I consulted an eminent physician, who said I had Lumbago and told me to take Turkish baths. These did me no good.

"A friend advised me to try Dodd's Kidney Pills. I did so, and one box cured me. My back has never troubled me since."

HUMAN SACRIFICES

On the Altar of Diabetes, Saved by Dodd's Kidney Pills, Only.

Hardly a family in the country is free from Diabetes. Great thirst, failing sight, numbness in the thighs, bleeding gums, swollen ankles, emaciation, nervousness, pale or turbid urine, loss of sexual power, decaying teeth, pains in the loins or small of the back, are all positive signs that Diabetes is in the system.

Do you know how it ends? IN DEATH. A premature, horrible, agonized, pitiful death. The victim has no peace, no ease in life. His days are filled with tortures. His nights are waking dreams of agony. He longs to die, yet fears the terrors of his end. He dies, a bloated, fetid, repulsive mass of corruption. That is the only end of unchecked Diabetes. Dodd's Kidney Pills will cure it. They drive it out of the system thoroughly, create new, clean blood, rebuild the diseased kidneys, and restore robust health.

THE WHEEL.

The official badge for the first Provincial Meet of the C.W.A., which has been got out by Messrs J. W. T. Fairweather & Co., town, is a very natty design. The pretty carmine lapel button is appropriately worded around the official emblem of the association, which studs the centre. Pendant from the button is a narrow red, white and blue ribbon of good quality, which makes a pleasing effect in colour combination. This special design will commend itself for its neatness and good taste, and will doubtless be popular as commemorative of the first Provincial Meet festivities held in Peterborough.

Andy Little's many friends in town will be pleased to learn that he has entered for the one mile amateur championship, the one mile open, five mile championship and two mile handicap. Andy is now living in Woodstock.

John C. Imlay, of Ottawa, writes asking for a big block of reserve seats to be kept for the men from the capital.

W. N. Irwin, chairman of the Rules and Regulations Committee of the C. W. A., has written to say that the C. P. R. are posting immense posters advertising the special trains which leave Toronto for Peterborough on Thursday evening. The Athenæum band, 26 strong, including ten G. O. R. drummers, comes in on this special which will arrive in Peterborough at about eleven o'clock. Mr. Irwin thinks anybody who goes to sleep in Peterborough before this hour is wasting time. The Oshawa funmakers have a special car waiting for them at Myrtle, which is attached to this train and they say they will make the pace too hot for the Athenæums. It would be well if the citizens extend a welcome to these visitors when they arrive. Thousands should be on the streets.

Consul G. M. Farrington, of Picton, is running a big excursion up from that town and is bringing the band along. They will arrive here early Friday morning and expect to make themselves noticeable.

Hundreds of wheelmen will doubtless visit the beautiful grounds of St. Joseph's Hospital on July 1st, when the annual picnic is to be held. Arrangements are being made to provide dinner for all who attend. In order to avoid the rush at the hotels, many will go to the grounds after the lacrosse match for their mid-day meal.

Fairweather & Co. have been appointed official agents for the C. W. A. badges and have a great variety including the colours of all the larger clubs.

Mr. Danny Simon's patent wooden wheel is on exhibition in Fairweather's window, It is a corker.

No vehicles are to be allowed on the Driving Park Grounds on July 1st and 2nd.

The track is in grand shape and the riders are much pleased with it.

LACROSSE.

The Perth team arrives from the east on the 4.42 a.m. C.P.R. express on Friday. The will be met by the following gentlemen comprising the Reception Committee: Messrs. W. Salisbury, J. J. Howden, L. B. Fulcher, Wm. Rudkins, W. J. Green and Chris. Graham. The officers of the club are also expected to be at the depot.

There will be a rattling good game of lacrosse on Saturday morning between a junior team from Campbellford and the Young Klondikers of town. A good crowd should attend.

A DOMESTIC DISAPPEARS

At the Same Time a Purse Containing Twelve Dollars.

Some weeks ago the wife of a well-known business man gave employment to a new domestic, and was well satisfied with the service which the girl gave on the first forenoon.

Just before dinner the new domestic went down to the well to get a pail of of water, and as considerable time elapsed without her re-appearing, some anxiety was felt as to her safety. A search resulted in the finding of the pail—nothing more.

It was a few hours later before the lady of the house discovered that her pocket book, containing about twelve dollars, had disappeared. The constables were notified of the occurrence, but the girl could not be traced until a day or so ago, when it was ascertained that she was in trouble down east. The local case has been dropped, as the theft could not possibly have been proven unless the girl had been caught with the stolen money on her person. Doubtless it is all spent by this time.

POLICE COURT.

June 28th, 1898.

At the Police Court, this morning, William Gould, of the town of Peterborough, was charged "with having no peaceable profession or calling to maintain himself by, for the most part supports himself by gaming and by the avails of prostitution, contrary to law." The evidence of James Scriver was to the effect that he had seen the defendant with a wheel at Campbellford on May 24th, and also with a wheel at the Farmers' picnic at Jubilee. The wheel had numbers on it. Witness could not say whether defendant won or lost money by this wheel. John Savigney, another witness, saw Gould at the Farmers' picnic with a wheel. Saw money changing hands, passing both ways. Never saw Gould using a wheel of fortune before. Wm. Fleming knew defendant and saw him at Campbellford on the 24th of May with a wheel and at Jubilee also with a wheel. Saw defendant running a wheel on the boat. Knew Gould as making his living for the last four or five years by butchering. Defendant lived on Smith street; didn't know who he lived with; had been in the house and saw Lizzie Moncrief, as she was known, there.

At this point a controversy arose as to the admissibility of certain evidence and the magistrate adjourned the sitting of the court till eight o'clock when the cases bearing upon the points in dispute are to be submitted.

A large number of witnesses have been subpœnaed on both sides. They were excluded from the court and "corralled" in the Council Chamber adjoining and were brought out as required. Mr. G. M. Roger appeared for the prosecution, and Mr. W. A. Stratton for the defence.

CHANGE YOUR COLOUR.

It is a Change Very Easily Made, if you Only Know How.

Dodd's Dyspepsia Tablets do it—They Banish the Causes of Sallow Complexion, Pimples, etc., and Leave Instead Good Health and Good Looks.

No earthly power can convert an Indian nor a negro into a white man. The black skin cannot be made white.

But a muddy, sallow, greasy, wrinkled skin can be changed to a clear, pure, fresh and smooth one. It can be beautified by the rosy blush of youth and health.

Dodd's Dyspepsia Tablets make the change.

The thin, worn, haggard, pallid face can be changed into a full, fresh one, with the hue of health and the look of vigour and strength on it.

Dodd's Dyspepsia Tablets ensure the change.

The muddy, pimply skin, and the pallid, worn, haggard face are the effects of Indigestion, or Dyspepsia and impure blood.

When food is not properly digested, the blood into which it is changed is thin, weak and impure. It doesn't contain enough nourishment to give the skin its natural, healthy, clear appearance, or the face its natural plumpness and colour.

Anything that will ensure perfect digestion, brings about the changes named as surely and naturally as night follows day.

Dodd's Dyspepsia Tablets ensure digestion, because they digest the food themselves.

Thus they ensure a generous supply of pure, cool, rich blood.

Users of Dodd's Dyspepsia Tablets are distinguished by their bright eyes, clear, pure, smooth skin, healthful and vigourous looks.

They are thus distinguishable because Dodd's Dyspepsia Tablets ensure perfect digestion, pure blood, and stimulate the bowels to healthy action, throwing out of the system all impurities.

Dodd's Dyspepsia Tablets are sold by all druggists at fifty cents a box, six boxes $2.50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto.

ON THE EVE OF BATTLE

American and Cuban Generals Who Will Direct the Fight.

TIME OF SANTIAGO ASSAULT.

One Report Says It Will Begin To-Day, Another That It Will Not Be for Several Days Yet—The Combatants Seem to Be Ready for the Fray—War News.

Siboney, via Kingston, Jamaica, June 28.—On the very eve of the great fight which is to take place for the possession of Santiago the three commanders upon whom devolves the leadership of the attacking forces to-night express the utmost confidence in the result. The three are Generals Shafter and Calixte Garcia and Admiral Sampson. The army, under the command of the first two, have driven the Spaniards back until they now rest in the trenches about the city in which they are to make their last stand. Before the entrance to the harbor lie Sampson's grim warships, assuring his half in the coming victory and making the escape of Cervera's squadron impossible. The army, of course, will bear the greater share in the work that is to come, but to the navy remains the glory of lowering the Spanish Admiral's flag. While confident of victory, Garcia declares that the Spanish will fight desperately. He and Gen. Shafter are campaigning together in the utmost harmony. It was feared that the Cuban leader might decline to co-operate with the American forces unless Shafter formally recognized the Cuban Republic. But when the Generals met, Garcia, with tears in his eyes, took Shafter by the hand and said: "You have come to fight the enemies of my country, and we will serve you without question."

POSITION OF U. S. TROOPS.

Only Three and a Half Miles Between the Attacking Forces and the Blockaded City.

At the front, on the Rio Guamo, Monday, June 27, per Associated Press despatch boat Wanda, via Kingston, Jamaica, June 28.—The American front has been advanced beyond the first crossing of the Rio Guamo, about a mile, and a tug lies three and a half miles from the Spanish entrenchments.

General Lawton's brigade rests on the road to Santiago de Cuba. The third brigade under General Chaffee holds the trench, with his command lying across the road and river.

The first brigade, under General Clarke, lies on the left flank, slightly in the rear, and the second brigade occupies the opposite position on the right flank.

General Wheeler, with the cavalry, is in the rear, between Sevilla Hills and the Rio Guamo. A strong line of outposts is maintained ahead.

General Chaffee's brigade, with 3,000 Cubans under General Aguirra and several hundred under Col. Gonzales, was skirmishing towards the city this morning.

General Lawton, General Chaffee and General Wheeler have thoroughly reconnoitred the Spanish position, and with the aid of information furnished by the Cubans have very good maps of the roads and defences of the city.

Much information has also been obtained from Spanish pacificos, who have slipped out of the city and given themselves up, in the hope of getting food. They report great starvation and distress in Santiago de Cuba. They say the Spanish troops are on short rations, and that all the supplies are being held for their use. The sick in the hospitals, the pacificos also say, are suffering from want of food, and they report that 77 Spaniards were killed and 189 wounded as the result of the engagement of Friday last with Col. Wood and Young's command.

The most startling information obtained from the pacificos is that since the advance began almost 20,000 Spanish soldiers have arrived at Santiago de Cuba. This statement is made on the authority of General Lawton, and he is also of the opinion that General Pando may be able to effect a junction with General Linares at Santiago de Cuba.

There are two forts of considerable importance within the Spanish lines—Puenta Blanco, at the southern end of the bay, and Santa Ursula, at the south-east corner. On the road to Caney, to the north, is another fort.

There are about 450 men in each of these fortifications, and stretching around the whole city are nine barbed wire fences fifty yards apart, while just inside of these are lines of rifle pits.

A little west of south, at a distance of about seven miles from General Lawton's headquarters, lies Morro Castle.

There is no high ground in the present position where Hotchkiss or Gatling guns could be put into position, but a little further on is ground where guns can be mounted, and from which an effective fire can be directed at the Spanish entrenchments. There were no alarms last night.

Apparently General Linares prefers to place faith in the defence of the city and intends to make a "last ditch fight" of it

At noon to-day Maj. Coolridge received orders to clear the road beyond the front where the stream doubles back across it for the advance of artillery. A dynamite gun and a Hotchkiss gun will be put in position.

Not for Several Days.

No aggressive move by the Americans is anticipated for several days. The road to the base of supplies must be greatly improved before the onward movement can be safely made.

Assault to Be Made To-Day.

New York, June 29.—It is stated that a grand assault will be made to-day on Santiago. All preparations have been made to make it a success, and there is no doubt it will be successful.

They Had a Fight.

Washington, June 29.—The Navy Department yesterday posted the following bulletin:

Admiral Sampson reports that the Yale arrived yesterday and discharged her troops.

Capt. Sigsbee of the St. Paul reports that on Wednesday afternoon, while off San Juan, Porto Rico, he was attacked by a Spanish unprotected cruiser and the Spanish torpedo boat destroyer Terror. The Terror made a dash, which was awaited by the St. Paul. The St. Paul hit the Terror three times, killing one officer and two men and wounding several others. The Terror dropped back under cover of the fortifications, with difficulty, and was towed, in a sinking condition, into the harbor, where she is now being repaired. Later a cruiser and a gunboat started out, but remained under protection of the forts.

SPAIN'S PLAN.

Admiral Sampson to Be Attacked in the Rear in the Water and Prevented From Helping Shafter.

London, June 29.—The Star yesterday prints a story from a foreign correspondent to the effect that part of Admiral Camara's fleet left him off Algeciras, near Gibraltar, and is now on its way to Porto Rico "to join the squadron of torpedo boats which Captain Vallamil has had concealed near there for three weeks past."

The correspondent adds: "This fleet will attack Admiral Sampson in the rear, while Admiral Cervera attempts a sortie simultaneously with the commencement of the land battle. Thus Admiral Sampson will be too much pre-occupied to help General Shafter."

The Squadron for Spain.

Washington, D C., June 29.—At the conclusion of yesterday's Cabinet meeting it was stated that the work of supplying Commodore Watson's squadron with ammunition, coal and provisions, preparatory to its departure for Spain, was progressing satisfactorily, and that in all probability the squadron would be ready to sail in the course of the next four or five days.

Does Germany Mean It?

London, June 29.—The Berlin correspondent of the Daily News says: "The following semi-official note has been published her apparently with the object of preparing the world for the landing of German marines at Manila:

"'As yet no statement has reached here about the German marines at Manila, but it is a matter of course that Admiral Von Diedrich will interfere so soon as it may become necessary for the protection of Germans there. Such a measure would have no political significance whatever. Neither at Washington nor at Madrid have negotiations occurred on this matter.'

"The assurance that a landing of marines would have no political significance is very nice. The only question is whether the United States and other powers will see in the landing an act of interference compelling them to follow suit."

Merritt Rushing Things.

San Francisco, Cal., June 29.—General Merritt notified his staff officers that they must have all their baggage aboard the steamer Newport last night. He announced that he would embark at 9 o'clock this morning, and hopes to issue orders to sail *before* 10 o'clock, as the Newport is ready to depart.

Help for Shafter.

Washington, June 29.—Nine thousand men, under command of General Sneider, leave here to-day and make Shafter's army quit up to 30,000. Sneider's second division of the Fourth Army Corps is made up of three brigades and nine regiments.

A SUICIDE EPIDEMIC.

Everton, Toronto and Windsor Men Kill Themselves.

THE CAUSES OF THE RASH ACTS.

One Was Disappointed in Love—Another Had Been Drinking Heavily, and the Other Had a Streak of Insanity — The General Details in Each Case. Briefly Told.

Guelph, June 29.—A sad suicide occurred in Everton on Sunday night. Frank Simons, a well-known young man about 23 or 28 years of age, took his own life. He was employed by Mr. Robert Talbot, a farmer. On Sunday evening he left Mr. Cutting's house in Everton at 7 o'clock. Mr. Talbot expected him to work on Monday morning, but as he did not turn up he concluded that he was at his mother's. Mr. Talbot went over in the evening to his mother's to find out why he had not been over, and both were very much surprised to find that he had not been seen. It was too late that night to institute a search, but early yesterday morning a number set out on this mission. After a couple of hours had been spent Mr. Talbot and Mr. Robertson (blacksmith) found the body at what is known as the Rocks, some 200 or 300 yards from the village, and just on the edge of his mother's place. It is part of the 7th line of Eramosa, but the road was deflected to avoid this rough place. The body had fallen forward and both hands were under his breast, the right hand grasping a loaded five-chambered revolver, with one cartridge discharged. The shot had entered the right temple. The face was quite discolored, especially round the wound, as the body had been lying there for 36 hours. His hat was found on one of the ferns, on which he had placed it. His mother has an idea she heard the shot on Sunday night about 7.30, but she paid no attention to it at the time. The body was brought up to the village and an inquest was opened by Coroner Dr. MacKinnon. The general impression in the neighborhood is that the sad act was due to disappointment in love.

SUICIDE OF FRANK NEWSOME.

A Toronto Traveler Shoots Himself Dead in Detroit.

Detroit, Mich., June 29.—Frank Newsome, a traveling man for Newsome & Co., law and commercial stationers, doing business at 37 Adelaide street, Toronto, commited suicide by shooting himself in the head in the Hotel St. Claire last night. He was about 25 years old. He registered at the St. Claire Sunday evening. He appeared to be under the influence of liquor then. He was not seen around the hotel much yesterday. Last night he took his overcoat to Louis Grosslight's pawnshop and secured a loan of $2. He gave the name of Thompson there. Grosslight says that the man showed signs of drink. The body was found by James Campbell, a portor of the hotel, at 11.30. It was lying on the floor, clad in a night shirt. The revolver had been held very close to the right temple. The bullet had passed through the brain and out at the top of the head. No note, letter or anything was discovered in the room or among the effects which could throw any light upon the motive of the suicide.

The body was taken to Geist Bros.' morgue. Coroner Dickson will hold an inquest this afternoon. The dead man had $3.50 in his possession and a note-book, showing that the purpose of his stay here was to visit his Windsor trade.

The Family Grief-Stricken.

Toronto, June 29.—Mr. W. B. Newsome, father of the deceased, though smitten with grief, was not altogether surprised upon being informed of the sad event, as he had feared for some days that Frank had been drinking. On Tuesday last he started out on a two weeks' trip over the Northern Railway, and on Thursday the father received a letter from Orillia enclosing Barrie orders, all straight and thoroughly satisfactory. After this he was in Owen Sound and London, but on what days Mr. Newsome does not know. Towards the end of the week he began to feel uneasy about his son, fearing that he had again become intemperate, as no orders were arriving, while Frank was drafting heavily upon him. Mr. Newsome was 28 years of age and unmarried.

AGED MA DROWNED HIMSELF.

Alex. Sheppard, an Old Resident of Windsor, Commits Suicide.

Windsor, Ont., June 29.—Alex. Sheppard, one of the oldest residents of Windsor, committed suicide by throwing himself into the river yesterday morning. He was a nurseryman in Aberdeenshire, Scotland, and was brought out to Windsor at the age of 22 to manage the Dougall Nursery. He prospered in business and at one time owned a good deal of land that is now valuable, but there seemed to be a streak of insanity in the family, for, like his brother, he suddenly quit work 35 years ago, and sold off everything he owned at whatever was offered for it. He was last seen by his wife about 11 o'clock in the morning, sitting near the barn, reading. Fifteen minutes later his body was found floating in the water opposite the Windsor boiler works. He had gone straight to the river, and it was half a block lower down that his body was recovered. He had only his vest and trousers on and his hat and stick were found by some boys who were in swimming. Mr. Sheppard was 84 years of age, and had been married forty years. He leaves a number of children.

FACTS ABOUT HEALTH

It is Easy to Keep Well If We Know How—Some of the Conditions Necessary to Perfect Health.

The importance of maintaining good health is easily understood, and it is really a simple matter if we take a correct view of the conditions required. In perfect health the stomach promptly digests food, and thus prepares nourishment. The blood is employed to carry this nourishment to the organs, nerves, muscles and tissues which need it. The first great essential for good health, therefore, is pure, rich blood. Now it is certainly a fact that no medicine has such a record of cures as Hood's Sarsaparilla. It is literally true that there are hundreds of people alive and well today who would have been in their graves had they not taken Hood's Sarsaparilla. It is depended upon as a family medicine and general regulator of the system by tens of thousands of people. This is because Hood's Sarsaparilla makes the blood pure. This is the secret of its great success. Keep your system in good health by keeping your blood pure with Hood's Sarsaparilla, which absolutely cures when other medicines fail to do any good whatever.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

REGULATING DEER HUNTING.

The Views of Sportsmen Solicited With a View to Future Legislation.

The following circular, with annexed schedule of questions, has been issued :

SIR,—During the last Session a good deal of discussion took place as to the legislation respecting deer and particularly as to the change in the law prohibiting the killing of deer in the water. They have been very divergent opinions expressed regarding this provision of the Act, and there always have been extreme differences of opinion, apparently about equally divided, as to the propriety of allowing the hounding of deer. Admitedly the coupon system has had a useful effect in limiting the number of deer brought out, and there are those who urge that the prohibition of hounding would very much reduce the yearly slaughter of deer. The views of sportsmen on all matters affecting game are valued. Sometimes however their opinions are not founded on considerations of game protection or limitation of the number of deer or other game which may be taken. It is however thought that it might be useful to have the views of those who last year received licenses to shoot, on some of these matters, and I accordingly enclose herewith a blank form with questions which I will thank you to answer and return to me. It will be most advantageous if you will in the first place give your answer either affirmatively or negatively and then add any reasons which may occur to you.

I am your obedient servant,
E. TINSLEY,
Chief Game Warden.

Toronto, June 28th, 1898.

QUESTIONS :

(1) Do you approve of the hounding of deer?

(2) Do you think the abolition of hounding would conduce to the increased protection of deer?

(3) Give reasons for your answer to No. 2.

(4) Do you approve of the killing of deer in the water or when just leaving the water?

(5) Give reasons for your answer.

(6) The protection of deer being the object in view, please make any suggestions which you may consider useful to the Government or the Commissioners on the subject.

OTONABEE SUNDAY SCHOOL ASSOCIATION.

Successful Convention Held in the Sixth Line School House.

The annual convention of the Otonabee Sunday School Association was held on Thursday, June 23rd in the 6th line school house. It consisted of two sessions, and was attended by a large and enthusiastic gathering of workers.

The afternoon session opened with devotional exercises, the President, Mr. J. Lancaster, presiding.

Miss L. Davidson, on behalf of the Sixth Line Sunday school, presented an address of welcome, which was replied to by Mr. Jas. McNeil, Keene.

A comprehensive report of the work of the past year was presented by the secretary, Miss Laura Bennett, from which are gleaned the following facts of interest :—There are in the township one Presbyterian, five Methodist and five Union schools, one new school having been organized through the instrumentality of Mr. Thos. Cornish at Grady's school house. There are 117 teachers and 940 scholars with an average attendance of 700. $143 34 was given to missionary and benevolent objects. Four schools report Home Class Departments, Keene Methodist, Hiawatha, Bethel and Cold Springs. A Primary Teachers' Union, under the leadership of Mrs. Harrison, is doing good work.

Miss Nettie Shearer presented the report of the Primary Teachers' Union.

The following were appointed a Nominating Committee : Mr. Jas. McNeil, convenor Mrs. W. J. Humphries, Mrs. Carter, Mrs. S. Armstrong, Miss Julia Gillespie, Miss E. Armstrong, Miss Susie Bennett, Miss McDougall and Mr. Thos. Cornish.

The report of the schools were very encouraging, progress being noted all along the line.

By request Rev. J. Campbell Tebb, minute secretary of the Provincial Association, addressed the children on the one word "Watch." Watch your words, actions, time, church and your heart.

Mr. Ed. Porter reviewed the lessons of the past quarter in a very able manner, fully covering the ground in less than thirty minutes.

Rev. J. Campbell Tibb addressed the convention on "Duties and Privileges of Teachers." The duties were : 1. Prepare. Prepare first by prayer, then study. 2. Then teach intelligently and impressively. 3. Testing. Test your scholars. 4. Patience. Have patience with ourselves and also with our scholars. 5. Life. Live the truth if you would teach the truth.

The privileges were : 1. Co-workers with Christ. 2. Constant communion with Him. 3. Constant access to Him. 4. A constant visitor.

The session closed with the benediction. An hour of social intercourse was spent between the sessions. Tea was served to all on the school lawn.

The evening session opened with a bright and lively song service led by Mr. Porter.

The nominating committee reported as follows :

President—Mr. Sam'l Armstrong.
1st Vice-President—Mr. J. Taylor.
2nd " —Miss Susie Bennett.
Sec-Treas—Miss Laura Bennett.
Primary Superintendent—Mrs. Harrison.
Normal " —Dr. Harrison.
Home Class Sec—Miss Nettie Shearer.
Executive Committee—Mrs. John Hanbidge, Miss L. Davidson, Mrs. Humphries, Mr. A. Shearer, Miss Windsor, Miss E. Armstrong, Miss Octavia Wood, Mr. Alex. Gillespie, Miss Bella Duff, superintendents of schools and co-operating pastors.

The newly-elected president, Mr. Sam. Armstrong was introduced and occupied the chair for the remainder of the session.

Dr. Harrison fully explained the Home Class Department. At the close the secretary was authorized to procure circulars from the Provincial Association, that the work might be pushed during the coming year.

Rev. J. Campbell Tibb again addressed the convention, subject—"The value of the Sunday School."

The convention closed by singing "Blest be the Tie that Binds" and "God be with you till we meet again."

Miss B. Roxborough, Keene, assisted with the singing.

A STRONG ARGUMENT.

Wm. McCabe, Esq., Managing Director, N. A. L., Toronto :

DEAR SIR,—Please accept my thanks for your cheque just handed to me, for $3,901.98, in settlement of my $2,500 Fifteen Year Endowment Policy in your Company. Such a result as this, after the risk on my life has been carried for fifteen years, beginning from forty-five years of age argues one thing strongly, namely, that the management of the North American Life must be in competent hands. The other options you have offered me, viz.: a Paid-up Life policy for $6510.00, or a Life Annuity for $401.90, are, I presume, equally liberal, and it affords me much pleasure to recommend your Company to my friends or any desiring insurance.

OBJECT TO PACKING.

Mutiny of a Company of the Yukon Soldiers.

WHY THEY ARE DISSATISFIED.

A New Brunswick Company of Our Northwest Force Object to Their Food and Treatment—Scottish Immigration—Return of Mr. Thomas Duncan, M.PP., to Scotland—Ottawa News.

Ottawa, June 29.—One of the men attached to the military expedition going to the Yukon, writes from Glenora on the 8th of June as follows:

"One of the companies of the soldiers mutinied this morning and refused to carry packs weighing from 70 to 80 pounds, and demanded better food so all the colonel could do with them was to get them together and march them down to the corner of the camping ground and plead with them not to mutiny against him and he would try and do his best for them, telling them there would be money for all of them when they reached Selkirk.

"The mutinous company was that from Fredericton and St. John, N.B. Heretofore the men have been used like dogs and mules."

The writer goes on to state that the officers have not been considerate, and he makes very strong statements against them. He says "very little more would cause an open rebellion, some of the men even telling Col. Evans himself that they are not going to be made mules of, and refusing point blank to do anything. I don't blame them a bit. Neither could anyone with common sense or moderation."

Scotch Immigrants.

Thomas Duncan, M.P.P., Morden, Man., is here on his way to Scotland, where he resumes his work in connection with immigration for the Dominion. Mr. Duncan spent last summer and winter in Dundee District, being engaged principally in Forfarshire. He returned to Canada to attend the meeting of the Manitoba Legislature and is now on his way back. There is not, he says, large immigration to be had from Scotland, but Canada would like to have its share of those who are leaving for other lands. Mr. Duncan sails by the Lake Superior of the Beaver Line.

Appointed Gold Commissioner.

Mr. J. A. Girouard, for fifteen years member for Arthabaska in the Local House, has been appointed Gold Commissioner for the Yukon, having a board of six members under him. Mr. W. N. Parent, at one time a Montreal newspaper man, has been appointed one of the board.

A TERRIBLE TRAMP.

The Suspected Murderer of Policeman Twohey Shooting Again—A Stern Chase.

London, Ont., June 29.—There was considerable talk on the street yesterday regarding a reward for the man who captures the murderer of Police Constable Twohey. County Crown Attorney Magee, when spoken to about the matter in the afternoon, said: "I think it would be a shame and a disgrace to allow the villain to escape from the country for lack of encouragement to county police, as well as city police. I think a reward should be offered, $500 at the very least calculation. There are many county constables in Middlesex who might be induced to aid in the search provided there were prospects of some remuneration, but as they have no guarantee that they will receive anything they hesitate. Another thing," said Mr. Magee, "I think the city should give the murdered man's family a good, substantial grant. He was a good officer, and was shot while in the discharge of his duty."

Conclusions of the Police.

The police are now thoroughly satisfied that instead of boarding the C.P.R. train, which went east shortly after the shooting, the tramp who killed Twohey passed around north of the city and headed in a westerly direction. They have learned that between Saturday and Sunday night he called at three houses near the seventh concession of Caradoc and secured something to eat. Each house visited was back in the woods.

Supped Near Alvinston.

Alvinston, June 29.—The tramp who killed the London constable took supper at Malcolm Campbell's house, four miles from here. Two Watford constables were after him, and exchanged shots with him, one shot passing through his hat. He then coolly sat down on a log and told them to come on, he was better prepared than they were and would not be taken alive. He then went off into the woods. They stopped following. He was seen going further west yesterday morning with a horse.

Overhauled at Oil Springs.

Petrolea, June 29.—The tramp who shot the constable at London was overhauled close to Oil Springs yesterday morning, but his pursuers failed to arrest him. It is reported he fired several shots, one of the shots hitting a man's hat. The murderer was riding a horse without any bridle and steering westward.

His Capture Imminent.

Petrolea, Ont., June 29.—The telegraph agent at Oil Springs says there is no truth whatever in the report that the tramp who murdered Constable Twohey in London was overhauled there yesterday morning. He adds, however, that there is a well-founded belief that the murderer is in a swamp about seven miles from Oil Springs, and that his capture is only a matter of time.

The Clifton Was Insured for $60,000.

Niagara Falls, Ont., June 29.—The Clifton House, Niagara Falls, which was burned on Sunday morning, was insured as follows: Royal, $15,000; Phoenix of Brooklyn, $10,000; London & Lancashire, $10,000; Phoenix of Hartford, $10,000; North British & Mercantile, $5,000; Norwich Union, $5,000; Commercial Union, $5,000; total, $60,000.

WHEAT FUTURES BREAK.

Liverpool and Chicago Both Act in Unison Over Big Supply of Cash Wheat and Good Crop Reports.

Tuesday Evening, June 28.

European wheat markets experienced another slump to-day. On the Liverpool board spot wheat sold 2d lower than yesterday, July wheat closed 4d lower for the day, and the September delivery went off 1½d per cental. The December option was unchanged. On the Paris market, wheat was 25 to 30 centimes lower than yesterday, and Antwerp reported a similar condition of affairs. The weakness is attributed to an over-supply of cash wheat.

Cable advices to the above effect surprised the Chicago market this morning, and a decided depression occurred, helped by the excellent reports from the harvesting sections of the West. The June and July deliveries each declined 1⅝c, while September and December options fell 1⅝c and 1⅜c per bushel, respectively. Bradstreet's report that in the past week the world's visible wheat supply has decreased nearly 11,000,000 bushels, lent the market a slightly better tone, and futures recovered a portion of their loss, July closing at 71⅝c, September at 66⅝c and December at 67c.

There is nothing doing on the Toronto grain board. Ontario and Manitoba wheat incline lower. Oats are cheaper.

Toronto Grain and Produce.

Flour—Quiet. Straight rollers in barrels, middle freights, are quoted at $4 to $4.15.

Wheat—Trade on local board stagnant. No. 2 red Ontario, 79c to 80c, high freights, and No. 1 hard, Manitoba, 94c, afloat at Fort William.

Oats—White quoted at 25c to 27c west.

Barley—Nothing doing and prices nominal.

Bran—Sells at $9 west and shorts at $12.50 west.

Corn—Canadian, 33c west and 40c on track here.

Rye—Nominal.

Buckwheat—Nominal.

Peas—Quoted around 48c to 49c north and west.

Oatmeal—Car lots of rolled oats in bags on track at Toronto, $4; in bbls., $4.10.

Toronto St. Lawrence Market.

Wheat steady; 150 bushels sold as follows: White 80c, red 80c.

Oats steady; 200 bushels sold at 33c.

Hay dull, 20 loads selling at $6 to $8 per ton.

Straw sold at $5 to $6 per ton for six loads.

Dressed hogs sold at $6.65 to $6.75 per cwt.

Toronto Live Stock.

The run of live stock at the Cattle Yards to-day was large—80 carloads, all told—composed of 1440 cattle, 300 sheep and lambs, 1800 hogs and 100 calves.

Trade was not as brisk as on some days during the past two weeks.

Several lots of very choice stall-fed export cattle were offered, and buyers and sellers were wide apart in many instances. Grass cattle having commenced to come in, have a tendency to pull down prices.

Stall-fed exporters sold from $4.50 to $4.80 per cwt., and 10c more was offered for some very choice cattle, but refused. Light export bulls, $3.50 to $3.60; heavy export bulls, $3.75 to $4.

Mixed loads of good butchers and exporters were easier, selling at $4.35 to $4.45 per cwt.

Butchers' cattle, stall-fed, and not on grass, sold as follows: Choice picked lots, $4.45 to $4.55; loads of good, $4.30; medium, $4.30 to $4.40; common, $4 to $4.20; middling and inferior cows, $3.50 to $3.75.

Cattle that were in good condition when put on grass are beginning to come forward and sell in the different classes named at 10c to 25c per cwt. less than above prices.

Feeders weighing from 900 to 1000 lbs. sold at $3.90 to $4.

Stockers—Prices easier at $3.50 to $3.75.

About 100 calves sold from $2.50 to $6 each, some choice heavy veals going up to $8.

There was a large run of sheep; trade slow. Ewes sold at $3 to $3.25; bucks, $2.50 to $2.75. These quotations include the yearlings, which should be regarded as sheep.

Spring lambs sold at $2.75 to $4 each.

About 1800 hogs sold at $5.20 to $5.37½ for best selections off cars, unfed and unwatered, and $4.75 for thick fats and light. It must be remembered that corn-fed hogs from Essex and Kent are not included in these quotations, and sold to-day at about $4.70 per cwt.

East Buffalo Cattle Market.

East Buffalo, June 28.—Cattle—Receipts light and all consigned through, but several loads of sale stock. Market closed up very dull and weak for all grades but the few choice dry-fed cattle on sale, but all these sold at full strong to higher prices. Tops sold at $4.95 to $5.10 per cwt.

Veals and Calves—Tops sold at $6 to $6.25 and fair to good ranged from $5.25 to $5.75.

Milch Cows and Springers—Receipts heavy. Choice to fancy springers, $38 to $42.

Hogs—The market ruled about steady at yesterday's close up to noon, with but few good weight hogs on sale. Good to choice Yorkers, $4.05; light to good, $4.05; roughs, $3.25 to $3.50; stags, $2.75 to $3; pigs, $4 to $4.05.

Sheep and Lambs—Nothing doing; feeling nominally unchanged. Yearling lambs, choice to extra, $5.50 to $5.65; fair to good, $5.15 to $5.40; culls to common, $4.25 to $5. Native sheep, choice to selected wethers, $4.80 to $4.90; good to choice mixed sheep, $4.40 to $4.75; common to fair, $4 to $4.40; culls to common sheep, $3.25 to $3.85.

Travellers

Should always carry with them a bottle of Dr. Fowler's Extract of Wild Strawberry.

The change of food and water to which those who travel are subject, often produces an attack of Diarrhœa, which is as unpleasant and discomforting as it may be dangerous. A bottle of Dr. Fowler's Extract of Wild Strawberry in your grip is a guarantee of safety. On the first indication of Cramps, Colic, Diarrhœa or Dysentery, a few doses will promptly check further advance of these diseases.

It is an old, reliable remedy, with over forty years' of cures to its credit, whose merit is recognized everywhere and one that the doctors recommend in preference to all others.

Sold by medicine dealers everywhere at 35c. a bottle. Always insist on the genuine, as many of the imitations are highly dangerous.

SUNSHINE BRINGS SALES

Vigorous selling has characterized June's business on account of our retailing at Wholesale Prices, and less. There has been a general rush for Light Headwear. Those who refrained from buying early in the season are benefitting by the riper Bargains which our Mid-summer Reduced Prices naturally bring.

TRIMMED HATS. This store's immense success has been earned by showing the prettiest of Trimmed Hats. Our captivating White Effects has influenced June sales remarkably. A new lot of Nobby Sailors going fast at Late-season Prices. Pretty Leghorns and Flower Hats, picked up quickly.

VEILINGS. No woman can look at our Veilings without being convinced that our Styles, Fabrics and Fancy Combinations are very taking. Brisk sales have encouraged us to replenish with some of the latest Novelties out.

RUN ON RIBBONS. Our Stock represents all the late Ribbon Ideas—Plaids, Stripes and fancies. Special values in Roman Effects, pure silk, choice colours. An easy matter to buy Ribbons at a price, but not always easy to get high qualities and latest patterns such as shown here.

CORSET VALUES. Our customers are getting Popular Corsets at prices marked down to quicken sales, but without any expectation of profit. Fine makes of Summer Corsets, faultlessly framed.

The Last Week the Best Week.

This is the last week of the dissolution sale at Clarke & Gibson's jewelry store. The opportunity this sale has afforded for buying standard goods at very unusual prices, has been seized by many who may have felt restricted in their purchases at the regular selling figures. There has also been the assurances of reliability in purchasing, and this confidence in the integrity of the firm and general character of the stock has largely influenced sales. The last week of this sale at the reduced prices ends with June, so there still remaining time enough for all who wish to avail themselves of the chances of bonafide bargains in jewelry, watches, clocks, silver plate and artistic novelties, which are embraced in this very large and exceedingly well assorted stock of handsome goods. It is not likely that a similar opportunity will present itself for some time, and lovers of the beautiful in these lines of goods will miss very substantial advantages if the neglect to attend the remaining days of this sale.

Complications Feared in France.

New York, June 29th.—A Paris despatch says that French opinion is not yet well defined there in reference to the United States action in bringing the war to Europe. Fears of unforseen complications are expressed.

The Hobson Prisoners.

New York, June 29—A Madrid despatch says: The Government and Captain-General Blanco are equally disposed to exchange the Merrimac prisoners, in fact Blanco was authorized to make the exchange, but the Havana and Madrid newspapers made such a row over it, claiming that it would be dangerous to liberate men who had been so close to the defences of Santiago, and able to carry back important information. After much hesitation the Government insisted upon Blanco, Lenares and Cervera refusing to exchange the men, although the three were in favour of an exchange. The American prisoners are safe so long as Lenares and Cervera can control the situation. The Spanish regulars are sure to respect the rights of the prisoners. The only danger is from the volunteers.

Germany Will Prevent a Bombardment of Manilla.

London, June 29.—A Manilla despatch says: The report that Germany will not permit a bombardment of Manilla is exciting deep irritation in the American fleet. Admiral Dewey intends to demand a capitulation the instant reinforcements arrive. He told Prince Henry, of Russia, that he would be glad to see the German officers at Manilla. But it would be well to caution them to keep out of the American line of fire. It remains to be seen whether Germany has really given such promises as are pretended.

Size of the Pipes Decided For Contemplated Extensions.

At a meeting of the Sewerage Committee last evening there were present Councillors Best, chairman, Cobb, Dawson, Langford, W. H. White, McWilliams and the Mayor.

On motion of Councillors McWilliams and Dawson, it was decided to pay Kennedy & Wade, the sewer contractors, to the amount of a certificate to be signed by the town engineer and to strike out the words "and claim of any description" out of the certificates.

A twelve inch pipe will be put in the Hunter street sewer from Belmont avenue to Reid street, and on Park street from Hunter to Charlotte street; also a 15-inch pipe in the Charlotte street sewer from Park to Aylmer street, when a petition, sufficiently signed, is furnished by those interested.

THE NEW GRAND STAND.

Mr. T. A. S. Hay, C. E., Reports on its Substantial Construction and Ample Strength.

JUNE 28th, 1898.

F. H. Dobbin, Esq., Secretary C. W. A. Meet Committee, Peterborough:

DEAR SIR.—I beg to report as follows re grand stand at Driving Park:

The committee having approved of my plan for new open grand stand 150 feet long, the contract for erecting has been awarded to Mr. Thomas McKee.

The contract for rebuilding the east end of the old stand was awarded to James Montgomery.

The east half having been found on examination unsafe, it was decided to remove all old material, which was done, and that part is now entirely new.

Since completion of both contracts I have carefully examined the structures and have much pleasure in certifying that the contractors have carried out the plans and instructions in a most satisfactory manner and provided the committee with a first-class, substantial grand stand, capable of sustaining more than double the weight required.

Yours truly,
T. A. S. HAY, C. E.

In addition to the above the committee wish to state that the grand stand as planned by Mr. Hay is a most commodious structure. The aisles are broad and ample sitting room is allowed. A number of staircases have been provided, making easy access to all parts of the stand. From the stand an excellent view can be had of the races from start to finish, and a complete view of the band stand and platforms. The committee are indebted to the contractors mentioned for doing very excellent work and carrying out faithfully all details.

THE PLEBISCITE CAMPAIGN.

An Organization Meeting Held at the Y. M. C. A. Hall.

The Peterborough Plebiscite Association met in the Y. M. C. A. Rooms yesterday afternoon for the purposes of perfecting organization in view of the coming plebiscite campaign. Dr. Fife, President, occupied the chair. After due discussion it was decided to hold a county convention on Wednesday, July 20th, at two o'clock p. m. in the Y. M. C. A. Hall, to be followed by a mass meeting in the evening in St. Andrew's church. The speakers for this meeting will be announced later. All the churches will be asked to waive their regular prayer meetings for the purpose of co-operating at the meeting. A committee composed of ex-Mayor Yelland, Mr. A. D. Russell, Mr. G. W. Powell and Rev. J. G. Potter was appointed to complete arrangements for the meeting.

PERSONAL.

Rev. Father Coty, of Dundalk, is visiting his sister, Mrs. W. Rudkins.

Miss McQueen, of Owen Sound, is the guest of Miss Belleghem, Hunter street.

Mrs. May, of Belleville, is visiting her brother, Mr. R. M. Roy, Stewart street.

Miss Jennie Macfarlane, Bay City, Mich., is visiting Mr. and Mrs. C. D. Macfarlane, 19 Gilmour street.

Rev. J. O'Brien, of the Grand Seminary, Montreal, is spending his vacation with his parents in town.

Mr. A. F. Hoover has, his many friends will be pleased to learn, greatly improved in health. He is now visiting with his brother at Richmond Hill.

Rev. James Dunn, of Bridgeport, Conn., a former pupil of Mr. Lynch's private school in Peterborough, was ordained to the priesthood recently by His Lordship Bishop Quigley, of Buffalo.

Mr. A. Barnet and Miss Grace Barnet, of Renfrew, and Miss Lenore McMillan, of Oshawa, are visiting Mrs. McAllister, at "The Pines," Ashburnham. Mrs. McAllister and her guests will be at home to-morrow afternoon and in the future on Friday afternoons.

Moonlight Excursion.

Don't forget the moonlight excursion per steamer City of Peterborough and palace barge on Friday evening, July 1st, for benefit of Fire Brigade Band. Tickets 25c. Boat leaves the C. P. R. wharf at eight o'clock.

POLICE COURT.

June 29th, 1898.

The adjourned hearing of the charge against William Gould was resumed last night. Police Magistrate Dumble took charge of the case and with him on the bench was Mr. R. S. Davidson J. P. Mr. E. B. Edwards appeared for the prosecution and Mr. W. A. Stratton for the defendant.

The evidence was taken de novo; and, after fourteen witnesses had been examined Mr. Edwards stated that while the Chief of Police had several other witnesses he did not think that they could add anything material to the evidence that had been given. "Then," said Mr. Dumble, "you ask for a conviction?" and continuing said that there was in his opinion not sufficient evidence to sustain the charge, which was dismissed accordingly.

Friday Night's Entertainment.

For the entertainment of visitors and citizens the committee of the Wheelmen's Meet have prepared an open-air entertainment to be given in the Driving Park on the evening of July 1st, Dominion Day. The programme is one especially suitable for such a gathering, and will be given by the band of the Athenæum Cycle Club of Toronto, assisted by local talent, and a drum corps of ten of the Queen's Own of Toronto. Programmes will be distributed on the streets on Friday morning giving full particulars. All seats in the grand stand free for the evening. The Park will be brilliantly lighted by electric light. The Park will be open at 7.15 p.m.; concert to begin at 8 p.m. Admission, 25c.; children, 15c. Busses and street cars will run to the ground. Wheelmen and ladies can bring their wheels and ride on the track during the evening, and with the track in the fine condition it is in, here is an opportunity that will not occur again.

OBITUARY.

The Late George Scott.

This (Wednesday) morning an old and highly respected resident of Peterborough passed away in the person of Mr. George Scott, who died at his residence, 112 Stewart street, at six o'clock, after a long and painful illness, at the advanced age of 73 years. Mr. Scott came to Peterborough with his family from Ayr, Ont., sixteen years ago. From that time to the beginning of his last illness he was in the employ of Mr. Peter Hamilton and the Peter Hamilton Manufacturing Co. His death terminated an illness of fourteen months' duration, the last four of which were full of suffering. He leaves behind a widow and eight children, all of whom were with him at his death but one daughter, Mrs. Alex Wilson, of Toledo. Funeral from the family residence, 112 Stewart street, at 3.30 o'clock, on Thursday, June 30th.

Death of Mrs. Robert Parker.

On Thursday, June 23rd, Mrs. Robt. Parker passed away to that land from which no traveller returns. Her maiden name was Jane Fife, daughter of David Fife. Four brothers and two sisters survive her; they are Sylvester Fife, who resides on the old homestead in Otonabee; David, of Muskoka, and John, of Strathroy. Her sisters are Mrs. Thos. Atkinson, of Muskoka, and Mrs. Jas. Wilson, of Iowa. She was almost 61 years of age, being born in Otonabee in August, 1837. In 1866 she married Robert Parker, of Dummer, who still survives her. To this union two sons and three daughters were born, all of whom are living, with the exception of Francis, who died in Peterborough in 1891. They are Mrs. Robt. Howland, of town; Jane, Louisa and William. She was a woman who was widely known and highly respected in town, having made many warm friends here since January, 1891, when she came to the Nicholls Hospital for treament. Since then she has been under the care of Dr. Fife, of town. She was a consistent member of the Methodist church all her life; although being deprived of attending the house of worship for the past few years, yet she never lost sight of her religious duties, and though she has been suffering for almost eight years her faith in God was not shaken, and during the past five months, which she spent entirely in bed,

She did not murmer or complain
Beneath the chastening rod,
But in the hour of grief and pain
She called upon her God.

And as her earthly home was slowly passing away, yet she had the brightest and most glorious prospects of a home in heaven where all will be joy and peace and happiness, forever, and where she today awaits those who now mourn the loss of an affectionate wife and a kind and loving mother. She was a kind neighbour, ever willing to sacrifice her own interests for the welfare of others. And although we mourn her loss, yet we know that our loss is heaven's gain.

The funeral, which took place on Saturday from her late residence to the Norwood cemetery, was an exceedingly large one, Rev. J. A McCamus, of Norwood, officiating. The family have the sympathy of the entire neighbourhood in their sad bereavement.—COM.

OUR ODDFELLOWS DECORATE GRAVES.

No Brethren Have Died During the Year.

IT WAS AN EVENING CEREMONY.

Large Numbers Of Citizens Gather in Little Lake Cemetery to Witness the Proceedings.

The Oddfellows were favoured with beautiful weather for the observance of their custom of annually decorating the graves of their deceased brethren in Little Lake cemetery.

Decoration Day has become so popular with the citizens that there was a big crowd in the cemetery by the time the procession, headed by the Fire Brigade band, arrived. The grounds looked especially attractive, as during the day hundreds of those whose dear ones had been laid to rest in this city of the dead had taken the opportunity of laying some floral tribute on the graves. As the cemetery is in the height of its beauty at present and the grass and trees looking their greenest, the scene was a pretty one.

The turnout of the members of Peterborough and Otonabee lodges was not as large as in former years, which is attributed to the fact of the stores not closing at one o'clock as has been the custom. There were, however, about seventy in the procession, which was marshalled by

ANGUS M'INTOSH, P.G.,

of Peterborough Lodge. All marching carried bouquets and just in front of the chapel, at the top of the terrace, a halt was called and Rev. J. G. Potter, chaplain of the Order, asked a blessing after which the members were divided up into sections, each of which visited an allotted number of graves and after placing flowers thereon performed the short but impressive ceremony used on such occasions by Oddfellows.

When this duty had been performed the brethren and the citizens present gathered around a platform which had been erected near the lake shore, where addresses were delivered by the local clergy.

Mr. Frank Perry, P. G., took the chair and in the course of a few brief remarks stated that the Order in Peterborough had not been robbed by the death of a brother during the past year, for which all were duly thankful. He then called upon Rev. J. C. Davidson, rector of St. John's, to address those present.

Mr. Davidson in opening referred in most pleasing terms to the appearance of the cemetery. As a town, he thought, we had every reason to be proud of the spot in which all were privileged to meet. He was sure he was voicing the feeling of all present when he congratulated Mr. Foord, the caretaker, on his work, and the management of

THIS GOD'S ACRE,

when he said that all would support them in keeping the beautiful spot as something to be proud of in the future as well as the present. He congratulated the Order, through the chairman, for the inauguration of the ceremony just witnessed. The spot doubtless recalled loving remembrances to many who were in a position to mourn for the touch of a vanished hand. The remembrances would also be sorrowful as the familiar faces were called up, and a feeling naturally arose within regarding the future. The feeling did not concern altogether the future or the past, but the present as well. With so many present linked together in the bonds of brotherhood, a feeling of unity prevailed. It was indeed a happy occasion when so many could meet in this hallowed spot to spend the evening as brothers joined together under the banner of the one Lord and Master, our Saviour, Jesus Christ.

Rev. J. E. Moore, Ph.B., of the Mark street Methodist church, referred in opening to the privilege of belonging to a society which remembered its dead in such a manner. He agreed with Rev. Mr. Davidson in thinking that the Little Lake Cemetery was one of the most beautiful spots he had ever seen. All were rejoicing with nature to-day. It was a glorious thing to unite with nature in praising God.

NATURE WAS REJOICING

everywhere. All we united in sayin "Bless the Lord, O my soul, and all that is in me bless His holy name," and all were bound together by the bonds of Christian sympathy as well as many by the bonds of Oddfellowship. He was glad to be in a position to say that true Oddfellowship was in accord with the Bible. Many were assembled in loving remembrance of the sainted dead, and he hoped all would cherish in their hearts the memory of those who had gone before.

Rev. O. C. Elliott, pastor of the Park street Baptist church, was especially pleased to be present on account of the time which had been chosen by the Oddfellows for observing their annual ceremony. At no time of the year was nature so glorious as in June, and no place was more beautiful than this city of the dead. Another reason why he was pleased to be present was on account of the place in which all were assembled. No spot could have such a hold on all present. The ties connecting them with the departed were even stronger than those of Oddfellowship. Voices were all around them speaking of the future and his truest prayer was that those voices might be heeded. He was glad also because of the occasion. It reminded all of the

BROTHERHOOD OF MAN.

What message would these voices have for us could they but be heard? Would it not alter our manner of life? In no better way could we honour the dead than by following in their footsteps when they were in the right and profiting by their experience.

Rev. H. Symonds, Rector of St. Luke's church, in speaking stated that he was forcibly reminded of the first occasion when he addressed the Oddfellows on a similar occasion five years ago when he was privileged to be present at this interesting ceremony. The feeling had grown upon him that the ceremony was one of the utmost value and one for which the public was under a debt of gratitude to the Oddfellows for perpetuating. In concluding his remarks Mr. Symonds suggested that in addition to the excellent music provided by the band, there should be vocal music as well.

Rev. J. G. Potter, of St. Andrew's church, Chaplain of the Order, recalled the fact that amongst the graves decorated during the evening was that of the First Vice Grand of Peterborough, the son of whom was the chairman on the present occasion. Many lessons might be drawn from the graves which were decorated during the day, and none should leave the grounds without taking advantage of those opportunities of which the dead would speak could they but tell us. Above all should it be remembered that while we sought to commemorate the day, that the world is becoming brighter and better and that this day, therefore, is the brightest and most glorious for us as far as God is concerned. In connection with this it should be remembered that our eternal destinies depended on the motives of our lives, and these motives could be the more easily directed if our thoughts were guided by the remembrances of those who had gone before.

Mr. Potter then pronounced the benediction and the procession reformed and marched back to the lodge rooms.

RESTORE THE SNAP,
VIM, ENERGY AND STRENGTH
YOU HAVE LOST.

Dr. Ward's Blood and Nerve Pills have been a great boon to my daughter Maggie. Prior to taking them she had been suffering from excessive nervousness for a long time, and her nerves were in a terribly shattered condition. The action of her heart was so weak that it did not have strength to perform its functions, causing violent palpitation and smothering after retiring. Frequently, on account of this suffocating sensation she was afraid to go to bed. Slight exertion exhausted her and caused shortness of breath. Her blood was impoverished and lost vitality, and she had no appetite. She was wasting away and was very hypochondriacal, feeling dejected all the time. Last December she began taking Dr. Ward's Blood and Nerve Pills, and she improved at once. Her blood became healthy and strong, and in six weeks her impaired nervous system was restored to its normal healthy condition. Her heart responded to the healthy condition of her blood and nerves and resumed its strong and healthy functions. She now sleeps without any of the dangerous, distressing, smothering and choking spells; her appetite is good, and she has gained in flesh. Healthy color has replaced pallor, and she is now well and strong, thanks to Dr. Ward's Blood and Nerve Pills. I thank you, gentlemen, for the remedy that has restored my daughter to health. A. GUNN, Baggagemaster, Grand Trunk Railway, Oshawa, Ont. Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by THE DR. SOMETHING JUST AS GOOD.

How a Bilious Man Gave Up His Two Cups of Breakfast Coffee.

An east end man was advised some time ago not to drink coffee. His doctor told him it helped to make his liver torpid and his liver was doing its best to render life miserable for himself and all the rest of the family.

But, no, he couldn't give up his two cups at breakfast time. He couldn't make the sacrifice. Nothing could take the place of the delicious Java and Mocha mixed that he had learned to love.

One day his wife suggested in a mild way that he might be just as well satisfied with one of the brands of imitation coffee. He almost frothed at the mouth.

"That infernal stuff!" he cried. "Not much. The very first gulp would settle me. I'd like to see anybody try to fool me with a counterfeit of that sort."

He didn't notice that his wife quietly smiled. But, strange to say, from that time on he grew better. His bilious tendency was greatly lessened. He felt like a new man.

One day he met the doctor.

"Hello, doc!" he cried. "I'm getting better in spite of you."

"Given up coffee, have you?" queried the smiling doctor.

"Given up coffee? Not much. Coffee's all right."

A few weeks later he met the man from whom he orders his groceries.

"Hello!" quoth the grocer. "How well you are looking!"

"Yes," said the convalescent, "I'm feeling a great deal better."

"By the way," said the grocer, "you seem to like that substitute I've been sending you."

"What substitute?"

"Why, that substitute for coffee." And he named one of the numerous imitations of the fragrant berry.

"Never had a cup of it in the house," said the bilious man emphatically.

"That's funny," said the grocer. "I haven't sold your folks a pound of genuine coffee in the last three months."

The bilious man didn't say anything further, but his thoughts were busy. The next morning he looked at his cup a little suspiciously, but he drank it without a tremor. Perhaps he fancied he detected the difference; perhaps not. Anyway, his wife still fondly imagines he doesn't know of the deception.—Cleveland Plain Dealer.

DODD'S KIDNEY PILLS AGAIN.

Conductor Hogg Tells the Story of His Rescue From Diabetes.

Toronto, June 13—Special—Mr. H. Hogg, the well-known and popular street railway conductor (No. 107) who has been cured of a very severe case of Diabetes, by Dodd's Kidney Pills, has written as follows to the Dodd's Medicine Co., Limited.

"My sufferings extended over a period of three years, and grew worse every day. I could get nothing to cure the Diabetes, nor to purify my blood. Finally, the dizziness so overpowered me, and I grew so emaciated and weak, that I had to quit work.

"A friend advised me to try Dodd's Kidney Pills. I laughed at him, for I had tried so many remedies, only to be disappointed that I had lost hope. However I did try Dodd's Kidney Pills. Thank God, six boxes cured me entirely."

BICYCLIST KILLED.

A. A. Jones Ran in Front of a Train and Lost His Life.

Montreal, June 28.—A shocking bicycle fatality occurred at Turcotte, a small place about eight miles from Montreal, last night. A. A. Jones, a young man, 18 years old, the son of E. W. Jones, a well-known resident of Bedford, Quebec, was out riding on his wheel and while attempting to ride over the crossing at Turcotte was struck by the Dorval train and instantly killed. Young Jones was deaf and dumb and it is presumed that he was ignorant of the approach of the train.

THE ELECTION PROTESTS.

They Will Be Tried in September—Number Again Reduced.

Toronto, June 8.—The trial of election protests that reach that stage will, it is understood, be held in September in each case, the judges abandoning the idea of sitting during vacation. A high authority stated yesterday that of the 18 for whom trials were applied for, probably not more than 12 would be tried. In a few more cases the petitioners will apply for a trial, but the total number will be very small.

West Lambton Convention.

Sarnia, June 28.—A meeting of the Executive Committee of the West Lambton Reform Association was held here yesterday for the purpose of discussing the political situation resultant from the retirement of the late member, J. F. Lister, Q.C., and his promotion to the bench. It was decided to hold a convention in the Town of Sarnia on August 17 for the purpose of nominating a candidate to represent the Reform interests in the bye-election which will be held later.

Trying to Unseat Mr. Brown.

Stratford, June 28.—Mr. J. W. St. John, the defeated member of West York, and Mr. Thomas Magwood, who was rejected by North Perth in the last Provincial election, met a number of the Conservatives of Stratford here last night and considered the steps to be taken to carry on the protest against the return of Mr. John Brown.

A woman's headaches may come from several causes. She may have a headache arising from nervousness, or from digestive disturbances. Nine cases in ten her headaches come from disorders peculiar to her sex. It may show itself in the symptoms which are characteristic of a dozen disorders. Dr. Pierce's Favourite Prescription was compounded for the sole purpose of relieving womankind of these ills and pains. Thousands of women have testified that after taking treatment from several physicians without benefit, the "Favorite Prescription" cured them completely and quickly. It has been used for over thirty years, and has an unbroken record of success.

The woman who hesitates is invited to send 31 one-cent stamps to cover cost of mailing a copy of Dr. Pierce's Common Sense Medical Adviser, which contains plain, clear information about all of the organs of the human body and their functions.

THE FIVE COMMISSIONS

Awarded to Canada's R. M. C. by the Imperial War Office.

Kingston, Ont., June 28.—The commandants of the Royal Military College announces the following as having been awarded commissions in the Imperial service: Royal Engineers—G. W. Denison, Toronto. Indian Staff Corps—F. F. Hunter, Durham Royal Artillery—H St. G. Hamersley, Vancouver, B.C. Royal Infantry—Corporal Payzant, Halifax, N.S., and Sergt. Rogers, Peterborough.

Chatham's Loss.

Chatham, Ont., June 28.—Death has claimed one of Chatham's oldest and best-known citizens in the person of James Lamont, president of the Chatham Gas Company. Mr. Lamont was 72 years of age, having been born in the Highlands of Scotland in 1826. Deceased was a descendant of the Lamont clan, and came to Canada in 1834, settling first in Glengarry, later in Ottawa and in 1854 came to Chatham. Mr. Lamont was an extensive grain buyer.

WHOSE BODY IS THIS?

The Remains of a Man Found at Point Pelee, Ontario.

Leamington, Ont., June 28.—Yesterday about 2 o'clock the body of a man, which had come ashore west of Point Pelee, was discovered by Charles Gardiner. Coroner Chamberlain was at once notified and, upon examination, did not consider it necessary to hold an inquest, for the body had evidently been a long time in the water and, although the flesh of the face and exposed parts had been worn away, it was in a good state of preservation. Upon the body were dark clothes and a short dark overcoat, and in the pockets were found a gold watch, with chain; a gold padlock, a $1 gold piece, a 50c, 10c and 5c piece in silver; an aluminum medal of the World's Fair and another about the size of a dollar piece, a silver image of the Virgin Mary and a trunk key, a jack knife and comb. It is supposed to be the remains of Thomas J. Fagan of Detroit, who was drowned near Fighting Island, Nov. 30, 1897.

Betrothed to an Actress.

London, June 27.—The Evening News yesterday afternoon announces the betrothal of Mr. Gerald Du Maurier, son of the late author of "Trilby," to Miss Ethel Barrymore, the American actress. Miss Barrymore is a neice of Mrs. John Drew and a daughter of Maurice Barrymore.

Followed Husbands Advice.

"I was troubled for a long time with sick headaches. At last my husband bought two bottles of Hood's Sarsaparilla telling me this medicine would cure me, as it had cured him of salt rheum. I began taking it and it made me feel like a new woman." MRS. ROBERT MCAFFEE, Deerhurst, Ontario.

Hood's Pills cure all liver ills. Easy to take, easy to operate; reliable, sure.

Weak Heart.

"For years I suffered from weak action of the heart, dizziness and a watery condition of the blood. Milburn's Heart and Nerve Pills have made my heart strong and enrichened my blood so that now I am free from the troubles that formally distressed me." B. A. ROSS, Alisa Craig, Ont.

PREVOST WENT MAD

And the Only Witness Against a Woman Charged With Murder Is Removed.

Winnipeg, June 28.—Mrs. Gauthier, charged with murder at Port Arthur, is free. Prevost, the principal witness against her, is insane. In consequence of his insanity, the Crown is unable to make out a case against her, and the woman returns to her home at Valleyfield, Que. Prevost is now in Kingston penitentiary. Mrs. Gauthier says he assassinated Laviere and Dabin with a shotgun, afterwards setting fire to the building. According to her story, she was a willing dupe of Prevost, and he led her a brutal life.

Premier Greenway is home from the east.

Killed at a Barn Raising.

Erin, June 28.—A shocking accident happened at the raising of a barn Friday afternoon on the farm of Mr. Duncan Cameron, 3rd concession of Caledon. It seems all went well until the putting up of the plates, when, in the heat of raising and shortage of help, a plate was allowed to fall when partly up, striking the head of a young man named Joseph Flaherty, splitting his skull in two and causing instant death. Mr. Flaherty was a well-to-do young man, a son of the late John Flaherty, on the Erin side of the town line between Erin and Caledon.

Military Cadets Dismissed.

Kingston, Ont., June 28.—The closing exercises at the Royal Military College occurred yesterday before a large audience. A detachment of the cadets gave a fancy drill, and then the prizes, medals, etc., were distributed by Sir Richard Cartwright, who spoke hopefully of the college and its aims. B. M. Britton, Q. C., M.P., also made a few remarks. The cadets were then dismissed for the holidays.

Great Fire in Russia.

St. Petersburg, June 28—A disastrous fire has occurred at Riasan, capital of the province of that name, situated 110 miles southeast of Moscow. Much of the town, which has a population of over 30,000, has been destroyed, and the loss is estimated at several million roubles.

Connived With a Bank Thief.

Wilmington, Del., June 28.—Thomas S. Clark, convicted of aiding and abetting and conspiring with William N. Boggs, defaulting paying teller of the First National Bank of Dover, was yesterday sentenced to five years' imprisonment and a fine of $5,000.

Died an Hour After.

Arnprior, Ont., June 27.—Mr. John Junker, an old resident of this place, was driving in the vicinity of Stewartville at 5 o'clock Saturday evening, when his horse ran away, and he was thrown out. The wagon passed over him, and he only lived about an hour after the accident.

To Poison the Czar.

London, June 27.—A special despatch received here from Vienna Saturday afternoon says it is reported there that Count and Countess Zuanoff, said to be respectively chamberlain of the Czar and the lady in waiting on Czarina, have been arrested and charged with an attempt to poison their Majesties.

Mr. Levan Gets a New Berth.

Paris, June 27.—Mr. Isaac M. Levan of this town has been appointed principal of the Collegiate Institute at Woodstock, succeeding the late Mr. D. H. Hunter.

An honest man in this day and age has little need to fear death by hanging. The danger that innocent men will die upon the scaffold has been reduced by modern laws of evidence to a minimum. There is one appalling death that still threatens innocent men. It is a slow and lingering death from consumption. One-sixth of the human race die from this relentless enemy of humanity. Probably no subject connected with health is so important and so little understood as the conservation of vital force. The human organism is a wonderful machine, and is so constructed that if exhaustive draughts are made upon the vital forces during youth and middle life, the mechanism responds for the time, but at the expense of its future usefulness. The man who overworks or exhausts himself day after day is constantly overdrawing his store of vital force. Finally the mechanism of supply breaks down and the man becomes a physical bankrupt. The mechanism of supply in a man is his stomach. There the food is transformed into vital force. If the stomach is weak and the digestion impaired, the body ceases to receive and store up vital force. If the draught is continued, consumption some other equally fatal disease is the result. Dr. Pierce's Golden Medical Discovery is a great producer of vital force. It enables a man to daily store up energy to do almost any amount of work or stand any amount of exposure. It does its work through the stomach. It makes the weak stomach strong. It facilitates and increases the flow of digestive juices. It promotes and perfects the assimilation of all the life-giving elements of the food. It is the great blood-maker and flesh-builder.

Mr. F. M. Kolbnett, of Xenophon, Tenn., writes: "I can heartily recommend Dr. Pierce's Golden Medical Discovery for indigestion and torpid liver. I was very bad off and tried different doctors with but little benefit. I decided to give the 'Golden Medical Discovery' a trial and I soon began to improve. If it had not been for Dr. Pierce's Golden Medical Discovery I believe I would not be living to-day."

RELIC OF PAST AGE.

A Century Old Newspaper That Is Remarkably Well Preserved.

Mr. Glenn Brown, the architect, has an interesting relic in the shape of an old newspaper, probably one of the oldest publications to be found in this country. It is The Virginia Gazette and Alexandria Advertiser, published in Alexandria. The copy is dated Thursday, April 25, 1793. The motto of the paper, which is printed under the title, is as follows:

O thou by whose almighty nod the scale
Of empires rises or alternate falls,
Send forth the saving virtues round this land!

There is no mention made of the names of the publishers or editors, but an advertisement, which is inserted, asks for rags, old seines, fishing nets and the like to be brought to the office, so that paper can be made from it. From this it would seem that the firm manufactured its own paper.

In the news columns, which form but a small portion of the paper, the advertisements covering a greater part, is a dispatch dated London, Feb. 25 previous, giving an account of an insurrection in Ireland. There are also published Paine's reasons for preserving the life of Louis Capet. The plan of the new French constitution is given and a number of dispatches from Paris appear.

One of the most interesting advertisements in the paper is that of a lottery. It states that it will be given by the commissioner appointed to prepare the public buildings, etc., within the city of Washington for the reception of congress and for their permanent residence after the year 1800. Samuel Blodgett was the agent for the affair in this city. The capital prize was a hotel, with all furnishings, valued at $50,000. There were cash prizes of $25,000, the whole amounting to $350,000. The lottery, by the way, was never held, as much opposition was developed against it. Samuel Blodgett was the one whose heirs claimed a large portion of the national capital.

There are several advertisements for runaway slaves, offering rewards of from $6 to $16. There is an offer of a reward of $40, which would seem large compared with those offered for the runaway slaves, for eight bushels of clover seed, stolen from Mount Vernon. The advertisement goes on to state that the clover seed was stolen from the granary and is supposed to have been taken by negroes. It is signed by Anthony Whiting, who was Washington's overseer.

There is an advertisement in the paper of the celebrated horse Eclipse, from which many of the thoroughbred horses of the present day have descended. There is also an advertisement of the opening of the city tavern at the sign of the "Bunch of Grapes" by John Wise. The statement is made that northern and southern mails will arrive at the office until Nov. 1 on Mondays, Wednesdays and Fridays at 6 p. m.

On one of the pages is a song composed for Lodge No. 10 "of Charlestown," commonly called Portobacco.

The paper consists of four pages of four columns each. The size of the sheets is about 12 by 18 inches. The paper was published Thursdays of each week. The s's were all like f's. The paper has been remarkably well preserved.—Washington Star.

Miracles and Dilettanteism.

"He (Pugin) visited Sant' Andrea della Fratte, the scene of the miraculous conversion of Abbe Ratisbonne, the Jew. Abbe Ratisbonne entered the church a Jew and came out a Christian, having seen there, he stated, a vision of our Lady. 'The story,' Pugin said after seeing the church, 'is demonstrably false. The man could not have said a prayer in such a hideous church. Our Lady could not have chosen such a church for a vision. The man could have had no piety in him to have staid in such a church at all.'

"The friend to whom his remarks were addressed replied, 'As I heard the story, Ratisbonne was not at the moment praying, but thinking of the uncouthness of the architecture of the place.' Pugin's whole face changed. 'Is that so? Then he was a man of God. He knew what true Christianity was, though he was a Jew. I honor him. Our Lady would have come to him anywhere. The story is demonstrably true.'"—"Life of Cardinal Wiseman," by Wilfrid Ward.

A PRESSMAN'S STORY.

Mr. Parnham Tells how Dodd's Kidney Pills Cured His Lumbago.

Toronto, June 27.—The story of the escape of the Globe pressman, Mr. John H. Parnham, from the agonies of Lumbago, by using Dodd's Kidney Pills, is unusually interesting.

Mr. Parnham writes to the Dodd's Medicine Co., Limited, thus:—"I am proud to testify to the wonderful efficacy of Dodd's Kidney Pills. About eight months ago I was attacked by severe pains in my back. I consulted an eminent physician, who said I had Lumbago and told me to take Turkish baths. These did me no good.

"A friend advised me to try Dodd's Kidney Pills. I did so, and one box cured me. My back has never troubled me since."

THE HORSE SHOW.

Rose Croix, 2:18½, by Jay Bird, will be paced this season.

Maid-at-law, by Heir-at-law, has shown halves in 1:12¾.

Maud Wright has again beaten Bravado and Azmon in Europe.

It is claimed that Roan Wilkes has shown a quarter in 31¾ seconds.

It is said that Directly, 2:07¾, pacing, at 2 years, will be raced again this year.

The erratic performer Dixey, 2:14¾, brought only $145 at a recent auction sale.

Splan's green trotter Barometer has the fastest Cleveland track record for 1898 to date, 2:25.

Earl Baltic, 2:17, by Baron Wilkes, is now at the head of an extensive stud in Styria, Russia.

Drextell, full brother to Axtell, 2:12, promises to be a fast pacer. He has shown 2:22 this spring.

It is stated that Prince Alert, 2:07¾, pacing, by Crown Prince, worked a mile last fall in better than 2:04.

Frank Way, by Aberdeen, who took a record of 2:20¾ at Norfolk, Va., is the first newcomer of the season.

At Belmont Park on May 28 the guideless pacer Marion Mills went a mile in 2:13¾; quarter, 0:31¾, half, 1:05.

The pacer Bright Light has gone a mile over the Belmont track in 2:14, the fastest mile of the season at this track.—Turf, Field and Farm.

If you have been sick you will find Hood's Sarsaparilla the best medicine you can take to give you appetite and strength.

SOME GLADSTONE SAYINGS.

Mr. Gladstone was the author of many famous sayings, although he was less epigrammatic than some other famous orators.

When he was denouncing the Bulgarian atrocities, he coined the phrase "the unspeakable Turk," which still sticks.

Earlier he remarked, "Jefferson Davis and his colleagues have made a new nation."

After he had advocated home rule for Ireland he wrote describing himself as possessing "an open mind."

Here are a few more of his notable remarks:

"No man has ever committed suicide so often as I."

"We walk by faith and not by sight, and by no one so much as by those who are in politics is this necessary."

"I was educated to regard liberty as an evil; I have learned to regard it as a good."

"If you want a bulwark against despotism, there is no rampart like the breasts of freemen."

Cigars and Nervousness.

"You're nervous," said the doctor.

"Quite right," admitted the patient. "That's why I sent for you."

"The only thing for you to do," explained the doctor, "is to give up smoking entirely."

"I don't smoke at all," answered the patient.

"Ah!" said the doctor. "Then the thing for you to do is to smoke a good cigar or a pipe occasionally. It has a very soothing effect."

It's easy to prescribe when you know how.

TWIN TORTURERS!

Lumbago and Rheumatism made Harmless by Dodd's Kidney Pills.

Lumbago and Rheumatism cause endless pain and suffering. Every man and woman who runs chances of getting wet, or catching cold, is liable to suffer from one or both. Our hospitals are full of sufferers from these diseases; none are more painful. Every nerve is on fire; every joint is a centre of agony; every muscle an area of torture. To move hand or foot makes the victim shriek with agony.

Rheumatism makes more cripples than all the railroad accidents that ever happened. Twisted, mis-shapen caricatures of humanity, who cannot walk without misery, are to be seen every day. The kidneys are to blame. If they are healthy you needn't fear Rheumatism or Lumbago. Dodd's Kidney Pills keep the kidneys healthy and cure Rheumatism and Lumbago.

Dodd's Kidney Pills ALWAYS CURE.

NAPOLEON'S LAST WORDS.

The Dying Thoughts of the Man Whom Europe Feared.

On his deathbed Napoleon expressed his conviction that England would end like the proud republic of Venice.

With perfect composure he gave his last directions: "I desire that you will take my heart, put it in spirits of wine and carry it to Parma to my dear Marie Louise. You will tell her that I never ceased to love her and relate to her every particular respecting my death upon this miserable and dreary rock. You will tell my mother and family that the great Napoleon expired in the most deplorable state, deprived of everything, abandoned to himself and to his glory, and that he bequeathed with his dying breath to all the reigning families of Europe the horror and opprobrium of his death."

The second codicil of his will contained the direction, which was afterward complied with, "It is my wish that my ashes may repose on the banks of the Seine, in the midst of the French people, whom I love so well."

On the 5th of May, 1821, he who had for years kept all Europe in a state of feverish excitement terminated his earthly career.

After lying in state two days the body was deposited in a coffin composed first of tin lined with white satin, which, having been soldered, was inclosed in another of mahogany, a third of lead, and the whole in a fourth of mahogany secured with iron screws. After the ceremony an enormous stone was lowered over the body, resting on a stone wall so as to escape the coffin.

On the 12th of May Louis Philippe commanded that the ashes of Napoleon be conveyed to France. In his communication he said: "Henceforth France alone will possess all that remains of Napoleon. His tomb, like his fame, will belong to none but his country."

At 11 o'clock, Dec. 15, the first cannon was heard announcing that the remains of the emperor had reached French ground. Amid the vast assemblage the body was borne by 24 seamen to its last resting place in the Hotel des Invalides.

So closed the eventful career of the great Napoleon, whose memory can only perish with the records of the world.—Detroit Free Press.

FEATHER AND WING.

No two kinds of birds fly alike. The style of flight depends on the structure and form of the feathers, the wings and the tail.

The albatross has been known to follow a ship for two months without ever being seen to alight on the water or take a moment's rest. It is believed to sleep on the wing.

When the barn owl has a young family, it hunts diligently and brings to its nest about five mice in an hour. As both of the parent birds are actively employed both in the evening and at dawn, 40 mice a day is a low estimate for the total capture.

Humming birds are domesticated by placing in their cages a number of paper flowers of tubular form containing a small quantity of sugar and water, which must be frequently renewed. Of this liquid the birds partake and quickly become apparently contented with their captivity.

THE WHEEL.

Mr. Bruce Rickey has been awarded the checking privileges at the Driving Park for the first and second of July.

The Y.M.C.A. management has kindly placed the baths and other privileges of the new building at the disposal of the C.W.A., and the riders are delighted with the privilege.

There was quite a number at the track yesterday afternoon watching the trial spins of the racers. The E. & D. team were out, paced by Middleton and Hutchinson, and reeled off three miles in 6 51. As there was no change of pace-makers nothing fast could be attempted, but any of the riders are capable of doing this distance in 5 30 or 5.40. At least this is what Trainer Billy Taylor says. McLeod did some nice sprinting in the stretch.

T. B. McCarthy came up from Montreal on the afternoon train and Fred Loughead arrived from Toronto at midnight to ride in the Gendron team.

A tremendous crowd is coming up from Norwood.

McLeod reeled off his last mile of three in 2.05 yesterday.

The magnificent W. G. & R. trophy has arrived. It is a silver cup of huge proportions, mounted on an ebony base and stands about 31 inches high. It is surmounted by the graceful figure of a woman holding out a laurel wreath. The work in the cup is most beautiful throughout. The trophy is offered to the team which wins it three times in succession at the Provincial Meets.

About thirty more riders arrived last night and this morning.

Davidson is the only local rider who is out after his novice.

Parkin and Bell, of Lindsay, are expected to make a good showing by their friends.

The following is a draft of a proposed bylaw prepared by the Legislative Committee of the city council of Toronto:—

1. In case of a person travelling or being upon a highway in charge of a vehicle meets a person travelling upon a bicycle or tricycle, he shall, where practicable, allow the person travelling upon the bicycle or tricycle sufficient room on the travelled portion of the highway to pass to the right.

2. In case a person travelling upon a highway on a bicycle or tricycle overtakes any vehicle as aforesaid, or horsemen travelling at less speed, or a person travelling on foot, the person travelling on a bicycle or tricycle shall give to the other person audible warning of his approach before attempting to pass; and in case a person on a bicycle or tricycle or other vehicle overtakes a person travelling at less speed, the person first mentioned shall give audible warning of his approach before attempting to pass, and shall, in passing, turn out to the left so far as may be necessary to avoid a collision.

3. In case a person on a bicycle or tricycle travelling upon any portion of a street not apart as a bicycle strip by the municipality under the Municipal Act as amended by Chapter 37 of the Statutes of 1897, the said person shall have the right of way over vehicles driven, or horsemen, provided the said persons give audible warning of his approach to the driver as aforesaid; provided further, however, that this shall not apply to horses or vehicles standing on the public highways when such obstructions do not contravene any existing law.

4. Every rider of bicycle or tricycle shall at all times have full control of his vehicle and have hold of the handlebars.

5. That the practice of carrying children in front of a bicycle or tricycle shall be prohibited.

6. In the case of parties of bicyclists or tricyclists travelling together, not more than two shall be allowed to go abreast.

7. No bicyclist shall travel at an immoderate rate of speed.

8. Persons travelling upon any highways in the City of Toronto, whether upon bicycles, tricycles or other vehicles, either drawn by horses or propelled by other power, shall, in turning from one street to another, keep to the right of the centre line of the highway from which and also of the one into which they may be riding or driving.

CRICKET.

The Bay District eleven, composed of players from Deseronto, Napanee and Belleville, will play the Peterborough team on the Nicholls Park oval on the 1st.

LACROSSE.

A meeting of the Executive Committee is called at the EXAMINER Office to-night at nine o'clock to pick the team to play against Perth on the morning of July 1st.

There will be two bands at the P. A. A. A. Grounds on Dominion Day morning. The Picton band will be there, as well as the famous Athenæums.

A full practice of the lacrosse team is asked for to-night.

The Young Klondikers play the Junior Campbellford's on Saturday morning.

A meeting of the Executive Committee of the Cricket Club will be held at the Oriental Hotel to-night at 8 o'clock.

The Hastings Star says: A mixed team of the Peterborough senior and II lacrosse team visited our town Friday last to make it a little pleasant for our boys, but were defeated by 7 gals to 0. As will be seen by the score, our boys had a very pleasant (and easy) time of it, especially the defence who had nothing much to do during the whole game. Peterborough had three shots at the Hastings goal during the game. The visitors were completely outclassed and were simply "not in it" for even five minutes during the entire play. Will the Peterborough players please note that the Hastings team was not strengthened for that day, as our boys have all been and are residents of the town. Our home played a swift game, showing the spectators that they could put up as pretty combination work as any team in the district.

The goals were scored as follows:
1. 15 minutes, Hastings, H. Dodd.
2. 6 miuntes, Hastings, Doonan.
3. 6 minutes, Hastings, F. Dodd.
4. 7 minutes, Hastings, Doonan.
5. 8 minutes, Hastings, Doonan.
6. 36 minutes, Hastings, Doonan.
7. 16 minutes, Hastings, E. McNichol.

NOTES.

"Never send a boy on a man's errand."

Scriver and Graham started many a combination which were not stopped till they reached King in goal.

King made some pretty stops in goal and Hill was called on to stop a couple.

A match will likely be played between the Peterborough seniors and our team before the season ends.

Hastings grounds are rough, though not as rough as we have seen 'em.

The return game will be played in Peterborough about the middle of July.

The Peterborough team are all a gentlemanly lot of young men and know how to behave themselves when away from home.

CRUSH THE CHRYSALIS

And You Crush 300 Prospective Caterpillars.

Positively the last chance to deal destruction to next summer's crop of caterpillars.

The caterpillar which have been feasting upon our trees are going, or have gone, into the chrysalis state. They become dull, sluggish and slowly crawl to some sheltered spot, and become metamorphised into a grub, which will in due time hatch a butterfly. The butterfly lays about 300 eggs in the shape of a bracelet encircling the twigs of a tree. The deposit of eggs takes place in September, and the idea is to prevent the deposit of eggs. This can be done by crushing the cocoons in which is sheltered the grub that develops into the egg-laying butterfly. If the matter is delayed till the butterfly is hatched it will escape. But the coccoon is fixed and can be easily got at. The yellowish, woolly looking objects will be found in sheltered places, under the rails of picket fences, under the caps of gate posts, and even under the cornices of houses. They are also to be seen on the undersides of the leaves, which are found curled, and can, after one has been seen, be easily recognised. Vigorous efforts should be made to crush as many of these cocoons as can be found. Now they can be found stationary and can be easily despatched. In a few days, when the moth or butterly emerges, it will be too late. Remember that each cocoon crushed means the death of 300 caterpillars that would otherwise be batched next spring from their eggs deposited next September.

Don't let the matter pass by. It is very important. The work done last spring in town greatly reduced our caterpillars this year. We had a large number of course, but it is probable that the men detailed to destroy the bracelets, missed one in ten. We should have had ten times the number of caterpillars we had this spring, had it not been for the destruction of the egg bands.

In the country, where no bracelets were destroyed, the caterpillars were in millions. Mr. Robert Walton has a park lot enclosed by a picket fence. The caterpillars, after having almost destroyed the shade trees around this lot, have gone into the cocoons, which now thickly stud the undersides of the rails of the whole fence—millions in number. These are being destroyed, and every good citizen will crush and destroy every cocoon he can find, and thus save our trees from the destruction which the caterpillars, if unmolested, will accomplish. Don't neglect the matter, please.

HIS LORDSHIP IN HASTINGS.

Bishop O'Connor Consecrates the Hastings Cemetery.

(Hastings Star.)

His Lordship Bishop O'Connor spent Sunday in Hastings, and at the morning service at St. Mary's church, addressed the congregation. During the service His Lordship was presented with two well-worded addresses from the congregation and the C.O.F.

At the afternoon service His Lordship addressed the people on the consecration of their new cemetery, giving the reasons in very explicit terms for thus setting it apart for the reception of the dead who died in the Lord. After service the immense crowd formed into a procession and marched to the new cemetery to take part in the consecration. The procession was headed by the children of the Sunday School, and then the members of St. Mary's Court, C.O.F., followed by His Lordship, Rev'ds. Messrs. Dr. Teffy, of St. Michael's College, Toronto; McCloskey, of Campbellford; O'Brien, of Norwood; McGuire, P. P., Hastings; and Mr. Crowley, student. Fully 1500 people were present, Campbellford, Norwood, Alnwick and Warkworth being well represented. On reaching the cemetery, His Lordship proceeded at once to consecrate the same, assisted by the clergy present. Much taste has been exhibited in fitting up this cemetery, and along with its convenience and location our Catholic friends are to be complimented. Not only is Father McGuire to be complimented over this, but also the improvements around the presbytery and the commodious sheds that are nearing completion.

GEN. SHAFTER IS SURE

That He Can Take Santiago in 48 Hours.

COM. SCHLEY REPORTED KILLED.

Spanish Consul at Kingston, Ja., Received the News From Santiago de Cuba That the Brooklyn Had Been Sunk, Its Commander and 24 Seamen Killed—News of the War.

Washington, June 30.—The Government was informed yesterday in despatches from Major-Gen. Shafter as to the exact military situation in Santiago Province. The commanding General of American forces in southern Cuba told the Secretary of War that he can, with sufficient force, begin a siege of Santiago which will result in the fall of the city within 48 hours. He indicated in one of the messages sent to the War Department to-day that he did not intend to wait for reinforcements before making the assault on the capital, and he said plainly that he would be fully ready for the attack as soon as the siege guns, which he places so great reliance in, could be moved into position for the bombardment.

Gen. Kent's Commanding Position.

New York, June 30.—Balquiri advices, via Kingston, says that Gen. Kent's division has taken up a position on the extreme left flank of the Spanish line near Morro Castle. Gen. Shafter and Admiral Sampson expect to reap great strategic advantage from this movement, and it is probable that Kent will be able to take possession of that fortification very quickly. A Camp Sabanilla cable says the storming of Morro Castle by General Kent is imminent.

BROOKLYN DESTROYED.

Struck by a Spanish Shell and Sunk—Com. Schley and 24 Seamen Killed—Doubt at Washington.

Kingston, Jamaica, Wednesday, June 29—(11 p.m.)—The Spanish Consul here has received a cablegram from Santiago de Cuba, asserting that the United States armored cruiser Brooklyn has been struck by a Spanish shell, which sank the vessel and killed Commodore Schley and 24 seamen.

The Consul really believes the "news," and the Spaniards all over the city are drinking champagne and rejoicing.

It is also reported to the Spanish Consul from Santiago that an extensive mine has been laid, which will blow up half the American army when it enters the city.

Washington Doubts It.

Washington, D.C., June 30.—At 1.15 o'clock this morning, when officers on duty at the Navy Department were shown a copy of the above despatch, they expressed disbelief in the story. Not a word has been received from Admiral Sampson, they say, since Tuesday night and the officers regard it that had anything of the kind related in the despatch occurred the Admiral would have immediately informed the department.

PREPARING FOR THE FIGHT.

What the Troops Are Doing in Anticipation of Santiago's Bombardment.

At the front, on the Rio Guama, June 29.—Simultaneously with the bombardment of Santiago General Chaffee's brigade will move forward, and occupy a position of vital importance in advance of our fronts. The correspondent of the Associated Press is not permitted to divulge its location at present.

The military telegraph line has been completed as far as General Wheeler's quarters, thus placing the front in direct communication with General Shafter, who still maintains his headquarters on board the Seguranca, where he can keep in close touch with Rear-Admiral Sampson. It is probable, however, that he will establish his headquarters at Juragua to-morrow.

The Cubans Under Castillo.

The Cubans, under General Castillo, are doing commendable work as advance pickets. They are thrown out day and night from half a mile to a mile in advance of our pickets, along the front and flanks, thus forming a double cordon about the army. There are now more than 13,000 men at the front.

An epidemic of measles, which was started on board one or two transports, is spreading to the camp, and about 20 new cases have broken out to-day. The disease is not dangerous, but the men attacked have been sent to the rear, where they can have airy quarters.

Wheeler Climbed a Tree.

At the front, on the Rio Guama, June 29.—General Wheeler, on the crest of the hills forward of the American left, actually climbed a tree yesterday in order to obtain a better view of the country. This is startling evidence of the wonderful vitality and energy of the great ex-Confederate cavalry leader, now 62 years old, and put many younger and less agile officers to blush.

Aguadores Shelled.

At the front, on the Rio Guama, June 30.—Aguadores, a town on the coast four miles west of Juragua, will be taken. The place was shelled yesterday by several ships of the fleet. Aguadores is on the line of the advance of the army into the interior and close to the railroad. It will then probably become the base of operations, while the supply base may remain at Juragua.

WATSON WILL HUSTLE.

In Order to Reach Spain Before Camara Can Get Back.

New York, June 30.—A Washington special to the Sun says: The Navy Department has received news which will result in rushing Admiral Watson's fleet to Spain quicker than was intended, so that it may arrive there before Camara can get back. Advices from Europe make it plain that under no circumstances will Camara's fleet be allowed to pass through the Suez Canal in a body. The regulations which guarantee the neutrality of the canal permit only one warship of any nation to enter at one time, one ship being compelled to get out of the canal before another goes in. At this rate it would take Camara two weeks to get his fleet through and it is understood he will return to Spain at once.

UNDER ONE COMMAND.

Admiral Sampson Takes Over the Flying Squadron—Pando Advancing Upon Santiago.

On board the Associated Press despatch boat Dauntless, off Santiago de Cuba, Tuesday, June 28, night, via Kingston, Jamaica, June 29, 1 p.m.—The flying squadron, hitherto commanded by Commodore Schley, has lost its identity by an order issued to-day by Rear-Admiral Sampson, and it has been merged into the fleet under the admiral. The order caused considerable surprise on board the Brooklyn, which has been the flagship of the flying squadron, where it was supposed the squadron would remain intact at least until the fall of Santiago de Cuba. Commodore Schley has been assigned to command the second squadron attached to Admiral Sampson's fleet.

Gen. Pando Moving East.

From two Cuban officers, picked up by the Vixen to-day, it has been learned that Gen. Pando is moving eastward from Manzanillo with 8,700 Spanish troops for the purpose of assisting the beleaguered city of Santiago de Cuba. The Cubans had come to Aserraderos in small boats with despatches from Gen. Rios for Admiral Sampson and Gen. Rabi. They report that Gen. Pando has with him seven battalions, numbering 8,700 men, with cattle and a pack train with provisions.

The Spaniards were moving at a rate of 13 miles a day when the messengers left, and, at their present speed, it is expected they will reach Santiago de Cuba next Sunday, July 3. The Cubans have a small force hanging on the Spanish flank and rear, and are harrassing Gen. Pando's troops at every step. Manzanillo is 127 miles west of Santiago de Cuba, and the roads are in bad condition. The Cubans say that if Gen. Pando reaches his goal it will be with less than half the force he started with. The Cubans who are harrassing him only number about 300 men, but in the passes and in the bush they are at a great advantage.

Admiral Sampson has ascertained that Admiral Cervera's fleet has moved into the upper harbor of Santiago de Cuba.

With the soldiers landed from the Yale yesterday and Gen. Garcia's army transported from the westward, 21,000 men in all have been disembarked in the vicinity of Santiago de Cuba.

QUARRELED OVER RIGHT OF WAY.

Two United States Regiments Fight With Fixed Bayonets.

Washington, June 30. — Blood was spilled at Camp Alger yesterday. During a sham battle Harvey Reed of Company B, 6th Massachusetts, was shot in the head with a blank cartridge at close range. He lost a part of one ear, and it is feared his eyesight is permanently injured.

An exciting encounter between two brigades occurred yesterday a few miles from the camp. The second brigade was returning from its march to the Potomac, when it encountered a column on the road composed of the 1st Rhode Island, 3rd Missouri and 2nd Tennessee. The 2nd Tennessee refused to give way so that the second brigade might pass, and finally charged the brigade with fixed bayonets.

MURDER AT ALMONTE

A Night Watchman Shot and Killed by Burglars.

A VERY COLD-BLOODED CRIME.

While on Duty as Night Watchman for the Almonte Knitting Company Henry Gray Was Assassinated by an Unknown Man or Men—The Inquest Opened and Adjourned.

Almonte, June 30.—Henry Gray, a night watchman for the Almonte Knitting Co., was shot and killed by burglars, who blew open the safe in the office of James W. Wylie's roller mills.

Between one and two o'clock yesterday morning Mrs. A. Sheriff, who lives near the roller mills, was awakened by a pistol report. On getting up she noticed that the door of the knitting mill office was standing open, and thought she heard some one moaning. She went out, and seeing a man lying on the street, thought he was intoxicated and summoned a neighbor to look after him.

The man was at once recognized as Gray, the night watchman. He was still breathing, but never recovered consciousness, and expired in a few minutes.

Across the road from the mill is a blacksmith shop, and the burglars had entered it to procure tools. It is thought that while they were in the blacksmith shop Gray saw or heard them, and on going over to investigate was shot down in cold blood by one of the burglars. The bullet entered Gray's side, near the heart. The spot where he was found is about twenty feet from the blacksmith shop.

Opinions differ as to whether the roller mills were entered before or after the murder. The burglars took a hammer and a bar of iron from the shop, and as the door of the safe was shattered, but not opened by the explosives used, and a bar was necessary to force it open, it is thought the murderers coolly completed their work after murdering Gray.

Coroner Jones summoned a jury and opened an inquest yesterday, but after viewing the body an adjournment was taken to secure evidence. Up to the present time there is no clue to the murderers.

POISONING SUSPECTED.

Peculiar Development in the Case of the Late John Boyd.

Guelph, June 30.—The remains of the late Mr. John Boyd, which were removed from the Northwest and interred in Elora Cemetery a few weeks ago, were on Friday last exhumed by Dr. Wallace of Alma and Drs. Robertson and Paget of Elora, in accordance with instructions from Crown Attorney Peterson. At the time of the death it was reported that the young man had been instantly killed by a kick from his horse, but now it seems the friends fear foul play and that the deceased was poisoned. Although the corpse was most carefully bandaged about the head and face, the friends being told it was impossible to be viewed, the doctors found upon examination that there was not the slightest mark upon the body and no reason for such restrictions. The stomach, head and heart were sent to Toronto for analysis.

NOW IT IS STRATHCONA.

Latest London Rumor as to Lord Aberdeen's Successor in Canada.

London, June 30.—They are still guessing here as to the probable successor of the Earl of Aberdeen in Canada. The name receiving attention just now is Lord Strathcona, Canada's High Commissioner.

The demand for tickets for the Dominion Day banquet is not up to the average.

The Sale of the Niagara Central.

Toronto, June 30.—After the Master-in-Ordinary had refused to accept the tenders submitted for the purchase of the Niagara Central railway, Mr. MacMahon, the highest tenderer, raised his offer from $31,800 to $34,000, which was accepted, 10 per cent. of the purchase money to be paid within ten days of the acceptance of the tender. Mr. G. Mortimer Neelon, who tendered for the road at $25,990, filed a petition against the acceptance of Mr. MacMahon's offer.

A Blow to Trading Stamps.

Boston, June 30.—By the provisions of an Act of the General Court, just become law, no more trading stamps can be issued, and dealers are relieved of contracts made to issue them. In cases tried, some judges decided such issuance illegal; others declared it legal. Those fined, paid and kept issuing. The prohibition is the result of lobbying by retailers unable to get the contract of their towns for stamps.

Legislative Clerical Changes.

Toronto, June 30.—J. I. McIntosh, secretary to Hon. E. J. Davis, who has been in the Provincial Secretary's Department for years, is about to take charge of the Guelph Mercury. His place will be taken by George Craig in Deputy-Treasurer Lumsden's office. Mr. Craig's place will be taken by Miss Dent, secretary to Chief Game Warden Tinsley.

All Covered With Eruptions—Could Not Work, the Suffering Was So Great—Hood's Has Cured.

"I was all run down with complaints peculiar to my sex, and I broke out in sores on my body, head, limbs and hands, and my hair all came out. I was under the doctor's treatment a long time without benefit. They called my trouble eczema. Finally I began taking Hood's Sarsaparilla, and after I had used three or four bottles I found I was improving. I kept on until I had taken several more bottles and the sores and itching have disappeared and my hair has grown out." MRS. J. G. BROWN, Brantford, Ontario.

"I was all run down and had no appetite. I had a tired feeling all the time. I was advised to try Hood's Sarsaparilla. I did so and it benefited me so much that I would not be without it." MRS. G. I. BURNETT, Central Norton, N. B.

THURSDAY, JUNE 30, 1898.

DOMINION DAY.

To-morrow marks the thirty-first anniversary of the confederation of a comparatively chaotic cordon of disintegrated provinces into a stable united and consolidated Dominion. At the begining the Dominion consisted of Ontario, Quebec, Nova Scotia and New Brunswick. Manitoba came into the sisterhood three years later, or in 1870, and a year later British Columbia came in; Prince Edward Island, delayed till 1872 her entering into the fold, and is therefore the youngest as well as smallest member of national guild. In addition to these seven provinces there are six districts not yet ripe for annexation; these are Keewatin, organized in 1876, Saskatchewan, Assiniboia, Athabasca and Alberta districts organized in 1882, and the North West Territories. There is material here for another seven new provinces, and at the rate of their present development and growth they will soon be admitted as full fledged provinces.

And speaking of development it is pleasing to note that the thirty first anniversary of the Confederation gives greater promise of growth and expansion than at any other period of the history of Canada. Last year, signalized by the visit of the Prime Minister of the Dominion, Sir Wilfred Laurier, to Great Britain, witnessed the Dominion's practical enrolment in the sisterhood of nations, and drew closer the bonds that unite the Motherland with the greatest of the children of her Imperial household. Canada's bold stroke in extending preferential trade relations to Great Britain won new admiration and affection of our kin beyond the seas, while it provoked the jealousy and at the same time enlisted the respect of other nations. These circumstances have brought this country into a closer relation to the home peoples and into prominence before the world, which have resulted in a greatly increased expansion of our trade and, of course, incidentally of our national prosperity. This year, for the second time, in the history of Confederation our exports have gone ahead of our imports. Our exports for the ten months of the year which ends 30th June, amount in value to $119,000,000 against $114,000,000 for the same period last year, and $87,000,000 for 1896. The excess over imports for the ten months is $17,760,000, as against $6,647,000 for the same period last year, and a small excess of imports in 1896. And the outlook is still bright. From every province of the Dominion come the reports of the most magnificent crops, and of the most bountiful harvest ever gathered in the country; our mining interests are at flood tide and every indication for a steady and rapid advance, affords grounds for indulging in the most pleasing anticipations. We have a great country, great in the wealth of natural resources, with one of the finest, if not the finest, climates in the world. We have a peaceful, progressive, enterprising, industrious, harmonious population. We are safe from embroilments with other countries. We enjoy the protection of the strong arm of the Motherland. Surely, with all the conditions, and commanding all the elements of rapid and wholesome national growth, and expansion in every direction, we cannot be accused of baseless optimism in predicting, as we pray, for our beloved Canada a rapid advance in all the avenues, that lead to material greatness, and in all things that make for the happiness and well-being of our people.

In view of all these things, all of these cheerful portents, we can amply justify our entering heartily into the celebration of our thirty-first national birthday, and no matter what direction our rejoicing takes, no matter what means, within the limits of a decent regard for the obligations of citizenship, we adopt to express our sentiments of rejoicing, we all have at bottom, as the mainspring and fountain-head of our patriotic impulses and actions, a deep and real love for our country and a reverent and faithful regard, for the great Empire of which we all are as proud as fortunate to be a part.

THE PLEBISCITE IN QUEBEC.

The plebiscite on the question of prohibition apparently will not receive very much help from the province of Quebec. The Montreal Herald with an enterprising desire to place its readers en rapport with the public sentiments of Quebec, has a special commissioner looking into the matter and reporting from day to day. The reports almost uniformly show a sentiment hostile to prohibition. But this does not necessarily indicate a hostility to temperance. For instance in the diocese of Rimouski, the Herald's commissioner says there is almost practical prohibition of the sale and use of liquor through the efforts of the Church, but at the same time the feeling is not favourable to prohibition. The opinion of the vicar general is that a legislative enactment requiring prohibition could not be enforced. The essence of a useful law is the practicability of its enforcement. If this cannot be effected the result will be to intensify the evil it aims to mitigate or remove. If public sentiment is not in favour of a law it is made very difficult of application. Therefore, it seems that Quebec, so far as heard from through the source mentioned, is not by any means favourable to prohibition.

"CORRUPTION in high places has done the damage to Spain. Does anybody suppose that the same thing can go on here, and that we can escape the 'natural consequences?'" Thus the Mail and Empire. The answer has been made. "The same thing went on here" for eighteen years, and the "natural consequences" were that the corrupt Government was put out by the people, and an honest Government took its place.

IT is gratifying to note that notwithstanding the vast increase in warship building, and naval armaments that is a feature of the present policies of the European counaries, John Bull is more than holding his own. At the present moment there are building for the British navy nine first-class battleships, twelve first-class cruisers, two sloops, four gun-boats, and forty-one torpedo boat destroyers. Torpedo boats it is remarked, have no place in the programme. The value of these ships, when completed, is estimated by Mr. Goschen at $115,000,000. The new programme, in addition, for the present year, is three battleships, four armoured cruisers, and four sloops.

GALWAY.

From Our Own Correspondent.

Mr. Wm. Ritchie and H. Coben availed themselves of the cheap fare to Guelph on the 23rd inst., and visited the Model Farm. They are much pleased with their trip.

Mr. John Flaherty spent last week in Peterborough visiting friends and consulting a physician with regard to his health as he has been very poorly during the last year or two. We hope he may be much benefitted by it.

Mrs. John Craig and Mrs. Sims, of Grand Rapids, Minnesota, are visiting at their parents, Mr. and Mrs. John Allen, and will probably remain for a couple of months.

Mr. Daniel Reid, jr., disappeared very mysteriously at a late hour on Sunday evening, 19th inst., and up to the time of writing has not been heard from. He was visiting at a neighbours house on the evening mentioned and when he returned home his parents, who were the only occupants of the house, had retired. He went to his room and prepared himself for the departure, leaving a note on the table stating that they would not see him again for a while, as he was going away. When he went out they heard the gate close, which was the last trace heard of him. Any person knowing of his whereabouts would confer a great favour by communicating the matter to his parents, who are very uneasy to hear from him. Mr. Reid is a very respectable young man, but felt a little despondet at times on account of his health, which has been somewhat poorly during the last few years.

THE MAPLE LEAF FOREVER!

In days of yore, from Britain's shore,
Wolfe, the dauntless hero, came
And planted fair Britannia's flag
On Canada's fair domain.
Here may it wave, our boast and pride,
And joined in love together,
The Thistle, Shamrock, Rose entwine,
The Maple Leaf Forever!

At Queenstown's heights and Lundy's Lane,
Our brave fathers side by side
For freedom, homes and loved ones dear
Firmly stood and nobly died.
And those dear rights which they maintained,
We swear to yield them never,
Our watchword ever more shall be
The Maple Leaf Forever!

Our fair domain it now extends
From Cape Race to Nootka Sound,
May peace forever be our lot,
And plenteous store abound;
And may these ties of love be ours,
Which discord cannot sever,
And flourish green o'er Freedom's home,
The Maple Leaf Forever!

On Merry England's far-famed land
May kind Heaven sweetly smile,
God bless old Scotland evermore,
And Ireland's Emerald Isle;
Then swell the song both loud and long,
Till rocks and forest quiver,
God save our Queen and Heaven bless
The Maple Leaf Forever!

"THE SWISS DARNER"

as her younger rivals. A little practice is all that is necessary to darn quickly and neatly, and we are glad to pay for all the neat sample darns that women can make with THE SWISS DARNER under our directions. We are using thousands of sample darns all made by women who are using THE SWISS DARNER. The Swiss Darner, price 25 cents, will put a fresh heel or toe into a stocking in two minutes. It mends Table Cloths, curtains, underwear and all fabrics with equal speed, and a child can operate it as easily as a grown person.

The Swiss Darner neatly boxed, complete with full instructions and testimonials sent free to any address on receipt of price, (fifty cents) sample darning 5 cents additional. Send money, stamps or Postal Order.

A PRICE ON HIS HEAD.

London Offers $500 Reward for the Capture of Policeman Twohey's Murderer The Chase Continued.

Petrolea, Ont., June 30.—Mr. McGregor of the tenth line of Brooke found his horse, which was stolen by the one-legged tramp, about two miles west of here, on the roadside. The horse is not fagged out as much as would be expected. McGregor says the tramp secured a rope off a calf which was pasturing close to the horse. The horse is a fine looking bay animal, three years old, and was never hitched up. The tramp was seen close to Marthaville very early yesterday morning. Detectives are on the track.

$500 Reward Offered.

London, Ont., June 30.—Five hundred dollars reward for the capture of the murderer of P. C. Twohey is offered by the city authorities.

May Be in Michigan Now.

Moorestown, Ont., June 30.—A man supposed to be the murderer of London Policeman Twohey, came from the bush half a mile below Corunna, Township of Moore, yesterday afternoon. A young man riding a bicycle was a short distance behind him when he came on the road, and when he caught up to him he seemed very excited. His face was very dark and fierce looking. He had an artificial or wooden leg, with a shoe tied on to it, and had a grey beard and whiskers. He made for the river as soon as the young man passed, and is likely now in Michigan.

Stimulated by the Reward.

Port Huron, Mich., June 30.—The Sarnia police are hot on the trail of the tramp who murdered Policeman Twohey at London. Last night Policeman Service and another officer claimed to have seen him in the woods below Sarnia. They claimed the murderer was armed with a rifle, which would have made it extremely hazardous for them to attempt to arrest him. While they were reconnoitering he disappeared, and it was reported to the Port Huron police that he had crossed to the American side near Marysville. Five hundred dollars reward is offered for his capture, and a vigilant search is being made by Canadian and American officers.

The trial of Thomas Parsons, charged with burglary, shoplifting and arson, was begun yesterday before Judge Fralick. Prisoner was found guilty, and sentenced to 14 years in the penitentiary.

A Youthful Nebuchadnezzar.

Toronto, June 30.—Roy Dante, aged 6, an inmate of Sunnyside Home, was brought before Magistrate Denison yesterday in the children's court, charged with insanity, and was remanded for examination. The child eats grass like a cow. He is the youngest person ever brought before a city police magistrate, charged with insanity.

A Terrible Japanese Fire.

Victoria, June 30.—The Empress of China, which arrived from the Orient last evening, brought word that a fire at Nagasu, Japan, on June 5th, destroyed 1,780 houses, besides much other property, and six men were burned to death. Only 140 houses were left.

STANDARD OIL CO'Y.

Its Control of Canadian Oil Refineries Established.

5 YEARS' MONOPOLY IN CANADA

All the Refining Plants in the Dominion Either Bought or Leased by the Gigantic Corporation—The Works at Sarnia to Be Extended—Its Expenditure in This Country.

Petrolea, June 30.—It is understood that the Standard Oil Company, which during the past few years has spent between $300,000 and $400,000 in establishing refineries at Sarnia, has effected the purchase of the Imperial oil works, and has leased every other refining plant in Canada for five years. It has thus secured an absolute monopoly of oil refining in Canada. The Standard Company is preparing to greatly extend its works at Sarnia, and will no doubt seek to get a more thorough control of delivery and sale throughout the country. The possible effect on prices and on the rates paid to producers is exciting a good deal of interest throughout the Petrolea oil district.

Prospectors operating in connection with the company are finding new wells in various points in the west, and, with the increase of supply and the splendid facilities for refining possessed by the company there is no expectation that there will be any increase of prices to the consumers, whatever may be the effect on the profits realized by the middlemen throughout the country.

THE APPOINTMENTS MADE.

The Commissioners Who Have Been Selected to Settle Differences Between Canada and the United States.

London, June 30.—In pursuance of the agreement signed at Washington on May 30, for a joint commission to adjust the Canadian-American conferences, it is officially announced that Queen Victoria has appointed ex-Lord High Chancellor, Baron Herschell; the Premier of Canada, Sir Wilfrid Laurier; Sir Richard Cartwright, Minister of Trade and Commerce, and formerly Finance Minister of Canada; Sir Louis Davies, Privy Councillor and Minister of Marine and Fisheries of Canada, and counsel for Great Britain before the International Fisheries Arbitration at Halifax in 1887, between Great Britain and the United States, and Mr. John Charlton, to be High Commissioners.

U. S. Senate Refuses Expenses.

Washington, June 30.—The President is deeply concerned at the action of the Appropriations Committee in striking out of the Sundry Civil Appropriation Act the item appropriating $50,000 to defray the expenses of the joint commission to be held at Quebec, Canada, this fall, to endeavor to effect a settlement of the many important questions at issue between the United States and Canada. This commission has been arranged for by the Secretary of State, acting under the direction of the President, in answer to what was believed by both of them to be an almost unanimous popular demand. There are many questions pending between the two Governments that contain possibilities of serious complications, such, for instance, as the Alaskan boundary question, which, on account of the extraordinary development of the Klondike country, has become a matter of the greatest importance.

In arranging for this commission the President was acting clearly within his constitutional power, so the action of the Senate committee has been received with great surprise as indicating a clear purpose to interfere with the free exercise of the constitutional treaty framing function by the President.

IS HE ENGINEERING A PLOT?

Carranza Is Missing, From Montreal—Spaniards Want Cruiser Gresham Held.

Montreal, June 30.—The American nation trembles and the pro-American Montrealers are in a panic because the famous Senor Carranza has disappeared. Has he gone home or has he left the city to engineer some wicked plot against Uncle Sam? This is what this excited people want to know, and, although they have kept watch of the Tupper street residence, no one appears to know anything more than the fact of Senor Carranza not having been seen for some days past.

It is stated in well-informed Spanish circles in this city that there went forward to the British Foreign Office yesterday a demand on behalf of the Spanish Government that the United States cruiser Gresham, now in this port on her way from the lakes to the Atlantic seaboard, be held here.

A WILY YOUTH FOILED.

He Calculated Upon Getting a Bicycle Rather Easily.

Waterloo, June 30.—A 17-year old boy named Willie Bish of this place was yesterday arrested and brought back from Collingwood, charged with the stealing of a bicycle from the office of the Canadian Express Company on May 28. Young Bish was for a short time employed at the express office, and on the date mentioned he took the wheel from the company's shed and expressed it to Guelph, thence to Collingwood, where he has since been visiting with friends. It was a bold and clever act no doubt, as it took the express officials a month to locate the whereabouts of the missing bicycle.

POST CONFERENCE IN LONDON.

Proceedings Private—Mr. Mulock Is Reticent—English Items.

London, June 30.—The post conference, for which Hon. William Mulock, Postmaster-General, is in England, opened at noon on Tuesday, at the Westminster Palace Hotel. The proceedings are private. Mr. Mulock himself is reticent, but in Canadian circles here the hope is expressed that he is empowered to impress upon the Imperial Ministry the necessity of a three-cent rate.

HUMAN SACRIFICES

On the Altar of Diabetes, Saved by Dodd's Kidney Pills, Only.

Hardly a family in the country is free from Diabetes. Great thirst, failing sight, numbness in the thighs, bleeding gums, swollen ankles, emaciation, nervousness, pale or turbid urine, loss of sexual power, decaying teeth, pains in the loins or small of the back, are all positive signs that Diabetes is in the system.

Do you know how it ends? IN DEATH. A premature, horrible, agonized, pitiful death. The victim has no peace, no ease in life. His days are filled with tortures. His nights are waking dreams of agony. He longs to die, yet fears the terrors of his end. He dies, a bloated, fetid, repulsive mass of corruption. That is the only end of unchecked Diabetes. Dodd's Kidney Pills will cure it. They drive it out of the system thoroughly, create new, clean blood, rebuild the diseased kidneys, and restore robust health.

A STRONG ARGUMENT.

Wm. McCabe, Esq., Managing Director, N. A. L., Toronto:

DEAR SIR,—Please accept my thanks for your cheque just handed to me, for $3,901.98, in settlement of my $2,500 Fifteen Year Endowment Policy in your Company. Such a result as this, after the risk on my life has been carried for fifteen years, beginning from forty-five years of age, argues one thing strongly, namely, that the management of the North American Life must be in competent hands. The other options you have offered me, viz.: a Paid-up Life policy for $6510.00, or a Life Annuity for $401.90, are, I presume, equally liberal, and it affords me much pleasure to recommend your Company to my friends or any desiring insurance.

Sunshine Brings Sales

Vigorous selling has characterized June's business on account of our retailing at Wholesale Prices, and less. There has been a general rush for Light Headwear. Those who refrained from buying early in the season are benefitting by the riper Bargains which our Mid-summer Reduced Prices naturally bring.

TRIMMED HATS. This store's immense success has been earned by showing the prettiest of Trimmed Hats. Our captivating White Effects has influenced June sales remarkably. A new lot of Nobby Sailors going fast at Late-season Prices. Pretty Leghorns and Flower Hats, picked up quickly.

VEILINGS. No woman can look at our Veilings without being convinced that our Styles, Fabrics and Fancy Combinations are very taking. Brisk sales have encouraged us to replenish with some of the latest Novelties out.

RUN ON RIBBONS. Our Stock represents all the late Ribbon Ideas—Plaids, Stripes and fancies. Special values in Roman Effects, pure silk, choice colours. An easy matter to buy Ribbons at a price, but not always easy to get high qualities and latest patterns such as shown here.

CORSET VALUES. Our customers are getting Popular Corsets at prices marked down to quicken sales, but without any expectation of profit. Fine makes of Summer Corsets, faultlessly framed.

Fireworks! Fireworks!

Better buy your fireworks early at the Peterboro' Book Store to-night. Big stock of cracker-jacks. Have a gay time on Dominion day and during the meet days. Great show of Japanise parasols and horns for the boys; Chinese lanterns for illuminating purposes, and fans for the ladies. A. H. STRATTON & Co., 417 George street.

St. Joseph's Picnic.

The beautiful grounds surrounding St. Joseph's Hospital will be the scene of the annual picnic under the auspices of that institution on Friday next. For the convenience of visitors to the town dinner will be served all day, beginning at ten o'clock in the morning. By patronizing the picnic the rush for meals at the hotels will be avoided. Many will go to the grounds from the lacrosse match.

Bananas by the bunch at low prices. "The Spot Cash."

"Hanging out the Flag."

An interesting yet informal event took place at the Y.M.C.A. building yesterday morning promptly on sunrise, when the flag pole was placed in position in the tower and the flag raised. Mr. J.J.Turner engineered the difficult and dangerous task, assisted by Architect Blackwell and the secretary and treasurer. The management of the Association feel grateful to Mr. Turner, who who gave his services gratis, although pressed with heavy work in connection with the Meet.

The best of dinners will be served at the St. Joseph's Hospital picnic grounds to-morrow. Only a step from the lacrosse field. Dinner served from 10 o'clock.

Handsome Banners.

Fairweather & Co's wide-awake window trim has been the leading attraction of the street for the past few days. Throngs of pedestrians have crowded round the store front admiring the clever and artistic dressing of the window, and the magnificent exhibition of C.W.A. prizes and banners, which comprise the effective display. The valuable prizes have already been referred to, and continue to call forth the admiration of all who have seen them. The new 1898 Cook's Parade banner, suspended in the centre of the window, is a gem. It has been pronounced the most elaborate and costly banner ever executed for the Wheelmen's Association. The beautiful design is the creation of a Peterborough lady, and the gilt and silk decorative details wrought out by skilled artists are worthy of highest commendation. The Wheelmen's banner is another effective piece of art work in painting and designing from the brush of Mr. J. Watson. The fancy lettering, colouring and scroll work are harmonizingly blended with a purple background and gold trimmings, forming a very striking and ornamental banner. Th clever trimmer who suggested the many happy decorative effects in the window is a past master at the art of window dressing.

Don't forget the lacrosse game at 10.30 a.m. to-morrow. Perth vs. Peterborough. The wheelmen parade to the grounds. Gentlemen 25c, Ladies 15c.

BOTH bYLAWS CARRIED.

NO. 1 WARD IS AGAINST THE PROPOSED CHANGE.

The Vote Polled was a Small One but the Majorities were Large in both Cases.

There wase practically little opposition to the passage of the two bylaws which were submitted to the electors yesterday. Those who were opposed to the issuing of the debentures and the proposed change in the method of electing the council, worked hard in accordance with their views of the questions, and brought out all who saw eye to eye with them in the matter. As will be seen, the vote against the passage of the bylaw was over-overbalanced without effort, the citizens as a whole being satisfied that there would be but little opposition to overcome and evidently favouring the change proposed.

The vote was as follows:

	For.	*Against.*
No. 1 WARD:

THE BY-LAWS CARRIED.

As a reference to our news columns shows, both bylaws submitted to popular vote were carried yesterday by large majorities. The bylaw in favour of council representation reform received 280 votes and 177 were cast against it,—almost three to one in its favour; and the bylaw to raise the sum of $10,000 to rebuild bridges and to purchase a steam roller was carried by a majority of 85—213 for and 128 against. There was not a very large vote polled for either bylaw, but the absence of any considerable opposition indicates that the course of the council in adopting the means provided by the latter bylaw to give an impetus to the principle of permanency in our street and bridges was endorsed. Mayor Davis, especially, has reason to be gratified at the emphatic approval of his course as expressed in the vote. He took a deep and active part in the work of advancing the interests represented by the bylaw. The circular letter issued by him was a practical acknowledgement of his duty to take the electors into his confidence and supply them, as they were supplied, with the fullest information as to our financial standing in relation to our streets and bridges, to enable them to form an intelligent opinion. It is to be hoped that the council will wisely and promptly use the powers conferred by the bylaw to inaugurate a system of permanent street improvements, which should have been put into operation years ago.

The by-law in favour of a reform in the mode of electing representatives was emphatically endorsed. This circumstance is an indication that the old system has not worked as satisfactorily as could be desired. Next January the electors will have the privilege of voting for a mayor and nine councillors, irrespective of ward lines, that is, every elector will have the privilege of casting ten votes and have a voice in electing the whole council, instead of a fraction. The EXAMINER, believing that the new system well be for the best interests of the town, advocated its adoption, and it feels flattered in having its opinion in this regard so emphatically approved. As frequently remarked the electors as well as councillors, will under the new system have an enlarged responsibility. It is to be hoped that both will wisely rise to the new responsibility conferred by the adoption of the bylaw, and that a decided and perceptible improvement in all respects will be the result.

Though the vote on both bylaws was not large, the majority in both cases was decisive, showing that while many of the electors were apathetic, there was a passive concurrence in the wisdom of passing the bylaws. If there was any general feeling of opposition, it could not have been very pronounced, or it would have found expression.

DANNY SIMONS' BIG SUCCESS.

LAST NIGHTS ENTERTAINMENT PACKS THE HOUSE.

A Fine Bill of Fare Presented—Dan Comes out Strong—His Great Improvement in his Vaudeville Work—A Champion Fun-Maker—He Travels With the Best in his Line—The Rest of the Programme.

Mr. Dan. Simons has every reason to be proud of the reception which he received from the immense audience in the Opera House, last evening, when the curtain was raised, and the frequent applause which he won during the evening was such as to show that his merits as a fun-furnisher were thoroughly appreciated by all present. It is a year since Danny has appeared before an audience in his native town and great improvement is noticeable in his work, and those who have heard him before can understand what that means. The confidence which experience gives and continued study and practice have fitted him to take a comedian's part with the best vaudeville company on the road to-day. As a dancer, it is well within the limits to say that he has never been surpassed on the local stage, as a Canadian he "cant be beat" and there was bushels and barrels of fun around every time he came to the footlights during the evening. His tramp act original and unique and the roars of laughter which each new turn called forth was sufficient testimony that not a point was missed. In the dancing there was a great variety including buck, wing, mixed reel, Irish jigs, sand jigs, straight jigs, clogs, and fancy steps with variations to no end. Something good was expected by the audiance but they never looked for such a treat as Danny had up his sleeve for them and it is only to be hoped that he can be persuaded to repeat the performance before he leaves to resume his engagement on the other side of the border.

Danny opened and closed the evening's entertainment,, the intervel between his appearances being occupied by the presentation of a most meritorious programme.

Miss Jennie Riley's fine rendition of "Across the Way" was certainly deserving of the enthusiastic applause, which she received, the sweetness and purity of her voice appearing to please the audience greatly. Miss Lillie Simons recitation of "Down by the Rio Grande," was a piece of work of undoubted intrinsic worth. She showed herself to be possessed of rare elocutionary powers, and reflected great credit on the course of training from which she recently returned in Ottawa. Fred Andrews gave a fine exhibition of club swinging, after which tiny Geraldine Rudkins, daughter of Mr. Wm. Rudkins, recited several selections and with a spirit which gives promise of great elocutionary talent. Although barely able to articulate clearly, yet the little one's silvery notes could be heard in the furthest corner up the hall. Mr. Walter Wesley gave a fine rendering of "The Mighty Deep" in his usual good style, after which a most enjoyable comedetta, "Polly, the Frivolous," was presented by Misses Jennie Riley, Lillie Simons, Fanny Holmes and Messrs. Thos. Begley, Jack McCabe, John Hanrahan and Dick Simons. The difficult parts were taken naturally and with skill.

Mr. Bert Jones' fine banjo solo received the applause which it deserved. He was followed by cute little Carrie White, the daughter of Mr. Eric White. This pretty little fairy is already possessed of a natural talent for reciting which, if properly trained, ensures the Peterborough public many evenings of pleasures in listening to her selections.

Mr. Bert Dolan's vocal solo, "Pictures from Life's Other Side," was so well received that he had to respond to an encore. His repeat number entitled "The Heroes of the Maine," was also very popular.

During the evening several brilliant overtures were played on the piano by Misses Maggie Doherty and Maggie McCabe in a very creditable manner.

Miss Ellis, of Toronto, was the clever accompanist of the evening and greatly added to the success of the concert by her clever renditions. She played the accompaniments for Danny Simons' different specialties.

THE WHEEL.

McLeod was feeling in great shape yesterday and the Cleveland quod carried him a mile in 2 01. He had enough left in him for a strong spurt at the finish.

McCarthy went out paced by the Gendron triplet and reeled off a mile easily in 2 08.

Seventeen year old Dannie Wilson is riding well this year.

Big crowds have been drawn at the track every evening this week watching the riders training.

Mr. Harry Edmunds, of Toronto, is in town with his big tricycle, representing the Vim tires. The machine is a monster and is ridden by eight men. It is seventeen feet long annd nine wide. The wheels are twelve feet high and the tires eighteen inches in diameter. The big tricycle will be used in the Friday morning parade.

All wheelmen, whether in costume or not, are invited to join in the grand parade which will leave the East Nicholls Park at 10 o'clock sharp on its way down street. Let there be an immense turnout.

Those desiring to ride in costume, and thus add to the fun and attractiveness of the event, can secure costumes at the old Council Chamber, in the opera house block. It is hoped that a great many will do so.

Wheelmen are requested to decorate their bicycles in some way for the ride.

The advance guard of the Excelsiors, of Toronto, arrived in town this morning. They are wearing very pretty sweaters of black and old gold.

To be able to follow the racers closely, everyone should have a score card.

Old Probs promises fair weather for the Meet.

THE EXAMINER EXTENDS A HEARTY WELCOME TO ALL VISITING WHEELMEN.

Messrs. Ab. Benton and Dave Lillico are handling the prettiest badge in town. They are for the handle bar of wheels and are in two designs. Upon one is a lady cyclist and on the other a man.

The Globe contains the following items of interest to-day: The Athenæums are under marching orders for Peterborough, and leave to night at 9 o'clock on the C.P.R. special train. They will parade from the club at 8.15 with their brass and drum band. This excellent combination will be under the direction of "Collie" Ross, who promises more surprises than have ever appeared at a C.W.A. meet. The Athenæums are booked for the brunt of the battle, and will assist the Peterborough committee to the fullest extent, and help make their meet a success. As all the members are most favourable to the trip they will go in a body and expect to have one hundred and fifty in line. Their cooks' parade on Saturday morning will be full of startling and burlesque novelties, with a wind up on the market square, when the colors will be trooped, a musical ride, and their new mascot, "Dewdrop," will be christened. The band regret that they cannot accept Lem Fetcher's invitation to play at his barbecue, as they are already invited to dine with the city officials. They leave for home on Saturday evening at 10 The Tourists and Royal Canadians have secured a very neat cap for the meet. They are made of white duck and labelled R.Q.T. The boys are all taking night shirts to be used in the Tourists' "parade a la robe de nuit," which will leave the Tourist headquarters at midnight on the 1st July. The Queen City Bicycle Club will leave in a body for the meet to-night on the C. P. R. 9 o'clock train for Peterborough, having chartered a special car for the occasion.

LACROSSE.

At a meeting of the lacrosse club executive last evening the following team was picked to play against Perth to-morrow morning:—Goal, F. Dobbin; point, Lynch; cover, Brown; 3rd defence, Jim McCabe; 2nd defence, Glover; 3rd defence, McDonough; centre, King; 3rd home, Hogarth; 2nd home, Jack McCabe; 1st home, Phelan; outside home, Galley; inside home, McWilliams; field captain, M. Halpin. A number of changes have been made in the team. Some of the more familiar faces will be missed for the day, but the twelve is a strong one. Glover has gone back to his old position on the defence, and the home field is one that has not been seen playing this year. Hogarth, the new man from Ottawa, is playing his first game with the seniors, and Phelan makes his first appearance for the year. Jack McCabe is being moved out further in the field, his place at inside home being taken by McWilliams, whose strong work on the juniors this year has won him promotion to the senior ranks. The other men have all played before earlier in the season and can be relied on to give a good account of themselves. The game starts at 10.30 a.m.

Mr. Harry LeBrun will referee the game.

WEDDING BELLS.

Nuptials of Miss Minnie Miller and Mr. E. O. Fiske.

A most pleasing event and one which has been anticipated for some time by the friends of the contracting parties, took place Tuesday evening at the residence of Capt. W. J. Miller, McDonel street, when his daughter Miss Minnie, was united in marriage to Mr. H. O. Fiske, the popular superintendent of the Peterborough Light and Power Company.

The ceremony was performed by Rev. J. S. Shorey, pastor of the George street Methodist Church, in the presence of a number of the friends and relatives of the bride and groom. Miss Fiske, sister of the groom presided at the piano.

The charming bride was handsomely attired in white organdie, trimmed with Valenciennes lace, and carried a beautiful bouquet of white roses. She was assisted by Miss Minnie Jones, who was most attractively gowned in white organdie also, and carried pink roses. The sweet little maid-de-honneur was tiny Ethel Miller, who looked very pretty in white and carried a basket of roses.

The groomsman was Mr. Fred Skitch.

At the conclusion of the ceremony those present partook of a most tempting repast, after which Mr. and Mrs. Fiske left on the midnight C.P.R. train for Montreal and eastern summer resorts.

An unusual number of presents was received, amongst which was a fancy centre table from the employees of the Light and Power Co., and a handsome rocking chair from the Peterborough Canoe Co. The groom's present to the bride was a beautiful gold watch and chain. To the bridesmaid he gave a gold jewelled belt and to the maid of honour a gold bracelet.

I expect any day to go to Porto Rico or Cuba with my troop." Mr. Quincey seems to catch the habit of Canadian boys in the States by taking first place. He is Captain, commands Troop I, 1st Illinois volunteer cavalry, 1st brigade, 1st army corps, department of the staff." "Mr. Quincey adds, "give my kind regards to all the good old friends and tell them that old Peterborough has one representative at the front. I have 103 men in my troop all well mounted on black horses."

BRING THE BEST RESULTS

YOU CAN IF YOU WISH.

RESTORE THE SNAP,
VIM, ENERGY AND STRENGTH
YOU HAVE LOST.

Dr. Ward's Blood and Nerve Pills have been a great boon to my daughter Maggie. Prior to taking them she had been suffering from excessive nervousness for a long time, and her nerves were in a terribly shattered condition. The action of her heart was so weak that it did not have strength to perform its functions, causing violent palpitation and smothering after retiring. Frequently, on account of this suffocating sensation she was afraid to go to bed. Slight exertion exhausted her and caused shortness of breath. Her blood was impoverished and lost vitality, and she had no appetite. She was wasting away and was very hypochondriacal, feeling dejected all the time. Last December she began taking Dr. Ward's Blood and Nerve Pills, and she improved at once. Her blood became healthy and strong, and in six weeks her impaired nervous system was restored to its normal healthy condition. Her heart responded to the healthy condition of her blood and nerves and resumed its strong and healthy functions. She now sleeps without any of the dangerous, distressing, smothering and choking spells; her appetite is good, and she has gained in flesh. Healthy color has replaced pallor, and she is now well and strong, thanks to Dr. Ward's Blood and Nerve Pills. I thank you, gentlemen, for the remedy that has restored my daughter to health. A. GUNN, Baggagemaster, Grand Trunk Railway, Oshawa, Ont. Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by THE DR. BREATHE PURE AIR.

The Necessity For Filling the Lungs at Each Inhalation.

Breathe pure air always. In the lungs a most important physiological process occurs. It is from here that the blood laden with oxygen is sent to all parts of the body, giving off along its course its oxygen and taking up carbonic acid gas, which it brings at last to the lungs, when it is cast out in expiration. More oxygen is taken in by inspiration and the same process is repeated.

So let your breathing be full and deep, going to the very bottom of the lungs in order that all of the blood in them may receive its full amount of oxygen before again starting upon its tour of distribution through the body. Can one use any more forcible argument in favor of loose clothing than this? It is absolutely impossible to secure plenty of oxygen if the clothing is worn at all tight, and oxygen is a food which the body must have always in abundance to keep well.

The air leaving the lungs is laden with that deadly poison carbonic acid gas, which if given off in a close room when no provision is made for its escape and the entrance of pure air soon renders the air utterly unfit to breathe. Perhaps some night you will find yourself unable to sleep and tumble restlessly about in bed. When this occurs, go to an open window and inhale the fresh air, breathing slowly and deeply. A few minutes of this and you can return to bed and probably will soon be sleeping quietly. What has happened? By its restlessness the body was asserting its need of more oxygen. Now you have given it what it so emphatically asked for, and it is quiet. We get as much uneasiness and disturbance from the want of this food as when we do not eat enough, only the symptoms are not so well understood nor recognised so quickly. Always keep your mouth closed and breathe through your nose. Then the air is warmed, slightly moistened and largely freed from particles of dust, so that when it enters the lungs it does not irritate them.

A condition often met with by physicians is anæmia. In this trouble the patient is pale, lifeless looking, tired and generally used up, often without being able to tell distinctly how she does feel. Sometimes these patients say that they have not enough blood. It is really only an element of the blood which is wanting, but that is a very important one—namely, the red blood corpuscle.

When you know that it is only those corpuscles which have the power to take up and carry oxygen, you see at once how important it is that the blood should not be lacking in them. Good, wholesome food, plenty of it and well digested will give you the corpuscles. Furnish them with the oxygen and the body will have an important element toward health.—What to Eat.

LA PLANTE MURDER TRIAL.

Sixty Witnesses to Be Examined—Trial Will Probably Last Two Weeks—Circumstantial Evidence.

St. Hyacinthe, Que., June 29.—The Crown at the Assizes here yesterday made a start in its task of attempting to weave a web of incriminating evidence around Jean Baptiste Guillemain, the alleged murderer of his uncle, Jean Baptiste La Plante, near St. Liboire on Oct. 30 last. No previous trial here has ever attracted such large crowds. At least sixty witnesses will be examined and the trial will occupy about two weeks.

J. B. Blanchette, the Crown Prosecutor, stated the case to the jury. He said Guillemain left Biddeford, Me, on Oct. 4 for St. Liboire. On reaching his destination the prisoner proceeded to the dwelling of his uncle, La Plante, where he remained during his stay in Canada, lasting until the 12th of the following month. The murder took place on the night of Oct. 30.

The widow of the deceased was then called. Her husband, she said, had about $3 in his possession when he left for St. Hyacinthe.

Mr. F. X. La Plante, the father of the murdered man, related, with circumstantial detail, how he had loaned La Plante $200 in St. Hyacinthe on the afternoon of Oct. 30.

Joseph Morin, who witnessed the transaction, gave corroborative evidence. The money was drawn from the Eastern Townships Bank. It consisted of $10 bills. Both he and the aged father saw, in Morin's store, the deceased put the money in a pocketbook before leaving for home.

Mr. Oscar Le Doux, paying teller of the bank, recalled having paid J. B. La Plante $200 on October 30, but could not swear respecting the denomination of the bills. Mr. La Plante, sr., accompanied his son to the bank. The money was paid on presentation of a cheque.

Mr. Treder A. Cervais, merchant, of St. Liboire, told the court that he met the deceased in St. Hyacinthe on Oct. 30 and paid La Plante an obligation of $14. Ephraim Dupont, merchant, St. Liboire, testified that he met La Plante at the village station about 6 o'clock on the fatal night.

The most interesting evidence of the sitting was given by Torsmidas La Pierre. While driving, in company with William and Gideon Bienvenue, along the highway between 6 and 7 o'clock in the evening, he recognized in the darkness Henry Beaupre, seated on a load of hay, going in the opposite direction. This was at a point a few arpents from the La Plante dwelling. Further on, a minute later, near the junction of the roads, where the deceased resided, La Pierre's horse shied at an object on the ground. The trio dismounted and discovered the prostrate form of a man. It was impossible to distinguish the form in the darkness. The witness then made his way to the La Plante house and hurriedly explaining his mission, asked for a lantern.

La Plante's Body Found.

Madame Guillemain at once exclaimed: "Oh, I hope it is not my husband. I am expecting him from St. Hyacinthe." All this time Guillemain sat with the children beside the stove. The prisoner afterwards took down the lantern, and, in attempting to light it, turned the wick down into the oil, beyond recovery. La Pierre was accordingly obliged to seek a light at Nadeau's, the nearest neighbor. On joining his companions, the body on the road was found to be La Plante's. Although the body was still warm, life appeared to be extinct. La Plante lay on his back, with his legs crossed. The face was covered with blood, still steaming in the raw night air. The witness summoned Dr. Berthiaume from the village without delay. In cross examination, he said it was impossible that the shaft of the rig had caused the fatal event, as the horse shied when several feet from the body. Gideon Bienvenue gave corroborative testimony.

Henry Beaupre, laborer at St. Liboire, said he was walking towards the village, accompanied by his two brothers, who occupied a load of hay, when they passed La Plante going towards the La Plante dwelling. It was quite dark. He did not speak. He also noticed that an individual, considerably lower in stature, followed La Plante at a distance of three or four feet. The witness was then asked if the figure he had observed following La Plante was taller than Guillemain. All eyes were directed towards the prisoner as he stood up in the dock. "Yes," replied the witness, "the man I met was about the height of the accused."

Guillemain smiled faintly as he reseated himself.

Hector Beaupre, the 12-year-old brother of the preceding witness, gave corroborative testimony.

Ten Years and the Lash.

Hamilton, June 29.—Stephen Clarkson of Ancaster appeared before Judge Snider yesterday morning, and upon the testimony of his three daughters and wife, was found guilty of an offense for which he was sentenced to ten years in the Kingston Penitentiary, to receive twelve lashes of the cat and nine tails upon his entrance into the institution. Clarkson pleaded for mercy, but as the offense had been frequent during the last ten years, Judge Snider imposed the above sentence in spite of the prisoner's appeals to make it lighter.

Cured of Lumbago by Dodd's Kidney Pills after his Doctor Failed.

TORONTO, June 20.—(Special).—If there is a good thing in creation a newspaper man will find it out. The truth of this is shown by the case of Mr. John H. Parham, a pressman on the Globe staff.

Mr. Parham has for months suffered from Lumbago, aggravated by the nature of his work in the pressroom. He consulted an eminent local physician, but no benefit resulted from his treatment.

On the advice of a friend he tried Dodd's Kidney Pills, with the result that he was completely cured.

This case is one more proof of the fact that for Lumbago and every other kidney complaint, there is only one cure and that is Dodd's Kidney Pills.

CROPS DAMAGED.

Bad News From the County of Essex—Everything But Spring Grain Seriously Affected.

Windsor, June 29.—Reports from different parts of Essex County state that the heavy rains of Friday night and Saturday did great damage to crops. In many places corn was washed out of the ground, and some of it is so broken that it was ruined. The greatest loss will be in the wheat and hay crops. The hay was beaten to the ground, and as it is ready to cut there will be whole fields ruined on account of rust, which appeared as soon as the sun came out warm. In many places it was so lodged that it will be almost impossible to cut it with a mower. The wheat was broken in such a way that it will not ripen and will therefore be a total loss. The spring crops were not far enough advanced to be materially damaged by the heavy downpour. Vegetables also suffered, as in many places the plants were completely washed out of the ground. Tobacco did not escape, as it was only planted recently and did not have sufficient growth to withstand the rain.

Industrial Exhibition Prize Lists.

Toronto, June 29.—Thirty-five thousand dollars is a lot of money to award in premiums in ten days, but that is the amount the Toronto Industrial Exhibition, which is to be held this year from August 29 to September 13, will give, five-sevenths of the amount being devoted to the live stock, dairying and other agricultural classes. Entries close, it might be mentioned, on Aug. 6.

A woman's headaches may come from several causes. She may have a headache arising from nervousness, or from digestive disturbances. Nine cases in ten her headaches come from disorders peculiar to her sex. It may show itself in the symptoms which are characteristic of a dozen disorders. Dr. Pierce's Favourite Prescription was compounded for the sole purpose of relieving womankind of these ills and pains. Thousands of women have testified that after taking treatment from several physicians without benefit, the "Favorite Prescription" cured them completely and quickly. It has been used for over thirty years, and has an unbroken record of success.

The woman who hesitates is invited to send 31 one-cent stamps to cover cost of mailing a copy of Dr. Pierce's Common Sense Medical Adviser, which contains plain, clear information about all of the organs of the human body and their functions.

Cupid is usually pictured as a frolicksome, playful little fellow, always smiling or laughing, but with just a trace of malice in his make-up.

This is the artist's ideal. In reality, Cupid in these days is a matter-of-fact little chap. He is beginning to learn that life is not all a summer holiday. He is fast learning that sick men and unhealthy women have no right to tamper with love or matrimony. It is best for themselves and best for the human race that they should not. It is not a hard matter for men and women to preserve their health if they wish. It is far from impossible for them to restore it after it has been lost. That being the case, the modern Cupid is right in looking with disfavor upon matrimonial matches between sick men and unhealthy women. Ill-health in a woman is generally the result of some weakness or disorder of the distinctly feminine organism that is slowly sapping her vitality. At first, a little pain and slight indispositions which seem to her quite unimportant. They grow steadily worse until she suffers all the time from burning and dragging sensations, and occasionally has to take to her bed. Finally they completely unfit her for wifehood and motherhood. Dr. Pierce's Favorite Prescription is an unfailing remedy for ailments of this kind. It acts directly on the delicate and important organs concerned in maternity and makes them well and strong. It transforms weak, sickly, nervous invalids into healthy, happy wives and mothers. Medicine dealers sell it. No honest druggist will recommend a substitute.

"Since I wrote you we have had a baby girl born to us," writes W. R. Malcolm, of Knobel, Clay Co., Ark. "My wife took Dr. Pierce's Favorite Prescription during the expectant period and until confinement, and she had no trouble to mention. A stouter, healthier child was never born. Our child will be one year of age on the 8th inst., and she has not been sick a day. Has not had so much as the colic."

JAIL FOR STUDENTS.

QUEER PHASE OF LIFE AT HEIDELBERG UNIVERSITY.

Some of the Names Which Adorn the Prison Register and the "Crimes" For Which Their Owners Were Incarcerated. The Rules of the Place.

In England the student's body is committed to prison only by the civil authority. In Oxford, it is true, the vice chancellor deals with undergraduate naughtiness, principally in the form of debt and insubordination, for which he may impose a momentary penalty, but he does not deprive the defaulter of liberty. There is, or was, a legend that a certain apartment under the old Clarendon building was really the university "quod," but for its authenticity it is impossible to vouch.

Cambridge has its spinning house for female offenders—not lady students, but ladies who might prove a delusion and a snare to the mere male undergrad. There, if we except the irksome penalty of "gating" (confinement to college or lodgings after a stated hour), our academic efforts at incarceration may be said to end.

In Germany, however, the academic dungeon is a very stern fact. The Heidelberg "carcer" is famous. Every reader of Mark Twain will recall his entertaining description of the place and how he contrived to visit it, even unwittingly enlisting as his guide a "Herr Professor." His pretext was to see a young friend who had "got" 24 hours and had conveniently arranged the day to suit Mark—for the German student convict goes to prison on the first suitable day after conviction and sentence. If Thursday is not convenient, he tells the officer sent to hale him to jail that he will come on Friday or Saturday or Sunday, as the case may be. The officer never doubts his word, and it is never broken.

The prison is up three flights of stairs, and is approached by a "sugang" as richly decorated with the art work of convicts as the cell itself. The apartment is not roomy, but bigger than an ordinary prison cell. It has an iron grated window, a small stove, two wooden chairs, two old oak tables and a narrow wooden bedstead.

The furniture is profusely ornamented with carving, the work of languishing captives, who have placed on record their names, armorial bearings, their crimes and the dates of their imprisonment, together with quaint warnings and denunciations. Walls and ceilings are covered with portraits and legends executed in colored chalk and in soot, the prison candle forming a handy pencil. Some of the inscriptions are pathetic. One runs, "E. Glinicke, four days for being too eager a spectator of a row." If four days were meted out to a mere spectator, what, one wonders, had been the sentence of the participators? It must have been a moving spectacle.

Another record (also quoted by Mr. Clemens) has the savor of a great name to it. Of course it is the son that is meant, not the father. The legend is, "F. Graf Bismarck, 27-29. II. '74." This Mark Twain interprets as a record of two days' durance vile for Count Bismarck in 1874. Had 1874 been leap year one might have been inclined to interpret the numeral "II" as February. But the "29" makes this difficult. So perhaps the Examenist is right.

A third specimen is too tragic for comment. It simply says, "R. Biergandt—for love—four days." Ungenerous successors to that sad chamber have dealt harshly with their forerunners' reputations by ingenious substitution of heinous crimes, so that certain prisoners go down to posterity as having been punished for theft and murder.

The prisoner must supply his own bedding and is subject to various charges. On entering he pays about tenpence, and on leaving a similar sum. Every day in prison costs sixpence; fire and light sixpence extra. The jailer supplies coffee for a trifle. Meals may be ordered from outside. Every prisoner leaves his carte de visite, which is fixed with a multitude of others on the door of the cell. This queer album is glazed to protect the photographs.

Academic criminal procedure in Heidelberg is curious. If the city police apprehend a student, the captive shows his matriculation card. He is then asked for his address and set free, but will hear more of the matter, for the civil authority reports him to the university. The Oxford regulation, by the way, is in certain cases almost identical. In Heidelberg the university court try and pass sentence, the civil power taking no further concern with the offense. The trial is very often conducted in the prisoner's absence, and he, poor wight, may have forgotten all about his peccadillo until the university constable appears to conduct him to prison. But thither, seeing he may choose his day, he always repairs cheerfully.—London Sketch.

A PRESSMAN'S STORY.

Mr. Parnham Tells how Dodd's Kidney Pills Cured His Lumbago.

Toronto, June 27.—The story of the escape of the Globe pressman, Mr. John H. Parnham, from the agonies of Lumbago, by using Dodd's Kidney Pills, is unusually interesting.

Mr. Parnham writes to the Dodd's Medicine Co., Limited, thus:—"I am proud to testify to the wonderful efficacy of Dodd's Kidney Pills. About eight months ago I was attacked by severe pains in my back. I consulted an eminent physician, who said I had Lumbago and told me to take Turkish baths. These did me no good.

"A friend advised me to try Dodd's Kidney Pills. I did so, and one box cured me. My back has never troubled me since."

THE SOUTHERN CROSS.

Changing Position In the Heavens of This Celebrated Constellation.

If Job were to rise from the dead and look upon the heavens, says Professor T. J. J. See in The Atlantic, he would see the constellations related to one another as of old, but he would find that the pole had shifted its position among the stars, and if an immortal could witness the grand phenomenon which the precession of the equinoxes produces in about 12,900 years he would find the heavens so altered that the former aspect could be recognized only by an understanding of the changes which had intervened.

As Humboldt justly remarks, the beautiful and celebrated constellation of the Southern Cross, never seen by the present inhabitants of Europe and visible in the United States only on our southern coast, formerly shone on the shores of the Baltic, and can again be seen in that latitude in about 18,000 years. The cross will then be visible on the shores of Hudson bay, but at present it is going rapidly southward, and in a few thousand years will be invisible even at the extreme point of Florida.

In like manner the brilliant star Canopus in the constellation Argo, situated some 37 degrees south of Sirius, is now visible in the southern portion of the United States. In about 12,000 years it will cease to rise even in Central America. From the same cause, if Ptolemy were to again look upon the heavens at Alexandria, he would be unable to recognize Alpha and Beta Centauri, which he easily saw and catalogued in the time of Hadrian. At present these magnificent stars are just visible at the pyramids, near Cairo, and in a few more thousand years they can be seen by dwellers on the Nile only in upper Egypt.

Ancient Playing Cards.

The ancient Tarot packs were the earliest playing cards known to our forefathers. They consisted of 72, 77 or 78 cards. These cards are still used in remote parts of Italy, France and Switzerland and are made in Florence, the designs being handed down from generation to generation.

Ostriches, which are supposed to flourish only in very warm climates, have been raised successfully in southern Russia, the feathers being of good quality and the birds healthy.

To be perfectly proportioned a man should weigh 28 pounds for every foot of his height.

A MOTHER SPEAKS.

Tells how Dr. Chase Saved her Boy.

His Syrup of Linseed and Turpentine a Precious Boon.

MRS. A. T. STEWART, Folgar, Ont., says: "From the 7th of January to the 30th, we were up night and day with our two little boys, employing doctors and trying every kind of patent medicine we ever heard of. At this time we did not know of Dr. Chase's Linseed and Turpentine until after the 30th, when our youngest darling died in spite of all we could do. Sometime in February the doctor told us our other boy couldn't live till spring. We were about discouraged, when I got my eye on an advertisement of Dr. Chase's Syrup.

"I tried at once to get some, but none of the dealers here had it. A neighbor who was in Kingston managed to purchase two bottles which he brought straight to us, and I believe it was the means of saving our only boy.

"One teaspoonful of the Syrup stopped the cough so he could sleep till morning. Our boy is perfectly well now, and I would not be without Dr. Chase's Syrup of Linseed and Turpentine in the house."

THE ONLY HOPE!

For Victims of Bright's Disease is Dodd's Kidney Pills.

Not a day passes on which the newspapers do not record the death of one or more persons from Bright's Disease. Already its victims number hundreds of thousands. Day by day the awful total grows larger. No class is safe from this destroyer.

War and intemperance, with all their miseries and fatalities, are not responsible for as many deaths as have been caused by Bright's Disease. Yet, there is a way of resisting it; of drawing its poisoned fangs, and making it as harmless as a summer breeze. That great medicine, Dodd's Kidney Pills, has cured thousands of the worst cases. It never fails to cure, hopeless as the case may seem.

Would you safely shield your loved ones from the fatal grip of this curse of mankind—Bright's Disease? Then use Dodd's Kidney Pills, the only cure on earth for this disease.

TOURISTS ABROAD.

The Money They Spend Amounts to $700,000,000 a Year.

The amount of money expended by tourists in Europe has, if official records abroad are to be accepted as authentic, increased enormously of late years. There has been recently filed with the Swiss minister of finance and customs at Bern a detailed statement of hotel receipts in that country, from which it appears that the gross receipts of Swiss hotels rose from 52,800,000 francs in 1880 to 114,333,000 in 1894. The entire annual expenses of the Swiss republic amount in a year to between 80,000,000 and 90,000,000 francs (the budget for this year is given at the latter figure), and it would seem, therefore, very much as if the hotels of Switzerland take in in a year more than the government itself does.

The Swiss figures are not the only ones furnished in Europe recently on this point. A French record shows that every year there are 270,000 foreigners who pass from a fortnight to a whole winter on the Riviera. Every person is supposed to expend on an average 1,000 francs, or $200, in the country. In other words, the foreign visitors spend in the country every winter the sum of $54,000,000. The English are put down as contributing one-third of this amount; the French themselves contribute another third; Germans, Belgians, Dutch, Russians and Americans contribute the remainder. From being a poor country when it was annexed to France in 1860 Nice has become one of the richest departments of the republic.

Some figures recently compiled of the revenues to hotels from tourists in Paris show the average number of foreign visitors to be 60,000. It is customary to estimate at 10 francs, or $2, a day the hotel bills of strangers in Paris. Estimating at $2 a day each the hotel bills of 60,000 tourists and at about as much more their other outlays it is to be seen that tourists in Paris can be put down for an expenditure of nearly $250,000 a day.

The total sum expended by tourists in Europe in a year is probably not very far from $700,000,000, and a very considerable portion of this comes from the pockets, the purses and the bankers' balances of Americans, who are proverbially the most liberal among travelers. Russians come second, Brazilians third.—Exchange.

How We Use Our Lives.

If you are fond of such statistics, read this table, drawn up by Gabriel Peignot: A man of 50 years, of ordinary health, of active life, of regular habit, comfortable in all circumstances of money, should give out of 18,250 days 6,083 days to sleep, 550 to sickness, 1,532 to his meals, 5,532 to work, 671 to exercise, to sports, the hunt, travel 3,803 days, and he should have consumed 27,080 pounds of bread, 6,080 of meat, 4,675 of vegetables, eggs and fruit, 31,180 liters of wine, spirits and water.—Boston Journal.

ORDINATION IN PETERBOROUGH.

Two Young Candidates Ordained on Saturday.

The Catholic Register contains the following item of interest in its last issue:

Yesterday in the chapel at Mount St. Joseph, His Lordship the Bishop of Peterborough ordained to the priesthood two candidates, the Rev. J. McLaughlin and Rev. V. Donnelly. The Bishop was attended by Venerable Archdeacon Casey, Very Rev. J. R. Teefy, LL.D., C.S.B., president of St. Michael's College, Toronto, and Rev. J. Greene, of Scranton, Pa., Rev. T. F. Scanlon and Rev. J. O'Sullivan, of Peterborough, also assisted. During the mass and ordination Mme. Rosa d Erina and Mr. Vontom sang several appropriate selections. The two young priests are natives of New York and Scranton respectively, and will say their first masses to-morrow, each in his own home city.

LeBrun & Co's Scorchers!

On the eve of the great Bicycle Meet, LeBrun & Co. guarantee the best and cheapest ready-made clothing in Peterborough. Our tandem is highest grade and lowest prices. We are showing handsome summer suitings in fashionable clothes at fast-flying figures. Bicycle suits, outing suits, business suits, and dress suits—correct and up-to-date in every detail—lower than ever before offered. Barrels of bargains in gent's furnishings, underclothing and neckwear of all kinds. No need to look like a beggar or a tramp. Big surprises the order of the day. Right goods at right prices are joined together, like the Siamese twins, at H. LeBrun & Co's, City Clothing Store.

The Last Week the Best Week.

This is the last week of the dissolution sale at Clarke & Gibson's jewelry store. The opportunity this sale has afforded for buying standard goods at very unusual prices, has been seized by many who may have felt restricted in their purchases at the regular selling figures. There has also been the assurances of reliability in purchasing, and this confidence in the integrity of the firm and general character of the stock has largely influenced sales. The last week of this sale at the reduced prices ends with June, so there still remains time enough for all who wish to avail themselves of the chances of bonafide bargains in jewelry, watches, clocks, silver plate and artistic novelties, which are embraced in this very large and exceedingly well assorted stock of handsome goods. It is not likely that a similar opportunity will present itself for some time, and lovers of the beautiful in these lines of goods will miss very substantial advantages if the neglect to attend the remaining days of this sale

BICYCLE ACCIDENT.

An Unfortunate Wheelmen's "Meet" on Hunter Street.

A bicycle accident took place at the Hunter street bridge at the noon hour today. Messrs. R. M. Roy and Jas. Hannah, who was returning from the Edison Works, where he was employed, were going in opposite directions. As they were about to pass each other, an approaching horse vehicle caused one or both to swerve, and a collision took place. Neither was going at a rapid pace or the results might have been more serious. As it was, both were thrown from their wheels. Mr. Roy only suffered a bruised leg, but Mr. Hannah was picked up unconscious. Dr. Moher was soon on hand, and under his treatment, assisted by Dr. Pousette, the injured man, who had suffered a rather severe shock, recovered, and was conveyed to his home on Hunter street east in a hack kindly furnished by Mayor Davis. Dr. Moher does not think he has sustained permanently serrious injuries.

ATTACK BEGUN AT SANTIAGO.

General Shafter Lost 400 in Killed and Wounded.

AMERICANS HOLD OUTER WORKS

The Battle Waged From 8 O'Clock in the Morning Until Sundown—An Important Part Played by Admiral Sampson's Fleet—The General's Report of the Engagement.

Washington, D.C., July 2.—Secretary Alger has received the following despatch from General Shafter dated at 9.45 a.m. yesterday: Camp at Sevilla, Cuba, July 1. Action now going on, but firing light and desultory. Began on right near Caney, Lawton's division. He will move on the northwest part of the town of Santiago. Will keep you continually advised of progress. (Signed) Shafter, Major-General, commanding.

Americans Lost Heavily.

Washington, D.C., July 2.—The War Department has received the following from General Shafter, dated at Siboney:

Had a very heavy engagement yesterday which lasted from 8 a.m. until sundown. We have carried their outworks and are now in possession of them. There is now about three-quarters of a mile of open between my lines and the city. By morning my troops will be entrenched and considerable augmentation of forces will be there. General Lawton's division and General Bates' brigade, which have been engaged all day in carrying El Canay, which was accomplished at 4 p.m., will be in line and in front of Santiago during the night. I regret to say that our casualities will be above 400, of these not many killed.

(Signed) Shafter.

MANZANILLO ATTACKED.

But a Spanish Account Says Only One Peasant Was Wounded by the Fire.

Madrid, July 2.—The Imparcial publishes a despatch from Santiago de Cuba, saying that four American warships at 4 o'clock yesterday morning opened fire upon Manzanillo, Province of Santiago de Cuba. The despatch adds that the firing, which lasted an hour, was answered by the Spanish gunboats in the harbor, and it is further said the Americans retired with one vessel seriously injured, as she was towed away with her fires extinguished.

Continuing, the despatch to the Imparcial asserts that only one Spanish peasant was wounded during the bombardment. From the same source it is asserted that the Americans used a captive balloon yesterday in taking observations of the fortifications of Santiago de Cuba.

In conclusion, the Santiago despatch adds: A foraging party of Americans fell into an ambush yesterday and one of them was killed. The others escaped.

HAS PROCLAIMED A REPUBLIC.

General Aguinaldo Sets Up a Government in the Philippines.

London, June 2.—A representative of Gen. Aguinaldo, the leader of the Philippine insurgents, who served with him during the last insurrection, and who is now in London, is quoted in an interview as saying that before Aguinaldo left Hong-Kong he promised Rear-Admiral Dewey not to enter Manila until the arrival of the American troops. Aguinaldo's representative adds that he has just received a despatch from Cavite saying a republic has been proclaimed by Aguinaldo, under protection of the United States and approved by Great Britain and Japan. Continuing, the representative of the Philippine leader, asserts that he has been to Berlin, where he saw the Under Secretary for the Foreign Office, who declared that all Germany wanted was that the existing import tariff should not be altered by a republic being established in the Philippine Islands or, at least, that the preference should not be given to any other nation.

The Peace Feeling.

New York, July 2.—A Madrid despatch of doubtful authority says that though the Government may be peaceful, the popular sentiment will keep the war going.

The London Times' Madrid correspondent asserts that the threat to bombard Spanish cities arouses the stubborness of the Spaniards, thereby lessening the peace prospects.

Peace Rumors Are Absurd.

Madrid, July 2.—Premier Sagasta, in an interview yesterday in regard to the peace rumors said: "They are absurd. I am astonished that any attention is paid to them. There will not be and cannot be any discussion in regard to this matter. I affirm this absolutely. The Government cannot treat for peace now. That action depends on developments and the Government will not act until the proper time."

Camara Still at Suez.

London, July 2.—The despatch from Madrid, saying the Spanish Minister of Marine has received a message to the effect that Admiral Camara has passed through the Suez Canal with his fleet is discredited on all sides here. The officials of the United States Embassy say it is known positively that Admiral Camara and his fleet had not entered the Suez Canal yesterday morning, and, therefore, they point out it is impossible for his vessels to have traversed the canal.

Camara Is Coaling.

Port Said, July 2.—Admiral Camara's ships move outside the harbor in order to coal from their two colliers. The San Francisco has entered the canal.

Spanish Fleet Gone to Sea.

London, July 2.—A despatch to Lloyd's from Port Said, dated 10.40 p.m. yesterday, says that the Pelayo, Emperador Carlos Quinto, Osada, Patriota, Buenos Ayres, Isla de Panay, Rapido, San Francisco, Isla de Luzon and San Ignace de Loyola have gone to sea.

Watson Will Chase Camara.

New York, July 2.—The Herald's Washington correspondent learns that Commodore Watson's orders contemplate the pursuit and destruction of Camara's squadron, even if the chase takes him through the Suez Canal to Manila.

WAR NOTES.

Preparations for Commodore Watson's departure are being precipitated.

The Spanish steamer Villa Verde, it is asserted, has run the blockade and landed provisions at Batanlano.

Intercepted despatches from Admiral Cervera say that both food and ammunition are running short, and that the situation is most serious.

Alleged reliable information places the Spanish strength in Santiago at 11,450. The two armies outside and inside the walls number 30,000.

A special from Washington says that the Porto Rican expedition is the next number on the programme, after the surrender of Santiago.

It is said that since Dewey bombarded Manila the walls have been strengthened, and he must do his work over again when his reinforcements arrive.

A report from General Aguinaldo, leader of the Philippine insurgents, says a republic has been proclaimed under the protection of the United States, and approved by Great Britain and Japan.

An Englishman at Kingston, Jamaica, says Havana has plenty of food and that the United Statesers have been misled right along as to the true situation in Cuba. The Spanish soldiers, he says, in their ignorance, are confident.

A coolness exists between Blanco and Cervera. The former ordered Cervera to leave Santiago, to which the latter replied that he would do so, "but he was without coal, and the American Admiral was waiting outside."

ST. THOMAS' BIG FIRE.

The Court House, Jail and Officials' Offices Were Totally Destroyed.

St. Thomas, Ont., July 2.—The Court House, court jail and all the officials' offices were totally destroyed by fire here last night.

The blaze started at 12.15 and was first discovered by Mrs. Robert McLachlin, who lives opposite the large structure. She ran to the telephone immediately, but was unable to raise the central office, and notification was not received at the fire hall until 20 minutes later.

The flames spread rapidly, and it was only a few minutes before the whole buildings were a mass of flames. The large dome and flagstaff fell in and carried the roof with it. The law library, which is valued at several thousand, was totally destroyed by fire and water. The Governor's residence, which is attached to the back part of the jail, was not seriously damaged. The rear part of the jail, in which the prisoners sleep, is built of solid stone, and at the time of writing it is believed will be saved. Governor Moore says he thinks the fire is of incendiary origin, as there has been no one up in the part where the blaze started for a month.

The buildings were nearly half a century old, and have witnessed the scenes of many an important and sensational trial. The loss is in the vicinity of $50,000; exact amount of insurance not obtainable to-night.

THEY PROHIBIT CYCLING.

A Township Council in Carleton County Distinguish Themselves.

Ottawa, July 2.—At a meeting of the Osgoode Township Council a bylaw was passed to prevent bicycling within the townships. The motion to introduce the bylaw was moved by Councillor William Doyle, seconded by J. B. Sully, and was carried unanimously.

The Township of Osgoode therefore enjoys the unique distinction of being the first municipality in the country, if not in the world, to introduce such a remarkable piece of legislation.

The action of the Council is said to be due to the fact that bicycles scare the farmers' horses. It is extremely doubtful if the bylaw will stand a test case in court, should an endeavor be made to enforce it.

SAVED THE SPANIARD

DESPERATE BATTLE WITH PIRATES OFF THE ISLE OF PINES.

How an American Man-of-war, the Enterprise, Slaughtered the Bloodthirsty Black Flags and Rescued the Spanish Gunboat Toridor.

In the beginning of the present century the gulf of Mexico swarmed with pirates, preying on the commerce of every nation. In 1824 an English brig from Jamaica, bound home, was taken off Cape St. Antoine, her crew massacred and the vessel beached on the coast of Cuba. Her cargo was valued at over $200,000. The British government started an investigation, and it was found to be the work of a Spanish Irishman named Cain, who had a fast top-sail schooner called the Esmeralda, with a crew of 900 men of all nationalities. It was also found that in disposing of the plunder a Spanish coastguard vessel had conveyed most of it to Havana for sale and that many Spanish officials were interested in the affair, getting a share of the plunder.

The British government went for the Spaniards in a vigorous manner, demanding indemnity for the past and security for the future. The Spaniards yielded and agreed to equip a force to cruise on the south coast and search the keys for marauders. A fast sailing brig of war, El Teridor, carrying ten guns, was put in commission under Captain Hernani. At this time the United States had a fleet of small vessels doing police duty in the gulf, one of which, the Enterprise, commanded by Lieutenant White, had captured several pirate crafts and cut up their crews. It was on the same station as the Toridor, and Lieutenant White arranged with Captain Hernani to co-operate with him and if in want of assistance at night to show a light at the mainmast head as a signal.

Information had come to the Spanish captain that a consort of the Esmeralda, a fast sailing schooner called the Bonita, commanded by a negro named Pinto, would try and get into the Largo key at night. She had been on a cruise away south and was reported full of plunder. The negro captain was a bloodthirsty ruffian, about 50, and was badly wanted by the Spanish authorities, as he had murdered a brother of Captain General Galvis in one of his raids ashore. So the Toridor lay out about three miles away from the pass between the isle of Pines and Cayo Largo. On the night of Aug. 10, 1822, the man at the wheel was the only one on the alert. Suddenly from the northwest came a bright flash and then the boom of a gun, and a shot whistled through the rigging, and then a cry from the helmsman: "Ahoy, there! Here's two boats alongside!"

In those days muskets were kept in racks under the break of the poop overhead, covered with tarpaulin, and the boarding pikes were lashed to the main boom. To these the startled crew rushed, and the sides were alive with men coming aboard yelling, "Kill, kill!" There is no want of courage among Spaniards, and the crew fought desperately. The captain was on deck and at once sent a man to the masthead to light the signal lantern, and with his officers and marines pitched in, but the shore party had got first blood, and they fought like tigers, while the heavy shots from a big schooner not over 300 yards away came fast. The Toridors retreated to the quarterdeck and, encouraged by their officers, made a desperate fight, but it was evidently a losing game. The schooner had her sweeps out and in a few minutes would board the brig with a crowd of fresh assailants.

Fortunately the Enterprise was not more than 12 miles away, in the southwest. The watch had been changed, and the new lookout had just gone aloft when he called out: "Deck ahoy! There goes a gun right nor'east off the starboard bow."

In a minute all was in commotion. One of the officers sprang into the rigging with a night glass and hailed: "There it goes again! I hear the boom!"

The commander was on deck. "Thank fortune, here comes the wind from the west. Make all sail, Mr. Hamilton. We'll run down and see what it is. That's a heavy gun. The Toridor has only 18 pounders. They would not make a flash like that. Beat to quarters and cast off the starboard battery. Ram in a round shot over grape!"

The breeze had freshened, and the Enterprise fairly walked. The flash of guns was now seen from the deck, and the lookout hailed that he saw a masthead light.

A tropic dawn is something to remember. Long before the sun rises there comes a beautiful rosy light, making the sea a sheet of gold, and thus everything was made plain to the Enterprise and her crew. The Spanish brig was enveloped in smoke, and the noise of the conflict was plainly heard. The schooner was sweeping up to board her deck, alive with men.

The American was 200 yards away, right across her bows, and then came the order, "Give her two divisions—rake her fore and aft."

The effect was tremendous. A chorus of yells and screams from the pirate and down came her foremast and maintopmast. "Give it to 'em again," and her decks were clear. Backing her mainsail, in a minute more the bowsprit of the Enterprise was forking over the bow of the Toridor and the cry was, "Boarders away!" The man-o'-war's men made short work of the pirates in the waist, and, all escaping, got into their boats and pulled for shore. Priming a carronade with a pistol cartridge, the Yankee sailors discharged it, cutting one boat in two, and in a moment the water was alive with sharks taking care of the crew.

The schooner was at once boarded by three boat crews. The decks were deserted, but all at once there came a deadly volley of musketry from the cabin, killing three men, and then a rush, headed by Pinto, a tall, grizzled negro, powerfully built. He shot Lieutenant Hamilton through the body and was attacked by the wardroom steward of the Enterprise, a giant mulatto from Baltimore. He, too, got a bullet, but struck Pinto's right arm off with a cutlass stroke, and the villain was taken alive, the only survivor of his crew.

In the waist of the [illegible] lay 69 dead men, over 40 being of [illegible] crew, and Captain Hernani [illegible] dear in an hour more the pirates would have carried the day.—Philadelphia [illegible]

Firmly Grounded Upon Real Merit —They Know Hood's Sarsaparilla Absolutely and Permanently Cures When All Others Fail.

Hood's Sarsaparilla is not merely a simple preparation of Sarsaparilla, Dock, Stillingia and a little Iodide of Potassium.

Besides these excellent alteratives, it also contains those great anti-bilious and liver remedies, Mandrake and Dandelion. It also contains those great kidney remedies, Uva Ursi, Juniper Berries, and Pipsissewa.

Nor are these all. Other very valuable curative agents are harmoniously combined in Hood's Sarsaparilla and it is carefully prepared under the personal supervision of a regularly educated pharmacist.

Knowing these facts, is the abiding faith the people have in Hood's Sarsaparilla a matter of surprise? You can see why Hood's Sarsaparilla cures, when other medicines totally, absolutely fail.

PETERBOROUGH "GETS A GAIT ON."

The Local Cricket Eleven Wins Handsomely from the Quinte District Aggregation.

Nicholls' Park oval was the scene of a pretty bout at cricket yesterday. A composite team representing the chief towns of the Quinte district tried conclusions with the local eleven, with the result that the visitors were bested by the town by one innings and 32 runs. The crease was inclined to be a little lumpy and rather against the batter, but the local eleven went first to the bat and compiled the handsome score of 139 against rather good bowling and fielding, only three extras being allowed. To the total, J. H. Burnham, by excellent cricket, contributed a well-earned 40. He opened out with a snicked one, followed by a drive to long leg for five, but the result of his innings was a steady accumulation of ones, twos and threes. Dr. Boucher, jr., stayed with him for a well-got 15. Dick Rogers got nicely into double figures with eleven, and Cumberland, "pro" of the local team, piled up a steady 32, going out with red-fire effects with a vigourous drive for five. Not a single man on the team got a duck, Stethem, who is credited with a cypher in the score, not getting a ball.

Wilson with 21 and Poplar with 17 were the chief contributors to the score of the second innings of the visitors, Tait being the only man to turn the corner in the first with 10.

THE LONDON DINNER.

Lord Strathcona and Mount Royal Presided.

250 CANADIANS WERE PRESENT.

Hon. Edward Blake, Lord Herschell, the Marquis Lorne, the Duke of Norfolk and Other Great Personages Express Their Good Wishes for the Welfare of the Dominion.

London, July 2.—Lord Strathcona and Mount Royal presided last evening at the Dominion Day banquet given at the Imperial Institute.

Two hundred and fifty Canadians were present. The guests included the Marquis of Lorne, the Duke of Norfolk, the Earl of Dunraven, Baron Herschell and Sir Charles Tupper.

There were many friendly references to the United States.

Lord Strathcona and Mount Royal, proposing "The Dominion of Canada," dwelt upon the oneness of Canadians and Britons." He said that a very pleasant feature of the situation was the "better relations Canada now sustains to her neighbors, the great people of the United States." He prayed fervently, he declared, that the newly appointed commission might secure most satisfactory results for both countries. He eulogized Baron Herschell and Sir Wilfrid Laurier, the Dominion Premier, who, he was confident, would safeguard the interests of Canada and Great Britain. He said Canada did not wish to stand at arm's length with the United States, but, on the contrary, desired to keep on the most friendly terms with that country. In conclusion, he applauded the ties that bind Canada and the Mother Country more and more closely.

Hon. Edward Blake, anti-Parnellite member for South Longford, highly commended the appointment of the joint commission, applauded its personnel, and expressed the hope that the fullest success would attend its labors.

Lord Herschell, responding, promised to devote his best powers to the task, and said he rejoiced to co-operate with the distinguished Canadians who were members of the commission. It would be the happiest memory of his life, he declared, if a settlement might be reached of the questions at issued between the United States and Canada.

Patriotic speeches were made by the Hon. Andrew J. Blair, the Canadian Minister of Railways and Canals; the Hon. William Mulock, Canadian Postmaster-General; the Hon. Richard Reid Dobell, member of the Canadian Cabinet (without portfolio), and Capt. Cooke, commanding the Bisley team.

ACROSS NIAGARA'S GORGE.

The First Trolley Car to Cross the River Runs Over the New Bridge.

Niagara Falls, Ont., July 2.—The Niagara Falls Park & River Railway Co. have completed the work of laying their tracks on the upper steel arch bridge, and the first car was run over it at 7 o'clock yesterday, with Supt. Rothery at the motor. Manager Phillips of the N. F. P. & R. R. and Supt. Dill, of the new bridge, accompanied by a large number of prominent citizens of both sides of the river, were inside, and enjoyed the first trip across the Gorge in an electric car. The car was decorated with Canadian and United States flags, and when it reached the United States bank was cheered to the echo by the large crowd of Americans that had gathered on the bank to witness the event. During the summer months, cars will run over the bridge every five minutes, and this will greatly add to the convenience of the Americans who patronize the Canadian road.

Fell From a Window.

Stratford, Ont., July 1. — Charles Lewis, about 16 years of age, son of William Lewis of the American Hotel here, fell from a three-storey window last night and sustained serious injuries. It seems that on retiring last night he drew his bed close to the window to get the fresh air. His bed was higher than the window sill, and it is surmised that he rolled out of the window. He was found in an unconscious condition on the sidewalk about 3 o'clock this morning. He was carried to the house and three doctors were hastily summoned, when it was found that his left arm and a number of ribs on his left side were broken, besides some internal injuries. Hopes are entertained for his recovery.

Nickel Works for "Soo."

Sault Ste. Marie, Ont., July 2.—Further particulars are given concerning Mr. F. H. Clergue's scheme to establish ore reduction works at both the Canadian and American "Soo." Mr. Clergue has left the Sault for Europe, and it is given out that his journey abroad involves important negotiations. Mr. Clergue is credited with having discovered a secret process for the electrical reduction of nickel, copper and iron ores. He has succeeded in interesting the Krupps, the great German iron masters, in the method and he is now on his way to Germany to complete negotiations for the erection on both sides of the Sault Ste. Marie River of the desired reduction plants.

A GLOBE REPRESENTATIVE.

Cured of Lumbago by Dodd's Kidney Pills after his Doctor Failed.

TORONTO, June 20.—(Special).—If there is a good thing in creation a newspaper man will find it out. The truth of this is shown by the case of Mr. John H. Parham, a pressman on the Globe staff.

Mr. Parham has for months suffered from Lumbago, aggravated by the nature of his work in the pressroom. He consulted an eminent local physician, but no benefit resulted from his treatment.

On the advice of a friend he tried Dodd's Kidney Pills, with the result that he was completely cured.

This case is one more proof of the fact that for Lumbago and every other kidney complaint, there is only one cure and that is Dodd's Kidney Pills.

A BLACKSMITH.S STORY.

He Became so Run Down That Work was Almost Impossible—His Whole Body Racked With Pain.

From the Bridgewater Enterprise.

Mr. Austin Fancy is a well known blacksmith living at Baker Settlement, a hamlet about ten miles from Bridgewater, N.S. Mr. Fancy is well known in the locality in which he lives. He is another of the legion whose restoration to health adds to the popularity of Dr. Williams' Pink Pills. Mr. Fancy related his story of illness and renewed health to a reporter of the Enterprise as follows :—"During the last winter, owing, I suppose, to overwork and impure blood, I became very much reduced in flesh, and had severe pains in the muscles all over my body. I felt tired all the time, had no appetite, and often felt so low spirited that I wished myself in another world. Some of the time necessity compelled me to undertake a little work in my blacksmith shop, but I was not fit for it, and after doing the job, would have to lie down; indeed I often felt like fainting. I was advised to try Dr. Williams' Pink Pills, and after using a couple of boxes, I felt a decided relief. The pains began to abate and I felt again as though life was not all dreariness. By the time I had used six boxes I was as well as ever, and able to do a day's work at the forge without fatigue, and those who know anything about a blacksmith's work will know what this means. Those who are not well will make no mistake in looking for health through the medium of Dr. Williams' Pink Pills.

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every box your purchase is enclosed in a wrapper bearing the full trade mark, "Dr. Williams' Pink Pills for Pale People."

TOMMY ATKINS REVIEWED.

The Brigade at Camp Niagara Parade Before Col. Otter.

Camp Niagara, July 1.—One more day, marching out day, and the camp is over. The opinion among the officers is that this camp is the best held at Niagara for years, both as to mastering drill and having a splendid time.

The bright particular day of the camp was yesterday, when the battalions were marshalled before Fort George and reviewed by Col. W. D. Otter and staff. The soldiers wore their brightest toggery, the officers donned their gilt-edged tunics and white gloves, while the D.A.G. was resplendent in cocked hat and Prince Albert tunic, slashed with gold. The parade grounds were lined with visitors from near and far; many kodak fiends found a rich harvest in the varying positions taken by the troops. A red coat has a peculiar attraction for the fair sex, who were not scant in their shrill-voiced cheers as the boys went marching by.

A HAMILTON SUICIDE.

John Johnston, 22 Years Old, Shoots Himself With a Shotgun.

Hamilton, July 1.—John Johnston, son of Mr. Brent Johnston, Wellington street north, committed suicide about 5 o'clock yesterday morning by shooting himself through the heart with a shotgun. He fastened the gun in the vise of a carpenter's bench in his father's back yard and, having cocked the gun, stood at the muzzle, setting off the trigger by pushing a piece of lath against it. His body was discovered by his father at 5.30. The deceased was 22 years of age yesterday. He had been ill since Christmas, and was despondent. Dr. White, the family physician, who was called in this morning in his capacity as coroner, decided that an inquest would be unnecessary.

BACKACHE ! BACKACHE !

Plenty of Bad Backs Being Eased and Cured in Brockville, Ont.,

BY DOAN'S KIDNEY PILLS.

The kidneys cannot talk except in one way. That is by making our backs ache. But people can talk about the kidneys and how to cure kidney trouble and that is just what Mr. S. D. McEathron, the popular wine clerk of the Grand Central Hotel, has done.

Mr. McEathron says : "I have suffered for some years with pains in my back, extending over my shoulders, dizziness, headaches at times and other troubles too numerous to mention.

"I suffered very greatly indeed, and have taken many kinds of medicines which seemed to do me no good. One box of Doan's Kidney Pills which I got at Carry's drug store has given me the greatest relief from the first and now I am as sound as a trumpet.

"I can recommend Doan's Kidney Pills very highly to those afflicted as I was."

Doan's Kidney Pills never fail to cure backache, dropsy, Bright's disease, gravel, and all kidney and urinary troubles.

Sold by all druggists or sent by mail on receipt of price, 50c. a box or 3 boxes for $1.25. The Doan Kidney Pill Co., Toronto, Ont.

No "Bicycle Heart" for U. S. Army.

Chicago, July 2.—Dr. S. C. Stanton, who has charge of the examination of recruits for the United States regular army in this city, has caused a sensation by declaring that an habitual fast rider of bicycles or "scorcher," is unfit, physically, to serve as a soldier in the army. He has made this matter the subject of his severest tests in his examinations of applicants for enlistment and many men have been rejected because of a "bicycle heart," as the practitioner terms it, caused by excessive exercise in riding a wheel. The doctor says: "The persistent scorcher has tendency to enlarge the heart, and thus interfere with its proper action."

Colored Horse Thief.

Windsor, Ont., July 1.—Walter Talbot, colored, of Harrow was before Judge Horne yesterday on a charge of having stolen a horse from William Hunt of Colchester. He had sold it and escaped across the border, but was arrested at Salem, Mich. Talbot pleaded guilty and was sentenced to four years in the Kingston Penitentiary.

He Put His Foot In It.

A woman's club that invested in a clubhouse not long since was much against its will obliged to employ men laborers. The architect was a woman, but it was found impossible to procure women carpenters, masons and plasterers. One day shortly before the completion of the structure a workman who was employed upon the roof made a misstep and thrust his foot through the beautiful but not yet dried ceiling of the auditorium. Just at this time, too, a number of club members chanced to be in the building, and their emotions at the sight of the pedal extremity pendent from the ceiling may be better imagined than described. The man was eventually rescued and the hole mended, but the patch still shows upon the ceiling, and as the first vice president puts it, "Well, I knew that if a man had anything to do with this club he would be sure to put his foot in it."—Chicago Tribune.

No Longer in Command.

Ottawa, July 1.—The General Officer Commanding the militia of Canada, Major-General Gascoigne, severed his connection with the department yesterday and is no longer in command. He resigned some months ago and his resignation was accepted, but he was asked to act until the end of the fiscal year. His successor has not yet been appointed.

TWIN TORTURERS!

Lumbago and Rheumatism made Harmless by Dodd's Kidney Pills.

Lumbago and Rheumatism cause endless pain and suffering. Every man and woman who runs chances of getting wet, or catching cold, is liable to suffer from one or both. Our hospitals are full of sufferers from these diseases; none are more painful. Every nerve is on fire; every joint is a centre of agony; every muscle an area of torture. To move hand or foot makes the victim shriek with agony.

Rheumatism makes more cripples than all the railroad accidents that ever happened. Twisted, mis-shapen caricatures of humanity, who cannot walk without misery, are to be seen every day. The kidneys are to blame. If they are healthy you needn't fear Rheumatism or Lumbago. Dodd's Kidney Pills keep the kidneys healthy and cure Rheumatism and Lumbago.

Dodd's Kidney Pills ALWAYS CURE.

WHEAT ADVANCED.

Reports That American Yield Had Been Overestimated Caused Strength—Liverpool Firmer—The Prices.

Friday Evening, July 1.

On the Chicago market to-day all lines of wheat took an upward bound. Reports from many quarters to the effect that the incoming United States crop had been much overestimated, and that much of the grain being harvested is proving of poor quality were the chief factors in the advance. At Chicago cash wheat climbed up 4½c, and the later deliveries 2½c per bushel.

On the Liverpool market to-day spot wheat was steady to 1d lower, while all future deliveries advanced ½d per cental. Paris wheat declined 50 centimes to 1 franc and 5 centimes.

In Chicago corn rose about 1c per bushel. In Liverpool maize was off ¼d to ½d per cental.

Stocks in Liverpool.

Following are the stocks of breadstuffs and provisions in Liverpool: Flour 49,000 sacks, wheat 1,205,000 centals, corn 1,357,000 centals, beef none, pork none, bacon 25,500 boxes, hams 10,700 boxes, shoulders 4000 boxes, lard 55,000 tierces, cheese 50,800 boxes, butter 4100 packages.

Toronto Live Stock.

The run of live stock at the Cattle Market to-day was not large—40 loads, composed of 800 cattle, 572 sheep and lambs, 775 hogs and 75 calves.

The fat cattle were not as good quality generally as on Thursday. Too many half-finished grassers, especially in the butchers' class, are coming forward, and this has the effect of weakening prices.

Export Cattle—Stall fed sold at $4.50 to $4.75, bulls scarce at $3.25 to $4.

Butchers' cattle, stall fed and choice quality, scarce; prices firm at $4 to $4.45. Butchers' grass cattle were plentiful and cheap, selling all the way from $2.85 to $3.75 and slow at that. In fact several loads remained unsold when the market closed.

Loads of good butchers and exporters mixed, sold at $4.25 to $4.35; choice picked lots sold at $4.35 to $4.45; loads of good $4.25 to $4.35; medium at $3.85 to $4.10; common $3.40 to $3.65; inferior $3.25 to $3.35; very inferior rough cows and bulls $2.85 to $3.

About six milk cows changed hands at Thursday's quotations.

Heavy feeders—Prices were unchanged.

Buffalo Stockers—Market weak and prices lower at $3.25 to $3.35. Several loads were shipped through to Buffalo.

Calves sold at $3 to $6 each, or in other words at $4 to $4.25 per cwt.

Sheep plentiful, and prices fairly firm at $3 to $3.15 for ewes, $2.50 to $2.75 for bucks and $2.85 to $3.40 each for the bulk of the spring lambs, while a few of extra weight and quality brought $4 each.

Deliveries of hogs were light, selling at $3.20 to $3.37½ for best selections off cars unfed and unwatered; thick and light fats $4.75; Essex and Kent corn-fed hogs, $4.70 per cwt.

East Buffalo Cattle Market.

East Buffalo, N.Y., July 1.—Receipts light of sale stock. Market ruled dull and slow for common lots of mixed stock.

Hogs—Supply moderate and but few held over. Market slow and ruled very dull. Good to choice Yorkers, $3.90; medium grades, $3.92 to $3.95; light to good Yorkers, $3.85 to $3.90; mixed packers' grades, $3.90; heavy hogs, $3.90 to $3.95; roughs, $3.25 to $3.40; stags, $2.65 to $2.90; pigs, $3.85 to $4.

Sheep and Lambs—The supply was light. Market quiet; easy. Yearling lambs, choice to extra, $5.40 to $5.50; fair to good, $5 to $5.25; culls to common, $4.25 to $4.90; native clipped sheep, choice to selected wethers, $4.75 to $4.80; good to choice mixed sheep, $4.50 to $4.70; common to fair, $4 to $4.40; culls to common sheep, $3.25 to $3.85.

Cheese Markets.

Brighton, Ont., July 1.—At Brighton cheese meeting 11 factories boarded 800 cheese. Sold 100 white at 7⅞c to Bailey. Buyers present: Whilton, Lowery and Bailey. Board will meet on Friday, 8th inst., at 1 o'clock p.m.

Brantford, July 1.—At the cheese market to-day 3190 boxes cheese were boarded. No sales. Seven cents to 7¼c bid. Next market Friday, July 15.

British Markets.

Liverpool, July 1.—Spring wheat is quoted at 6s 7½d; red winter at 6s 7d; No. 1 Cal., 7s 6d to 7s 7d; corn, 3s 0½d; peas, 5s; pork, 51s 3d; lard, 28s; tallow, 19s 6d; heavy, L.c., 31s 6d; light, 31s; d.c., short cut, 30s; cheese, white 36s 6d, colored 36s 6d.

Liverpool—Open—Spot wheat quiet; No. 1 Cal., 7s 3½d to 7s 4d; futures quiet at 6s 4d for July, 5s 9¾d for Sept. and 5s 7½d for Dec. Maize quiet at 3s for spot; futures quiet at 2s 11½d for July and 3s 2⅝d for Sept. Flour 20s.

London—Open—Wheat, off coast very little doing, on passage nominal and unchanged. English country markets quiet. Maize off coast nearly due, on passage easy.

Liverpool—Close—Spot wheat dull, with red winter at 6s 7d; Indian, 6s 6d, and No. 1 Northern spring, 6s 6¾d; futures steady at 6s 5d for July, 5s 11d for Sept. and 5s 9d for Dec. Spot maize firm at 3s; futures quiet at 3s 0¼d for July and 3s 3d for Sept. and 3s 3½d for Oct. Flour 25s 6d.

London—Close—Wheat, vessels arrived 3, waiting orders 1, off coast at a decline, on passage depressed; No. 1 Cal., due, 44s, sellers La Plata, arrived, 42s 3d. Maize, off coast nothing doing, on passage rather firmer; spot American, 15s.

Paris—Close—Wheat dull at 23f 95c for June and 21f 35c for Sept. and Dec. Flour weak at 56f 25c for June and 46f 70c for Sept. and Dec.

Your Pulse.

Is it regular in its beat, or is it weak and intermittent? A weak pulse indicates a weak heart. Milburn's Heart and Nerve Pills is the great remedy for weak, palpitating heart—makes them strong and steady.

Milburn's Sterling Headache Powders are easy to take, harmless in action and sure to cure any headache in from 5 to 20 minutes.

DROWNED IN THE HUMBER.

John McEwan Lost His Life Whilst Bathing Near Weston.

Toronto, July 2.—The gospel tent which is being conducted at Weston by Evangelists McClintock and Telfer was thrown in a paroxysm of sorrow last night, when it became known that John McEwan, one of the attendants, had been drowned in the Humber River.

McEwan, with six other young men, went bathing near the millidam and stepped out of his depth, saying, "Come on in here." He could not swim, and for some time none of the others missed him. When they observed that he had disappeared a rigid search was made for him, but the water is rather muddy just now, and all efforts to find him quickly proved futile.

It was two hours afterwards before Walter Day, who had been in the water all the time, came across the body, which had possibly not moved from where he went down.

A NON-UNION STRIKE.

T. Eaton's Cloak and Mantle Makers Want Higher Piece Prices.

Toronto, July 1.—The strike fever again made itself felt yesterday. This time it has appeared in the T. Eaton Company's business among a non-union class. The disaffected ones are the cloak and mantle makers, male and female, who are employed entirely on piecework. The wages received, they claim, are lower than in other shops of similar businesses, and they are demanding a general increase in piecework prices. Their action will compel about a hundred others who are engaged in subordinate work, such as sewers, button holers, pressers, under pressers and cutters, to cease work, unless others can be employed in place of the strikers. The strikers are confident of obtaining their demands owing to the urgency of their work.

The Tramp Still at Large.

London, July 1.—Another day has passed and the murderer of P. C. Michael Twohey is still at large. The ingenuity of the cripple in evading arrest is really wonderful, and there is a well defined fear that, notwithstanding his physical handicap and the reward offered for his capture, the villain will ultimately get away. Chief of Police Williams returned from Sarnia, where he had gone to direct the operations of the police. The chief was struck with the density of the woods and swamps in that section, and little wonders that the man has not been sighted by his pursuers in these veritable jungles. The one legged man was early in the evening given something to eat by the Indians on the Sarnia reserve, who knew nothing of his character. The river front is closely watched by armed men. The tunnel trains are also under close surveillance.

Torontos Beat Shamrocks.

Toronto, July 2.—For the first time in the history of the Senior Lacrosse League the Torontos have succeeded in beating the Shamrocks.

In the presence of 3,000 spectators, what was probably the fastest game ever seen here took place yesterday afternoon on the Rosedale grounds, and but for the little unpleasantness at the finish there was nothing to detract from the magnificent play of both teams. The summary:

1—Toronto, Nolan, ½ min.
2—Toronto, Burns, ½ min.
3—Shamrocks, Tucker, ½ min.
4—Shamrocks, Dade, 6 mins.
5—Shamrocks, Tucker, 7 mins.
6—Toronto, Nolan, 12 mins.
7—Shamrocks, Hoobin, 2 mins.
8—Toronto, Nolan, ½ min.
9—Toronto, Burns, ¾ min.
10—Toronto, Moran, 2 mins.
11—Toronto, Burns, 3 mins.
12—Toronto, Nolan, 1½ mins.

"CAN'T CHANGE IT."

There's Only One Way to Cure Dyspepsia and Biliousness.

That is by Using Dodd's Dyspepsia Tablets—They Cure by Removing the Cause of the Trouble—And They Always Cure.

If your wife were ill with pneumonia, and the doctor gave you a prescription, you would not allow the druggist to give medicine different to that called for by the prescription.

If he were to say: "I can give you something better than this, for pneumonia," you would answer: "Kindly give me exactly what that prescription asks for. Dr. A.—not you—is treating this case."

When you, or any member of your family need a remedy for Dyspepsia, Indigestion, Sour Stomach, Biliousness, Catarrh of the Stomach, Flatulence, Heartburn, Hiccough, Headache or any other stomach complaint, don't let the druggist, or anyone else, persuade you to take anything but Dodd's Dyspepsia Tablets.

Dodd's Dyspepsia Tablets are not a "patent medicine." They are specific medicine, made from a special prescription for the positive, and absolute cure of the diseases named.

If you take anything else, you are not getting what your prescription calls for.

Dodd's Dyspepsia Tablets cure Dyspepsia, Indigestion, etc. by the only possible method of doing so—that is by removing their cause.

If you have a decayed tooth that aches, the dentist pulls it out, and cures your toothache.

Similarly Dodd's Dyspepsia Tablets cure Dyspepsia by removing its cause, which is imperfect digestion.

Dodd's Dyspepsia Tablets cure Dyspepsia, etc., by digesting the food. This done, Dyspepsia cannot return, for the Tablets put the stomach in shape to do its work thoroughly.

Dodd's Dyspepsia Tablets are sold by all druggists at fifty cents a box, six boxes $2.50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto.

Hagyard's Yellow Oil cures all pain in man or beast; for sprains, cuts, bruises, callous lumps, swellings, inflammation, rheumatism and neuralgia it is a specific.

Diarrhœa

Is two dangerous to neglect. Have it promptly checked by Dr. Fowler's Extract of Wild Strawberry. Cures Diarrhœa, Colic, Cramps and all bowel complaints.

Dr. Wood's Norway Pine Syrup is the best remedy for coughs and colds. Try it, 25 cents.

Cook's Cotton Root Compound

Is successfully used monthly by over 10,000 Ladies. Safe, effectual. Ladies ask your druggist for Cook's Cotton Root Compound. Take no other as all Mixtures, pills and imitations are dangerous. Price, No. 1, $1 per box; No. 2, 10 degrees stronger, $3 per box. No. 1 or 2, mailed on receipt of price and two 2-cent Stamps. The Cook Company, Windsor, Ont. ☞Nos. 1 and 2 sold and recommended by all responsible Druggists in Canada.

☞No 1 and NO. 2 Sold in Peterborough by John Nugent, Druggist

Grandon's Torpedo System.

London, June 30.—The Daily Mail publishes an interview with Lieut. Grandon, describing his alleged invention of a torpedo system that will revolutionize naval warfare. Lieut. Grandon claims that his system will increase the effective range of torpedo boats to 6,000 yards by the use of aerial torpedoes, charged with an explosive more powerful than dynamite. He asserts that he has received a letter from President McKinley, saying that the American War and Navy Departments have been directed to investigate his system.

Hobson Is All Right.

Birmingham, Ala., June 30.—Judge Hobson, father of Lieut. Hobson, has received the following cable from his son: "Santiago de Cuba, June 28.—My health continues good. Feel no uneasiness about me."

Latest Word From Dewey.

Washington, D.C., June 30.—The Navy Department yesterday made public the following cablegram from Admiral Dewey, brought by the McCulloch to Hong-Kong, and, though undated, supposed to have been sent from Cavite, June 23: No change in the situation since my telegram of June 17. Five German, three British, one French and one Japanese men-of-war in port. The insurgents constantly closing in on the city. Aguinaldo, the insurgent leader, with 13 of his staff, arrived May 19 by my permission, on the Nanshan. He established himself at Cavite outside of the arsenal under the protection of our guns and organized his army. The progress of Aguinaldo has been wonderful. He has invariably conducted the war humanely. My relations with him are cordial, but my conferences have generally been of a personal nature.

A STRONG ARGUMENT.

Wm. McCabe, Esq., Managing Director, N. A. L., Toronto:

DEAR SIR,—Please accept my thanks for your cheque just handed to me, for $3,901.98, in settlement of my $2,500 Fifteen Year Endowment Policy in your Company. Such a result as this, after the risk on my life has been carried for fifteen years, beginning from forty-five years of age argues one thing strongly, namely, that the management of the North American Life must be in competent hands. The other options you have offered me, viz.: a Paid up Life policy for $6510.00, or a Life Annuity for $401.90, are, I presume, equally liberal, and it affords me much pleasure to recommend your Company to my friends or any desiring insurance.

Mangled to Death.

St. Thomas, Ont., July 2.—A man who gives his name as George Hurdman and his home as Corinth, Ont., about fifteen miles from this city, met his death in the Wabash yards here yesterday while trying to board a freight train which was just pulling out. He slipped and fell under the wheels, both legs being cut off. The unfortunate man was removed to the Amasa Wood hospital, and died shortly afterwards.

Leduc's Body Recovered.

Kingston, Ont., July 2.—The body of Frederick Leduc, drowned seven weeks ago off the steamer Persia, were recovered yesterday off Howe Island, in the St. Lawrence River.

The district camp breaks up to-day. The weather has been fine and cool all through it. The regiments and cavalry paraded through the city yesterday.

No Longer in Command.

Ottawa, July 1.—The General Officer Commanding the militia of Canada, Major-General Gascoigne, severed his connection with the department yesterday and is no longer in command. He resigned some months ago and his resignation was accepted, but he was asked to act until the end of the fiscal year. His successor has not yet been appointed.

TWIN TORTURERS!

Lumbago and Rheumatism made Harmless by Dodd's Kidney Pills.

Lumbago and Rheumatism cause endless pain and suffering. Every man and woman who runs chances of getting wet, or catching cold, is liable to suffer from one or both. Our hospitals are full of sufferers from these diseases; none are more painful. Every nerve is on fire; every joint is a centre of agony; every muscle an area of torture. To move hand or foot makes the victim shriek with agony.

Rheumatism makes more cripples than all the railroad accidents that ever happened. Twisted, mis-shapen caricatures of humanity, who cannot walk without misery, are to be seen every day. The kidneys are to blame. If they are healthy you needn't fear Rheumatism or Lumbago. Dodd's Kidney Pills keep the kidneys healthy and cure Rheumatism and Lumbago.

Dodd's Kidney Pills ALWAYS CURE.

WHEAT ADVANCED.

Reports That American Yield Had Been Overestimated Caused Strength—Liverpool Firmer—The Prices.

Friday Evening, July 1.

On the Chicago market to-day all lines of wheat took an upward bound. Reports from many quarters to the effect that the incoming United States crop has been much overestimated, and that much of the grain being harvested is proving of poor quality were the chief factors in the advance. At Chicago cash wheat climbed up 4½c, and the later deliveries 2½c per bushel.

On the Liverpool market to-day spot wheat was steady to 1d lower, while all future deliveries advanced ½d per central. Paris wheat declined 50 centimes to 1 franc and 5 centimes.

In Chicago corn rose about 1c per bushel. In Liverpool maize was off ¼d to ½d per central.

Stocks in Liverpool.

Following are the stocks of breadstuffs and provisions in Liverpool: Flour 49,000 sacks, wheat 1,265,000 centals, corn 1,557,000 centals, beef none, pork none, bacon 25,500 boxes, hams 10,700 boxes, shoulders 4000 boxes, lard 55,000 tierces, cheese 50,800 boxes, butter 4100 packages.

Toronto Live Stock.

The run of live stock at the Cattle Market to-day was not large—40 loads, composed of 800 cattle, 372 sheep and lambs, 775 hogs and 75 calves.

The fat cattle were not as good quality generally as on Thursday. Too many half-finished grassers, especially in the butchers' class, are coming forward, and this has the effect of weakening prices.

Export Cattle—Stall fed sold at $4.50 to $4.75; bulls scarce at $3.25 to $4. Butchers' cattle, stall fed and choice quality, scarce; prices firm at $4 to $4.45. Butchers' grass cattle were plentiful and cheap, selling all the way from $2.85 to $3.75 and slow at that. In fact several loads remained unsold when the market closed.

Loads of good butchers and exporters mixed, sold at $4.25 to $4.35; choice picked lots sold at $4.35 to $4.45; loads of good $4.25 to $4.35; medium at $3.85 to $4.10; common $3.40 to $3.65; inferior $3.25 to $3.35; very inferior rough cows and bulls $2.85 to $3.

About six milk cows changed hands at Thursday's quotations.

Heavy feeders—Prices were unchanged.

Buffalo Stockers—Market weak and prices lower at $3.25 to $3.55. Several loads were shipped through to Buffalo.

Calves sold at $3 to $6 each, or in other words at $4 to $4.25 per cwt.

Sheep plentiful, and prices fairly firm at $3 to $3.15 for ewes, $2.50 to $2.75 for bucks and $2.85 to $3.40 each for the bulk of the spring lambs, while a few of extra weight and quality brought $4 each.

Deliveries of hogs were light, selling at $3.20 to $3.37½ for best selections off cars, unfed and unwatered; thick and light fats $4.75; Essex and Kent corn-fed hogs, $4.70 per cwt.

East Buffalo Cattle Market.

East Buffalo, N.Y., July 1.—Receipts light of sale stock. Market ruled dull and slow for common lots of mixed stock.

Hogs—Supply moderate and but few held over. Market slow and ruled very dull. Good to choice Yorkers, $3.90; medium grades, $3.92 to $3.95; light to good Yorkers, $3.85 to $3.90; mixed packers' grades, $3.90; heavy hogs, $3.90 to $3.95; roughs, $3.25 to $3.40; stags, $2.65 to $2.90; pigs, $3.85 to $4.

Sheep and Lambs—The supply was light. Market quiet; easy. Yearling lambs, choice to extra, $5.40 to $5.50; fair to good, $5 to $5.25; culls to common, $4.25 to $4.90; native clipped sheep, choice to selected wethers, $4.75 to $4.80; good to choice mixed sheep, $4.50 to $4.70; common to fair, $4 to $4.40; culls to common sheep, $3.25 to $3.85.

Cheese Markets.

Brighton, Ont., July 1.—At Brighton cheese meeting 11 factories boarded 800 cheese. Sold 100 white at 7⅝c to Bailey. Buyers present: Whitton, Lowery and Bailey. Board will meet on Friday, 8th inst., at 1 o'clock p.m.

Brantford, July 1.—At the cheese market to-day 3130 boxes cheese were boarded. No sales. Seven cents to 7¼c bid. Next market Friday, July 15.

British Markets.

Liverpool, July 1.—Spring wheat is quoted at 6s 7½d; red winter at 6s 7d; No. 1 Cal., 7s 6d to 7s 7d; corn, 3s 0½d; peas, 5s; pork, 51s 3d; lard, 28s; tallow, 19s 6d; heavy, L.c., 31s 6d; light, 31s; do., short cut, 30s; cheese, white 36s 6d, colored 37s 6d.

Liverpool—Open—Spot wheat dull; No. 1 Cal., 7s 3½d to 7s 4d; futures quiet at 6s 4d for July, 5s 9¾d for Sept. and 5s 7¼d for Dec. Maize quiet at 3s for spot; futures quiet at 2s 11¾d for July and 3s 2¾d for Sept. Flour 23s.

London—Open—Wheat, off coast very little doing, on passage nominal and unchanged. English country markets quiet. Maize off coast nearly due, on passage easy.

Liverpool—Close—Spot wheat dull, with red winter at 6s 7d; Indian, 6s 6d, and No. 1 Northern spring, 6s 6½d; futures steady at 6s 5d for July, 5s 11d for Sept. and 5s 9d for Dec. Spot maize firm at 3s; futures quiet at 3s 0¼d for July and 3s 3d for Sept. and 3s 3½d for Oct. Flour 23s 6d.

London—Close—Wheat, vessels arrived 3, waiting orders 1, off coast at a decline, on passage depressed; No. 1 Cals. due, 44s, sellers La Plata, arrived, 41s 3d. Maize, off coast nothing doing, on passage rather firmer; spot American, 17s.

Paris—Close—Wheat dull at 23f 95c for June and 21s 35c for Sept. and Dec. Flour weak at 53f 25c for June and 46f 70c for Sept. and Dec.

Your Pulse.

Is it regular in its beat, or is it weak and intermittent? A weak pulse indicates a weak heart. Milburn's Heart and Nerve Pills is the great remedy for weak, palpitating heart—makes them strong and steady.

Milburn's Sterling Headache Powders are easy to take, harmless in action and sure to cure any headache in from 5 to 20 minutes.

DROWNED IN THE HUMBER.

John McEwan Lost His Life Whilst Bathing Near Weston.

Toronto, July 2.—The gospel tent which is being conducted at Weston by Evangelists McClintock and Telfer was thrown in a paroxysm of sorrow last night, when it became known that John McEwan, one of the attendants, had been drowned in the Humber River.

McEwan, with six other young men, went bathing near the millidam and stepped out of his depth, saying, "Come on in here." He could not swim, and for some time none of the others missed him. When they observed that he had disappeared a rigid search was made for him, but the water is rather muddy just now, and all efforts to find him quickly proved futile.

It was two hours afterwards before Walter Day, who had been in the water all the time, came across the body, which had possibly not moved from where he went down.

A NON-UNION STRIKE.

T. Eaton's Cloak and Mantle Makers Want Higher Piece Prices.

Toronto, July 1.—The strike fever again made itself felt yesterday. This time it has appeared in the T. Eaton Company's business among a non-union class. The disaffected ones are the cloak and mantle makers, male and female, who are employed entirely on piecework. The wages received, they claim, are lower than in other shops of similar businesses, and they are demanding a general increase in piecework prices. Their action will compel about a hundred others who are engaged in subordinate work, such as sewers, button holers, pressers, under pressers and cutters, to cease work, unless others can be employed in place of the strikers. The strikers are confident of obtaining their demands owing to the urgency of their work.

The Tramp Still at Large.

London, July 1.—Another day has passed and the murderer of P. C. Michael Twohey is still at large. The ingenuity of the cripple in evading arrest is really wonderful, and there is a well defined fear that, notwithstanding his physical handicap and the reward offered for his capture, the villain will ultimately get away. Chief of Police Williams returned from Sarnia, where he had gone to direct the operations of the police. The chief was struck with the density of the woods and swamps in that section, and little wonders that the man has not been sighted by his pursuers in these veritable jungles. The one legged man was early in the evening given something to eat by the Indians on the Sarnia reserve, who knew nothing of his character. The river front is closely watched by armed men. The tunnel trains are also under close surveillance.

Torontos Beat Shamrocks.

Toronto, July 2.—For the first time in the history of the Senior Lacrosse League the Torontos have succeeded in beating the Shamrocks.

In the presence of 3,000 spectators, what was probably the fastest game ever seen here took place yesterday afternoon on the Rosedale grounds, and but for the little unpleasantness at the finish there was nothing to detract from the magnificent play of both teams. The summary:

1—Toronto, Nolan, ½ min.
2—Toronto, Burns, ½ min.
3—Shamrocks, Tucker, ½ min.
4—Shamrocks, Dade, 6 mins.
5—Shamrocks, Tucker, 7 mins.
6—Toronto, Nolan, 12 mins.
7—Shamrocks, Hoobin, 2 mins.
8—Toronto, Nolan, ½ min.
9—Toronto, Burns, ½ min.
10—Toronto, Moran, 2 mins.

"CAN'T CHANGE IT."

There's Only One Way to Cure Dyspepsia and Biliousness.

That is by Using Dodd's Dyspepsia Tablets—They Cure by Removing the Cause of the Trouble—And They Always Cure.

If your wife were ill with pneumonia, and the doctor gave you a prescription, you would not allow the druggist to give medicine different to that called for by the prescription.

If he were to say: "I can give you something better than this, for pneumonia," you would answer: "Kindly give me exactly what that prescription asks for. Dr. A.—not you—is treating this case."

When you, or any member of your family need a remedy for Dyspepsia, Indigestion, Sour Stomach, Biliousness, Catarrh of the Stomach, Flatulence, Heartburn, Hiccough, Headache or any other stomach complaint, don't let the druggist, or anyone else, persuade you to take anything but Dodd's Dyspepsia Tablets.

—Dodd's Dyspepsia Tablets are not a "patent medicine." They are specific medicine, made from a special prescription for the positive, and absolute cure of the diseases named.

If you take anything else, you are not getting what your prescription calls for.

Dodd's Dyspepsia Tablets cure Dyspepsia, Indigestion, etc. by the only possible method of doing so—that is by removing their cause.

If you have a decayed tooth that aches, the dentist pulls it out, and cures your toothache.

Similarly Dodd's Dyspepsia Tablets cure Dyspepsia by removing its cause, which is imperfect digestion.

Dodd's Dyspepsia Tablets cure Dyspepsia, etc., by digesting the food. This done, Dyspepsia cannot return, for the Tablets put the stomach in shape to do its work thoroughly.

Dodd's Dyspepsia Tablets are sold by all druggists at fifty cents a box, six boxes $2 50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto.

Hagyard's Yellow Oil cures all pain in man or beast; for sprains, cuts, bruises, callous lumps, swellings, inflammation, rheumatism and neuralgia it is a specific.

Diarrhœa

Is two dangerous to neglect. Have it promptly checked by Dr. Fowler's Extract of Wild Strawberry. Cures Diarrhœa, Colic, Cramps and all bowel complaints.

Dr. Wood's Norway Pine Syrup is the best remedy for coughs and colds. Try it, 25 cents.

Cook's Cotton Root Compound

Is successfully used monthly by over 10,000 Ladies. Safe, effectual. Ladies ask your druggist for Cook's Cotton Root Compound. Take no other, as all Mixtures, pills and imitations are dangerous. Price, No. 1, $1 per box; No. 2, 10 degrees stronger, $3 per box. No. 1 or 2, mailed on receipt of price and two 3-cent stamps. The Cook Company, Windsor, Ont.

☞Nos. 1 and 2 sold and recommended by all responsible Druggists in Canada.

☞No 1 and NO. 2 Sold in Peterborough by John Nugent, Druggist

Grandon's Torpedo System.

London, June 30.—The Daily Mail publishes an interview with Lieut. Grandon, describing his alleged invention of a torpedo system that will revolutionize naval warfare. Lieut. Grandon claims that his system will increase the effective range of torpedo boats to 6,000 yards by the use of aerial torpedoes, charged with an explosive more powerful than dynamite. He asserts that he has received a letter from President McKinley, saying that the American War and Navy Departments have been directed to investigate his system.

Hobson Is All Right.

Birmingham, Ala., June 30.—Judge Hobson, father of Lieut. Hobson, has received the following cable from his son: "Santiago de Cuba, June 28.—My health continues good. Feel no uneasiness about me."

Latest Word From Dewey.

Washington, D.C., June 30.—The Navy Department yesterday made public the following cablegram from Admiral Dewey, brought by the McCulloch to Hong-Kong, and, though undated, supposed to have been sent from Cavite, June 23: No change in the situation since my telegram of June 17. Five German, three British, one French and one Japanese men-of-war in port. The insurgents constantly closing in on the city. Aguinaldo, the insurgent leader, with 13 of his staff, arrived May 19 by my permission, on the Nanshan. He established himself at Cavite outside of the arsenal under the protection of our guns and organized his army. The progress of Aguinaldo has been wonderful. He has invariably conducted the war humanely. My relations with him are cordial, but my conferences have generally been of a personal nature.

BILIOUS SPELLS

"Last summer I was troubled with Sick Headache and Biliousness, and could not sleep at night. I tried several doctors but to no effect, and got completely discouraged. At last I saw an advertisement telling about Burdock Blood Bitters. My husband induced me to try it, and today I am using the third bottle, and can truly say it has done me a wonderful amount of good. I feel better than I have for years, and am confident I owe my restored health to B. B. B." MRS. EDWARD BECK, Riverside, N.B.

A STRONG ARGUMENT.

Wm. McCabe, Esq., Managing Director, N. A. L., Toronto:

DEAR SIR,—Please accept my thanks for your cheque just handed to me, for $3,901.98, in settlement of my $2,500 Fifteen Year Endowment Policy in your Company. Such a result as this, after the risk on my life has been carried for fifteen years, beginning from forty-five years of age, argues one thing strongly, namely, that the management of the North American Life must be in competent hands. The other options you have offered me, viz.: a Paid-up Life policy for $6310.00, or a Life Annuity for $401.90, are, I presume, equally liberal, and it affords me much pleasure to recommend your Company to my friends or any desiring insurance.

Yours truly,

LOCAL NEWS.

Those who buy camping supplies at the "Spot Cash" have good luck fishing.

Song Sermon.

The regular monthly song sermon will be given by the pastor, Rev. D. O. Crossley in Charlotte street church, on Sunday evening.

Fire Brigade Band Excursion.

The annual excursion of the Fire Brigade Band will take place to Alexander Bay per G.T.R., on Thursday, July 21st, Mark the date and go out with the boys. Detailed particulars later.

"Men's Attributes."

Rev. A. Scrimshaw, a former Peterborough boy and now one of Buffalo's popular pastors, will give a short address at the men's meeting at the Y. M. C. A. on Sunday at 4.15 p.m. Visiting wheelmen specially welcome.

Grand Free Gift Excursion.

Grand free gift excursion Thursday, July 7th, 1898. The steamer City of Peterborough, M. Lane, Master, will leave the C.P.R. wharf at 2 p.m., calling at Ashburnham, for Jubilee Point; returning leave Jubilee at 6 p.m. Return tickets 50c, children 25c. 4d

Mounting a Mountain Sawmill.

The William Hamilton Co. are sending a gang of 30 men who will start on Monday morning, to erect machinery in a saw mill put up by the company for the C.P.R. at the Crow's Nest Pass. This is another tribute to the excellence of the machinery turned out by the William Hamilton Manufacturing Company.

Excursion to Stony Lake.

St. Paul's Sunday School hold their annual picnic on Wednesday July 6th, at Sandy Point, Clear Lake. A special trip through the islands to the head of Stony Lake will be run in the afternoon. Come and enjoy a good day's outing. Adult ticket for round trip, 70 cents. 2d

—Oranges 20c a dozen at Waller & Co.

Turner's on Top.

Sometime this morning Mr. Ed. Brown's grocery store awning was burnt by fireworks and at 8 o'clock the hustling Turner's had another in place. This hard worked firm had its whole staff at work all night and then was unable, from sheer exhaustion, to keep up with orders. This firm has secured the contract for decorating Lindsay for the 12th of July celebration. Good work creates brisk demand.

Sons of Scotland Excursion.

The members of Camp Clan Alpine No. 36, Sons of Scotland, are making preparations for a grand excursion down the Otonabee river to Jubilee Point, on Tuesday, July 5th. This will be the first excursion held under the auspices of this local camp of the Sons of Scotland in Peterborough, and the committee feel assured that everything points to it being a successful event. The tickets are to be placed at a figure which will make it the cheapest trip ever run to Jubilee, and the attractions for the day are such as will cause a grand rally of Scotchmen and their friends. Look out for posters.

American Casualties over 1,000 at Santiago.

DEWEY MUCH DISAPPOINTED

At the Non-Arrival of Troops at Manilla.

A BLUNDER AT SANTIAGO.

Anxiety in Military Circles at Washington—A Large List of Dead and Wounded—Large Force of Medical Officers to be Sent to Cuba.

Special 3 p. m. dispatch to the Examiner.

U. S. Loss Over 1000 Killed and Wounded.

Siboney Province of Santiago de Cuba July 1.—Delayed in transmission. The fighting was practically stopped at 9 a.m. to be resumed in the morning.

The American troops have advanced nearly to the City. Their losses are estimated at over 1000 killed and wounded.

Admiral Dewey Disappointed.

London, July 2—Manilla despatch dated June 28, via Hong Kong, says: The non arrival of the American troops has grievously disappointed Admiral Dewey but the Americans still count on celebrating the fourth of July in Manilla.

A Blunder at Santiago.

New York, July 2.—Special from Elipaso Cuba, near Santiago noon by way of Playa Deleste, July 1.—The first artillery fight of the campaign has just been ended by the silencing of a Spanish battery.

There was a blunder in allowing the Infantry to be massed behind the position and most of the fatalities are to be attributed to that.

Sang the Star Spangled Banner.

During a lull in the fighting an impressive incident occurred. The 21st Infantry was out in front, and suffering heavy loss from the Spanish fire, but the men sang the "Star Spangled Banner," even the wounded joining in the chorus.

Washington Military Officers are Anxious.

Washington, July 2—The profoundest concern throughout military and official circles marked the opening of the second day of the Battle of Santiago. General Shafter's latest information gives casualties at about 1,000. It is understood that the Surgeon-General will send a large force of medical officers to Cuba.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 23 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Accident to Rev J. E. Moore's Brother.

A few days ago Mr. R. P. Moore, of Scott township, Ontario, brother of Rev. Mr. Moore of Mark Street church, was seriously hurt by a horse kicking him in the face, cutting the end of his nose off with the exception of a small portion of the skin, breaking the bones in his nose, and also breaking his teeth out. Dr. Bascomb of Uxbridge, attended to his injuries and it is hoped he may soon recover. It was a hairbreadth escape.

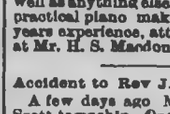
Preaches a Masonic Sermon.

The Lucknow (Bruce County) Sentinel has an elaborate report of a Masonic church service at which Rev. W. L. Armitage was the preacher. The report says that "an excellent and appropriate sermon was preached by Rev. Bro. W. L. Armitage, of All Saints church, Peterborough. The reverend gentleman, though only a young man, son of our respected townsmen, Mr. James Armitage, is an able and effective speaker, and his discourse on Sunday last was one of the best Masonic sermons ever delivered to the craft in this place. On returning to the lodge room a hearty vote of thanks was tendered to Bro. Armitage for his splendid sermon and to the church wardens."

Samantha at Saratoga, in a New Dress.

One of the funniest of all the funny books is certainly "Samantha at Saratoga." Will Carelton pronounces it "delicious humor" and Bishop Newman says it is "bitterest satire, coated with the sweetest of exhilarating fun." Formerly published by subscription at the price of $2.50, and sold, it is said, by the hundred thousand, it has recently been issued in an exquisite little cloth-bound volume, in the "Cambridge Classics" series by the celebrated cheap-book publishers, Hurst & Co., of New York, as a means of widely advertising that series, and is sold at the fabulously low price of 25 cents. It would seem strange if they should not sell a million of them. They are sold by booksellers, or the publishers direct.

Calcutt's Lager Beer Prizes to Bicyclists on July 4th.



Mr. H. Calcutt, of the Calcutt Brewing and Malting Company, Limited, will offer $25 to the persons making the best time from the Post Office, Peterborough, to Spears' Landing, opposite Jubilee Point, Rice Lake.

1st prize, Silver Cup, value $12.00.
2nd prize, Silver Cup, value $8.00.
3rd prize, Silver Cup, value $5.00.

The route is over one of the best roads in Ontario and there are no stiff grades on the whole fifteen miles. It is by way of the Indian village of Hiawatha and the last three miles skirts the shores of Rice Lake.

At Spears' Landing boats will be in readiness to convey the bicyclists to Jubilee Point and back to Peterboro.

Professional riders are barred. There must be at least five to start. Entrance free.

For further particulars apply to H. Calcutt. Start will be made at 10 a.m.

MISS EVA BOOTH

To Spend Sunday in Peterborough—Will Address Three Meetings—Will Appear in Her Slumming Costume on Monday Evening.

Field Commissioner Miss Booth will be at the local Salvation Army barracks tomorrow. She will address in her thrilling style three meetings—at 11 a.m. and at 3 and 7 p.m. On Monday evening Miss Booth in Rags—the slumming costume she wore in the dark spots of London and Paris, will be a most interesting feature of the evening. A large attendance is assured.

THE CANADIAN SAMPSON—THE MODERN MILO.

Visit to Town of Mr. J. Alton Harris, the Man of Marvellous Development.

Among the features that distinguished the meet was the presence of Mr. J. Alton Harris, the Canadian Sampson, the Modern Milo, one of the most magnificent specimens of muscular development one could see. Mr. Harris came down from Toronto with Mr. J. W. T. Fairweather. He has been giving expositions of his remarkable strength before men interested in the effects of physical training and healthful methods of living upon physiological conditions and the attendant condition of anatomical development. Mr. Harris is not a commercial strong man merely He is a personal exemplication of the effects of proper physical training, and he is able to readily impart his methods for the benefit of others. He is a cultured and educated gentleman, being a graduate of McGill and Harvard Universities. His chest expansion is represented by a gain of 10 inches in girth under full inspiration. The muscles of his forearm and the biceps are like those of Longfellow's village blacksmith "strong as iron bands." When contracted they have the hard tense feel of a tire of a wheel inflated to its fullest extent. The point however is the symmetery of his muscular equipment, all the muscles of his neck and shoulders, indeed of his whole body are wonders of strength and perfect condition. His dead weight lift with one hand is 257 pounds. He can lift from the ground without harness 1200 pounds and with his back and shoulders he can raise with comparative ease the great weight of a ton and a half, 3000 lbs. Mr. Harris was at the Driving Park in interview with medical men and others interested in strength. He lifted heavy men off the ground by the arm pits with the greatest ease. The representative of the Examiner had a pleasant interview with Mr. Harris last night. He is as affable and genial as he is strong, and is enthusiastic on the subject of the possibilities of physical training in the way of producing muscular development.

TAILORING AND GENTS' FURNISHINGS, 396 GEORGE STREET.

PETERBOROUGH RECEIVED THOUSANDS OF WHEELMEN.

A Royal Welcome to the Members of the C. W. A.

THE FIRST PROVINCIAL C. W. A. MEET.

Carman Easily Wins the Half Mile Professional Championship—Amateur Championship Won by Alf. Sherrit—The Track in Fine Shape—The Athenæms Make a Big Splash—Nearly Seven Thousand People in the Park.

A mimic bombardment of Havana took place at every incoming train which arrived in Peterborough on Thursday evening, having its quota of wheelmen assembling to join in celebrating the inauguration of the first of the Provincial Meets.

The 8 07. p.m. train on the C.P.R. was the first train to arrive with a noticeable number of excursionists on it, although all day squads of bicyclists had been arriving in detachments on the various regular trains, quite a few also coming in on their wheels.

After extending greetings to the arrivals on the C.P.R. train, the Reception Committee, under the guidance of Mr. A. H. Stratton, wheeled over to the Grand Trunk and met the trains from the front and also those from the north. A cordial welcome was extended the visitors, and shortly afterwards the committee again repaired to the C.P.R. depot. Over a thousand citizens were there as well and while waiting for the midnight train the time was spent in creating a regular panic amongst the railway officials, through the fact that fireworks were set off and libitum on the platform. The reception which greeted the western clubs on the regular train as well as in the Athenæum club "special" was one which will long live in the memories of those who witnessed it. Rockets and Roman candles enveloped the train in their many hued lights while cannon firecrackers nearly blew them off the track.

The visitors were packed in the cars like sheep and while a few of the older heads returned to their rooms, the majority spent the night in making merry up and down George street.

In the morning all the regular trains brought in more visitors and the Grand Trunk specials from Belleville and Toronto, which arrived at about half past ten were loaded with wheelmen coming to Peterborough for the holiday.

The parade did not materialize to any extent, as the boys were more intent on having a good time and looking for fun than riding in a procession, though the Ottawaegians and the Picton Rough Riders materialized immensely.

The attendance at the races in the afternoon was fully up to expectation, and the various events were exciting to a degree, and raised the enthusiasm of the spectators to the highest pitch. The races were run off promptly, but the visitors found great fault, with reason, in the fact that the Management allowed the spectators to crowd out on the track to such a degree as to injure the chances of winning, in some cases, of certain riders.

The One Mile Amateur Novice brought out A. C.McKeand, Hamilton; Bert Coleman, Toronto; Allan Muir, Brantford; T. Stuart Reid, London; T. D. Higley, Blythe, Ont; F. A. Harrington, Toronto; John Butterfield, Hamilton; W. G. Crashley, Toronto; W. F. Grass, Westbrooke; Harry Roddis, Port Hope; A. W. Kelly, Beaverton; Fred Kempt, Toronto; W. J. Vennels, Toronto; A. H. Vennels, Toronto; Geo. C. Abbott, Toronto; Fred Davidson, Peterborough; Ralph C. Ripley, Hamilton; John Robinson, Toronto; W. P. Thompson, Hamilton; F. B. Chapman, Toronto; Jos. Attock, Toronto; Horace Hughes, Toronto; H. A. Callaghan, Lindsay; W. Hitch, Toronto; Rich. Stouer, Toronto; W. H. Blaycock, Toronto; R. L. Bell, Lindsay; R. Falconer, Toronto; W. H. Dent, Woodstock; E. V. Patterson, Hamilton.

On account of there being so many entries the event had to be run off in heats. The first was won by T. D. Higley of Blythe with Allan Muir of Brantford second and Ralph Ripley, of Hamilton third, time 2.17 2-5, Crashley of Toronto disqualified by pacing. The second heat was taken by Vennels of Toronto, Dent of Woodstock, and Fred Davidson of Peterborough taking second and third, the latter receiving a great cheer as he crossed the line so well up in the bunch, time 2.18. Abbott, of Toronto qualifying by pacing. The final heat brought out the winners of the two previous ones and was won by Ripley of Hamilton, Muir being a good second and Abbott third, time 2 23 2 5.

The Half Mile Open (professional) was contested by McLeod, McCarthy, Richardson, and Wills of Toronto, and Carman of Morrisburg. It proved the surprise of the day. Everyone thought that the race lay between McCarthy and McLeod, but Carman pulled away from the bunch in the home stretch and won by a wheel's length, with McCarthy second and McLeod third. Time 1 07 1-5.

Those riding in the Half Mile Championship (Amateur) were Alf W Sherrit, Brantford; T W Barnes, Hamilton; F H Moore, Toronto; N S French, Toronto; Bert Coleman, Toronto; A W Stockhouse, Frank Wilson, Ottawa; Harry J Boulter, Picton; Jos E Shortt, E F Gascoyne, Fred Robinson, Toronto; A F Little, Woodstock; Alex Murray, Hamilton.

Sherritt won in a walk on his Brantford Redbird, with Barnes second and Moore third. Time, 1 08

M Leod, McCarthy, Carman, Tucker, Greatrix and Mills came to the scratch for the one mile professional. Middleton, Hutchinson and Burke did the pacing on a tripl t. Carman caught the triplet at the start, with McCarthy behind him, and the pace was a hot one. Carman dropped out, and McLeod got his place. The finish was a great fight up the stretch between M Leod and McCarthy, but the former was able to win out. Time, 2 05 1 5.

Twenty-three riders were entered in the amateur one mile open, which had to be run off in two heats. The entries were Alf W Sheritt, Brantford; T W Barnes, Hamilton; F A Moore, Toronto; Toronto; N A French, Toronto; Bert Coleman, Toronto; David Wilson, Toronto; A W Stockhouse, Ottawa; W C Baldwin, Ottawa; Allan Muir, Brantford; Lawrence Smith, Brantford; W F Grass, Westbrooke; C W Powell, Kingston; A Mott, Brantford; J E Short, Toronto; R E Westrop, Toronto; W J Vennels, Toronto; H Hancock, Toronto; John Smith, Toronto; E F Gascoyne, Toronto; J H Barnett, Toronto; Geo W Riddell, Winnipeg; Fred Robinson, Toronto; A F Little, Woodstock; A Murray, Hamilton; Robt Ripley, Hamilton; A Mulhall, O A A C.

The first heat was won by Smith with Moore second and Mullhall third. Time 2 23 2 5.

2nd heat—1 Riddell, 2 Smith, 3 French. For pacing, Hancock. Time, 2 19.

In the final heat the quad was brought out, manned by Bruce Rickey, Will Lytle, McLeech and McNeiledge. At the start Riddell caught the quad and lived it throughout, breaking away in the stretch and making a great sprint in, closely followed by Moore and Smith. Time, 2 13.

There was a great cheer when it was announced that Fred Longhead, of Sarnia, half mile champion of America, would try to lower the record for that distance, but the cheer was even greater when he crossed the tape in 56 3-5 seconds lowering the record from 57 1-5.

The two mile championship (professional) tandem race brought out McCarthy with Greatrix, and Hutchins with Middleton. The two pair took the pace in time until the last half, when the latter refused to yield the place to McCarthy and Greatrix. They were collared in the back stretch, however, and after a hard struggle had to give in to superior staying power, McCarthy and Grertrix winning out by a couple of wheels. Time, 4.45 1-5.

Forty-two riders faced the starters in the 2 40 Class (amateur.) There were divided up into three squads, and the event was run off in heats. The riders were: A W Sheritt, Brantford; A C McKeand, Hamilton; Bert Coleman, Toronto; Allan Muir, Brantford; T S uart Reid, London; David Wilson, Toronto; Robt Mulhall, Ottawa; T S Higley, Blythe; F Harrington, Toronto; Jno Butterfield, Hamilton; W L Glass, Westbrooke; C W Powell, Kingston; A M Dyment, Barrie; Jno Wilson, Perth; A Mott, Brantford; H J Boutler, Picton; Ed Mounsell, Port Hope; H Roddis, Port Hope; A W Kelly, Beaverton; R E Westrop, Toronto; W J Vennels, Toronto; W Simpson, Toronto; A H Vennels, Toronto; G C Abbott, Toronto; Fred Davidson, Peterborough; R C Bigley, Hamilton; Jno Robinson, Toronto; W P Thompson, Hamilton; H Hancock, Toronto; F B Chapman, Toronto; J Attock, Toronto; H Hughes, Toronto; John Smith, Toronto; J M Martin, Lindsay; H A Callaghan, Lindsay; A Blaylock, Toronto; W Hitch, Toronto; R Stouer, Toronto; W H Blaylock, Toronto; J H Barnett, Toronto; R L Bell, Lindsay; W A Dent, Woodstock; J E Short, Toronto; A H Martin, Bracebridge; W Fenson.

Four riders fell in the first and two in the second heat but fortunately no one was hurt seriously.

The result was as follows:

1st heat—1 Mott, 2 Muir, 3 Short. For pacing, Hancock. Time, 2 18 1-5.

2 id heat—1 Vennels, 2 Abbott, 3 Blaylock. For pacing, Martin. Time. 2 24.

3rd heat—1 Robertson, 2 Smith, 3 Davidson. For pacing, Barnett. Time, 2 22 1-5.

Final heat—1 Robinson, 2 Barnett, 3 Mott, 4 Abbott. Time, 2 17 2-5.

The handicappers did their work well in the two mile professional handicap the riders finishing in a bunch with Carman a half wheel to the good. McLeod second, and McCarthy third. The entries were Richardson and Greatrix, Toronto, 100 yards; McLeod and McCarthy scratch; Cameron, Tucker and Wills 125 yards. Time, 4 43 2-5.

A great deal of interest was manifested in the five mile amateur championship, in which the following riders started: T Barnes, Hamilton; F A Moore, Toronto; Bert Coleman, Toronto; Allan Muir, Brantford; David Wilson, Toronto; Frank Wilson, Ottawa; Robt Mulhall, Ottawa; F A Harrington, Toronto; Lawrence Smith, Brantford; A Mott, Brantford; H J Boulter, Picton; H J Barnett, Toronto; A F Little, Woodstock; Alex Murray, Hamilton; Stockholm, Toronto; T S Reid, London.

The result was 1 Sherrit, 2 F Wilson, 3 D Wilson. Time, 1 42.

During the intervals between races in the afternoon the Athenaenm Club band furnished amusement for the spectators.

Grand Championship Cake Walk.

At Night.

There was a very warm time in town last night, when the crowd of visitors came up from the grounds after the concert. A lively battle was inaugurated between the patrons of the firecrackers and of the Roman candle, the parties ranged themselves on either side of George street and the battle raged for hours. Afterwards the two forces united and built on series of large bonfires along Hunter street, beginning at the corner of George. When the first one was touched off the hose waggon came dashing up the street and the revellers were dispersed by a few judicious flirts of the nozzle. It was easy enough to put out one fire, but when they began opening up everywhere as if by magic, the brigade contented itself with watching to see that no damage was done. At about half past two the old unoccupied frame house on the corner of Lake and Elizabeth streets, Ashburnham, suddenly burst out with flames and the brigade strung hose from the town hydrant across the bridge, confining the fire to the building.

The revellers kept the pace until about daylight when the last of the stragglers turned in.

The Cooks' Parade.

Collie Ross and his Athenæum braves "certainly did themselves proud" during their stay in Peterborough. Never for a moment did his gay hussars and red caps flag in their energies. They were out for fun—and they had it. Wherever the noise was loudest and the crowd the biggest there would be found Collie and his Athenæums. They capped the climax this morning in their cooks' parade, which was witnessed by thousands on the street. The Athenæums were all mounted on mimic chargers and with their lances and pennants made a gallant (!) sight. There was fun by the barrel whilst they were out.

Notes of the Meet.

The Picton Rough Riders attracted unusual attraction. Together with their band they numbered fifty, all day and under consul J. M. Farrington were a big factor in the day's fun. A special train brought them over the Central Ontario Railway to the C.P.R. and into Peterborough. Unfortunately the exact time of their arrival was not known and the Reception Committee missed meeting them.

Stan Allen's megaphone was a huge success.

The riders were very much pleased with the track which was in grand shape.

Mr. J. E. Turton, the tenor of the Laurier Quartette, which delighted the people at the mass meeting in the opera house last provincial elections, is one of the Ottawa contingent of wheelmen. He has pleasant recollections of his previous visit to Peterborough.

An old favourite in Peterborough, Mr. Alf. Sturrock, the celebrated baritone vocalist, is one of the Ottawa boys of the Thirteen Club. He is as genial and jovial as ever, and his many friends and admirers in town will be pleased to hear that he is both popular and prosperous in Ottawa.

A feature of the parade that is rather a four-footed disloyalty to the cycling pastime, was the presence of several members of the Athletic and Thirteen Clubs, Ottawa in the bicycle parade mounted on the despised horse.

Music well played should be expressive, but the music most expressive of truth was the air played on the streets during the day—"There'll be a hot time in the old town to-night."

Gilmour street had the honour of entertaining the officials of the C.W.A. Executive, and they are charmed with their commodious and quiet quarters.

Mr. R. M. Roy, who acted as official photographer for the "Canadian Wheelman" yesterday took a number of good snap shots at the finishes.

The big Vim Tire tricycle attracted universal attention, yesterday, wherever it went. There was a merry crowd on it and the fun was fast and furious whenever the huge machine passed the grand stand in the track.

Alf. Sherritt, of Brantford, didn't do a thing on his Redbird yesterday. He just carried off the half and five mile amateur championship against very strong fields. The stock of the Redbirds is away up.

While out skylarking last night the "Red Caps" entered the premises of Mr. Wm. Lech on Hunter St. and helped themselves to some flowers. They left behind them a baby carriage, which was probably taken from somewhere else. The owner can have it at Mr. Lech's.

The Oshawas cut a wide swath in their blue jean suits and furnished lots of fun.

Riddell, the Winnipeg champion, was not allowed to ride in the championship events yesterday, on account of not being a resident of the Province. He is fast.

The crowd was much pleased to see Davidson, the wily local rider, qualify in the novice, although he was unable to win out. The time was away better than the average.

A bicycle belonging to Mr. N. Williams, Cobourg, was taken by mistake, or otherwise, from the Morgan House Hall this morning. Red coloured Perfect, '97 make, 24 inch frame, ram's horn handle bars, with "D 182" on saddle post. Leave information at Morgan House or Examiner Office.

PETERBORO'S WIN FROM THE PERTH'S.

CLOSE AND INTERESTING MATCH PLAYED YESTERDAY.

The Eastern Visitors Play a Fast Clean Game—The Score was 5–4 in favor of Peterborough.

Owing to the fact that the morning parade did not cross over the P. A. A. A grounds, yesterday morning, as advertised, the attendance was not as large at the lacrosse match as was expected, though it exceeded that of ordinary occasions.

The match started off with a rush and the Peterboroughs quickly scored three games against their opponents, although the play seemed fairly even. Great excitement was caused when the next three games went to the visitors and the score was even. Splendid lacrosse was played by both teams as Peterborough scored the next goal and then Perth evened up by again tallying. The depending game fell to the Peterboroughs just one minute before time was called.

The Perth team were lighter than the Peterborough's and were considerably weakened by the fact that their star point man deserted them at Tweed on the way up to Peterborough. They played a

NICE, CLEAN GAME

and had a very neat style of combination play.

The Peterborough's being without the services of Mein, Lipsett, Rubidge and Phelan, played younger men in their place, Hogarth, Vic McWilliam's and Harry King going on for their first senior game and doing remarkably well, the two latter each scoring a goal. McWilliam's goal was scored on a very heady piece of work he being behind the Perth flags with the ball and after feinting to pass it over the nets, running around and scoring himself.

The two teams were composed as follows:

Perth.		*Peterborough.*
Cameron	goal	Dobbin
Lappin	point	Lynch
Meighen	cover point	Brown
G Wilson	1st defence	Jim McCabe
Noonan	2nd defence	Glover
Stafford	3rd defence	McDonough
McGregor	centre	L King
Kellock	3rd home	Hogarth
J Wilson	2nd home	Jack McDonough
McLaren	1st home	Galley
Dobbin	out-side home	McWilliams
O'Brien	in-side home	Harry King
Stone	field capt.	M Halpin

Referee, Dickson Davidson.

The game started at 11.15 a.m., King getting the ball from the face-off and passing to Jack McCabe, who passed it back again. In half a minute it was transferred to Galley's stick and sent into the net, scoring first blood for the home team.

The Perth club made a hot rally on the Peterborough flags at the beginning of the next game, King came down on the defense and carried it up the field, but it was

SOON BACK AGAIN.

Then Lynch relieved only to have the ball once more returned and a shot made on goal which Lynch stopped and, passing the ball up the field, started a combination which resulted in Lionel King scoring. Time, 6 minutes.

In two minutes more McWilliams scored for Peterborough. Score 3–0.

Perth's backers were wildly enthusiastic when Stafford scored their first game for them in a side shot and when Nelson tallied another a few minutes later the interest of the spectators was re-aroused. A minute later McLaren evened the score by notching another point for the visitors and excitement ran high.

The checking became closer as the Peterboroughs began to open out and some very fast work was seen on both sides. After twelve minutes play the tie was broken, when a shot from Lionel King went into the net off Vic McWilliams' knee. After six minutes play the score was a tie again, McLaren doing the needful for Perth.

With ten minutes to play, both teams played hard to win the deciding game. Jim McCabe came down on the home and the visitors' goalkeeper had a lively time of it. Harry King finally ended the suspense by scoring for Peterborough from the side.

NOTES.

Lou Dobbin, formerly of town, played with the Perth team.

Messrs. Campbell and Stone, president and secretary respectively of the Perth club, accompanied the team to town.

Perth wants the seniors to go there for a game on the 29th, when there is a big programme of horse races on.

A MARKED GAIN.

GENTLEMEN,—I have been a great sufferer from nervous dyspepsia, with the usual symptoms of stomach weakness, loss of appetite and flesh, accumulation of gas, sour risings, and heartburn. I used various patent medicines and other remedies without any favorable results. They would give temporary relief sometimes until the effects of the medicine wore off, but Dr. Ward's *Blood and Nerve Pills* overcame all these obstacles. I am better in every way now and have gained several pounds in weight.

DO DIVINING RODS DIVINE?

Sometimes Water Is Located by Their Use and Sometimes Not.

The pros and cons of the theory of the divining rod are again being discussed in the English newspapers.

The superintendent of a fire brigade testifies to a case within his experience in which a water finder was commissioned to operate on an estate of the existence of which he was previously ignorant. He got to work, soon found the presence of water, and, fixing upon the nearest and most conveniently placed spring, gave the probable depth at which water would be discovered in sufficient quantities at 75 feet. At 70 feet the water came in, and at 77 feet operations had to be stopped, as the flow became too heavy. Some of the tools had to be left in the well, as there was not time to remove them all. The well supplied the cattle, horses and pigs of the farm on which it was bored through the dry summer of 1896, never failing in its flow. Twelve months after a second well was sunk barely a stone's throw from the first. The water finder was asked if one stream would affect the other, as they were so near. He replied, "No, they are two distinctly different streams, running in different directions." The second well was as successful as the first. This correspondent regards the power to find water as the result of a force, magnetic or otherwise, over which the finder has no control and which he is unable to explain. He also says that the operation of finding water produces a marked degree of nervous fatigue in the operator.

On the other hand, the discomfiture is announced of a professional water finder who made a tour in the island of Jamaica, where in the dry season water is a precious boon. He traveled through the island, rod in hand, but met with little success. At one village in the Santa Cruz mountains he pegged out part of the course of a subterranean stream and then retired to lunch at a neighboring hotel. In his absence some wags removed his pegs and lined out a totally different course. On his return the diviner took up the new direction and continued it for 100 yards, not discovering his mistake until it was pointed out to him. At one point where he predicted water at a depth of 40 feet there was no sign of it when 150 feet had been bored, and after going down 200 feet the borer could not be extracted. The same result occurred in many other places, and finally the diviner left the island abruptly. —St. Louis Globe-Democrat.

SMOKELESS POWDER.

CORDITE THE MOST POTENT EXPLOSIVE OF MODERN TIMES.

It Is Composed of Nitroglycerin, Gun Cotton and Vaseline—The Interesting Process by Which Its Dangerous Elements Are Combined.

Since the advent of the speedy torpedo boat and since rapid firing guns have been placed on battleships and cruisers an explosive that would allow to the officers and gunners an unobstructed view of an enemy under all conditions has been sought, and thousands of dollars have been expended in the effort to obtain a satisfactory substitute for black gunpowder. Cordite, the latest explosive, is said to be the most satisfactory propellant of modern times for naval warfare, and the expert opinion seems to be that in a few years gunpowder as now understood will have vanished.

The earliest records of established powder mills show that there was only one in operation in 1590, this one being in England. During the year 1787 the Waltham Abbey Powder mills were purchased by the English government. They are still conducted by it. The Faversham mills, which up to that date were the largest in the world, passed into the hands of a private corporation in 1815. The manufacture of powder was continued without much improvement, except in the efficiency of the grinding and mixing machinery, until about 35 years ago, the formula for black powder being saltpeter 75 parts, charcoal 15 parts and sulphur 10 parts, the whole forming a mechanical mixture and not a chemical compound.

Smokeless powder, however, became absolutely a necessity, for the reason that smoke producing powders masked the object aimed at, and the torpedo boat, which was becoming a recognized feature of naval warfare, could dash up and discharge one or more deadly missiles under cover of the smoke.

Smokeless powders were first produced in France, and for some time the secret of the manufacture was guarded jealously. As soon as the necessity for this kind of powder became apparent, however, a number of manufacturers devoted attention to it, and as a result various brands of smokeless explosives were placed on the market.

The most satisfactory results eventually made their appearance in cordite, which was produced through experiments made by Professor Dewar and Sir Frederick Abel. Cordite is composed of nitroglycerin 58 per cent, gun cotton 37 per cent and vaseline 5 per cent Nitroglycerin is an oily, colorless liquid and an active poison. It is produced by mixing a quantity of sulphuric acid with almost double the amount of nitric acid and allowing it to cool. About one-eighth of the total weight of glycerin is then added gradually, the mixture being kept below a temperature of 70 degrees F. by passing air and cold water through it. After the mixture has stood a sufficient time the acids are drawn off, and the residue (nitroglycerin) is washed and filtered.

Nitroglycerin cannot be ignited easily by a flame, and a lighted match or taper plunged into it would be extinguished. It is sensitive to friction or percussion, either of which will detonate it. Another peculiarity is that the higher the temperature the more sensitive it becomes. It will solidify at a temperature of 40 degrees, and its explosive force is estimated to be about twelve times that of gunpowder.

One of the most approved methods used in the manufacture of gun cotton is this: The raw cotton is torn into shreds, dried and dipped in a mixture of sulphuric and nitric acids. It is then placed in a stream of running water and washed thoroughly. The cotton is then wrung out, usually in a centrifugal machine.

It is afterward boiled, dried, cut into pulp and pressed into disks. When the gun cotton is finished, there should be no trace of the acids remaining. Vaseline, the other component part of cordite, is the well known extract from petroleum, and its usefulness is chiefly to lubricate the bore of the gun and thus lessen the friction between it and the projectile. It also has a tendency to impart a waterproof nature to cordite.

A colorless liquid prepared from acetate of lime, called acetone, is used as a solvent in the manufacture of cordite. The method of preparing the explosive is: The required proportion of nitroglycerin is poured over the gun cotton, and the two, with the addition of acetone, are kneaded together into a stiff paste. Vaseline is then added, and the whole compound, after being thoroughly mixed, is put into a machine and the cordite pressed out and cut into lengths, after which it is dried.

To the artillerist the nature of cordite is represented by a fraction whose numerator gives in hundredths of an inch the diameter of the die through which the cordite has been pressed, its denominator being the length of the stick in inches. The cordite known as 20-12, which is the size used for the 6 inch quick firing guns, signifies that its diameter is three-tenths of an inch, and ½ is 12 inches long.

It is necessary to use a fine grain powder to ignite a charge of cordite, it being secured in such a manner that a flash from the tube firing the gun will cause the explosion of the charge. A full charge of powder for a 12 inch gun is 295 pounds, while the cordite charge, having the same efficiency, is only 167½ pounds.

Cordite is one of the safest explosives known, and is not dangerous unless it is confined. It can be held in the hand and lighted without danger. It burns slowly and with a bright flame. Although comparatively a new discovery, it is used extensively in every navy throughout the world. It was manufactured first in Great Britain and was in general use on her battleships before adopted by other powers.—New York Sun.

A CHANGE IN QUEBEC.

Dodd's Kidney Pills Check Kidney Disease in Wonderful Style.

The Case of Mr. John Waite—Suffered with Bright's Disease for Ten Years—Doctors Failed to Help Him—Dodd's Kidney Pills Cured Him.

Quebec, P. Q., July 1.—For some years past there has been an alarmingly large number of cases of Bright's Disease, Diabetes, Rheumatism, Lumbago, and other Kidney Troubles in this city.

Very many of them have proved fatal.

But of late a great change has taken place.

Dodd's Kidney Pills are being used by the people, and Kidney Diseases are no longer feared.

It is a significant fact that every case in which Dodd's Kidney Pills have been used has been cured.

Bright's Disease has been looked upon as incurable, by the medical profession. But it is cured in every case in which Dodd's Kidney Pills are used.

To prove this, we have only to read the testimony of those who have used them.

Here is a letter that ought to be read by every person who is not in perfect health. It is from Mr. John Waite, 27 O'Connell street, Quebec.

Mr. Waite says:—"I suffered for ten years with Bright's Disease. I used different medicines and was treated by different doctors, but all failed to help me.

"Recently I began using Dodd's Kidney Pills and I must say I never saw such a change as they have effected.

"My urine is clear, my pains have gone and my sleep is sound and unbroken. Dodd's Kidney Pills are a truly wonderful medicine — worth their weight in diamonds."

Dodd's Kidney Pills are sold by all druggists at 50c. a box, six boxes for $2.50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto, Ont.

African Murderers Punished.

Liverpool, June 30.—A mail steamer from Sierra Leone, which arrived here yesterday, reports that the British expedition which was despatched to the Sherboro district of Sierra Leone, West Coast of Africa, found the cremated bodies of the murdered missionaries, which, however, bore no traces of mutilation, as had previously been reported. The expedition severely punished the rebellious natives, but the search for Mrs. Cain, who fled to the bush at the time of the massacre, proved fruitless.

A Very Sudden Death.

St. Catharines, June 30.—John W. Grote, banker and broker, dropped dead of heart disease here last night at his home on Court street. He left his office about 5 o'clock, apparently in the best of health, and going directly home, almost immediately expired. Mr. Grote sat in the City Council as alderman for several years. Mr. Grote, who was 58 years of age, leaves a widow, but no children.

Six of Them Suspended.

St. Petersburg, June 30.—Chief Mahomed Ali Khalif and five other ringleaders of attacks recently made on a Russian post garrisoned by 300 infantry at the town of Andijan, province of Porghana, Turkestan, in which twenty of the soldiers were killed and eighteen others were wounded, have been publicly hanged.

If Death had to sign the warrant for every victim that he claims as his own, there would be fewer premature deaths. In the majority of cases men and women sign their own death warrants.

Neglected health means death. A man or woman may not realize it, but the little ills that they neglect are simply the danger signals that warn them of the approach of big and serious maladies. A well man or woman gets up in the morning happy and clear-headed and alert, both mentally and physically. They have a hearty appetite for breakfast. They go about their work with alacrity, and a sense of pleasure. The day's end finds them tired, but not fagged out. They still have the energy for an evening's enjoyment. At night they find sound, refreshing slumber. They do not have frightful dreams during their sleeping hours, nor are they drowsy during their waking hours. They are not ill-tempered or fault-finding. When men or women find their condition the opposite of this, they need a course of Dr. Pierce's Golden Medical Discovery. It strengthens the weak stomach, corrects the impaired digestion invigorates the liver, and purifies and enriches the blood. It is the great blood-maker and flesh-builder. It strengthens the muscular system, gives bloom to the complexion, regulates the functions of every vital organ and imparts both mental and physical elasticity and energy. Medicine dealers sell it, and have nothing "just as good."

"I had been troubled for several years with spells of liver complaint" writes H. N. Drumfield, Esq., of Centennial, Monroe Co., W. Va., "and about two years ago my health gave way. I tried a doctor and got worse all the time. I had a weakness in my left side and limbs, palpitation of the heart, cramping pains in the stomach after eating; nerves weak, and no energy. I took Dr. Pierce's Golden Medical Discovery and began to mend from the start. I soon felt like a new person. I am now enjoying good health."

WARSHIP WORSHIP.

HOW JACK "RIGS CHURCH" IN UNCLE SAM'S NAVY.

Divine Service on Sunday on Board a United States Man-of-war and How It Is Conducted—The Church Ensign and Its Meaning—The Chaplain.

When there is seen flying from the gaff of a United States man-of-war a small, white triangular pennant, bearing on its field a blue Greek cross near the pike or halyard, it is a signal that divine service is being held on board. "Rig church!" is one of the regular naval orders, issued usually at about 10:30 on Sunday morning.

Church is "rigged" in various places according to the construction of the vessel and according to the weather conditions. If the day is fine and not too cold, the quarter deck will probably be selected, although in some ships it is customary to hold the service on the forward part of the gun deck. In stormy weather the berth deck below is used, where the men may be under shelter, though they are more cramped for room.

Assuming that the service is to be held on the quarter deck, the arrangements for it will proceed about like this: When the bugler gives the signal, the "church ensign" is hoisted to the gaff, and some of the men, under the direction of an officer, bestir themselves briskly in making the simple preparations which are necessary.

A table or desk, covered with the American flag, is placed at the end of the quarter deck for the chaplain. A few wardroom chairs are brought up from below and ranged along the starboard side, where the officers are to assemble, and benches or capstan bars resting on buckets make seats for the crew on the port side.

The organ—for every ship that has a chaplain is provided with an instrument of this nature—is put in a convenient place. If there is a band, and its services are desired, a few musicians are selected and stationed near by. Then the ship's bell is tolled for about five minutes, giving the officers and men, wherever they may be on board, sufficient time to assemble, if they are so inclined.

The boatswain may call down the hatchways "Silence, fore and aft, during divine service!" but it is well understood by the entire crew that the ship must be quiet now for about three-quarters of an hour. Finally the bell stops, the captain, after a glance around, makes a sign to the chaplain that all is ready, and the service begins.

How it is conducted depends upon the denomination to which the chaplain belongs, and various sects are represented among the naval clergymen. The singing, accompanied by the organ, which is played either by an officer or by some musician among the crew, is generally fine. The men enjoy it, and their voices ring out strong and fresh in the open air.

During the prayers they are required to remove their caps, but throughout the rest of the service they may remain covered. When it is over, the order to "Pipe down!" is given, and church is "unrigged." Sometimes an evening service is also held, but this is not the general custom.

Attendance at church on the warships is of course not compulsory, but the officers are expected to attend by way of furnishing an example, and most of them usually do, accompanied by perhaps about half the crew,—sometimes more and sometimes less.

But by no means all the ships of the navy are provided with chaplains. For the 60 of more war vessels now effective for service there are fewer than 30 chaplains, or less than one for every two ships. They are attached to the largest and most important vessels, where their ministrations may reach the greatest number of persons.

A queer incident happened a few years ago, when one of the modern cruisers was put into commission. It had been intended that she should carry a chaplain, but when the officers' quarters were completed it was found that his room had been entirely overlooked. No accommodation for him thus being available, the ship put to sea without a chaplain and did not have one for at least two years.

In an action the chaplain's duties are with the sick and wounded. Occasionally, however, his aid has been required at the guns, and in many instances the chaplains have proved themselves heroic fighters as well as good preachers. In the old days of the navy the chaplain wore the full uniform of his rank—lieutenant, lieutenant commander or commander—but it is now customary for him to wear a suit of black or the regular costume of whatever church he represents, sometimes with the insignia of his rank upon his sleeve.—New York Tribune.

The Army Officer's Trunk.

The army officer's trunk, which is an article of limited but regular sale in peace times, being sold chiefly to regular army officers, is a stout, well made trunk of rather generous proportions, so divided inside as to afford spaces for both military and civilian attire. There is a place for an officer's chapeau and one for the silk hat of a civilian and room for the different clothing, and the trunk is large enough to admit a sword laid diagonally. A trunk of this sort is made not of sole leather, as might be supposed, to withstand rough wear, but with a rigid frame, so that it can be roped or strapped on to a load or packed with other things piled on it in the exigencies of wagon or other transportation without being crushed or damaged. —New York Sun.

Broadly speaking, the essential difference between merchant ships and warships is that the former are designed to carry their loads or principal portions thereof low down in the hold, whereas warships have to carry their heavy burdens of armor and armament high up on their sides.

"I was a sufferer from neuralgia in my side, and headaches. I followed numerous prescriptions without benefit and was persuaded to try Hood's Sarsaparilla. When I had taken only one bottle I realized it was doing me good and I continued taking it until I was cured." MRS. CARRIE PRICE, Georgetown, Ontario.

SLEEPWALKING.

Strange Things Men Do While In a State of Somnambulism.

Readers of that charming work of my late friend Wilkie Collins, "The Moonstone," will remember the sleepwalking feats of Mr. Franklin Blake when under the influence of an opiate. What the novelist describes as a piece of fiction may be paralleled from the sober records of science.

McNish, in his classic volume on "Sleep," tells us of a shepherd lad who, wrapt in slumber, walked miles to the place where his flock was pastured, waded through a river and returned home without waking. In another case a lad in his sleep scaled a precipitous cliff and brought home from it an eagle's nest, which was found under his bed in the morning.

Abercrombie's case of the Scottish lawyer who, when worried over a perplexing case, was seen by his wife to rise from his bed in the night is another illustration of the occasionally purposive character of somnambulism, when, directed by its private secretaries, the sleeping ego is apparently roused from its couch and made to act the part of a pure automaton. This individual went to a writing desk which stood in his bedroom, sat down before the desk and wrote for some time. Then, replacing the paper within the desk, he returned to bed.

In the morning he told his wife of a dream he had experienced, in which he imagined he had given a satisfactory opinion on the case which was troubling his mind. He expressed regret that he could not recall the train of thought represented in his dream. On his wife directing him to his writing desk, he found therein the opinion in question clearly written out and in every respect satisfactory.—Andrew Wilson, M. D., in Harper's Magazine.

Have You Seen It?

Every big railroad in this country has a freight car in its equipment bearing the number 12,345, and yet I'll lay reasonable odds that you may tramp this town over and you will not be able to find a man, I care not how much he has traveled, who has ever seen a car with that number. Among railroad men it is known as the "sequence car" or the "one-two-three-four-five car." Perhaps you never looked for it. I have. For years in my travels I made it a practice to get out whenever the train stopped and take a look at the freight cars in sight, and I have met drummers who told me they did the same thing, but never a glimpse did I get of that car nor did I ever run across a man who had been so fortunate. Try it. Go up to the freightyards in this city or across the river. You will find hundreds of cars, but it's $10 to a pint of peanuts that car 12,345 will not be among them.

APPALLING DEATH

From Kidney Disease Prevented by Dodd's Kidney Pills, Only.

"Kidney Disease." Do you know what it means? It means that the kidneys are either *rotten*, or rotting; the blood is full of poisonous, death-dealing corruption; that the Kidneys can't do their work; that the victim is a walking charnel-house; that his hours are numbered; that the victim MUST take Dodd's Kidney Pills if he does not want to die.

Have you Kidney Disease? Is your skin hot and dry; memory failing; breath short; urine, reddish, or pale colored; does it scald when passing; is your appetite changeable; do your ankles swell; have you bitter taste in the mouth on getting up mornings; is there a brick-dust deposit in your urine?

Any of these signs is proof positive of Kidney Disease. Will you be cured, or will you die? Dodd's Kidney Pills are the only means on earth that will cure you. They never fail.

AN UPTURN FOR WHEAT.

The Market Influenced by Reports of Damage to Crops and Poor Harvesting Weather—Prices.

Wednesday Evening, June 29.

To-day witnessed a decided change in sentiment in the Chicago wheat market. To begin with the cables announced an improved situation at Liverpool, and this factor was backed up by reports from harvesting sections to the effect that crop had been overestimated, and that harvesting weather is poor. St. Louis, where receipts of new wheat were unexpectedly small, turned buyer, and as a result of all these influences there was a late rush of shorts to cover on advancing prices. The September and December options sold up about 2¾c per bushel and under a better demand for cash wheat the June and July deliveries gained 2½c. The close was at about top figures.

The Liverpool wheat market opened steady this morning and during the session there was a slight improvement in July and September wheat. The former delivery closed 1½d per cental higher than yesterday, and the September article ½d higher. The December option at the same time was depressed to the extent of 1d. Spot wheat closed steady to ½d lower. The Paris market closed unchanged to 10 centimes higher. The Toronto grain market remains exceedingly dull. Ontario and Manitoba wheat are both growing weaker and coarser grains act in sympathy.

A FRENCHMAN'S STORY.

Mr. Parnham Tells how Dodd's Kidney Pills Cured His Lumbago.

Toronto, June 27.—The story of the escape of the Globe pressman, Mr. John H. Parnham, from the agonies of Lumbago, by using Dodd's Kidney Pills, is unusually interesting.

Mr. Parnham writes to the Dodd's Medicine Co., Limited, thus:—"I am proud to testify to the wonderful efficacy of Dodd's Kidney Pills. About eight months ago I was attacked by severe pains in my back. I consulted an eminent physician, who said I had Lumbago and told me to take Turkish baths. These did me no good.

"A friend advised me to try Dodd's Kidney Pills. I did so, and one box cured me. My back has never troubled me since."

ST. JOSEPH'S HOSPITAL PICNIC.

The Most Successful Yet Held in Aid of that Institution.

The annual picnic in aid of St. Joseph's Hospital held yesterday on the hospital grounds was a great success in every respect. The crowd was larger than at any picnic in the past, and all were thoroughly delighted with the day's pleasure.

A number of refreshment booths were distributed throughout the grounds, which did a lively trade during the day. There were besides other picnic amusements, such as the shooting gallery which afforded an opportunity for young and old to enjoy themselves. Of course the dancing platform was the scene of activity, where Butcher's Orchestra provided excellent music for the lovers of the light fantastic.

During the morning a baseball match took place between nines from the south and west wards of the town, which resulted in a victory for the Southerners by a score of 16—14.

The ladies' of the different wards furnished excellent meals during the day, and the tables were well patronized by the picnicers.

The following clergy were noticed on the grounds during the day:—His Lordship Bishop O'Connor, Ven Archdeacon Casey, Rev. Fathers O'Connell, Scanlon, F. J. O'Sullivan and J. F. O'Sullivan, of the Cathedral; Rev. Fathers Fitzpatrick, Young's Point; McColl, Ennismore; McGuire, Hastings; O'Brien, Norwood; Murtagh, Marmora; Bretherton, Downeyville; Phelan, Lindsay; and Rev. J. O'Brien, of the Grand Seminary, Montreal.

During the afternoon, an energetic committee ran off the following list of sports, for which valuable prizes were given:—

LEM FELCHER'S BOVINE BARBECUE.

His Ox Roast is Made the Subject of a Globe Editorial.

Under the heading "From the Court House to Peterborough," the Globe in its editorial columns thus deals with the subject of Lem Felcher's whole-ox barbecue, which in its liveliness is used to point the contrast represented by the slow progress of the Toronto Court House. By the way Lem is original; others go the whole hog—which is the Toronto way—but since he has come under the civilizing influence of Peterborough he has risen to a higher plane—he goes the whole ox. This is what the Globe says:

One of the numerous circulars which wheelmen are receiving from Peterborough, is signed "Lemuel B. Felcher, once of Toronto." Inquiry shows that this description is correct. We are informed that Mr. Felcher once opened an hotel on Teraulay street, nearly opposite the new Court House, in the belief that the building would be finished in his day and generation, and that he would reap the fruits of his enterprise in the custom of jurymen, witnesses and the legal profession. The statement was so astounding that we at first refused to credit it, but a very careful and minute inquiry leaves no room to doubt its accuracy. Mr. Felcher's optimism was glorious—"it was magnificent, but it was not war." No human endurance could hold out against the masterly inactivity that hovers over the new Court House. It is believed that Mr. Felcher kept on hoping against hope until he heard of the extra twenty feet to be added to the tower. Then he broke down. The building seemed to be stretching away from him instead of getting nearer.

The subject of Mr. Felcher's Peterborough circular is a barbecue, and the affair is to be held in "a fairy-like grove," and is to last from 10 a.m. on Saturday until a period which is conventionally described as nightfall. We are pleased to observe that the circular contains evidence that Mr. Felcher, removed from the blighting shadow of the tower, is recovering his wonted buoyancy of spirits."

OBITUARY.

The Late Mr. Frank Vinette.

Mr. Frank Vinette who has been a resident of the town for the past forty years, died very suddenly at his residence, Union street, on Thursday afternoon, aged 67. The deceased who was a cooper by trade went into his work in the morning feeling if anything, in better health than usual. On his return home at the noon hour he complained of feeling unwell and died at 4 o'clock. Heart failure was the cause of death. Deceased was highly respected as a quiet, steady, industrous citizen, and his sudden death is a sad shock to his family and his many friends. The funeral took place Saturday, at 9 o'clock, from the family residence to St. Peter's Cathedral and the Roman Catholic cemetery.

Death of Mr. William Edmison.

Mr. William Edmison, aged 64, lot No. 17, 9 Con. of Smith, died on Thursday June 30th, after some months illness with cancer. He leaves a wife and four children to mourn his loss. In religion the deceased was a Baptist and in politics a Liberal. He had resided in Smith during his whole life having been born at Bridgenorth. His sister is Mrs. Samuel Stinson Smith and his brother is Mr. John Edmison of Harvy the only surviving members of the family. The remains were interred in the Bridgenorth cemetery. As a neighbor and friend the deceased was warmly appreciated and the large funeral bore testimony to his having many friends and neighbors who regret his demise.

ST. JOHN'S CHURCH NOTES.

To-morrow being the first Sunday in the month, Holy Communion will be administered in St. John's church at 11 a.m. with sermon. Morning prayer will be said at 10 a.m. which may be an accommodation for those who desire a short service.

Rev. W. M. Loucks, now of Christ Church cathedral, Ottawa, is visiting his old parish where he was ordained some years ago. He will preach at All Saints church at 11 a.m., and at St. Johns at 7 p.m.

At 4 p m. to-morrow there will be a military service which will be attended by the 57th Batt. under Lt.-Col. Bell with both bands and the local contingent of the Durham Field Battery under Capt. Snyder. The centre of the church will be reserved for the militia and the public will be accommodated in the outside aisles.

A boy was arrested this week for wantonly trespassing in St. Johns' church grounds. The church authorities are glad that the beautiful grounds should be enjoyed by the public but they are determined to prevent all acts of destruction and desecration.

Her Ancestor.

An Australian woman of great charm and tact tells many amusing stories of the strange questions put to her by people with a thirst for information about her native land.

"It is a very common thing for me to be asked if the bushes are still thick where I live or whether our house is in a 'clearing,'" she says plaintively, "and I know they often regard my veracity as a doubtful quantity when I tell them Australia is not all 'bush' by any means. But an old lady asked me a new question one day. She evidently supposed that all the dwellers in Australia were descendants of the criminals transported to Botany bay.

"'Is it possible for the convicts to educate their children so well ordinarily?' this terrible old English woman asked me, surveying me through her lorgnette as I finished telling one of her friends about my school days.

"'But my father was not a convict, madam,' I said, with natural surprise.

"'Ah,' she said meditatively, 'then I suppose it was your grandfather who was sent there. Of course much can be done in the third generation.'

"I should have been angry if it had been worth while," the Australian adds, with admirable wisdom, "but she surveyed me so impersonally that I didn't even tell her there was actually a part of the population of my country which did not come from convict stock."—Youth's Companion

The Middle Initial.

It is a common habit with English novelists to distinguish their transatlantic characters by giving them names with a middle initial. Mr Moore, I note, calls his American millionaire Isaac P. Newton. The name has certainly a distinctive American flavor about it, but we are apt to overlook the circumstance that, although it is associated so often with Americans, yet the middle initial is quite as frequently used over here as in the United States, as, to witness, such familiarly known names as Jerome K. Jerome, Silas K. Hocking, Clement K. Shorter, Arthur J. Balfour, Margaret L. Woods, Charles M. Barrie, Louis N. Parker, and [illegible] spring to

"FRONT!" IN WASHINGTON.

Hotel Hallboys Who Expect the Guests to Do Part of Their Work.

The colored "front" of the Washington hotel is like no other hotel hallboy, white or black, in the United States. He doesn't hesitate to ask the guests to do part of his work. Old stagers at these hotels do not appear to think it strange, but folks accustomed to hotels in other parts of the country are at first rather surprised at the requests made of them by the colored "front" of the Washington hotels. This is the style of it:

"Goin to you room, sir?" asks a "front" with card and tray as a guest is about to step into the elevator.

"Yes." And then "front," handing the card, says:

"Will you tap at Mr. Honeycomb's door and tell him this gemman is downstairs and wants to see him?"

Your room is 61, and "front" knows it, and he also knows that Mr. Honeycomb's room is 60, and to save himself a trip up stairs he'll bother you to tap at a strange man's room and deliver the message.

Or it is: "D'ye know, sir, if Mr. Bulleyton is in his room? You've just come down, sir, and there's a gemman here wants to see him." Sometimes it is, "Will you please, sir, drop this letter into Mr. Finnigan's room?" And so it goes.

The northerner at first is a bit taken aback, but he soon becomes accustomed to the situation and grins at the audacity of the requests. Others tell the colored "front" to go to the devil, and so on. The colored "front" doesn't mean any disrespect. It is only his way of trying to shuffle his work on to others.—New York Sun.

CERVERA'S SQUADRON

Reported as Having Been Destroyed by Own Ships' Crews.

THOUSAND KILLED ON FRIDAY,

Conspicuous Bravery of American Troops —Spaniards Offer a Firm and Dogged Resistance, But Are Forced Back— Shafter Demands Surrender of Santiago—A Fierce Modern Fight.

Washington, July 4.—An early despatch yesterday from Lieut.-Col. Allan, signal officer at Playa del Este, says that all the vessels of Cervera's fleet made a dash out of the harbor of Santiago today, and then, apparently before they were placed *hors du combat*, ran into the beach with one exception, grounded, and were blown up by the Spanish crews. One ship started out to sea, and Col. Allan adds that our fleet is after her and will capture her in a few minutes.

The Report Confirmed.

Washington, D.C., July 4.—It is reported on what is deemed to be reliable authority that Admiral Sampson's fleet yesterday engaged the fleet of Admiral Cervera and entirely destroyed it.

Later.—The following cable despatch was given out at the White House:

"Playa del Este, July 3.—The destruction of Cervera's fleet is confirmed.

(Signed) Allen.

ANOTHER BATTLE.

Spaniards at El Caney Hemmed In—U. S. Loss About 150.

Headquarters of General Shafter, Friday, July 1, evening, by the Associated Press despatch boat Cynthia, via Port Antonio, Saturday, and Kingston, Sunday, July 3, 2.30 a.m.—Hemmed in on all sides by Gen. Lawton's division, the Spanish troops in the town of Caney are to-night practically prisoners of war, and by daybreak to-morrow, Saturday, Spain will have lost 2,000 of her best soldiers, wounded and taken prisoners in and around the town, which was practically in the hands of the American forces at 5 o'clock to-night. This result was not obtained, however, without severe fighting on the part of the American forces, and, although it is impossible at this time to give a list of dead and wounded, it is safe to say that the loss in General Lawton's division alone will be 150 killed and wounded.

When the final closing-in movement was begun at 6 p.m., the town of Caney was taken and a large number of prisoners were captured. The Spanish loss is 2,000 in all.

Shafter Demands Surrender.

Washington, D.C., July 4.—The following statement was last night given out at the White House:

General Shafter telegraphs: "Playa del Este, July 3.—Early this morning I sent a demand for the immediate surrender of Santiago, threatening to bombard the city. I believe the place will be surrendered."

CREELMAN WOUNDED.

The Brilliant Canadian on the New York Journal Struck by a Bullet.

New York, July 4.—Mr. W. R. Hearst, editor of the Journal, who was at the front in Friday's fighting, when El Caney was captured, found that Mr. James Creelman, one of his reporters, had been desperately wounded. Despite his injuries Creelman dictated to Mr. Hearst a most graphic story of the fight.

FROM SPANISH SOURCES.

Americans Suffered Enormous Loss at El Caney and Aguadores—Gen. Linares Wounded—Spanish Loss Heavy.

London, July 4.—The Madrid correspondent of the Observer says: "The last official news from Cuba is to the effect that the Americans suffered an enormous loss in the attack on El Caney and Aguadores. Gen. Linares is concentrating his troops toward the defensive works around the town, where he hopes to overthrow the American forces. Meanwhile the Spaniards from Guantanamo effected a meeting at Alcatongo, with the reinforcements from Holguin, making 8,000 men who are now marching to fall upon the Americans' right flank, and they can give Gen. Shafter much trouble.

"Gen. Pando, with 2,000 men, is now at Romanganagua and Palma Soriano. It is the belief that the Santiago operations will last a long time."

GEN. LINARES WOUNDED.

And Half the Spaniards Engaged Were Placed Hors de Combat.

Madrid, July 4.—Capt.-General Blanco reports to the Government, under date of July 1, as follows: "At noon to day the enemy vigorously attacked Santiago, and succeeded in taking the advanced positions of Lomar and San Juan, after a vehement resistance, lasting three hours, on our part. We were able to save our artillery, though half the troops were placed hors de combat. Gen. Linares was severely wounded in the left arm, and relinquished his command to Gen. Torralo. The enemy in considerable force attacked the village of El Caney this morning, but were repulsed by Gen. Vara. The fight was resumed this evening and ended in El Caney itself being captured after a vigorous resistance on our part.

"Our losses were heavy. I have no news of the Escaro and Caresa columns, with which it is impossible to communicate, despite all efforts to do so."

Details From Private Sources.

Madrid, July 3, 4.30 p.m.—Private despatches from Santiago give the following details: "Gen. Shafter's army, composed of 17,000 infantry and 82 siege guns of various calibre, attacked the Spanish positions before Santiago, 6,000 rebels under Garcia assisting them. The Spaniards had only 2,000 men, party volunteers.

"Our troops fought with heroic courage. The battle lasted three hours, and the Spanish were then compelled to abandon the trenches and fall back on Santiago. The retreat was conducted in perfect order.

"Our losses were heavy, and the enemy's were enormous. The list of our wounded includes Gen. Linares, Col. Ordonez and Majors Anadrid and Arriz, the latter being Gen. Linares' aide-de-camp.

"The American attack upon El Caney was very severe. The position was defended by Gen. Vara de Rey, with 500 men. The enemy was at first repulsed, but ultimately renewed the attack, the result being unknown."

A later despatch says: "The Americans fought eight against one. The Spaniards defended themselves heroically. Our wounded are numerous, including Gen. Vara de Rey and Major Deminuez. The struggle is becoming difficult, 2,000 Spaniards having to meet 25,000 of the enemy."

PANDO AT SANTIAGO.

The Cubans Said to Have Been Unable to Stop His March.

New York, July 4.—A copyright cablegram from Playa del Este to the Evening World says that General Garcia is authority for the statement that General Pando has succeeded in reaching Santiago with 6,000 men. The Cubans were unable to stop his progress in his efforts to reinforce the Spanish in Santiago.

TRANSPORTS AT CAVITE.

U. S. Troops Have Reached Philippines, Capturing Ladrone Islands on the Way.

Hong-Kong, July 4.—The United States despatch boat Zafiro, which left Cavite, Manila harbor, on July 1, has arrived here. She reports that the American troops in the transports City of Sidney, City of Pekin and Australia, convoyed by the Charleston, arrived at Cavite on June 30, having taken the Ladrone Islands on the way and having left men there.

The Spanish Governor and other officials captured were brought to Cavite.

The United States troops commenced to disembark at Cavite on July 1.

CHICAGO WITHOUT NEWS.

Not a Newspaper Issued in the Windy City on Saturday.

Chicago, July 4.—The following bulletin was posted at every Chicago newspaper office Friday evening:

At 8 o'clock this evening, Friday, the Stereotypers' Union notified the newspaper publishers of Chicago that unless their demands for an increase of wages from $3.25 to $4 per day, a reduction of the working day from eight to seven hours, with payment at the rate of 75 cents per hour for all overtime and other concessions were at once acceded to, they would refuse to return to work.

In consequence of this action, there was not a newspaper issued in Chicago Saturday. This action of the newspapers was in pursuance of an understanding recently entered into. There will be no compromise and not a single striker will be taken back.

A Double Drowning in the States.

Frank Krouse, a U. of M. student, aged 21, and Miss Anna White, aged 19, both of Grand Rapids, were drowned in the Grand River at Ada, Mich., on July 1. They had gone in swimming after midnight with others of their party, owing to the intense heat preventing sleep.

UNITED STATES LOSS PUT AT 2,000

First U. S. Transport Arrives at Manilla—Shafter Claims to be Master of the Situation—Santiago Will Probably Soon Fall—Rejoicings Among the Americans.

Special 3 p. m. dispatch to the Examiner.

Arrived at Manilla.

Washington, July 4.—The Navy Department received official notification of the arrival of the American transports at Manilla.

Pando has not Reached Linares.

New York, July 4.—Washington special says:—Lieut. Col. Wagner, of the Bureau of Militia information stationed at Santiago, states that General Pando has not yet formed a junction with the forces of General Linares. Pando with 5,000 men is still some distance from Santiago. General Garcia with 3,000 Cubans between Pando and Santiago is successfully resisting his efforts to reach the city.

No Details about Cervera's Fleet.

Washington, July 4.—Details of the destruction of Cervera's fleet have not been received. It is not known whether Sampson's ships entered the harbour or whether Cervera made a desperate dash past the sunken Merrimac to the ocean beyond in the hope that he might be able to save a part of his fleet.

It is understood that the time of Shafter's demand for the surrender of Santiago expired at 10 a.m. to-day.

Madrid, July 4.—At the conclusion of yesterday's Cabinet meeting the ministers announced that official confirmation had been received of the report that General Vard de Rey and two of General Linares' aides de camp were among the killed in the third attack upon El Caney.

Loss of Americans Put at 2,000

The American losses are said from Spanish sources to have exceeded 2,000 men.

It is reported that General Lenares has succumbed to his wounds, but the statement is not confirmed.

American Troops Enthusiastic.

Washington, July 4—The War Department has received the following from General Shafter:

Playea Del Este, July, 9.30 a.m. Headquarters Fifth Army Corps near Sant ago—When the news of the destruction of the Spanish fleet reached the front, which was during the truce, the regiment band that had managed to keep its instruments on the line, played The Star Spangled Banner and "There'll be a hot time in the old town to-night." The men cheered from one end of the line to the other. Officers and men, without even shelter tents, have been soaking for five days in the afternoon rains, but all are happy.—(Signed.) Shafter.

The Vizcaya Escaped.

Washington, D.C., July 4—A rumour is in circulation that the Vizcaya was the Spanish ship which escaped from Santiago Harbour, and that Sampson is now in pursuit.

A Truce at Santiago.

Washington, D.C., July 4—The secretary of war has received a despatch from General Schafter, which states: Shafter demanded surrender of Santiago at noon today on pain of bombardment. Thereupon the foreign consuls at Santiago made a joint representation requesting women and children in the city have until Wednesday noon to withdraw before bombardment begins. At present a truce exists pending the expiration of the 24 hours asked for by the foreign consuls.

Cervera's Fleet a 4th of July Present.

Washington July 4—The Secretary of the Navy received the following:

Playea via Hayti, 3.15 a.m., Libonay, July 3—The fleet under my command offers the nation as a fourth of July present the destruction of the whole of Cervera's fleet. No one escaped. It attempted to escape at 9.30 a. m., and at 2 p.m.

The Cristobal Colon had run ashore sixty miles west of Santiago and has let her colours down. The Infanta, Maria Teresa, Oquendo and Viscaya were forced ashore, burned and blown up within 20 miles of Santiago. The Furor and Pluton were destroyed within four miles of the port. Loss, one killed and two wounded. Enemies' loss probably several hundred from gun fire, explosions and drowning; about 1,200 prisoners, including Admiral Cervera.—(Signed)—Sampson.

Shafter Master of the Situation.

Despatch from Gen. Shafter this morning say:—I feel I am master of the situation and can hold the enemy for any length of time.

WELL KNOWN VIOLINIST

Traveled Extensively Throughout the Provinces—Interesting Statements Concerning His Experience.

STELLARTON, N.S.—James R. Murray, a well known violinist, of this place, who has traveled extensively throughout the Provinces, makes this statement:

"I was running down in health and my weight fell off from 175 to 150 pounds. Prescriptions did me but little good. My trouble was called nervous dyspepsia. I resorted to Hood's Sarsaparilla and after taking five bottles I was greatly benefited. I feel as well now as ever in my life, and have increased in flesh so that I now weigh 177 pounds. I am well known in this part of the country, having followed my profession, that of a violin musician for the last 26 years. I gladly tell my friends what Hood's Sarsaparilla has done for me. Before I began taking the medicine I did not have any ambition, but now all is changed and my dyspeptic trouble perfectly cured." JAMES R. MURRAY.

THE TRENT VALLEY CANAL.

THE VALUE OF CANALS AS FREIGHT CARRIERS.

Competing With Railways—Particular Benefits of the Trent Valley Canal—Cheaper Facilities for Transporting Western Grain to Europe by Way of the St. Lawrence.

Mr. Joseph Bigelow, of Trenton, comes out in the Globe of Saturday in a strong defence of the Trent Valley Canal. After combatting objections to the scheme he disposes of the argument that the canal does not bring a large revenue at present by pointing out that an uncompleted work cannot be expected to bring the revenue that the finished work, in operation from end to end, would bring. In regard to the argument advanced that the Rideau Canal does not pay, Mr. Bigelow points out that the Rideau Canal was not built as a commercial water way, but was constructed by the Imperial Government as a military work in 1826-34, and that when the St. Lawrence canals were built the Rideau naturally lost what incidental commercial usefulness it may have once possessed. Mr. Bigelow then goes on to deal with the utility of canals in general, and of the Trent Valley in particular:

CANALS IN GENERAL.

Your correspondent attempts to depreciate canal service generally by endeavouring to show by comparison that the percentage of freight coming down Lake Erie through the Erie Canal has fallen off from 47 per cent. in 1869 to 9 per cent. in 1895. Your correspondent must have been looking through the wrong end of the telescope, or been troubled with an inverted mental vision. The facts are that the traffic in grain and all other articles of commerce between the great lakes and the east coming through Lake Erie has increased with such wonderful rapidity from 1869 that the capacity of the Erie Canal was sufficient to handle but a small percentage of the whole. But were the receipts of products at Buffalo to fall off to that of 1869 the percentage would go up to the former figure of 47 per cent. and much higher. The best evidence of the largely increasing trade passing through the Erie Canal, in contradiction to Mr. Armour's statement, is that during the year 1895 the value of products passing through this canal, according to canal reports, was $24,760,883, for 1895 $30,299,568, and for 1896 $35,636,664. This should be a sufficient answer to the 47 and 9 per cent. statement.

The commercial relations of the west are confined largely to the Erie Canal by the regulation and control of freight rates, as against the railways from Lake Erie to New York, and it is upon its efficiency as a channel of commerce that the cost of transportation largely depends.

Your correspondent says:—"The Canadian produce from the west for transportation abroad, instead of going around the lakes via the Welland and St. Lawrence Canals, has taken the more direct route by rail from Owen Sound and other northern ports to reach the ocean vessels."

I admit and agree with your correspondent that the railways can carry grain from the Georgian Bay coming from the upper lakes to Montreal cheaper than it can be taken by vessels via the Welland Canal, as they have about 247 miles of advantage in distance as compared with the Welland route. This same advantage applies to the Trent Valley Canal, and when completed will be the shortest water route between the upper lake to Lake Ontario and the St. Lawrence to tide water. Freight rates by this canal would be much cheaper than present railway rates. Taking the distance from the Georgian Bay to Montreal at 430 miles, freight rates should be less than by the Erie Canal to New York, a distance of 500 miles, being seventy miles shorter and under a much more favourable system of navigation, which would be carried on by steam barges or tugs having in tow a fleet of barges taken through to Montreal without transhipment; while on the Erie Canal canal boats have to be handled by horses or mules, unless electricity intervenes, for a distance of 350 miles.

The rates of freight from Buffalo to New York for 1896 averaged three and a half cents per bushel for wheat, two and a half for oats and two dollars per thousand feet for lumber. Let shippers compare these rates with those of Canadian railways. The producer is the one party above all others who is interested in cheap transport, as it is he who really pays the freight to market, where his products have to be be sold at the market price at the place of sale; so I think the great army of producers should be considered in securing cheap transportation.

THE TRENT VALLEY CANAL.

Now to state the case and claims of the Trent Valley Canal. In the first place there are only two possible water routes for a canal between the Georgian Bay and the St. Lawrence besides the present Welland Canal route. They are the Trent Valley and Ottawa and French river routes. The enlarging of the St. Lawrence and Welland Canals for ocean or any other class of vessels cannot control the trade of the western lakes down the St. Lawrence, as its advocates claim, while it has to pass through Lake Erie. In any expenditure for such purpose the western producer reaps four-fifths of any benefit in cheaper rates, Canada paying the whole cost of the work. Any competition this would produce or forcibly create with the eighteen railways, fifty-two elevators and the Erie Canal at Buffalo to New York would be met by those engaged in the carrying trade from that point, of which the western shipper would take advantage at the same time giving American routes from there to New York the preference. The geographical situation is such that, so long as the lake trade of the west has to pass through Lake Erie in sight of Buffalo and the Lake Erie Canal to reach the Welland Canal and St. Lawrence, the Erie Canal and railway interests at Buffalo are of such immense proportions that every opposition would be given the St. Lawrence route, which would have to carry produce at less rates than via Buffalo and New York before it would find its way down the St. Lawrence. As an evidence of this fact we have only to turn to the trade reports of Montreal and Buffalo and the Erie Canal for the past ten years, which show an enormous increase in the tonnage of this latter route, while that of the St. Lawrence shows a comparatively small increase. In the item of grain alone the receipts at Buffalo in 1896 were 215,350,000 bushels, including flour, an average of over 1,000,000 bushels per day during navigation, while for that year the grain receipts at Montreal were only 24,350,000 bushels, a small portion only of this coming through the Welland Canal; when we deduct the Ontario and Manitoba grain the increased trade at Buffalo coming through Lake Erie in 1896 over 1895 was 1 675,000 tons, the increase in grain being over 40,000,000 bushels, a large amount of Manitoba grain going via Buffalo to New York for shipment to Europe. With these facts is it possible to come to any other conclusion than that the only possible way to control the trade of the Georgian Bay and western lakes through the St. Lawrence is by a shorter and cheaper route through an all-Canadian waterway to tidewater?

THE ERIE CANAL.

The State of New York recently appropriated $9,000,000 to enlarge and deepen the Erie Canal. The money is now being expended in the work, and a further sum of $7,000,000 is under consideration, a commission having been appointed to investigate and report on the requirements for further perfecting its navigation. There is also another proposition before the Government at Washington to take over the canal and make it a national work, enlarging it for ocean vessels, with locks 550 feet long, 65 feet wide and 28 feet deep. Two hundred and twenty-five thousand dollars have lately been voted by the general Government for surveys for a ship canal between Lake Erie and tide water at New York, all for the purpose of making a clean sweep of the trade of the lakes coming through Lake Erie, and, if possible, scooping in the trade of our own Northwest. What is Canada going to do under such circumstances? Is she to lag behind and allow our own Canadian trade and that of the western States, for which the St. Lawrence is the natural outlet, to be forcibly diverted from its natural and shortest outlet, the St Lawrence, to the detriment of Canada and Canadian commercial interest?

During the year 1896 200,000,000 feet of sawn timber was received at Buffalo and 38,000,000 at Tonawanda, the entrance to the Erie Canal from the upper lakes, nearly all of which was from our Canadian forests, either as lumber or logs, taken to Michigan and sawed and thence sent on to Buffalo, thence east by canal, not even using the Welland Canal to Oswego. If the Trent Valley Canal were completed a large proportion of this lumber would find its way through this canal and thence to Oswego or for shipment to Europe, by the St. Lawrence. In addition to lumber during the same year there was received at Buffalo (largely the products of our forests on the Georgian Bay) 103,000,000 shingles, 196 000 railway ties, 3,000,000 cubic feet of timber, 1,970,000 staves and 3,773 cords of stavebolts. A large proportion of these and other forest products would also find the Trent Valley its natural outlet, but now perforce go to Buffalo. From this showing is it not most important that the Dominion Government should at once give the matter of opening up and completing her internal waterways its most serious attention, especially so in respect to the competition of the Trent Valley Canal route?

A SAVING OF DISTANCE.

Then, as to the saving from Sault Ste. Marie, or the outlet of Lake Michigan. The distance to Montreal by the Trent Valley is seven hundred and three miles, and by the Welland Canal route nine hundred and fifty miles, making a difference in favour of the Trent Valley of three hundred and ninety-seven miles as against the Erie Canal to New York. Then by the Trent Valley route the distance to Liverpool is eight hundred and ninety-seven miles shorter than by New York. One thing is certain, Canada is losing ground in the trade she is entitled to by neglecting or postponing the prosecution of navigation for large and medium-sized vessels between the upper lakes and the St. Lawrence through the Province of Ontario. The completion of the Trent Valley Canal would do for the Province of Ontario what the Erie Canal has done and is doing for the State of New York. As a water route it is one hundred and fifty miles shorter than the Erie Canal, with abundance of water at all seasons of the the year, would be in every way superior to the Erie Canal, and would have the effect of fixing rates on grain and other products between the Georgian Bay and the St. Lawrence beyond the control of railway combines, and at much lower rates than by the Welland Canal or Buffalo routes. With sufficient transportation facilities on the upper lakes connecting with the Trent Valley Canal, and sufficient elevator capacity, there is no reason why the carrying trade of this canal in a few years should not equal the Erie Canal, which carried in 1896 a tonnage equal to ninety-five million bushels of grain, employing thousands of men in the carrying trade.

The Trent Valley Canal, once completed, should become an immense earning power to thousands of people all along the line in the carrying trade and other pursuits connected with its operation, increasing facilities in the way of cheap transport for through as well as local freight for manufacturing industries of all kinds, both for their raw material and manufactured products. The advocates of the Trent Valley Canal extend their compliments to the Toronto Board of Trade for their onslaught on the Trent Valley Canal as reported in the Globe on the 5th of April, the foregoing being specially for their benefit.

NO TIME TO TRIFLE.

Diarrhœa and Dysentery are too dangerous to experiment with untried remedies.

Dr. Fowler's Extract of Wild Strawberry has over 40 years of cures to its credit and never fails in the severest cases.

Diseases, such as Diarrhœa, Dysentery, Inflammation of the Bowels, Cramps, Colic and Summer Complaint, are recognized by everyone as exceedingly dangerous.

When you or any member of your family is attacked, you want a remedy you are positive will cure. These diseases are too serious, too rapidly fatal, if neglected, for experimenting with cheap and dangerous imitations of the genuine Dr. Fowler's Extract of Wild Strawberry. You want something that will, without fail, touch the spot and check the advance of the disease promptly.

Mrs. Middleton Wray writes from Schomberg, Ont., as follows: "Dr. Fowler's Extract of Wild Strawberry is the best remedy I know of for Summer Complaint and Bowel Diseases of children. I have used it in our family for the past seventeen years and never had occassion to call in the doctor for these troubles, as the Fowler's Extract always worked like a charm."

Refuse all imitations, many of which are highly dangerous.

A Brakeman Killed.

Trenton, July 4.—A sad accident occurred on the Central Ontario Railway about 2 o'clock Saturday afternoon. As a gravel train was slowing up near the C.P.R. junction T. E. Rowe, one of the brakemen, was putting on a brake with a stick in the wheel, when the stick broke and he fell between the cars. As he was about the middle of the train about half the cars passed over his body, almost cutting him in two.

Murderer Not Captured Yet.

London, Ont., July 4.—Up to 10 o'clock last night the murderer of P. C. Twohey had not been captured. He is thought to be hiding on the Indian reserve, near Sarnia. The bush is dense, and one of the largest in the country. Constables Black, Robinson and Ralph of the city police force have returned from the search.

THE ONLY HOPE!

For Victims of Bright's Disease is Dodd's Kidney Pills.

Not a day passes on which the newspapers do not record the death of one or more persons from Bright's Disease. Already its victims number hundreds of thousands. Day by day the awful total grows larger. No class is safe from this destroyer.

War and intemperance, with all their miseries and fatalities, are not responsible for as many deaths as have been caused by Bright's Disease. Yet, there is a way of resisting it; of drawing its poisoned fangs, and making it as harmless as a summer breeze. That great medicine, Dodd's Kidney Pills, has cured thousands of the worst cases. It never fails to cure, hopeless as the case may seem.

Would you safely shield your loved ones from the fatal grip of this curse of mankind—Bright's Disease? Then use Dodd's Kidney Pills, the only cure on earth for this disease.

A BATTLE ON FRIDAY.

A Thousand Americans Killed and Wounded.

THE SPANISH LOSS GREATER.

Two Days' Gallant Fighting—Fierce Hand-to-Hand Encounters—Spanish Soldiers Fighting Like Devils, While the American Troops Stubbornly Press Onward—Details of the Fights.

San Juan Hill, overlooking Santiago de Cuba, July 2.—After two days of the most terrific fighting, during which more than one thousand of our men were killed and wounded, the American army is still outside Santiago, but is knocking hard at its gates. It is only a question of hours when it must get in. On all sides our batteries look down on the city, and are pouring an awful fire into the Spanish fortifications which face our men. The enemy lie in their entrenchments, struggling for every inch of ground. The Spanish soldiers are fighting like devils. Ours are forcing them constantly back, killing them by hundreds, and never yielding an inch that they have gained. Now and then outside the harbor Admiral Sampson's fleet thunders death at Morro Castle and the adjoining defences. The hills and the valleys also re-echo the roar of the big guns and the rattle and crash of musketry. The Morro is almost in ruins. Its batteries are all but silenced. The huge Spanish flag which floated so defiantly from the Morro, and which was the only one in sight from the sea on the south coast, has been shot away, and there are great yawning holes in the masonry of the hillside defences.

FRIDAY'S BATTLE.

Shafter's Baptism of Fire—One Thousand Americans Killed or Wounded Before Santiago—Caney Attacked.

At General Shafter's headquarters, Friday, July 1, 4 p.m.—(By Associated Press despatch boat Cynthia.)—General Shafter's army has had its baptism of fire, with desperate courage it has conquered the Spanish works before Santiago, and at this hour is driving the enemy into the streets of the city. The victory was won at heavy cost in killed and wounded. It is impossible to estimate the loss at this writing.

In some cases every officer in a company was lost.

The Spanish loss must have been heavy. The Spaniards opposing Gen. Lawton's Division lost in killed, wounded or taken prisoners, 2,000 men, and loss on the centre and left must be double that number. Most of our troops took position during the night, although Gen. Bates' reserves did not come up until morning.

Gen. Lawton's division, on the extreme right, supported by Capt. Capron's battery, Gen. Kent's division in the centre and Gen. Wheeler's division on the left, supported by Capt. Grime's battery, planted on a hill, formed a line which stretched across the whole width of the basin in which Santiago lies, a distance of fully five miles.

Attack Upon Caney.

Immediately in front of Gen. Lawton lay Caney, surrounded by blockhouses and entrenchments and against this point were the operations directed. Beyond the San Juan River, 2,000 yards before the centre and left, lay a line of entrenchments a mile west of the city. These two divisions were covered by a heavy tangled undergrowth between the San Juan and the Rio Guama. On the extreme left, on the heights beyond Capt. Grimes' battery, behind which, in the shelter of an old sugar house, where the rear cavalry division was massed, were Gen. Duffield's Michigan volunteers, who moved out at daylight over the line of the railroad from Siboney.

The Americans had the advantage of the sun in the morning, which shone directly in the enemy's face.

The engagement opened when the fleet lying outside the entrance to the harbor began dropping shells into the lower end of the Spanish earthworks.

This firing, which was entirely by bearings, was not effective.

At 7.20 the land engagement opened with firing from Capt. Capron's battery on the extreme right, upon the blockhouse and entrenchments before Caney. This was followed quickly by simultaneous attacks by Gen. Chaffee and Col. Ludlow, who occupied a flanking position to the north. The Spanish replied with great spirit and nerve when the American shells burst directly over their trenches. A few minutes before 8 o'clock Capt. Grimes opened with his battery on the heights to the right of the main redoubt, situated in the centre of the Spanish line of entrenchments, directly before the city.

Spanish Reply Was Effective.

The Spanish reply was immediate and wonderfully accurate. The second or third of their shells broke over one of Capt. Grimes' guns, killing two men and wounding four. Both the Spanish and American batteries used shrapnel. The next Spanish shell burst just beyond the battery and riddled a sugar house, behind which Col. Woods' Rough Riders were waiting a forward movement.

It was from these heights that the English, German and Japanese military attaches viewed the engagement.

Capt. Grimes' shells, set for a range of 2,800 yards, slightly overshot the mark. It was difficult to locate the Spanish guns, as they used smokeless powder, and in this the Americans had the worst of it.

Up to this time there had been no infantry near except on the extreme right, where the Spaniards were being hard pressed by Gen. Chaffee and Lawton.

View From a Balloon.

About 8.30 a balloon was sent up in front of the cavalry division. This drew the first volley from the Spanish entrenchments. Though volley followed volley, the daring officer made a reconnaissance and got down safely, after having obtained complete details of the disposition of the enemy. The advance of the cavalry and Gen. Kent's division immediately began along the line of the main road to Santiago. It was about two hours later before the American advance began breaking through the cover in front of the Spanish trenches. It was met with a murderous hail from Mauser rifles, which temporarily stayed the forward movement. The Spaniards had the range and their practice was good. The Americans lay on their breasts and poured volley after volley into them at a range so close that the opposing lines could see the whites of each other's eyes.

Capt. Grimes then reopened with his battery, and in the second duel with the Spanish artillerists did much better execution, planting shell after shell in the first main redoubt and silencing two guns. The Spanish gunners then turned their attention to the United States infantry and began dropping shells into the advance guard.

A few minutes afterward Clark's brigade and the right of Kent's division made a gallant charge up the knoll to the north of the extreme left of the Spanish lines and took possession of the hacienda in the shelter of an orange grove. This marked the beginning of a magnificent charge through the first line of entrenchments.

Against a Storm of Death.

The cavalry division and Gen. Hawkins' brigade charged up the slope against a storm of death. It was in this awful charge that the Americans were so badly cut up that they started on a double quick, but no troops could face such a terrific fire without annihilation. The Americans staggered, they threw themselves on the ground; again they started; again they prostrated themselves, but on, on, up, up, they went, until, with a cheer, they sprang over the trenches dividing the sides of the hill checkered with their fallen comrades. There was hand-to-hand fighting here, in which an officer of the 24th was macheted by a Spaniard, but the Spaniards could not resist the onset of the United States troops and they scrambled out of the trenches and broke over the line of knolls on which they were situated. Hundreds of the Spanish lay dead or wounded in the trenches.

Main Redoubt Carried With a Rush.

The main redoubt was then carried with a rush. The two remaining batteries were then ordered up and with a rattle and clash Capt. Bates' battery went tearing up the road, encumbered as it was with a stream of wounded going to the rear. The battery got in position to the right of the main Spanish redoubt at 3 o'clock and at 3.03 Capt. Bates sent the first shell, which went whizzing down the line of entrenchments, enfilading the enemy murderously.

The American advance line remained behind the crest of the hills until Capt. Bates had driven terror into the already beaten and discouraged enemy.

At this time the American fleet was also at work. Shortly before this despatch was written, the United States line again moved forward and the Spanish began to retreat into the town. The retreat soon became a route and at 5 o'clock an officer just from the front says the enemy are hopelessly beaten.

Gen. Shafter at his headquarters at the second crossing of the Rio Guama had a constant communication with the front.

The most critical time was after the trenches had been taken when the ammunition ran low. Two pack trains loaded with shells were got to the front by Lieutenant Brooks shortly after 3 o'clock.

The wounded are streaming in.

Gen. Shafter estimates that the loss in killed and wounded is not more than 500.

BRAIN FAG.

A well-known editor tells how Milburn's Heart and Nerve Pills cured him of this nineteenth century nerve trouble.

"Brain Fag" is a new disease. Our forefathers did not have it. To them the terrible strain on the nervous forces that falls to the lot of business, professional or literary men of the present day was unknown.

Nervous prostration is the goal to which more than fifty per cent. of the brain workers are hurrying. How can it be avoided? How can this new disease be cured? We will allow Mr. J. W. Hey, the genial and able editor and publisher of the *Alma Craig Banner* to answer. He says, "I was suffering from nervousness and impoverishment of the blood and commenced the use of Milburn's Heart and Nerve Pills, believing from what I had heard and read of them that they were an excellent remedy. My faith in them was rewarded very speedily. They vitalized my blood, strengthened my nerves and restored me to perfect health. I do not consider they have an equal for nervousness, brain fag or nervous prostration produced by overwork."

Milburn's Heart and Nerve Pills always do good. They cure palpitation, faint and dizzy spells, nervousness, sleeplessness, anaemia, after effects of grippe, weakness, debility, etc. Sold by druggists at 50c. a box or three boxes for $1.25. T. Milburn & Co., Toronto, Ont.

DARA-LIVER PILLS cure Biliousness, Sour Stomach, Water Brash, Liver Complaint, Constipation, and Impure Blood. Price 25c., all druggists.

WHEAT STILL WEAK.

A Review of Last Week's Wheat Markets in Chicago, Europe and Canada—The Prices.

Saturday Evening, July 2.

The chief feature in wheat is the quite remarkable advance in American futures with which the week closes. Reports now coming in from all parts of the West seem to indicate that the United States wheat crop will not much exceed 600,000,000 bush. It will be remembered that a few weeks ago the prospect was considered to warrant an estimate of 700,000,000 bushels, and the falling off of 100,000,000 bush. in the outlook was the chief factor which on Thursday and Friday lent strength to the Chicago market. All deliveries advanced, with the result that July wheat closed about 5 cents per bushel higher than last Saturday, while the September and December options each made a net gain of over 4 cents per bushel. It may be added that much of the wheat now being harvested and threshed in the West is of poor quality, and this report is, of course, a factor in the advance spoken of. The Liverpool and Continental markets were very dull and weak during the fore part of the week, but they have been strengthening up the last day or two. Liverpool futures are today ½d to 2d per cental higher than a week ago. Paris and Antwerp are still considerably lower than last Saturday. One event of the week has been the re-imposition of the French duty on wheat, which went into effect yesterday. Had the re-imposition of this impost been postponed until the middle of July, as was at one time thought likely, the first two weeks of this month would have seen a considerable rushing of grain from the British markets into France, and the consequent firming up of the London and Liverpool prices. On the Toronto Board of Trade trade has been stagnant and all grain prices are lower than a week ago.

Toronto St. Lawrence Market.

Receipts of grain and other farm produce were light to-day. One load of goose wheat sold at 70c per bushel.

Oats firmer; 300 bushels sold at 33c to 35c.

Hay and straw, deliveries light; prices unchanged.

Dressed hogs, prices easier at $6 to $6.25 per cwt.

Butter sold at 15c to 16c per lb. for rolls. Eggs sold at 12½c to 15c per dozen for strictly new-laid.

Deliveries of poultry fair, ducks selling at 65c to 75c, and chickens at 45c to 65c.

Cheese Markets.

Cowansville, Que., July 2.—At the District of Bedford dairymen's meeting here to-day, 2816 boxes of cheese were boarded by 42 factories; 43 boxes butter by one creamery; 7⅛c was the highest bid for cheese; no sales; 43 boxes butter sold to H. P. Hibbard for 18¾c. Meeting adjourned to July 9, at 1 p.m.

Ogdensburg, N.Y., July 2.—Twenty-three lots—1474 boxes—offered; 20 lots not boarded; 7⅛c bid; no sales; later on street some reported sold at 7 3-16c.

Cornwall, Ont., July 2.—Twenty factories boarded 1340, of which 226 were colored and 42 American; 398 bought by J. F. McGregor and 400 by C. H. Wood; balance unsold. The president and secretary of the Brockville Cheese Board addressed the members and urged the Vermont district to adopt a "bate brand." After a discussion, it was decided not to take any action now.

Watertown, N.Y., July 2.—Sales of cheese on the Board of Trade to-day: 6000 large at 6¾c to 6⅞c.

London, Ont., July 2.—Eighteen factories boarded 2795 boxes of June; no sales; market quiet. The agreement to sell on the market day only will be ready for signature next market day.

Iroquois, N.Y., July 2.—At the Cheese Board to-day, 970 boxes were offered and 7⅛c bid; no sales; rule made that hereafter all sales must be made on call

A STRONG ARGUMENT.

Wm. McCabe, Esq., Managing Director, N. A. L., Toronto:

DEAR SIR,—Please accept my thanks for your cheque just handed to me, for $3,901.98, in settlement of my $2,500 Fifteen Year Endowment Policy in your Company. Such a result as this, after the risk on my life has been carried for fifteen years, beginning from forty-five years of age, argues one thing strongly, namely, that the management of the North American Life must be in competent hands. The other options you have offered me, viz.: a Paid-up Life policy for $3510.00, or a Life Annuity for $401.90, are, I presume, equally liberal, and it affords me much pleasure to recommend your Company to my friends or any desiring insurance.

Yours truly,

SUNSHINE BRINGS SALES

Vigorous selling has characterized June's business on account of our retailing at Wholesale Prices, and less. There has been a general rush for Light Headwear. Those who refrained from buying early in the season are benefitting by the riper Bargains which our Mid-summer Reduced Prices naturally bring.

TRIMMED HATS. This store's immense success has been earned by showing the prettiest of Trimmed Hats. Our captivating White Effects has influenced June sales remarkably. A new lot of Nobby Sailors going fast at Late-season Prices. Pretty Leghorns and Flower Hats, picked up quickly.

VEILINGS. No woman can look at our Veilings without being convinced that our Styles, Fabrics and Fancy Combinations are very taking. Brisk sales have encouraged us to replenish with some of the latest Novelties out.

RUN ON RIBBONS. Our Stock represents all the late Ribbon Ideas—Plaids, Stripes and fancies. Special values in Roman Effects, pure silk, choice colours. An easy matter to buy Ribbons at a price, but not always easy to get high qualities and latest patterns such as shown here.

CORSET VALUES. Our customers are getting Popular Corsets at prices marked down to quicken sales, but without any expectation of profit. Fine makes of Summer Corsets, faultlessly framed.

Night "Blooming" Cyclists.

Sunday evening about dusk two young lady cyclists appeared on Elizabeth street, Ashburnham, attired in full bloomer outfit. They presented a rather gay appearance in their modern cycling garb, which was something new to the group of young men who witnessed the scene on the corner.

Leisure Reading.

Most people are most at leisure during the summer months. Some may work as hard as at any other time, but we all find some hours for recreation. We seek spots like the verandah, the hammock, the lawn and the lake shore. No matter how easy we take things we always want our mind occupied. Some of us like the magazines, but the majority of us ache for a good novel. Order at the Peterborough Bookstore. Four novels for 25c, is the lowest that can be had. One of the best series we ever sold is at 10c. each, or five for 50c—same price, one or a hundred. A. H. STRATTON & Co.

ASHBURNHAM RUNAWAY.

Dennis Kylie Thrown from one of the Dickson Company's Waggons.

Mr. Dennis Kylie, Stewart Street, Ashburnham, met with a serious accident on Saturday, whereby it was at first feared that he had lost his life.

It seems that he was sitting on the end of one of the Dickson Company's waggons, driven by David McGrath, and just in front of McAllister's mill, Elizabeth street, Ashburnham, the horses took fright at the watering cart and bolted. Kylie ran up to the front of the wagon to assist McGrath in holding the horses, but McGrath was thrown off before he reached him, and Kylie fell to the road from the wagon immediately afterwards. McGrath was only badly shaken up, but when Kylie was reached it was found that he was unconscious, in which condition he remained for several hours

To-day he is somewhat better, but lapses into insensibility at intervals. Drs. McGeath and Moher are in attendance and state that the injuries are not of a fatal nature and that Mr. Kylie's life is not in jeopardy.

A peculiar coincidence exists in the fact that the team which was attached to the wagon was the same which Michael Smith was driving when recently struck by the Klondyke flyer.

TRANSFER OF SAW MILL.

Mr. Alfred McDonald Purchases the Red Mills at Nassau.

Mr. Alfred McDonald has purchased for the Bank of Commerce the mill on the east side of the river at Nassau, erected a few years ago by Mr. J. M. Irwin.

The mill will be taken down and re-erected on Point St. Charles, the site of the mill recently destroyed by fire.

Mr. McDonald expects to have the transfer made and the mill in running order by the first September. The mill which was a very complete small mill will be an improvement upon the one destroyed by fire.

THE VOLUNTEERS ATTENDED ST. JOHN'S

ANNUAL SERMON PREACHED BY THE CHAPLAIN.

Members of the 57th, the 14th Field Battery and the Prince of Wales Dragoons Turn Out For Church Parade.

The officers and men of the 57th Battalion, accompanied by the officers and men of the right wing of the 14th Field Battery and the officers of the Prince of Wales Dragoons, attended divine service yesterday afternoon in St. John's church.

The lessons for the day were read by Lt.-Col. Bell.

Rev. J. C. Davidson, chaplain of the regiment, in delivering the sermon based his remarks on Acts 10th chap., 1st ver.: "There was a certain man in Cesarea called Cornelius, a centurion, of the band called the Italian band."

The attention of men throughout the world, Mr. Davidson stated, had been directed recently to the life of the most remarkable man of the century. William Ewart Gladstone was a British statesman, who in his public life, had as many critics as admirers. Towards the end of his life, however, a new side of his character was revealed to the world—that of intense devoted personal religion. All his actions were directed in life by what he believed to be his duty to his country and his duty to his God. On learning of this fact his critics looked again at his character with the result that instead of being admired by a section of the public all were glad to render the tribute of sincere admiration and sincere sorrow.

In the tenth chapter of Acts, a life somewhat similar is described. A character with two sides. Cornelius the soldier and Cornelius the devout man.

Cornelius must have been endorsed with the great Roman virtues of bravery and courge, as in those days the commander of a century or band of one hundred had necessarily to be a man of character. That he was a devout man is learned from the same chapter. He was but a heathen but he lived according to his light, which many Christians of the present day have not the courage to do.

When Cornelius saw a vision in which he was told to send for Simon Peter, he did so, and the message must have been received with great joy by the latter, as even in the present day God's messengers on earth can receive no greater joy than to be summoned to confer on matters spiritual, and to have their advice sought. No pleasure came to a clergyman such as this.

A blessing came to both Cornelius and Simon Peter by the interview.

War is a terrible necessity, if it is a necessity, but it encourages the grand traits of courage, bravery and heroism as well as tenderness of heart in a man's character.

The best way to avoid war is to prepare for it.

It is a splendid physical and moral training to be in the volunteers. It makes a man courageous and develops true soldierly deportment in him. The virtues of obedience and respect are also developed. Manhood takes a step upward when the drill shed is entered and the members of the Battalion should bend their energies to raising the standard of effeciency higher than it was at the present day. The citizens should be more prompt in extending their co-operation in military matters. The officers should never have to solicit volunteers but the citizens should see that the young men began life with a three years course in the volunteers. In Toronto every encouragement was given the volunteers. When they went on parade hundreds assembled to see and applaud them. This should be the way in Peterborough.

CHURCH CHIMES.

St. John's Sunday school excursion will be made this year to Idyl Wyld on Tuesday, July 12th.

Miss Florence Hall took the solo in the anthem "Rock of Ages" last evening in the Charlotte street church.

Extensive alterations and improvements will begin soon at Mark street church. A basement is to be placed under the church, new seats provided, etc.

In the Charlotte street church yesterday morning the anthem sung by the choir was entitled "My Shepherd." As an offertory solo Miss Florence Hall sung "Never Alone."

The Park street Baptist Sunday school hold their annual excursion and picnic to Highland Park, Wednesday, the 6th inst., per steamer North Star and palace scow. Boat will leave wharf at 8 o'clock.

Those who were present at the Mark street church on Sunday morning were treated to an excellent sermon on the "Church of the Future" by the pastor. In the evening the pastor preached a very able sermon to young women.

As an offertory selection last night in the Charlotte street church "Guard while I Sleep" was beautifully rendered by a quartette composed of Miss Stephens, Miss Hall and Messrs. Wesley and Squires.

Rev. J. J. Might, B. A., of Tyrone, Ont., son of Mr. Stewart Wright, of Ashburnham, assisted in the services in St. Andrew's church yesterday, and preached in the evening a very able, practical and interesting discourse on "The Excellent Spirit of Daniel." Mr. Wright is a young man full of vigour, and of clear judgment and has been very successful in his present charge.

You can count on your Wedding Cakes being right if they come from McQUAY, COLLINS & CO., 406 George Street. Handsome decorations, delicious Icing and fine rich quality are making them very popular.

CANADA IS GETTING THERE.

Messrs. Ahearn & Soper the First to Test Mr. Mulock's Special Delivery Stamp.

The special delivery post office scheme of Hon. Mr. Mulock opened Saturday morning says the Ottawa Free Press. In order to test its efficiency, Messrs. Ahearn & Soper, who, by the way, were at one time applicants for a street railway franchise in Peterborough, mailed a letter to themselves at 10 26 a. m. The letter was delivered to their office on Sparks street at 10.35, nine minutes after being dropped at the post office.

Considering that the letter was the first special delivery letter mailed at this city, and that it had to be entered in a book and receipted for, the time is considered prompt.

Mr. Ahearn and Mr. Soper, who were in their office when the Free Press representative called, remarked that "Canada is getting there." They were very much pleased with the result of their test.

CHEMONG PARK.

SATURDAY, JULY 2ND.

Yesterday Mrs. (Rev.) Symonds drove out here with Mr. W. F. Hamilton, where Mr. Boyd's palace steamer, Calumet, of Bobcaygeon, was in waiting. Mrs. Symonds is a sister of Mr. Boyd.

Mrs. J. R. Stratton and party spent a pleasant afternoon at the park.

Mr. and Mrs. H. S. Macdonald visited their cottage during the week.

Mrs. T. Cahill, M. O'Riely, T. Lapiant and J. Donohue, spent an afternoon and gathered some beautiful specimens of ferns suitable for potting.

Mr. and Mrs. M. L. Henry, Mr. and Mrs. W. H. Hartsborne and Mr. and Mrs. W. D. Parker, have begun summer life in their cottages.

Mr. and Mrs. L. M. Hay spent an afternoon at their cottage.

The following guests registered at the hotel during the week:

Edward W R Hulbert, Strand, Eng, Chas Butler, Peterborough; T H Wilson, Brooklin, Ont; A R Johnston, J J Gordon, Toronto; W K Hall, Peterborough; V C McGill, Lindsay; J A Turner, G Smith, J W Young, Levi Fowler, Geo Manning, W J Morgan, E Manning, H Ritchie, W L Allen, Misses Ipsa Parnell and Minnie Warham, Herb Clegg, Wm King, F W Hall, J Ssvignau, Misses B Driscoll and A White, F O'Connor, C E Graham, Mr and Mrs M L Henry, Mr and Mrs Chas Metcalfe, F W Logan, Peterborough; A Reid, Toronto; Louis Major, P Fitzsimmons, Peterborough; Wm Sherman, Lindsay; J McIndoo, Campbellford; F K Walton, Havelock; Miss M Reid, Bobcaygeon; Louis Housedry, Joseph Etiennoul, Dol, France; Mr and Mrs W H Hartshorne, Fairfield, Conn.; H Lee, Miss Lillian Primeau, Miss Mary Conroy, M J Galvin, Mr and Mrs Alex Elliott, Dr Bradd, C Loucks, O de Leplante, A Lavellier, Peterborough; M J Butler, T Callahan and Master Callahan, Deseronto; E G Smith, D E Yarnold, J B Caron, Ottawa; R B Rogers, Peterborough; Miss M Kearney, Chicago.

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this afternoon, as well as the highest and lowest yesterday—shade temperature:—

To-day, 1 p.m.....71°

	Highest.	Lowest.
Yesterday.....	95°	70°

The highest temperature on Saturday was 92 degrees in the shade. Yesterday (Sunday) the standard thermometer registered 95 degrees in the shade at 1.30 p.m. On July 5th, 1897, 96 degrees were registered, which was the highest of that year.

LAST DAY'S RACING OF THE C. W. A. MEET.

The Finishes Were Better Than On Friday Afternoon.

THE LAST OF THE VISITORS GONE.

McLeod Won all the Professional Events on the Last Day, but McCarthy Pressed Him Hard—Harley Davidson Takes a Hand in the Game and is an Important Factor.

The town seems to be deserted to-day by reason of the fact that the last of the visiting wheelmen left this morning. Street Inspector Ranney deserves credit for the prompt manner in which the thoroughfares were cleaned of the debris with which they were so littered on the First through the pranks of the more exuberant of the visitors.

The attendance at the races Saturday was not one-tenth that of the day previous, but the events on the programme were far more interesting and more keenly contested.

The different events were run off in the appended order with the following results:

Half lie open (amateur)—Entries: A Murray, Hamilton; F W Barnes, Hamilton; F A Moore, Toronto; A Simpson, Toronto; N S French, Toronto; L Smith, Brantford; Bert Coleman, Toronto; David Wilson, Toronto; A Little, Woodstock; A W Stockhouse, Ottawa; W C Baldwin, Ottawa; T S Higley, Blythe; J E Shortt, Toronto; J Attock, Toronto; John Smith, Toronto; Geo W Riddell, Winnipeg; W E Washburn, Smith's Falls; J H Powers, Toronto; A Mott, Brantford.

1st heat—1 Wilson, 2 Moore, 3 Murray, For pacing Nott. Time 1 06 3 5.

2nd heat—1 Riddell, 2 Smith, of Brantford, 3 Smith of Toronto. For pacing, Little. Time 1 06 2-5.

Final heat—1 Riddell, 2 Moore, 3 Nott. Time 1.08.

Riddell, of Winnipeg, had an easy thing of it in the second heat, but in the finals Moore, of Toronto, pressed him hard and it was a pretty race up the stretch between them. Nott, of Brantford, did all the pacing in the last heat and also came in third, thus doubly qualifying for third prize.

The one mile open (professional) event was paced by a triplet manned by Hutchinson, Middleton and Boake. The entries were as follows: H Davidson, Brantford; C W Richardson, Toronto; Angus McLeod, Toronto; T B McCarthy, Toronto; H Carman, Morrisburg; H J Tucker, Toronto; J H Wills, Toronto.

1 McLeod, 2 McCarthy, 3 Davidson. Time 2 07 2-5.

McCarthy caught the triplet at the start having to make a hot spurt for it to shut out Harley Davidson. The pace was so hot in the first half that all dropped out but McCarthy, McLeod, Davidson and Wills. As the quartettee swung into the stretch they jumped the triplet and there was a pretty race to the stretch. McCarthy lapping on McLeod's wheel and Davidson being only half a wheel in the rear.

The one mile amateur championships had to be run off in heats. The entries were: Alf W Sherritt, Brantford; R E Axton, Brantford; T W Barnes, Hamilton; F A Moore, Toronto; N S French, Toronto; Bert Coleman, Toronto; Allan Muir, Brantford; David Wilson, Toronto; A W Stockhouse, Ottawa; Frank Wilson, Ottawa; Robt Mullhall, Ottawa; W C Baldwin, Ottawa; Lawrence Smith, Brantford; A Mott, Brantford; H J Boulter, Picton; J E Shortt, Toronto; Geo W Riddell, Winnipeg; Fred Robinson, Toronto; A F Little, Woodstock; Alex Murray, Hamilton; Washburn, Smith's Falls; Powers, Toronto.

First heat—1, Frank Wilson, 2 David Wilson, 3 Mullhall. For pacing Sherritt. Time 2 18.

Second heat—1 Washburn, 2 Powers, 3 Smith. For pacing Murray. Time 2.29½.

Final heat—1 David Wilson, 2 Washburn. Time 2 25 2-5.

In the second lap of the final heat Frank Wilson and Sherritt collided and came to grief. On rising Sherritt was observed to rise and make a rush for the Ottawa man and in a second the pair were pounding one another until separated by the crowd. Sherritt stated that Wilson deliberately closed in on him and Wilson acknowledged to doing so, but stated in extenuation that his action was caused by the fact of Sherritt's having fouled him by crowding him out of his place.

President Beamant suspended Sherritt from riding for 30 days on account of his action in starting the fight. As Canada's fastest amateur rider was to be sent to the world's championship meet at Vienna this will ruin Sherritt's chances of winning the honour of the nomination.

Fred Loughead made an effort to lower the half mile record still lower than he did the day before, paced by a quad, but failed in the attempt, by reason of the high wind, his time being 59 2-5.

Professional half mile championship—Entries—H Davidson, Brantford; Angus McLeod, Toronto; T B McCarthy, Toronto; H Carman, Morrisburg; J H Wills, Toronto; H J Tucker, Toronto: 1 McLeod, 2 McCarthy. Time 1.08.

Wills took the pace till the riders swung into the home stretch when McLeod sprinted past him, closely followed by McCarthy, who closed up a big gap, but was unable to catch him, and was beaten out by a wheel's length.

Two mile handicap (amateur).—Entries: Barnes T W, Hamilton, scratch; Coleman Bert, Toronto, 75 yards; Muir Allan, Brantford, 175 yards; Wilson David, Toronto, 50 yds; Mullhall Robt, Ottawa, 140 yds; Higley T D, Blythe, 185 yds; Smith L, Brantford, 85 yds; Butterfield John, Hamilton, 150 yds; Grass W L, Westbrooke, 150 yds; Dyment H M, Barrie, 155 yds; Mott A, Brantford, 140 yds; Riddis H, Port Hope, 175 yds; Short J E, Toronto, 60 yds; Anstey F A, Toronto, 150 yds; Westrop R E, Toronto, 160 yds; Vennels W J, Toronto, 150 yds; Simpson W, Toronto, 160 yds; Davidson Fred, Peterborough, 175 yds; Ripley Ralph, Hamilton, 140 yds; Thompson W P, Hamilton, 150 yds; Hancock H, Toronto, 125 yds; Chapman F B, Toronto, 125 yds; Hughes Horace, Toronto, 185 yds; Smith John, Toronto, 60 yds; Martin J M, Lindsay, 100 yds; Blaylock A, Toronto, 100 yds; Hitch W, Toronto, 185 yds; Stoner R, Toronto, 75 yds; Barnett J H, Toronto, 75 yds; Falconer R, Toronto, 175 yds; Little A F, Woodstock, 50 yds; Geo C Abbott, Toronto, 50 yds.

1 Mott, 2 Mulhall, 3 Higley, 4 Abbot. Time 4.34.

The five mile championship (professional) only brought out McCarthy, McLeod and Wills, but it was the prettiest race of the day. McCarthy, as usual, was the quickest to get under way and caught the tandem, followed by McLeod and Wills. After running in this order for 2½ miles a quad came out to relieve the tandem in pace making, but just before the tandem caught up to it Wills jumped from the rear and passing the tandem tacked on to the rear wheel of the quad, thus stealing a march on the other two riders. The tandem riders, however, spurted and caught up to the quad which resulted in Wills being jockeyed out of his favourable position. McLeod then got the quad, but shortly afterwards dropped back and allowed McCarthy to take it. As the riders entered the home stretch on the last lap all in the stand rose to their feet in their excitement. McCarthy starting his sprint first, opened out fully twelve feet between himself and McLeod and looked a sure winner as he came up the stretch, but McLeod was riding at a terrific clip and seemed to fairly lift his wheel ahead of McCarthy at the tape and beat him out by about three inches. Wills not in the race after the stretch was entered. Time, 10 59 1-5.

The two mile tandem championship brought out Moore and French, of Toronto; Wilson and Mulhall, of Ottawa; Abbot and Ausley, of Toronto; Hancock and Smith, of Toronto; Muir, of Brantford, and Murray, of Hamilton.

1, Moore and French, 2, Wilson and Mulhall. Time, 4 48 2-5.

The three mile team race was entered by the following eight teams:

Crescent, Hamilton—Barnes, Butterfield, Ripley.

Toronto A C—F A Moore, N S French, Powers.

A A C, Ottawa—A W Stockhouse, Frank Wilson, Robt Mulhall.

Royal Canadian B C, Toronto—Jos E Short, R Westrop G C Abbott.

Ramblers B C Toronto—J H Barnett, Jno Robinson, Bert Coleman.

Lindsay B C, Lindsay—Robt L Bell, J M Martin, H A Callaghan.

Excelsior B C, Toronto—Rich Stoner, A Blaylock, W Hitch.

Queen City, Toronto—H Hancock, John Smith, Chapman.

1st Toronto Athletic Club, 2 Crescents.

The race was run off in seven heats. Four of these were preliminaries two teams starting in each and only going one mile to qualify. Then came two semi finals when the winners of the previous heats were brought together and after this the finals were brought on which were contested by the two teams winning in the semi finals.

The Ramblers, of Toronto, and the Lindsay team were the starters in the first heat the latter team being beaten out by 15 points to 6, the scoring being done by the first man across tape counting 6 points the second five and so on. All three of the Toronto men passed the winning post ahead of any Lindsay rider.

The Hamilton Crescents and the Toronto Excelsiors then faced the starter, the Hamilton boys winning by 15 points to 6.

The third heat was entered by the Ottawa team and the Toronto Queen City, the eastern riders winning by 13 to 8.

In the fourth heat the T.A.C. team won from the Royal Canadians by 15 to 6.

The winners of heats 1 and 2—the Crescents of Hamilton and the Toronto Ramblers now came together, the ambitious city boys winning out by 11 points to 9.

The fifth heat brought out the Ottawa's and T.A.C.'s, being the winners of heats three and four. The T.A.C. team won out by the close score of 11—10.

After a rubdown the Toronto T.A.C.'s and the Hamilton Crescents faced the starter in the final heat which was to be run over the full distance of three miles. The race was expected to be a close and exciting one, but unfortunately Butterfield's tire punctured, and Barne's front wheel went wrong, with the result that Ripley was the only Hamilton to finish. He made third place and the race went to the T. A. C. team by 14 to 4 points. Time, 8 57 2 5.

NOTES.

McLeod rode an E. and D. wheel geared to 100 in all the races which he entered.

Stan Allen, of Sarnia, the well known and popular correspondent of the Wheelman, remained in Peterborough over Sunday. It was his first visit to the town and he was most favourably impressed, but not more so than those of the local wheelmen who had the pleasure of meeting him.

Pete Smith, of Woodstock, has money to say that he had more fun in Peterborough than any other visitor.

The Niagara boys were booming things for 1899. They were a nice lot of fellows.

The Ottawa boys who came up made themselves very popular. A big crowd will go to the Capital from Peterborough in 1900.

Lem Felcher had everything fixed up in fine shape at the pleasant little grove down the river where he had his barbecue. Many ous loons went down on Saturday, and in the afternoon an enthusiastic crowd witnessed a "hot" game of baseball. At night the grove was beautifully illuminated with Chinese lanterns. As the significance of a barbecue was not fully understood, Mr. Felcher should not be discouraged if the attendance did not reach his expectations. It is safe to predict that if he holds another it will be liberally patronized.

Riddell, who came all the way from Winnipeg to contest in the races, proved to be a flyer of wonderful speed and great judgment. He was barred from the championship events through not being a resident of the province, but he won all the open amateur events which he was allowed to compete in. The knowing ones pick him as Canada's representative to the World's Championship Meet. He was booming things for the Dominion Meet on Sept. 5th and 6th, which is to be held in Winnipeg, and distributed a large number of pretty badges.

Little Davie Wilson of Toronto, was a popular winner when he carried off the two mile amateur championship. He was riding McLeod's E. & D. wheel.

Harley Davidson has apparently gone back to his old love, as he rode a Brantford wheel on Saturday. Although he was in no kind of shape, not expecting to ride, he made things very interesting for McLeod and McCarthy, being a close third in several events.

"Doc." Scully, of Lindsay, had a seat in the press gallery and "rooted" for the Lindsay riders with a great deal of vim.

It is a pity that neither Milt Walker, Will Lytle or Bruce Rickey, of town, were not in shape to enter any of the events. All figured in the triplets and quads that did the pacing.

The gentleman of aldermanic proportions in the white suit was Hal. B. Donly, Secretary of the C. W. A. How did you like his genial smile? Stan Allen was, to use one his own expressions, "the other fellow" in white.

The visitors made lots of noise whilst they were here, but their bark was worse than their bite. Little or no damage of any account was done.

No one can ever say again that Peterborough can't accommodate a crowd. There must have been five thousand visitors and all were easily taken in charge by the local bonifaces.

The wheelmen were delighted with Chemong and Stony Lake summer resorts and many will return here for their holidays.

Mr. Norman Williams, of Cobourg, one of the visiting wheelmen, had his bicycle taken from the hall of the Morgan House on Saturday morning between ten and eleven o'clock. The matter has been placed in the hands of the police. The wheel is a red coloured "Perfect," '97 make, 28 inch frame with rams horn handles. Its number D 182, stamped on the saddle post. Any information leading to the recovery of the wheel will be rewarded.

Weigh Yourself before Taking Them.

GAINED 22 POUNDS.

I have more faith in Dr. Ward's Blood and Nerve Pills than anything else I have ever used. Since using them I have recommended them to several of my friends who were troubled as I was, and now they are in splendid health. I had been a sufferer, like a great many other women, with a disease peculiar to my sex. I tried everything I could read or think about to help me, but was getting worse instead of better. My condition was terrible—I was losing flesh and color and my friends were alarmed. I consulted a doctor of this town and he said I would never get better; that I would always be sickly and delicate, and that medicines were of little use to me. Hearing what Dr. Ward's Blood and Nerve Pills had done for others, I determined to try them myself, and to-day I weigh one hundred and forty pounds, while before I weighed only one hundred and eighteen pounds, and now I have a constitution that is hard to beat. I have not suffered any pain in months, and earnestly hope that Dr. Ward's Blood and Nerve Pills will reach every woman suffering as I did. Sincerely yours, MAY COLE, Simcoe, Ont. Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by THE DR. WARD CO., 71 Victoria St., Toronto. Book of Information free.

THE FARMER WON.

But Schaefer Considers It the Shortest Game of His Life.

"Some years ago," said a sporting man, "when Schaefer kept a billiard room in this city, he was always ready to play all comers who desired a game. Many strangers and people unknown to Schaefer naturally strolled in; many, too, who probably did not know him. But it made no difference to Schaefer. Sometimes strangers would desire to play for money, but this Schaefer would never do. To all such propositions he would say: 'No, I won't play for money, but I'll tell you what I will do—I will play a game, the loser to treat the house.'

"One day an old farmer entered the place, and after wandering about looking at the pictures on the walls and examining the tables he asked if there was any one present who would like to play him a game of billiards. Schaefer, as usual, said that he would play the stranger.

"'How much shall we play for?' asked the farmer.

"'I never play for money,' replied Schaefer, 'but I will play you for the drinks for the house.'

"'All right,' said the farmer. 'How many points shall we play?'

"'Oh,' replied Schaefer demurely in all the consciousness of his superior powers, 'we'll just play until you are satisfied, and we will call that a game.'

"The crowd smiled as the players prepared for the contest. The balls were placed on the table, and Schaefer brought out his favorite cue, and it fell to his lot to open the game.

"The opening shot in a billiard game is a somewhat difficult one, as most players know, and Schaefer, probably through indifference, missed it. He not only missed it, but left the balls close together near one of the cushions. It was what is termed in billiard parlance a 'set up.'

"The old farmer carefully chalked his cue, and after deliberation made the shot. He then gazed at the balls a moment, laid down his cue and exclaimed:

"'I am satisfied.'

"The score was then 1 to 0 in favor of the old farmer, but as Schaefer had agreed to make the game as long or short as the farmer desired he had to be satisfied. Schaefer of course had to invite all present, including his conqueror, to partake of the hospitality of the house. As the crowd laughed and drank Schaefer remarked that the game was the shortest he had ever played, and probably the shortest on record."—New York Tribune.

Encouraged.

"Has my daughter been profiting by your instructions in art?" inquired Mr. Blykins.

"Yes," answered the teacher. "I was a little discouraged at first. But I can now assure you that she is getting on."

"What progress has she made?"

"She has finally become convinced that she doesn't know more about it than the old masters."—Washington Star.

A GLOBE REPRESENTATIVE.

Cured of Lumbago by Dodd's Kidney Pills after his Doctor Failed.

TORONTO, June 20.—(Special).—If there is a good thing in creation a newspaper man will find it out. The truth of this is shown by the case of Mr. John H. Parham, a pressman on the Globe staff.

Mr. Parham has for months suffered from Lumbago, aggravated by the nature of his work in the pressroom. He consulted an eminent local physician, but no benefit resulted from his treatment.

On the advice of a friend he tried Dodd's Kidney Pills, with the result that he was completely cured.

This case is one more proof of the fact that for Lumbago and every other kidney complaint, there is only one cure and that is Dodd's Kidney Pills.

POWHATAN PIPES.

Made From a Peculiar Kind of Virginia Clay and Made Sweet by Fire.

The old coasting captain was gazing upon a crudely shaped red clay pipe which he smoked at the end of a long, many jointed reed stem, while he filled the ears of the observant Jerseyman with its praises.

"If you want the sweetest pipe in the world," he said, "you must get one of these. They are the original Powhatan pipes, made in Powhatan county, Va., out of a peculiar blue clay which is found there in little nodules and finished in a peculiar way.

"The genuine Powhatan pipe can never be found north of Baltimore, and it is easier to get one in Norfolk than in Baltimore. If you begin smoking one, you will discard your meerschaums and brier woods and smoke nothing else. When it gets strong, you merely put it into the fire and burn it sweet again. The imitation Powhatan pipes would crack to pieces if you try to burn them sweet, but the genuine can be thrust in safety right into the bright coals, although, of course, it is better to let them heat more gradually."

Under the stimulus of this praise the observant Jerseyman sent to a friend in Norfolk for half a dozen of the pipes. After a time he received them, with a bill for 75 cents for the pipes and $5 for the trouble of finding them.

"If you had not told me that the pipes sold two for a quarter," his friend wrote, "I should never have got the right kind for you. I went to almost every tobacconist in Norfolk hunting for them. Each one showed me a pipe which looked about the same as these, but was only 10 cents. Finally, one day, after I had about given up the search, I happened to mention it to a longshoreman. 'There is only one shop in Norfolk,' he said, 'where you can get the genuine Powhatan pipe. That is a little place down along the river front.' He gave me the address, and there I found them."

The observant Jerseyman has smoked the Powhatan pipe many times since then, and he still believes the old captain's praise was warranted. On the caution label which came about each pipe it is said that the peculiar qualities of the genuine pipes are due to the fact that they are finished by hand polishing instead of a glazing, thus leaving to the clay all of its natural porosity and absorbent qualities.—New York Sun.

HAPPENS ONLY IN NOVELS.

British Emigration as English Writers See It and as It Really Is.

England no doubt loves us dearly, but the English authors have not yet discovered that fact in its entirety. Clark Russell, Max Pemberton and Anthony Hope, to say nothing of Conan Doyle and Rudyard Kipling, will have it that all Americans are Yankees, although they would resent the charge that all Englishmen are cockneys.

Another symptom of the drift is in relation to emigration from Great Britain. Statistics show that an enormous number of people come to this country from Great Britain, but the novelists never heard of it. Micawber and his interesting family went to Australia and got rich. So did every other emigrant that Dickens sent abroad, unless, like Martin Chuzzlewit and Mark Tapley, they were sent to this country to point a moral and adorn a tale. All English writers resemble Dickens in that respect. In their stories the emigrants all go to Australia, Canada, Africa—anywhere but the United States.

This trait comes under the head of "loyalty to the crown." They know perfectly well that the British emigrant, unless assisted by a British society, takes himself and belongings to this country, and even if the society kindly lands him in Canada he takes the first chance of skipping over the border. The only time he goes to the "colonies" with cheerful alacrity is in the pages of a British novel.—Chicago Times-Herald.

Swayed by a Play.

An impressive instance of a play that influenced a human life comes from one of the northern towns, where a very striking play was being performed in which the disastrous consequences following on the love of two men for the same woman were realistically presented. A young engineer who had conceived a violent affection for a girl who had resented his attentions in view of the fact that she loved another man, who chanced to be the engineer's bosom friend, witnessed this play one evening, and it made a very deep impression on him, as it seemed almost to have been written to apply to his own unhappy situation. Act by act the tragic story was unfolded, jealousy of the disappointed lover ending in crime and punishment, and when at length the curtain fell the engineer had come to a decision. He went home, packed up a few necessaries and a week later set out for Australia, where, by a lucky stroke a year later, he made a mighty fortune. He attributed all his success to the play in question, for had he never seen it he would never have gone away from England, and perhaps some awful occurrence might have arisen from his unrequited passion.—London Standard.

"Ye're bound for the island to live wi' me!"

See Rachray island beyont in the bay!
The dear knows what they be doin out there
But fishin an fightin an tearin away,
An who's to hindher, an what do they care?
The goodness can tell what 'ud happen to me
When Rachray 'ud have me, anee, anee!

I might have took Pether from over the hill,
A dacent poacher, the kind, poor boy!
Could I keep the ould places about me still
I'd never set foot out o' sweet Ballyvoy.
My sorra on Rachray, the could sea caves,
An black neck divers an weary ould waves!

I'll never win back now, whatever may fall.
Oh, give me good luck, for you'll see me no more!
Sure, an island man is the mischief an all,
An me that never was married before!
Oh, think o' my fate when ye dance at a fair!
In Rachray there's no Christianity there!

A woman's headaches may come from several causes. She may have a headache arising from nervousness, or from digestive disturbances. Nine cases in ten her headaches come from disorders peculiar to her sex. It may show itself in the symptoms which are characteristic of a dozen disorders. Dr. Pierce's Favourite Prescription was compounded for the sole purpose of relieving womankind of these ills and pains. Thousands of women have testified that after taking treatment from several physicians without benefit, the "Favorite Prescription" cured them completely and quickly. It has been used for over thirty years, and has an unbroken record of success.

The woman who hesitates is invited to send 31 one-cent stamps to cover cost of mailing a copy of Dr. Pierce's Common Sense Medical Adviser, which contains plain, clear information about all of the organs of the human body and their functions.

Why Princeton Appealed to the Clevelands

"Shortly after the removal of the Cleveland family to Princeton an unmarried lady, a close friend of Mrs. Cleveland, was visiting her," writes a close friend of the former mistress of the White House in The Ladies' Home Journal. "One day while the two women were in the nursery with the three little Cleveland girls, the friend said jokingly to Mrs. Cleveland:

"'Mercy me, Frances, how are you ever going to get all your daughters married off? You see from me that mamma could not do it in New York.'

"'Exactly,' replied Mrs. Cleveland. 'But what better place could there be than a college town like Princeton, I should like to know?'"

What infinite care and pride a woman takes in her wedding trousseau. How fine and fit every dainty gown and filmy bit of lingerie must be. But how about herself, her own fine and delicate physical organism? Has this most important of all considerations been neglected? Has she any weakness or ailment which is going to unfit and incapacitate her for happy marriage?

No woman is fit to marry who has any unhealthy condition of the special structure most intimately concerned in wifehood and motherhood. No modest reluctance should prevent her seeking immediate relief from such troubles. There is no need of the mortifying examinations so detestable to sensitive-minded women. Doctor Pierce's Favorite Prescription is daily curing thousands of women of these troubles in the privacy of their homes.

The "Favorite Prescription" is the only proprietary remedy of its kind prepared by an educated, authorized physician. There is hardly a case so obstinate that it will not completely and permanently cure.

Mrs. Emma G. Clover, of Redkey, Jay Co., Indiana, in a letter to Dr. Pierce, says: "I can recommend Dr. Pierce's Favorite Prescription to anyone who suffers with any female disease. When I was in my teens I was always sick. I took your medicines before I was married, and now I am a well person. I am now twenty-three. I have also taken Dr Pierce's Golden Medical Discovery and 'Pleasant Pellets,' and can recommend them all."

OLD HAY WAGON WON.

Notable Contest Between Ready Hands and Steam In New York City.

In what are sometimes called the halcyon days of the volunteer fire department of New York there was a prejudice against the use of steam power on fire engines. The New York firemen still believed in the work of ready hands and proved their sincerity by challenging an Ohio inventor of a steam fire engine, named Latta, to a public trial of strength and excellence in the city hall park. The challenge was accepted, and the engine reached New York on Feb. 8, 1855. On the next day in the city hall park in the presence of 20,000 spectators the trial of skill took place. At the request of the common council the Exempt Engine company entered the lists with hand engine No. 42, the old "hay wagon," and proceeded to compete with the Latta steam engine.

A match was applied to the kindling wood in the Ohio steam engine, which in 8½ minutes began to pump and discharge water through two large suctions. The "hay wagon" led off by throwing a stream of water toward Beekman street through a 1 1-8 inch nozzle, the steam engine following with a stream in the same direction through a 1¾ inch triangular nozzle. When measured, the stream of the former was found to be 189 feet long and that of the latter 182 feet. Again the competing engines played. At a distance of about 200 feet a party of small boys stood in the street tauntingly demanding to be drenched. The Cincinnati engine unsuccessfully endeavored to gratify them, but when the New York engine began to play they fled in the midst of a drenching shower bath. Cincinnati was beaten by 15 feet.

Then a third trial was ordered. Upon the roof of the city hall 150 feet of hose was hoisted and the pipes pointed upward toward the figure of Justice on the cupola. Pulling themselves together for a last great effort, the New York exempts manned the brakes. For a minute the two streams remained at equal height; then, amid unbounded applause, the New Yorkers sent their stream clear above that of their contestants and kept it so until the end.—New York Sun.

TOM CORWIN.

His Wit, Eloquence and Sarcasm In the House of Representatives.

One of the peculiar characteristics of Mr. Corwin's speeches, says Ainsworth R. Spofford in The Atlantic, was the very frequent introduction of Scriptural phrases and illustrations. His early reading had included the Bible and "Blackstone's Commentaries," and the former must have made the deeper impression of the two. I have heard him when defending a poor newspaper reporter in Cincinnati charged before a United States court with aiding in the escape of a fugitive slave, after convulsing the court with merriment at his picture of "the majesty of the United States" in hot pursuit of an unhappy negro making toward Canada as fast as his feet would carry him, turn the fun into solemn silence by apt allusions drawn from the golden rule and the sermon on the mount.

Corwin's speech in the house in 1840, in reply to General Crary of Michigan, who had attacked the military record of General Harrison, is still often referred to as a fine example of irony and sarcasm. It covered the unhappy Crary with ridicule, and even the sedate and serious John Quincy Adams, then in the house, referred to the victim immediately afterward as "the late Mr. Crary." But there were in nearly every one of Corwin's speeches some scintillations of wit or humor to enliven the ordinarily dull debates, and whenever he took the floor the members were eager to listen.

Speaking upon internal improvement of rivers, he said, "Your constitution is a fish that can live and thrive in a little tide creek which a thirsty mosquito would drink dry in a hot day."

In ridiculing the southern claim of their right to dissolve the Union if precluded from carrying slavery into New Mexico and adjacent territory, he described the great American desert as a "land in which no human creature could raise either corn or cotton—a land wherein for over 1,000 miles a buzzard would starve as he winged his flight unless he took a lunch along with him."

The Sailors' Henecop.

A sailorman is fond of pets, but a ship is no place for animal life However, there are few ships, sail or steam, that do not carry out of port a coop of hens and a rooster. These seem to be for company or association or something of that sort, for the oldest mariner never heard of one of the hens being killed for the mess, and a hen at sea absolutely refuses to lay eggs, and small blame to them.

The henecop is generally placed on the forward deck near the fo'c'sle, in which the sailors live. They have a box of sand in which to roll and are made as comfortable as possible. After one or two voyages the hens become excellent sailors, and it is a queer sight to see them balance themselves on their sea legs when the ship tosses and rolls.

When the ship is in dock, the fowls are always driven into their coop and kept there until the ship is at sea, when they are released and given the freedom of the deck. At night they seek the shelter of their coop of their own accord.—Kansas City Star.

A PRESSMAN'S STORY.

Mr. Parnham Tells how Dodd's Kidney Pills Cured His Lumbago.

Toronto, June 27.—The story of the escape of the Globe pressman, Mr. John H. Parnham, from the agonies of Lumbago, by using Dodd's Kidney Pills, is unusually interesting.

Mr. Parnham writes to the Dodd's Medicine Co., Limited, thus:—"I am proud to testify to the wonderful efficacy of Dodd's Kidney Pills. About eight months ago I was attacked by severe pains in my back. I consulted an eminent physician, who said I had Lumbago and told me to take Turkish baths. These did me no good.

"A friend advised me to try Dodd's Kidney Pills. I did so, and one box cured me. My back has never troubled me since."

A Nice Little Order.

A man who had "got on" in life and rapidly amassed a large fortune, on furnishing a new and luxuriously fitted house, suddenly discovered, to his great distress, that he had omitted the "harmless necessary" library. He went to a local shop and ordered a supply of books.

"What are your particular tastes?" asked the bookseller.

"Oh, I've no hideas about the matter," was the reply. "You're a bookseller—you ought to know all about it. I simply ask you to provide me with a library."

"And you have no preference?"

"No, but wait a second. I 'ave a preference. There's a man whose books I ought to 'ave. Now, bless me, what's 'is name? Shake—Shakes—Shakes something."

"Shakespeare," suggested the bookseller.

"That's 'im—Mr. Shakespeare. Get all he's written, and see that any new books he may write are ordered for me immediately."—Pearson's Weekly.

Flower Painters.

About the last literary work completed by the late Cora Stuart Wheeler was a beautiful tribute to "Some Court Painters to Queen Rose" published in The Woman's Home Companion, in which she says:

"As a rule, women make the best flower painters. The men who excel in this branch of art are comparatively few, even when we consider the small number of artists of both sexes who have acquired reputation in the picturing of flowers. The reason is not difficult to see. The average woman has a fondness for flowers which brings her into the closest sympathy with them and enables her to appreciate and understand them as men seldom do. In the interpretation of certain subtle phases of floral life her sensitive temperament and the peculiarly sympathetic feeling that she is apt to bring to her labor of love especially qualify her for engaging in this department of picture making. In point of technical ability some marvelously clever work has been done by artists of the gentler sex in the reproduction of flowers and in the treatment of difficult subjects."

DYING BY INCHES!

But Dodd's Kidney Pills will Yet Renew Life.

Thousands of persons die in the prime of life because doctors think Bright's Disease and Diabetes incurable. But Dodd's Kidney Pills cure them both. They *have cured* thousands of cases.

These diseases and other Kidney complaints are as common as ordinary colds. But people don't realize that they are afflicted till the disease has eaten deep into the system. Even then, Dodd's Kidney Pills will positively cure.

Thousands of *people are dying on their feet, but do not realise it.* They notice one or more of these symptoms: shortness of breath, loss of memory, failing sight, ravenous appetite, pale or reddish urine, with brick-colored deposit, scalding when urinating, constipation, nervousness, pains in the loins. Their only hope is Dodd's Kidney Pills. They won't fail. They never do.

LOVED LIFE TOO WELL.

Ancient Natchez Indian Who Rebelled Against Being Sacrificed.

One of the repulsive features of the laws under which the Natchez Indians were governed was that when a member of the royal family of the nation died it was necessary that several others of the people should accompany him to the tomb by suffering death at the hands of executioners. When the "great sun," the hereditary chief of the whole nation, died, all his wives, in case he were provided with more than one, and also several of his subjects, were obliged to follow him into the vale of shadows. The "little suns," secondary chiefs, and also members of the royal family, likewise claimed, when dying, their tribute of death from the living. In addition to this, the inexorable law also condemned to death any man of the Natchez race who had married a girl of the royal line of the "suns." On the occasion of her death he was called upon to accompany her.

"I will narrate to you upon this subject," writes an old French chronicler of Louisiana, "the story of an Indian who was not in a humor to submit to this law. His name was Etteacteal. He had contracted an alliance with the 'suns.' The honor came near having a fatal result for him. His wife fell sick, and as soon as he perceived that she was approaching her end he took to flight, embarking in a pirogue on the Mississippi, and sought a refuge in New Orleans. He placed himself under the protection of the governor, who was at that time M. de Bienville, offering himself to be the governor's hunter. The governor accepted his services, and interested himself in his behalf with the Natchez, who declared, in answer, that he had nothing to fear, inasmuch as the ceremony was over, and as he had not been present when it took place he was no longer available as a candidate for execution."—New Orleans Picayune.

Severe Bronchitis Yields Promptly to Dr. Chase's Syrup of Linseed and Turpentine

I used your Dr. Chase's Syrup of Linseed and Turpentine for a severe attack of Bronchitis. I got better from the time of taking the first dose. Having a family of small children, my docter's bills have annually come to a considerable sum. I believe a bottle of Dr. Chase's Syrup occasionally will aid me in reducing them very materially.

How Admiral Cervera Lost on a Desperate Chance.

ADMIRAL CERVERA A PRISONER.

The Torn and Disabled Fleet Ran Ashore to Avoid Sinking or Capture—Frightful Loss of Life—1,500 Prisoners of War Captured —Only One American Killed.

Ten miles west of the entrance of the harbor of Santiago de Cuba, July 3, 4 p.m., by Associated Press despatch boat Wanda, to Port Antonio, Jamaica, Monday, July 4, via Kingston, July 4, 4 p.m.—Admiral Cervera's fleet, consisting of the armored cruisers Cristobal Colon, Almirante Oquendo, Infanta Maria Teresa and Vizcaya, and two torpedo boat destroyers, the Furor and the Pluton, which had been held in the harbor of Santiago de Cuba for six weeks past by the combined squadrons of Rear-Admiral Sampson and Commodore Schley, lies to-day at the bottom of the Caribbean Sea off the southern coast of Cuba. The Spanish admiral is a prisoner of war on the auxiliary gunboat Gloucester, and 1,000 to 1,500 other Spanish officers and sailors, all who escaped the frightful carnage caused by the shells from the American warships, are also held as prisoners of war by the United States navy.

The American victory is complete, and, according to the best information obtainable at this time, the American vessels were practically untouched, and only one man was killed, though the ships were subjected to the heavy fire of the Spaniards all the time the battle lasted.

Admiral Cervera made as gallant a dash for liberty and for the preservation of his ships this morning as has ever occurred in the history of naval warfare. In the face of overwhelming odds, with nothing before him but inevitable destruction or surrender if he remained any longer in the trap in which the American fleet held him, he made a bold dash from the harbor at the time the Americans least expected him to do so, and, fighting every inch of his way, even when his ship was aflame, and sinking, he tried to escape the doom which was written on the muzzle of every American gun trained upon his vessels.

The Americans saw him the moment he left the harbor and commenced their work of destruction immediately. For an hour or two they followed the flying Spaniards to the westward along the shore line, sending shot after shot into the black hulls, tearing great holes into their sides and covering their decks with the blood of the killed and wounded.

At no time did the Spaniards show any indication that they intended to do otherwise than fight to the last. They showed no signals of surrender, even when their ships commenced to sink and the great clouds of smoke pouring from their sides showed that they were on fire. But they turned their heads toward the shore less than a mile away, and ran them on the beach and rocks, where their destruction was soon completed. The officers and men on board then escaped to the shore, as well as they could, with the assistance of boats sent from the American men-of-war, and then threw themselves upon the mercy of their captors, who extended to them the gracious hand of American chivalry. One or another of the Spanish ships became the victim of the awful rain of shells which the American battleships, cruisers and gunboats poured upon them, and two hours after the first of the fleet had started out of Santiago harbor three cruisers and two torpedo boat destroyers were lying on the shore, 10 to 15 miles west of Morro Castle, pounding to pieces, smoke and flame pouring from every part of them and covering the entire coast with a mist which could be seen for miles.

Admiral Cervera escaped to the shore in a boat sent by the Gloucester to the assistance of the Infanta Maria Teresa, and as soon as he touched the beach he surrendered himself and his command to Lieut. Morton, and asked to be taken on board the Gloucester, which was the only American vessel near him at the time, with several of his officers, including the captain of the flagship. The Spanish Admiral, who was also wounded in the arm, was taken to the Gloucester, and was received at her gangway by her commander, Lieut. Commander Richard Wainwright, who grasped the hand of the grey-bearded Admiral and said to him:

"I congratulate you, sir, upon having made as gallant a fight as was ever witnessed on the sea."

Lieut. Commander Wainwright then placed his cabin at the disposal of the Spanish officers.

At that time the Spanish flagship and four other Spanish vessels had been aground and burning for two hours, and the only one of the escaping fleet which could not be seen at this point was the Cristobal Colon, but half a dozen curls of smoke far down on the western horizon showed the fate that was awaiting her.

The Cristobal Colon was the fastest of the Spanish ships, and she soon obtained a lead over the others after leaving the harbor, and escaped the effect of the shots which destroyed the other vessels. She steamed away at great speed with the Oregon, New York, Brooklyn and several other ships in pursuit, all of them firing at her constantly, and receiving fire themselves from her after guns.

Captain Evans, who had been in the thick of the engagement up to the time he took the Vizcaya's officers and crew from the shore, said that to the best of his knowledge not one American ship had been struck.

The torpedo boat Ericsson, which has also returned from the westward at about the same time, made a similar report, saying it was believed no man was injured on board the American ships, though another report had it that one man was killed on the Brooklyn, which could not be verified as this despatch is sent.

There is no means of telling now what the Spanish loss was, but it is believed to have been very heavy, as the prisoners in custody report their decks strewn with dead and wounded in great numbers, and besides there is a statement that many bodies could be seen fastened to pieces of wreckage floating in the sea after the fight was over. A large number of the Spanish wounded were removed to the American ships.

There can be no doubt that Admiral Cervera's plan to escape from Santiago was entirely unexpected by Admiral Sampson, and the best evidence of this is the fact that when the Spanish vessels were seen coming out of the harbor the flagship New York was several miles away, steaming to the eastward toward Juragua, the military base, nine miles east of Morro.

The New York was out of the fight altogether at every stage, but she immediately put about and followed the others.

Spaniards Don't Believe It.

Madrid, July 5.—The following semi-official statement was issued yesterday afternoon:

"The semaphore from Morro Castle to Santiago says the Spanish squadron, after a cannonade with the Americans, showed no signs of injury, therefore the American news of the rout of Admiral Cervera must be utterly untrue. Moreover Admiral Cervera's squadron is faster than Admiral Sampson's."

SAMPSON'S PRESENT.

The Admiral's Fourth of July Offering to the Nation Officially Communicated.

Washington, July 5.—The Secretary of the Navy has received the following: Playa, via Hayti, Secretary of the Navy, Washington, 8.15 a.m., Siboney, July 3. —The fleet under my command offers the nation, as a Fourth of July present, the destruction of the whole of Cervera's fleet. Not one escaped. It attempted to escape at 9.30 a.m., and at 2 p.m. the last, the Cristobal Colon, had run ashore sixty miles west of Santiago and had let down her colors. The Infanta Maria Teresa, Oquendo and Vizcaya were forced ashore, burned and blown up within 20 miles of Santiago; the Furor and Pluton were destroyed within four miles of the port. Loss, one killed and two wounded. Enemy's loss probably several hundred from gun fire, explosions and drowning. About 1,300 prisoners, including Admiral Cervera. The man killed was George H. Ellis, chief yeoman of the Brooklyn. (Signed) Sampson.

Two More Spanish Ships Destroyed

Off Santiago de Cuba July 3, via Kingston, Jamaica, July 3.—On the morning of July 1 the Hirst, Hornet and Wampatuck destroyed a Spanish gunboat near Cape Cruz. On the afternoon of the same day these members of the Mosquito Fleet destroyed another Spanish war vessel at Manzanillo. At the latter place a hot engagement ensued between the three small American craft and nine Spanish vessels, supported by land batteries and troops ashore.

One large Spanish torpedo boat was disabled, three Spanish gunboats were seriously injured, and a pontoon full of Spanish troops was sunk, the enemy escaping in boats.

The Hornet was temporarily disabled, but the only casualties on the American side were three men slightly scalded by escaping steam. The Spanish loss in troops and sailors is believed to be heavy.

SURE WAR SHOTS.

Paragraphs Which Will Keep Readers in Touch With Events That Have Happened and Are Expected.

Watson's squadron will be sent to the Spanish coast immediately.

A despatch from Madrid, via Paris, says Premier Sagasta is urgently desirous of peace.

Miles to Shafter: "I expect to be with you in one week with strong reinforcements."

President McKinley wires Admiral Sampson "congratulations of the whole American people."

To-day the bombardment of Santiago begins at noon unless a surrender is made to Gen. Shafter.

The news of Cervera's destruction, or rather of Sampson's victory, was received at Washington with wild enthusiasm.

Gen. Shafter now thinks Gen. Pando and his 5,000 troops will be stopped by the Cubans before they arrive at Santiago.

Gen. Miles has sent a congratulatory cable to Gen. Shafter and the latter has returned one of gratitude for the recognition.

Some New York ladies have notified Gen. Miles that they have a star-spangled banner to present to the heroes of the 21st infantry when opportunity offers.

Shafter to Miles says: "I feel that I am master of the situation and can hold the enemy for any length of time." In the other Shafter says: "My demand for the surrender of Santiago still being considered by the Spanish authorities."

In reply to Gen. Shafter's demand for the capitulation of Santiago de Cuba by 10 o'clock on July 4, Commander-in-Chief Toral replied: "It is my duty to inform you that the city will not surrender."

In consideration for the women and children and non-combatants Gen. Shafter extended the time for the bombardment of Santiago until Tuesday noon, "provided in the interval Spain's forces make no demonstration whatever upon my own."

Shafter to the War Department July 3: "To-night my lines completely surround the town, except the west bend of the San Juan river for a short distance."

There was joy at Sampson's home at Glen Ridge, N.J., when the news of his victory was received, and wife and son and daughter kept open house all day.

The London Times says: "It is a pity that enemies who show themselves such worthy foemen in the field cannot see their way to save bloodshed by coming immediately to an arrangement on the inevitable basis. The Spanish have amply vindicated their honor.

The Paris Temps says: The capture of Santiago de Cuba is an irreparable blow for the Spaniards. The paper concludes its article by saying: "Spain has not an hour to lose to negotiate for peace."

Admiral Dewey cables to the Navy Department at Washington confirming the report of the arrival of the transports at Manila, and the capture of the Ladrone Islands.

The President has recommended the following promotions for the navy: Commodore Frederick V. McNair to be rear admiral; Captain William T. Sampson to be a commodore; Commander Francis W. Dickinson to be a captain.

The London Foreign Office has received a despatch from the British Consul at Santiago de Cuba saying he has obtained a postponement of the bombardment of that city in order to allow 20,000 non-combatants to leave the city. The Consul and the British subjects will embark on ships in the harbor.

GUILLEMAIN MURDER TRIAL.

Prisoner Had Plenty of Money and Said He Stole It From Barnum's Circus.

St. Hyacinthe, Que., July 5.—The Guillemain murder trial was resumed yesterday morning, Judge Tellier presiding. Ludger Guilbault of Biddeford, millhand, said that he met Guillemain in Cassavant's restaurant on Nov. 13 last. There were also present Louis Ladoux, Napoleon Pletore and two other young men. The accused handed the witness $11 in Canadian bills for safekeeping. Ladoux, Pletore, Guillemain and himself afterwards started for the Flats. On the way they had a number of drinks. Guillemain also bought pipes and gloves. The witness made all the purchases, tendering a $10 bill each time, and invariably returned the change to Guillemain. The accused had boasted to him that he had stolen the money from Barnum's circus in Montreal. He said he intended to return to Canada the following week for trial, and proposed taking $30 for expenses. Guillemain also expressed to the witness his intention to leave the balance of the money in Guilbault's hands during his absence in Canada.

Judge Tellier ordered the preliminary evidence taken at Biddeford last autumn to be read, meantime reserving his decision as to its admissability.

Sheriff Sicotte read the depositions of City Marshal Harmon and Constable Rodrigue. Both declared that Guillemain freely confessed his guilt. They offered him no inducement whatever nor did they force him to make admissions.

North Simcoe to Be Fought.

Collingwood, July 5.—Harry Hamilton of Glen Huron, Reeve of Nottawasaga, and for years a hard fighter in township politics, is named as the likely nominee of the Conservatives in North Simcoe. He is thoroughly in sympathy with the McCarthyites, and is popular here, where the thick of the fight will surely be.

Stewart is the likely man for the Liberals. With these two men up there will be a hot time at the election of a representative to the Federal Parliament.

Gaudaur Beat Johnson.

Vancouver, B.C., July 5.—The Gaudaur-Johnson boat race, owing to the unsatisfactory termination of Saturday's contest, when Johnson broke an oar, was rowed over again last night by mutual consent. It was nearly dusk before the water was in fit condition to start the race. Gaudaur won handily by four lengths. Time not given.

Hamilton Bay Drownings.

Hamilton, July 5.—The bodies of Williams, Sinnett and Searl, who were drowned in Burlington Bay Sunday, have not been recovered yet. Dragging parties were at work all day, but were not successful, as there is a strong current at the point where the boating accident happened.

Perfectly Cured

Weak and Low Spirited — Nervous Prostration — Appetite Poor and Could Not Rest.

"I take great pleasure in recommending Hood's Sarsaparilla to others. It has been the means of restoring my wife to good health. She was stricken down with an attack of nervous prostration. She suffered with headaches and her nerves were under severe strain. She became very low spirited and so weak she could only do a little work without resting. Her appetite was poor, and being so weak she could not get the proper rest at night. She decided to try Hood's Sarsaparilla, as we had heard it highly praised, and I am glad to state that Hood's Sarsaparilla has perfectly cured all her ailments." G. EDITORIAL NOTES.

PETERBOROUGH, the Port Hope Guide says, sets a good example to sister towns and cities by taking advantage of the permissive act of last session, and abolishing the ward system and reducing the number of aldermen. We hope Port Hope will follow suit.

THE Ottawa Free Press says; Peterborough has declared itself in favour of the abolition ot the ward system, and in future will have nine councillors elected by general vote. The people have asserted a right principle, and struck a blow at a civic system which is obviously defective. Peterborough has set a good example in taking a very important step in the direction of municipal reform, a subject which, in all its bearings, must became a general and burning issue ere long.

"AT the Crown Land Office in Fredericton, N.B., last week a timber berth at heads of Jacquet and Tatmagouche Rivers, six miles was sold. Being a previously unworked berth and near the river, it is considered valuable and bidding was lively. It finally went to Damery & Vaughan at $120 a mile." Yet partizans denounce the Ontario Government for sacrificing our timber, when the fact that under the present and immediate past governments, the average has been about ten times what the "unworked," "valuable" berth in New Brunswick was sold for. The average price of limits under the government preceding the Mowat Government was $54 per square mile; under the Mowat Government, $1,202.15 was the average price, and under the Hardy Government the average price was $2,864 per square mile. One fancy limit sold as high as $17,500 per square mile, while the average was as above. The critics won't find any provincial government that administers the Crown domain with better results than the Ontario Government manages our own great patrimony.

A VERY CURIOUS CASE.

A case somewhat novel in the annals of English police courts has been tried before the borough magistrates of Leicester. A commercial traveller was arraigned by the Society for the Prevention of Cruelty to Children, charged with "inflicting mental suffering" upon his family of four children. The specific acts complained of were those of intoxication prolonged for three months, and of repeatedly threatening them with violence when in that condition. There was no evidence of actual assault. The magistrate treated the prisoner to a free lecture upon his unmanly conduct, and then sentenced him to hard labour for three months!

It has been maintained by those who ought to know the mental suffering of this kind is the refinement of cruelty, that the moral injury so sustained is farther reaching than any physical injury could be, and that such misconduct demands exceptional punishment. If the punishment can in all cases be made to fit the crime, it will be interesting to note its effects in a year or two from uow.

ASSISTING THE FRUIT TRADE.

In another month or so it is the intention of the Canadian Department of Agriculture to make another trial shipment of peaches, pears and tomatoes to the United Kingdom. The later of those made last year were very successful and it is said that Prof. Robertson is hopeful of developing a large trade with the Old Country, more especially in pears and in tomatoes. It has too often been the experience at ports in Great Britain that Ontario fruit reached those shores in bad condition. But if there were a good service of refrigerator cars there is no reason why the best fruit of Ontario should not be laid down in Liverpool, or Glasgow or London in better condition than from California. The difficulty in the past has been that the fruit was put on the cars warm from its journey over warm country roads in very warm weather. When it was put into the cars its heat was great enough to melt the ice intended to cool it. Ontario fruit growers are recognizing this, and several of the larger among them, in the Niagara and Essex peninsula, are erecting cold storage rooms to chill the fruit before putting it on railway cars. A continuous chain of chilled vehicles or receptacles appears necessary all along the route, if the fruit exporting business is to be done in perfection.

MOUNT PLEASANT.

(From Our Own Correspondent.)

Miss C. Hunter, of Bobcaygeon, is calling on her many friends of this part.

Our local baseball enthusiasts practice a little, but have not put up a team yet.

Our village was visited a few days ago by an M. D., who was looking over the territory with a view to setting up in business. We would like to see a doctor settle here soon and think his practice should yield a fair financial return.

Fruit promises to be a fair crop; the fall wheat is filling well and will yield a large average; the spring grains are almost a parallel.

A new residence is being erected by Mr. Wm. Smith on the lot where the old Patterson homestead stood.

Our school closed on the 30th ult. for a period of mental rest, which we hope the pupils and our energetic teacher, Mr. A. Mills, will enjoy.

The Methodists are having their church internally and externally renewed and improved in appearance. Their services during the period of reconstruction are held in the Presbyterian church.

Mr. Samuel McCormack is having his residence repaired and brightened up. Mr. James Smith is doing the work.

Mr. A. P. McLean, of Peterborough, paid his parents a visit last week.

We were glad to welcome among us again, as a visitor, an old Mount Pleasant boy, in the person of Mr. Harry Thexton, of St. Thomas, North Dakota. Harry looks well and we trust he will take pleasure in visiting his childhood's home and his numerous friends and acquaintances.

Rev. Mr. Tanner, preached in the Presbyterian church on Sunday evening, (26 ult.) after having spent a two weeks' vacation among his people in the east. Near the close of the service the reverend gentleman expressed his gratitude for the holiday season that had been so generously given him.

Our lodge of Good Templars is in full blast again after a period of ennui. The society appears to be in a healthy state and a number have embraced the doctrines of its ritual. Meetings are held every Thursday evening in the I.G.G.T. hall.

A number of our citizens attended the bicycle races in Peterborough on Friday and Saturday.

Mr. Walter McLean, of the Ontario Institute for the Blind, Brantford is home again.

YOUNG'S POINT.

From Our Own Correspondent.

Rev. Father Fitzpatrick was in Peterborough last week renewing acquaintances.

Rev. Father Coty of Dundalk, is spending a few days here.

Mrs. James Stewart is the guest of Mrs. Wm. McGregor.

Mrs. M. Blewitt is still in the hospital at Toronto, but we are pleased to hear she is recovering.

The following guests are registered at the Lake View: Mr. and Mrs. John A. Perry, Miss Sadie Perry, Peterborough, G. T. Gorrie, Toronto, C. Lane, D. Casey, Rochester.

The farmers have begun haying here and report an excellent crop, especially in clover.

An excursion of the Methodist Sunday School of Lakefield passed through here on the Sunbeam, July 1st.

Miss Lottie Kearney is spending a few days at the Phelan House, Peterborough.

One of Rathbun's drives passed through here last week. Mr. J. Kelly was foreman and John Kelly cook. Mr. Kelly is one of the best cooks that comes through these waters and can teach the majority of ladies how to bake bread. The cookery was taken back to Stony Lake from here in order to meet another drive of the company.

THE SAME OLD WAY

Dyspepsia and Other Stomach Troubles Yield to Only One Treatment.

They Can be Cured Only by Using Dodd's Dyspepsia Tablets—That is Why Dodd's Dyspepsia Tablets Have So Many Imitators.

When gangrene or blood poisoning attacks a man's arm, there is only one way known to medical men of checking it and preventing death. That is to cut the arm off. No doctor on earth would think of doing otherwise in such a case.

When an arm has to be cut off, there is only only one way known to medical men of doing it. That is, with the surgeon's knife and saw. No doctor would dream of cutting it off with a knife, such as is used for pruning trees.

The rule is equally as firm and ironbound in the treatment of Dyspepsia, Indigestion, Biliousness, Sour Stomach, Heartburn, Flatulence, Headache, Catarrh of the Stomach, and all other stomach troubles.

There is only one thing to do—remove the cause, which is imperfect digestion.

There is only one way to do this — that is by the use of Dodd's Dyspepsia Tablets.

Thousands who have suffered the tortures of Indigestion, etc., and who tried other remedies will tell you this. Nothing did them the slightest good until they began to use Dodd's Dyspepsia Tablets.

Dodd's Dyspepsia Tablets digest the food you eat. They dissolve it into a milky fluid, which easily passes into the other digestive organs.

Besides thus removing the cause of all stomach troubles, Dodd's Dyspepsia Tablets remove all possibility of their return by restoring the stomach to a healthy condition so that it can afterward digest the food itself.

Dodd's Dyspepsia Tablets are sold by all druggists at fifty cents a box, six boxes $2 50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto.

Weak Women.

"For years I suffered from weak action of the heart, dizziness and a watery condition of the blood. Milburn's Heart and Nerve Pills have made my heart strong and enrichened my blood so that now I am free from the troubles that formally distressed me." B. A. ROSS, Alias Craig, Ont.

FOURTH AT THE FALLS

Canadians Join in the American Celebration.

STARS AND BARS IN ENGLAND.

Other Celebrations of Uncle Sam's National Holiday Marked by Cheers for the British Flag and British Airs—Canadian Soldiers in Yankeeland Score Big Success.

Niagara Falls, Ont., July 5.—The Fourth of July was perhaps celebrated to-day at Niagara Fal', N.Y., as it has never been before in the history of the United States. The day's doings were largely advertised by large bills pointing out the fact it was to be an international celebration, the bills bearing the Stars and Stripes and Union Jack, which had the effect of bringing visitors from far and near to see British and Americans join hands and celebrate the glorious Fourth of July. The day's doings consisted of a monster parade of the Fire Department and societies in which the Fire Brigade from this town participated. The Mayor, Council and civic officials of both Niagara Falls, N.Y., and this place were also in the parade. The Union Jack and Stars and Stripes both waved together in the breeze, and were cheered to the echo by thousands of spectators that lined the streets all along the line. Mayor Hill of this town declared the day half holiday, and thousands of Canadians crossed the bridge and showed by their presence and lusty cheers their full sympathy with the people of the United States in their struggle for Cuba's freedom. The stores, business places and private residences of Niagara Falls, N.Y., were profusely decorated as they never have been before with Union Jacks and Stars and Stripes, and no one within the gates of the Cataract City knew any other nationality but British and American nationality to-day, and the cheers of the multitude that thronged the streets rent the air for the welfare of these two great peoples. After the parade patriotic and appropriate speeches were made in Prospect Park by prominent Americans and Canadians. During the evening a programme of fireworks were set off over the rapids above the American Falls from Goat Island, which were witnessed by 15,000 persons. The Fourth of July celebration of 1898, on account of its uniqueness, will be long remembered by those who witnessed it at Niagara Falls, N.Y.

Royal Scots Made a Hit.

Portland, Me., July 4.—The 5th Royal Scots of Montreal arrived here Sunday morning, and were given a most enthusiastic reception. After breakfasting they attended service in St. Luke's Cathedral, where His Lordship, the Right Rev. Dr. Neeley, Bishop of Maine, conducted the service and preached the sermon. In the afternoon they were taken for a trip among the Islands, a stop being made at Cushing's Island, while the men enjoyed a much-coveted bath in the salt water.

In the evening the band of the regiment gave a concert at Riverdale Park. In the parade this morning, the largest for several years past, the Royal Scots occupied a prominent place, and were tendered a magnificent ovation by the enormous crowd that lined the streets. The Connecticut Volunteers, who are camping in South Portland, and the Yankee sailors, went round arm in arm with the Royal Scots, and the best of good feeling prevailed. The ladies were completely enraptured with the boys in red, and Riverside Park, on the occasion of the concert by the band of the Scots last night, was crowded with the members of the fair sex. The regiment left for home to-night.

Great Day at Burlington, Vt.

Burlington Vt., July 4.—The Union Jack and Stars and Stripes waved side by side to-day, and Her Majesty's reserves and American National Guard stepped to the tune of "God Save the Queen," and "Yankee Doodle." It was a day unique among other jolly Fourths, and perhaps the first time that British soldiers helped celebrate the day when the United States declared their independence from their fathers, but if to-day is any criterion, the past is forgotten.

At the station, long before the train came in, vast crowds blocked the way, and the Union Jack and the Canadian flag were conspicuous in every place that could be decorated. The train arrived at 8 o'clock, and cheers rent the air as the Canadian militia alighted. Awaiting them were Company M, Vermont National Guard, and Sherman's military band. The former acted as an escort, and the visitors marched to the armory of Company M, the troops' headquarters. The flashing helmets, the gay uniforms, the proud military bearing of the men, the squeaking of the bagpipes, the crash of the 43rd Battalion Band, will never be forgotten, and Burlington cheered Victoria's soldiers to the echo. The visitors are as follows:

Forty-third Ottawa and Carleton Rifles, 314 officers and men, Lieut.-Col. A. P. Sherwood commanding, Majors B. H. Bull and S. H. Rogers, Adj. Capt. T. C. Borille; Princess Louise Dragoons, Capt. Robt. Brown, 35 officers and men; Caledonia Bagpipe Band.

The feature of the day was a grand parade by the visitors, and they enjoyed the hospitalities.

A WINDSOR JEWELLER.

Cured of Bright's Disease by Dodd's Kidney Pills.

Windsor, July 4th.—(Special despatch)—"If the United States army had taken a supply of Dodd's Kidney Pills to Cuba it would have been able to withstand the ravages of disease arising from the drinking of bad water," said a promident physician to-day.

"Dodd's Kidney Pills he continued, are the greatest life savers in the world. I know a score of persons whose lives they have saved.

"Right here in Windsor Mr. R. F. Colwell, the Ouiette street jeweller, has been cured of Bright's Disease by them after two years' suffering. I use them in my practice, and can cure the worst case of Bright's Disease, Diabetes, or any other Kidney complaint with them."

Can get INSTANT RELIEF
by a SINGLE APPLICATION
of NEUROLINE

Without burning or injuring the mouth. In use over 25 years. Ask your druggist for J. O'Donnell's TOOTHACHE REMEDY and see that his signature is written on each bottle. TAKE NO OTHER. THERE CAN'T BE ANY SUBSTITUTE. Prepared by J. O'Donnel, L.D.S., Peterborough, Ont. Price 25 cents.

I have used NEUROLINE, the remedy for toothache and neuralgia prepared by Dr. O'Donnel, for a number of years, for myself and family and have no hesitation in pronouncing it the greatest remedy for the immediate relief of toothache I ever came across or heard of and cheerfully recommend it to all sufferers. I always keep a supply on hand. I also gave a lady up the back lakes a bottle, who said it relieved her instantly.

FEARFUL HAVOC BY LIGHTNING.

An Awful Storm and Much Destruction in Prince Edward Island.

Halifax, July 5.—A special from Charlottetown, P.E.I., says, during a thunder and lightning storm last evening the house of William Duffy, at Kelly's Cross, was struck and shattered. Two men, Thomas Monaghan and Owen Trainor, neighbors, who were visiting Mr. Duffy, were killed instantly. Sitting between the two was Duffy, who escaped injury. Miss Duffy, who was in the house at the time, received a severe shock. The storm in that section of the island, as well as at Emerald, was terrible. The barn of James Mutch was struck and destroyed. Martin's lobster factory at Cavendish was destroyed. The house of Altan A. Macdonald, at Peake's Station, was struck and badly damaged. The house of Christopher Birt, Cardigan, was struck, and Birt and two boys injured. Houston's Hotel, at Brackley Point, was also damaged.

Death of Richard Jaffray of Galt.

Galt, July 5.—Richard Jaffray, of the late firm of Jaffray Bros., publishers of the Galt Reporter, when the firm consisted of Richard Jaffray and the late George J. Jaffray, died at his residence on Concession street here yesterday morning, in the 65th year of his age. The deceased, who had been a resident of Galt for 54 years, and Mayor of the town for two years, was greatly respected by all classes of the community. A widow and three grown-up daughters survive him.

The Captain Left Suddenly.

Quebec, July 5.—Quite a sensation in military circles has taken place recently at Rimouski, over the departure of Captain Therrault, of No. 4 company of the 89th Battalion, who is reported to have suddenly left for France, accompanied by a man named Vohl, and with $475 intended for the payment of the men of his battalion. He hold a Government position, and was well-known in this city.

Jumped to Death.

Montreal, July 5.—A middle-aged man named Edward Burns jumped from the third storey window of his boarding-house, 1020 St. Catharine street, in a fit of delirium tremens and died from the effects at 3 o'clock yesterday morning. Coroner McMahon considered it so clear that he did not hold an inquest.

His House Blown Away.

Three Rivers, Que., July 5.—The house of Alphonse Bourassa, at Lacauasable, was carried away by the tornado that prevailed during the storm yesterday.

REFORM THE SENATE.

Hon. G. W. Ross Opposed to Its Abolition.

IMPROVE THE APPOINTMENTS.

A Plan of Reform Briefly Sketched—A Training School for Statesmen—Should Deal With Non-Partizan Measures—He Would Give the Senate Useful Work to Do.

Toronto, July 5.—As the abolition of the Senate is freely discussed in the press, the Hon. Mr. Ross, Minister of Education, was interviewed with regard to its usefulness as a part of our legislative machinery. He was asked: "Are you in favor of the abolition of the Senate?"

"This is certainly, as the lawyers would say, a leading question, but I have no objection to answering it. I think it would be a mistake to abolish the Senate, even if we had the power. The Senate is, in my opinion, an important part of our legislative machinery, although I do not say we could not possibly get on with a single chamber at Ottawa, just as we get on with a single chamber at Toronto. One reason why so many think the Senate might safely be abolished is because its main purpose, as they understand the constitution, is to act as a check upon hasty legislation in the House of Commons, or to modify legislation of a partisan character and thus protect the constitution against the violence of party passion. Now, this view is, in my opinion, entirely wrong. There is not a word in the constitution to warrant us in ascribing to the Senate greater legislative wisdom than the House of Commons possesses, and I fear the occasional assumption of such wisdom by the Senate has greatly affected its usefulness. The Senate is, or ought to be, a court of original jurisdiction more than a court of appeal. True, bills passed in the Commons must be approved by the Senate before they become law; but, similarly, bills passed by the Senate must be approved by the Commons. Then why should the Senate confine itself, as it has done for many years, to the task of simply reviewing the legislation of the House of Commons? It has the right to reject any bill passed by the Commons, simply because it possesses the right of original and independent judgment, not because it is considered by anybody to be wiser or more progressive or more capable of judging as to the public needs. Another reason why the Senate has fallen somewhat into disrepute is because it claims to be less partisan than the Commons, and to be more disinterested and more jealous of the national honor. Nobody who has studied its history since Confederation can find any good basis for this conclusion. Mind, I am not trying to discredit the Senate. It is quite as good and useful a body as one could hope for, having regard to the principle on which it has been constituted. Appointments have been made to the Senate in too many cases on no higher basis than appointments to the Customs or Post-Office. To have contested a constituency successfully, or to have made way for a more aggressive candidate in a bye-election, or to have backed the party candidate in a substantial way in a hard fight, too often carried with it the admitted right to a Senatorship. Now, it was never intended by the British North America Act that the Senate should be merely an honorary civil service, and it is not possible for the people of Canada to long endure the interference of a body that cannot show a nobler origin than that of mere party patronage."

Mr. Ross then sketched his plan of reform. This included a better system of making the appointments; a scheme for making it a training school for statesmen by the appointment of bright, educated and politically apt young men; and the giving of useful, non-partizan work to the Senate to do. After eulogizing Sir Wilfrid Laurier as the man of the hour, Mr. Ross closed the interview.

THE EMPIRE'S POSTAGE.

Hon. Mr. Mulock's Stand for Penny Postage for the Empire Warmly Approved in British Press.

London, July 5.—The postal conference is still proceeding at the Westminster Palace Hotel, but it is strictly private. Hon. Mr. Mulock's mission continues to excite much attention. To-day he will move in favor of a uniform penny postage from any one portion of the British Empire to any other. The British Post-Office people favor a two-penny postage, but the Australasian colonies hesitate to adopt even this. The first step is supported by Cape Colony and Natal.

The attitude assumed by Hon. Mr. Mulock in the conference is that in an Imperial question of this kind, the Dominion Government will not allow the financial question to enter. It is enough for them to know that the lower rates of postage binds the Empire closer together. This attitude secures a warm approval in the press.

Death of Mr. W. Ham Hall.

Markham, July 5.—The friends of W. Ham Hall of the village of Markham, editor of the Markham Sun, will hear with surprise and sorrow of his sudden death, which took place at Markham last evening. Mr. Hall was taken ill about a week ago with appendicitis. Mr. Hall has been proprietor of the Markham Sun for about three years, was married less than nine months ago and leaves a young widow who, together with his father and immediate relatives, have the heartfelt sympathy of the whole community.

THE COMING PLEBISCITE.

Gathering of Teetotal Workers in Toronto to Discuss Plans of Work—Opening of Campaign.

Toronto, July 5.—The annual meeting of the Ontario branch of the Dominion Alliance will open in the Pavilion this morning at 9 o'clock. The secretary has received the names of 1,198 delegates, elected by 465 organizations. The interest taken in the coming plebiscite campaign and the low railway rates combine to bring about this large gathering of temperance workers. The railway arrangements enable those attending the convention to come to Toronto and return home for a single fare.

The meeting will be presided over by J. J. Maclaren, LL.D., Q.C., President of the Ontario branch. The attention of the meeting will be largely given to plans for the coming contest. An early feature of this convention will be the election of officers and an Executive Committee, who will have the management of campaign details.

This meeting will doubtless be the opening of the plebiscite campaign. Hon. G. W. Ross will represent Ontario, Col. and J. R Dougall will speak for Quebec, and other veteran platform workers will tell of what is going on in their respective provinces.

Dominion Alliance.

The annual meeting of the Council of the Dominion Alliance will be held in Temperance Hall to-morrow. Only four delegates are elected to this meeting by each provincial body, such as the Provincial W.C.T.U. and grand bodies of other temperance organizations, also church conferences and synods, the General Assembly of the Presbyterian Church, the general conference of the Methodist Church and similar ecclesiastical bodies. Already the secretary has received credentials for 87 delegates, representing 25 bodies.

The meeting will probably be opened by Hon. Senator Vidal of Sarnia, who has been president of this body for many years.

Sure, Safe, Easy To Use.

Diamond Dyes are the popular dyes in every home of the civilized world. They are sure and reliable under all circumstances, giving the choicest, most brilliant and most lasting colours.

Diamond Dyes are the safest to use in the home; no poisonous ingredients to irritate the hands are ever used in the composition of these famed dyes. Common package dyes are largely composed of dangerous materials.

Diamond Dyes are so easy to use that a child can dye as successfully as a grown person. Beware of common or crude dyes sold for the sake of large profits. Insist upon having the Diamond Dyes and you will have happy results.

His Own Work.

The vanity of a certain well known painter is ridiculed in a story told of him. It relates that the painter was traveling in a train through the mountains, and as the weather was warm and the painter had not had enough sleep the night before he dozed in his seat.

He had a traveling companion, who insisted upon talking to him nevertheless, and as the train passed a fine prospect exclaimed:

"Look, look! What a beautiful landscape!"

"Yep," grunted the painter, dreaming, and hearing a "shop" phrase, "I painted it myself."—Youth's Companion.

Human Freedom.

For the whole of the enormous advance in the condition of the laboring man the basis was laid, once for all, by the gospel. This was, in its original form and in its continuing purpose, the charter of human freedom, and the two modes by which it most conspicuously asserted itself in the arduous process of social regeneration were first the gradual elevation of woman and next the mitigation and eventual abolition of slavery.—Gladstone

APPALLING DEATH

From Kidney Disease Prevented by Dodd's Kidney Pills, Only.

"Kidney Disease." Do you know what it means? It means that the kidneys are either *rotten*, or rotting; the blood is full of poisonous, death-dealing corruption; that the Kidneys can't do their work; that the victim is a walking charnel-house; that his hours are numbered; that the victim MUST take Dodd's Kidney Pills if he does not want to die.

Have you Kidney Disease? Is your skin hot and dry; memory failing; breath short; urine, reddish, or pale colored; does it scald when passing; is your appetite changeable; do your ankles swell; have you bitter taste in the mouth on getting up mornings; is there a brick-dust deposit in your urine?

Any of these signs is proof positive of Kidney Disease. Will you be cured, or will you die? Dodd's Kidney Pills are the only means on earth that will cure you. They never fail.

Sores Healed.

Nothing like B.B.B. for healing sores and ulcers, no matter how large or how chronic they may be. B. B. B. applied externally and taken internally according to directions will soon effect a cure. It sends rich, pure blood to the part, so that healthy flesh soon takes the place of the decaying tissue.

"I had been troubled with sore fingers and sore toes around the nails. The salve I was using did not help me and I was getting worse. I was advised to try Burdock Blood Bitters, and after using nearly two bottles my sores were all healed up. I consider B.B.B. a wonderful blood purifier." ENOCH G. HORST, Bloomingdale, Ont.

OFFICE OF W. A. MURRAY & CO., 17 to 27 King St, East, Toronto.

Wm. McCabe, Esq., Managing Director, N. A. L.:

DEAR SIR:—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment Life Investment Policy for $5,000 which has matured this year, viz.:

1st, to take the value of the Policy in Cash	**$5,003 00**
2nd, or fully paid-up insurance for	**8,280 00**
3rd, or take the profits in cash	**2,050 26**

and continue my policy without further payments being required from me, such policy participating in future profits.

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company. I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day, giving first class results on Investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the Investment period.

CERVERA WANTED TO DIE LIKE A SAILOR.

Reinforcements Gathering for Cuba.

MORE FIGHTING AT MANILLA.

Camara's Fleet is Passing the Suez Canal.

SANTIAGO NEEDS MORE FIGHTING.

Special 3 p. m. dispatch to the Examiner.

Anxiety as to Cervera's Fate.

Madrid, July 5—There are great rejoicings over Admiral Cervera's quitting the harbour of Santiago, but there is an undercurrent of great anxiety as to his fate.

How Blanco Puts it.

General Blanco cables as follows: No details have been received as to the naval fight, but it is rumoured that Admiral Cervera reached a port off Southern Cuba.

Camara's Fleet in the Suez Canal.

Port Said, July 5—The Spanish fleet has entered the Suez Canal. The Spanish torpedo boats which were with the fleet have been ordered to Messina, Sicily.

Fighting at Manilla.

London, July 5th.—A special from Manilla says: The Spanish made a sortie to repair aqueduct which supplies city, were forced back by insurgents, who suffered severely. Spanish lost 50 killed and 150 wounded.

More Fighting Ahead in Cuba.

Washington, July 5—The brigade under General Garretson at Camp Alger has been ordered to proceed at once to Santiago. The 8th Ohio Regiment goes to New York to take the cruiser St. Paul.

Cervera Died Game.

Cervera's exclusive statement off Santiago, July 4, via. Port Antonio July 5.—The first and only statement concerning the recent naval battle by the Spanish Commander, Admiral Cervera, was to a correspondent of the Associated Press on board the battleship Iowa and is as follows:—"I would rather lose my ships at sea like a sailor than in the harbour. It was the only thing left for me to do."

Fleet and Troops to Co-operate.

Washington, July 5.—Gen. Shafter and Admiral Sampson to confer as to the advisability of the fleet entering the harbour to assist in the bombardment of Santiago.

The Belief in Madrid.

Madrid, July 5.—The general public of the Spanish capital early this morning still believed Admiral Cervera and his squadron had escaped from Santiago de Cuba, thanks to the official despatches given out by the Govment and the interviews granted by the Ministers.

Blanco's Version.

A despatch from Captain-General Blanco says: Cervera's fleet at 11 o'clock on Sunday morning broke the centre of the line of the American fleet and proceeded at full speed in a westerly direction.

The Spanish Minister of War, Senor Ammon, is quoted in an interview as saying: I am highly pleased with the feat of arms performed by Admiral Cervera's squadron which left Santiago the moment Admiral Cervera judged it opportune to do so. After eulogizing the Spanish admiral the Minister of Marine added: The squadron could not leave the harbour at a given moment, and when the moment arrived Admiral Cervera seized it, I have never doubted he would do so but of course it is difficult to foresee the result, the American squadron was taken by surprise. After attacking us the American Admiral detached five of his best ships which steamed for some time abreast of ours, but they were soon left astern. Only the Iowa and Washington were able to follow our fleet, but it is certain they will not do so for fear of reprisals on our part.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The Sons of England Band play in Victoria Park this evening.

—The report of the meeting of the Peterborough Presbytery in Campbellford was received too late for publication in to-day's paper.

—The annual excursion of the Sons of England will take place on July 26th, the objective point being Jubilee. A first-class programme of sports is being arranged for the occasion, concerning which further particulars will be announced later.

—The bombardment of Cuba don't begin to raise any such talk in town as the bombardment of boss prices at Geo. Ball's ladies' and gentlemen's tailoring parlours, 413½ George street. Those $10 suits, made to order, are levelling prices and demoralizing high-renters.

—The Peterborough Masonic fraternity has received an invitation from the Port Hope Masons to join the latter on an excursion and visit to Canandaigua Lodge, N. Y. The excursion takes place on Aug. 10th, having been postponed from Aug. 3rd.

A FATAL WEDDING.

A Bridge With 1,000 People on it Collapses.

(Special to The Examiner.)

Shelby, Ohio, July 5—A bridge crossing the Mohican river fell yesterday afternoon with 1,000 people. Four were killed and a hundred injured. A public wedding was being celebrated on the bridge as one of the features of the fourth of July.

WEDDING BELLS.

Nuptials of Miss Edith Sims to Mr. W. H. Vickers.

Another June wedding took place at the residence of Mr. Joseph Sims, 742 George street, Thursday night, being the marriage of his only daughter, Edith Louisa, to William Henry Vickers.

The ceremony was performed at 9 o'clock by the Rev. Dr. Torrance, of St. Paul's church.

The bride was beautifully attired in a gown of blue costume cloth, trimmed with white satin and blue silk, and the bridesmaid, Miss Jennie Robson, was gowned in a darker shade, trimmed with white silk. Both carried shower bouquets of pink and white carnations and smilax. Mr. Arthur Sims, brother of the bride, assisted as best man.

After the ceremony a sumptuous wedding supper was partaken of. Mr. A. E. Sims designed and made a four-story square ornamental cake, which was his gift to the bride.

Mr. and Mrs. Vickers have gone west on their wedding trip.

PORTRAITS PRESENTED

By Warden Pearce to the Council, Officials and Press Representatives.

Warden Pearce has presented to each member of the County Council, and to the county officials and press representatives, a group picture which was taken of them at the January session of the council, by Mr. R. M. Roy. The picture is a capital one and is fully appreciated. Mr. Pearce has also presented to the council a picture of his father, who was a warden of the county, in the hope that in so doing he may inaugurate the custom of presenting portraits of the wardens in order that a complete collection may hang in the chamber.

REGULAR MEETING OF THE TOWN COUNCIL.

THE COUNCIL EMPOWERED TO BORROW $10,000 FOR BRIDGES AND ON STEAM ROLLER.

The Bandmaster Resigns the Custody of the Band Instruments—Grants to Various Institutions—Trouble up at the Auburn Footbridge—Reports of Committees Received, Etc.

At the meeting of the town council last evening the attendance of citizens was small. The members present were the Mayor and Councillors Robertson, Denne, Allen, Dawson, Cobb, Meldrum, J. M. White, Hamilton, Langford, McWilliams, Best and W. H. White.

COMMUNICATIONS

were received and dealt with as follows:

From A. E. Micks & Co., stating that the firm was not getting its share of the town's business—Referred to the Street and Bridge Committee.

From E. B. Edwards re. judgments in Rossel vs. Legros, and Fobes vs. Howell, the convictions by the magistrate being quashed in both cases—Referred to the Finance Committee.

From Thos. B. McGrath, W. Aldridge and Thos. McKee, applying for positions as assessors—Referred to the Committee on Appointments.

From Jas. A. Weddard, asking to be relieved of paying poll tax—Referred to the Court of Revision.

From the Young Women's Christian Association, asking for the remittance of the tax paid by them as an eating house—Received.

From F. W. Miller tendering his resignation as custodian of the band instruments which are the property of the town.

Mr. Crowe, president of the band, was asked to speak in reference to the matter. He stated that there was a difficulty existing between Mr. Miller and the band, of which he would not speak in the absence of the bandmaster. If he resigned, the band could fill his position with as much satisfaction, if not more.

On motion of Councillors Langford and Meldrum, Mr. Miller's resignation of the custody of the instruments will be accepted when he hands them over to the chairman of the Property Committee.

From J. H. Yelland, secretary of the Fire Brigade, asking for new uniforms for the men.—Referred to committee of the whole council with power to act.

From Catherine Martyn, asking remission of dog tax—Referred to Court of Revision.

From Zimri Blodgett, asking the removal of standpipe at Blythe mills to a point more convenient at railway track on Water street—Referred to Street and Bridge Committee with power to act.

From W. J. McCallum, enclosing bill of $4.25 for meals for members of fire brigade on the night of McDonald's saw mill fire—Referred to Finance Committee.

From C. A. Weller and others, asking that a pipe sewer be constructed north on Reid street, from Charlotte to Hunter street—Referred to Sewerage Committee with power to act.

From Geo. A. Stenson & Co. and H. O'Hara, asking an opportunity of tendering for town debentures.—Received.

From Chas. Londerville, asking remission of dog tax.—Referred to the Court of Revision.

From R. H. Jackson stating that he was wrongfully assessed and asking for a change.—Referred to the Court of Revision.

From Dumble & Johnston on behalf of their clients, H. S. Macdonald and the Toronto Savings & Loan Co., asking damage for the flooding of the premises by recent rains—Referred to the Street and Bridge Committee.

From W. H. Meldrum resigning his position as chairman of the Manufacturer's Committee of the Town Council, owing to his having to be absent from town so much.—Referred to the Manufacturers' Committee.

From Thos. Anthony asking refund in pedlar's license.—Granted.

From A. P. Poussette asking damages on behalf of his clients for injuries to stock caused by the premises being flooded by rain through inefficient drainage.—Referred to the Street and Bridge Committee.

Mr. Geo. C. Robb, engineer, stating that the boiler and engine of the fire engine are in good order.—Referred to the Fire, Water and Light Committee.

From the Trent Valley Canal Association as follows:—At a meeting of the Trent Valley Canal Association, held in Peterborough on June 1st ult., the following resolution was unanimously adopted. Moved by W. J. Leatherdale, Reeve of Medonte, seconded by Chas. Newton, Reeve of Tay, "that the several municipalities be invited to contribute to the funds of the association to enable it to represent its claims effectively before the country; that $2000 will be required and that contributions to make up this amount will be necessary.

Acting on this resolution we are requested to ask your town to contribute the sum of $500, and in order that the work undertaken by the association may be pushed with vigour, that you give this matter immediate attention and forward your contribution to the secretary-treasurer. A strict account will be kept of all receipts and payments, and an accurate statement will be rendred to contributors.

S. R. ARMSTRONG, Sec.-Treasurer. J. R. STRATTON, President.

Referred to a committee of the whole council.

From the Board of Health asking for the construction of certain sewers and asking the council to pass and enforce a plumbers by-law.—Received.

The report was adopted.

STREET AND BRIDGE COMMITTEE

through its chairman, Councillor Dawson, reported as appended:

To the Mayor and Council of the Town of Peterborough:

GENTLEMEN,—Your Street and Bridge Committee beg leave to report and recommend that no pipes conducting water from roofs be allowed to discharge on the streets or sidewalks on George street or other streets, where concrete sidewalks are laid, and that all pipes so discharging must be carried to the cellars and connected with the sewers.

All of which is respectfully submitted.

ADAM DAWSON, Chairman.

The report was adopted.

THE COMMITTEE OF THE WHOLE

through its chairman, Councillor Denne, reported as appended:

To the Mayor and Council of the Town of Peterborough:

GENTLEMEN,—Your Committee of the Whole Council beg leave to report as follows:

1. That, in view of the time being too late, no action be taken on the application of the Times Printing Co. in regard to a pamphlet on Picturesque Peterborough.

2. That Mr R H Green's application for a rebate on account of last year's market tolls be not granted, as to do so would have a tendency to cause reckless bidding and would be unsound in principle.

3. That no action be taken on the application of the Peterborough Light & Power Co for the remission of the rental charged the Company for having its poles on the streets.

4. That the salaries of J Montgomery and E Lawrence be increased to $375 a year each from July 1st inst.

5. Your committee instructed the Town Solicitor to take the necessary action to protect the town's interest in the island in the Otonabee river, which the Canadian Pacific line crosses, and also instructed the solicitor to make further enquiries regarding the position of the same railway company and the Edison siding.

All of which is respectfully submitted.

T. H. G. DENNE, Chairman.

Councillor McWilliams and Hamilton moved that Clause 2 be referred back to the Committee. The motion was lost and the report was adopted.

Mr. Green stated that he would pay $50 of this arrearage immediately, and asked that he be given three months to pay the balance.

His request was referred to the Finance Committee with power to act.

BYLAWS.

Councillor Denne introduced for its third reading the bylaw empowering the council to borrow the sum of $10,000 for the erection of bridges and the purchase of a steam roller. The bylaw was passed and signed by the mayor.

Councillor McWilliams introduced the bylaw providing for the appointment of a collector of taxes.

The bylaw received its several readings and was passed, Mr. Henry Denne being re-appointed to the position.

Councillor Denne brought in the bylaw granting $100 to the Children's Aid Society, $250 to the Fire Brigade Band, $50 to the Sons of England Band and $50 to the Salvation Army Band. It received its several readings and was signed and sealed.

Moved by Councillors Robertson and W H. White, that the clerk notify the sewer contractor to replace the earth and sod taken from in front of Mr. Benton's property on Dalhousie street—Carried.

A matter of interest on money borrowed on sewer account was referred to the Finance Committee.

Payment was ordered of the cost of providing special police for July 1st.

Councillor Meldrum called attention to the fact that a Grand Trunk detective had warned citizens against walking on the track leading to the new footbridge at Auburn. As this was at present the only way to reach the bridge he asked the council to look into the matter.

MISS BOOTH'S OFFICIAL DESPATCH.

The Secret of her Success—The Keys That Unlocked Stony Hearts. Love, Sympathy, Sacrifice, Action, Co-operating With Conquering Grace Wrought the Victories—A Touching and Forceful Address.

Love.
Sympathy.
Sacrifice.
Action.
Conquering grace.

Miss Booth's rags and the power that these few words represent were the open sesame that admitted her to the haunts and homes of the London slums and were the keys to the hearts of the degraded dwellers therein, which permitted her to be the instrument of so much good work in soul saving and body comforting.

There was not a very large attendance at the barracks last night to listen to her thrilling relations of the scenes and incidents of darkest London, told with touching pathos and moving sympathy by Miss Booth.

After the usual devotions, drum beating and singing, the thin notes of a concertina sounded from the rear of the hall. A tall shock-headed female figure with tousled black hair framing a thin spare face, with an old plaid shawl draped in slovenly folds about the shoulders; a ragged frock partially covered with a ragged and soiled linen apron, came slowly down the aisle of the room, and as she stepped upon the platform it could be seen that the slouched shoes were tied upon the feet with thongs of rags. This typical figure of a slum street music girl of London was Commissioner Booth, and as she advanced upon the platform she was received with the usual salvo of Army cheering. The meeting was in charge of Major Fredericks, who first exhibited two of Miss Booth's wards, rescued slum children, little "Willie" and Pearl, who sang a Salvation Army song.

Miss Booth began by singing a solo, something apparently new. She sang it,

MISS EVA BOOTH.

and repeated the words slowly, till the whole audience had

CAUGHT THE WORDS AND AIR

of the sweet song, and this is the refrain set to a most pathetic air:

Out of love,
From above,
To be slain,
Jesus came;
On the cross
He it was
Who for the sinner bled and died.

This was the keynote of her address. Miss Booth began by saying that she had been too long associated with the work among the poor and degraded of the London slums to need any apology for appearing in her strange attire. She had from childhood had her heart touched by an exceptional pity for the sufferings of humanity, and it was therefore easy for her to make any sacrifice or suffer hardship for their sake. In explanation of the necessity of assuming her miserable dress, it was utterly impossible for her in her ordinary attire to get on with her work among the poor. She had tried it, but clothed in ordinary dress it was impossible for her to traverse the lowest streets, not to speak of entering the homes and penetrating the hearts of the wretched dwellers. She resolved to become one of them, in attire at least, and to share their wretched lot and live in an abode like their own. She adopted the dress of a street singer, a very ordinary dress for the universal uniform was rags. She posed at times as a street singer, with her concertina, a very common instrument, as a match girl, a water cress seller, a vendor of matches, etc., etc. She had taken a room, or rather an enclosed space, in the vilest haunts of the slums, and as far as she was able her lot became the lot of the wretched and degraded poor of the districts where she worked. She was able thus to come into direct personal contact with the people and have an influence in their lives, and point out the only way upward from the depths of vice and suffering. She had often been asked how she had succeeded when so many who were anxious to help the poor, could not even approach them.

SHE HAD A SECRET

which she kept in her bosom and in explanation she brought forth a little bunch of keys, four in number. This was her secret. The name of the first key was Love, the greatest and most potent influence in the world. In illustration of the influence of this on her work most pathetic and moving incidents were told and so heart-stirring was the melting pathos of her tale that tears ran down the cheeks of her hearers, and rugged men unused to the melting mood, had tears on their bearded cheeks. One incident is a sample; a besotted drunken wife-beating husband, a pallid worn wife, frail from hunger and bruised with ill treatment, and two small children were the subjects. The wife, whose heart had been reached by love, in her dying moments, dying from the brutal kicks of her husband, had besought Miss Booth to take care of her children, who were taken from their bed of straw in the dark damp cellar where their mother died and removed to Miss Booth's wretched but yet cleanly hovel. The husband came after them, but the power of love overcame him and his heart was touched. He became "beautifully converted" and made a humble but happy home for his children.

The next key to human hearts was sympathy and Miss Booth related with tender pathos, not unmingled with quaint humour, her experiences among wretched prisoners in police courts and jails and how the power of sympathy had touched and unlocked their hearts. A virago was in the hands of the police, raving mad with drink. They were dragging her along with great difficulty, when, by some impulse, Miss Booth threw her arms about her neck and kissed her on the cheek. "Who kissed me?

NOBODY ELSE HAS KISSED ME

since my mother died." This key of sympathy reached and unlocked the woman's heart and she was ultimately converted, and became a good woman. In illustration of this key the song was sweetly sung "Kind Words Can Never Die," while Miss Booth was resting.

The next key on Miss Booth's bunch was "Sacrifice." Without sacrifice it was hopeless for us to do anything for God or man. The redemption of the world could not be accomplished without sacrifice. In this connection an incident was related of how Miss Booth at one o'clock in the morning was roused by a row—no uncommon thing—in the street. She speedily raised her window, and under the light of a street lamp was just in time to see a policeman's club fell a drunkard to the ground. Without shoes—in her bare feet—she rushed out and interposed. She knew the man—"Bones" or "Whipsey" on account of his thinness, who had a widowed mother depending upon him. She took him from the police guarantee, ing his future good conduct; she took him home. There was talking, singing, praying over and over, "Whipsey was very grateful and noticing her condition hoped she would not take cold. These people she says notice things; they can tell when one is making a sacrifice and their hearts become open to the religion that can cause such sacrifices. Both "Whipsey" and his mother were "beautifully converted."

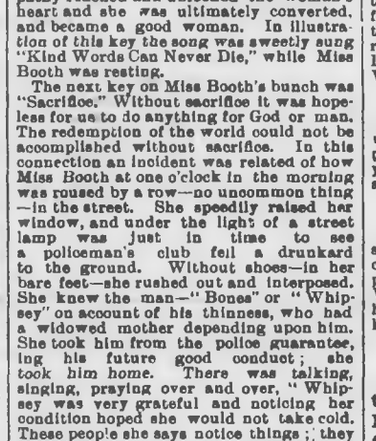
The fourth key was "Action." Without action, the best intentions, the most charitable desires, become of no effect. God himself, Miss Booth said, might have broken his heart over the sin and wretchedness of the world, but it would have been of no avail if He had not taken action in sending His Son to redeem mankind. She then related several incidents where this came into play, and concluded by urging the audience—"Put your religion into action if you want the world to believe in you."

The four keys mentioned were put upon a little ring which she called conquering grace

WHICH HAD THE EFFECT

of bringing results from their use.

Miss Booth's address was eloquent, pathetic, not always strictly grammatical, but full of heart touching earnestness. The manner of illustration was very simple and effective. She raised a cross of her four keys and their connecting ring. When she began her first "key" a big cube was placed as the basis and foundation of the cross, inscribed, "Love." Then "Sympathy" was added making the central point; then one arm "Sacrifice" was thrown out and the other "Action" was added, and the cross was completed with the addition of "Conquering Grace," which gave effect to the whole. When completed the cross had this appearance and striking effect:



Miss Booth's object lesson was a powerful sermon and was well worth hearing. Any report of the address is impossible without giving it in its entirety; it would monopolize the page of an ordinary newspaper, occupying in delivery from eight o'clock till eleven.

Her address demonstrated that the most potent factor for good is "business religion," that is religion that translates itself into action, that demonstrates that it is something more than a sentiment—a living reality.

OBITUARY.

The Late Miss Minnie Monorief.

Last night Miss Minnie Monorief passed away at her residence, 29 Division street, at an early life of 24 years. The deceased young lady has been suffering from consumption for the past year but was only seriously ill for about eight weeks. She was a native of Smith township, daughter of the late W. G. Monorief, but has resided in Peterborough for twelve years past. She was amiable and very highly respected, a member of St. Paul's Presbyterian church and a member of the Bible class of the pastor, Dr. Torrance. Her bereaved friends will have general sympathy in their bereavement. Funeral from the late residence 29 Division street, to the Little Lake cemetery, at 2.30 p.m., to-morrow, Wednesday.

THE HEART IS THE ELECTRIC MOTOR OF THE SYSTEM. ITS CURRENT MUST NOT STOP.

THE DR. WARD CO., Toronto.

GENTLEMEN,—It gives me pleasure to endorse Dr. Ward's Blood and Nerve Pills. For years I have suffered from weak action of the heart and my nerves were treacherous. I was irritable, worried, easily alarmed, and suffered greatly at times, but since taking your Blood and Nerve Pills I have felt splendid. My nerves are strong and I am free from distress and have had no trouble with my heart since using your Blood and Nerve Pills. I gladly recommend these pills to all those who suffer from any heart or nerve trouble.

RIDING ON A DOOR.

The Steed Which a Cyclone Furnished an Impromptu Traveler.

Christian Van den Harvner, familiarly known in Celina, O., as Cyclone Johnny, is perhaps the only man living that enjoys the unique distinction of having ridden a cyclone astride a house door for a distance of over a quarter of a mile. This remarkable feat was performed not as a matter of choice, but perforce of necessity by the above named person when the cyclone swept across Celina in May, 1886.

Cyclone Johnny's description of the cyclone is graphic and thrilling. He was living at the time eight miles west of Celina, and on the night of the cyclone he and Mr. Bryan's family were watching the raging of the storm in the west. The electric display was wonderful, and to him it seemed as though the world was about to come to an end by fire. The flashes were so brilliant that the eyes could not withstand them. The family became alarmed and decided to go to the cellar for safety. The cellar was directly underneath the porch, on the west side of the house, and Harvner assisted in getting the children to this place of safety, and he was the last one to leave the house. Just as he stepped upon the porch and before he released his hold upon the doorknob the storm swept down upon him in all its fury. He went sailing through the air, over the tops of trees, the uppermost branches of which tore his clothes from his body. The gait he traveled was terrific, and it seemed but a second from the time he started until he found himself safely dropped into a large field uninjured, save for the scratches inflicted upon him as he sailed over the top of the trees. This field was a little over a quarter of a mile from Mr. Bryan's house, and Harvner wandered around in the darkness and driving rain until he met a searching party, among whom was Mr. Bryan, who, together with his entire family, were saved by their opportune flight to the cellar.—Cincinnati Enquirer.

The workman often eats his lunch on the same bench where he does his work. The office man turns his desk into a dinner table. Neither gets the out of door exercise he needs, neither takes the proper time for eating. It is small wonder that the digestion of both get out of order. In such cases Dr. Pierce's Pleasant Pellets come to their assistance by aiding nature in taking care of the food.

The cause of nine-tenths of the sickness of the world is constipation. From this one cause come indigestion, disorders of the stomach, liver and kidneys; biliousness, headaches, flatulence, heartburn, impurity of the blood and the serious complications that follow. To begin with, constipation is a little thing and a little thing will cure it. The "Pleasant Pellets" are tiny, sugar-coated granules. They will perfectly cure the worst case of constipation and indigestion. If the druggist tries to sell you some other pill that pays him greater profit just think of what will best pay you.

The best medicine you can take is that which builds a solid foundation for health is pure, rich blood—Hood's Sarsaparilla.

One Laxa-Liver Pill every night for thirty days makes a complete cure of biliousness and constipation. That is—just 25 cents to be cured.

11 DEATHS BY WATER

An Awful Record for the First Three Days of July.

5--TORONTO AND HAMILTON--5.

Stirling, Vancouver, Ottawa, Hull and Grand Rapids, Mich., Yield Up Their Quota of Victims—Harrassing Details of the Drownings in Humber and Hamilton Bays on Sunday.

Hamilton, Ont., July 4.—Three amateur yachtsmen were drowned in the bay here Sunday afternoon in a blow that preceded a terrific wind storm, which did much damage. The victims are Charles Searles, 449 McNab street north; Charles Williams, 130 Cathcart street, and Charles Sinnett, East Hamilton. They were upset in a small yacht, owned by Searles, about half a mile from the north shore and sank with the boat. William Long, Burlington street west, was also in the boat, but he swam ashore. He was almost dead, having sank once before reaching land. The drowned men were about 25 years of age. Williams was the only married man, and his widow is very low. He had one child.

It was rumored last evening that a rowboat with two men sank in the west end of the bay, but up to a late hour it could not be confirmed.

Yesterday afternoon's windstorm almost became accountable for a score of deaths. When the fearful west wind began to blow a number of persons were waiting on the Catholic Cemetery wharf near Bay View for the steamer to bring them back to the city. The wind blew down a part of the wharf and several people were precipitated into the water. Among them were Mrs. Blowes and her two children. Bravo Ernest Harris, 13 years old, of 20 Stuart street east, went to their rescue and was instrumental in saving all three lives. The outer end of the wharf, on which stood several people, fortunately did not give way and they were rescued from their perilous position.

TORONTO MEN DROWNED.

Five Yachtsmen Go Down, But Three Are Gallantly Saved by Dr. Godfrey of Mimico.

Toronto, July 4.—Whilst the thunderstorm of yesterday afternoon was passing over the city, the lake was being washed into waves ten feet in height, the rain swept down in torrents and the white squall which followed was one of the most terrific ever experienced between here and Oakville.

It was in this squall that Aubrey Quincy Canniff, son of Dr. Canniff, Grange avenue, and clerk in the district passenger agent's office of the Grand Trunk Railway, was drowned, together with a companion named William Anderson, son of Thomas O. Anderson of Alexander & Alexander, wholesale dry goods merchants, 58-60 Wellington street west.

They, with three other friends, who reside on Huron street, named W. Brodie, B. Grey and William Roberts, own a boat and left Oakville for home soon after 12 o'clock. They noticed the storm approaching soon after 3 o'clock and had two reefs in when the squall bore down on them. The tackle refused to work and they were unable to take down the third reef before the squall in all its fury struck them and overturned the boat.

Brodie, Roberts and Grey were saved, and although at first unconscious were resuscitated by the efforts of Dr. Godfrey and others. The accident cast a gloom over the city.

A Drowning at Stirling.

Stirling, Ont., July 4.—Saturday evening about 9 o'clock Peter Weaver, a young man about 20, son of William Weaver, who lives about two and a half miles from the village, wheeled to the village, and with some other boys went in bathing. Weaver went out where he could not reach bottom, and he could not swim. Charles McKee and D. Bailey came to assist, but before they could raise him life was gone.

Drowning Case at Ottawa.

Ottawa, July 4.—Robert Mulligan, a young man of about 18 years of age, who lives at the Chaudiere, was drowned in the Ottawa Sunday while bathing.

A Hull Man Drowned.

Ottawa, July 4.—Cleophas Belanger, son of Mr. Charles Belanger, stonecutter, of Albert street, Hull, met death by drowning Friday afternoon at Hurtubise Creek, about a mile below Kettle Island. The young man had gone for a few days' outing with other companions. At about 5 o'clock he took his supper, and afterwards went for a bath. He had hardly gone a few feet from the shore when he disappeared from sight. His body was recovered on Saturday morning.

Guard Against Diphtheria.

Diphtheria is said to be a disease of recent years of civilization whose cause is to be found in defective drainage, damp cellars and dark closets. With the cause plainly outlined, the responsibility of seeing that these entrances to the household fortress are rendered impregnable to the entrance of the enemy rests with the chatelaine.

A PRESSMAN'S STORY.

Mr. Parnham Tells how Dodd's Kidney Pills Cured His Lumbago.

Toronto, June 27.—The story of the escape of the Globe pressman, Mr. John H. Parnham, from the agonies of Lumbago, by using Dodd's Kidney Pills, is unusually interesting.

Mr. Parnham writes to the Dodd's Medicine Co., Limited, thus:—"I am proud to testify to the wonderful efficacy of Dodd's Kidney Pills. About eight months ago I was attacked by severe pains in my back. I consulted an eminent physician, who said I had Lumbago and told me to take Turkish baths. These did me no good.

"A friend advised me to try Dodd's Kidney Pills. I did so, and one box cured me. My back has never troubled me since."

Pain of all kinds quickly relieved by the use of Hagyard's Yellow Oil. Nothing to equal it for sprains, bruises, rheumatism, stiff joints, sore muscles, etc.

TWO BLONDS.

One of Them Was Impolite, but the Other One Got Even.

A sallow little blond entered an electric car and sat down effusively by a very handsome blond with brown eyes.

"Oh, Harriet! I am so glad to see you! I've had so many engagements lately that I see nothing of you. How have you been?"

"Much as usual," answered the brown eyed blond.

"Are you going to the ——s' little Lenten dance?"

"No."

"You aren't! Why, everybody is going."

"It will be a very populous dance."

"But why aren't you going?"

A shade of annoyance passed over the brown eyed blond's face, but she answered simply, "Because I'm not invited."

"Oh, that's too bad! I'm so sorry you were left out. And they seemed to have gone into the highways and hedges, too, from what I can hear. I'm going to wear violet silk."

"I think you might wear violet silk," said the brown eyed blond gently but distinctly, turning a searching gaze upon her companion's complexion, "if you put on plenty of powder. You are determined to wear violet silk?"

"I thought—I think"— stammered the other woman, reddening through her sallowness.

"Then be sure to remember my advice and put on plenty of powder—yes, I think in that case you might venture to wear violet silk."

The sallow blond did not say another word, but sat over ostentatiously and gave a newcomer a seat. Perhaps she had not meant to be rude, with her sorrow and her highways and hedges. But people were smiling around her, secretly glad, as we cannot help being, of witnessing the neat pat with which a skilled fencer drops a roistering and bullying antagonist.—Chicago Post.

A Quick Witted Baptist.

One of the candidates for the state senate down in Jefferson county, Ala., was a prominent Baptist, and he expected his fellow churchmen to help push him along. The story goes that he was campaigning on a country beat and had the good fortune to fall in with a whole congregation of Baptists. Whether a prayer meeting had just been held or what the occasion of the gathering was is not known. About this time a light shower came up, and the candidate at once raised a large umbrella which he was carrying.

"You are not afraid of this little shower, are you, Brother ——?" remarked one good Baptist, standing near.

"Not at all," responded the quick witted candidate, "but you know I am opposed to all forms of 'sprinkling.'" He carried that beat solidly.—New Orleans Times-Democrat.

A prairie fire moves faster than any horse can run. No matter how speedy your mount may be unless you have a good start of the fire it will overtake you. It is the same way with many diseases. Unless you get a fair start, you cannot possibly shake them off. The only hope for anyone who is threatened with serious disease is to start in time, and seek safety before the danger closes in about him.

The best thing for you, if you feel that your full bodily energy is lacking, is to seek the strengthening, power-producing help of Dr. Pierce's Golden Medical Discovery which confers upon the digestive organs that keen zest of appetite and assimilation which transforms the food into nourishing, health-building blood, active muscular force, nervous energy and rugged endurance.

Do not wait until dyspepsia spreads into "liver complaint" and that turns into bronchial trouble which finally verges into consumption. Do not rely upon the delusive stimulus of malt extracts and sarsaparillas and oily compounds; do not allow a designing druggist who seeks only his own profit rather than your health to foist any "boom" medicine upon you. Insist upon the remedy which is backed by thirty years of steadily increasing sales to attest its constant usefulness and popularity.

The experience of Mr. Val. Burkard, living at 65 Mohr Ave., Buffalo, N. Y., is given in his own words. "Five weeks ago I followed your advice and took two bottles of Dr. Pierce's Golden Medical Discovery and also two vials of 'Pellets.' I consider myself entirely cured, as there have been no eruptions since I finished the last bottle. I think it is the greatest remedy on the globe for blood and digestive disorders. My appetite increased wonderfully and I have also gained flesh. I would like everybody to know the true value of Dr. Pierce's medicines as I am confident by persistent use they will cure all ailments for which they are recommended."

THE VICIOUS JAGUAR

HE FINDS A DEADLY ENEMY IN THE PLUCKY PUMA.

These Fierce South American Brutes Fight Each Other to the Death on Sight—Two Battles That Show the Characteristics of the Animals.

"On the Apure river, near its head, lives—or did live there five years ago—a woman of mixed Spanish and Indian race named Maria Padilla, the wife of the mayordoma, or foreman, of a cattle ranch. I have talked with her and heard from her lips the account of the strange adventure she had when a child of 7 years.

"Her parents with their children were making a journey over a trail that led along the foothills of the Maritime Andes. They had encamped for the night, and this child, while her parents' attention was occupied, started into the forest to gather firewood as she had often seen her mother do. Her absence was not noticed until she had been gone some time from the camp. As she gathered dry sticks into a bundle she saw a large, spotted animal stealing swiftly toward her.

"Every South American country girl of 7 knows a jaguar when she sees him, whether she has ever seen one before or not, for the dread of these animals is an instinct among the inhabitants of regions which they frequent. Overcome by fear the girl could only stand still and await her fate. With her eyes riveted on the jaguar she did not see where they came from, but of a sudden she perceived that he was savagely fighting with two huge, tawny animals that had sprung upon him.

"The fight seemed to her to last a long time, and once the brutes in their struggles came very near to where she stood. The pumas that had attacked him killed the jaguar at last, and after standing over the body a few minutes as if to assure themselves that he would not revive they for the first time turned their gaze toward the child, who had been too much terrified to improve her chance to run away while the beasts were fighting.

"They favored her with a long stare, and then, not offering to approach or harm her, turned deliberately away and trotted into the depths of the forest. They scarcely had disappeared when her father, having missed the child and guided by the sounds of the fight, came running to the place with gun and machete and found her safe. He got a jaguar skin as a trophy, though it was cut too nearly into ribbons by the pumas' claws to be of value.

"In the Guarico country, at a village called Paraya, near the Merida trail, I saw an Indian named Jose Lobado whose face and head were deeply scarred and whose body was a network of similar scars from wounds received through being carried away by a jaguar when an infant in arms. Of course he could not remember the occurrence, but his mother, who had rescued him, described it to me.

"She had gone to a mata, or wooded spot, on the pampas for firewood, carrying her child, after the fashion of Venezuelan women of humble station, in a shawl looped from her shoulder. This shawl, with the small boy in it, she slung to a low tree branch while she gathered her bundle of sticks, and she did not perceive the approach of a jaguar until he had seized the child and was carrying it away.

"The mother grasped her machete and ran after the jaguar, shrieking. She managed to keep the beast in sight, but he was rapidly getting beyond her view when suddenly the jaguar stopped, put the child down and bristling for fight stood with his forepaws resting upon it.

"Then the mother saw that a puma was fronting the jaguar. She hurried on toward where the two beasts faced each other, growling and snarling. Before she got to them the puma sprang, and at once the two were fighting fiercely above the child. In the struggle the child was rolled to one side, but before the mother could get to it the jaguar broke away from the puma and springing to the boy again crouched with his paws above him as before.

"The puma leaped again and the fight was renewed, but again the jaguar got clear and jumped to guard his prey before the mother could get a chance to snatch her child. Once more the puma attacked his foe, and this time as the beasts struggled and tore each other an accidental kick from one of them sent the boy 20 feet away, almost to the mother's feet.

"Catching him up she ran for home and got safe to the house. The boy, though covered with claw wounds from head to foot and bearing deep marks of the jaguar's teeth in the back, where the beast had seized him to carry him away, recovered completely from his injuries, although bearing the scars for his lifetime. The puma and the jaguar were found, both dead, at the place where they had fought."—Philadelphia Times.

CAPTURING SEALS.

The Wonderful Vitality and Courage of the Old Dog Hood.

The killing of the young seals has been frequently described as brutal and brutalizing and the seal hunters depicted as savages, but to my mind the work is not nearly so brutalizing as the ordinary killing of sheep, pigs or oxen.

Here the animal is too young to feel fear and evinces no signs of it; no animal is wounded and left to die in vain. The "crying" of young seals is not from fear, but hunger. One often hears them cry all night for their dams, while they never give tongue at man's approach.

It is only in killing the old dog hood seals that one feels the savagery of killing anything, for the hood's marvelous vitality is only equaled by his pluck. I watched four men fight an old dog hood one day on a small pan. Reared up on his haunches, with his hood blown up, he awaited the attack. The first blow, struck on his hood, might as well have hit a stone wall, while, catching the second gaff end cleverly in his teeth, he shook the long handle to such good purpose that he cleared the pan of his enemies in an instant. Though he could at any moment have slipped off into the water, he would not do so, and soon a lucky blow under the jaw stretched him out. A perfect shower of blows on the head seemed to finish him off, and, a heavy strap being placed around him, he was hauled to the bulwarks by the steam winch.

Just as he got there his immense weight broke it down, and he disappeared, we thought for good, but in a minute or so he suddenly appeared again, and, refreshed by the cold water, he climbed out on to the very same pan, where the hunters were ungallant enough to return and dispatch him with their long knives. Nor does the hunter by any means have it all his own way. So agile and powerful are these beasts that they will jump clear out of the water on to a pan 6 to 10 feet high without touching the edge, when in no other way they could climb on to it, and many a man

THE DEAF HEAR.

DR. CHASE'S CATARRH CURE

Working Wonders in Toronto.

Gave MRS. BINDON her hearing when Specialists failed.

About 3 years ago, Mrs. Bindon, of 11 Maitland St., Toronto, was attacked with la Grippe, which affected her hearing to such an extent that she was completely deaf. It was a serious affliction and she tried many remedies and consulted a prominent specialist on ear diseases, but derived no benefit. By a happy circumstance she was led to use Dr. Chase's Catarrh Cure, and before she had completed 8 boxes her hearing had partially returned.

She persisted in the application of the remedy, so confident was she of ultimate cure, and by the time 12 boxes had been used her hearing was completely restored. For 8 months now she has been free from deafness, and no emancipated sufferer was ever more delighted than Mrs. Bindon. On Sunday she goes to church and enjoys the service, a thing she was unable to do before Dr. Chase's Catarrh Cure gave back her hearing.

HUMAN SACRIFICES

On the Altar of Diabetes, Saved by Dodd's Kidney Pills, Only.

Hardly a family in the country is free from Diabetes. Great thirst, failing sight, numbness in the thighs, bleeding gums, swollen ankles, emaciation, nervousness, pale or turbid urine, loss of sexual power, decaying teeth, pains in the loins or small of the back, are all positive signs that Diabetes is in the system.

Do you know how it ends? IN DEATH. A premature, horrible, agonized, pitiful death. The victim has no peace, no ease in life. His days are filled with tortures. His nights are waking dreams of agony. He longs to die, yet fears the terrors of his end. He dies, a bloated, fetid, repulsive mass of corruption. That is the only end of unchecked Diabetes. Dodd's Kidney Pills will cure it. They drive it out of the system thoroughly, create new, clean blood, rebuild the diseased kidneys, and restore robust health.

read the words, "Take great heed lest you fall upon the island of Ireland for fear of the harm that may happen unto you upon that coast." An armada relic still more touching than these instructions is part of a letter written off Dingle by a Spanish captain, begging the president of Munster for friendly treatment. Into a bundle of state papers which tell, in the language of the victors, the awful story of shipwreck and bloodshed on the Irish coast, this fragment, rusty and stained as if by salt water, has strayed like a waif from the vanquished.—William Frederic Tilton in Century.

A Denmark Custom.

It is the custom in Denmark not only to send city children to the country, but country children to the city. Commenting on this, a writer in the Boston Transcript says: "The country children have their taste of a pleasure and benefit derived from visits to the city, where new and strange interests appeal strongly to the wonder loving mind of the child to whom city sights and sounds and scenes are unfamiliar. The child of the rural districts is as susceptible to the healthy influence of change as is his city cousin, and well might Denmark's custom of sending country children to the city be adopted in the land where her 'country week' suggestions have grown and flourished with each succeeding summer. A 'city week' might with profit be established, which in days to come would rival even her sister charity in popularity and success."

The Ranking Officers.

In answer to an inquiry I would say that the ranking officer of the United States navy is Admiral William A. Kirkland, commanding the navy yard at San Francisco. Rear Admiral Dewey will be seventh on the list—that is, he will stand at the foot of the list of rear admirals. The act of congress promoted him five files and jumped him over Commodores Norton, Bunce, McNair and Howell. The highest ranking officer in the army is Major General Nelson A. Miles. The second on the list is Major General Wesley Merritt, and then come Generals Brooke, Otis, Coppinger, Shafter, Graham, Wade and Merriam in order.—Chicago Record.

If the arms of the sea were in the right place perhaps we wouldn't hear so much about old ocean's melancholy waist.—Richmond Dispatch.

Epicures do not take vinegar on raw, sliced tomatoes. The natural acid is quite enough and is much more delicate to a fastidious palate.

Fat is absolutely necessary as an article of diet. If it is not of the right kind it may not be digested. Then the body will not get enough of it. In this event there is fat-starvation.

Scott's Emulsion supplies this needed fat, of the right kind, in the right quantity, and in the form already partly digested.

As a result all the organs and tissues take on activity.

ABDALLAH'S LESSON.

Abdallah, pious above all mankind,
Who dwelt in Mecca, morning, noon and night
His voice to Allah raised in prayer contrite,
Was he and humble, pure in mind.

Inspired of heaven he—not so his wife.
She daily stood the market place within
And bought and sold, nor deemed it any sin
To mingle there in scenes of toil and strife.

While thus he prayed she earned the food he ate,
But oft he reprimanded her. Said he:
"Thou shouldst devote thy life to prayer, like me.
Serve not thyself. Allah alone is great!"

At last his words sank deep into her heart.
Said she: "While Allah shall my poor life spare
My voice to him I'll raise in holy prayer.
Henceforth of righteousness I am a part."

Abdallah's heart was glad, and, side by side,
They prayed until the sun in heaven was high.
Then hunger to the pious man drew nigh
And loudly clamored to be satisfied.

Abdallah's wife still prayed. No food was there.
The good man's soul was vexed. "'Tis plain," he said,
"That even piety must needs be fed,
And man cannot exist alone by prayer."

And thus he learned "Faith, without works, is dead,"
And, profiting by what he learned, straightway
He went to work and prospered from that day
And thanks to Allah gave for daily bread.
—Arthur J. Burdick in Godey's Magazine.

A MINISTER'S WIFE SPEAKS.

Feels It Is Her Duty to Let People Know About Doan's Kidney Pills.

Many people are suffering from kidney diseases and disorders — don't know the right remedy—frittering away their money and their health on something that does them no good. Listen to the advice of Mrs. Phillips, wife of Rev. C. T. Phillips, Woodstock, N. B., who says:

"A member of our family took cold from exposure and over exertion, which brought on severe kidney trouble, and suffered intensely from pains in the back and dis ress while urinating.

"We tried Doan's Kidney Pills, and they removed the trouble at once. I do not hesitate to recommend a remedy that does its work so faithfully. I have proved them to be a specific for weakness of the urinary organs, general debility and other distressing troubles. I can therefore recommend them, feeling assured that those giving them a fair trial will find the result most gratifying."

Doan's Kidney Pills are for sale by all dealers, or sent by mail on receipt of price, 50 cents a box or 3 boxes for $1.25. The Doan Kidney Pill Co., Toronto, Ont.

DEATH OF JOHN BOYD.

Death of a Former Well Known Resident of Peterborough.

The Algoma Advocate says: The death of John Boyd, the well known and popular Inspector of Colonization Roads, formerly of Peterborough, on Monday morning, June 27th, has cast a gloom over this community. Early in the winter he was taken ill and confined to his room, but recovered so as to be able to be around. In the forepart of February, after consulting several local physicians, who pronounced his ailment an affection of the heart, he decided to see some city specialists, and went to the city for that purpose early in March. The specialists on making an examination pronounced him suffering from aneurism of the aorta, and ordered perfect quiet, and that he should take to his bed and live on low diet for a couple of months. On his return he followed the instruction given him for upwards of two months. He has been out more or less since the first of May, and appeared to be steadily improving until on Sunday morning last, when he was seized with heart failure and succumbed on Monday morning. He had driven down to church alone on Sunday morning, and was on his way home, having taken in a lady, Mrs. Chisholm, who was walking, when, on the road a short distance north of Mr. Dyment's residence, he was seized with dizziness and blindness and fell over insensible. Assistance was speedily obtained and he was brought back to town and taken to the residence of his brother, Mr. A. Boyd. Drs. Richards, Baxter and McCort were at once in attendance and did all possible to restore him to consciousness in which they succeeded after a short period. He suffered considerable throughout the day and evening, but towards morning appeared to be improving. His second son, Geo. A. and daughter, Mrs. C. A. McKinnon and his brother, William, who live at the Soo, were wired for during Sunday afternoon and deceased's great anxiety during the night was for their arrival, that he might see them once more before he passed away. During the night he was quite himself and seemed much improved towards morning, though there is no doubt he felt the end was approaching as he expressed great anxiety for the arrival of his family from the Soo who arrived by the steamer Parry Sound about 6 a.m., the captain of which boat kindly departing several hours before the regular time, as soon as the party were ready to come. After greeting them all affectionately and after some conversation with them, with scarcely a struggle the spark of life went out. Thus passed away one of Algoma's foremost friends who has ever endeavoured to advance the interests of the district.

VILLAGE FATHERS.

The Mark Street Church Congregation Allowed to use the Town Hall for the Summer Months.

At the monthly meeting of the Ashburnham council last evening, there were present Reeve Adams and Councillors Morgan, Craig and Rutherford.

ACCOUNTS

were presented as follows and ordered to be paid:

Times Printing Co	$21 24
Examiner Printing Co	2 50
T. B. Manlece, charity	2 50
Pay Sheet No. 10	12 90
Pay Sheet No. 11	37 00
Pay Sheet No. 12	22 10
	$98 24

Moved by Councillors Craig and Morgan, that the treasurer be instructed to pay Willie Mitchell's account when certified to by the chairman of the Street and Bridge Committee.—Carried.

Treasurer Peck presented his monthly statement of receipts and expenditures from June 7th to July 2nd, showing the total receipts to have been $748.50, as against an expenditure of $602.50.

A DEPUTATION.

A deputation was present from the Mark street Methodist church and asked the use of the town hall, on Monday and Wednesday evenings, and Sundays, during the next three months whilst the church is undergoing repairs.

Councillors Johnston and Craig moved that this council grant to the Mark street Methodist church the use of the town hall in which to hold their Sunday, Monday and Wednesday services, on condition that they pay all expenses attached thereto and keep the hall clean and in good repair.—Carried.

Councillor Johnston and Craig moved that Street Inspector be instructed to make out a statement of amount of money spent on roads and bridges from January 1st to August 1st, 1898, and also the amount of new work not passed by this council, said statement to be presented to this council at its next regular meeting.—Carried.

Moved by Councillors Rutherford and Morgan that the treasurer be instructed to collect the rents for town hall stores monthly, at the rate of $6.25 in advance.—Carried.

The council then adjourned.

Y.M.C.A. BOYS CAMP.

A unique eight-page booklet neatly printed with the aid of a mimeograph and illustrated with several original sketches, announces the first camp of the boy's department of the Peterborough Y.M.C.A.

It will be held at Sandy Point, Clear Lake from Aug. 4th to 13th.

It having been selected because of the safe, pleasant place it affords for swimming fishing and general sports.

The sailing craft "Pilo" has been engaged for the outing and the camp programme will include a number of trips to various points on Stony Lake.

Messrs. Williamson and Buxton will have charge, and as both have had experience in boy's camps, the safety of these entrusted to their care is assured.

The leaders are not undertaking it simply for fun, but because they believe in it and the arrangements are in charge of the Boys' Committee. The leaders are not undertaking it simply for fun, but because they believe in it and are willing to sacrifice much because of the good results which will follow for the boys.

The entire cost for each boy will be $2 50. The camp will be run on a systematic plan and if there is any surplus of funds at its close it will be returned to the boys.

If a sufficient number of seniors wish it the camp will be continued for their benefit from Aug. 15th for ten days.

Fuller particulars can be had from the secretary, who will be glad to supply the printed announcements to all who purpose going.

A CRY FOR UNITY.

The following appeared in the impression of the Irish World of July 2nd, and will be read with interest. The Peterborough contribution in question received special prominence in the World, above all others as being the only one from Canada:

Patrick Ford, Esq.:

DEAR SIR,—In reply to your appeal for help for the Irish Famine Fund, I beg to inclose draft for one hundred and twenty dollars.

You will observe when Ireland is concerned, whether for weal or woe, the bishops and priests are to the fore. Although our remittance is not a large one, yet it will, I am sure, be acceptable. I would ask you not to take it as the measure of our love and sympathy for our starving kith and kin at home.

Of course we all know it is England's duty to give back to Ireland the plunder taken from her every year, and some of our people hesitate to do that which is England's work, but when starvation is upon our kindred it is not the time to hold back or to argue.

For God's sake, for Ireland's sake, let this memorable year see Irishmen at home come together. Peace, prosperity and happiness will follow, and famines from Ireland will disappear forever.

Yours faithfully,
JAMES W. FITZGERALD.

LACROSSE.

Perth has invited the Peterboroughs to play there on the 26th, the occasion of their civic holiday, and as there are also horse races on an excursion will be run from all along the line to the eastern town. In writing of the match in Peterborough on the First, the secretary of the Perth team says: "The boys are delighted with their trip on the 1st, and express themselves very highly of the treatment given them by your team, and if you come down here we will give you a hot time."

An important meeting of the lacrosse club executive is to be held to-morrow afternoon at five o'clock in the EXAMINER Office. As the business will be transacted with all possible haste, it is to be hoped that every member will be in attendance.

WRESTLING.

Quite a gathering of sports assembled in the opera house last night to witness the second meeting of wrestlers Thos. Doyle and Mick Collins. Great interest was taken in the contest from the fact that the strangle lock, which was of material advantage to Doyle in the last match, was barred in this one. Both men were under the stipulated weight, 152 pounds, and appeared to be in the pink of condition. The men were slow in getting on the mat, and Mr. Middleton, on behalf of Collins, requested the presence of a policeman on the stage to keep order. Chief Rossel was finally secured to act, and the men got to work at 25 minutes to 10. They were only wrestling a few minutes when Doyle called the referee's attention to Collins hands, and asked him to examine them.

It was found that the stranger had smeared them thickly with rosin, which he was ordered to remove immediately. After thirty minutes hard work on the mat Doyle's superior staying power began to tell and it was noticed that Collins was weakening perceptibly. Suddenly he dropped his hold and rushing in on Doyle commenced to slug with his fists. Doyle collared him and ran him into the scenery and before any more blows could be struck the police interfered and the opera house was cleared.

The bout is to be resumed this evening in Lindsay and a big crowd is going there to witness the finish.

THE SPANISH LOSSES

At Santiago Are Such as to Hopelessly Cripple Her.

BLANCO ORDERED SHIPS OUT.

The Chase of the Cristobal Colon Was a Merry One—The Details of the Naval Battle—None of Sampson's Ships Seriously Hurt—The Bombardment Likely This Week.

Off Santiago, July 4, via Port Antonio, July 5.—In the great sea fight which took place yesterday Spain lost six ships, 800 men killed, 150 wounded and 1,800 prisoners. The American loss was one man killed and two wounded. None of Sampson's ships was seriously hurt. Admiral Cervera, Vice-Admiral Villamil, Captain Eulate and the other officers and men are held as prisoners. They will all be transferred to the St. Louis to-day to be sent to New York. Admiral Cervera told the correspondent, in answer to the question why he made the dash out of the harbor with his fleet, that he was forced to come out in obedience to an order from Captain-General Blanco, who was acting under instructions from the Government at Madrid. He made a dash for the west, he said, because only the Brooklyn and three American battleships were on that side of the harbor. He thought he would be able to outrun the battleships, and if the Brooklyn followed he could whip her. The wrecks of six vessels of Cervera's fleet are strewn along the Cuban beach from a point two miles distant from the entrance to Santiago harbor to Jurquina Point, fifty miles away.

Chase of the Cristobal Colon.

Off Santiago de Cuba, Monday, July 4.—(6 p.m., per Associated Press despatch boat Cynthia II., via Port Antonio and Kingston, July 5, 2 p.m.)—After a chase of 60 miles to the westward, the Brooklyn, closely followed by the Oregon, overhauled the Cristobal Colon, after she had ran ashore and had hauled down her flag. Captain Cook of the Brooklyn went on board of her and the commander of the Spanish cruiser came forward to surrender and was taken on board the New York, which came up an hour after the Brooklyn and Oregon had completed the capture of the Cristobal Colon. The latter was not seriously damaged, though she was struck several times by shots from the Brooklyn and Oregon.

The Brooklyn was struck half a dozen times, but no injury was done to any of the other American ships.

THE ROUT OF CERVERA.

Detailed Description of the Destruction of the Spanish Fleet Off Santiago de Cuba.

Ten miles west of the harbor of Santiago, Sunday, July 3, per the Associated Press despatch boat Wanda, to Port Antonio, Jamaica, July 4.—With the exception of the bombardment yesterday morning, which resulted in knocking down the flag on Morro Castle and the supposed silencing of the batteries, which opened fire again this morning, as usual, the navy had done little recently to attract interest here, and the officers and crews themselves were watching the developments of the operations being conducted by the army, which had succeeded in reaching the very gates of Santiago after enormous loss in killed and wounded in the fighting of the past two days.

It was about 9 o'clock this morning when the flagship Infanta Maria Teresa passed under the wall of Morro Castle and stole out to sea. She was followed by the Cristobal Colon, Vizcaya and Oquendo and last by the torpedo boat destroyers Pinton and Furor. The lookout on the American vessels, which were lying five or ten miles off the entrance to the harbor, sighted them immediately.

The Gloucester, a fast little yacht, that cannot boast of any heavier battery than several six-pounders and three-pounders, was lying off Aguadores, three miles east of Morro, when the Spaniards came out. At first she joined in the attack upon a large vessel and held them off. Captain Wainwright concluded to reserve his efforts for the two torpedo boat destroyers to the rear.

The Gloucester steamed after them when they appeared, and chased them to a point five miles west of Morro, pouring shot after shot into them all the time. Her efforts bore abundant fruit, for to her belongs the credit for the destruction of both the destroyers. She fired 1,400 shots during the chase, and it was not long before both destroyers were on fire and plainly disabled. The Gloucester then sent a boat to the assistance of the crews of the destroyers. It did not take the flames which had broken out on the Furor long to reach her magazines and there were two terrific explosions. Her stern sank immediately and she went to the bottom in perpetual oblivion, giving out a hissing, scalding sound as she disappeared below the surface.

Meantime the Brooklyn and the five battleships were keeping up an incessant fire upon the Infanta Maria Teresa, Vizcaya and the Almirante Oquendo, and the latter were returning it bravely, though with no success. The flagship and the Oquendo were the first to show signals of disaster. Two 13-inch shells from one of the battleships had struck the Marie Teresa at the water line, tearing great holes in her side and causing her to fill rapidly. The Oquendo suffered about the same fate, and both ships headed for a small cove and went aground, 200 yards from the shore, flames shooting from them in every direction.

The Gloucester later steamed along the coast to where the cruisers were stranded. There was danger from the magazines, and many of those on board jumped into the water and swam to the shore, though a number were unable to reach the small strip of sandy beach in the cove, and were thrown against the rocks and killed or drowned. The Gloucester had all her boats out, and the seamen swam through the surf with a line from the Maria Teresa, making it fast to a tree on the shore. By this means many of the flagship's crew, including Admiral Cervera, lowered themselves into the Gloucester's boats. The wounded were take to the Gloucester as rapidly as possible, and the lower deck of the yacht was soon covered with Spanish sailors, mangled in limb and body by the bursting of shells.

The Brooklyn, Oregon, Massachusetts and Texas and several smaller vessels continued the chase after the Cristobal Colon and in less than an hour were lost to view of the burning ships on shore. The Iowa gave assistance to the imperilled crews of the Vizcaya. Her captain surrendered his command and the prisoners were transferred to the battleship. The Vizcaya probably lost about 60 men, as she carried a complement of 460 and only 340 were taken aboard the Iowa.

Soon after Admiral Cervera reached the shore and surrendered. He was taken to the Gloucester at his own request. There was no mistaking the heartbroken expression upon the old seaman's face as he took the proffered hand of Captain Wainwright and was shown to the latter's cabin, but he made every effort to bear bravely the bitter defeat that had come to him. He thanked the captain of the Gloucester for the words of congratulation offered on the gallant fight and then spoke earnestly of his solicitude for the safety of his men on shore.

Why He Did It.

Off Santiago de Cuba, July 4, via Kingston, July 5.—The first and only statement concerning the recent naval battle by the Spanish commander, Admiral Cervera, was to a correspondent of the Associated Press on board the battleship Iowa. It was as follows: "I would rather lose my ships at sea like a sailor than in the harbor. It was the only thing left for us to do."

SURGEONS AND DOCTORS.

Annual Meeting of the Ontario Medical Council - 500 Railway Surgeons.

Toronto, July 6.—The Council of the College of Physicians and Surgeons of Ontario convened in annual session yesterday at 2 p.m. All the members but two were present. The financial statement showed a deposit in the Imperial Bank of $839.81. Dr. Thorburn, the retiring president, delivered his annual address. The officers for the ensuing year will be: President, Dr. Luton, St. Thomas; vice-president, Dr. W. F. Roome, London; registrar, Dr. R. A. Pyne, Toronto; treasurer, Dr. Aikins, Toronto; solicitor, Mr. B. B. Osler, Q.C., Toronto; stenographer, Mr. Alex. Downey, C.S.R., Toronto. After the presentation of reports, the Council adjourned till 10 o'clock today.

The Railway Surgeons.

The names of 460 delegates to the International Association of Railway Surgeons have already been registered at the Rossin House (the city headquarters), and some 100 more are expected.

FAST ATLANTIC SERVICE

May Yet Be Taken Up by the C.P.R.—Postal Conference.

London, July 6.—Some important new developments are on foot respecting the fast Atlantic mail service, and they are expected to be completed within the week. Evidently they have nothing to do whatever with Petersen, for Hon. Mr. Blair, when asked, said: "It is my impression that it is all up with him. There need be no delay in the placing of the enterprise in fresh hands, for I think the Canadian Pacific Railway would like to take it up. Of course, this would mean a delay of a year or two in the fulfillment of the project."

The Postal Conference.

Hon. Mr. Mulock, Postmaster-General of Canada, yesterday moved his Imperial Penny Postage before the Inter-Imperial Postal Conference, Lord Strathcona being present. The British Government inclines to favor the Canadian proposal, and in that case it will be certainly carried. Canada has once again asserted herself as the pioneer of the empire.

GEORGE HARVEY DROWNED.

He Was an Employe of the Bank of Montreal in Toronto.

Kingston, Ont., July 6.—Late yesterday afternoon George Harvey, clerk in the Bank of Montreal, Toronto, here on his holidays, was drowned while bathing at Cartwright's Point. He was taken with cramps. Deceased was 24 years of age, and the son of a widow.

THE PRESBYTERY OF PETERBOROUGH.

Sessions in Campbellford and Peterborough—Minister Introduced—A Public Meeting in the Interest of Missions—Funeral of the Late James Cleland.

The Presbytery of Peterborough convened in St. Andrew's church, Campbellford, Monday night at 7.30. A conference on the work of the church was the cause of a large congregation and a very interesting meeting.

Rev. Dr. Torrance, of St. Paul's, presided, and after devotional exercises called upon Rev. Dr. Smith, of Port Hope, to give an address on "The relation of the Church and the Home."

Rev. Mr. Hay followed with a very interesting address on "The personnel and work of the Assembly of 1898."

Rev Dr. Robertson, of the Northwest Mission, followed with a most inspiring address on the progress and power of the church in missionary enterprise in the far west, and made a very strong appeal in favour of a forward movement all along the line.

At the close of the public meeting, word having been received regarding the sudden death of Rev. James Cleland, for many years a familiar figure in Port Hope, and a man beloved by many, the Presbytery decided to discontinue business until 11 30, and adjourn to St. Andrew's, Peterborough, at 9 Tuesday morning, then proceed south to Port Hope at noon, and take charge of the obsequies.

The first matter was the introduction of Rev. R. F. Hunter, M.A., lately installed pastor of Cold Springs and Baltimore. Rev. Dr. Smith of First Church, Port Hope, to whom leave to retire from the active duties of the ministry had been granted, formally laid his resignation before the Presbytery. The Presbytery expressed its deep regret at the severance of such a valued member and acquiesced in the wish of Dr. Smith. Arrangements were made for the supply of the pulpit after September 30th, when the resignation will take effect. Rev. John Hay was appointed Moderator, and Mr. James Somerville of Norwood, was chosen to declare the pulpit vacant.

A letter, read from the convenor of the Augmentation Fund Committee urging upon all congregations to take a deep interest in this most important part of the church's work, was ordered to be printed and circulated throughout the Presbytery. It was also decided to strive at raising at least the amount annually used by the Presbytery within the bounds.

A SESSION IN TOWN.

In St. Andrew's yesterday morning the clerk reported that the Rev. R. McKnight, M. A. had been received by the General Assembly a minister of the church, and the clerk was instructed to furnish certificate when required.

The Rev. J. G. Potter reported visitation of committee to the Mission fields of the Presbytery and the report was received and recommendations of interest referred to the Home Mission Committee.

Revs. Dr. Torrance and John Hay, B.D., were appointed a committee to draw up a minute expressive of the Presbytery's loss in the death of the Rev. James Cleland, and also to attend officially to the funeral services yesterday afternoon in Port Hope.

The Presbytery then adjourned to meet in Mill street church, Port Hope, September 20th, at 2 p.m.

In conformity with the resolution of Presbytery, Dr. Torrance, Rev. J. Hay, Rev. Wm. Bennett and Rev. R. Laird, as representatives of the Presbytery, attended the funeral of the late Rev. James Cleland in Port Hope yesterday. The funeral service took place at 2 30 in the Mill street church, which was draped for the occasion, and the pew was specially draped in which the deceased had worshipped during the eight or nine years of his retirement from the pastorate of the church, over which he had presided for about ten years. Rev. Dr. Torrance, as moderator, had charge of the services, and was assisted by Rev. Mr. Jones, a former pastor of the First Presbyterian church, Port Hope; Rev. J. Hay, Cobourg; Rev. Wm. Bennett, Peterborough, and Rev. Mr. McWilliam, of Toronto, who, as former pastor of the Mill street church, and as the minister best acquainted with the deceased, was selected to give the address which was a warm tribute to the character and virtues of the late minister. The ministers who had taken part in the services were the pall bearers from the church to the hearse. From the hearse to the grave the office bearers of the church, assisted by members of the First church, were pall bearers. At the grave the service was conducted by Rev. Mr. McWilliam and Rev. Mr. Hay. In 1873 the deceased minister came from the United States (where he had ministered several years after his arrival from Ireland, County Down) and united with the old Kirk in Canada, two years previous to the union of 1875. He celebrated the jubilee of his ordination five years ago, he having entered the ministry in 1843. Among those present assisting in the service was Rev. P. K. Dayfoot, the Baptist minister at Port Hope. Rev. Mr. Cleland was a man of unusual physical and intellectual strength, conjoined with great tenderness of heart. His sincerity was as deep as his hatred of sham. He was extremely modest and avoided all occasions where reference to his merits was likely to be made. He was sound and practical in his preaching and, as far as his outward life showed, lived up to what he preached. He was greatly esteemed by all his brethren of the ministry who knew him and also greatly esteemed and beloved by his congregation, which without the knowledge of the action of the Presbytery, had made all arrangements for the public funeral, which was their last mark of respect to their departed pastor.

Acute Rheumatism

Pains in the Foot and Limb—A Complete Cure Accomplished by Hood's Sarsaparilla.

"For a number of years I was afflicted with acute rheumatism in my left side and all the way down my limb into my foot. I live five blocks from my work and had to stop and rest several times in going and coming. I could get no relief from my trouble and was on the point of giving up my job when I happened to hear of Hood's Sarsaparilla. I purchased a bottle of this medicine and a vial of Hood's Pills and began taking them. Before I had half finished them I was relieved and it was not long before I was completely cured. I never lose an opportunity to praise Hood's Sarsaparilla, for my cure meant a great deal to me, as I have a family and must always be at my post." WILLIAM HASKETT, yardman, Grand Trunk Railroad depot, Brantford, Ontario.

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Sold by all druggists. $1; six for $5.

Hood's Pills are purely vegetable, care fully prepared. 25 cents.

TEACH THEM TO SWIM.

Thus early in the season the death roll from drownings in Ontario is appalling. Every day more are added to the dark list—more homes desolated—more bright and useful lives blotted out. And what adds to the sadness, and even criminality in a general sense, is the fact that the majority of these drownings are preventible. In the majority of cases the victims are unable to swim. It is evident that where there is water enough to drown there is water enough in which to learn to swim. The moral is that every boy and girl should be taught or made to learn to swim. It is an art that is very easily acquired, as easily learned as the use of the wheel. Animals learn to swim, for, with the most of them, it is not instinct. Throw a puppy or kitten into the water, and the first movements are attempts to walk or run, varied in style by the conditions resulting from the denser element in which they are moving, and then the animal's "horse sense" soon leads it to adopt a purely swimming stroke. A boy's first untutored attempts at swimming are dog-fashion, a variation of the movements of walking, but soon the proper and more effective strokes are learned. In addition to the actual value of the knowledge of swimming is the moral effect. In case of accident swimmers learn coolness and ability to take care of themselves and by the very fact of that knowledge, and also power and coolness are able to render assistance to others, thus resulting in the saving of his or her own life, as well as that of others. How many a mother's heart is comforted by the fact that, when her children are off on the Sunday school excursion, they can swim, and are more likely in course of mishap to be returned safely to her. The power to swim even a few strokes often represents all the difference between a mere "ducking" and death. It is a mere trifle to learn to swim, but it is a most invaluable and necessary accomplishment. Indeed we know an enthusiast who insists that no boy or girl, who lives anywise near water, should be allowed to pass the entrance examination unless he or she prove their ability to swim. Parents and teachers should insist upon the children under their charge learning to swim. Loading up boys and girls with expensive brain equipment, and then leaving them to the danger of death in crossing a horse pond, is jug-handled education. By all means teach the boys and girls to swim.

EDITORIAL NOTES.

If the Spanish army catches the suicidal mania from the Spanish fleet it won't take long to wind up the war.

If the Spaniards faced the enemy with as much pluck as they face death, they would put a different complexion on the war.

There are woe and mourning in hundreds of United States homes, but as little Peterkin was told "we know such things must be after a glorious victory."

It is estimated that the United States lost more men in the fight before Santiago than Great Britain has lost in ten years of warfare. And there is not the reflection that the slums of the cities supplied those that were killed, which would be a benefit in one sense, but the picked men of the nation were selected for service in Cuba, men with the best physique and morale.

The Abyssinian title of the Queen of Sheba, who visited Solomon a few thousand years ago is Rilkis. Has it any osculatory association with the Solomonic mode of salutation on the occasion? With 700 wives a monarch would become habituated to having his kisses flow in rills, hence Rilkis. This may be far-fetched, but is as good as a good deal of etymology.

THE QUEBEC CONFERENCE.

It appears that the United States Senate will reconsider its action in throwing out the appropriation to defray the expenses of the Quebec Conference. It was an unstatesmanlike decision to refuse the President's modest $50,000 request, and the Senators' second thought will be better. So unexpected was the affront to the President that the British and Canadian Governments had appointed their delegates to the conference before the item was stricken out. The sign that we have been acting in good faith was probably a little too much for some of the old-fashioned Senators, who still believe that courtesy between nations is as proper and as useful as between individuals, and Senator Hale, of Maine, who is understood to be responsible for the trouble, will make way for safer advisers.

The Senate could not persist in its attitude without leaving itself and the United States generally open to criticism. The situation was a simple one; there were certain matters in dispute between Canada and the United States which the executive authorities of the two countries were desirous of having settled. It was scarcely a wise position for the United States Senate to affirm that these subjects which had already given rise to so much discord should continue to do so. It has been freely asserted that the behavior of the American Congress in the Cuban crisis was such as to make war inevitable and a peaceful solution impossible. Plainly that suspicion must be intensified should the Senate refuse to permit a conference with Canada over certain matters in dispute with this country. It is likely, therefore, that a majority of the Senators have come to realize the position in which they have been placed by Mr. Hale's motion, and are prepared to put themselves in a sounder position.

Americans have come to realize, since the war broke out how advantageous it is for the United States to have along its northern border a progressive, friendly nation, working, in the main, toward the same ends as themselves and able to understand and sympathize with the position of Americans in their present trial. One illustration of the value of Canadian friendship may suffice to demonstrate its importance. Large cargoes of sulphur have been coming into Montreal this summer for re-shipment to the United States. Upwards of 4,000 tons of it came in by one steamer on Saturday, and all of that is already well an its way to its destination in the United States. The explanation that is given is that the paper mill are so busy supplying paper for the yellow journals and other varieties of war extras, that there is a great demand for brimstone. Not that the papers must be any "yellower" than usual, but simply the sulphur enters into the composition of paper. If the paper mills could not get the sulphur, where would our cousins oe for war news? Obviously, the inconvenience would be great, to say nothing of what it might be should the supplies of gunpowder suddenly run short. In the latter case it is conceivable that their would be less sulphur used in the making of newspapers for a few months.

MUNICIPAL OWNERSHIP OF GRUB.

Grenoble, France, is the paradise of municipal ownership, according to an English journal. The city has run a municipal restaurant and kitchen for fifty years. Meals are supplied at cost in the restaurant or delivered at residences. The food is "of the finest quality," first class cooks are employed, and the service is excellent. One may dine there for three cents on bread and soup, or may pay 12c and enjoy a full-course dinner.

LASSWADE.

From Our Own Correspondent.

We have been having some very hot weather for a few day, it was a beautiful day Friday for the picnic party at Clydesdale.

W. R. Dingman and daughter expect starting for St. Catharines on the 8th, where his wife has been visiting her parents.

Mr. J. W. McLean took in the picnic Friday.

Miss Moffatt, teacher at the high school and Miss Webster, teacher at Ridge Road school were the guests of Mrs. C. N. Dingman and her daughter Maud, on Sunday last.

Hay, both clover and timothy is a grand crop this year, the best that has been known in years.

A Sunday school picnic was held in the beautiful grove just south of Mr. Youman's. Mr. Lord opened the enjoyment after dinner with a very appropriate speech. Mr. McDoughal sang "The Methodist Pie," in good style, which caused a great deal of merriment. Mrs. Riley Dingman practiced the school children to sing a selection as she accompanied on the organ. Mr. Lord treated all the children to candies, while Mr. McLean supplied old and young with first class lemonade. The feature of the day was Miss Rusaw from Dummer, with her comic songs. She kept the people spell bound. There were also swinging, foot races, and a football match, which caused a lot of hard work for the participants and amusement for the spectators. Willie Carroll and Willie Macginn each got a nice pocket comb as a prize for good running, the giver being Mr. McLean. The large number of people took their departure with satisfaction pictured on their faces, hoping to meet at some future time.

Mr. Nicholas Dingman and Mrs. Riley Dingman are going to have a grocery on the plains. They expect to have it started by the 5th or 6th. Nicholas is away at present at Havelock and Peterborough after the necessaries for the same. He is buying the lumber at Mr. Baskin's mill. They expect to do well as they are going to keep lots of eatibles, groceries of different kinds, soft drinks, etc. They are also going to have a platform for dancing, as Nicholas is a good violinist, and Mrs. Riley a good organist, and an enterprising couple. They are sparing no pains to make it a success.

We are very sorry to hear Miss Maggie Bullied is lying under the doctor's care at her uncle's, W. Wilson. Her sister is attending her.

MARKET STILL DOWN.

Despite a Big Decrease in the Visible Supply of Wheat Prices Went Lower —The Latest Quotations.

Tuesday Evening, July 5.

When the Chicago wheat market opened this morning after the triple holiday there were apparent several bullish factors, among them higher cables and big decreases in the English as well as in the American visible supply. All, however, were outweighed by the bearish effect of the reports from harvesting sections in the west, indicating a big yield, despite damage done the crop in some quarters. On the Chicago board, the July, September and December futures all declined about 2¼ cents per bushel, as compared with Friday's final figures. The close was at about the lowest point for the day.

On the Liverpool board to day, July wheat rose 1d over yesterday, and the September and December options ⅜d to ½d, respectively.

On the Toronto board there is little doing in grain. Millers are paying 78c per bushel for red winter wheat, and No. 1 Manitoba hard was in one case quoted at $1 at Prescott.

As compared with a week ago, the visible supply of wheat in Canada and the United States has decreased 2,524,000 bushels; that of corn has increased 151,000 bushels, and that of oats has decreased 1,423,000 bushels.

A Hot Time at Halifax.

Halifax, N.S., July 4—A number of American flags were displayed in Halifax to-day in honor of the Fourth of July. The news of the American military and naval victories over the Spanish at Santiago was received with great enthusiasm by tourists from across the border, and there was not a little excitement. The day was the warmest Halifax has experienced for several years, the thermometer for several hours registering 93 in the shade.

The Stars and Bars in England.

London, July 4—The fraternal sentiment evidenced here during the last few months finds vent to-day throughout the United Kingdom in an unprecedented display of the Stars and Stripes in honor of the Fourth of July, and in hearty expressions of good-will everywhere.

The afternoon papers are unanimous in applauding the splendid courage of the Americans before Santiago de Cuba, and in congratulating the United States upon the signal successes of its arms both in the east and the west.

Guillemain Wept.

St. Hyacinthe, Que., July 6.—Guillemain's chances of escaping conviction for the murder of his uncle, J. B. Laplante, have become more remote by Judge Tellier's decision yesterday admitting as evidence the confession of the prisoner while in Biddeford, Maine. The accused seems to realize his imminent peril, and when leaving the dock at the adjournment he burst into tears and utterly broke down. The trend of the testimony all day was strongly against him.

TWIN TORTURERS!

Lumbago and Rheumatism made Harmless by Dodd's Kidney Pills.

Lumbago and Rheumatism cause endless pain and suffering. Every man and woman who runs chances of getting wet, or catching cold, is liable to suffer from one or both. Our hospitals are full of sufferers from these diseases; none are more painful. Every nerve is on fire; every joint is a centre of agony; every muscle an area of torture. To move hand or foot makes the victim shriek with agony.

Rheumatism makes more cripples than all the railroad accidents that ever happened. Twisted, mis-shapen caricatures of humanity, who cannot walk without misery, are to be seen every day. The kidneys are to blame. If they are healthy you needn't fear Rheumatism or Lumbago. Dodd's Kidney Pills keep the kidneys healthy and cure Rheumatism and Lumbago.

Dodd's Kidney Pills ALWAYS CURE.

ONTARIO ALLIANCE

Has Begun the Prohibition Plebiscite Campaign.

ORGANIZATION IS ADVANCED.

Reports of the Progress of the Work—What Has Been Done This Year—Central Campaign Fund of $5,000 Wanted—Address by Hon. G. W. Ross—Other Speakers.

Toronto, July 6.—The Dominion campaign on the plebiscite was formally opened yesterday, when the Ontario branch of the Dominion Alliance met in the Pavilion to arrange plans for the conduct of the contest. The meeting was a representative one. Nearly 1,200 delegates representing more than 425 organizations, presented their credentials during the day. More than half the attendance was composed of women, many radiant with youth, and others made saintly by long years of motherly cares. Silver-haired fathers, grown old in temperance warfare, were present, and lent a judicial aspect to the gathering.

The morning session was opened by Dr. J. J. McLaren at 9.30 o'clock. The National Anthem was sung, after which the divine blessing was invoked by Rev. Dr. Williamson.

The convention got down to business with a rush by appointing L. C. Peake, Rev. Drs. McKay and Ross, Rev. Wagner, Mr. Hobson, Duncan Marshall, Mr. Urquhart, F. S. Spence, Mrs. Wiley and Mrs. Cavers a committee to retire and prepare a programme for the convention.

They Have Been Working.

The chairman read the report of the Executive Committee, in which a statement of the work done and progress made in the promotion of the prohibition cause in Ontario was clearly set out. Petitions and literature had been sent out since July, 1897, and returns had been received and forwarded to the Legislature from 453 churches and young people's church societies, 243 temperance organizations and 76 municipal councils.

During the recent campaign of candidates for the Legislature an address had been sent throughout the province calling for a stronger effort on the part of prohibitionists to secure the election of representatives who were known and avowed friends of the cause. "It is confidently believed that the attitude of candidates upon the temperance question influenced the votes of a great many electors."

Thorough organization by Duncan Marshall and F. S. Spence has been made all over Ontario for the approaching plebiscite campaign. F. S Spence has received only $400 for his year's work, and the report suggests that $800 more be given to him.

A classified statement of the receipts and payments for the year, signed by R. J. Fleming, shows that $2,472.74 have passed through his hands.

October Now Mentioned.

The chairman spoke, stating that he was satisfied with the work already done, and urging continued effort for the next three months. He anticipated that the vote would be taken in the month of October.

In answer to the question, Who would be allowed to vote? Dr. McLaren said that the voting would be taken under the Franchise Act of the last session, which would be practically the provincial franchise in each province. So far as he knew, women would not vote, and Indians, if not on the provincial lists, would be non-voters.

Rev. M. Richardson wanted to know if the carrying of the plebiscite depended upon getting a majority of the votes cast or a majority of the whole electorate. Would this mean that prohibition would be granted?

Mr. McLaren, in answering, said the granting of prohibition was a matter for the Parliament to decide after the present vote. Parliament was not now committed either one way or the other.

The chairman ruled that sweet cider and sweet wine did not come under the liquors mentioned in the plebiscite ballot.

Numerous speeches were made by organizers, showing that in all but about 10 counties, the province was thoroughly organized for the plebiscite.

Campaign Plans.

The convention did not hasten to get down to business in the afternoon, but finally at 2.30 the Campaign Committee's report was presented by Rev. Dr. Ross. The report urged that thorough and efficient organization should extend to every polling sub-division; that the Executive Committee should issue full information regarding methods and plans; that papers should be examined and articles adverse to the cause be answered by a corps of trained writers; that certain tracts should be translated in German; that the Dominion Council be left to deal with the French literature; and that the local press be used as much as possible.

The report was taken up clause by clause.

They Want $5,000.

The Finance Committee's report was presented by R. M. Hobson and carried. It recommended that $5,000 be raised as a central fund for the current year, and that collections and subscriptions for this end be made at once.

L. C. Peake stated that $900 had to be paid on account of last year.

As to Legislation.

The Legislative Committee's report was submitted by Hon. S. C. Biggs. It gave thanks to the Dominion Government for submitting the plebiscite untrammelled by any other issue. It also affirmed the Alliance's adherence to total prohibition as of paramount interest to Canada. It suggested that legislation should be advocated that would give power to the majority in any municipality to prevent the renewal of any license, and to limit the hours of sale and the convention was urged to make provision to press these questions upon the Government.

The report passed.

The Committee on Resolutions reported that but few relating to temperance had been handed in. The churches were given praise for the work they had done in the cause, and the Dominion Alliance was memorialized to issue a manifesto, calling upon all parties to unite in the movement for prohibition.

THE EVENING SESSION.

The Pavilion was comfortably filled at the evening service. Rev. Mr. Tindal opened the service with prayer.

A letter from Mrs. A. O. Rutherford, President of the Dominion W.C.T.U., was read, who regretted her absence from the convention.

Hon. Sidney Fisher also sent regrets.

The Officers.

The officers of the Alliance for the coming year are:

President—J J Maclaren, Q.C., LL.D.

Vice-Presidents—Hon A Vidal, Hon J C Aikins, Hon G W Ross, Mrs A O Rutherford, Hon G A Cox, G H Lees and the provincial heads of the W.C.T.U. Sons of Temperance, Good Templars and Royal Templars, and all presidents of the county and city associations.

Treasurer—R J Fleming.

Secretary—F S Spence.

Executive Committee—Rev G A Turnbull, H O'Hara, Rev Dr Parker, W H Orr, Rev Dr Dewart, Hon E Davis, G F Marter, M L A, G A Middleton, Rev G Washington, Rev Dr Potts, Mrs Wiley, Benjamin Allen, Rev Dr Mackay, Thomas Urquhart, Hon S C Biggs, L C Peake, Mrs G R Cavers, Mrs Bascom, Rev Dr J S Williamson, Rev Dr Ross, Mrs Moffat, Rev L H Wagner, J W Flavelle, Rev P C Parker, D J O'Donoghue.

Delegates to the Dominion Alliance Council: Hon S C Biggs, Mrs Christie, L C Peake, Rev Dr Dewart, T M Campbell, Dr Stewart, Mrs F S Spence, Hon G W Ross, J K Stewart, A D Weeks, R W McKenzie, Mrs J R Cavers, Mrs Thornley, F W Watkins, George Duffy, Rev E H Bean, Mrs Waters, Dr Fisher, J M Walton, Rev Dr Mackay, president and secretary to have power to fill vacancies in the delegation.

Speakers of the Evening.

After the announcement of the nominating committee several speakers addressed the meeting. Most of them were sanguine of results of the plebiscite. They were: J. R. Dougal, Montreal; Major Bond, Montreal; Hon. Senator Vidal, Sarnia; Mrs. Thornley, London; Mr. Anger, Quebec; Rev. B. H. Spence, Manitoba; Rev. A. E. Green, British Columbia; Rev. J. C. Speer, of Victoria, B.C., and Hon. G. W. Ross, who said the first thing that struck his mind was the peculiar position of the temperance people to-day. Since 1878 the Dominion Parliament has been appealed to to legislate re the liquor traffic. For reasons known to itself, Parliament had declined to pass a prohibitory law. To-day was the first time the whole people had been asked to express its opinion on a question by plebiscite. Temperance people had to take the Government at its word. They said, "If you give us evidence of a public opinion in favor of prohibition, a prohibitory law you shall have."

He first handled the objection of loss of revenue, and declared that if he were given a sober population he would not be afraid of the revenue. As to the question of a prohibitory law being incapable of enforcement, he held that this involved that some men who were opposed to the law, would violate it, and do all in their power to discredit it. He held that no law was enforced absolutely. It was no argument against the passage of a law to be told that it would not be fully enforced. Even the decalogue was not fully enforced.

As to the argument that a prohibitory law was tyrannical and arbitrary and interfered with the rights of citizens, he held that all laws were more or less arbitrary. "Individual rights and privileges all merge in the state. This traffic must go on or stop," said the speaker. If it went on the same state of affairs as at present would continue. If it stopped, no one would be harmed, for those who sold liquor would be better off in some other employment, while the capital invested in breweries could find other means of investment.

Broke His Neck.

Oshawa, July 6.—A very sad accident occurred here yesterday, when Mr. Joseph Drew, a farmer living about a mile east of here, lost his life by falling from a hay rack to the barn floor, breaking his neck. He never recovered consciousness. Deceased was about forty years of age and leaves a wife and several small children.

A METEOR.

Seen at Whitby It Apparently Burst to Fragments in Toronto.

Whitby, Ont., July 6.—A meteor shot down through the northwestern sky at 8 o'clock last night, arousing great interest in many citizens, who observed the brilliant celestial visitor because of a zig-zag streak that looked like steam in the track of its passage, about half the distance from the zenith to the horizon. This wonderful sight lasted for many minutes, and was observed by hundreds of people. The meteor itself was an unusually brilliant one.

Seen in the Queen City.

Toronto, July 6.—A brilliant meteor was seen by a number of citizens last evening about 8.30. The celestial body passed over the city almost from east to west and apparently burst into fragments in the western suburbs. It was very brilliant, and left in its trail a whitish vapor, resembling smoke. Those who saw it describe it as a beautiful sight.

Fell at Collingwood.

Advices from Collingwood state that the meteor fell in the immediate vicinity of the town. Every one out of doors was startled by a sudden blaze of light which crossed the sky with lightning rapidity. After the flash followed a train of smoke. The appearance was attended by a loud roar as of thunder, and many felt, or thought they felt, a slight shock as the aerial visitant reached the ground.

SUMMER COMPLAINT.

One of the Commonest and most Dangerous of Diseases.

Everyone should be prepared for it with a bottle of Dr. Fowler's Extract of Wild Strawberry.

Very few people escape an attack of summer complaint. It may be slight, or it may be severe, but nearly everyone is liable to it.

You cannot tell when it seizes on you, how it may end.

Let it go for a day only, and see how weak and prostrated it will leave you.

Your only path of safety lies in providing yourself with a bottle of Dr. Fowler's Extract of Wild Strawberry.

It's the only remedy known that can be relied on to cure you.

It settles the stomach, has a soothing influence on the irritated bowels, a stimulating action on the weakened system and is a powerful disinfectant of the whole intestinal tract.

Mrs. Daniel Smith, Lunenburg, N. S., writes: "Last summer my little boy was dangerously ill with diarrhœa. He grew very weak so that he could hardly stand. I concluded to try Dr. Fowler's Extract of Wild Strawberry and very soon after he began taking it he started to mend, so that in a short time he was as well as ever. I shall never be without it in my house." Price 35c., all dealers.

Piles! Piles! Itchin Piles.

Symptoms—Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumour. All druggists or by mail, for 50 cents. North American Life ASSURANCE CO.

OFFICE OF W. A. MURRAY & CO., 17 to 27 King St, East, Toronto.

Wm. McCabe, Esq., Managing Director, N. A. L.:

DEAR SIR:—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment Life Investment Policy for $5,000 which has matured this year, viz.:

1st, to take the value of the Policy in Cash $5,033 00

2nd, or fully paid-up insurance for 3,280 00

3rd, or take the profits in cash 2,050 25

and continue my policy without further payments being required from me, such policy participating in future profits.

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company. I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day, giving first class results on Investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the Investment period.

A Stolen Cobourg Bicycle.

Bicycle thieves put in an appearance at the C.W.A. meet here on Saturday morning, July 2nd. A dark complexioned, clean shaven, dark featured man, between thirty-five and forty, went into the hall of the Morgan House and took a red coloured "Perfect" wheel, '97 make, with ram's horn handle bars, 26-inch frame marked D. 182. He pretended to be in doubt at first, and then said, notwithstanding the high handle bars, that it was his wheel, although the clerk warned him not to take it unless he was sure. The police are on the look out and intend to make it hot for the thief.

Leisure Reading.

Most people are most at leisure during the summer months. Some may work as hard as at any other time, but we all find some hours for recreation. We seek spots like the verandah, the hammock, the lawn and the lake shore. No matter how easy we take things we always want our mind occupied. Some of us like the magazines, but the majority of us ache for a good novel. Order at the Peterborough Bookstore. Four novels for 25c, is the lowest that can be had. One of the best series we ever sold is at 10c. each, or five for 50c—same price, one or a hundred. A. H. STRATTON & Co.

A July Meteor.

An unusually large and brilliant meteor fell last night in the northwesterly heavens. About nine o'clock the hundreds of citizens abroad noticed a most brilliant and very large meteor flashing its way to earth. The meteor appeared for some moments and seemed to be about six or eight feet in length. When about 20 or 25 degrees from the horizon it apparently exploded and burst into fragments of varied colours, a brilliant red predominating. The path of the meteor was visible for some minutes in the shape of a zig-zag streak. This celestial visitor attracted great attention.

ALPHONSO XIII REPORTED CAPTURED

Special 3 p. m. dispatch to the Examiner.

Timas Bombarded.

Madrid, July 6—Official despatch from Havana says: The American ships renewed the attack on Timas. The enemy was repulsed by the battery. Over 100 projectiles were thrown into the place. The Spanish loss was 5 wounded, but many houses were damaged. Cable communication from Santiago has been restored.

Spanish Afraid to Sue for Peace.

London, July 6—The Daily Chronicle learns from a sure source that the Spanish Government think it impossible to make peace now now, because to make peace at present would throw the balance of power in Spain into the hands of the Carlists.

Commercial Effects of the War.

London July 6.—Berlin *correspondent* of daily Mail says: The battle of Santiago de Cuba is considered to have proved the superiority of American armour plating and artillery and it is believed that in the future European nations will give large orders to American makers for armor, guns and the like.

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

WRESTLING.

About 100 Peterborough sports journeyed to Linday last night to take in the postponed wrestling match between Tom Doyle and Mick Collins. Considerable money was wagered on the result Collins having some friends who were confident in his ability to win, while on the other hand the delegation from Peterborough were backing Doyle to a man. The contest did not start until after the last train from Peterborough had arrived. The men got on the mat at about 15 minutes to 11 o'clock, and went to work with a will, neither giving the other any rest until after 33 minutes of the hardest kind of work, Doyle got a lock that could not be broken and was awarded the first fall. After a rest of 20 minutes the men went at it again. Doyle assumed the aggressive and kept up a terrific pace, throwing his opponent all over the mat and not letting up for an instant. Finally after a clever piece of manoeuvring he took the second and last fall in fifteen minutes. After the referee had given his decision pandemonium reigned supreme, the crowd rushing on the stage and surrounding Doyle, shaking his hands and fairly carrying him off the stage. After quietness had been restored it was learned that Mr. Middleton had matched an unknown against Doyle at 148 lbs. for $1,000 a side, contest to take place in Toronto to morrow night.

OUT HIS HAND BADLY.

Mr. Charles Mann Met With an Accident This Morning.!

Mr. C. H. Mann, of Bridgenorth, an employee of Mr. Samuel Bickell, cheese box manufacturer, happened with an accident at the factory this a.m. by which the second and third fingers of left hand were badly cut on the matcher, occasioned by a loose knot, which caused the saws to throw heading back from under his hand allowing it to drop instantly upon the saw.

Dr. Scott dressed the wounds, and we understand that the fingers are as well as can be expected this evening, and hope that Charlie will soon be able to resume his usual occupation.

COUNTY POLICE MAGISTRATE'S COURT.

Police Magistrate Edmison Holds a Session at Norwood—Important Local Matters Come Under Adjudication.

Police Magistrate Edmison was in Norwood yesterday holding Court.

Principal Davidson, of the Norwood High School, was charged by an ex-pupil, named James White, with assaulting him on the 24th of May at a baseball game. Mr. Davidson had charge of the grounds, and observed some persons entering the gate without having paid an admission fee. He called to White to shut the gate; White replied that he "did not have to," and the Principal, forgetting for the moment that his ex-pupil was not just then in school, gave him a shake. Mr. Davidson apologised in writing, agreed to pay the costs, and the matter was dropped.

Richard Grieve, Wm. Simpson and Wm. Cross were charged by James L. Squire of Norwood with having on the 29th and 30th days of June, stolen about 200 pounds of cheese from Edwin Charles Squires, who runs a cheese factory at Norwood. Grieves and Wilson were arrested and brought to the court yesterday and elected to be tried summarily. They were removed to Peterborough, jail where they will remain until Friday, when they will be tried at Norwood.

A warrant was also issued to search the premises of William Duncan. The premises were searched but nothing was found.

William H. Tucker also charged the same prisoners with having stolen a suit of clothes, twelve pounds of sugar and twelve loaves of bread. Grieves and Simpson were arraigned on these charges, and admitted having taken the bread but deny the other charges. The court will try all the cases on Friday.

MANUFACTURED HERE.

A New Incandescent Lamp Which is Very Convenient.

The Canadian General Electric Company is manufacturing an interesting style of incandescent lamp which they call a "night lamp." The peculiar feature of this lamp which distinguishes it from the ordinary incandescent lamp, is a device by which it can be changed whenever desired from 16 c.p. to 1 c.p. It is thus adapted especially for use in doctor's offices, hospitals and sick rooms, wherever a dim light is required to be kept burning, or when the ordinary lamp at full brilliancy gives more light than is desired. The transformation from 16 to 1, or from 1 to 16 c.p., is effected by simply turning by hand a small milled screw attached to the side of the lamp case. The current consumed by the lamp when burning at one candle power is less than half of that which it requires at 16 candle power, so that there is a very decided economy effected by the use of such a lamp, provided the user is paying for his current by meter.

In appearance, the night lamp resembles the ordinary 16 candle lamp with its bulb frosted. It can be inserted into the ordinary socket, and can be turned off and on by a separate wall switch if desired, but can be changed in candle power only by means of the screw on the lamp.

The peculiar construction of this lamp which gives it its double nature, consists in dividing the carbon filament into two sections, one of which is switched into circuit when 16 candles are desired, and both sections—one in line with the other—when only one candle is desired. The additional resistance given to the filament by the latter arrangement allows less current to pass through it, thus heating it to a much less degree and causing the filament to give out a correspondingly less quality of light, although the length of filament that is incandescent at one candle is just about twice as great as when 16 candles of light are omitted.

This lamp removes the objection that is frequently urged by the uninformed against the electric lamp that "it can not be turned down like the gas and the oil lamp," and it also serves to illustrate the flexibility of the incandescent lamp for lighting purposes.

THE PROPERTY COMMITTEE

reported through its chairman, Mr. W. G. Ferguson, as appended:

To the Chairman and Members of the Board of Education:

Gentlemen,—Your Property Committee beg leave to report and recommend that that the necessary repairs be made at the different schools, and that the Barnardo avenue school be repainted inside and part of the woodwork outside.

The closets at the Central school are now in a filthy condition, and as the sewer now passes the school building, your committee after carefully considering the matter, recommend that connection be made with the sewer, and the basement room be taken for the purpose, and that ten closets and a urinal be put in, five for the boys and five for the girls.

All of which is respectfully submitted.

W. G. FERGUSON, Chairman.

Moved by Messrs. Burnham and McKee that Mr. Fessenden be paid the sum of $22.25 due him for acting at the entrance examinations in 1896.—Carried.

The Board then adjourned until Monday evening.

A JUNE WEDDING.

Nuptials of Miss Maude Goodfellow, Formerly of Town and Mr. A. Schaefer, of Meriden, Conn.

On the evening of June 22nd, was solemnized, the marriage of Miss Maude Goodfellow, daughter of Mr. and Mrs. Geo. H. Goodfellow, formerly of Peterborough, and Mr. Adolph Schaefer, of Meriden, Conn.

The bride looked very sweet in a gown of pearl gray and white satin. She carried a bunch of bride's roses tied with white ribbons. Miss Lillian Goodfellow, sister of the bride, was bridesmaid. Her costume was cream landsdown. She carried pink roses tied with green ribbons. The groom was assisted by Mr. Chas. Brennan, formerly of Peterborough.

The bridal party entered to the strains of the "Wedding March" from Lohengrin. The bride was given away by her father.

Rev. Dr. Floyd E. West, of St. Michael's church, performed the ceremony. After the nuptial knot was tied he presented the newly wedded couple with a book bound in gold and white containing the marriage vow.

The decorations were entirely of green and white. The white marble mantelpieces were banked with ferns while all around were masses of daisies, carnations, and other white blossoms, which, against the green back-ground made an exceedingly picturesque and pretty effect.

The table which was laid for the collation was also green and white. On either end of it stood branching silver candelabra, and here and there between the salads, fruits, confectionary, etc., ferns were laid, which, with the green vases of white carnations, made a charming picture. The green and white effect was carried out even to the icing on the cakes, as well as the confectionary and cream.

The groom's present to the bride was a handsome silver and turquoise belt; to the bridesmaid a beautiful white fan and to the groomsman a handsome scarf pin.

Among the guests were the Misses Brennan and Mr. Chas. Brennan, formerly of Peterborough, and Mr. Wm. Shaw, formerly of Port Perry.

The presents, which were displayed in the library adjoining the drawing room, where the ceremony was performed, were as follows: Green and gold dinner service, the bride's parents; cherry wood rocker, with pearl, Mr C Brennan; silver chocolate pot and tray, Mrs and Miss Brennan; tapestry painting of Queen Louise, Miss C Goodfellow; silver tea service, Miss F Brennan and Mr Stewart; cut glass salt and pepper shakers and half dozen silver spoons and sugar spoon, Mr and Mrs R E McKee, Peterborough: beautiful linen and houiton lace bon bon case, Mr and Mrs Aaron Cox, Peterborough; poplin tapestry table cover, Mr R Goodfellow, Brooklyn; handsome clock and silver forks, Mr W Bennett, Brooklyn; cut glass individual jelly dishes, Miss Louisa and Lillian Goodfellow, sisters of the bride; embroidered linen boufe scarf, Miss F Goodfellow; handsome silver mounted carving set, Mr H Riggs, of Brooklyn; check for $750, Mr and Mrs Schaeffer, Meriden, Conn; beautiful silver vase, Miss Catharine Browne, New York; ivory and silver carving set, Misses Flynn and Campbell, New York; applique pillow shams, Misses Hughes, Brooklyn; damask linen cloth and table napkins, Mr W Shaw, Brooklyn; silver and gold berry spoon, Misses Saunders and Shindler, Brooklyn: beautiful blue and gold Royal Worcester chocolate set, consisting of ½ doz cups and saucers, and chocolate pot, Mr and Mrs Herbert, Meriden, Ct.; orange wood tobacco set with carved alligator and handsome shell ornament, Mr Victor Schaefer, brother of groom, now in Cuba, from Tampa; silver dessert table and tea spoons and butter knife, Mrs Trainor, Brooklyn; chafing dish, Mr and Mrs Johnson, London, Eng; beautiful embroidered tray cover, Mrs Diedrich, Bridgeport, Ct; damask linen cloth and table napkins, pillows and bolsters, Mrs Leftley, Brooklyn; cut glass claret set, jug and glasses, Misses Ely and Gray, New York; pillow shams and tea cosey, Mrs McKenzie, Port Perry; silver pie knife, Miss Florie Martini, Orange; soup ladle, silver and gold, Miss Hattie Parker, Brooklyn.

After the collation was served dancing was in order. The music was kindly furnished by Mrs. Johnson, an accomplished pianist.

The happy couple took advantage of the enjoyment in progress to attempt to leave the house unawares, but were surprised to find the verandah steps and street lined with the guests of the evening, who gave them a bountiful supply of rice and old shoes for luck.

There future residence will be in Brooklyn, but a short distance from the home of the bride's parents.

FOR WEAKNESS AND DEBILITY.

Consumption is often caused by a weak state of the blood, permitting the germs to obtain a foothold. That Dr. Ward's Blood and Nerve Pills cure disease and make the system safe, the following evidence amply proves:

I suffered for two years with what the family doctor claimed was an incurable case of consumption and debility, telling me that my life was but for a few months at the best. As I was about to give up, I picked up your advertisement and resolved thereupon to give Dr. Ward's Blood and Nerve Pills a trial. The first box of them worked such a wonderful change I felt that at last I had struck a medicine that would help me. I continued the use of the Pills, receiving from them day by day flesh, strength and vigor, in fact friends of mine that had not seen me for some time hardly knew me, so great was the change that Dr. Ward's Pills worked. Out of the fullness of my heart in the joy of my being rescued from the grave, comes this testimonial. I shall, as long as God permits me to live, herald forth their usefulness and life-saving power to all afflicted by that monster of disease that almost claimed me for its victim, thereby repaying you in a small measure for the grand, new lease of life Dr. Ward's Blood and Nerve Pills have given me. Yours truly, JOHN P. THORP, Cork St., Guelph, Ont. Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by THE DR. WARD CO., 71 Victoria St., Toronto. Book of Information free.

CURTAIN RAISERS.

John Philip Sousa opens his next season's tour in Pittsburg.

Charles E. Bigelow will be a "star" beginning with the season after next.

Isham's "Oriental America" completed a season of 68 weeks in England recently.

De Wolf Hopper will have a new opera by Sousa and Klein, called "The Charlatan."

Joseph Callahan is in England and about to embark on a provincial tour in "Faust."

Patti's lamented husband, Signor Nicolini, left an estate valued at $205,105. He wasn't so poor after all.

The Wilbur Opera company will have a new star next season in Marion Manola. It is said Susie Kirwin has quit finally.

Mme. Rejane is said to have scored the greatest triumph of her career in the new comedy "Zaza," by Berton and Simon.

The long run of "The Little Minister" in New York has ended. The three hundredth performance was given on June 14.

Stuart Robson announces Marie Burroughs as his leading lady for next season. His entire company will be composed of first class people.

Willie Collier declares he will devote his future to legitimate comedy; that he has given up burlesque finally. He will be seen in a comedy of his own next year.

Another idol is shattered. Dan Daly has been bounced from the cast of "The Belle of New York" in London for using impolite language to one of the actresses.

Olga Nethersole has a new play called "The Termagant," which she will produce in this country next season. The scene is laid in Spain at the end of the fifteenth century.

The workman often eats his lunch on the same bench where he does his work. The office man turns his desk into a dinner table. Neither gets the out of door exercise he needs, neither takes the proper time for eating. It is small wonder that the digestion of both get out of order. In such cases Dr. Pierce's Pleasant Pellets come to their assistance by aiding nature in taking care of the food.

The cause of nine-tenths of the sickness of the world is constipation. From this one cause come indigestion, disorders of the stomach, liver and kidneys; biliousness, headaches, flatulence, heartburn, impurity of the blood and the serious complications that follow. To begin with, constipation is a little thing and a little thing will cure it. The "Pleasant Pellets" are tiny, sugar-coated granules. They will perfectly cure the worst case of constipation and indigestion. If the druggist tries to sell you some other pill that pays him greater profit just think of what will best pay you.

Horse Beat Bicyclist.

New York, July 5.—Teddy Goodman, the unpaced king of bicyclists, was yesterday defeated in two 1-mile heats by Snapper Garrison, the jockey, in a race between bicycle and horse at Berkeley oval. The race was won in hollow style.

Salisbury Called on Hay.

London, July 5.—The Marquis of Salisbury and other diplomats attended the reception of the United States Ambassador, Col. John Hay, at the latter's residence, yesterday afternoon.

Drowned in the Canal.

Dunnville, Ont., July 5.—Frank Wardell, a little fellow seven years of age, fell off a pile driver and was drowned in the Welland canal yesterday.

The future is uncertain, but if you keep your blood pure with Hood's Sarsaparilla you may be sure of good health.

CAWDOR CASTLE.

How Macbeth, Who Founded It, Happened to Select Its Site.

The late Earl of Cawdor was the owner of two charming residences in Wales—Stackpole Court, Pembrokeshire, where he died, and Golden Grove, Carmarthenshire—but these were mere pleasure houses by comparison with the ancestral home of the Campbells, Cawdor castle at Nairn. This fine north British dwelling remained almost undisturbed from the death of Sir Hugh Campbell in 1710 for a period of nearly 150 years, when it was conscientiously restored by its late owner. Cawdor castle itself had its rise in a fierce and wild age, around which traditions of a hazy nature cluster. It is a legend in Nairn that the murder by Macbeth was committed in an old chamber of the castle tower, and visitors wishing to conduct themselves with gravity and respectful reverence are expected to receive this story with an expression of solemnity not untinged with awe. That the "silver skin" of King Duncan was "laced with his golden blood" in this particular apartment is a fable that need not now be enlarged upon.

Cawdor castle by its outward aspect is, however, strongly suggestive in its gaunt and minatory massiveness of the fierce and troublous times of the ambitious Macbeth. The story goes that the thane who founded it was much concerned about the choice of an abode and was warned in a dream to place his worldly wealth in a coffer and to bind it upon the back of an ass and wherever the animal should halt to set about his work. The ass "came to a sandstill at the russetburn at the third hawthorn from the starting point" and lay down. Curiously enough, as if to confirm this tradition, to this day in the dungeon beneath the tower a hawthorn grows. The other two trees have disappeared, the last one as lately as 1836. Many stirring tales are told of the later history of Cawdor castle, which came to be left untenanted for long years owing to the Campbells departing for Wales, where they married young ladies with ample fortunes.—St. James Gazette.

WHERE THE JOKE CAME IN.

The Boys Hauled the Professor Back, Much to Their Chagrin.

A very good story is told of the head of a college who was the possessor of a very clumsy, old fashioned vehicle to which he was very partial and which he constantly used in riding through the streets of the town, to the disgust of most of the students.

A plan was formed among some of the boys that on a certain night they would remove this offensive vehicle from the coachhouse to a wood about half a mile from the college. Their intention was to run the carriage into the thickest of the woods and underbrush and leave it there.

But the principal by some means learned or suspected their intention.

Accordingly, in the evening, he quietly went out to the coachhouse, and, well wrapped up, crouched in a corner of the carriage and waited.

Soon the boys came, very stealthily, and, without looking into the vehicle, began their operations very quietly, and in whispers, and with many a "Hush" and "Take care" and "Look out," they succeeded in getting it out of the house and yard and into the road.

There they were all right, but they were puzzled to find the thing so heavy to haul, and amid grumblings and puffings and pantings, varied occasionally with a strong expression of disgust, they succeeded in reaching the woods, the principal listening to their complaints and rather enjoying the situation.

Having with some difficulty backed the carriage into the brush, they began to congratulate each other on the success of their maneuver. The old gentleman, letting down the window, to their utter surprise and alarm, very quietly said:

"Now, young gentlemen, just take me back very carefully, if you please."—Spare Moments.

Birds as Surgeons.

Some interesting observations made by M. Fatio on the surgical treatment of wounds by birds were recently brought before the Physical society of Geneva. In these it was established that the snipe had often been observed in repairing damages. With its beak and feathers it makes a very creditable dressing and has even been known to secure a broken limb by means of a stout ligature. On one occasion M. Fatio killed a snipe which had on its chest a large dressing composed of down from other parts of the body and securely fixed to the body by coagulated blood. Twice he had snipe with interwoven feathers strapped on to the site of a fracture of one or other limb. The most interesting example was that of a snipe both of whose legs he had unfortunately broken by a misdirected shot. He only recovered it on the following day, when he found that the wounded bird had contrived to apply dressings and a sort of splint to both limbs. In carrying out this operation some feathers had become entangled round the beak, and not being able to use its claws to get rid of them the poor creature was almost dead from hunger when found.—Public Opinion.

Pain of all kinds quickly relieved by the use of Hagyard's Yellow Oil. Nothing to equal it for sprains, bruises, rheumatism, stiff joints, sore muscles, etc.

THE TATTLER.

Mrs. Harriet Emerson is the city auditor of Ogden, Utah. She was formerly a resident of Lacrosse, Wis.

Miss Betty Runnels, who has just been graduated from the law department of Tulane university, is the first woman to practice law in the state of Louisiana.

Miss Hastie, an Australian woman, purposes to explore the Solomon islands, the home of the fiercest cannibals known. Hitherto white men have been able to penetrate only a few miles inland.

Mrs. Mercy Maria Gray, who died in San Francisco the other day, was one of the most earnest supporters of the Baptist church and during her life gave $1,000,000 to that denomination and to charitable institutions.

Her royal highness Princess Nellie Be-Settlomayer, eldest daughter of King George of the Galahs, a powerful tribe on the west coast of Africa, is a pupil at the Colored Normal school of Baltimore. She is 18 and very black.

Mrs. William H. Hook of Oshkosh, Wis., has applied for a widow's pension of $12 a month. Her husband was mustered in as a private on Friday, May 13, became ill on Saturday and died on Sunday at Camp Harvey of stomach trouble.

Mrs. Lola Small Jackson, daughter of Sam Small, the revivalist, has started a weekly paper in Atlanta called The Southern Star. It will be devoted to society news and gossip, the drama and music and women's interests generally.

That venerable veteran, Mrs. Julia Ward Howe, has been re-elected president of the New England Woman's club. This was at the club's thirtieth annual meeting, and six of the original members, Mrs. Howe among them, received the guests.

Mrs. John Beverly of Machias, Me., examined a pincushion recently which she had used for 37 years and found therein 110 needles as bright as new. The cushion was made of sheep's wool, and probably the oil in the wool acted as a noncorrosive.

Marie Rigo, the legal wife of the gypsy fiddler who eloped with the Princess Chimay, is crazy through her failure to win her husband back and recently attempted suicide by jumping from the third story of a hotel in Venice. Her delusion is that she is a princess and can now assert her claims to her husband against Chimay.

Mrs. Barnesley of Lamar, Mo., possesses a highly valued heirloom in the shape of a volume, entitled "A Dictionary of All Religions, Christian, Jewish or Pagan," which was printed in 1704. It is paged by hand and bound in well preserved leather. The book was brought over from Ireland by Mrs. Barnesley's grandfather.

It is a blessed period in a woman's life when a dear little stranger comes driving down out of cloudland to make its home in her heart and call her mother. Yet the majority of women approach this time with fear and misgiving both for themselves and the expected little one. The mother's heart forebodes some weakness or imperfection in the baby while the womanly nature fears its own sufferings; and perhaps a little spice of vanity about her figure makes her dread that its attractive contour may be destroyed by maternity.

But as a matter of fact when a woman is in perfect health and condition, motherhood should only serve to enhance and accentuate her physical attractiveness. Every expectant mother should know and avail herself of the health-giving, nerve-toning properties of Dr. Pierce's Favorite Prescription. It gives specific strength and endurance to the organism of maternity; promotes thorough, healthy, constitutional vigor and recuperative energy. It makes motherhood safe and comparatively comfortable; insures the baby's perfection and preserves the mother's buoyant spirit and womanly attractiveness.

Mrs. Elizabeth Hull, 27 Merrick Street, Pawtucket, R. I., writes: "I have taken Dr. Pierce's Favorite Prescription and cannot speak too well of it. I have had fifteen babies, and always had a bad time. Sometimes I had to have two doctors. I began taking your 'Prescription' last July, and in September I gave birth to two little girls, and I never had such an easy time. I had no doctor, and was not in pain half of the time as before. My weight is about two hundred pounds. My twins when born weighed ten pounds each. They are fine girls, now four months old."

In many cases where constipation is one of the aggravating causes of disease, Dr. Pierce's Pleasant Pellets should be used in conjunction with the "Favorite Prescription." They are the simplest and most perfectly natural laxative ever invented.

THE HORSE SHOW.

Miss Phallerton, 2:26¼, by Allerton, will join the American colony in Russia.

The bay 5-year-old gelding Ed Toler, brother of Sally Toler, 2:08¾, and Bert Oliver, 2:08¾, is a very fast pacer.

At Terre Haute, Ind., Red Star, 2:12¼, recently worked a mile in 2:18½, last half in 1:05¼, last quarter in 33 seconds.

Cleovice, who took a record of 2:24¼ in the 2:40 trot at Baltimore recently, is the first of the get of the dead Cartridge, 2:14½, to enter the 2:30 list.

The name of the chestnut pacing gelding Our Boy, 2:12¼, by Vernon Boy, has been changed to Wela Ka Hoa since he was taken to the Sandwich Islands.

The pacing gelding Tameriane, 2:24½, was recently shipped to Walter Winans at Brighton, England, who is driving him to pole with Jack Bowers, 2:09¾.

At the spring trotting meeting at Nice the purses amounted to $9,780. Of these French owners won $4,461, the balance going to Italian and Austrian horsemen.

Walter Palmer has uncovered a new trotter at Ottawa, Ills., in the 5-year-old bay mare, by Alroy, dam by Bird Allen. With less than four weeks' work she can step right at 2:20.

The New York pacing mare Flirt, 2:19¼, by Armont, who spent last winter at Selma and is now at Louisville, is said to be very smooth goods and apt to secure a very low record.

Oleosa, by Alcantara, owned by W. G. Cox, Dubuque, Ia., paced a quarter in 29 seconds the other day. She came from the Caldwell farm, Louisville, and is now in the hands of Henry Kelly.

Among numerous promising young Axtells in training at Terre Haute are two extra good ones—Tell Tale and Axnit. The first has been a half in 1:11¼, quarter in 35 seconds and the second a quarter in 33½ seconds.—Horse Review.

HOBSON AND HIS HEROES.

The latest naval hero is from Alabama. It is high time the other sections of the country were being heard from.—Washington Post.

Time was when "Hobson's choice" was a phrase that meant no choice at all. Now it means about the bravest and noblest choice a man can possibly make.—Washington Star.

Before such bravery it is best to be silent. There are some things which words do not describe. It is for us to salute those eight men, but that is all.—Cincinnati Commercial-Tribune.

In an hour in Santiago bay that man and that ship gained immortality of fame for the sheer splendor of deliberate daring such as King Olaf and his Berserks might have loved to see.—New York Tribune.

Even Admiral Cervera was compelled to express his admiration of their valor, notwithstanding the fact that by their act his last hope of escape from his prison had been blasted. Praise from a defeated enemy is praise indeed.—Philadelphia Record.

DR CHASE'S SYRUP OF LINSEED AND TURPENTINE

OBSTINATE COUGHS.

"My daughter being afflicted with an obstinate cough which resisted the curative effects of almost all the advertised cough remedies, and having placed an order for 3 doz. of Chase's Linseed and Turpentine in W. W. Carter's Drug Store, of which I am manager, I was induced to try a bottle. A few doses gave relief and the one bottle effected a cure. I can highly recommend it as being pleasant to take and efficacious."

Alabama is proud of her noble young son, who so signally illustrates his state and country in the very jaws of death. Hobson's deed of daring shows the sort of metal the south is giving the united country in this time of need.—Montgomery Advertiser.

Deeds of this sort fall outside the limits of naval duty. Men are not ordered to perform them. They are done by volunteers, and it is the pride of America that the more desperate the service the more abundant are the men who are eager to perform it.—New York Journal.

THE BEEHIVE.

Have a supply of beehives and other appliances in readiness for swarming.

Save out a few combs of well sealed honey, especially to feed during the winter.

Do not set the hives in a place too quiet or secluded or the bees will become savage.

Italian bees have longer tongues and gather honey from flowers that black bees cannot reach.

Italian bees are better to guard their hives against robbers and against the ravages of the moth.

A virgin queen will be prevented from becoming fertile by cutting her wings, so that she is unable to fly.

Very strong colonies may swarm and the two colonies thus produced may store more honey than if all are kept in one hive.

Swarms should not be kept any length of time after they have issued from the hive and clustered, as the next thing for them to do is to get up and leave.—St. Louis Republic.

HOUSEHOLD HINTS.

A good deodorizer is made by applying a hot poker to a lump of camphor gum in a saucer. The strong fumes will clear the air of the room at once.

Always make starch with soapy water, which will give a better gloss to the linen and prevent the irons from sticking.

Brooms hung in the cellarway will keep soft and pliant and wear longer than if kept in the dry air of the kitchen.

Silk stockings should be washed and rinsed in lukewarm water and wrung between towels. Silk underwear should be washed in warm soapsuds to which a little ammonia has been added.

A point to give the new waitress is that china plates, cups and saucers should not be piled one upon another while they are hot. They must be cool before they are packed. Otherwise the glaze cracks easily.

A PRESSMAN'S STORY.

Mr. Parnham Tells how Dodd's Kidney Pills Cured His Lumbago.

Toronto, June 27.—The story of the escape of the Globe pressman, Mr. John H. Parnham, from the agonies of Lumbago, by using Dodd's Kidney Pills, is unusually interesting.

Mr. Parnham writes to the Dodd's Medicine Co., Limited, thus:—"I am proud to testify to the wonderful efficacy of Dodd's Kidney Pills. About eight months ago I was attacked by severe pains in my back. I consulted an eminent physician, who said I had Lumbago and told me to take Turkish baths. These did me no good.

"A friend advised me to try Dodd's Kidney Pills. I did so, and one box cured me. My back has never troubled me since."

NEW WORDS NEEDED.

English Demand For Such Combinations as "Killment" and "Lovist."

There is one thing that has not yet been "treated" by the universal improver—that poet who tries to set everything right—and that is our English language. None but foreigners have as yet had cause to complain of it, every Britisher seems to be satisfied with it—except me.

Now, why aren't there more words? We have something like 150,000, but that is not enough, and we often experience difficulties on this account.

For instance, when a bus topples over in the street the newspapers boom out with long winded headings about "the falling over of a bus," "collapse of a bus," or "the overturning of a bus," etc. But these are more or less clumsy. Clearly it's the word "overturnsion" that is wanted. "The overturnsion of a bus" hits the situation perfectly.

Then, again, if you want to say that a hundred Gordon highlanders were annihilated by an Arab tribe, you could considerably shorten your sentence by the concise expression, "Arab killment of 100 Gordon highlanders."

Thousands of colloquialisms could be modified in a similar way. The awkward word photograph could be changed to "fotofy," puncture to "punk," cigarette to "cigotte," situation to "sition" or "sitment," and so on.

In more sentimental matters new words would be a decided boon. A man somehow can't help blushing when he calls the woman of his heart "sweetheart," "lover" or "intended." They are ugly words. "My girl," of course, is low, and "fiancee" is avoided because it cannot be pronounced properly. "Lovist," "spileer" or "matcher" are infinitely more tasteful and convey the proper meaning.—London Answers.

Fame Kept Alive by Flowers.

In St. Nicholas there is an article on "Flower Names," written by Ella F. Mosby. The author says:

Some of the roses have French historic names, as the Souvenir de Malmaison, and the splendid Jacqueminot, the soldier

Who shared in Napoleon's glory,
And dreamed that his sword had won his fame!

Ah, the fate of a man is past discerning!
Little did Jacqueminot suppose
At Austerlitz or at Moscow's burning
That his fame would rest in the heart of a rose!

What could be lovelier indeed than to have one's memory kept alive by a flower, as has been the fortune of the botanists Fuchs, Kalm, L'Obel, Dahl and Magnol, who would have been forgotten long ago but for the fuchsia and kalmia, the lobelia, dahlia and magnolia of our gardens and forests.

DYING BY INCHES!

But Dodd's Kidney Pills will Yet Renew Life.

Thousands of persons die in the prime of life because doctors think Bright's Disease and Diabetes incurable. But Dodd's Kidney Pills cure them both. They *have cured* thousands of cases.

These diseases and other Kidney complaints are as common as ordinary colds. But people don't realize that they are afflicted till the disease has eaten deep into the system. Even then, Dodd's Kidney Pills will positively cure.

Thousands of *people are dying on their feet, but do not realize it.* They notice one or more of these symptoms: shortness of breath, loss of memory, failing sight, ravenous appetite, pale or reddish urine, with brick-colored deposit, scalding when urinating, constipation, nervousness, pains in the loins. Their only hope is Dodd's Kidney Pills. They won't fail. They never do.

WAR SIDE LIGHTS.

A $342,000 cork may seem a little extravagant, but consider the size of the bottle and the value of the contents!—Hartford Courant.

Men who part their hair in the middle will undoubtedly make a note of the fact that Dewey and Hobson do the same. Dewey also parted the Spanish fleet in the middle.—Boston Transcript.

UNDER ONE FLAG.

The ex-Confederate soldiers don't even flinch when the Spanish call them "d——d Yankees."—Washington Post.

Hereafter the north and the south will have a memorial day which they can and will celebrate together.—Savannah News.

Hobson born in Alabama, Dewey born in Vermont, both heroes. It seems that the soil of this country runs about the same all over.—Council Bluffs Nonpareil.

When Americans beg for a private's place in the army and for an opportunity to face almost certain death in the navy, we have little fear from all Europe. We have an abundance of Hobsons and we may have many Deweys.—St. Louis Post-Dispatch.

Shot His Daughter.

James Spafford of Cherry Valley, while handling a revolver, accidentally shot his little daughter, the bullet passing through the body at the left breast. Her recovery is doubtful.

THE OLDEST LIVING AUTHOR

IN THE PERSON OF MRS. TRAILL, LIVING AT LAKEFIELD.

A Lady Whose Life Span Links Two Centuries—Still Living, With Faculties of Mind and Strength of Body but Comparatively Little Impaired.

The following appears in the Montreal Daily witness of June 28th :—Mrs. Parr Traill is the daughter of an English gentleman named Thomas Strickland, who was a descendant of the Stricklands, of Yorkshire, and the East of England.

Mrs. Traill was born on Jan, 9, 1802, in London, Kent, one of a family of sisters well known in the world of literature. Elizabeth and Agnes Strickland were jointly the authors of Queens of England, and separately of other historical biographies, Susanna, afterwards Mrs. Moodie, became well known as a writer, both in England and Canada, "Roughing it in the Bush" coming from her pen. Jane Strickland was the author of "Rome, Regal and Republican," and of other works of semi-historical nature.

Mrs. Traill's early days were spent at her father's home, "Stowe House," an old place in the Valley of the Waveney, not far from the town of Bungay, on the high road between Norwich and London.

In 1808 Mr. Strickland removed to Reydon Hall, near Wangford, two miles from Southwold, in Suffolk. He himself educated his daughters, possessing a fine library, to which they applied themselves with much literary zeal.

At the early age of fifteen Mrs. Traill

WROTE HER FIRST STORY,

or rather collection of storfes, of which "The Swiss Herd Boy and his Alpine Marmot," was a portion. This was in 1817.

From the winter of 1817-1818 Mrs. Traill lived at Norwich, and had access to the city library. In 1818 she wrote "The Blind Highland Piper," "The Little Water Carrier," and a few other tales, for which she received the sum of five guineas from Mr. Harris, the publisher of St. Paul's Churchyard, London. Mr. Harris employed Mrs. Traill to write another story for publication. In response she wrote "Nursery Tales." She next wrote "Prejudice Reproved," "The Young Emigrant," "Sketches from Nature," "Sketch Book of a Young Naturalist," and "The Step-Brothers," for Darton & Harvey, publishers.

In 1822 Dean & Mundy published her "Little Downey, the Field Mouse," and "Keepsake Guinea and Other Stories." Between 1822 and 1832 many other short stories were written and published in various annuals.

Catharine Parr Strickland met Mr. Thomas Traill, of the Orkneys, in 1831, and was married to him in May, 1832, at Reydon. Mr. Traill had been an officer in the 21st Royal Scotch Fusiliers, and like many other retired officers, he turned his eyes toward the New World. Consequently, after a visit of a few week's duration in the Orkneys, Mr. and Mrs. Traill

SAILED FOR CANADA

on July 7, and arrived in Montreal on Aug. 17. Here Mrs. Traill contracted cholera, which caused a few weeks' delay. Via Cobourg and Peterborough, they came to the shores of Lake Katchawanooka, the present site of Lakefield, where Mrs. Traill's brother, Mr. S. Strickland, was already settled, and where Mr. and Mrs. Traill spent the next seven years—1832-1839.

Mrs. Traill's pen was not idle, and she soon began to evince her interest in her adopted country. In 1835 she wrote 'The Backwoods of Canada,' which was published in London by Charles Knight. This contained much information for intending emigrants and had a wide circulation. The hardships and discomforts of life in the bush were described both with fidelity to fact and in the spirit of cheerfulness and hope. It undoubtedly was the means of leading many people to make their homes in Canada.

Between 1838 and 1846 the Traills lived in the "Scotch Village," now Ashburnham, at the end of which period they removed to the shores of Rice Lake, between Peterborough and Cobourg. They laboured under the peculiar difficulties which beset emigrants of their class during the early years of the settlement of this country. Limited means, the absence of nearly all the social machinery of life in the Old Country, unaccustomed to all kinds of labour, combined with the anxieties of

A GROWING FAMILY,

made their life the very reverse of easy. Mrs. Traill battled with their poverty by writing short stories and sketches for English and American magazines: "The Anglo-American," "The Maple Leaf" and "The Canadian Monthly." The character of these articles is suggested by such titles as "Glance within the Forest," (1844) "Voices from the Canadian woods," (1846) and "Our forest Trees." (1749)

In 1850 appeared "Lady Mary and her nurse," or "A peep into the Canadian Forests," published in London. A new edition appeared some years later under the title, "Afar in the forest," or "Pictures of life and scenery in the wilds of Canada." "Canadian Crusoes" followed, from New York in 1852 and 1855; from Boston in 1861 and from London in 1862.

These books have had an extensive circulation under various titles, but the author received from them no more than £50, the price of the copyright.

"Rambling in the Canadian Forests" was published in 1854 and 1859. "A Guide for Female Emigrants" was published in Toronto in 1855, and a seventh edition in 1857. For this Mrs. Traill received personally no remuneration; but a clergyman named Hope, who had undertaken to publish it, procured £300 from the Canadian Government to recoup him the losses he alleged that he had incurred in publication.

MRT. TRAILL'S FAMILY

now number four sons and five daughters, of whom only two sons and two daughters survive. Yet with all the cares of family life, and the hard labour of farm life, she lost no opportunity of studying the botany of the country, and was always seeking for specimens and making notes for her observation.

In 1857 they were burnt out and lost all—books, manuscripts, everything save life. This calamity was followed in June, 1859, by the death of Mr. Traill at the age of sixty-six. Soon after this bereavement Mrs. Traill returned to the banks of the Otonabee, near her brother's home, now Lakefield.

Continuing her work of collecting specimens, Mrs. Traill several times sent home to England small collections of pressed ferns and mosses, which found a ready sale. Lady Charlotte Greville succeeded in so interesting Lord Palmerston in Mrs. Traill's literary work as to obtain a grant for her of £100 from a special fund. With this Mrs. Traill purchased the house and lot where she now lives and which in honour of her husband's birth place she has called "Westove."

In 1869 her botanical notes were utilized in supplying the letter press of her niece, Mrs. Fitzgibbon's "Canadian Wild Flowers," of which a new edition appeared in 1896. In 1884 Mrs. Traill published her "Studies of Plant Life in Canada," which was also

ILLUSTRATED BY HER NIECE.

Dr. Fletcher of the Experimental Farm, speaks of the botanical knowledge displayed by Mrs. Traill in these works as remarkable.

The copyright of "The Queens of England," half of which was left to her by her sister Agnes, was sold for much less than half its value, adding little to her very small income.

In 1893 Mrs. Traill received from the government the gift of a tiny islet in the Otonabee River, and has also been honoured by the designation of a variant of the fern "Aspidium Marginale" as "Trailiae." A year or two ago she was elected Honorary President of the Peterborough Historical Society. Her two last works, "Pearls and Pebbles, or Notes of an old Naturalist," and "Cot and Cradle Stories," were published by Briggs, of Toronto, in 1894 and 1895 respectively.

Mrs. Traill is now in her ninety-seventh year, and is the oldest living author in her Majesty's dominions having maintained literary activity for over eighty years, and exhibiting in her old age a bright and keen interest in all that makes for the welfare and improvement of her race and country.

For several years Mrs. Traill has lived with her daughter, Miss Traill and her grand daughter, Miss Katie Traill at "Westove," Lakefield, upon a combined income just sufficient to enable them to live in simple comfort.

Unfortunately, owing to the disastrous state of affairs revealed by the death, a few months ago, of the agent with whom most of their principal sum was entrusted for investment, this combined income is greatly reduced. But it is estimated and hoped that a portion may be saved from the wreck.

Sir Sandford Fleming, of Ottawa, who is an old friend of the author, and a committee of ladies and gentlemen are heading a movement to secure some suitable recognition of Mrs. Traill's unique position in the literary world and her services to Canada. Her work, the "Backwoods of Canada," published in London sixty years ago, obtained a wide circulation, and sent many a desirable immigrant to Canada.

OBITUARY.

The Late David Smith, of Lakefield.

On Sunday, June 19th, David Smith, one of Lakefield's oldest residents, was called away to his reward.

The late Mr. Smith was born in Morayshire, Scotland, in 1833. The next year his parents emigrated to Canada, and immediately settled in the township of Dummer. There David and an older brother, Alexander, spent their boyhood days. David chose the blacksmith trade. He served his time in Westwood. Then he worked as a journeyman first and afterwards in a shop of his own in Keene. He remained in Keene six or eight years. In November, 1862, he came to Lakefield and started up business. Mr. Smith was united in marriage to Miss Margaret Lumsden, third daughter of the late Andrew Lumsden, of Keene.

Mr. Smith lived at Lakefield for almost thirty-six years, working up a good business, and making himself useful to all and respected by all. He possessesed many sterling qualities of mind and heart. In every sphere of life he proved himself worthy of trust. As husband, father, citizen and member of the church, he was never found wanting. For twenty five years he was an elder of the Presbyterian church, and a life-long teacher in the Sunday school. Mr. Smith was one of the first teachers in the Sunday school organized in connection with the present stone church. Mr. Smith was also a life-long member of the choir, having at first been leader for some years. He will be missed in many quarters, especially in the church. During the last two years he was afflicted by sickness and trouble. First a daughter was called away, then in four days a son. Then on May 20 of this year his only brother, Alexander Smith, of Warsaw, was killed by an infuriated bull; within a month he too peacefully passed away. The loved ones left behind, the widow and eight children, six of whom are still at home, have the sympathy and prayers of the community in their great loss and heavy trial. Of David and his brother Alexander, who was also an elder in the Presbyterian church, Warsaw, in my truly be said "Blessed are the dead which die in the Lord from henceforth; yea, saith the spirit, they rest from their labors, and their works do follow them."

The funeral took place from the family residence on Tuesday, June 21st, and was one of the largest ever held in this district.—News.

Severe Bronchitis Yields Promptly to Dr. Chase's Syrup of Linseed and Turpentine

I used your Dr. Chase's Syrup of Linseed and Turpentine for a severe attack of Bronchitis. I got better from the time of taking the first dose. Having a family of small children, my docter's bills have annually come to a considerable sum. I believe a bottle of Dr. Chase's Syrup occasionally will aid me in reducing them very materially.

SUNK IN A COLLISION

French Liner, La Bourgogne, Goes Down Off Sable Island.

NEARLY 600 LIVES WERE LOST.

Terrible Moments After the Vessels Struck —Men Fought Like Wild Beasts to Save Their Lives — Women and Children Trampled On —Only One Woman in 300 Saved.

Halifax, N.S., July 7.—The British iron ship Cromartyshire was towed in here yesterday morning by the Allon Liner Grecian, with her bow torn away by collision, 60 miles off Sable Island, with the French steamer La Bourgogne, which went down ten minutes later.

Of the six hundred passengers and crew on board the latter, only two hundred were saved.

One woman was saved by her husband.

The captain and other deck officers went down with the ship.

The Cromartyshire laid-to and picked up the 200 passengers and seamen who were rescued, transhipping them to the Grecian, which came along shortly afterwards.

Capt. Henderson's Story.

The log of the Cromartyshire, signed by Captain Henderson, is as follows: On July 4th, at 5 a.m., dense fog; position of ship, 60 miles south of Sable Island; ship by wind on the port tack, heading about w.n.w.; under reduced canvas, going about 4 or 5 knots per hour; our fog horn was being kept going regularly every minute. At that time heard a steamer's whistle on our weather side or port beam, which seemed to be nearing very fast. We blew horn, and were answered by steamer's whistle. All of a sudden she loomed through the fog on our port bow, and crashed into us

At a Terrific Speed.

Our foretopmast and maintopgallantmast came down, bringing with it yards and everything attached. I immediately ordered the boats out, and went to examine the damage. I found that our bows were completely cut off, and the plates twisted into every conceivable shape. The other ship disappeared through the fog. However, our ship was floating, but kept ahead, so there seemed no immediate danger of her sinking. We set to work immediately to clear the wreckage, and also to ship our starboard anchor, which was hanging over the starboard bow, and in danger of punching more holes in the bow. We heard a steamer blowing her whistle on coming back, and we answered with our fog horn. The steamer then threw up a rocket and fired a shot. We also threw up some rockets and fired several shots but we neither saw nor heard any more of the steamer. Shortly after, or about 5.30 a.m., the fog lifted somewhat, and we saw the boats pulling towards us, with the French flag flying. We signalled them to come alongside, and found that the steamer was the La Bourgogne, from New York to Havre, and that she had

Gone Down.

We laid-to all day, and received on board about 200 survivors from amongst passengers and crew, reported to be in all about 600.

Assistance.

At about 3 p.m. another steamer hove in sight, bound westward. We put up our signal: "Want assistance." Shortly after, the steamer bore down toward us. She proved to be the Grecian, bound from Glasgow to New York. The captain of the Grecian agreed to take the passengers on board and also agreed to tow my ship to Halifax. Owing to the condition of my ship, I accepted the offer, and we proceeded at once to transport the passengers and get ready our tow line. At 6 p.m., we had made a connection and proceeded in tow of the Grecian towards Halifax, having put a sail over the broken bow to take part of the strain off the collision bulkhead. There was at that time 14 feet of water in the forepeak."

A Woman's Story.

Mrs. Henderson, wife of the captain, was on board the Cromartyshire with her two children. She tells a thrilling tale of the terrible experience. The collision occurred at 5 a.m. The weather was foggy, and she had risen from her bunk at an early hour, as was her custom when the weather was thick. Shortly before the vessels came together she detected a steamer's whistle blowing on the port side of the vessel. The Cromartyshire was sounding her fog horn at intervals of one minute. Mrs. Henderson called the attention of her husband to the sounding of the whistle, and a minute later the mate, who was on the watch, also detected the sound. It came nearer and nearer, and Mrs. Henderson stood near the cabin in order to

Rescue Her Children

should a disaster occur. Suddenly the huge hulk of an ocean greyhound loomed up in the mist, going about 17 knots an hour. Almost immediately there was a fearful crash and Mrs. Henderson rushed below and found her children awakened by the shock. She dressed the little ones as quickly as possible, and removed them to the deck, expecting to see her own ship go down any minute. Capt. Henderson had, as soon as the collision occurred, ordered the boats to be lowered and the damage to be ascertained. As it was found that the Cromartyshire was in no immediate danger, the Britisher was put about. The vessel with which they had collided was at that time unknown.

A few minutes later her whistle was heard and several rockets were sent up. Capt. Henderson replied in like manner, thinking that the steamer was offering assistance, but in a few minutes all was quiet, and those on board began to realize the awful results of the collision.

At 5.30 the fog lifted, and two boats were seen approaching the Cromartyshire with only men on board. Later, the weather cleared still more and men were to be seen in every direction, clinging to wreckage and floating on life rafts. It was a terrible scene. No pen can picture

The Appalling Sight.

unveiled to the onlookers when the curtain of mist arose. The work of rescue was commenced without a moment's delay, and about 200 persons were picked up and taken on board the ship.

Women the Victims.

Mrs. Henderson had ample opportunity of interviewing those who were rescued and expressed her belief from what she heard that there had been no effort to save the women. There were many foreigners on board, who fought for places in the boats. It was fully ten to fifteen minutes before La Bourgogne went down, and during that time there was ample opportunity afforded to rescue at least some of the women and children. As it was, only one woman was saved Mrs. Lacasse was saved, and she has been on board ever since.

Mrs. Lacasse, wife of Prof. Lacasse, language teacher of Plainville, N.J., was the only woman saved from La Bourgogne. The crew of the Cromartyshire expressed the belief that there must have been some

Foul Play,

seeing that only one woman was saved out of 300.

All the first-class passengers were lost, those saved being steerage and sailors. Lacasse and his wife were in the water eight hours, clinging to a raft, before they were picked up by a boat from the Cromartyshire. They lost everything but what they stand in, including money and valuables.

On the morning of the collision, Captain Henderson was on the poop, with his third mate, A. C. Stewart. Sailor Haley was on the lookout, and First Officer Killman was also on the castle deck. The Cromartyshire was making about five knots an hour, with several sails set, and taking in all the time. Not a sound was heard until Lookout Haley saw a large steamer half a ship's length ahead, on the port bow. In an instant the Cromartyshire's jibboom was crashing into the Bourgogne's bridge, and the vessel

Crashed Into the Liner,

staving a big hole near the engine-room. La Bourgogne scraped the whole length of the Cromartyshire's port side, and then sheered off. La Bourgogne blew long, mournful whistles for assistance. Third Mate Stewart of the Cromartyshire says that the Frenchmen evidently thought they were another ship, and that they (the Bourgogne) had sunk the colliding vessel. Boats were sent out and nearly 150 were saved. At the time of the collision Mr. Stewart says the Bourgogne must have been going at the rate of 18 or 19 knots per hour, though a dense fog prevailed, shutting out everything not less than 20 yards away.

Terrible and appalling as was the disaster which overtook the French liner, it would have been even more tragic had she struck the Cromartyshire ten feet further aft, for then the Cormartyshire, too, would have sunk. As it was, her port bow was completely carried away.

HORRIBLE TALES OF SURVIVORS.

Women Given No Chance at All—Men Knifed by Frantic Passengers.

Halifax, N.S., July 7.—After a vivid description of the appalling wreck, Mr. Pierre Lariviere of New York, who lost wife and three sons, says: "I started for the companionway to warn my sons, but too late. The passengers came pouring up from below in their night attire. The sight was one of the most horrible I have ever seen. Before 50 people had got through the opening it was blocked by a mass of shrieking women and shouting men, tearing each other in desperation. I saw women who were near the top stair seized by men and dashed back among the struggling crowd below. The women had no chance given them at all. It was a fight by men for life, and the strongest took every advantage of his strength.

"The steerage passengers were in the same plight. Their stairway was blocked by struggling men, women and children, few of whom except the first to start and the very strongest were able to reach the deck. Not more than 300 people succeeded in reaching the deck. The rest were all penned up below and met with a horrible death."

A Fiendish Scene.

Matteo Zurich, an Austrian, gave a most graphic sketch of the disaster. He was on deck when it occurred. Part of his story is almost incredible. He says: "On board were a large number of Italians and other foreigners. These fiends stopped at nothing. In the boat was a party of forty women, but so great was the panic that not a hand was raised to assist in her launching. The occupants, so near saved, were drowned like rats when the ship, with an awful hissing sound, went down.

"So desperate was the situation that an Italian passenger drew his knife and made direct at one who, like himself, was endeavoring to reach the boats. Immediately the action was imitated in every direction. Knives were flourished and used with effect. Women and children were driven back to inevitable death at the point of weapons, the owners of which were experts in their use. According to stories of survivors, women were stabbed like so many sheep.

"The scene on the water was even worse. Many of the unfortunates who were struggling in the water attempted to draw themselves into the boats, and on rafts. These were pushed back into a watery grave. Here, too, knives were used freely.

"Not all of the dead met death by drowning. Christopher Brunon saw a sailor belonging to the La Bourgogne strike a passenger and kill him."

560 Persons Drowned.

New York, July 7.—According to the best information obtainable, the La Bourgogne had 165 persons saved, of whom 106 were officers, sailors, firemen, waiters and other ship's people, while 59 passengers escaped.

725 on Board.

New York, July 7.—There were on board the La Bourgogne 85 first cabin passengers, 125 second cabin, and 295 third-class (or steerage), making altogether 505 passengers. There were 220 in the crew, making a total of 725 persons on board.

La Bourgogne was built in 1886 at La Seyne. She was a four-masted ship-rigged screw steamer of 7,395 tons gross register and eight thousand horse power. She was 494.5 feet long, had 52.2 feet beam and was 34.6 feet deep. She was built of steel and iron, had twelve water-tight compartments and carried water ballast.

Canadians Who Went Down.

Eugene Du Bost, wholesale miller, Montreal, Que.

Misses Rene and Laura Barsolou and Anaide Letourenan, Montreal, three young ladies who left that city to join the Convent of the Female Franciscans in France.

H. S. Crumley, chief of the upholstering department of Sibley, Lindsay & Curr Co., Rochester, sailed on La Bourgogne. Mr. Crumley was unmarried, and made his home with his parents in Kingston, Ont.

$1,000,000 SURPLUS.

Restored Confidence—Canada's Financial Operations for the Year—Increased Revenue and Bank Deposits.

Ottawa, July 7.—The figures of the year's financial operations of Canada will appear in the next Official Gazette, and they are so favorable that there is every reason to believe that there will be a surplus of not less than one million dollars. This will be the first surplus since the year 1893. Between 1893 and 1897 the deficits have amounted to over six million dollars. The administration of the Liberal Government, judged by every test possible to apply, seems to fully merit the confidence expressed at the polls in June, 1896. The precise figures of expenditure will not be known for another month or two. The total revenue on account of consolidated fund for the twelve months ending June 30 amounted to $38,394,000, as compared with the total revenue for 1897 of $36,873,000, or an increase of over $2,000,000. The revenue from customs, post-office, public works and railways and miscellaneous shows large increases, but there is a heavy decrease of $1,800,000 from excise. The customs receipts for 1898 amounted to $21,467,000, as compared with $19,318,000 for 1897. The amount to the credit of depositors in the savings banks is $48,577,000, as compared with $47,130,000 a year ago, showing an increase for 1898 of $1,447,000, which is an evidence of restored confidence throughout the country. For the month of June the revenue was $3,221,000, against $2,814,000 in June, 1897, an increase of over $900,000, due altogether to customs and excise. The post-office revenue for the fiscal year just closed shows an increase over 1897 of $300,000, but for the month of June there is a falling off as compared with June, 1897, of $90,000, due no doubt to the sale of jubilee stamps a year ago.

Homeopathists Want a Charter.

Toronto, July 7.—Contemporaneously with other medical conventions now in session, the Canadian Institute of Homeopathy gathered at Grace Hospital to take a survey of the past year and lay plans for the future. Dr. Lafferty of Hamilton and Drs. Hardy and Topp of this city were made members of the society. It was decided to apply to the Government for a charter to incorporate the Homeopathic Medical College of Toronto. The following were elected to office: Dr. W. J. Hunter, Honorary President; Dr. Sinclair of Woodstock, Vice-President; Dr. R. W. Topp of Toronto, Secretary-Treasurer.

FRIENDS PREVAILED

A Nervous Toronto Woman Walked the Floor During the Night for Hours at a Time—She Makes a Statement.

TORONTO, ONT.—"I was troubled with nervousness. It was impossible for me to keep still and if the spells came over me during the night I had to get up and walk the floor for hours at a time. My blood was very poor and I was subject to bilious attacks. My feet would swell and I was not able to do my own housework. I treated with two of the best physicians here but only received relief for a time. I became discouraged. One day a friend called and advised me to try Hood's Sarsaparilla. I laughed at the advice but I was prevailed upon and procured one bottle. Before I used it all I began to feel better. I took several bottles and also several boxes of Hood's Pills. Now I can eat and drink heartily and sleep soundly. Hood's Sarsaparilla has entirely cured me and also strengthened me so that I now do all my own work. I cheerfully recommend Hood's Sarsaparilla to all sufferers from nervousness, weakness or general debility." MRS. H. F. PARM, Degrassi Street.

RELATIVE VICTORIES.

No one can deny that the United States at sea have met with remarkable success against the Spaniards. While their success is remarkable it is not at all wonderful, considering the conditions. When they tried conclusions with the Spaniards on land the Americans rather got the worst of it, because the contending forces were on something of an equality in the matter of force. But the much belauded Dewey victory at Manilla was made against ridiculously inferior force, so much so as to make the alleged naval engagement more like a massacre than a sea battle. The destruction of Cervera's fleet is something in the same class as Dewey's victory. Cervera was outclassed two to one in almost every respect. The number of his ships was six to Sampson's eight of more than double the total tonnage, with nearly double the number of guns and a similar superiority in weight. At the same time the armour of the American ships was very much heavier than the average of Cervera's fleet. In the matter of pluck the advantage under the circumstances, if not otherwise, is altogether with the Spaniard. The Americans faced boldly a danger that did not exist, while, on both occasions, the Spaniards fought their ships to the last spar, Cervera fighting while he had a leg to stand on, and the captain of one of the Manilla Spaniards' ships nailing his flag to the mast, and literally going to the bottom with colours flying. The Spaniards have shown great pluck and courage under adverse circumstances. With a fleet honeycombed by corruption, with an army in a state of starvation as to both food and equipment, with enemies before and behind them, with the world against them, so far as an adequate supply of ship coal was concerned, they had decidedly the short end of the bargain. At the same time the Americans have shown that in a war against a nation on somewhat even terms of strength on sea or land, they would have doubtless given a good account of themselves, and proved themselves worthy on sea and shor of the loins from which they sprung. But when Spain is beaten, it seems only the decent thing to give some degree of credit to the under-dog in a hopeless fight.

NEGATIVE PROSPERITY.

The prosperous condition of Canada today is so palpable and positive that "it would seem hardly worth while to pile Ossa on Pelion by adding further evidence. There is, however, no harm in submitting negative evidence to show that the country is prosperous. We succeed better in business because we don't fail so much. The record of the business troubles published by the merchantile agencies from time to time show how rapidly they are diminishing. The failures for the three months ending the 30th of June were, according to Dunn's agency, two hundred and sixty-five in number, or about thirty per cent. less than for the corresponding quarter of last year, and the liabilities were about thirty-four per cent. less. It is evident that our manufacturers are not suffering under the new regime, for the decrease in the failures of manufacturers is rather more marked than the decrease in the failures of traders. All the provinces share in the improvement. The figures by provinces for the second quarter and for the Dominion as a whole for the first quarter are as follows:

	No.	Assets.	Liabilities.
Ontario	130	$ 486,586	$ 640,038
Quebec	73	472,086	673,549
British Columbia	9	45,000	40 800
Nova Scotia	35	208,736	343,000
Manitoba	10	77,671	732,587
New Brunswick	18	141,945	165,648
Total	265	$1,430,046	$1,945,622
First quarter	423	2,365,688	2,941,067
Half year	688	$3,795,734	$4,886,529

Lord Byron woke up one morning and found himself famous. Osgoode township near Ottawa went to sleep one evening passed a fool by-law forbidding bicycling in the townships and woke up notorious. WIDE TIRES AND GOODS ROADS.

In his annual report, a copy of which the EXAMINER has received, Mr. A. W. Campbell, Ontario's energetic instructor in road making, makes another appeal for wide tires, which is deserving of more than passing mention. "When wide tires," he says, "have universally replaced the narrow tires which are now found on farm wagons, a great part of the road question will be solved."

"Narrow tires of two and one-half inches in width have only one-half of the bearing on the road which would be provided by tires of proper width. By the use of a six-inch tire, the roadway will support, without yielding twice the load which it could support with a three inch tire.

"Narrow tires cannot be to strongly condemned. They cut and grind the road, plow and upheave it. Wide tires, on the contrary, are a benefit rather than an injury to the road, inasmuch as they act as rollers to preserve a smooth, hard surface. In some localities wide tires are objected to under the argument that they increase the draft required to move the load. This may occur under certain occasional conditions of every wet and soft roads. But when wide tires are universally used this objection will disappear, as the increased draft is due to the ruts and mud caused by narrow tires."

Good roads and broad tires work together. It is well-known, by costly experience, the amount of damage that can be done to even the best of roads by the use of narrow tires.

WHEAT UP AGAIN.

The Rise Was Caused by the Big Decrease in the World's Visible Supply—The Prices.

Wednesday Evening, July 6.

Wheat rallied in Chicago to-day, July closing 2⅜c higher than yesterday, and the September and December options ⅞c higher. The steadiness of the British cables and Bradstreet's report, showing a decrease since a week ago of over 6,000,000 bushels in the world's available supply, were the bullish factors which led shorts to support the market and put up prices. The trading, however, was not broad, and any bright reports from sections will likely bring about a reaction to-morrow (Thursday). New wheat is beginning to be shipped out of the Southwest in large quantities.

In Liverpool to-day wheat reflected yesterday's decline at Chicago. The July future went off ½d per cental, and the September and December options ¾d. The Paris market inclined higher.

East Buffalo Cattle Market.

East Buffalo, July 6.—Cattle—Receipts light to-day, and only a few were of the desirable grade of butchers' stock; market about steady. Veals and calves—The supply was moderate, demand fair at about steady former prices; top grades, $5.25 to $5.50; common, light to fair, $4.25 to $5.

Hogs—Market opened with a fairly good demand, and prices stronger up to noon, when in easier feeling prevailed.

Sheep and lambs—Offerings exceedingly light; market ruled about steady, with former prices, and all the offerings on sale up to noon were sold.

Cheese Markets.

Woodstock, July 6.—At the cheese markets here to-day new rules adopted by the board recently, providing for selling on board and on board only, went into effect; 21 factories boarded 4116 boxes, 1280 white, 2836 colored. Sales: 1172 at 7⅛c, 250 at 7 3-16c.

Tweed, Ont., July 6.—The cheese board met here to-night; 855 boarded, all white. Sales: 505 at 7⅛c, and 350 at same price.

Peterboro, July 6.—At the cheese sale held here to-day, 5080 cheese were offered, being the last half June make. The highest offer made for selections was 7 3-16c; this price did not appear to be satisfactory to the salesman. As strong reasons for adjournment, it was stated that the cheese would not be cured sufficiently for shipment for at least 10 days. The board then adjourned for one week. Buyers present: Cluxton, Whitton, Fitzgerald, Wrighton, Cook, Rollins, Jones and Bailey.

Napanee, July 6.—Seven hundred white, 500 colored boarded. All sold, 7c.

Picton, July 6.—At the cheese board today, 10 factories boarded 1000 boxes; highest bid 7⅛c; 880 sold, all colored.

Stirling, July 6.—Cheese boarded, 1000 boxes. Sales: Magrath, 525 at 7 3-16c. Balance unsold. Board adjourned for one week.

British Markets.

Liverpool—Close: Spot wheat dull, with red winter at 6s 9d, and No. 1 Northern, 6s 8½d; futures steady at 6s 8½d for July, 6s for Sept, and 5s 10½d for Dec. Spot maize, 3s 1¾d; futures quiet at 3s 1⅝d for July and 3s 3½d for Sept. and 3s 4¾d for Oct. Flour, 25s.

Another Sunday Drowning.

St. Johns, Que., July 5.—Sunday was one of the hottest days of the season the thermometer registering 95 in partial shade. The day ended up with a terrific thunder and wind storm in the evening during which the sailing yacht A.B.C. of Iberville returning from a picnic party of 22 persons was upset. One young girl named Roy was drowned.

The storm was widespread, and did much damage to property.

A $100,000 Fire in Toronto.

"I always consider my wife proposed to me," an old gentleman once remarked. "We were at a picnic in a ruined castle, and I had the merrythought of the fowl served to me in carving. I showed it to a girl I much admired, but had not dared to propose to, as she was an heiress, and asked her if she knew the old superstition about putting a merrythought over a door. I stuck it up over a ruined arch and looked at her.

"'Now,' I said, 'if the old saying is true the first woman who walks under that will be my future wife.'

"She looked me full in the face, then stepped under it, and I leave you to guess how long I was in settling matters."—London Telegraph.

THE ONLY HOPE!

For Victims of Bright's Disease is Dodd's Kidney Pills.

Not a day passes on which the newspapers do not record the death of one or more persons from Bright's Disease. Already its victims number hundreds of thousands. Day by day the awful total grows larger. No class is safe from this destroyer.

War and intemperance, with all their miseries and fatalities, are not responsible for as many deaths as have been caused by Bright's Disease. Yet, there is a way of resisting it; of drawing its poisoned fangs, and making it as harmless as a summer breeze. That great medicine, Dodd's Kidney Pills, has cured thousands of the worst cases. It never fails to cure, hopeless as the case may seem.

Would you safely shield your loved ones from the fatal grip of this curse of mankind—Bright's Disease? Then use Dodd's Kidney Pills, the only cure on earth for this disease.

COMING PLEBISCITE.

Dominion Alliance Meeting to Arrange for the Campaign.

THE PLANS OF ACTION LAID.

Sanguine Hopes of President Senator Vidal—Resolutions on Political Action Carried—Will Attend Anti-Prohibition Meetings—Suggession by Hon. Mr. Sifton—Finances of the Alliance.

Toronto, July 7.—A meeting of the council of the Dominion Alliance was held yesterday in Richmond Hall. Delegates were present from all parts of the Dominion authorized to speak and act for their districts. The meeting was, in fact, a very large committee meeting for purely business purposes.

Senator Vidal opened the meeting by calling upon Rev. Mr. Hardy of Ayr to offer thanksgiving.

Senator Vidal, in his annual address, spoke briefly, declaring that the meeting was one of peculiar interest, because of the approach of the plebiscite vote. It was necessary to get at every possible vote. A strong vote would lead to the putting in of a plank in the party platform at the next general election in favor of prohibition. The private interests of many persons would be interfered with, but this was inevitable, and not unusual. The basic principle in the temperance propaganda was the greatest good to the greatest number. Though he was 80 years of age there was still a hope in his heart that his Heavenly Father would allow him to see Canada a prohibition land.

Rev. Dr. Dewart gave some advice as to the carrying on of the campaign, on which everything depended. He warned the delegates against going to any excess in talking prohibition, speaking strongly in praise of the tone of Hon. Dr. Ross' address last evening, which he said was on the right line. He urged earnest work in getting out the temperance vote and persuading waverers. Rev. Dr. McKay made some suggestions on organization and was followed by Mrs. A. M. Waters of Hamilton.

Dr. Lucas made a digression on the subject of the wine used by Christ. He said that the widespread belief that Christ gave fermented wine to his disciples was clearly wrong. This line of argument elicited a protest from Rev. Dr. Ross, who pointed out that such references to Biblical wines would be likely to arouse the hostility of many Roman Catholics and Anglicans who thought strongly on that subject.

A discussion followed upon the subject of compensation, which Rev. Dr. Williamson of Mount Forest said was the most important question in the whole matter. Dr. Lucas cited a legal decision where it was held that no vested right could lie where a license was given for only one year. The general feeling of the delegates was adverse to compensation.

The following were chosen conveners of committees: Political Action, Rev. Dr. McKay; Plebiscite Campaign, Major Bond, Montreal; Resolutions, Rev. J. C. Speer. The convention adjourned early in order to allow these committees to meet before the afternoon session.

THE AFTERNOON SESSION.

It was 3 p.m. before the convention got down to business; the various committees were tardy in getting in their reports.

Resolutions on Political Action were read by J. M. Walton.

"In view of the impending campaign and our earnest desire that our friends should give their undivided attention and effort at this juncture in securing the largest possible majority for Prohibition the Alliance does not deem it expedient to urge any special legislation until after the vote is polled, but calls upon all temperance people to so work and vote that we will speedily effect the abolition of the traffic.

"Whereas it is reported that large quantities of liquor are being sold in the Yukon territory, followed with the usual evil consequences, resolved that if sufficient steps leading to prevention have not already been taken, the Executive Committee of the Dominion Alliance be instructed to bring the matter before the Dominion Government at once."

Dr. Fisher presented the Campaign Committee's report. The report favored the plan that every province not organized was to employ a paid organizer. Effective county organization was recommended. A thorough literature campaign was advocated.

Every meeting of the anti-prohibitionists was recommended to be attended by prohibitionist speakers, when possible, so that the questions could be thoroughly threshed out. On a tie vote, the chairman, Senator Vidal, asked for a larger vote. The clause passed by a vote of 31 to 12.

A letter of regret was received from J. W. Sifton, Winnipeg, in which he stated that it would be a great mistake to have the vote taken separately in the separate provinces. He advocated the taking of the vote at the time of the general election.

Hon. J. W. Sifton's proposed date for the vote was not entertained.

The finance report was presented by W. H. Orr, showing a balance on hand of $20.

The Ontario branch of the alliance was assessed $100 for the current year; Quebec $50, and the other provinces, except British Columbia, $35 apiece. The committee regretted that they did not see their way clear at present to give $1,000 to British Columbia.

Rev. C. N. Match read a report of the Resolution Committee.

Rev. W. R. Baker's resolution re the prohibiting of the sale of intoxicating liquors in militia canteens was recommended to be changed to a memorial to the Minister of Militia, asking him to take action in the matter. The Business Committee's report was presented at 5 p.m. by L. C. Peake.

The officers for the ensuing year are:

President—Senator Vidal.

Vice-Presidents (at large)—J. J. Maclaren; Ontario—J. W. Flavelle, R. J. Fleming. Quebec—J. R. Dougall, Hon. Sidney Fisher. Nova Scotia—Hon. A. R. Dickey, J. B. Flint, M.P. New Brunswick—Rev. Joseph McLeod, J. Woodburn. Prince Edward Island—Hon. D. Laird, A. Horne. Manitoba—Dr. J. A. Spence, R. G. McBeth. Northwest Territories—F. Oliver, M.P., Hon. D. Perley. British Columbia—Dcheins Hall, John Brown.

Treasurer—W. H. Orr. Corresponding Secretary—F. S. Spence. Recording Secretary—J. H. Carson.

Committee on Legislation—The officers of the Alliance and Major Bond, W. W. Buchanan, S. P. Leet, Rev. Dr. Moore, Rev. Dr. Rose, Rev. John Wood, W. R. Hibbard, with all members of the House of Commons and Senate favorable to the principles of the Alliance.

Executive Committee—Dr. Dewart, Rev. W. R. Parker, F. W. Watkins, J. M. Walton, A. M. Featherston, S. J. Carter, Dr. Fisher, Mrs. A. O. Rutherford, John A. Paterson, Rev. T. G. Williams, Mrs. J. S. Sanderson, Major Bond, F. Buchanan, Rev. Dr. Courtice, Rev. D. McTavish, Mrs. F. S. Spence, G. M. Webster, J. C. Copp, M. Anger, Bishop Washington, Rev. A. B. Chambers, N. W. Rowell.

The Council adjourned.

Lord Aberdeen Will Open It.

Toronto, July 7.—Arrangements are progressing for the Industrial Fair, to be held in this city from Aug. 29 to Sept. 10. Manager Hill has been busily engaged for some time with a large staff sending out prize lists, the number of applications received for those documents this year being greater than ever. The Earl of Aberdeen has kindly consented to open the Exhibition, following the example of Lord Dufferin in making the occasion his farewell public appearance as Governor-General.

Germany Sees a Point.

London July 7.—The Berlin correspondent of the Daily Mail says: The battle of Santiago de Cuba is considered to have proved the superiority of American armor plating and artillery, and it is believed that in the future European nations will give large orders to American makers for armor, guns and the like.

Chicago Papers Issuing Again.

Chicago, July 7.—The Chicago papers were publishing as usual yesterday. The stereotypers who struck have all been dismissed and their places supplied by non-union men.

Railway Earnings in June.

Toronto, July 6.—C.P.R. earnings for June were $2,124,000, or $125,000 more than for June, 1897, the earnings for the fourth week alone increasing $66,000.

Grand Trunk earnings for June were $1,880,401, or $26,783 less than for June, 1897. The fourth week showed an increase of $786.

An Assessor Injured.

Galt, July 6.—N. T. McLean, formerly of this town, is apothecary on board the U.S. battleship Iowa.

Robert McCormick, assessor of South Dumfries, was upset off his mower and the horses backed the machine over him, inflicting serious injuries.

Tobacco Grown at Grimsby.

Toronto, July 6.—Not only in the County of Essex, but also in the Niagara peninsula, is the culture of tobacco being tried. Reports have come to the Department of Agriculture that experiments are being made in Grimsby, and that these experiments have been very successful.

A Pleasant Medicine.

There are some pills which have no other purpose evidently than to beget painful internal disturbances in the patient, adding to his troubles and perplexities rather than diminishing them. One might as well swallow some corrosive material. Parmelee's Vegetable Pills have not this disagreeable and injurious property. They are easy to take, are not unpleasant to the taste, and their action is mild and soothing. A trial of them will prove this. They offer peace to the dyspeptic.

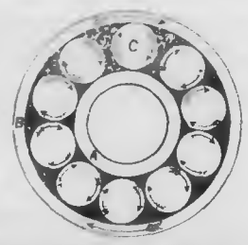
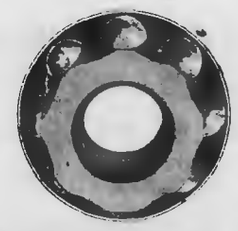
RED BIRD CAGED BEARINGS.



This Shows the Balls as They Are Placed in the Bearings of Other Wheels.



This Shows the Balls as they Are Placed in the Bearings of the Red Bird Special.

IN OTHER WHEELS, the balls are placed in a cup on the shaft and are allowed to find their own positions during the period of momemtum.

The consequence is that they fall one upon the other, each acting as a retarder for the others with the result that there is a sliding friction manifestly opposing.

This condition is clearly shown in the above illustration, in which B is a revolving cup, C the balls in motion, and A, a stationary retaining cone, the arrows fully indicating the retarding motion of the balls.

After an unretained ball crosses the top centre of a bearing the weight of the ball itself is conveyed to enough of its fellows in front to throw their combined weight against the ball that is locked between the cup and the cone.

WITH RED BIRD SPECIAL bearings every ball runs in a separate cage, never touching each other.

This is done by way of a ball retaining cage that offers no resistance to the balls other than that due to its weight which is too light to be taken into account.

With this retaining cage the balls in a bearing are loaded equally, while in bearings where it is not used it is well known that at the top of the bearings the balls are loose and there is no contact between the balls and bearing at that point.

With the ball retaining cage the revolution of each ball is regular and without any more friction at one point than another. Fewer balls are required, another reason for less friction.

Actual experiments and calculations made by experts have shown that in the working of a bearing equipped with this cage the avoidance or saving of friction reaches a maximum of 40 per cent.

The improved bearings is but one of the important features of the swell Red Bird Special, Canada's most carefully constructed wheel.

DEAR SIR:—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment Life Investment Policy for $5,000 which has matured this year, viz.:

1st, to take the value of the Policy in Cash	$5,003 00
2nd, or fully paid-up insurance for	8,280 00
3rd, or take the profits in cash	2,050 25

and continue my policy without further payments being required from me, such policy participating in future profits.

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company. I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day, giving first class results on Investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the Investment period.

Leisure Reading.

Most people are most at leisure during the summer months. Some may work as hard as at any other time, but we all find some hours for recreation. We seek spots like the verandah, the hammock, the lawn and the lake shore. No matter how easy we take things we always want our mind occupied. Some of us like the magazines, but the majority of us ache for a good novel. Order at the Peterborough Bookstore. Four novels for 25c, is the lowest that can be had. One of the best series we ever sold is at 10c. each, or five for 50c—same price, one or a hundred. A. H. STRATTON & Co.

Two Desirable Properties For Sale.

In another column Mr. Wm. Irwin advertises two valuable and desirable properties. One, his present residence, corner of Brock and Sheridan streets, formerly occupied by the late Rev. J. W. R. Beck. It contains all modern improvements and conveniences, is centrally situated and stands in a desirable residental quarter, convenient to Victoria Park. The other is "Highland Hall," the property of the late John Ludgate, one of the most desirable suburban residences in the district. Magnificent house, standing in spacious and picturesque grounds. This dwelling, like the other, has all modern conveniences, and is a delightful residence for a gentleman, who desires to combine the quiet of a country seat with all the conveniences of proximity to the town.

SANTIAGO MAY SURRENDER SOON.

That is General Shafter's Opinion.

1200 KILLED; 1500 PRISONERS

Hobson and Men are Exchanged for Spanish Prisoners.

TROOPS REPORTED IN GOOD HEALTH

Spain has Trouble at Home, but Won't Sue for Peace—There Must be a Fight to a Finish.

Special 5 p. m. despatches to the Examiner.

Troubled Condition of Spain.

London, July 7—A Madrid report says that the royal family have decided to remain here. Marshal Campos has abandoned his intended holiday to the seaside. The streets are being occupied by the military. No riots have occurred so far. General Weyler was publicly acclaimed yesterday with cries of "The politicians are the nation's enemies." The nationalists declare that the nation is governed by idiots.

Peace Not to be Lightly Considered.

A prominent politician has asserted that Spain has little to lose now, and the Americans have much to sacrifice. Unless they purchase the economy involved in peace with suitable concessions they will not, he says, obtain it.

Madrid, July 7th.—The Cabinet is now sitting and their resignation is looked for.

Bombardment of Santiago Imminent.

Headquarters in the field before Santiago, July 6th, via Kingston, July 7th.—Every preparation is being made for the bombardment. The artillery officers are confident they will be able when the bombardment begins to silence the Spanish guns and to reduce the entire position of the enemy so that the forward rush of our troops will meet with little or nothing beyond rifle fire.

Merrimac Men Exchanged.

Off Juragua, via Port Antonio, Jam., July 7.—Hobson and his men were surrendered by the Spanish military authorities to-day in exchange for prisoners captured by the American forces. Hobson and his men were received by the troops with the wildest enthusiasm, Hobson went on board the New York immediately and reported that he and his men had been well treated and that they were all in excellent health.

No Yellow Jack.

Camp Siboney, July 6, via Port Antonio, July 7.—The general health of the U. S. troops is excellent, not a case of yellow fever is reported. Out of over a thousand wounded and treated in the hospital only two have died.

Cervera's Loss 1,200 Killed.

Headquarters of General Shafter, July 6th, via Pt. Antonio, July 7—The latest estimate on the Spanish loss in the naval battle is placed at 1200 killed and 1500 captured.

Officially Confirmed.

Washington, July 7—The war department have been officially notified of the exchange of Hobson and his men.

Insurgent Success at Manilla.

Hong Kong, July 7—Manilla advices state that the insurgents have captured Santi Cruize and have entered Tondo, The Spaniards have re-taken Caliocoan,

A Rumour Denied.

Washington, D.C., July 7—General Shafter reports, denying the rumour of Cubans killing Spanish prisoners.

To Defend the Home Coasts.

Madrid, July 7—A Spanish Cabinet Minister says the Spanish Government will devote itself solely to the defence of the Spanish coast, and that negotiations for peace must be conducted by another Government.

Death of Spanish Officers.

The Government has received a message from Admiral Cervera announcing the death of Admiral Villamil and suicide of Commander La Saga.

Signs of Surrender at Santiago.

Washington, July 7th.—Advices from General Shafter this morning announce that a number of high Spanish officers are deserting across the lines at Santiago into the American camp. This act is regarded here as highly significant of an early surrender.

The Reina Mercedes Sunk.

Washington, July 7th.—Admiral Sampson reports under yesterday's date: About midnight last night the Reina Mercedes was seen by the Massachusetts coming out of the harbour of Santiago. The Massachusetts and the Texas opened fire and the Spanish vessel was sunk. It was thought that the intention was to sink her in the chanel and thus block the harbour entrance.

Mr. Andrew Scott has returned to Toronto after spending a week at home.

Mr. Robert McAuliffe of the Grand Trunk is visiting friends in town.

Miss Minnie Jones left to-day on a six weeks visit with friends in Cleveland, O.

Mr. Thos. Robinson has returned to town, after spending a few days with relatives in Bobcaygeon.

Dr. Greer and family are spending the holiday season at Gore's Landing, Rice Lake.

Mr. R. E. Wood and family went yesterday to spend the heated term at their lodge, Oak Orchard, Pigeon Lake.

Mr. and Mrs. Hewitt with her daughter, Rheta, of Ottawa, is visiting her sister, Mrs. R. J. Cavanagh, Stewart street.

Mr. Dan Comstock, of Kendall, and Mr. Geo. Brimston, of Toronto, have returned home after a pleasant visit with Mr. Aaron Comstock.

Dr. Adolph Letellier and Mr. Orias Lepiante, left yesterday for a long wheeling trip, going down to Port Hope with the intention of visiting friends all along the line to Hamilton.

Mr. H. H. Buxton, physical director of the Y.M.C.A., arrived home from Springfield, Mass., after an absence of seven weeks. He looks well, considering that he has spent the greater part of his vacation in bed, having undergone an operation.

In the report of the commencement exercises of St. Joseph's seminery Kankakee, Ill., U.S.A., appears the name of Miss Marie Seraphine Dolan, of Peterborough, daughter of the late Thomas Dolan, as one of the two graduates. The success of Miss Dolan in her studies is further shown by the fact that she was chosen as valedictorian, and was also selected to take the title role in the play of "Joan of Arc" which was presented on the occasion. Her many friends in Peterborough will join in cordial congratulations.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The summer hegira to the summer resorts is fairly on.

—During the next month or two the population of Peterborough will be much reduced in number.

—The Ladies' Aid of Mark street Methodist church have announced a "Flower and Fruit Social" on the parsonage lawn on Tuesday evening, July 12th.

—The bombardment of Cuba don't begin to raise any such talk in town as the bombardment of boss prices at Geo. Ball's ladies' and gentlemen's tollering parlours, 413½ George street. Those $10 suits, made to order, are levelling prices and demoralizing high-renters.

MATIMONIAL.

Nuptials of Miss Maggie Stinson and Mr. John Sandy.

At 4.30 Wednesday afternoon, July 6th 1898, the residence of the Misses Stinson, 717 George street, was the scene of a pretty wedding, when Mr. John Sandy, of Omemee, was united in marriage to their younger sister Miss Maggie, in the presence of a considerable number of the friends of the contracting parties, the Rev. S. J. Shorey of the George street Methodist church, performing the ceremony.

The bride was assisted by Miss May Heaslip, of town, while the groom was supported by his brother, Mr. Fred Sandy, of Omemee. After the ceremony, congratulations and good wishes were extended to the young couple, and an elaborate wedding supper was served. The happy couple left for their home near Omemee, amid showers of rice, carrying with them the good wishes of their many friends in Peterborough.

AN ASHBURNHAM BRIDAL.

The Union of Miss Emma Stevens and Mr. Fred J. Agnew.

On Wednesday evening, July 6th, 1898, the residence of Mr. John Agnew, Munroe Avenue, Ashburnham, was the scene of a very pretty wedding, when Rev. J. E. Moore, Ph. B., performed the ceremony that united in the holy bonds of matrimony, Mr. Fred J. Agnew, to Miss Emma Stevens, both of Ashburnham. The bride was assisted by Miss Effie Agnew, and Mr. Walter D. McClennon of Peterborough performed the duties of best man. An elegant wedding banquet served by the groom's mother, succeeded the ceremony. A feature of the pleasant occasion was the contribution of a large number of handsome and useful presents.

ASPHODEL WEDDING.

Nuptials of Miss Mary Stuart and Miss E. D. Christie.

A pretty wedding took place on the 23rd ult., at the residence of Mr. James Stuart, Asphodel. The contracting parties were Mr. Stuart's daughter, Mary, and Mr. E. D. Christie, of Asphodel. The marriage ceremony, which was performed by Rev. D. A. Thompson, of Hastings, was celebrated on the front lawn and witnessed by a large assemblage of friends. After a sumptuous feast of good things, the guests enjoyed themselves in a variety of amusements and all went merry as a marriage bell. The numerous costly and useful presents bespoke both the thoughtfulness of the givers and the esteem in which they held the bride and bridegroom.

A JUNE WEDDING.

Nuptials of Miss Edith L. Guthrie, of Smith, and Mr. Jos. Wilson.

A pleasant event took place at the home of Mr. John Wright, Fowler's Corners, on Wednesday afternoon, June 29th, it being the marriage of Miss Edith L. Guthrie, daughter of Mrs. John Guthrie, of Smith, to Mr. Joseph Wilson, of Elmvale, Rev. R. M. Pope officiating. The bride was attended by Miss Nellie Wilson, while Mr. Joseph McCarrell assisted as groomsman. After the cermony a sumptuous repast was partaken of by the guests. The happy young couple left on the 5.45 train for their future home at Elmvale amid showers of rice and the good wishes of a large number of friends for their future prosperity and happiness in which good wishes the EXAMINER heartily joins. The popularity of the bride was attested by the large number of beautiful and useful presents sent by her many friends.

RUPERT OF HENTZAU.

A Delightful New Novel by Anthony Hope.

Mr. Geo. N. Morang has earned anew the gratitude of the reading public by again introducing them to that charming author, Anthony Hope, in the form of a new novel, just published, entitled "Rupert of Hentzau." Those who have been delighted with the "Prisoner of Zenda" will be further delighted to know that Rupert of Hentzau is a sequel to or rather a continuation of this charming book in which acquaintences is renewed with the well-wrought characters and admirable villains that make the "Prisoner of Lenda" so charmingly absorbing and which conjoined with Hope's elegant simplicity of literary style, perfect art of narrative suggest the secret of his popularity. The new book "Rupert of Hentzau" will probably achieve as great a popularity; for in it we have fully maintained the intense interest that is so delightful a feature of its predecessor. We encounter again the grizzled and faithful Sapt and the politic Chancellor. The new book will also probably lead to trouble in a reading family; for the first one that opens it will hardly be persuaded to surrender it before it is finished. Mr. Morang has turned out the work in his usual perfect typographical way, and the eight page illustrations by Charles Dana Gibson are fine features of the work, worthy of the text they are intended to elucidate. Crown octavo cloth, $1 50; paper, 75 cents, at the Peterborough Bookstore. Geo. N. Morang, publisher, Toronto.

ST. PAUL'S SUNDAY SCHOOL

Scholars, Parents and Friends Have a Pleasant Excursion to Sandy Point.

The annual excursion and picnic of St. Paul's church Sunday school was held on Wednesday. For the past few years this interesting event has been held down the Otonabee to Jubilee Point. This year, however, the choice of picnic grounds was Sandy Point, on the shore of Clear Lake. The day was a delightful one for recreation and pleasure. Nearly 300 scholars and adults took the G. T. R. excursion train for Lakefield at 8 30 in the morning, there being an unusually large attendance of adults, but a noticeable falling off in the number of scholars. At Lakefield the steamer Sunbeam took the excursionists on board and steamed out with a pleasure scow attached at 9 30. A harpist and violinist was brought on board by some thoughtful friends of the scholars and the enlivening music added an additional pleasure to the day's outing.

Sandy Point was reached shortly before 12 o'clock, and proved to be a very suitable spot for a Sunday School picnic. Preparations for dinner were at once begun, and the committee who had looked after the baskets, had also made satisfactory arrangements for providing tea, sugar, milk, etc., for all.

The pastor, Rev. Dr. Torrance, was present, and his presence among the children and parents afforded pleasure to all, especially to the teachers, who exercised constant care for the entertainment and safety of the scholars. After dinner the children were seen romping about along the sandy stretches of the smooth beach, and on the clean grassy promenade, as if life had opened out to them the most delightful of prospects. An interesting programme of juvenile sports was run off on the grounds, under the direction of Messrs. T. H. Pope, James Connal, A. J. Johnston, Sheriff Hall and Wm. Pringle, which proved the principal attraction of the afternoon. For the benefit of those who preferred a sail on the lake, the obliging captain of the Sunbeam took a large party of the excursionists up to Stony Lake and around the islands, which proved a delightful trip to all on board.

Although the rates were made very low for the combined rail and steamboat trip, the financial results were very satisfactory, the returns fully meeting all the obligations of the school committee, who are to be congratulated on their success.

The return trip was an enjoyable one. The steamer left Sandy Point about 5 o'clock and the excursionists reached town shortly after 8 o'clock.

YOUNG'S POINT.

From Our Own Correspondent.

Rev. Father Mahoney, of St. Mary's Cathedral, Hamilton, is spending a few days at the Point.

Mr. Bruce Graham has been ill the past few days.

Mr. Harry Bell, of Peterborough, is renewing acquaintances here.

Mr. W. Rudkins of Peterborough is the guest of Mr. Con Young.

Sister Leona Young of Mount St. Joseph, Peterborough, is home for a few days.

Another of Rathbun's drives arrived on Tuesday, with Wm. Simpson as foreman.

The following guests are registered at Mr. J. E. Kearney's hotel: Mr. C. Lane, Mr. D. Casey, Brockport, N.Y., Mr. and Mrs. J. Bull, Rochester; Mr. C. Gutterson, Peterborough.

The water is very low at the entrance of the locks below the Point. The Sunbeam scraped the bottom several times Thursday morning between the locks and Kearney's Island. The dredge is much needed here for a few days.

THE NORTH STAR TRIPS.

The Steamer North Star recommenced her Daily Trips on Thursday, July 7th, leaving Peterborough wharf at 9.15 a.m each day for Jubilee and Idyl Wild. This was the popular boat last season and is now faster and more complete than ever. GEO. McWILLIAMS, Proprietor.

Vacation Days.

As the days for vacation draw near, your attention is needed to the condition of your summer wardrobe. Perhaps you are content to enjoy the season at some one of the beautiful places that surround Peterborough—or you may pack your trunk for a distant Summer paradise. In any event the question of

COOL SUMMER CLOTHING

leaps into prominence—a question which we, with our immense and varied stock of hot-weather attire, direct from London, are well prepared to settle to your satisfaction, both as to quality and price.

ASHBURNHAM KINDERGARTEN.

The Establishment of one is Discussed by the Village School Board.

At the monthly meeting of the Ashburnham School Board last evening there were present Messrs. E. A. Peck, chairman, Pollock, Sheridan and Adams.

COMMUNICATIONS

were received and dealt with as follows:

From Miss L. Fitzgerald, tendering her resignation.—Accepted on motion of Messrs. Adams and Sheridan.

From Miss Annie M. Hall, applying for the position of Kindergarten instructress.—Received.

From the Canadian Bank of Commerce, stating that the board's balance at the bank on June 30th, 1898, was $208 73.

The report of the attendance for the month of June was as follows:

	On roll.	*Av.*	*Per Cent.*
Miss Coveney	46	41	91
Miss Erskine	45	37	83
Miss Fitzgerald	37	33	90
Miss Dawson	36	33	93
Mr. Matchett	26	25	96
Total	189	169	89

The head master presented a report of the promotion examinations, which was very satisfactory.

Several matters that needed attention during the holidays were referred to the Property Committee with power to act.

THE KINDERGARTEN.

The question of the establishment of a kindergarten in connection with the Public School system in the village was discussed at length, and in order that the Board might obtain more information regarding the details, Messrs. Peck and Adams were appointed a committee to prepare a report on the matter, as to the cost of materials, supplies, salary, etc.

The idea is, if possible, to dispense with one of the lower forms in the school by giving the older pupils to the teacher of the next highest class, and taking the younger ones to for the nucleus of the kindergarten.

ASHBURNHAM PUBLIC SCHOOL.

Details of the Transfer of Pupils.

At the meeting of the Ashburnham Public School Board last evening it was decided to transfer some pupils from the third class room in order to equalize the attendance in these two rooms, and in order to relieve the crowded state of the third class room, caused by the coming in of sixteen pupils from the second class room, and the passing out of only six pupils, making an increase of ten pupils.

The pupils who are to be transferred did not pass the promotion examination, but are moved into the fourth class room for the reasons given above.

The following five pupils obtained the total marks required, but failed in one or more subjects: Madeline Stone, 716; Ernest Fletcher, 606; Ernest Wylie, 595; Hugh Graham, 590; Ida Russell, 576.

The three following pupils did not get the total required, but received more than 500 marks. They also failed in one or more subjects as well as on the total: Oswald Graham, 513; Lulu Armstrong, 513; Alice Revoy, 504.

As the Junior Third Book pupils have gone over much the same work in several of the subjects during the past year, it was also decided to transfer the four junior third pupils who stood at the head of the list, to the junior fourth class. Their names are as follows: Alice Wand (honours), 802 marks; Clara Craig, 761; Emma Williams, 735; Edna Rogers, 731.

The other five senior third pupils who failed did so badly that it was decided to be useless to transfer them, as they got very low marks.

This makes a total addition of 18 pupils to the fourth class room, six being promoted and the other twelve being transferred.

These people who thus enter the junior fourth class must stay in it until they pass out of it. They will not be transferred to the senior fourth. These pupils, as well as the others, are expected to come on Sept. 1st, supplied with all required books, and ready for work at once.

McCRACKEN'S LANDING — STONY LAKE.

The following are the arrivals at the Victoria House: Jas W Johnston, New York City; Mr and Mrs E C Campbell, jr, Rochester; F J Doolittle, Colborne; T J Drain, Norwood; Mr R Wenn, wife and daughter, Toronto; W C Ackerman, Peterborough; C Lilean, Toronto; W E Robertson, wife and daughter, Chicago; W F Dixon, Millbrook; Jas A White, Cleveland, Ohio; W B Johnston and wife, New York.

Messrs. Redding and Brooks, of Peterborough, have been busy painting the house and have made a wonderful improvement on both the exterior and interior.

Fish stories are coming in hot. We were told of a huge submarine monster which was hooked just out from the landing on Wednesday morning last. In our reportorial capacity we visited the spot and can vouch for the truth of the story. It appears that Mr. J. F. Senif, harbour master here, and Mr. Johnston, of New York, were out on that morning for a troll but unluckily forgot to take either a landing net or a gaff hook. When just out opposite the point Mr. Senif felt a vigorous pull on his line. Thinking it was a 'lunge he endeavored to land it but the monster was not of the same opinion and started for Eagle Mt. on a round about course for Gilchrist's Bay. Here they cornered it in the mud and despatched the animal with shotguns, clubs, etc. It was towed to the landing by the steamer Tramp, and weighed 38 lbs 4 oz. It is supposed to be the sea serpent which was sighted near Bobcaygeon a few days ago. Everybody had something with Mr. Senif.

Mr. A. F. Choate has his store here open for the season with a select stock of campers' supplies.

Mr. Fred Tully is now running daily trips with the steamer Tramp. He carries the mail at present. Mr. D. Lund, of Peterborough, is engineer.

WOMAN.

THE HEALTH OF A NATION DEPENDS ON THE HEALTH OF ITS WOMEN.

22 POUNDS GAINED.

I had been a sufferer like a great many other women with a disease peculiar to my sex. I tried every thing I could read or think about to help me, but was getting worse instead of better. My condition was terrible—I was losing flesh and color, and my friends were alarmed. I consulted a doctor of this town and he said I would never get better; that I would always be sickly and delicate, and that medicines were of little use to me. Hearing what Dr. Ward's Blood and Nerve Pills had done for others I determined to try them myself, and to-day I weigh one hundred and forty pounds, while before I weighed only one hundred and eighteen pounds, and I now have a constitution that is hard to beat. I have not suffered any pain in months, and earnestly hope that Dr. Ward's Blood and Nerve Pills will reach every woman suffering as I did.

Sincerely yours,

SURGEONS AND DOCTORS.

Annual Meeting of the Ontario Medical Council 500 Railway Surgeons.

Toronto, July 6.—The Council of the College of Physicians and Surgeons of Ontario convened in annual session yesterday at 2 p.m. All the members but two were present. The financial statement showed a deposit in the Imperial Bank of $839.81. Dr. Thorburn, the retiring president, delivered his annual address. The officers for the ensuing year will be: President, Dr. Luton, St. Thomas; vice-president, Dr. W. F. Roome, London; registrar, Dr. R. A. Pyne, Toronto; treasurer, Dr. Aikins, Toronto; solicitor, Mr. B. B. Osler, Q.C., Toronto; stenographer, Mr. Alex. Downey, C.S.R., Toronto. After the presentation of reports, the Council adjourned till 10 o'clock today.

The Railway Surgeons.

The names of 460 delegates to the International Association of Railway Surgeons have already been registered at the Rossin House (the city headquarters), and some 100 more are expected.

FAST ATLANTIC SERVICE

May Yet Be Taken Up by the C.P.R.—Postal Conference.

London, July 6.—Some important new developments are on foot respecting the fast Atlantic mail service, and they are expected to be completed within the week. Evidently they have nothing to do whatever with Peterson, for Hon. Mr. Blair, when asked, said: "It is my impression that it is all up with him. There need be no delay in the placing of the enterprise in fresh hands, for I think the Canadian Pacific Railway would like to take it up. Of course, this would mean a delay of a year or two in the fulfillment of the project."

The Postal Conference.

Hon. Mr. Mulock, Postmaster-General of Canada, yesterday moved his Imperial Penny message before the Inter-imperial Postal Conference, Lord Strathcona being present. The British Government inclines to favor the Canadian proposal, and in that case it will be certainly carried. Canada has once again asserted herself as the pioneer of the empire.

GEORGE HARVEY DROWNED.

He Was an Employe of the Bank of Montreal in Toronto.

Kingston, Ont., July 6.—Late yesterday afternoon George Harvey, clerk in the Bank of Montreal, Toronto, here on his holidays, was drowned while bathing at Cartwright's Point. He was taken with cramps. Deceased was 24 years of age, and the son of a widow.

The workman often eats his lunch on the same bench where he does his work. The office man turns his desk into a dinner table. Neither gets the out of door exercise he needs, neither takes the proper time for eating. It is small wonder that the digestion of both get out of order. In such cases Dr. Pierce's Pleasant Pellets come to their assistance by aiding nature in taking care of the food.

The cause of nine-tenths of the sickness of the world is constipation. From this one cause come indigestion, disorders of the stomach, liver and kidneys; biliousness, headaches, flatulence, heartburn, impurity of the blood and the serious complications that follow. To begin with, constipation is a little thing and a little thing will cure it. The "Pleasant Pellets" are tiny, sugar-coated granules. They will perfectly cure the worst case of constipation and indigestion. If the druggist tries to sell you some other pill that pays him greater profit just think of what will best pay you.

Agreement Reached by Ottawa & Parry Sound Railway.

25,000 IMMIGRANTS THIS YEAR.

The Tide of Home-Seekers Turned to Canada's Western Lands—Significant Figures of Our Trade and Commerce—Gen. Gascoigne's Successor—The Stars and Stripes—Ottawa News.

Ottawa, July 6.—As a result of an agreement arrived at last night the trackmen's strike on the Canada Atlantic and Ottawa, Arnprior & Parry Sound Railways has been brought to an end. Five hundred employes quit work on June 30 because the management refused, without exacting conditions objectionable to them, to accede to their demand for an increase in pay from $1 to $1.10 a day. The strikers after going out increased their demand to $1.25 a day. A conference began on Monday between the representatives of the engineers, firemen and brakesmen employed upon the system, acting on behalf of the trackmen, and Mr. J. S. Booth and General Manager Chamberlain representing the Booth system. At 9 o'clock last night an agreement was reached. The trackmen will receive $1.10 a day unconditionally.

25,000 Added to Our Population.

The tide of immigration that set in last year has been kept up during the present season. About 20,000 people were brought into this country in the course of the whole immigration season of last year. Up to date this year about 19,000 immigrants have arrived, of whom probably 3,000 have come to seek their fortunes in the placers of the Klondike and the mines of British Columbia and Ontario, leaving 16,000 persons who have likely settled upon the land. The season is not yet ended, and while immigrants will not come in such large numbers after September, the arrivals will continue to the end of the year. It is estimated that there will even have been an accession to the population of 35,000 by means of immigration from other countries by December 31 next.

Woman Got Worsted.

The Hull recorder rendered judgment yesterday in the famous eloping case of Mrs. Mercier and Regis Frappier. The woman was fined $25 and costs or three months. Her companion fared better, being condemned to pay only $5 costs or go to jail for one month. The woman cried bitterly when led out of court. As her husband won't have anything to do with her, she will serve her time in jail.

Ottawa General News.

It is stated definitely in certain quarters that Col. E. G. H. Hutton, C.B., A.D.C. to the Queen, and assistant adjutant-general at the Curragh, has been appointed to the position of major-general commanding the Canadian forces. Col. Hutton was for some time commandant of the New South Wales militia, and did much in the way of federating the Australian colonies for purposes of defence.

The Stars and Stripes were carried through the streets yesterday, along with the Union Jack, by the 43rd Rifles, the Dragoon Guards and the Field Battery, marching from the train to the drill hall, on their return from Burlington, Vt. The bands, drums and gun carriages were all ornamented with little British and United States flags, stuck side by side. The troops report a splendid time in Burlington and the best of treatment.

The Ottawa Electric Railway employes having failed to obtain shorter hours without a reduction of pay, have decided on a compromise offer and will ask for a nine hour day at $1.35 wages.

Lord and Lady Aberdeen leave on Thursday next for British Columbia to spend some weeks on their ranch.

The Customs Department has not yet made out its returns for the year, but when this is done it will show that the increase of imports were so large over the preceding year that the revenue on duty collected will have increased by about $2,000,000, notwithstanding the reduction by the preferential tariff.

The Hamilton Bodies Recovered.

Hamilton, July 6.—The bodies of the three men drowned in the bay on Sunday were recovered last evening. Joyce Bros. secured the remains of Charles Williams and Charles Searle, and John Hall got the body of Charles Roy Sinnett. The bodies were got within one hundred yards of one another, almost half a mile from Brown's wharf, on the north shore of the bay.

Military College Entrance Exams.

Kingston, July 6.—Thirty-five out of forty-four candidates for admission to the Military College have passed the entrance examination, which has been made more difficult than before. There will be about eighty cadets in attendance next session, three good classes and two nearly full companies. The contract for clothing has been awarded to Livingston Brothers.

The Rebellion Crushed.

Montevideo, July 6.—The revolt, it is now asserted, has been quelled. The chiefs of the revolted regiment have submitted. Generals Garcia, Estoban and Arribio have surrendered. Their lives will be spared. The city is much damaged. It is estimated that the killed and wounded number 400. All is now quiet.

How She Was Troubled

I was afflicted with that tired feeling and had no appetite. A friend advised me to try Hood's Sarsaparilla which I did and in a short time my appetite was better and the tired feeling was gone. Since then we always take Hood's when we need a blood purifier." MRS. S. KINCH, Beatrie, Ontario.

Death to Worms.

NAPOLEON'S BADGE OF VIOLETS.

How Bonaparte Came to Adopt the Flower as His Emblem.

An old French pamphlet, published in 1815, tells how the violet came to be the emblem of the Imperialist, or Napoleonic, party in France.

Three days before going into exile on the island of Elba Napoleon was walking up and down a garden at Fontainebleu discussing his future with the Duc de Bassano and General Bertrand. He was still uncertain whether he should go to Elba quietly at the bidding of his enemies or whether he should try to offer some resistance. The Duc de Bassano was urging him to strike a blow for his liberty—bad advice surely.

As the trio walked back and forth they came upon a child 3 or 4 years old who was picking violets. Napoleon called the baby to him and asked for his flowers, and the little thing gave the emperor all he had. A silence in the political talk followed until Napoleon, who always had a vein of superstition in his reasonings, said:

"Well, gentlemen, I am thinking of that child. That chance meeting seems to me like a piece of secret advice, warning me for the future to imitate the modesty of this flower. Yes, the violet shall henceforward be the emblem of my desires."

"Sire," said Bertrand boldly, "for your majesty's glory, I like to think that feeling will last no longer in you than the flowers that inspired it."

But the emperor, silent and unheeding now, withdrew and went to his private rooms. The next day he was seen walking in the garden with a bunch of violets in his buttonhole and stooping now and again to pluck more. A man named Choudieu, a grenadier of the guard, was on sentry duty, and, taking advantage of the laxity of discipline that prevailed in this hour of ruin, he ventured to speak to the fallen sovereign.

"In another year, sire, the violets will be growing thicker here. You can gather them with less trouble."

"What!" was the answer. "Do you suppose I will be here next year?"

"Perhaps sooner. We soldiers hope so."

"But do you know that I leave for Elba day after tomorrow?"

"Your majesty will suffer the storm to pass."

"Are your comrades talking and feeling as you do?"

"Almost all of them."

"Ah! Well, tell them to feel, but not to talk. When your sentry duty is over, go to General Bertrand. He will give you 20 napoleons. But keep the secret."

Choudieu did not keep entirely secret the story of his conference with his majesty, but he threw a veil over his allusions and taught the other soldiers to do so by calling their great and worshiped leader Father Violet. Little by little talk about Father Violet reached the public, and to wear a bunch of violets by the time the next season came around was a recognized sign of imperialist sympathies. To this day violets are not worn in the same general way in France that they are here and in England, because they are felt to be a political badge. A legitimist would not be seen with a bunch in his buttonhole any more than he would wear a republican tricolor cockade.

If every man could live an out-door life, passing his time with gun and fishing-rod and canoe, there would be less illness in the world. Unfortunately, the demands of modern civilization will permit very few men to live this ideal, healthful life.

Many men have to pass the day shut up in offices and stores, and the nights in close apartments in crowded cities. They get little out-door exercise. One of the results of this unhealthy, sedentary living is the awful prevalence of that dread disease—consumption. One-sixth of all the deaths each year are due to this relentless enemy. Formerly physicians pronounced this disease incurable. It is now generally known that there is a marvelous medicine that for the past thirty years has been curing consumption almost without a failure. It is Dr. Pierce's Golden Medical Discovery. It cures 98 per cent. of all cases of consumption, bronchitis, asthma, laryngitis and other diseases of the air-passages. It is the great re-builder. It tears down, carries off and excretes old, inert tissues and replaces them with the firm tissues of health. It restores the lost appetite and makes the digestion perfect.

"Four years ago I had an attack of grip that left my throat and lungs in a bad condition," writes Mrs. Mary Hartman, of 300 Harker St., Mansfield, Ohio. "The doctor said I had disease of the throat and bronchial tubes. I continued to grow worse. I had pain in the upper part of my chest and a severe cough, which grew worse at night and in the morning, with heavy expectoration. I would cough up mattery scabs, after which I would experience a burning and smarting sensation in my throat. I took the doctor's prescriptions without number, but they did me no good. I took sixteen bottles of cod liver oil and was as bad as ever. I then took five bottles of Dr. Pierce's Golden Medical Discovery, and three of the 'Pellets.' I began to improve in every way and now enjoy good health and have taken no medicine for over six months."

DIVERS OF TUAMOTU.

THEY DO WONDERFUL THINGS DOWN DEEP IN THE SEA.

Equally at Home In Hunting For the Precious Pearl, Spearing Fish Under the Coral Reefs and Slaying Man Eating Sharks Under Water.

Nowhere in the world is fishing carried on in so remarkable a manner as at the Hawaiian Islands, where the art not only illustrates peculiar and what would be deemed impossible methods, but the fact that without armor and the appliances of the modern diver certain natives ply their vocation under water.

"When at the island," said a naturalist, "I wished to investigate the methods of fishing and was referred to a native who was said to be very skillful in the methods still in vogue. I was fortunate in finding the man on the beach, and he very readily invited me to accompany him and his son, a boy of 18, who was also a clever fisherman.

"As we rowed out he told me that they took fish by spearing in two ways, one by striking from the boat, the other by going under water and taking the fish in their native element. The latter method he purposed following on the present occasion. The spear was perhaps eight feet long, of very hard polished wood and very slender, and bore at its tip a polished steel or iron spear point without barb of any kind. This was essentially an underwater spear, the man explained, yet without ocular demonstration it would have been difficult to make any one believe that a man could descend beneath the surface and spear fish.

"On reaching a certain portion of the reef the native ceased rowing and began to look down into the water. Finding the head of coral which he was in search of, he took the slender pole in hand, stepped over and disappeared. It was necessary to move the boat away a few paces, so that the fish would not be alarmed, which prevented me from observing the whole operation.

"The native remained under water at least three minutes, then suddenly came up with a large rockfish impaled on the spear. He lifted himself into the boat and did not appear to be inconvenienced by the extraordinary dive, soon slipping over again. Hanging to the side of the boat, he inhaled several times rapidly. Then just before he disappeared he filled his lungs to the utmost extent. I found that when he reached the bottom he took a crouching position by a coral head or rock, resting on his left leg, with the right extending behind.

"The fish seemed very tame, and when they passed within reach the diver thrust his spear quickly into one, often sending it entirely through the fish and impaling another, so that several of them were often taken before the dive ended. This diver thought nothing of remaining beneath the water two minutes and told some remarkable stories of the powers of his ancestors in defying the elements. His grandfather, he claimed, was famous all over the island as a great shark hunter, and whenever a native was killed by a shark he was called to revenge the deed, and while he had killed a number of these animals he was never injured by one.

"In shark hunting he was armed with a sharp stick of hard wood about four feet long and a long slender knife as sharp as it could be made, and when the shark was seen he boldly entered the water and waited. When the shark approached, he would lie perfectly quiet, but if it turned to seize him quick as a flash he dived and thrust the stick into the mouth or gills of the animal and with the other hand ripped up the lower surface of the shark by plunging the sharp knife into it and hauling it up, often literally laying it open with one stroke. Even this would not demoralize some sharks, and they would still attempt to seize the active enemy, who would grasp it by a fin and laying alongside repeatedly stab it."

Such an attack made against a shark in its native element requires the greatest courage and must be the result of a peculiarly savage nature on the part of the diver. The man eater shark is a cumbersome, clumsy brute, turning slowly, except when excited, and it is an easy matter for a lithe, quick actioned man to slip beneath one. Sometimes the tables are turned and the shark becomes the aggressor, but instances of this kind in northern waters are rare. The most extraordinary instance occurred in Massachusetts bay, where a large shark rose out of the water and after several attempts sank a boat by falling on it and carried off the fisherman, the act being seen from the deck of a schooner lying not far away, whose crew were powerless to interfere.

The natives of Takiti and Tuamotu are perfectly at home in the water and accomplish marvelous feats in diving. The pearl oyster diver here is paid from $20 to $30 per month. His sole outfit is the cloth about his loins and a pair of spectacles, the latter used at the surface to enable him to distinguish the shells at the bottom. The Hindoos are popularly supposed to be the finest divers, but they cannot compare with the divers of Tuamotu. The former go to the bottom by means of weights held there by ballast which is contained in a belt, but the Tuamotu divers merely plunge into the water and swim down with remarkable celerity to a distance sometimes of 180 feet, almost the greatest limit of divers in armor, who have, it is believed, remained for a short time at a depth of 200 feet. The Hindoo remains below the surface 80 or 90 seconds, while the Tuamotu thinks nothing of two minutes and can remain at this depth for three minutes. The average dive of these men is 1¼ minutes, two or three minutes being exceptional, but not uncommon.—Detroit Free Press.

20 YEARS OF BONDAGE

Dr. Chase's K.-L. Pills Loose the Shackles of Constipation and Stomach Disorders.

In summing up the causes of human misery it will be found that by far the greatest sources of disease originate in derangement of the Stomach and Bowels. People will abuse their stomachs and neglect the calls of nature till they bring on themselves her vengeance. To get back to nature's paths, to have the Stomach and Bowels once more fulfilling their function properly, to clear the system of all the results and consequences of poisons accumulating and circulating in the Blood is the work of Dr. Chase's Kidney-Liver Pills.

Mr. Thos. Miller, Lucknow, Ont., says that he was afflicted with Stomach Trouble and Constipation for about 20 years, during which time he tried almost everything he heard of, but to no purpose. Mr. H. Day, the popular druggist, sent him a sample of Dr. Chase's K.-L. Pills. The first dose he took did him good, and they have proved so effectual in his case that he recommends them to all those afflicted as he was.

These Pills may be had of all Dealers at 25 CENTS A BOX.

A PRESSMAN'S STORY.

Mr. Parnham Tells how Dodd's Kidney Pills Cured His Lumbago.

Toronto, June 27.—The story of the escape of the Globe pressman, Mr. John H. Parnham, from the agonies of Lumbago, by using Dodd's Kidney Pills, is unusually interesting.

Mr. Parnham writes to the Dodd's Medicine Co., Limited, thus:—"I am proud to testify to the wonderful efficacy of Dodd's Kidney Pills. About eight months ago I was attacked by severe pains in my back. I consulted an eminent physician, who said I had Lumbago and told me to take Turkish baths. These did me no good.

"A friend advised me to try Dodd's Kidney Pills. I did so, and one box cured me. My back has never troubled me since."

LYNCHING DIFFICULTIES.

Not Always Easy to Find a Tree on the Prairies.

A blue shirted cavalcade came riding over the Nebraska prairie toward Hart Henders' shack, which was like a lot of brown on a measureless field of gray. Hart Henders watched with interest and finally announced to his wife that the man in front was Jim Mullet and that somebody was tied to one of the horses.

Jim Mullet rode out ahead of the others, who approached in a more leisurely fashion, as though their mounts were about exhausted.

"Howdy, Hart?" he cried. "We wanter borry your wagon tongue."

"Busted it on the way to Gridley las' week," said Hart. "Left the wagon there. Howdy?"

"Howdy? Pretty well, considerin. Mebbe you've got a 2 by 4 scantlin?"

"Where in thunder'd a man git a 2 by 4 out in the heart of a perary without even a tree in 80 mile? Howdy, Jim, anyway?"

"Right good. We're goin to hang Kirk, you know. Shot a hole into Miggs an crippled Sandy Wallace. We be'n ravagin all over this here county lookin for a tree an can't find one. The boys got kinder tired an allowed if they could git a wagon tongue or a beam they'd hang him down your well. Not so's he'd reach the water, you know. We'd be polite an keerful about any little thing like that. Didn't wanter drown him. Don't wanter shoot him. Wanter hang him. We've laid out to do it fer the moral effect. Nothin but hangin will do. Mebbe you've got a bedstid that could be pulled apart so's the sides would make a good thing to go across the top of a well?"

"No. The tick is set on two dry goods boxes. Table leg wouldn't do, would it?"

"Too short. Well, I'm glad to 'a' seen you anyway, Hart. Howdy? We'll go on up to Blue Crossin. It's only 18 miles, an they use't to be a cottonwood there by the crick, if it ain't be'n blowed over. Well, howdy, Hart? I know we got your best wishes an that you'd be glad to help us out of trouble."

"You bet," said Hart. "Howdy?"

And the cavalcade started off northward in an optimistic endeavor to find the cottonwood tree.—Chicago Record.

STARS AND STRIPES ABROAD.

First American Flag Ever Unfurled In a Foreign Land.

The first American flag that ever floated in a foreign port was hoisted by Captain Thomas Mendenhall. This event took place in the spring of 1776 at St. Eustatia, one of the neutral islands during the Revolutionary war.

In the winter of 1775 Robert Morris, Esq., financier for the Continental congress, chartered the brig Nancy at Wilmington, Del. The ensuing year she sailed for Puerto Rico under English colors and landed at Don Antonio Seronia to procure arms and ammunition by a contract previously made with the Spanish government. From there the brig sailed to different islands to avoid suspicion.

At St. Croix and St. Thomas the brig took in produce by day and munitions of war at night. These were sent from St. Eustatia in small vessels. When the cargo was nearly complete information was received that independence had been declared and a description of the colors adopted.

This, of course, was cheering news to the sailors, as they could then show their true colors and would not have to act clandestinely. The necessary material for the making of the flag was at once procured, and a young man on board set to work privately to make it. The young man was Thomas Mendenhall, who afterward became a captain in the navy. The brig was at once armed for defense and all things put in order ready to weigh anchor. On the day that the brig was to sail the captain invited the governor and suit and 20 other gentlemen on board to dine. A sumptuous dinner was served. As the customs barges approached with the guests the rowers were ordered to lay on their oars while a salute of 13 guns was fired. Amid the firing young Mendenhall, upon orders, hauled down the English flag and in its stead raised aloft the first flag of this country ever seen in a foreign port. Cheers for the national congress and cries of "Down with the lion and up with the stars and stripes!" accompanied the flag raising.—Cincinnati Enquirer.

The Autograph Collector.

The collector enjoys the varied and sometimes eventful experiences which befall him in obtaining his choicest specimens, such as visits to out of the way places, acquaintances formed with interesting people, searching in the archives of old mansions. Papers have been found under circumstances similar to the incidents invented by novelists—in clock cases, chests, between the leaves of books and among the rubbish of forgotten wardrobes. New discoveries, strange and unlooked for, occur almost daily, but they are not often the prizes awarded to the careless, the unskilled or unsystematic explorer. No; the most watchful and painstaking pursuit must be given to the clew, however slight, which is discovered.

Every sense must be on the alert and the active interest of friends enlisted in the cause, and whenever it is prudent to do so the subject of autographs and manuscripts should be introduced, especially with new acquaintances. Things which others would pass by may be important to the autograph hunter. He loves old rambling streets, with their miscellaneous stalls, and the stores of the waste paper and parchment dealers. Neither cobwebs nor dust have any terrors for him. Disused rooms, old chests, lofts and cellars he ransacks with pleasure.—Collector.

HUMAN SACRIFICES

On the Altar of Diabetes, Saved by Dodd's Kidney Pills, Only.

Hardly a family in the country is free from Diabetes. Great thirst, failing sight, numbness in the thighs, bleeding gums, swollen ankles, emaciation, nervousness, pale or turbid urine, loss of sexual power, decaying teeth, pains in the loins or small of the back, are all positive signs that Diabetes is in the system.

Do you know how it ends? In Death. A premature, horrible, agonized, pitiful death. The victim has no peace, no ease in life. His days are filled with tortures. His nights are waking dreams of agony. He longs to die, yet fears the terrors of his end. He dies, a bloated, fetid, repulsive mass of corruption. That is the only end of unchecked Diabetes. Dodd's Kidney Pills will cure it. They drive it out of the system thoroughly, create new, clean blood, rebuild the diseased kidneys, and restore robust health.

If your children are well but not robust, they need Scott's Emulsion of Cod-liver Oil.

We are constantly in receipt of reports from parents who give their children the emulsion every fall for a month or two. It keeps them well and strong all winter. It prevents their taking cold.

Your doctor will confirm this.

The oil combined with the hypophosphites is a splendid food tonic.

An Unfortunate Linguist.

John was an ambitious Chinaman. He had made money in Chinatown, San Francisco, but had devoted himself to business so thoroughly that he remained totally ignorant of English.

He came to New York determined to avoid his fellow Chinamen, so that he might learn to speak English during his six months' stay in the metropolis.

He took a room in an east side house, paid promptly, made himself agreeable to his landlord, who allowed him to wait on customers in his little grocery store, and he never went near Pell or Mott street. After several months' residence in New York and many hours of study the Chinaman ventured forth among his people, where he proceeded to give an exhibition of his proficiency in the English language. What he said sounded strange to the other Chinamen, and the ambitious one nearly swooned when he discovered that he had learned German by mistake.

His New York home was in the German part of the city, where English is an unknown tongue, and the poor fellow had to begin his linguistic work over again.—New York Tribune.

LACROSSE.

There was a very good turn out of players at practice last evening.

A full practice is asked for Friday evening and every night next week in order to be in the best possible shape for the championship games. Midland plays here on the 15th. They are running a large excursion down and having an entirely new team on the field will give Peterborough a hard tussle.

At a meeting of the Executive yesterday afternoon Mr. Lionel King consented to act as secretary during the absence of Mr. Terrill, who is away on his holidays.

Jack Mooney was stripped last night and he handled himself well. He is a clever stick handler.

There are eight or ten home men, all fast ones, to pick from now.

The committee are anxious that the men will get in shape and keep in shape from this out.

It is within the range of possibilities that the team may take a two day trip east at the latter end of the month and visit both Perth and Almonte, if suitable terms can be made and enough of the boys can get away to make a strong team. It would not do to send a weak twelve to represent the town against such clubs.

Hastings will be up for a game in the near future, as will Norwood.

Hastings defeated Madoc on the letter's own grounds last week by 4 goals to 3. This is the first time the Madoc's have been defeated on their own grounds in eight years. Amongst the old heads playing for Madoc were the three Collinges, two Kirks, Lynn, Seymour, Sutton, McGuffin and Sinclair.

The Perth Expositor says: The members of the Crescent lacrosse club speak in the highest terms of the treatment they received while in Peterborough on the 1st. The players, they say, are gentlemen, and the audience the most impartial they ever played before. The team from this town is the best we ever had here, and all but one of them are natives of the town. Truly we should be proud of our boys. There is no slugging, swiping lacrosse played by the Crescents, but they play the game scientifically, and any person can watch it without feeling horror at the thought of someone being killed.

CRICKET.

An interesting match will be played on the Nicholls Park oval on Saturday between teams representing the married and single men of the club. If the teams are true to title and score singles and doubles respectively, there is no doubt of the benedicts winning, which is all the more probable since the singles are to be under "professional" care.

You can count on your Wedding Cakes being right if they come from McQUAY, COLLINS & CO., 406 George Street. Handsome decorations, delicious Icing and fine rich quality are making them very popular.

One Laxa-Liver Pill every night for thirty days makes a complete cure of biliousness and constipation. That is—just 25 cents to be cured.

They are charged with extending favors to a convict, and being in the company of a discharged convict. The facts have been forwarded to the Department of Justice, and the three officers are suspended meanwhile, awaiting the judgment of the Minister.

Yesterday afternoon Ralph Winder, 3 years old, while playing, fell off Craig & Co.'s dock and was drowned. His mother, a widow, lives on Gore street.

On investigation it transpires that Steward Martin was not suspended at the Penitentiary. Only Hughes and Derry are involved.

Sir Oliver Cool in Danger.

Kingston, Ont., July 7.—Sir Oliver Mowat had a very startling experience last evening. He had attended the McDowall memorial ceremony at Fredericksburg yesterday, and was returning to this city from Bath with a party of prominent Kingstonians on the steamer Jubilee. Flames burst forth from the fire hole and caught on the woodwork in that vicinity. A great commotion was caused among the passengers, and the ladies were taken ashore in lifeboats. The flames were finally got under control. The tug Reginald towed the steamer to Kingston. The engineer was scorched about the face, the rest of the party escaped uninjured.

Sir Oliver was the coolest man on board during the excitement.

Hon. Edward Blake's Hit.

London, July 7.—Hon. Edward Blake's speech in the House of Commons on Irish financial claims is the subject of general talk in the lobbies. It was, in fact, Mr. Blake's greatest Parliamentary hit.

The Westminster Gazette yesterday paid Mr. Blake the following tribute: Mr. Blake followed the Chancellor of the Exchequer and analyzed his arguments with great skill, proving himself master of Irish financial statistics and an adroit and dexterous opponent in controversy. The House of Commons showed its admiration of his abilities by frequent applause. Subsequently in the lobby, some of the most generous tributes to Mr. Blake's powers were offered by his political opponents."

Rumors of Foul Play.

Owen Sound, July 7.—Philip Roy, colored, who has been missing from his home for 11 days, was found dead at the bottom of a rocky ravine on the East Hill. The body was decomposed. An inquest was held yesterday morning. The jury adjourned until next Monday. There are rumors of foul play. Roy served ten years at Kingston for killing a negro in a quarrel.

The Annexation of Hawaii.

Washington, D.C., July 7.—The annexation of Hawaii now is accomplished, so far as the legislative branch of the Government is concerned. Quite unexpectedly the resolutions providing for the annexation of the islands were brought to a vote in the Senate late yesterday afternoon and they were passed by the decisive vote of 42 to 21.

THE SURRENDER OF SANTIAGO.

Negotiations to That End Said to Be Under Consideration.

A REASONABLE PROSPECT OF IT.

Spanish Prisoners Make a Dash for Liberty—The Destruction of the Reina Mercedes—An Exchange for Hobson Effected—A Dynamite Bomb Attempt on Alfonso's Life.

Washington, July 7.—From information which reached the State Department late last evening through foreign consuls, it was gathered that there is every indication that Santiago will surrender without being bombarded, if a little additional time is granted to complete negotiations. The Navy and War Departments have also been made aware of certain propositions on this matter that have been submitted to the Government. The officials, however, refused, for the present, to give out anything for publication.

Spanish Dash for Liberty.

Headquarters of General Shafter, Tuesday, July 5, per Associated Press despatch boat Dandy, via Port Antonio and Kingston, July 6.—(5 p.m.)—About 50 of the 400 Spanish prisoners on the United States auxiliary cruiser Harvard attempted to escape last night. In some way a number of them secured guns and made a wild dash for liberty from the steerage, where they were confined. Their rush was met by the deadly bullets of the guards, and six were killed and 15 wounded. The fighting ended the mutiny. No American was hurt.

Destruction of the Reina Mercedes.

The destruction of the Spanish cruiser Reina Mercedes last night, Monday, accounts for the last ship of Admiral Cervera's once splendid squadron. She lies to-day in plain view, her bow resting on the base of the beach under El Morro. Part of the hull is above water, and her masts and two stacks are entirely out of water.

Hobson Exchanged.

Washington, July 7.—Hobson's exchange was effected yesterday morning.

A CARLIST BOMB.

Dynamite Placed in the Palace of the King of Spain—The Attempt on Alfonso's Life Frustrated.

Washington, July 7.—Information has been received in Washington to the effect that an attempt was recently made to blow up the apartments of the Queen Regent of Spain at Madrid with a dynamite bomb. Several men were arrested for alleged complicity in the plot and one of them, Alexandro Argorano, was confined in the fortress of Monjuich at Barcelona and afterwards executed. The others are still under arrest. Absolutely no official information has been given out concerning the attempted crime, and the press of the Spanish capital were kept in ignorance of it. It is believed, however, that the bomb was placed by adherents of Don Carlos, who wished to expedite his accession to the throne by the destruction either of the boy King, Alfonso, or his mother, the Queen Regent. Hints were dropped of an anarchistic plot, but the Carlist theory is given more credence. That their plan was frustrated was due more to fortunate circumstances than to any neglect on their part to do everything to insure its success. Had the bomb exploded it would undoubtedly have wrecked the greater portion of the palace, killing a number of people, and, in the excited state of the inhabitants of the city, might even have had more serious results.

TO FORCE SANTIAGO

The Question Before the Council of War at Washington.

PRESENT PLAN LIKELY TO GO ON

Gen. Miles on His Way to the Front—Hobson and His Seamen Exchanged—Terrible Sufferings of the Refugees of Santiago at El Caney—News of the War.

Washington, July 8.—An important council of war at the White House, a conclusive statement that Major-General Miles would start for Santiago last night and a telegram from General Shafter announcing the exchange of Naval Constructor Hobson and his heroic crew of the Merrimac exploit, were the most significant incidents of yesterday in Washington. The council of war, which was unquestionably the most important event of the day, began early in the afternoon at the White House, and extraordinary secrecy is being observed by the Government officials in regard to it. There is a good reason to believe that the main object of the conference was to consider the advisability of permitting Admiral Sampson to carry out his desire to force an entrance into Santiago harbor. For this purpose the three members of the Naval War Board were present at the conference, which consisted of President McKinley, Secretary Alger, Secretary Long, Major-General Miles, Admiral Sicard, Captain Mahan and Capt. Crowinshield. After the council adjourned it was said by some members present that no report was received in regard to the conference, supposed by this time to have been held at Siboney, between General Shafter and Admiral Sampson. If any radical change in plan was arrived at in the conference it has not been disclosed to outsiders, and the impression is that no radical departure from the present scheme of reducing Santiago will be made.

PRISONERS EXCHANGED.

A Courteous War Ceremony, But Also a Very Formal One.

Off Juragua, July 6, evening, by the Associated Press despatch boat Wanda to Port Antonio, Jamaica, July 7.—Assistant Naval Constructor Richmond P. Hobson of the flagship New York, and the seven seamen who composed the crew of the collier Merrimac, which was sunk by Hobson and his companions in the channel of the harbor of Santiago de Cuba, on June 3 last, were surrendered by the Spanish military authorities to-day in exchange for prisoners captured by the American forces.

The Spanish authorities consented this morning to exchange Hobson and his men, and a truce was established for that purpose. The place selected for the exchange was under a tree between the American and Spanish lines, two-thirds of a mile beyond the entrenchments occupied by Col. Wood's Rough Riders, near General Wheeler's headquarters. The American prisoners left the Reina Mercedes Hospital on the outskirts of Santiago, where they had been confined, at 2.45 o'clock this afternoon, in charge of Major Ireles, a Spanish staff officer, who speaks English perfectly. The prisoners were conducted to the meeting place on foot, but were not blindfolded.

Col. John Jacob Astor and Count Miley, accompanied by Interpreter Maestro, were in charge of the Spanish prisoners. These consisted of Lieutenants Amelio, Volez and Aurelius, a German belonging to the 29th regular infantry, who were captured at El Caney on Friday last, and Lieut. Adolfo Aries of the 4th Provisional regiment of Barcelona, one of the most aristocratic military organizations of the Spanish army, and 14 non-commissioned officers and privates. Lieut. Aries and a number of the men were wounded in the fight at El Caney. The Spanish prisoners were taken through the American lines mounted and blindfolded.

The meeting between Col. Astor and Major Ireles was extremely courteous, but very formal. The truce ended at 5 o'clock.

THE EXODUS FROM SANTIAGO.

15,000 Refugees Leave Santiago to Escape the Bombardment.

El Caney, July 6, 4 p.m., by the Associated Press despatch boat Wanda, via Port Antonio, Ja., July 7.—Between 12,000 and 15,000 innocent victims of the war have fled here in wild panic to escape the terrors of the threatened bombardment of Santiago, and they are now confronted by the horrors. In their helpless confusion, they are appealing to Gen. Shafter for succor. Most of them are foreigners, principally French, or with an admixture of foreign blood, and their interests are being looked after by their Consuls. When they were informed yesterday that General Toral refused to consider the question of surrendering, they swarmed out of the north gate of the city all day, and trudged under the blazing sun over the road, which in many places was ankle-deep in mud. Tottering old men and women were supported by children, and mothers with babes at their breasts struggled on towards El Caney, San Luis and other towns. Most of them came here last night, and over 5,000 of them slept in the village, which under ordinary circumstances hardly accommodated 300 people. They were crowded together in the houses, upon the verandahs and in the streets. At daylight, those who had been overtaken by darkness on the wayside began to pour in, and at this hour they are still arriving. Already more than 15,000 are here. They were not allowed to bring food with them, and those who have money are as destitute as those without it, and the rich and the poor, white and black, are huddled together, choking the passageways between the houses, all with gaunt despair written on their countenances.

The ignorant desire only to be fed, and the cultured want to get away, anywhere, anyhow, away from the war which has driven them from their once happy homes.

Pathetic sights are witnessed on all sides. Ladies with the stamp of birth and education, supported by frail girls, who hide their faces from the vulgar gaze of others who surge about them. In the eyes of both mothers and daughters is the haunted look which wild animals have when driven to bay.

Brooklyn Was Hit 45 Times.

Guantanamo, July 4, via Port Antonio, Jamaica, per Associated Press despatch boat Dandy, July 6, via Kingston, Jamaica, July 6, 7 p.m.—When the Spanish fleet left Santiago, it was with the intention to make for Cienfuegos, the nearest port, to secure coal and provisions. All the ships were very short of coal, the Cristobal Colon having only two days' supply, which she had secured at Santiago. The Spaniards concentrated their fire on the Brooklyn, hoping to disable that vessel, as they considered her the fastest of the American warships, and thus give an opportunity for at least one or two of the Spanish boats to escape. The Brooklyn was hit 45 times.

CERVERA'S REPORT.

Admits the Death of 600, Including the Commander of Torpedo Boats.

Washington, July 8.—The War Department has received the report of Admiral Cervera to Gen. Blanco, on the disastrous naval fight to the Spanish cause off Santiago. It is as follows:

"To the General-in-Chief, Havana: In compliance with your orders, I went out yesterday from Santiago de Cuba with all the squadron, and, after an unequalled combat against forces more than triple mine, had all my squadron destroyed by fire. Teresa, Oquendo and Vizcaya are beached and the Colon fleeing. I accordingly informed the Americans, and went ashore and gave myself up. The torpedo-chasers foundered. I do not know how many people were lost, but it will surely reach 600 dead and many wounded. Although not in such great numbers, the living are prisoners of the Americans. The conduct of the crew rose to a height that won the most enthusiastic plaudits of the enemy. The commander of the Vizcaya surrendered his vessel. His crew are very grateful for the noble generosity with which they are treated. Among the dead is Villamil, and, I believe, Lazaga, and among the wounded Concas and Eulate. We have lost; all are necessarily depressed. (Signed), Cervera."

Watson's Squadron to Be Detached.

Washington, D.C., July 8.—Secretary Long yesterday cabled Admiral Sampson, ordering him to detach immediately Commodore Watson's squadron, and directing the latter to proceed at once upon his mission. The vessels will be the Iowa, Oregon, Newark, and three cruisers, besides coal ships.

To Protect the Queen.

Rome, July 8.—The Austrian fleet is concentrated near Ragusa ready to start for Spain in case of danger to the Queen Regent. The Emperor of Austria yesterday telegraphed to the Pope, indicating his readiness to bring all the power of Austria to bear to protect the Queen in any emergency.

The War Must Go On.

Madrid, July 7.—(3 p.m.)—A Minister declared after the Cabinet meeting today that in view of the destruction of the Spanish fleet the war must be continued lest Spain be accused of cowardice.

Col. Rodier Dying.

Montreal, Que., July 8.—Colonel Arthur Rodier, ex-commanding officer of the 64th Battalion, Huntingdon, is dying at his home in this city. He is 73 years of age, and is a brother of the late Senator Rodier.

GUILLEMAIN'S CASE.

His Contradictory Confessions Make It Bad for Him.

A DEFENCE AGAINST ODDS.

The Prisoner is the La Plante Murder Case Handicapped by His Previous Conduct—The Crown Prosecutor on the Stand—Mother's Testimony Is Negatively Favorable.

St. Hyacinthe, Que., July 8.—Guillemain's defence, begun yesterday afternoon, is going to prove a fight against tremendous odds. It is handicapped by his own contradictory and inconsistent confessions—evidence that Judge Tellier has allowed to go to the jury. The prisoner first confessed his own guilt, implicating his aunt, Madame La Plante. Then he exonerated the latter from culpability, but shifted the charge upon Louis Tetreault, admitting himself at the same time to have been an accessory. Tetreault had no difficulty in proving an alibi. The evidence showed that the easy-going farmer was busy trading horses miles away at the hour the murder was committed.

Guillemain's deposition was read to the jury before he left Biddeford, in which he expressed his unreserved willingness to return to Canada to clear himself. The testimony given by Guillemain was substantially as follows: "I wish to tell the truth. I stated a falsehood when I first informed Constable Rodrigue that I had killed my uncle and that my aunt was my accomplice. I made that declaration because I expected to go to Canada for my trial. Afterwards I exonerated my aunt. I was aware that La Plante was expecting $1,300 from Mr. Touchette of St. Hyacinthe. When the news of my uncle's death reached the house I thought of Tetreault, and at once came to the conclusion that he had committed the deed. While going to notify my uncle, Desire Berthiaume, I saw Tetreault on the road in the distance. I then concluded that he was returning to see whether he had finished the deed. On All Saints' Day I again met Tetreault on the road. He gave me a package of money rolled in paper as my share. I took it and hid it in a small box under the stable flooring. I did not count the amounts, but I think it was about $70. This same money I carried with me to Biddeford. It included some bills of the Eastern Townships Bank. At my meeting with Tetreault after the murder he observed to me 'I killed your uncle. Don't say a word and I will reward you further.'"

Mr. Lambert, after reading the statement of Guillemain, related what occurred after his return from Biddeford. He brought the prisoner to the La Plante farm. It was Guillemain who voluntarily showed where the stolen money had been hidden in the stable. On removing the planking the box in which it was placed was found under the floor.

Crown Prosecutor Blanchet was also examined by Mr. Bourgault, counsel for the defence. He reiterated the statement made by Mr. Lambert that Guillemain, before making the deposition, was warned to be on his guard. Mr. Blanchet said he did not threaten, coerce or offer the prisoner any inducement to get him to return to Canada. The witness added that he took a copy of Guillemain's declaration.

At the request of Mr. Bourgault the original notes were read, and proved to be identical with those jotted down by Mr. Lambert.

The deposition of Madame Guillemain (nee Berthiaume) of Biddeford, the mother of the accused, was then read to the jury. It offers the only possible explanation of how Guillemain had so much money in his possession. The deponent declared that her son had always been steady, thrifty and dutiable. Guillemain worked in a cotton factory and earned about $30 a month. The accused rarely spent a cent. He was very saving, and often imposed on his mother when he needed spending money. The deponent, as an instance, cited her purchase of clothing for her son on two or three occasions. His savings at the time he left for Canada were between $60 and $70. Madame Guillemain, in her declaration, said that in a conversation with her son after his arrest he informed her that "he believed Louis Tetreault to be the guilty party."

KILLED AT FORT FRANCES.

Dan Monseau Struck by a Skid and Dies Instantly.

Rat Portage, July 8.—While unloading some mining machinery at Fort Frances a man named Dan Monseau, who is well known in town, lost his life by being struck with a piece of timber. It appears that the barge from which the machinery was being unloaded drifted out a short way from the shore, and the skids which were being used as a gangway became displaced, one end being tipped up, striking the deceased on the forehead, death being almost instantaneous.

Halifax Boy Killed.

Halifax, N.S., July 8.—Superintendent Robertson of the Government Experimental Farm in Cumberland, has received word that a younger brother of his, Lieut. Robertson, was mortally wounded in the battle of Friday last at Santiago. Mr. Robertson left immediately for his home in Ontario to visit his mother in her hour of affliction.

Death of Angus Bethune.

Cornwall, July 8.—Angus Bethune, police magistrate of the town of Cornwall, died at his home here yesterday, aged 83 years. He was a native of Glengarry county, and leaves a wife and large family. He was the father of the late James Bethune, Q.C., of Toronto.

Well Made and Makes Well

Hood's Sarsaparilla is prepared by experienced pharmacists of today, who have brought to the production of this great medicine the best results of medical research. Hood's Sarsaparilla is a modern medicine, containing just those vegetable ingredients which were seemingly intended by Nature herself for the alleviation of human ills. It purifies and enriches the blood, tones the stomach and digestive organs and creates an appetite; it absolutely cures all scrofula eruptions, boils, pimples, sores, salt rheum, and every form of skin disease; cures liver complaint, kidney troubles, strengthens and builds up the nervous system. It entirely overcomes that tired feeling, giving strength and energy in place of weakness and languor. It wards off malaria, typhoid fever, and by purifying the blood it keeps the whole system healthy.

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Sold by all druggists. $1; six for $5.

Hood's Pills cure all Liver Ills and Sick Headache. 25c.

EDITORIAL NOTES.

THE action of the Senate, on sober second thought, in restoring the item relating to the commission to settle the controversies between the United States and Canada has cleared the way for the meeting of the Commission at Quebec the latter part of this month.

THE West Durham News calls the Bobcaygeon Independent a Liberal newspaper. Mr. Smiff will have his own opinion of such an accusation. On a fishing excursion he is liberal—if you get your hand on the flask first. Otherwise he is absolutely Conservative—"what we have we'll hold—if we have to bust for it."

THE Montreal Gazette, Conservative, puts it this way:—The disappearance of the Templar, of Hamilton, into the journalistic grave yards leaves the prohibitionists without a regular newspaper organ, and just at the time when a rallying voice was most needed. The cause of the Templar's decease was non-support. Its fate is another evidence that the superior sobriety of the Canadian people has its basis in individual business sense rather than on the work of organizations and temperance lectures, spoken or printed.

AN Ogdensburg paper becomes enthusiastic. It says: "The Anglo-Saxon alliance talk will not down. All the British Empire has caught the spirit of progress and fraternity, and the people of the United States are equally determined that we ought to and will mingle the Stars and Stripes and the Union Jack in one glorious arch of progress, brotherhood and liberty—liberty of peoples and of trade the world over. America and Britain must dominate the world for the world's good."

COL. SAM HUGHES has issued a circular to the Conservatives of the Midland District in which he sets forth the advancement made by Conservative principles in the district. Mr. Birmingham, the organizer, and Mr. Whitney are greatly exalted at the expense of Hon. Clarke Wallace, who, according to the tenor of Col. Hughes' criticism, is "no good." With regard to the Conservative advancement in this district the Colonel is a little at sea. He must not gauge the Conservative success by the apathy of the Lindsay and Victoria Liberals, co-incident with an insufficiency of judgeships, silk gowns and other good things of that ilk.

The Toronto World Conservative says: "Mr. Lister, who goes up to the bench from the House of Commons, has certainly strong claims from a party point of view. In that way he o'ertops all the other M.P's. or ex-M.P's. of judicial aspirations. As to his own qualifications, he is a good lawyer, and has a hard head, full of common sense. As these appointments have gone in this country, we do not see any reason for the fuss that over zealous papers are making. We are even willing to admit that Mr. Hardy may have had a hand in selecting Mr. Lister, but even then, if one wished to criticize political appointments and be effective, one must condemn them generally and not specific cases alleged against one's political opponents. The World hasn't any doubt that Mr. Lister will be a good judge."

THE Conservative journals are in Opposition, and they are making the most of their position. They can see nothing good in the Laurier Government, and even the keeping of pledges is turned to their discredit. The plebiscite on prohibition is denounced as "an artifice to stave off the question." The London Free Press oddly enough declares that the Laurier Administration is using the plebiscite "to gag those who are calling for prohibition," and denounces the wasteful expenditure of $300,000 to take the plebiscite vote, and in the same sentence asserts that if the Laurier Administration had been sincere it would have passed a prohibitory law, subject to the sanction of the people. This is splendid logic. In one case it is proposed to spend money to find out if the people want prohibition, and if they do the Government will give them prohibition. In the other it is proposed to pass the law first, and spend the money on taking the plebiscite afterwards. The Conservatives are largely hostile to prohibition, and wish to prevent the people, who are concerned in the matter, from passing an opinion on the subject.

QUESTIONABLE PATRIOTISM.

The prominence which some papers are giving to the reported failure of the Petersen-Tate Company to carry out their fast Atlantic steamboat service contract is liable to give rise to a suspicion that such failure would not be a cause of unalloyed grief to them. Surely the sterling and almost exclusive patriotism of the Conservative press would prevent their rejoicing over such an incident—the true patriot would never allow a party advantage to supersede the national good.

The local election now in progress in British Columbia is of greater importance and is creating more interest in Eastern Canada than any of its predecessors. The great Pacific Province has forged into a front position in Confederation during the past three or four years and the Dominion as a whole is deeply interested in its welfare and prosperity. These depend upon the Government being in hands of safe though progressive men, and the issues awaiting treatment at the hands of the new Parliament are momentous and far reaching. While it is not wise to prophecy before you know, the indications do not appear at this distance altogether favourable to the Turner-Pooley Administration.

Before this letter appears in print, Dominion Day and Independence Day will have come and gone. These two great holidays—the national holiday of the respective nations owning this continent have hitherto by their very proximity partaken somewhat of the spirit of rivalry. This year they have presented the unusual feature of close international intercourse, both civic and military—an earnest of improved feeling between the sister peoples. Long may this continue—the more we see of each other the better for both.—COM.

CANADIANS IN IT.

The horrors of the struggle now going on between the American and Spanish troops at Santiago are, says the Woodstock Sentinel-Review, brought home to more than one Oxford family. In the very thick of the fight before the Cuban city, with the Fourth United States Infantry regulars is Dan McLeod, whose mother, a nurse, lives on Dundas street, near the market. Dan was at one time employed at Pett's bake shop and was among the first to enlist after the breaking out of hostilities. Fred Hoodless, another Woodstock young man, went south a year ago with a New Orleans company mobilized at Tampa, and he also is supposed to be at the front. In the home of Thomas Peat at Bright, the war news is anxiously read, for a son of Mr. Peat is at the front with K. Co, Illinois Infantry. He was employed by the Deering Company up to the commencement of the war. It is understood that a brother of Mrs. W. T. McMullen is also at the front.

THE MODERN YOUTH.

The Hamilton Times shows that there are two sides to a question. While others are jumping with both feet on the school curriculum, the Times asks: "When did the Canadian child become so delicate that it cannot study a while in the evening? That child's father or grandfather could do a lot of chores before daylight, eat his breakfast by candlelight, walk two miles or more to school, take a lot of gentle exercise, such as sawing and splitting wood, in the dusk, and then study the next day's lesson before going to bed. The modern boy can play football or ride a hundred miles on the bicycle. Some of him can run twenty miles in two hours. His little sister can dance a three hours' programme and then clap her hands for a couple of extras. But the boy and the girl have to ride to school on the street car and the very thought of studying their lessons in the evening makes them sick."

THE KLONDYKE MILLIONS.

There is every reason for supposing that there has been little exaggeration in the stories that have appeared so far regarding the Yukon yield. The Province is informed that a well-known resident of Nanaimo, who is at present in Dawson, has written to his wife telling her that he will bring down over a million dollars this summer himself, and that the whole output will be enormous. A conservative estimate made by a government representative, who is on the spot, is that at least $20,000,000 will be brought out. Other estimates run to twice this amount.—Vancouver Province.

A WINDSOR JEWELLER.

Cured of Bright's Disease by Dodd's Kidney Pills.

Windsor, July 4th.—(Special despatch)—"If the United States army had taken a supply of Dodd's Kidney Pills to Cuba it would have been able to withstand the ravages of disease arising from the drinking of bad water," said a promident physician to-day.

"Dodds Kidney Pills he continued, are the greatest life savers in the world. I know a score of persons whose lives they have saved.

"Right here in Windsor Mr. R. F. Colwell, the Oulette street jeweller, has been cured of Bright's Disease by them after two years' suffering. I use them in my practice, and can cure the worst case of Bright's Disease, Diabetes, or any other Kidney complaint with them."

Doan Cures Backache.

I have been troubled for several years with kidney disease, pain in the back, dizziness and sleeplessness, so that at times I could not work. Doan's Kidney Pills which I started taking about two months ago have made me all O. K." P. J. McGinnis, Belleville, Ont.

RESTIVELY RESPONSIVE.

The Wheat Markets Feel the Influence of All the Crop Reports—The Latest Prices.

Thursday Evening, July 7.

The world's wheat markets abate none of their irregularity, but remain uncertain and restively responsive to the various reports concerning the incoming crops, according as these reports indicate a decrease or an increase of the estimated yield, traders are bullish or bearish. On the Chicago board to-day all deliveries reacted about a cent from yesterday's final quotations, but there was a slight recovery, and at the close the July delivery showed a loss for the day of only ⅝c, while the September and December options showed losses of 1c and ⅞c respectively. Other American markets inclined weaker, and trade on the Toronto board was extremely dull at unchanged prices.

Wheat closed lower in Liverpool. July was off 1d from yesterday's close, Sept. off ¼d, and December off ¼d. Paris wheat advanced 5 to 75 centimes to-day.

Leading Wheat Markets.

Toronto Live Stock.

The run of live stock was large for Thursday's market—40 carloads—composed of 800 cattle, 500 sheep, 800 hogs and 40 calves.

The quality of the cattle offered was generally good considering the fact that the time for stall-fed animals is nearly past.

Trade was fairly good, many sales of stock being made, with prices remaining much the same for the best exporters, and butchers' cattle, while the poorer qualities of butchers' stock were a little cheaper.

Choice export cattle sold from $4.50 to $4.75, light export bulls $3.50 to $3.90, and heavy $3.75 to $4 per cwt.

Choice picked lots of butchers' cattle sold at $4.25 to $4.35, good $4.15 to $4.20, medium $3.85 to $4, common $3.30 to $3.60, inferior $3.12½ to $3.30, and very inferior rough bulls and cows at $2.85 to $3.

Prices for milk cows, feeders and stockers remain unchanged.

Prices for sheep were a little firmer, ewes sold at $3 to $3.25 and bucks at $2.50 to $2.75 per cwt.

Spring lambs were firm at $2.50 to $4 each.

Calves in good demand and prices firm, at Tuesday's quotations.

Hogs—Deliveries light; prices firm at Tuesday's quotations.

Montreal Live Stock.

Montreal, July 7.—There were about 700 head of butchers' cattle, 300 calves, 600 sheep and lambs, 5 store hogs and 35 small pigs offered for sale, at the East End Abattoir to-day. The butchers were present in full force, but trade was rather slow for some time and prices declined all round, excepting for prime beeves, which were scarce and sold at from 4¼c to 4½c per lb. and none of them were of extra quality; pretty good stock were plentiful and brought from 3½c to 4c per lb.; common dry cows and young stock sold at from 2½c to 3½c per lb. Good calves sold at from $4.50 to $7 each and the others at from $1.50 to $4 each. Shippers pay 3¾c per lb. for good large sheep, and the others bring from 2½c to 3¼c per lb. Lambs sell at from $2.25 to $3.50 each. Fat hogs sell at from 4¾c to 5c per lb. Store hogs bring about $7 each and the small pigs from $1.50 to $2.50 each.

Cheese Markets.

Brockville, July 7.—At the Cheese Board to-day 54 factories offered 2833 cards and 2182 white; 30 white and 160 colored sold at 7⅛c; balance unsold.

Kingston, July 7.—At the Cheese Board to-day 2000 boxes white and 500 colored boarded. Sales 1200 at 7⅛c to 7 3-16c.

Listowel, Ont., July 7.—At the Cheese Fair held to-day 25 factories boarded 0595 boxes white and 100 boxes colored cheese, June make; 720 boxes were sold at 7 3-16c, 705 at 7¼c and 405 at 7 5-16c. Fairs will be held at 11.30 a.m. every Thursday and call system is being strictly enforced.

East Buffalo Cattle Market.

East Buffalo, N.Y., July 7.—Cattle—Stockers averaging 770 pounds, $3.40; 2 butchers, 825 pounds, $3. Calves—Good supply, fair demand and steady; choice to extra, $5.25 to $5.50; good to choice, $4.50 to $5.25.

Sheep and Lambs—Sales at about steady prices. Spring lambs, choice to extra, $6 to $6.25; good to choice, $5.50 to $6; culls, $5 to $5.50; yearlings, $5.25 to $5.50; bulls $4 to $4.50. Sheep, choice to extra, $4.40 to $4.60; culls, $3.50 to $4.40.

Hogs—General demand active; heavy and medium, $4 to $4.05; yorkers, $4.05; pigs, $4.05; roughs, $3.25 to $3.45; stags, $2.50 to $2.85.

British Markets.

Liverpool, July 7.—Spring wheat is quoted at 6s 8¼d; red winter at 6s 9d; No. 1 Cal., 7s 3d to 7s 3½d; corn, 3s 1¾d; peas 4s 11d; pork, 51s 3d; lard, 27s 6d; tallow, 18s 6d; heavy, l.c., 31s; light, 30s 6d; do., short cut, 29s; cheese, white and colored, 35s 6d.

Expulsion of Four Doctors.

Toronto, July 8.—Yesterday the chief work of the sessions of the Ontario Medical Council was the consideration of the Discipline Committee. The committee recommended the expunging of the names of Drs. Albert William Sovereen, of the County of Essex; W. E. Bessey of Toronto; Richard Allen Clark of Toronto, and George B. Gray of Elora, from the roll of the College of Physicians and Surgeons. After long discussion, the names were erased from the roll. In the case of Dr. John Kirkpatrick, also charged as were the others with unprofessional conduct, there were mitigating circumstances and the council decided to allow his name to remain.

The Humber Bay Drownings.

Toronto, July 5.—Up to a late hour last night the bodies of the two young men drowned off Mimico on Sunday afternoon had not been recovered. The survivors have been removed to their homes in the city and are all doing well.

APPALLING DEATH

From Kidney Disease Prevented by Dodd's Kidney Pills, Only.

"Kidney Disease." Do you know what it means? It means that the kidneys are either *rotten*, or rotting; the blood is full of poisonous, death-dealing corruption; that the Kidneys can't do their work; that the victim is a walking charnel-house; that his hours are numbered; that the victim MUST take Dodd's Kidney Pills if he does not want to die.

Have you Kidney Disease? Is your skin hot and dry; memory failing; breath short; urine, reddish, or pale colored; does it scald when passing; is your appetite changeable; do your ankles swell; have you bitter taste in the mouth on getting up mornings; is there a brick-dust deposit in your urine?

Any of these signs is proof positive of Kidney Disease. Will you be cured, or will you die? Dodd's Kidney Pills are the only means on earth that will cure you. They never fail.

DEATH'S TRAGIC TRIO.

Laurie's Shocking Death by a Trolley Car —Two Sunday School Picnics Saddened by the Grim Monster.

Toronto, July 8.—Last evening a few minutes after 6 o'clock, at the corner of Church and Lombard streets, a south-bound Church street car ran down Alexander Laurie and caused injuries from which he succumbed shortly afterwards. The car dragged him nearly to Adelaide street. The injured man was removed to St. Michael's Hospital. Twenty-three minutes after his reception at the hospital Laurie died, never having regained consciousness.

The deceased with his wife, until a month ago, resided at 439 Ontario street, when his wife, who had been unwell for some time, went to Dewart, a little place near Cobourg, the residence of her son. In the meantime Laurie broke up home, and, after storing his household effects in Forum Hall, went to live at Mrs. Green's, 418 Sumach street.

The deceased leaves, besides a widow, five children, who are at present all away from home, Dr. Charles Laurie of Cobokonk, Frank Laurie, manager of Bell Telephone Company at Chatham; Reginald, a printer in Rat Portage; Bessie, wife of Mr. Carnegie, M.P.P. for South Victoria, and Maggie, wife of Mr. Curry of Dewart.

Deceased, who was over 66 years of age, suffered from deafness. His wife and children were notified and will come immediately.

Coroner Young has issued a warrant for an inquest this evening.

MERRYMAKERS SADDENED.

At One a Boy Was Drowned—At the Other a Girl Dies Suddenly.

There was no singing or laughter on board the steamer Greyhound as she glided into the dock from Oakville last night although her decks were crowded with brightly dressed children. The picnickers were the Sunday school children of College Street Presbyterian Church, and, as they disembarked, they opened their ranks to give passage to a bier, bearing one of their number. Dora McWilliams, a pretty, fair faced girl of 19, who lived with her parents at 4 Avendale place, had been suffering with bronchitis and heart weakness, and Dr Philips, the family physician, advised the day's outing at Oakville. In the party were her father and mother and two sisters. Dora ate a hearty dinner and tea, and spent a most restful day. Shortly after the boat started homeward, at 7.30, she asked her mother for more air and begged her to stay with her. The words were scarcely out of her mouth before she fainted, and she never regained consciousness, passing away in a few minutes.

Drowned at the Island.

Another drowning fatality occurred last evening. It was at Island Park, and Arthur Gough, the 15-year-old son of Mr. Alfred Gough of 101 Cottingham street, was the victim. The boy, with four other children of the family, had accompanied the school picnic of Christ Church, Deer Park, to this resort yesterday, and after tea, with another boy named Henry Sefton, had gone in to bathe. After a very short while in the water, Gough suddenly sank, and Sefton, his companion, pluckily endeavored to assist him when he rose to the surface. The boy's efforts proved fruitless, however, and Gough sank to the bottom. Several attempts to recover the body were made, and it was nearly half an hour before it was taken from the water. Dr. Charlton of Weston, with others, worked for a long time to resuscitate the boy, but failed. Rev. Mr. Paterson spoke highly of the dead boy, who had been a member of the church choir.

WILL SAFEGUARD GAS

Produced Naturally in the Dominion of Canada,

BUT ESPECIALLY IN ESSEX CO.

Exportation of Natural Gas Will Not Be Prohibited, But Will Be Limited—Two New Superior Court Judges Appointed—The Successor of A. M. Burgess—Capital Notes.

Ottawa, July 8.—The question of the exportation of natural gas, which is of such vital interest to the people of Essex County, and which is also a question of international importance, has been engaging the attention of the Government for some months, and now a decision has been reached which, it is expected, will be acceptable to those who have advocated absolute prohibition without unnecessarily prejudicing the interests of those who have made large investments of money with the object of developing the gas belt of Western Ontario. The Government were called upon to consider the representations of those who take the view that not a foot of gas should be sent out of this country, and the rights of those who have direct and substantial interests at stake in the matter. They have come to the conclusion, after hearing and thoroughly weighing all the arguments that have been presented to them, that the public interest will be best served by adopting a middle course. The exportation of natural gas will not be prohibited, but it will be continued under such binding restrictions that there will be no danger of the exhaustion of the fields, that there will be an adequate local supply of gas, and that reasonable rates shall be insured to the user of gas in Canada.

Two New Judges.

Mr. Phillippe A. Choquette has been appointed a Judge of the Superior Court of the Province of Quebec for the District of Arthabaska, in place of Judge Lemieux, who has been transferred to Sherbrooke. This makes a fifth vacancy in the House of Commons, Judge Choquette having represented the County of Montmagny since 1887. The new Judge was born at Heloeil, Vercheres County, Jan. 6, 1854, and graduated in 1880 at Laval University, from which he holds the degree of LL.B. He had a brilliant university career, being a winner of the Governor-General's medal.

Mr. A. Dorion, barrister of Montreal, of the firm of Geoffrion & Dorion, has been appointed a Judge of the Superior Court of the Province of Quebec for the new district created by the bill of last session.

Anticosti Island Evictions.

Major Gourdeau, Deputy Minister of Marine and Fisheries, received a telegram yesterday from the residents on Fox Bay, Anticosti, protesting against the action of the owner of the island, Mr. Menier, in causing them to be evicted. They say that they have lived where they are for many years, some of them twenty-five years, and are now told to leave in twenty-four hours. Many of them are said to be poor, and they are now asking the protection of the Government. A reply was sent that the matter did not rest with the Department, as it was in no way involved. A copy of the telegram was sent to the Provincial Government of Quebec, to whom the aggrieved parties were referred.

Personal and General.

At the meeting of the Council yesterday it was decided to accept the design of Mr. Philip Herbert of Montreal for the statue of the Queen to be erected on Parliament Hill. The cost will be about $25,000. The model represents her Majesty on the throne. The pedestal is of a richly ornate allegorical character.

Mr. Collingwood Schrieber, who is at present inspecting the Rideau canal, will proceed down the St. Lawrence canals to Montreal before returning.

R. C. Clute, Q.C., Toronto, and L. Burpee of the Department of Justice left for the Crow's Nest Pass investigation yesterday.

It is proposed that the strength of the Princess Louise Dragoon Guards shall be raised from 47 of all ranks to 87.

Premier Laurier left for Arthabaskaville yesterday.

The Caspian Badly Damaged.

Clayton, N.Y., July 8.—The Canadian liner Caspian, Capt. Darreau, owned by the Richelieu & Ontario Navigation Company and run between Clayton and Montreal in the passenger service, ran on to the Twin Islands, opposite Thousand Island Park, in the St. Lawrence River, at 7 o'clock yesterday morning. She is badly damaged, having a big hole in her bottom. The Caspian is an old boat, having been built in 1845. Capt. Darreau, in stating the cause of the accident says that he missed his bearings, and claims that the islands have moved.

The steamer was released last evening by the Calvin Co.'s tug Ghieftain and towed to Kingston.

A Destructive Perth Fire.

Perth, July 8.—A fire in the general store of Shaw & McKerracher on Wednesday night spread rapidly, and the whole stock in the main building was destroyed, although the Fire Department did efficient work and the waterworks gave efficient aid. The fire was confined to the premises where it started, and the back store was unharmed. Loss estimated at $15,000 on stock; insurance $10,500 on the stock and $4,000 on building.

Spiders' Web Silk.

It would appear from all accounts that M. Chacot's enterprise of the manufacture of spiders' web silk is to be pursued on a large scale, a factory in Paris having been taken for the purpose. Here the spiders will be kept and worked at regular hours, and when one of them is used up he will be fed and helped back to condition again, while another will take his place on the bobbin. An expert, fully acquainted with the habits of the insect, will be in control of the spider department of the factory, the care of them, feeding, housing, etc.

In obtaining the requisite supply, if the latter exceeds what is necessary for the industry, experiments will be made with a view to ascertaining which of the different varieties produces the finest quality of silk, and in this way those not favored with a fine web will be weeded out. Trials will likewise be made with different diets in order to determine whether or not it is possible to train the spider to give forth a web that is an improvement on the ordinary product, the expectation being that perseverance in this respect will result in securing a quality of silk hitherto unsurpassed.

DARED NOT GO TO BED.

Smothering Feeling and Palpitation, Together with Rheumatic Pains, Rendered Sleep Impossible.

Miss Mabel Jackson, 78 Huron Street, Toronto, made the following statement: "Milburn's Heart and Nerve Pills cured me of serious heart trouble of three years' standing. My physician said my heart trouble was caused by rheumatism. It was with great difficulty that I could go upstairs, or even walk a short distance, because such exertion set my heart palpitating so violently that it made me positively sick. I could hardly breathe, and suffered greatly from smothering, often so badly that I dared not go to bed, and had to walk the floor all night for fear of suffocating. I became terribly nervous and weak, and was in a bad state, indeed, when I began taking Milburn's Heart and Nerve Pills.

"My rapid recovery was a surprise to myself, as well as to all my friends. For months since I have not had the slightest trouble with my heart; I sleep well, my nerves are strong and healthy and not subject to any startling. I walk as well as ever I did. The good effects of these pills have been a boon to me, not only because they rescued me from a condition of misery, but because their effects have been lasting. I am as well and strong to-day as ever I was in my life, although I have not used any of the pills since they completed their marvellous cure months ago."

Milburn's Heart and Nerve Pills cure palpitation, fluttering, throbbing, dizzy and faint spells, nervousness, sleeplessness, pale and sallow complexion, weakness, debility, female troubles, etc. Sold by all druggists or sent by mail on receipt of price, 50c. a box or 3 boxes for $1.25. The Wilson Brake.

This is the Splendid Brake With Which Red Bird Bicycles are Fitted—Simple in Construction, but Wonderfully Effective.

THE WILSON REAR HUB BRAKE consists of a friction cup, expanding spring, movable sprocket, and a set of twelve hardened steel rollers, bedded half in the hub and half in the spring. This spring is keyed to the sprocket, while the friction drum, or cup, is held in place by a pin fitting loosely in a slot in fork end. The cup is kept perfectly true by being carried on the cone and axle. Back pedalling causes the sprockets to remain stationary and the rollers to move up inclined planes in hub and spring, expanding the spring and bringing it forcibly in contact with the friction cup. This causes the wheel to skid or slide or move slowly, according to the amount of force used in back pedalling. This brake is quick to act, both in checking speed and relieving itself, and it is impossible for it to fail in doing either. It is neat in appearance, and adds practically no weight to the wheel.

Wm. McCabe, Esq., Managing Director, N. A. L.:

DEAR SIR:—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment *Life Investment Policy* for $5,000 which has matured this year, viz.:

1st, to take the value of the Policy in Cash $5,008 00

2nd, or fully paid-up insurance for 8,250 00

3rd, or take the profits in cash 2,050 25

and continue my policy without further payments being required from me, such policy participating in future profits.

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company. I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day, giving first class results on Investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the Investment period.

Leisure Reading.

Most people are most at leisure during the summer months. Some may work as hard as at any other time, but we all find some hours for recreation. We seek spots like the verandah, the hammock, the lawn and the lake shore. No matter how easy we take things we always want our mind occupied. Some of us like the magazines, but the majority of us ache for a good novel. Order at the Peterborough Bookstore. Four novels for 25c, is the lowest that can be had. One of the best series we ever sold is at 10c. each, or five for 50c—same price, one or a hundred. A. H. STRATTON & Co.

A Bird Foe of the Tent Caterpillar.

The Campbellford Herald says: Mr. E. Eloome, the well-known and expert taxidermist, of Peterborough, has mounted for the editor of this paper, a fine specimen of the black-billed cuckoo which was captured two weeks ago, in a clump of woods three miles north of Campbellford. There were two species of this bird in our Canadian woods, the one already mentioned and the yellow billed cuckoo. These birds, we have the authority of Mr. Eloome for saying, are the greatest enemies to that pest, the tent caterpillar, and if they and other species of birds were protected, in a few years the farmer and gardener would have no fear of danger to their trees or plants from the ravages of any grub, fly, worm or insect.

FRANCE COUNSELS INTERVENTION.

The Armistice Extended Till Noon To-morrow.

CERVERA IS SEVERELY CENSURED.

Special 3 p. m. despatches to the Examiner.

France Suggests Intervention of the Powers.

London, July 8—Despatches from the continental capitals still talk of European intervention in the Hispano American war. France is being represented as taking the initiative and Germany and the other powers as declining to interfere.

Anglo-American Entente Cordiale.

London, July 8.—Earl Roseberry said last night speaking on "The English Speaking Brotherhood," warmly advocated an Anglo-American understanding, but said that it was unnecessary to draw a formal bond of alliance.

Cervera Goaded to Desperation.

El Canex and Pt. Antonio and Kingston, Jamaica, July 8—The Spanish volunteers in Santiago are loud in their demand that the city should be surrendered. So persistent in fact that many have been imprisoned. It is stated that Admiral Cervera was practically goaded into making his desperate effort to escape from the harbor. Both he and his sailors were assailed as cowards for not fighting the Yankees.

Camara's Fleet Still at Suez.

Suez, July 8—Admiral Camara's squadron is anchored beyond the 3 mile limit where it awaits the Palyao.

Spanish Transport Captured.

New York, July 8—A Manilla despatch says: The Spanish transport, Manilla, has been captured. She will be a valuable acquisition to Dewey for river work.

Manilla Short of Food.

The food supply of Manilla is growing shorter.

Spanish Feeling Intensely Anti-British.

The feeling of the Spaniards against the British is very bitter. A recent issue of a daily paper, contained an attack on Colonial Secretary Chamberlain for his speech in favour of the Americans.

Cervera Severely Censured.

New York, July 8—Madrid despatch forwarded privately across the Spanish frontier says: Indignation is increasing among all classes of Spaniards against Admiral Cervera and the commanders and crews of the squadron. Very hard things are said of Cervera and his men. The public express clamour for a rigid investigation.

The Queen Regent Wept.

The Queen Regent cried bitterly when she heard the news according to court gossip, but manifested great displeasure when she heard the details of the sea fight off Santiago. The Queen and her advisers agree that the

WAR MUST BE CONTINUED

for some time longer under the conduct of Senor Sagasta. Senor Sagusta told the Queen that he feels uneasy about what will happen when the news of the fall of Manilla and Santiago comes.

Bombarement of Santiago To-morrow

Washington, July 8.—General Shafter and Admiral Sampson have agreed on a plan of campaign at noon to-morrow. Sampson will begin to bombard from the outer harbour.

Spanish Beginning to Realize.

London, July 8.—A special Madrid despatch says: All Spain now knows her defeat and the people are beginning to realize the magnitude of the disaster.

Washington, July 8.—War Department has posted the following despatch:

All Quiet at Santiago.

Camp near Santiago, July 7.—Perfect quiet to day. Spanish General sends for cable operators to wire his government as to surrendering. Men in good spirits. Among large number wounded, there are few amputations about 10 in all. One hundred and fifty cases of fever, not serious. Armistice has been extended until noon on Saturday to allow Linares to communicate with Blanco and Madrid. No shots have been fired on either side recently. Work is being pushed on the batteries and entrenchments. General Linares is evidently weakening, and the Bishop of Santiago and the Consular Corps may persuade him to surrender. In case hostilities are resumed, Sampson will bombard and occupy the forts, countermine the harbour, enter the fleet and bombard the city, supporting the land assault.

COLLECTOR'S ROLL RETURNED.

The Roll for 1897 Completed and Returned—That for the First Half of 1898 Now Ready.

The tax-mill for 1897 ceased to grind today. The collector's roll for 1897 is now a sealed book, Mr. Collector Denne having completed his collections and returned his roll for 1897. That is, it is practically returned and will be formally returned at the meeting of the committee of the whole to-night.

This is five months ahead of the earliest date upon which the roll has ever been closed. The amount inscribed for collection was $75 837, and the amount actually collected is $74,120 02, leaving $1,716.98 uncollected, although from this is to be deducted, the amount of taxes remitted, uncollectable and returned against lands $1582 23, distributed as follows: No. 1 Ward, $384,49; No. 2 Ward, $642 89; No. 3 Ward, 313.27; No. 4 Ward, 241.58. The payment of taxes, like the poor, we have always with us. No sooner is the old roll wound up and out of the way than the roll for 1898 stares us in the pocket. This year the taxes are collected in instalments the first of which falls due August 1st. The book and papers are now ready, and judging by the prompt work and clean sweep made by Mr. Denne with last year's roll it is not probable that the taxpayers will have occasion to feel slighted at not receiving a formal intimation of their indebtedness to the civic coffers.

OBITUARY.

The Late William George Allen.

To day William George Allen, son of the late Samuel Allen, died at the family residence, Crescent street, at the age of 25 years. Deceased has been ill for some time from consumption, and his death was not unexpected. He was a member of Court Peterborough, Canadian Order of Foresters, and generally held in high respect. He was for some time operator in the C. P. R. up-town telegraph office. Funeral on Sunday afternoon at 4 o'clock.

FETE CHAMPETRE AT LAKEFIELD.

A Delightful Field Festival on Mr. F. J. Tate's Fine Grounds.

The beautiful grounds and residence of Mr. F. J. Tate, Lakefield, were the scene of unusual gaiety last night. The announced fete champetre was a brilliant affair. The beautiful and extensive grounds were a scene of unusual animation from four o'clock till well on into the moonlit night. A considerable number from Peterborough drove out and were well repaid for their journey not only at "Harbourne," but by their return journey in the delicious moonlight of the cool night.

Altogether several hundred persons were present on the grounds of "Harbourne," which is delightfully placed on the shores of Lake Katchewanoonks, and lends itself with particular effectiveness of accommodation to the needs of such an occasion. The homestead is suggestive of "the stately homes of England," the grounds being extensive and finely kept.

At one point on the lawn, near the villa, a large marquee was set up, where refreshments of all kinds were liberally dispensed. A little distant was another tent devoted to the sale of fancy articles. Refreshments were also served almost everywhere on tete a tete tables throughout the grounds and on the verandah. An excellent programme of vocal and instrumental music was presented; besides Master Holden Blackwell, son of Mr. W. Blackwell, C.E., town, delighted the company with his clever recitations. The chief feature, however, of the entertainment part of the evening was the production, in capital style, of the play, "Sweethearts." Greater effectiveness was given the presentation by the presence of Mr. Brown and Mr. Taylor, of New York, members of the company of Julia Arthur, the celebrated Canadian dramatic artist, with whom were associated in the cast the Misses Lefevre. The cast was:

Miss Northcote.....Miss Daisy Lefevre
The Maid.....Miss Louise Lefevre
Mr Spreadbrow.....Mr Brown
Walter, the Gardener.....Mr Taylor

The play gave great pleasure, which was much heightened by the excellence of the music presented incidental to the play. Miss Scrimger also sang with satisfaction during the evening.

The large coach house was converted for the occasion into a theatre, with an excellent stage and the interior very prettily decorated. The grounds of Harbourne were also effectively lighted with Chinese lanterns.

Mrs. Tate looked assiduously but unobtrusively after the comfort and entertainment of her guests, who at about ten retired, carrying with them the most pleasant recollections of the graceful hospitality and the enjoyment the evening had afforded.

SATURDAY NIGHT TRIPS.

The Steamer Majestic will make a trip Saturday night, leaving Lakefield on arrival of the Evening Train, returning Monday morning. 2d

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

SPORTS THROWN DOWN.

A short time ago an oily stranger came to town, got into the circle with several sports and played havoc with their pin-money and last night a Doyley stranger dropped a party of our sports for a cool thousand on account of the jack pot, besides the gate receipts of several little side-shows or bets.

As a sequel to the Lindsay wrestling contest in Lindsay, in which Doyle was declared a winner, another match was made and the Peterborough sports put up the 1000 ducats for Doyle against Collins. The matched was pulled off in Toronto last night and about a dozen of our sports went up buoyant with hope. They came back buoyant also, that is their pockets were a great deal lighter. The tin had gone from their pockets to their herrts, which were very heavy.

In the bout, the first round was the collar and elbow, and after fifteen minutes mat work Doyle scored a fall; his stock went up several points and the Peterborough sports couldn't put up their shekels fast enough. The next heat was catch-as-catch-can, and the Peterborough boys caught it in the vicinity of their anatomy, where the chicken's body accommodates the axe. After 42 minutes' fierce fiddling, Collins won the throw, and honours were even. But the crusher came when Doyle pleaded illness. He may have been sick, but not half as sick as his backers when his continued illness lost him the match. The Peterborough sports think Doyle is a great one. He went to Toronto to throw one man, but with a good deal less trouble he downed a dozen Peterborough men. Doyle fared sumptuously while he was in town, and it is reported there is an absence of his trunk to bridge the gaping interval between the refreshments he absorbed and the financial equivalent therefor.

LACROSSE.

Full turn out of seniors and juniors requested to night, practice will be held on Monday, Tuesday and Wednesday of next week.

A short while ago the Midland Lacrosse Club wished to strengthen their team, both financially and on the field, and set out with a subscription list, the result of which was they have now subscribed over $300, something like $225 having been paid up. The residential clause of the C.L.A. constitution having been struck out, a number of fast players are now to be found with both Midland and Beaverton.

The schedule date of the game with Midland was the 12th, but owing to a large excursion from Midland on the 15th, it was mutually agreed to change the date.

CRICKET.

The following is the eleven in the cricket match on the Nicholls Park oval between single and married men tomorrow:—Single men—Dr. Young, Dr. B. Boucher, jr., Dr. Pigeon, jr., J. H. Burnham, Hal Burnham, E. M. Poussette, A. A. Hollingshead, J. Cumberland (pro), A. Stethem, A. Hammond and Guy Rogers.

THE WHEEL.

The use of the bicycle for ladies is condemned by Paris physicians, and the Medical Record states that many of them go so far as to interdict it entirely. The danger is described as medical and pathological. The list of the dangers said to be consequent on the use of the machine by young women is startling, and bristles with "rhagia" and "itis" with various prefixes. Heart, kidneys and spine are also said to be affected, and there are worse results in a physical sense which cannot be described in an ordinary journal. If these Parisian doctors—and others have said the same thing—are correct, and the use of the wheel is productive of such serious results, if not immediately, in the course of time, the duty we owe to those yet to come should cause the situation to be clearly placed before our young women by those competent to speak on the subject.

The C.W.A. trophy for the team race won by the Torontos at Peterborough will undoubtedly be withheld from them, and in that event the cup will be held over for another year. The racing board are of the opinion that it would be unfair to the teams defeated in the trial heats by Toronto to have the trophy awarded to Hamilton, who reached the final along with the Torontos. All the trouble was caused over Moore's riding for the Torontos. It will be remembered that Moore was only reinstated in the amateur ranks on Good Friday last and therefore he could not be a member of the Torontos for three months as required. Besides this, Moore's name was sent up for membership in the C.W.A. by another Toronto club, and it would seem on the face of it that Moore was lent to the Torontos for the race.

Teddy Goodman, the unpaced king of bicyclists, was defeated yesterday in two one-mile heats by Snapper Garrison, the jockey, in a race between bicycle and horse at Berkeley oval, New York. The race was won in hollow style.

At Buffalo, June 30th, "Teddy" Edwards finished six months of continuous daily century riding on the "same chainless Columbia." During this entire period Edwards has enjoyed perfect health and has shown no signs of fatigue save on a few special occasions following the hardest kind of road work under adverse weather conditions. He says that he now feels better in every way than he did when he started January 1st and his general appearance seems to fully corroborate the statement. Unless Edwards is abnormally constituted, the result of his experiment thus far would seem to totally upset various theories emitted by physicians and physical culturists.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Ashburnham approves or condemns the construction of a system of water works on July 20th.

—To-night the Committee of the Whole Council and the Fire, Water and Light Committee will meet.

—St. Paul's Sunday school will be held during the months of July and August at 9.45 a.m., instead of 3 p. m.

—Steam roller agents are "on to" the town. A Hamilton agent is here now and a Toronto agent is on the way.

—The steamer City of Peterborough took a large number down the river this morning—the Murray street Baptist Sunday school excursion.

—Lindsay lawyers have entered into a conspiracy to close their offices at 3 o'clock during the months of July and August, and at one o'clock on Thursdays.

—Twenty years ago yesterday Belleville celebrated its incorporation as a city. There was about as much Belleville then as now—real estate was more valuable and taxes lighter.

—The Kingston Y.M.C.A. is rejoicing over the fact of subscription having been made to cover the $12,000 debt on the building. From experience it would be safer to rejoice when the subscriptions are paid.

—The town clerk reports brisk demands from several quarters for the debentures to be issued by the authority of the bylaw approved by the people on June 29th. The clerk of Ashburnham says that the village debentures are also in demand.

—Chairman William White has secured a gang of men willing to risk their life in cleaning out the accumulated festering filth in the old police cells under the town treasurer's and town collector's offices, town buildings. This is a good job not done a minute too soon.

—The Brown monument drinking fountain is a great boon to the public. The thirsty wayfarer can quench his thirst there—in his mind. Why is it that this much needed fountain, in name, is not made a fountain, indeed, by connecting it with the water mains ten feet distant. It costs as much idle as it does furnishing water.

—Mr. James English, with a gang of men, is giving the drooping trees in Central Park a much needed thorough watering. In some cases this is too late as several trees are dead from lack of water. If its a crime to destroy a growing tree it is a sin to permit a growing tree to die from lack of water.

—A bulletin has been issued by the Government showing the condition of the crops throughout the Dominion, and "from Halifax to Nootka Sound" the same pleasing monotony characterized the reports. The prospects for an immense yield in all crops—without exception—are said to have never been brighter.

—That the Ottawa Good Templars are not neglecting the ornamental features of their work, as demonstrated at the Grand Lodge meeting here, is shown by the fact that at "No Surrender" Lodge, Ottawa, a special team exemplified the marshall's drill. Local interest will be excited by the mention of Messrs. R. J. Birdwhistle, F. K. Pearce and F. J. Roger, taking a prominent part. They were delegates to the Grand Lodge at its recent meeting here.

PERSONAL.

Hon. Clifton Sifton, Minister of the Interior, is taking his holidays at Rat Portage.

Miss Weddell will spend her holidays at Baltimore, near Cobourg. She left for that place to day.

Mrs. John and Miss McClelland went out to Stony Lake this morning for a few days stay.

Mr. "Jack" Patterson, of A Battery, Kingston, is in town visiting his parents, Crescent street.

Miss Dot Hackett has returned for her vacation from Ville Marie Academy, Montreal, P. Q.

Mr. P. Galvin, of the Ottawa College, is visiting his friends in Ennismore for the holiday season.

Miss Helen Stone, daughter of Mr. E. B. Stone, went down to Madoc this morning for a visit to relatives.

Mr. Alf. Terrill, of the EXAMINER, went on his holidays this morning—to the "Sandbanks" and Belleville.

The many friends of Mr. Joseph Redmond will regret to learn that he is seriously ill at his home on Stewart street.

Mr. Laurie, father-in-law of Mr. J. H. Carnegie, M. P. P., West Victoria, was accidentally killed yesterday by a trolley car.

Miss Annie Crough, teacher in St. Patrick's School, Ottawa, is visiting her parents and friends in Ennismore during her vacation.

Mrs. H. LeBrun has returned from Watertown, N. Y., accompanied by her sister, Miss Stella Lemay, and intend spending the summer at Stony Lake.

Mr. Bernard Matachke, foreman of the New York Fire Department, an old Peterborough boy, is in town visiting with his father, Mr. Matachke, Dublin street.

Mrs. H. C. Winch, of Montreal and daughter, arrived this morning and is a guest of her father-in-law, Mr. R. J. Winch. She will spend the summer at her cottage, Stony Lake.

Rev. Joseph Kilgour, Peterborough, says the Port Hope Guide, was the guest of Mr. F. W. Wilson over night on his return from the funeral of the late Rev. D. C. McDowell at Bowmanville.

Mrs. J. R. Stratton and her sister, Mrs. Gooding, of Winnipeg, and family, left this morning for a month's stay at the Sand Banks, Prince Edward County's picturesque summer resort.

Mr. and Mrs. David Porter, and Mrs. Porter's sister, Miss Mary Forsythe, left this morning by the 8.10 Grand Junction train to embark on the steamer "Scotsman," for a visit of six or eight weeks' to Scotland.

Miss Minnie Begley, the Lindsay Post says, returned home last night from Peterborough where she has been visiting friends. She was accompanied by her cousin, Minnie Begley, of Ashburnham, and Miss Georgie B. Harding, Cambridgeport, Mass.

Severe Bronchitis Yields Promptly to Dr. Chase's Syrup of Linseed and Turpentine

I used your Dr. Chase's Syrup of Linseed and Turpentine for a severe attack of Bronchitis. I got better from the time of taking the first dose. Having a family of small children, my doctor's bills have annually come to a considerable sum. I believe a bottle of Dr. Chase's Syrup occasionally will aid me in reducing them very materially.

YOU CAN IF YOU WISH.

RESTORE THE SNAP,
VIM, ENERGY AND STRENGTH
YOU HAVE LOST.

Dr. Ward's Blood and Nerve Pills have been a great boon to my daughter Maggie. Prior to taking them she had been suffering from excessive nervousness for a long time, and her nerves were in a terribly shattered condition. The action of her heart was so weak that it did not have strength to perform its functions, causing violent palpitation and smothering after retiring. Frequently, on account of this suffocating sensation she was afraid to go to bed. Slight exertion exhausted her and caused shortness of breath. Her blood was impoverished and lost vitality, and she had no appetite. She was wasting away and was very hypochondriacal, feeling dejected all the time. Last December she began taking Dr. Ward's Blood and Nerve Pills, and she improved at once. Her blood became healthy and strong, and in six weeks her impaired nervous system was restored to its normal healthy condition. Her heart responded to the healthy condition of her blood and nerves and resumed its strong and healthy functions. She now sleeps without any of the dangerous, distressing, smothering and choking spells; her appetite is good, and she has gained in flesh. Healthy color has replaced pallor, and she is now well and strong, thanks to Dr. Ward's Blood and Nerve Pills. I thank you, gentlemen, for the remedy that has restored my daughter to health. A. GUNN, Baggagemaster, Grand Trunk Railway, Oshawa, Ont. Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 5 boxes for $2.00, at druggists, or mailed on receipt of price by THE DR. WARD CO., 71 Victoria St., Toronto. Book of Information free.

THE OLD CLERK.

A Pathetic Picture Too Frequently Presented In the Business World.

He is a familiar figure in almost every business house—the old clerk. White haired, thin, with clothes that are always of decent black and scrupulously brushed, he has sat behind the same desk or stood behind the same counter for dear knows how many years, growing thinner and older and mustier as the time went by. Sometimes we meet him in the early morning going down to office or store, walking the same route he has trod for 20 or 30 years with a regularity so perfect that the very policeman on the beat might set his watch by his movements. Often, late at night, when we are going home from the theater we see him through the iron grated window, still bending over his ledger, for he works slowly nowadays and must work overtime to make up his accounts. His eyes are growing dim and he fumbles with his glasses, his hands are losing their trick of deft penmanship, and his brain its swiftness. He does not understand it, but the fly boys all about him, young enough to be his sons, rush through their tasks and are out and gone while he is still laboring over his. Slowly but surely it is being borne in on him that he cannot compete with them.

In the manager's office he is already becoming a problem. Customers have begun to complain of his slowness. A man, not intentionally cruel, called out that he wanted somebody who was alive to wait on him; not that old fossil. A woman complained that he had not matched a sample and asked why they kept blind people. The old clerk heard them, and it sounded like the knell of his own foreboding tho s. He knows that the time is coming hen he must go. He has seen it happen before with others. First he will be retired to some other department, with less work and less pay. They will remember for a time the many years of faithful service in which he has seen the firm grow from small beginnings to present wealth.

Then after a time they will forget even that, and one day when he has been slower than usual or some mistake has passed unnoticed by his dim eyes they will send for him to come to the president's room, and he will be told that they think it best to put a boy in that department—somebody who is young and quick and can get about swiftly. Sometimes they give him a little pension, oftener not, but in either case he goes out a poor, heart broken old man. They talk to him of enjoying leisure, but he has never learned the art of idling, and so he hangs about the store after he is dismissed, walking by it through sheer force of habit. To others it is a commonplace enough store or office. To him it is the mausoleum where lies buried his youth, with all its dreams and hopes and ambitions, and there is a tear under the smile on his wintry old face as he says that he has left Blank & Blank's and has got too old to work.—New Orleans Picayune.

The workman often eats his lunch on the same bench where he does his work. The office man turns his desk into a dinner table. Neither gets the out of door exercise he needs, neither takes the proper time for eating. It is small wonder that the digestion of both get out of order. In such cases Dr. Pierce's Pleasant Pellets come to their assistance by aiding nature in taking care of the food.

The cause of nine-tenths of the sickness of the world is constipation. From this one cause come indigestion, disorders of the stomach, liver and kidneys; biliousness, headaches, flatulence, heartburn, impurity of the blood and the serious complications that follow. To begin with, constipation is a little thing and a little thing will cure it. The "Pleasant Pellets" are tiny, sugar-coated granules. They will perfectly cure the worst case of constipation and indigestion. If the druggist tries to sell you some other pill that pays him greater profit just think of what will best pay you.

FATE OF THE SHIP'S PET.

A Fourth of July Celebration Which Ended In Disaster.

"That billygoat the boys had for a mascot on the New York," remarked the paymaster's clerk, "suggests a monkey that my father used to tell me about that they had on a frigate in the times before the war. This monkey the sailors had picked up somewhere in the Indian ocean countries.

"The ship was stationed in the China ports for a year, and during that time the monkey was the light and joy of the whole crew. When the Fourth of July came around, permission was asked from the harbor authorities of the port where they were to fire a salute, and preparations were made for doing it in style. The regular salute was fired, and then it was proposed that the crew sing 'The Star Spangled Banner' and fire a gun for chorus. The gun was loaded and everything was left ready while the crew went to the main deck, where something to drink the health of the nation was to be served before the song was sung, and the gunner was to be sent back to shoot off the chorus.

"The programme was carried out to the letter. Then the men scattered, and somebody thought of the monkey. But he was not to be found. The cook hadn't seen him, nor had the cook's boy, nor would he respond to any of the calls that usually brought him flying. What had become of him no one knew until 6 o'clock, when a boat's crew went ashore to a big spring for water. The ship lay off from this spring about a quarter of a mile, and over it was a big shade tree. When the men came to the spring, they noticed in the branches of the tree something that had a familiar look to it, and knocking it out with sticks and stones they found the pink nose of their poor little pet attached to a few shreds and patches of monkey skin.

"That told the story of the disappearance of Mug, the monkey. He had in a spirit of sport chased himself into the mouth of that saluting cannon and when they fired it Mug went ashore."—Washington Star.

LINCOLN ESCAPED.

A Vain Attempt to Inoculate Him With Smallpox In 1861.

During the exciting period of 1861 great fears were entertained for the safety of the president, and every precaution was taken to insure his personal protection.

One morning there appeared at the White House a woman, closely veiled, demanding an immediate interview with Mr. Lincoln. Approaching Messenger Perkins, who guarded the door of Mr. Lincoln's private office, the visitor make known her request and pleaded earnestly that she be admitted to a personal interview. The doorkeeper's orders were, however, very strict, and finding her eloquence all in vain she finally compromised by confiding her message to the courteous but firm employee. Taking him to one side, the veiled lady seized both his hands in hers and tenderly rubbed them as she extracted a promise that he would immediately deliver her request to the president. Perkins was almost overcome by a most peculiar odor that appeared to emanate from his companion and hastened to get rid of her without creating a scene.

No sooner had he accomplished this than he confided to one of the official household the effect produced upon him while in conversation with the importunate visitor. A physician who was present promptly divined the truth and instituted a search for the woman, when it was learned that she had driven rapidly away in a carriage, and all trace was lost. Perkins was immediately ordered to return to his home and await developments.

Within the usual period he was taken ill with one of the worst cases of virulent smallpox on record, and for weeks lay at the point of death. Upon his recovery the faithful messenger, whose devotion to duty doubtless saved the life of the president, was appointed by Mr. Lincoln to a permanent position on the clerical force of the war department.—Washington Post.

One of the Mean Ones.

A worthy old Gentleman in the Country, having employ'd an Attorney, of whom he had a pretty good Opinion, to do some Law Business for him in London, he was greatly surprised on his coming to Town, and demanding his Bill of Law Charges, to find that it amounted to at least three Times the Sum he expected; the honest Attorney assured him that there was no Article in his Bill but what was fair and reasonable: Nay, said the Country Gentleman, here is one of them I am sure cannot be so, for you have set down three Shillings and four Pence for going to Southwark, when none of my Business lay that Way; pray what is the Meaning of that Sir; Oh! Sir, said he, that was for fetching the Chine and Turkey from the Carriers, that you sent me for a Present, out of the Country.—"Joe Miller's Jest Book," 1739.

PRECURSOR OF HOLLAND.

Civil War Martyrs to the Cause of Submarine Fighting Vessels.

In 1863 Lieutenant Payne, a young, brave and gifted sailor of the Confederate navy, had constructed a submarine torpedo boat.

On Oct. 19 of that year, in Mobile bay, the vessel was sent on an errand of destruction against the Yankee fleet. She dived, but did not come to the surface, and her crew of eight men were suffocated. The inventor had been restrained from taking part in the trial. He had faith in his invention, and on Jan. 11, 1864, insisted in directing the vessel on a similar mission in the harbor of Charleston. Again there was a failure, but Lieutenant Payne and two sailors narrowly escaped the death which overtook their companions by breaking through the top of a glass compartment.

Subsequent improvements caused the vessel to be capable of diving and rising at the will of the operator, and repeated trials in Stone river caused the enthusiasm of the Confederates to know no bounds. She went for a mile under water, discharged blank torpedoes and returned breathing easily. On Jan. 29 of the same year, however, she stuck her nose in the sand, and this time Lieutenant Payne staid to sleep the long sleep with the men who went down with him.

Again the boat was raised. Other brave men manned her, and on Feb. 17, 1864, in Charleston harbor she was sent to attack the Federal warship Housatonic. She accomplished her mission by sinking the big enemy. But the victor did not reappear.

Two years after the war, when the wreckage was being removed from Charleston harbor, the Housatonic was raised. In the side of the great vessel was a jagged hole made by the submarine fighter, and wedged in the hole was Lieutenant Payne's torpedo boat, with the bodies of all the men who went with her to death at their posts, prisoners of the enemy whom they had destroyed.—New York Press.

The Latter Day Funeral.

There is a change in the conduct of funeral processions. There was a day, and not so very long ago, when a funeral procession, the hearse or funeral car and its string of attending carriages always moved decorously along, the horses at a walk. Then, when the funeral train was long, people with a grain of superstition in their composition always had to wait for many minutes before they could cross the streets. But now the funeral procession of New York moves at a half gallop at least, if not almost a full gallop. The horses trot along briskly, almost a great part of the time as if they were pleasure bound. It takes no time at all for the longest train of death to pass by. It is seldom that one sees nowadays a funeral that moves along slowly, and when one does travel through the streets at an old fashioned pace it nearly always attracts comment.—New York Herald.

Progress.

The martyr cannot be dishonored. Every lash inflicted is a tongue of flame. Every prison a more illustrious abode. Every burned book or house enlightens the world. Every suppressed or expunged word reverberates through the earth from side to side. It is the whipper who is whipped, the tyrant who is undone.—Emerson.

Women nowadays do not have to use a stream of water for a looking-glass. They have modern mirrors that will tell them very promptly whether their beauty is fading. A woman's beauty fades very rapidly if she is troubled with some derangement of the distinctly feminine organism. Ignorance or carelessness in this respect frequently causes great suffering and irregularity in after life. Little irregularities and weaknesses in girlhood should be looked upon promptly and properly treated at once.

Mothers cannot be too conscientious in this respect, and cannot throw aside the prudery that is so prevalent upon this point too soon. Every young woman should know something about her own physical make-up, and the importance to her future of her local as well as general health. A woman who suffers from weaknesses peculiar to her sex will rapidly lose her beauty, her general health, her amiability and her usefulness and capability as a wife and housekeeper. Dr. Pierce's Favorite Prescription promotes regularity of all feminine functions, gives sturdy health to the distinctly feminine organism and prepares it to meet the trials of wifehood and motherhood. The "Favorite Prescription" is not a cure-all. It is intended for but one class of disorders and is good for no other. Taken during the period of gestation, it makes parturition easy, and banishes the discomforts of the expectant months. All good medicine dealers sell it.

"I wish to express my thanks for the good I have received from Dr. Pierce's Favorite Prescription," writes Mrs. E. Scovill, of Bolton, Stephenson Co., Ills. "I have used it at different times for the last eight years. It is the best medicine for expectant mothers. I never tried it for that until my last baby. I had been very bad, almost helpless. I could not get out of bed alone, or even turn over. Last December I commenced taking the 'Favorite Prescription,' and could soon get in and out of bed as well as at any time. On March 29th I gave birth to an eleven pound boy *without pain*, and have since been as well and healthy as I ever was."

TRICKS OF THIEVING.

HOW SHOPLIFTERS PILFER IN NEW YORK'S BIG STORES.

Women Who Use Clever Children Trained to the Business as Aids In Their Nefarious Calling—The Close Watch of the Store Detective.

Schools for shoplifters are not advertised, but they thrive. Female Fagins are no longer regarded as phenomenal criminals—they are considered well established enemies to the police. Vigilance versus shoplifters, though, is a contest in which the store thieves are invariably brought to grief.

As a woman leading a little girl passed from counter to counter in a Sixth avenue store one day last week another woman closely followed and never took her eyes off her. The woman with the little girl walked and talked rapidly. They asked for nothing; their eyes sought much. Their stops at various counters seldom lasted more than a second. When they had reached the jewelry department, their pace slackened. As they passed a counter where a sale of gold mounted combs was in progress the woman's arm flew out from beneath a black cape and back again. With the arm on its return trip had gone one of the most handsome and expensive combs.

On the woman and the little girl passed until they came opposite a tray of earrings. The clerk was about to return the tray to its case.

"What pretty stones, mamma!" exclaimed the child.

"Yes, my dear," responded the woman, "but we won't look at them today."

"Oh, yes. Let's stop. You know you promised to buy me some earrings for my birthday."

"I know, but your birthday is still far away."

"Why, mamma, you know that it is next Tuesday."

"My goodness! The child tells the truth. How time does fly! Well, we'll look at them, but I'll not promise you to buy them today."

Then begins the examination of children's earrings. Mother and daughter look at them critically—they admire most of them. This goes on for several minutes, the mother protesting to the child that the purchase should not be made today. Diamond earrings of all sizes are in the tray.

A customer steps up to make an inquiry. The clerk turns her eyes for an instant toward her questioner. One of the largest of the diamond earrings gives a flash and is gone. The little girl comes between her mother and the counter. When the customer is gone, the little girl has two small earrings in her hand and says:

"Won't you get mamma to buy me this pair?"

While the clerk smiles and the mother is saying they will call again in a day or two the large diamond earring is being fastened inside the cape. The mother thanks the clerk, then they hurry from the store.

They are scarcely out on the sidewalk before a command is whispered in the woman's ear:

"Return that stolen property."

The girl takes to her heels. A man follows and catches her.

The woman calls it an outrage. She protests; says she'll make them pay for the insult. She grows hysterical. They lead the two back to a side door. They take them into the searcher's room. Then the woman detective carefully examines all their clothing. The child cries. The woman becomes silent. She sees it's all up. What's the use of going to the trouble of making another scene? The child is 12 years old and has been but a week under instruction. Being arrested is new to her.

A society takes the child. Her teacher in crime, the woman who posed as her mother, is held for trial.

This is but a sample case. In the same store last week there were 15 arrests for shoplifting. Those of the prisoners who had never been in such scrapes before were released. This particular store tries to avoid the courts as much as possible.

One woman who was arrested wore a shoplifter's skirt. This skirt consists chiefly of pockets. There are pockets of all widths and depths. This skirt is usually worn as an underskirt. An opening is provided in the overskirt, through which the pocket filled skirt is easily accessible.

In the concealed pockets of the woman mentioned were found two pieces of embroidery, several rolls of silk braid, six remnants of silk, several pieces of jewelry and a pair of shoes. Two of the store detectives, a man and a woman, had watched the purloining of all these articles.

It is the rule of most stores that no shoplifters are to be arrested until they reach the street. Scenes caused by arrests are very undesirable in a place of business. Besides this, those placed under arrest in stores often make the defense that they did not intend to take the goods away—they simply desired to examine them in a good light.

One shoplifter, arrested last week, and one on whom the stolen goods were found, had six children at home. The youngest was 6 months old. The woman's husband has a good business. He furnished bail for her. When the proprietors of the store learned that the woman had a 6-months-old child at home they withdrew the complaint against her. The woman's husband said he could not understand why she should wish to steal.

Store detectives deny that there is any such thing as kleptomania.

"Kleptomania is a mistaken notion that some women have that stores are easily victimized," is the definition that the detectives give.—New York Telegram.

A bar of lead cooled to about 300 degrees below zero, according to an experiment of M. Pictet, gives out when struck a pure musical tone.

A PRESSMAN'S STORY.

Mr. Parnham Tells how Dodd's Kidney Pills Cured His Lumbago.

Toronto, June 27.—The story of the escape of the Globe pressman, Mr. John H. Parnham, from the agonies of Lumbago, by using Dodd's Kidney Pills, is unusually interesting.

Mr. Parnham writes to the Dodd's Medicine Co., Limited, thus:—"I am proud to testify to the wonderful efficacy of Dodd's Kidney Pills. About eight months ago I was attacked by severe pains in my back. I consulted an eminent physician, who said I had Lumbago and told me to take Turkish baths. These did me no good.

"A friend advised me to try Dodd's Kidney Pills. I did so, and one box cured me. My back has never troubled me since."

Remenyi and Pumpernickel.

"My first meeting with Remenyi," says H. J. Cleveland, "was over a livery stable in Council Bluffs. A concert hall was there and he was to play. A jackass in a stall beneath persistently brayed. Remenyi would not play. I was on my way to Japan, or thought I was, and introduced myself to him after his audience had been dismissed. He begged of me to find some pumpernickel for him. I searched Pearl street resorts until I found some and took it to his room. He ate with satisfaction and then played for me, played until, boy as I was, I cried. That was at 2 o'clock in the morning, and in a large hotel filled with people. We had the halls filled with people in their nightrobes before that private concert ended. His love for pumpernickel was no more strange than that of Januschek for stale beer, and I have got many a pint of that for her after a most thrilling depiction of Mary, queen of Scots."—Chicago Times-Herald.

Sensible.

A Pleasant Anniversary.

Mr. Frankstown—Spiffin's birthday comes next week. Let's give a smoker in his honor.

TWIN TORTURERS!

Lumbago and Rheumatism made Harmless by Dodd's Kidney Pills.

Lumbago and Rheumatism cause endless pain and suffering. Every man and woman who runs chances of getting wet, or catching cold, is liable to suffer from one or both. Our hospitals are full of sufferers from these diseases; none are more painful. Every nerve is on fire; every joint is a centre of agony; every muscle an area of torture. To move hand or foot makes the victim shriek with agony.

Rheumatism makes more cripples than all the railroad accidents that ever happened. Twisted, mis-shapen caricatures of humanity, who cannot walk without misery, are to be seen every day. The kidneys are to blame. If they are healthy you needn't fear Rheumatism or Lumbago. Dodd's Kidney Pills keep the kidneys healthy and cure Rheumatism and Lumbago.

Dodd's Kidney Pills ALWAYS CURE.

TWO WAYS OF LOOKING.

If All Saw Things Alike, This Would Be an Uninteresting World.

"It is a pity that more of us cannot cultivate the twofold way of looking at things," writes Edward W. Bok in The Ladies' Home Journal. "There would be less friction in life if we did, and sweeter sympathy, kinder understanding and broader and fuller living. The fact is that we never reach the dignity of true living unless we do learn this all important lesson. And that it may be cultivated admits of no doubt. It is simply a question of schooling ourselves not to condemn generally what individually does not happen to be to our taste. If, for example, we prefer brown as a color, there is no reason on earth why we should condemn the taste of any one who preferred to wear green. What the vast majority of us need is to be a little more self poised, more judicial, more willing to see good in the tastes of others, although they do not please our own particular fancies. If we all thought alike, read the same books, saw the same plays, wore the same colors, this would be an exceedingly uninteresting world.

"We cannot see all things in the same way, but we can come near to justice and true respect by taking a twofold view of things while still retaining our strong individual views. Seeing a possible good or use for everything does not necessarily mean a weak individuality. The most uncomfortable people in the world are those who assert their judgments in a hard, decisive and final manner, as if they were courts of last resort. On the other hand, the brightest and best minds are those that have most respect for the opinions of others."

And 'neath their baneful power
My hopes have withered like the dews
Upon a blooming flower.
No more I roam the realms of bliss,
From pangs of anguish free.
Thy love must ne'er, ne'er be mine.
Think not again of me.

When in the halls of revelry,
Of music and of mirth,
Oh, I would have thee to forget
That e'er we meet on earth!
I would not wreck thy bark of life
Upon an unknown sea.
Go share thy love with some fond heart
And waste it not on me.

The shell that is by ocean cast
Upon the sandy shore
Still in its secret, deep recess
Keeps echoing its roar.
So in my heart, which fate has thrown
Upon love's hidden reef,
Still echoes my lost loved one's tones
Amid my tears of grief.

LINDSAY A PORT OF ENTRY.

Vessels Plying on the Inland Waters Will now Register at the Port of Lindsay.

Thanks to our energetic member at Ottawa, Mr. George McHugh, the request of our town council that Lindsay should be made a port of entry for the many vessels plying on these waters, has been carried into effect. The last issue of the Canada Gazette, published on July 2nd, contains the order of his Excellency the Governor-General in Council to that effect.

It has always appeared humiliating and unseemly that owners of steamers constructed with local capital for the purposes of our large forest produce trade, and for the carriage of thousands of pleasure-seekers and tourists up and down our incomparable chain of lakes, should be compelled to placard their crafts as having been registered at the little town of Port Hope, with which we have no business dealings (beyond depriving it of a few railway employees), nor any water communication. Now, as a result of Mr. McHugh's good work, all steamers will advertise our good town of Lindsay at every village and landing place along the lakes, and owners will be saved expense as well.

The order-in-council stipulates that from the time being Mr. Wm. Lownsbrough, local collector of customs, shall act as Registrar of Shipping at the port of Lindsay under the authority contained in Chap. 72, Revised Statutes of Canada, and 4th section of the Imperial Merchant Shipping Act of 1894.—Post.

FOREST MANAGEMENT.

An Inspection by the Forestry Commission Discloses the Good Effect of a Commendable Practice.

Mr. E. W. Rathbun, Mr. John Bertram, and Mr. J. B. McWilliams, together with Mr. Southworth, acting secretary of the Forestry Commission, this week made an inspection of the timber lands in the townships of Shefield and Hinchinbrook. The object of the inspection was to see the result of the work done by Mr. Scantlin, Superintendent of the Rathbun Company for that district. For some years Mr. Scantlin has made a practice of burning early in the spring, the refuse from the timber out the previous winter, thereby preventing the spread of fire in the summer season. The ground thus burnt over furnishes the most favourable conditions for the growth of the seeds of the pine.

The young pine from the seed in a period of nine years grows to a diameter of three inches and from 12 to fifteen feet in height. The Commission were well satisfied with the practical value and importance of the work performed by Mr. Scantlin. It is self-evident that if other lumbermen would follow his example, the danger of the destruction of the limits by fire would be vastly lessened, and at the same time the ground will be effectively prepared for the germination of the seed, of a crop of trees which in time would come to valuable maturity.

I. O. O. F. NOTES.

It is quite probable there will be a joint installation of the newly-elected officers of Peterborough Lodge, No. 111, and Otonabee Lodge, No. 13, next Monday evening.

A candidate received the initiatory degree at the regular meeting of Peterborough Lodge last evening.

Next Thursday night, July 14th, will be a field night in Peterborough Lodge. A number of the brethren from Millbrook are expected to be present, and the three degrees will be conferred on several candidates from Millbrook, and on some from Peterborough. It is hoped that there will be a full attendance of the members. Any visiting Oddfellows will also be welcome.

JUNE WEATHER NOTES.

The past month of June had an average daily temperature of between four and five degrees higher than the corresponding month last year.

The highest temperature was on the 30th, namely 87 degrees ; the lowest on the 16th and 23rd, 45 degrees.

There was rain on 12 days to the depth of 3 inches, considerably more than the same month last year. By the way, the Midland District has had a heavier rainfall than the rest of the Province generally. In some of the counties around Toronto, and also the eastern portion of the Province, the deficiency was marked.

There was but one thunderstorm, that of the 11th.

FLOTSAM AND JETSAM.

The Awful Aftermath of the La Bourgogne Wreck—The Dominion Government Orders Investigation.

Halifax, N.S., July 8.—Captain W. H. Smith, R.N.R., of the Marine and Fisheries Department, has been instructed from Ottawa to hold an investigation into the Bourgogne disaster.

DUMBFOUNDED.

Halifax People, Right on the Spot, Can Hardly Credit the Revolting Details of the Tragedy.

Halifax, N.S., July 8.—La Bourgogne disaster, with its terrible accompaniment of wholesale loss of life, continues to be the talk of this city. The ship Cromarty-

CAPT. DELONCLE.
Commander of Steamer La Burgogne.

shire, which is at anchor in the stream, is the centre of attraction. Hundreds of boats loaded with occupants surround the vessel. Many of them were content with viewing the damaged ship from outside, but many of the curious ones go on board and inspect the inside. A survey of the damage commenced this morning. The hull will be put in good condition before the vessel leaves port. No claim for salvage has been made on behalf of the Allan liner Grecian, as there is no possibility of the damaged vessel leaving port for some days yet.

The claimants will doubtless take their time in the matter, and the claim may be eventually settled on the other side of the Atlantic.

Never has there been greater excitement in this city over a great calamity. People seemed to be dazed by the appalling scope of the tragedy. Its revolting details were read with horror on all sides. That human beings could descend to such horrible practices is to be wondered at. It is hard to credit some of the stories of deeds attributed in the sailors of La Bourgogne. Prevailing opinion is that when the Halifax reaches *Boston* the parties who can be pointed out as guilty of murderous assault will be placed under arrest.

A remarkable coincidence lies in the fact that the passengers of two ships of the same line should be brought to Halifax within a few months. La Champagne was towed here under circumstances which for many days caused great anxiety on both sides of the Atlantic.

The catastrophe is made all the more revolting when the fact that so many more might have been saved is taken into consideration. A few cool-headed and determined men acting at the proper moment might have controlled the raving rabble who fought so terribly for places of safety. On all sides discipline was severely criticized. It is hard for a Britisher to understand how fifty per cent. of the crew were saved and only ten per cent. of the passengers. The fact that only one woman was saved out of 165 will go down in history as a brand of fire on the honor and courage of a cowardly crew. Passengers were there to die in order that these, who were naturally looked to as their protectors, might escape.

Won the Diamond Sculls.

London, July 8.—B. H. Howell, the American oarsman of Trinity Hall, Cambridge, beat H. T. Blackstaff, of the Vesta Rowing Club, yesterday in the race for the Diamond Challenge Sculls Trophy. Howell won by three and one-half lengths, and created a new record, his time being 8 min. 29 sec.

Edward H. Ten Eyck of Worcester, Mass, won the trophy last year.

An Unwelcome Visitor.

Rockton, July 8.—Amid the tamarack regions of Beverly township these trees have been attacked by an insect believed to be the tamarack fly, the same insect that has devastated the Province of Quebec and all through the east. The trees present the appearance of being through a fire, and lumbermen are anxious to have the pest destroyed.

TORAL IN A BAD WAY

Puts Santiago Situation Clearly Before Spain's Ministers.

SURRENDER OR BOMBARDMENT.

The Latter Will Have Begun at Noon To-Day if the Spanish Government Does Not Instruct Gen. Toral to Yield — The American Forces and Their Condition—War News.

Madrid, July 8.—Gen. Correa, Minister of War, has received the following despatch from Gen. Toral, commanding at Santiago: "The enemy returned our wounded on Tuesday. Yesterday (Thursday) I exchanged the Merrimac prisoners for Lieut. Arias and seven soldiers. The ceremony over, Gen. Shafter sent a letter describing the complete destruction of our squadron, and reiterating his demand for the surrender of the city, and granting until midday Saturday for compliance, when, if the town was not surrendered, he would bombard it by land and sea. I communicated with Captain-General Blanco, and warned all foreigners, who are now almost the sole inhabitants. I shall defend the place to the last extremity. It is necessary to remember that we are short of provisions, and that the troops have endured three years' campaigning. They have been fed for a month past with only rice, salt, coffee and sugar." There are signs that the Government is undecided whether to instruct Gen. Toral to yield or resist.

Santiago Must Surrender.

Siboney, July 8.—Santiago is as good as taken. The Spaniards are whipped, and practically admit it. They want to surrender. Their fleet is sunk in sight of the harbor, the city is surrounded by the American army, the American artillery is looking down on them from every hill, the ginger is all gone out of them, and they seek peace at any price. Three days of grace have been given to let Spain make up her mind, and the time will expire at noon to-morrow. All now rests with the Government at Madrid.

BOMBARDMENT TO-DAY.

Sampson and Shafter Have Agreed Upon a Plan of Action.

Washington, July 9.—General Shafter and Admiral Sampson have agreed on a plan of campaign. At noon to-day Admiral Sampson will begin a bombardment from the outer harbor, having absolutely refused to force the channel.

How It Will Proceed.

Washington, July 9.—It was announced by the War Department shortly after midnight yesterday that Admiral Sampson would begin to bombard Santiago at noon to-day. He will approach the coast as near as possible, and drop shells into the city itself.

The Scramble for Safety.

El Caney, July 8.—The exodus from Santiago to escape the threatened bombardment was an impressive sight. The authorities had placarded the walls with a notice telling non-combatants to leave between the hours of 5 and 9 Tuesday morning. The immense crowd of people commenced to flee from the city, with about 400 people in litters in the van. Many of the poor women wore crucifixes and some entered El Caney telling their beads.

Army Losses Heavy.

Washington, July 9.—A despatch from General Shafter on the killed and wounded puts the number of patients treated in hospital at Siboney as 1,052 wounded, with 200 in hospital in camp. In Lawton's division there are killed four officers and 74 men; wounded, 14 officers and 317 men; missing, one man.

In Kent's division, killed 12 officers and 87 men; wounded, 36 officers and 562 men; missing, 62 men.

In Bates' brigade, killed four men; wounded, two officers and 26 men; missing, five men.

Signal corps, killed one man; wounded, one man.

General Wheeler's report not yet received.

Hobson at Work.

Kingston, Jamaica, July 8.—The United States auxiliary cruiser Harvard has sailed for Portsmouth, N.H., with the balance of the prisoners. The total is now 1,750.

A board of officers to-day is inspecting the Cristobal Colon, and it is hoped that she may be saved. Naval Constructor Hobson is on board the Spanish cruiser and is about to value the Infanta Maria Teresa. The remains of the Vizcaya and Almirante Oquendo are worthless wrecks.

Coal for Dewey's Ships.

New York, July 9.—It was learned yesterday that 40,000 tons of coal are now on their way to the Philippine Islands, where they will be transferred to the bunkers of Admiral Dewey's ships.

Dewey Waiting for Merritt.

Hong-Kong, July 9.—A despatch from Manila, under date of July 4, says that Admiral Dewey will remain inactive until Gen. Merritt arrives.

SIDE LIGHTS ON THE WAR.

Paragraphs Which Show the Trend of the American-Hispano Conflict.

Despatches from European capitals still talk of intervention in the Hispano-American war. France wants to interfere, but Germany and other powers decline.

Officials of the Spanish Embassy at London say they have no knowledge of any peace negotiations being on foot at present.

The demands of Spanish volunteers in Santiago for the surrender of the city are so loud that many of the soldiers have been imprisoned.

The food supply of Manila is growing shorter.

Indignation in Madrid is increasing against Admiral Cervera, and the commanders of the crews of the squadron. It is claimed he should have put up a better fight.

Shafter and Sampson have agreed upon a plan of campaign. At noon to-day they will begin a bombardment from the outer harbor.

Russian officials and general public are strongly in favor of a speedy peace.

Floods in the country districts around Manila are hindering the advance of the American troops.

It is rumored that a Spanish privateer is hovering off the British Columbia coast, to prey upon treasure ships coming from the Klondike.

Admiral Camara has informed the Egyptian Government that he has been ordered to return to Spain.

DECEASED WIFE'S SISTER BILL.

House of Lords Has Passed the Second Reading of the Measure.

London, July 9.—The House of Lords yesterday, by a vote of 129 to 46, passed the second reading of the bill of Lord Strathcona and Mount Royal (better known as Sir Donald Smith, the former High Commissioner of Canada), making marriage with a deceased wife's sister lawfully contracted in the colonies, valid in the United Kingdom. The leading feature of the bill is that it allows the children of those domiciled in the colonies where such marriages are lawful, to succeed to real property in the United Kingdom.

Lord Strathcona said the bill was introduced at the express desire of the Government of Canada, and he added that nearly every colony joined in the request. The Lord Chancellor, Baron Herschell, opposed the bill.

The minority included the Marquis of Salisbury, the Duke of Norfolk, Viscount Cross and other members of the Government, the Archbishop of Canterbury, the Archbishop of York and the Bishop, while the majority included the Prince of Wales, the Duke of Fife, the Duke of Westminster, the Duke of Devonshire, the Earl of Kimberly and the Marquis of Lansdowne and all the Liberal peers.

THE INVESTIGATION

By Canada Can Only Deal With the Cause of Collision.

LA BOURGOGNE'S BRUTAL CREW

Will Have to Be Dealt With by Proceedings Originating in France—The Horrors of This Most Terrible Tragedy of the Sea of a Sickening Sameness—Two Brothers' Trials.

Ottawa, July 9.—The investigation for which instructions were issued Thursday will deal only with the cause of the collision between the Cromartyshire and La Bourgogne. That criminal proceedings should be instituted against the crew of the French liner is freely admitted, but unfortunately that is something with which Canada has nothing to do. It is a recognized principle that a ship on the sea is in the territory of the nation whose flag it flies. Criminal proceedings against the crew must therefore originate in France.

"SAVE HIMSELF WHO CAN!"

The Stories of the Survivors of the Ill-Fated La Bourgogne.

Halifax, July 9.—There is a terrible sameness about the stories of the survivors of the terrible Bourgogne disaster. The horrors of all the scene that followed the collision are only too well authenticated.

Never was a more horrible tragedy of the sea, never was there such brutal cowardice displayed on a sinking ship and on the water afterward.

The men of the crew, trained, supposedly, for such an emergency, thought only of saving themselves. Stokers, firemen and assistant engineers, muscular, sweaty, grimy, scared, desperate, ran up from the depths of the ship and behaved like the demons they looked.

Dupont an Exception.

But the survivors declare that the second officer, Dupont, was one of the two sailors who tried to help the terrified and helpless passengers. Survivors say Dupont cut loose all the boats he could; that he sent over the side every boat that reached the water.

But the rest of the crew, in their cowardly flight, did not cut the lashings that held even a life-raft except to save their own lives.

And in the water murder was done. The poltroon stokers and stewards and sailors filled the only boats that floated. When women and men who had managed to keep their heads above water tried to climb into the boats, the sailors and stewards and stokers killed them lest the boats be overcrowded.

Saw Father and Mother Killed.

John Burge and August Burge saw their mother and father killed. John Burge and his father got on a raft. The French sailors threw them into the water. They swam back, climbed on again, and again were thrown off. The elder Burge sank. Five times John Burge was thrown from this raft, and then he swam to another that chanced to come along and was taken on it.

"My mother had hold of a life line on a boat's side," said John Burge. "I saw a sailor draw his knife and cut the rope, and my mother and four or five other women fell backward into the water and were drowned."

"The man who murdered my mother was saved," said Burge. "I don't know his name, but I'll know him when I see him. Then let him take care of himself!"

LA BOURGOGNE'S DEAD.

There Were 714 Souls on Board, of Whom 550 Went Down.

Boston, July 9.—The steamer Halifax arrived here yesterday morning, having on board 162 survivors of La Bourgogne. On the passage from Halifax La Bourgogne's passenger list was carefully revised, and it was shown there were 714 souls on board the steamer, of whom 550 were lost and 164 saved. Of the saved 18 were second-class, 47 steerage, and the remaining 105 members of the crew.

One St. Catharines Man.

St. Catharines, July 9.—One of the passengers on the wrecked steamer La Bourgogne was Mr. T. A. Wright of St. Catharines. Mr. Wright is among those lost. He was formerly in the employ of Messrs. McLaren & Co. of this city, but left a few months ago to take a position in Mundel & Co.'s dry goods establishment in Chicago. He was on his way to France to buy goods for the firm when the steamer was lost. He leaves a widow, formerly Mrs. Tobin of this city, but no children. His father was Mr. William Wright, 808 Berkeley street, Toronto.

AN AUSTRALIAN VISITOR.

Hon. Mr. Ferguson, Queensland, Talks of His Country in Winnipeg.

Winnipeg, July 9.—Hon. Mr. Ferguson, Queensland, is in the city. Federation, he fears, is still a long way off in Australia, although it will come in time. All the railways are owned and managed by people in the colony, not so much with a view of making a dividend as of giving the people a good service at low rates. The people would not hear of the railways going back into private hands. Strong English companies had offered to build the railways for certain land grants, but every offer had been refused. He says the time will come in America when the State will have to buy out the railways in self-defence. The Government will not sell the land outright except to actual settlers.

Weak and Run Down, With Heart and Kidneys in Bad Condition—Restored by Hood's Sarsaparilla.

"I was very much run down, having been sick for several months. I had been trying different remedies which did me no good. I would have severe spells of coughing that would leave me prostrate. I was told that my lungs were affected, and my heart and kidneys were in a bad condition. In fact, it seemed as though every organ was out of order. I felt that something must be done and my brother advised me to try Hood's Sarsaparilla. I procured a bottle and began taking it. Before it was half gone I felt that it was helping me. I continued its use and it has made me a new woman. I cannot praise it too highly." MRS. SUMMERVILLE, 217 Ossington Avenue, Toronto, Ontario. Get only Hood's, because

Daily Examiner.

SATURDAY, JULY 9, 1898.

END OF THE LEAN YEARS.

There is no surer indication of the condition of business than bouyancy of the public revenues. When the Finance Minister makes a guess at the probable income of the country during the coming year, as he does in his budget speech, and finds later that instead of receiving the amount anticipated he has a deficit of millions, it can safely be said that the country is in a very bad way. The years of the Mackenzie Government in office were years of severe trade depression not merely in Canada but all over the world, and in the latter years of its term very heavy deficits in the national revenues occurred, although the sources of taxation remained the same. In the latter years of the late Conservative Government there was a corresponding period of hard times and revenue deficits. In 1894-5 alone the deficit was $4,153,875, a greater amount than ever before experienced in the history of Canada, except in the rebellion year. The revenue from taxation, which had been running along for the previous ten years at from twenty-eight to thirty-one millions, suddenly dipped down below twenty-five and a half. Mr. Foster met the crisis in his budget of 1895 by reimposing part of the sugar duties remitted in 1891. This produced a very large revenue, and in the following year—the last of Conservative administration—the deficit was brought to $330,551.

It required some courage on the part of the Laurier Government to reduce the schedules of customs taxation during a period of deficits, but before Mr. Fielding was called on to make his tariff reform budget speech in April, 1897, there was undoubted evidence that the worst period of depression was past and that the country was again swinging onward to prosperity. We shall not stop to argue whether this was due to a change of Government or to a general mending of trade conditions all over the world. It is, however, unquestionably a fact that in Canada under a revenue tariff Ministry and in Great Britain under a free trade regime the restoration of prosperity was more rapid than in the United States under the Dingley high protection law. The bountiful harvest in the United States last year greatly improved conditions there, as it did in Canada, thus proving that the agriculturist, the price of whose product in exporting countries is determined in the world's open market and not by tariffs, is still the mainstay of both countries. In his reform measure Mr. Fielding tried to make a consumers' tariff. The duties on liquors, tobaccos and other luxuries were increased, while those on food stuffs, clothing, machinery and tools were materially decreased, and a number of things largely used by farmers were put upon the free list. The result of this change has been that, despite the heavy reductions of duty, the customs revenue has increased from $19,478,000 in 1897 to $21,467,000 in the year ending on June 30th. This increase has, of course, been brought about by a great expansion of imports. The inland revenue duties have not kept pace with the increase of customs, partly no doubt because much liquor and tobacco was taken out of bond early last year to escape the increased duties, and partly also because of the continuous increase of temperance among the people. The decrease in excise is $1,300,000, leaving an increase of about $700,000 on customs and inland revenue as compared with last year.—Globe.

THE WARD SYSTEM.

By a majority of nearly two to one, says the St. Thomas Journal, Peterborough has adopted a bylaw, by popular vote, to abolish the ward system. In its stead representation in the town council will be at the rate of one alderman for every thousand of the population, and these will be elected by the popular vote. This action was taken under the permissive legislation passed at the last session of the Local Legislature in respect to municipal representation. Quite a number of municipalities are taking advantage of this permissive act and abolishing the ward system. There is no doubt that the ward system has in the past been responsible for much improper expenditure, and for the election of inferior men to council boards. This evil has been most glaring in the large cities, such as Montreal and Toronto, although some smaller places have not been free from it, and it would seem as though the time was now ripe for some improvement in the present system. Aldermen, naturally, are anxious to do all they can for the ward which elects them, and often this desire give rise to log-rolling and useless expenditure, while capable men are often excluded for ward reasons.

The action of Peterborough will be regarded with much interest in other places. It is largely in the nature of an experiment, and if it is found that a decided improvement results, similar action will doubtless be taken by many other municipalities which are now following the ward system.

A limited term says the Bobcaygeon Independent in the Senate, with a view to reform, is among the summer subjects for discussion. This journal does not favor any limit. When a man has descended to such a depth of political rascality as to render him eligible for the Senate, a life sentence is none too short.

No member of the Government, says the Bobcaygeon Independent, is putting more life into his Department than Mr. Mulock, and his Department is eminently a business one. The Hon. gentleman is at present attending an International Postal Conference at London, and there are hopes that he will arrange for a two cent postage throughout the Empire, and a universal three-cent rate. At home he is steadily getting the Department down to a strictly business basis, and eliminating the political rottenness of his predecessors. New systems are being introduced, and new features tried. The 10c. special delivery in towns, and the issue of postal notes for small sums, is an indication of the Hon. gentleman's desire to make his Department afford the greatest possible measure of convenience to the public.

STRANGE CONDUCT OF MR. N. CLARKE WALLACE.

It is not probable that Mr. N. Clarke Wallace, Grand Master, will attend the Orange demonstration in Lindsay next Tuesday. The Lindsay Warder is "lying for him." In an article headed as above the Warder says:

"In another column appears a revelation anent Mr. Clarke Wallace's action in Orange and political matters.

It is now known that he joined with the Liberals in the general election to assist in defeating Conservatives, both publicly and privately.

It is known that he has refused to condemn or censure the iniquitous Manitoba School Law of Laurier and Greenway.

He was not given an office under or in the Laurier Government.

He professed that others were packing the Grand Orange Lodge, while they were really asking their friends to remain away in order to heal over the unfortunate trouble created by him.

He actually both last year and this wrote letters urging his special friends to attend the Grand Lodge; and, thus packed it to elect himself again.

The article is a revelation."

THE HOG INDUSTRY.

That prices of of hogs in Ontario range about one cent a pound above Buffalo prices is a cause of congratulation to Canadian farmers. It is a special cause of congratulation that this higher price is obtained not by reason of any tariff legislation, but because of the superior quality of the Canadian product. Its reputation and prices are well established in the British market, where it comes into equal competition with the world. The good price commanded by Canadian bacon has led to a large increase in hog raising, which is now one of the most profitable branches of farming.

Much credit for the position occupied by Canadian hog products is due to the packers. It would not be much advantage to the farmers to raise a good article if it were not placed in good condition upon the market. And placed in good condition on the market it has been. Up-to-date methods of curing have been introduced, great care has been taken to ship only an article of first-class quality; good business methods have been employed in bringing it to the attention of the British consumer, until now it has an identity of its own, and its character and reputation are well established.

It is most important that the advantageous position now held, and which was won only after many years of hard work, should be retained. Mr. Wm. Davies, the veteran packer, to whom, perhaps, more than any other man, Canada owes the present reputation of its bacon on the London market, has recently written a circular letter to the press pointing out the danger to Canadian bacon trade owing to the feeding of clover and corn to fatten hogs. This practice, Mr. Davies states, cannot fail to lower the quality of Canadian bacon and thus destroy the present advantageous position Canada enjoys in this article of export. Some farmers may think they can safely feed corn without affecting the general price. This, however, is a mistake. The average quality would soon be lowered, and all would suffer. If the present position be maintained, it means hundreds of thousands of dollars to Canadian farmers for many years to come. This position we cannot afford to lose.—Farmers' Sun.

SPANISH FOLLY.

Fatal blundering seems to mark the doings of the Spanish authorities in their conduct of the present war. It was a foolish blunder to engage in war at all while in such an unprepared state, especially with so powerful an adversary. Then the failure to take the proper steps to guard the entrance to Manilla bay was nothing short of a national crime on the part of the Minister of War and his department. And, lastly, the ordering of Cervera to take his fleet out of Santiago bay, where its presence could be of immense service in defending the city from its American invaders, in order only to meet certain destruction from the overwhelming American fleet which was outside awaiting them, seems like stark madness. The continuance of the war after what has already taken place would in itself be one of the cruellest blunders which a civilized people could be guilty of, and the kind of honor which demands it is demoniac.

RHEUMATIC MISERY

Is Terribly Prevalent in Quebec, and Tortures Young and Old.

Dodd's Kidney Pills the Only Cure for It—They are the Only Medicine That Removes the Cause of the Disease.

LEVIS, P.Q., July 8—The climate of this province is such that Rheumatism is a very common disease.

Almost every family in the province suffers from its ravages. Young and old are victims.

Thousands of people are crippled for life by it.

A medicine that can cure rheumatism is a God-send.

Experience has proved that liniments and oils are of no more value than is cold water rubbed to the cheek to cure toothache.

That Rheumatism is due to diseased kidneys allowing poison to remain in the blood, instead of filtering it out, has been abundantly proved by the remarkable success of Dodd's Kidney Pills, which act solely on the Kidneys, and which have cured every case of Rheumatism for which they have been used.

A specimen case is that of Mr. M. L Hinchey of this town.

Mr. Hinchey says: "I have for years been tortured with backache and rheumatism."

"My case was very severe and my sufferings very great.

"I tried several kinds of medicine but they did me no good.

"I was induced to use Dodd's Kidney Pills and I am happy to state that three boxes cured me fully and thoroughly."

If Dodd's Kidney Pills cured this severe case of Rheumatism they will certainly cure others.

Are you a sufferer from Rheumatism?

If you are use a box or two of Dodd's Kidney Pills. They will certainly cure you.

Dodd's Kidney Pills are sold by all druggists at 50c. a box, six boxes for $2.50, or sent, on receipt of price, by The Dodds Medicine Co., *Limited, Toronto, Ont.*

Fatally Shot by His Brother.

Harriston, July 8.—A fatal accident occurred in the neighborhood of Drew Station. Two brothers, Russell and Tom Lyons, aged about 17 and 19 respectively, went out for a target practice. The younger brother was putting up the target while the elder was getting ready to shoot, when the gun was accidentally discharged, striking Russell in the abdomen and the right shoulder. The gun was loaded with slugs, which made frightful wounds. Drs. McCullough and McCullough operated, but without avail. He suffered about eight hours, when he passed away. The accident has cast a gloom over the neighborhood.

Wm. McCabe, Esq., Managing Director, N. A. L.:

DEAR SIR:—In answer to your request for me to decide upon one of the following options offered me for settlement of my 15-payment Life Investment Policy for $5,000 which has matured this year, viz.:

1st, to take the value of the Policy in Cash $5,008 00
2nd, or fully paid-up insurance for 3,280 00
3rd, or take the profits in cash 2,060 25
and continue my policy without further payments being required from me, such policy participating in future profits.

I find it somewhat difficult to make a decision either of the three options being so satisfactory. I am certainly very much pleased with the results offered me, and as I find many others are giving full testimony to the profit-earning power of this company, I do not hesitate to give my endorsement as well, that the North American Life is one of our strongest Canadian institutions to day, giving first class results on Investment Policies, on a safe and conservative basis. I find that my policy, which was originally a Life by fifteen payments, has become an Endowment at the end of the Investment period.

DYSPEPSIA.

"For over eleven years I suffered terribly with Dyspepsia and tried everything I could think of, but got no relief until I started using Burdock Blood Bitters. I had only taken one bottle when I commenced to feel better, and after taking five or six bottles was entirely well, and have been so ever since. I feel as if B. B. B. had saved my life." MRS. T. G. JOYCE, Stanhope, Que.

B. B. B. cures Biliousness, Sick Headache, Sour Stomach, Dyspepsia, Constipation, Coated Tongue, Liver Complaint, Jaundice, Kidney Disease, and makes the blood rich, red and pure. It is a highly concentrated vegetable compound. One teaspoonful is the dose for adults; 10 to 30 drops for children. Add the water yourself.

THE YUKON COUNCIL.

Mr. William Ogilvie Appointed as the Commissioner.

A STRONG ADMINISTRATION.

Gentlemen Well-Qualified for Their Judicial and Administrative Duties Chosen—Names of the New Appointees—Mr. Ogilvie to Leave Next Week to Relieve Major Walsh.

Ottawa, July 9.—By a Government measure passed during the last session of Parliament the Yukon judicial district was detached from the NorthWest Territories and constituted a separate territory. Provision was made for the government of this important part of the Dominion by a chief executive officer, to be known as the Commissioner of the Yukon territory, assisted by a Council. The Commissioner in his administration is made subject to the instruction of the Governor-in-Council or the Minister of the Interior, and his powers to make ordinances with the advice of the Council are co-ordinate with those possessed by the Lieutenant-Governor of the Northwest Territories, acting with the consent of the Legislative Assembly.

The personnel of the Administration provided for by this Act has been decided upon by the Government, and a glance over the list of names of those who have been selected to discharge the responsibilities which will devolve upon the Commissioner and the Council will show the wisdom of the appointments which have been made. There is no man living who has a better acquaintance with the Yukon territory, its inhabitants and their requirements than Mr. William Ogilvie, the hero of the Klondike. Not only will Mr. Ogilvie's peculiar fitness commend him for the high station of Commissioner to which he has been elevated, but the appointment will be regarded as a simple act of justice to one who has risked and sacrificed so much in the performance of the duties entrusted to him.

Mr. Ogilvie will be aided in his administration by a Council of gentlemen whose qualifications have been the principal factors in their selection. First upon the list of the Council is Judge McGuire of the Superior Court of the Yukon, who, it will be remembered, was transferred from Prince Albert to administer justice in the Yukon. Mr. F. C. Wade, formerly of Winnipeg, besides being a Councillor, will act as legal adviser to the Council and the Commissioner. Besides being a member of the Council Lieut.-Col. Steele will have command of the Mounted Police in the Yukon territory. During the Northwest rebellion he was in command of a detachment known as Steele's Scouts. Another member of Council is Mr. Joseph E. Girouard, M.P. P., of Arthabaska, who will act as land registrar in place of Mr. Wade, whose time will be fully occupied otherwise. Mr. Girouard has had a long experience in administrative positions, municipal and other, besides having been trained in the school of public life. He has sat in the Legislative Assembly of Quebec since 1886 as the member for Arthabaska, having been elected by large majorities.

At present the administrative authority of the Yukon is vested in Major Walsh by order-in-council. This administration will be superseded by the new order of things provided for by legislative enactment, and Major Walsh will hand over the reins of power to his successors as soon as they are in a position to enter upon their new duties. Mr. Ogilvie will leave next week for the Yukon to enter upon the duties of his office.

Col. Lake to Fill the Breach.

The following military general order has been issued: "Major-General William Julius Gascoigne having resigned his appointment of the command of the Canadian militia, to date from June 30th ultimo, the command devolves upon Col. Percy H. N. Lake, Quartermaster-General, the senior officer of permanent employment."

Preferential Tariff Regulations.

At a Cabinet meeting next week new customs regulations will be considered for the working of the British preferential tariff, which comes into operation August 1st, restricted to the United Kingdom and colonies. They will be very simple, but nevertheless as stringent as it is possible to make them. The British exporter will be required to send a special separate invoice for goods claimed to have preference, that is, if goods are being sent to Canada partly British and partly foreign, they may of course be sent in the same case, but two invoices will be required by the Canadian customs authorities.

On the back of the invoice for the British goods a strong certificate will have to be made by one of the principals of the firm of exporters that the goods are entitled to the preference as being of British or colonial origin, or, that being of foreign origin, they have been further manufactured in the United Kingdom to the extent of such percentage as may be required by Canadian law. The preference being given to British labor, it will be sufficient to enable goods coming from the United Kingdom securing the preference if a considerable percentage of the total labor of any article is British, although the major portion may be foreign. Whether that percentage is to be 25 or 50 is for Council to determine, but it is thought by some that if the percentage of labor equalled the amount of the preference it would meet the case. For the present month the preference of course extends to all the countries which have been receiving it for the last number of months, but on August 1st, by special Act of last session, the preference is confined to British goods from August 1st.

To Pay $2,860 for the Use of $500.

A case of oppressive usury has come to light in Ottawa East, which is about as bad as could well be imagined in these days of protective laws and advanced civilization. The man finding it necessary to get $500 in cash, applied to a loan society and was accommodated. An examination of the agreement shows that he had to give a mortgage of $1,100 for the money at 18 per cent. The mortgage is to be liquidated by 1906, and the interest has to be paid monthly. Should he miss a payment a fine of fifty cents a month is imposed. Analysis of the agreement shows that the man pays for the $500 the sum of $1,100, with interest at 16 per cent. for ten years, $1,760, or altogether $2,860.

Personal and General.

An intimation was received yesterday by Sir Richard Cartwright from the Government of Egypt that it is anxious to buy timber from Canada. The wood is needed for railway construction, and Canadians interested in the business are asked to tender.

Lord Aberdeen signed an order-in-council yesterday in the case of Samien an Indian, in British Columbia, who was sentenced to be hanged for murder, on the 29th inst. The order is that the law take its course. Samien was tried by Justice Drake at Clinton, B.C.

She Took Strychnine.

Montreal, Que., July 9.—Mrs. Craig, wife of a painter living at 147 Park avenue, took strychnine pills in mistake for a headache remedy last night, and died shortly afterwards from the effects of the poison. The coroner considered it purely accidental, so did not hold an inquest.

A WINDSOR JEWELLER.

Cured of Bright's Disease by Dodd's Kidney Pills.

Windsor, July 4th.—(Special despatch)—"If the United States army had taken a supply of Dodd's Kidney Pills to Cuba it would have been able to withstand the ravages of disease arising from the drinking of bad water," said a promident physician to-day.

"Dodd's Kidney Pills he continued, are the greatest life savers in the world. I know a score of persons whose lives they have saved.

"Right here in Windsor Mr. R. F. Colwell, the Oulette street jeweller, has been cured of Bright's Disease by them after two years' suffering. I use them in my practice, and can cure the worst case of Bright's Disease, Diabetes, or any other Kidney complaint with them."

The Railway Surgeons.

Toronto, July 9.—The election of officers for next year occupied the forenoon yesterday of the Railway Surgeons' convention now being held here. For President Dr. Bruce L. Riordan of Toronto received 135 votes in opposition to Dr. Bouffleur of Chicago, who received 89. Dr. Riordan was declared elected amid great applause, and he made a neat speech in reply. Pleasure trips over the bay on the "White Star" occupied the afternoon, and a long ride on the street cars at night finished the day. The surgeons went to Muskoka at 7.30 this morning.

Died in the Doctor's Office.

Woodbridge, Ont., July 9.—A very sudden death occurred here last evening about 7.30. Mr. William Doherty, of Stratford, who was visiting his brother, Mr. J. Doherty of Castlemore, drove down from there to consult Dr. McLean, as he had not been well for some time. He had been in the office only for a few minutes when he expired. Heart failure was the cause of his death. Deceased was in his 63rd year and unmarried.

Fred. Begy's Body Found.

St. Catharines, Ont., July 9.—The body of Fred. Begy was found floating in the old canal last night below lock No. 6. His head had several small cuts. His body was fully clothed. The young man, who was 16 years of age, is a son of William H. Begy of this city, and has been missing from his home since Monday. He was exceptionally clever and attended college in St. Catharines, where he was a general favorite.

Coughs and colds need not be endured; they can be cured, and that quickly.

Many mixtures are temporary in effect, but Scott's Emulsion of Cod-liver Oil with Hypophosphites is a permanent remedy.

The oil feeds the blood and warms the body; the hypophosphites tone up the nerves; the glycerine soothes the inflamed throat and lungs.

The combination cures. This may prevent serious lung troubles.

WHEAT RECOVERS.

No Explainable Reason Has Been Given For This Upward Tendency—The Latest Quotations.

Friday Evening, July 8.

For no clearly apparent reason, except, perhaps, the growing feeling that this year's United States crop has been overestimated, the Chicago wheat market exhibited marked strength to-day. Cash wheat sold up to 69c, the highest in some time, and even a car of new No. 3 hard brought 75c. The July delivery rose 2⅜c over yesterday's close, and the September and December options 1½c each. The expectation that Monday's statistics will show a decrease of one and a half million bushels in the American visible also helped the market. Before the close prices reacted, but the gain for the day was 1½c in July, ⅝c in September and ⅝c in December.

Other American markets acted in sympathy with Chicago, and at Toronto there was little doing, with unchanged prices.

Hogs—Deliveries light and prices firm at $5.20 to $5.37½ for choice selections of cars, unfed and unwatered; light and heavy fats, $4.75 per cwt., with too many light hogs coming forward.

Essex and Kent corn fed hogs are worth $4.70 per cwt.

East Buffalo Cattle Market.

East Buffalo, July 8.—Cattle—Receipts light, both of through and sale stock. Holders asked stronger prices. The general outlook for fat butchers' stock and good dry-fed grades of all kinds is considered fairly favorable, and in a general way the outlook is stronger.

Veals and Calves—Receipts moderate; market ruled fairly steady to strong; top quotations were $5.35 to $5.00; common to fair, $4.25 to $5.

Hogs—Receipts were fair. The market opened with a good demand from shippers; about all were sold. Good to choice Yorkers, $4.05 to $4.10; prime light do., $4.05; mixed packers' grades, $4.05 to $4.10; medium weights, $4.05 to $4.10; heavy hogs, $4.07 to $4.10; roughs, $3.25 to $3.40; stags, $2.75 to $2.90; pigs, $3.75.

Sheep and Lambs—Receipts exceedingly light. Spring lambs, choice to extra ewes and wethers, $6.25 to $6.50; buckey and fair, $5.75 to $6; culls, fair to good, $4.75 to $5.50; common to choice, $4.50 to $5.35. Native clipped sheep, choice to selected wethers, $4.65 to $4.75; fair to choice mixed sheep, $4.25 to $4.60; culls to common, $2.25 to $3.75.

DYING BY INCHES!

But Dodd's Kidney Pills will Yet Renew Life.

Thousands of persons die in the prime of life because doctors think Bright's Disease and Diabetes incurable. But Dodd's Kidney Pills cure them both. They *have cured* thousands of cases.

These diseases and other Kidney complaints are as common as ordinary colds. But people don't realize that they are afflicted till the disease has eaten deep into the system. Even then, Dodd's Kidney Pills will positively cure.

Thousands of *people are dying on their feet, but do not realize it.* They notice one or more of these symptoms: shortness of breath, loss of memory, failing sight, ravenous appetite, pale or reddish urine, with brick-colored deposit, scalding when urinating, constipation, nervousness, pains in the loins. Their only hope is Dodd's Kidney Pills. They won't fail. They never do.

Spanish Soldiers Starving.

Playo Del Este, Guantanao Bay, Cuba, July 2.—A Spanish soldier terribly emaciated and so weak that he could hardly walk was picked up by men from the United States Gunboat "Annapolis." He had no rifle, being too weak to carry one. He says there are many Spanish soldiers in Guantanao in the same condition of starvation and that there is absolutely nothing to eat there.

The Spaniards are daily told that if they surrender to the Americans they are sure to be murdered.

U S Lighters Lost in a Storm.

Washington, July 9.—The War Department has been advised that during a severe storm off coast at Cuba, eleven lighters on route to Santiago were lost. The lighters were intended for the use for General Shafter. Their need was essential to the prompt forwarding of all military necessaries to the front before Santiago.

The Reigning Dynasty in Danger.

New York, July 9.—Madrid despatch says: Matters are going from bad to worse for the Dynasty despite the state of siege proclaimed throughout the whole kingdom. The authorities dare not stop the press campaign against the Queen Regent and Minsters. They don't feel certain of the support of the army in case of a popular uprising such as would follow excessive repression.

Francis Joseph to Try for Peace.

New York, July 9,—A despatch to the World from Vienna says: It is learned that Emperor Joseph is disposed to try once more for peace. The Arch Duchess Elizabeth, the Queen Regent's mother, will return from Madrid to-morrow with special despatches from the Queen Regent imploring the Emperor to use every influence at his command to bring about a cessation of hostilities. It is expected in ministerial quarters here that France will take the first step on behalf of Spain.

Germany's Intentions.

London, July 9.—The Berlin correspondent of the Daily Telegrph says: I am in a position to assert positively that Germany has never entertained the idea of preventing an American occupation of the Philippines. On the other hand she has desired to be in a position to share the cake if the other powers are offered a slice. The rumour that Spain has already ceded a Philippine port to Germany is entirely unfounded.

Spanish Cabinet Discusses Peace.

The Times correspondent at Madrid says the frequent cabinet discussions of the peace question have been without result.

Tribute to the U.S. Navy.

London, July 9th—The weeklies pay high tribute to the American navy. The Speaker says: "The Santiago fight proves that so far as the fleet is concerned, the United States need not fear comparison with any country in the world."

The Spectator draws from the battle the conviction that the American fleet could face even the French fleet without great risk of disaster, and says: 'So far as the German and American navies go, there would be no comparison. A struggle between them would be very short and very complete, and would surprise Emperor William, who thinks himself invincible, but his self-confidence cannot alter history."

Rumours of Peace Proposals Unfounded.

Madrid July 9.—All rumors as to peace negotations are semi officially declared to be unfounded. A Santiago despatch says that the bombardment would commence at noon to-day, and that although Santiago lacks provisions that it will defend itself until the end.

Peace Party Grows Stronger.

London, July 9th—A special despatch from Madrid says: There are numerous evidences that the peace party is greatly strengthened. Madrid is tranquil and the expected disturbances have not occurred. This probably will embolden the Government to yield to the strong diplomatic pressure that is being exerted to bring the war to a termination.

More Talk of Peace.

Rome, July 9th—Italia says that negotiations have been opened among the European powers with a view of arranging peace. The best intention, the paper also says, is manifested at Washington, but the Madrid Cabinet strongly oppose the idea of peace.

Was on the Blazing Jubilee.

Mrs. (Rev.) J. G. Potter and son, and her father-in-law, Rev. James S. Potter, Sailors Missionary, Kingston, had an exciting experience last Wednesday on the steamer Jubilee, which, on the return from Sandhurst, took fire in sight of Kingston. For a short time they were actually in great danger. Mr. Potter and party and others were taken to shore in boats. The occurrence of the fire at a greater distance from land would have doubtless been attended with frightfully fatal results.

COUNCIL COMMITTEES.

The Finance Committe and Committee of the Whole Meet and Consider Several Matters—The Steam Roller Rolls into their Deliberations.

At a meeting of the Finance Committee last night Mr. Councillor Denne presided. After passing several accounts,

The collector's bonds, himself in the sum of $20.000, and two securities of $10,000 each—Mr. T. G. Hazlitt and Mr. Alex. Fitegerald of Ashburnham—was accepted by the committee.

The Committee of the Whole sat, with Mr. Denne in the chair, in the absence of the Mayor.

A resolution was adopted deciding that new uniforms be purchased for the Fire Brigade.

Tenders were received from several persons but there was no action taken in respect of these tenders, the matter being referred to the Fire, Water and Light Committee with power to act, and to act promptly.

Mr. Cahill was heard before the committee in reference to the spur line of the Grand Trunk Railway to the works of the Canadian General Electric Company, adjoining property owned by him. He wished the railway company to fence their property, according to the requirements of the General Railway Act. He would like to have the town take action in the direction of having the Act complied with. He also requested that the sidewalk which at one time he permitted to be placed upon his property, lot 2 east of Water and north of Antrim street. He wanted the walk removed so that his rights under the statute of limitation might not be imperilled. This matter was referred to the Street and Bridge Committee, with power to act, and the matter of the railway siding was referred to the Legal Committee.

Mr. Comstock's application to be allowed to construct a granolithic walk in front of his premises on George street, the town to pay the usual 40 per cent. of the cost, was referred to the Street and Bridge Committee.

Mr. McKay, of the Sawyer, Massey Co., was heard before the council in the matter of a steam roller. He represented the Massey, Sawyer Company, of Hamilton, the Canadian representatives of the Russel Manufacturing Company, of Massilon, Ohio.

In the course of his explanation of the merits of the machine he represented, Mr. McKay stated that there was a Massey-Sawyer roller and a Pitts roller, recently purchased by Hamilton, in that city.

It was decided that that the mayor write to the Mayor of Hamilton, requesting that an exhibition of the work of the rival rollers be made in the presence of the Peterborough council.

The council adjourned.

Turners, the Tenters and Decorators.

This morning, Messrs. John and Reg. Turner went to Lindsay to decorate that town for the 12th of July demonstration. This enterprising firm also received decoration orders from Beaverton and Smith's Falls. Satisfactory work brings its reward.

You can count on your Wedding Cakes being right if they come from McQUAY, COLLINS & CO., 406 George Street. Handsome decorations, delicious Icing and fine rich quality are making them very popular.

THE NORWOOD BURGLARS.

Police Magistrate Edmison Divides a Year in the Central Between the Two Men.

In the Examiner on Thursday, was printed the details of the robbery of 200 lbs. of cheese from Mr. E. Squires, of the Norwood cheese factory. This attempt to bull the cheese market was investigated by Mr. Geo. Edmison, County Police Magistrate, at Norwood yesterday, involving also the charge of stealing 22 loaves of breads from W. H. Tucker, of Norwood. The prisoners Reeves and Simpson, were found guilty, assisted by the evidence of Cross, another of the accused found guilty and sentenced to six month each in the Central Prison. Cross in consideration of his turning Queen's evidence, was discharged on suspended sentence.

The prisoners were lodged in jail here pending their imprisonment in the Central.

NOTES FOR MEN.

Mr. John Simpson will lead the conference on the Sunday School lesson at the Y.M.C.A. to-night. Topic—"Elijah the Tishbite."

Thousands Celebrate

With thankfulness their restoration to health by the use of Hood's Sarsaparilla.

Think of the vast army who have been cured by this medicine—

Men, women and children, who have suffered the consequence of impure blood, who have been the victims of scorfula sores, eruptions, dyspepsia, nervousness, sleeplessness.

They have tried other medidines and have failed to obtain relief. They tried Hood's Sarsaparilla and it did them good. They presevered in its use and it accomplished permanent cures. Do you wonder that they praise it and recommend it to you?

All of the pictures of the races are beautifully perfect.

About Stationery.

At the Peterborough Bookstore fine stationery is having a brisk demand these days; and no wonder when such remarkable values are offered. 5 quires Washington society note paper, ruled or plain, for 10c per quire. 5 quires Francoise Mills note paper for 12c, or 3c per quire, 100 envelopes to match, 13c or 3c per package. A. H. STRATTON & Co.

A dish of Ice Cream from McQUAY, COLLINS & CO'S. Ice Cave is the most delicious and wholesome you ever tasted. Come and try it these hot nights.

An Explanation in Order.

At midnight the flying figure of a man in bare feet closely pursued by two other men was a scene on Hunter street a little west of George. As the men ran he shouted with an agonising defiance in his tones, "You can't catch me to stab me—I can run to —— fast!" The pursuit lasted some time and the observer did not see the result of the chase. Was there anything in it or was it the freak of minds, influenced by alcholic potations.

For the Babies

It is not necessary to buy corn cures. Men and women should remember that Putman's Painless Corn Extractor is the only safe, sure and painless corn remover extant. It does its work quickly and with certainty. See that the signature N. C. Polson & Co. appears on each bottle. Beware of poisonous imitations.

HIGHLY SUCCESSFUL SUNDAY SCHOOL EXCURSION.

The Murray Street Baptist Sunday School Scores a Big Success.

The annual excursion of the Murray street Baptist Sunday School was one of the largest, barring the farmers' excursion, that has gone down the river this season, and it was as enjoyable and successful as it was large.

The steamer City of Peterborough made splendid time yesterday. She left the home wharf at 8 15 and reached Jubilee at 11 30, and on the return left the point at 5 20 and reached home at 8 20. The excursionists are indebted to the officers and crew for many appreciated courtesies.

At Jubilee Point everything was found in a condition to conduce to the enjoyment of the children and other excursionists. The day was delightfully spent by all, and what should have added, and doubtless did add, to the enjoyment of the Sunday School children, was the fact that they were carried to and fro and given their fine day of enjoyment on Gospel terms—entirely free. Yet with all their commendable liberality, the management of the excursion has been able to declare a dividend in respect of the financial end of the enterprise. After the free luncheon to the children, an impromptu list of sports and games added to their delight.

The excursion was a success in every way, and all concerned are delighted with the enjoyment it afforded.

SUMMER SCHOOL FOR CLERGYMEN.

Most Successful and Harmonious Gathering—"Pupils" Delighted with the Arrangements for their Entertainment — The Secretary, Rev. E. V. Stevenson and their Hosts Warmly Thanked.

The Summer School for Clergy at Lakefield is now well under way and is so far a pronounced success. The utmost harmony and good fellowship prevail, and all are loud in their praises of the excellent arrangements made for thir comfort. Rev. Algernon S. Crapsey's lectures on Christian Doctrine are masterpieces of thought, expression and delivery. Rev. C. H. Brent's lectures on Social Problems, are full of an earnest enthusiasm, which he succeeds in imparting to his hearers, and Prof. Clerk's lecturers on the Reformation of the Church of England, are replete with historical lore charmingly conveyed.

Last night warm votes of thanks were passed to Rev. and Mrs. Mackenzie for their great kindness in placing their commodious and beautiful school buildings and grounds at the disposal of the Clergy; to Rev. E. V. Stevenson, the secretary, for his indefatigable and effective labours; to the lecturers, and to St. Luke's congregation, Ashburnham, for their kind contributions towards the expenses of the school of both money and provisions, and to those gentlemen in Toronto who contributed through Rev. Street Macklem and Mr. T. G. Hodgins the sum of $69.

The following are the arrangements for Sunday preachers:

The Pavilion, Stony Lake, morning—Rev A S Crapsey.

Headlands, Stony Lake, evening—Rev A S Crapsey.

Peterborough, St John's — Rev C H Brent, morning; Rev Canon Dann, evening.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The market was not very largely attended this morning.

—Good & Co. are erecting a fine new grain elevator at the railway station at Millbrook.

—Belleville corporation is considering the wisdom of purchasing the water works system.

—Remember the Ladies' Aid Social on the Mark street Methodist parsonage lawn next Thursday evening, July 14th.

—Members of Court Forest Queen. No. 643, C.O.F., will please pay their dues for July to R. Glover, at the EXAMINER Office. 2d

—Norwood, Belmont, Havelock and Dummer Orange lodges have decided to celebrate the Twelfth with their brethren at Warkworth.

—The steam hippodrome next south of the Customs building means a revenue of $2 50 per day to the town in the shape of a license fee.

—The services at Chemong Park, held during July and August, will begin tomorrow at 4 o'clock, when service will be conducted by Rev. H. Symonds.

—Miss Falconer and Mrs. Martin will sing a duet at the morning service and also at the evening service in St. Andrew's church. The selection at the evening service will be "Saviour breathe an evening blessing."

—St. John's Sunday school will hold its annual excursion to Idyl Wild on Tuesday next. There will be no general table this year, but hot tea will be provided for all who attend. The boat will not be crowded and an enjoyable sail may be expected.

—The "Bay Bridge," Belleville, is in a shakey condition. It's not the amount of traffic, but the weight of the mortgage that's the trouble. The city has $30,000 invested in it. The threatened foreclosure of the mortgage may mean the afterclosure of the bridge.

—At the evening service in All Saints' Rev. W. L. Armitage will deliver the annual sermon to the Orangemen of the town upon the principles of the Order. Rev. Canon Dann, of London, formerly of Limerick Cathedral, will preach at the morning service.

—At the last council meeting of Millbrook the by-law was repealed permitting bicyclists to ride on sidewalks under certain conditions, and the old law forbidding the use of wheels on walks re-enacted. We have a law against wheeling on the walks in Peterborough, but it is often broken. The other evening the reporter saw a young lady knock a lad over and she herself was sent rolling like a nine pin. Both had a narrow escape. When some one is killed the authorities will look after the enforcement of the by-law.

PERSONAL.

Mr. Herb Morphet is away on a holiday trip.

Miss Hattie Melville is in Millbrook for a few days.

Miss Brodie, of Toronto, is in town on a visit to her sister Mrs. A. Mercer.

Mr. and Mrs. R. A. Ward and child, of Toronto, have been spending a few weeks with Mrs. Ward's mother, Mrs. Dawson Kennedy, Otonabee.

Mr. Michael Donovan of Cassopolis, Michigan, who is in town on a visit, comes back after 34 years' absence, having left here for the west in 1864.

Mr. J. C. Brown, I.P.S., of Peterborough, and Mr. H. R. Scovell, principal of the Public School, presided at the departmental examinations in Norwood. About 70 candidates wrote.

Miss Susie Campbell, Miss Edith Hubbs and Miss Margaret A. Mark, have taken first-class honours in the elementary theory of music at the Toronto College of Music examinations.

Mr. Sam Hunter, the clever cartoonist of the Toronto World, is at Millbrook on his way to his summer lodge at Stony Lake. He is suffering from a broken shoulder blade, the result of an attempt to draw a war cartoon expressive of both sides of one day's war despatches.

Miss Lily Alford, who is following the profession of a trained nurse in Philadelphia, arrived home to-day for a visit to her mother, Mrs. John Alford, Reid street. Miss Alford has for a long time been on duty in the family of the President of the Philadelphia Railway and Manager of the Philadelphia Bank.

Mr. H. B. McKay, representing the Sawyer & Massey Company, of Hamilton, is in Toronto in the interests of his company, who are the Canadian agents for the Russell Roller Company, Masselon, Ohio. Mr. McKay had an interview with the committee of the whole council on Friday evening. The council will most likely appoint a committee who will see the various machines operated before placing an order. The question will most likely be discussed on Monday evening.

A PARK FOR THE SOUTH END.

There are some things the town of Peterborough ought to do, that it can well afford to do. Our financial position is exceptionally good. Our bonded debt is a trifle compared with other places in the vicinity, of somewhat similar size. We have been careful in financing and have steered clear of the seductive bonus. Belleville has a bonus indebtedness for railways, alone of some three or four hundred thousand dollars. Lindsay, Cobourg and Port Hope are in a similar position, while the town of Peterborough is free from, this particular form of burden. What debt we have, we have something to show for besides railways that take away the trade of the town. We are well supplied with parks, better than any town or city of our size; and we have not bought a foot of land for park purposes.

While we rejoice in our beautiful parks, there is one thing to complain of, and that is the unequal distribution. Of our six parks, all are north of Brock street, and the most of them north of Smith street. The Nicholls bequest brought us several fine parks, and while the bequest was made for parks for the town, the result is that we have only parks for the northern part of the town, even including Ashburnham. The south part of the town below Brock street, is entirely ignored and neglected. There is not even a public place where boys can have a game of ball, cricket or lacrosse. Our present parks are so far from the southern portion that the mass of the residents get no benefit from them. The idea of a park is to give a breathing and resting place to the people. It should be so placed that the tired mother after a day of toil in a heated dwelling, could be able to wheel her baby carriage a short distance and enjoy the shelter and coolness of a park close at hand.

For practical purposes, and as far as accessibility to the majority of the people of No. 1 Ward is concerned, the parks we have are no more convenient than Chemong Park, and only a little more convenient than Chemong to those who have carriages. In the South Ward there is no place but the streets or private property that the children can use as a playground.

The town should remedy this state of things and provide a place of this kind in some central position in the South Ward. As pointed out we have never spent any money on parks. They have all been free gifts, and therefore we can better afford to do something like justice to the southern portion by providing a park or two in No. 1 Ward. The longer the matter is neglected the more expensive it will be. If it had been done, as it should have been done, years ago the price would have been much less. Before the Chamberlen lot upon part of which the buildings and grounds of the Canadian General Electric Company are placed, was built it could have been secured for park purposes at a reasonable figure, and with a little improvement and small expense in tree planting would have made a splendid park. However one or two smaller plots might be secured now and this would serve equally as good a purpose. The people don't mind the spending of money so much when they can get something like value for it, and especially when its expenditure is for the comfort of themselves and for the comfort of those they love better than themselves, their children.

It would be a wise and a good thing if the town would take hold of this matter and provide parks and play grounds for the South Ward before the price of lands is increased by being built upon. We cannot conceive that the residents of the other three wards who enjoy the benefits of parks, would object. Such an objection would argue a selfishness quite inhuman.

It is to be hoped that the city fathers will take prompt action. They are not any too careful of the present parks we have. The Central Park has been so much neglected that many of the trees have died of pure neglect—from lack of a little water. The little three-cornered parks at the intersection of several streets with Park street, are like neglected spots in a farm clearing. The trees have been planted like fence posts under the insane expectation that they would grow. By a miracle some have survived and are growing, but they are mixed up with the bare poles of dead trees and these little plots that might be made beauty spots are utterly neglected and are more of a deformity than ornament. The council should remedy this state of things and take steps to do the fair thing by providing a plot or two in the South Ward, where children could play at least, and which could be used for park purposes. We can well afford to do it. We ought to do it and if we don't do it, we are doing an injustice to a large section of the people of the town. We can afford it, especially as the numerous fine parks we have have cost us nothing. If they were more evenly distributed they would be amply sufficient. They are not however, and it is only fair play that the people of the South Ward should receive consideration in the matter of park or play ground accommodation.

A MARKED GAIN.

GENTLEMEN,—I have been a great sufferer from nervous dyspepsia, with the usual symptoms of stomach weakness, loss of appetite and flesh, accumulation of gas, sour risings, and heartburn. I used various patent medicines and other remedies without any favorable results. They would give temporary relief sometimes until the effects of the medicine wore off, but Dr. Ward's Blood and Nerve Pills overcame all these obstacles. I am better in every way now and have gained several pounds in weight.

HOT WEATHER RULES.

CARE IN THE HOUSE.

Keep everything clean.

Dirt means disease. Avoid both.

Wash your wooden floors thoroughly.

Don't be afraid to use disinfectants. Most of them are cheap.

Keep the closets clean and use disinfectants.

Keep the bathtub clean and use it frequently.

Ventilate your rooms thoroughly.

Open the windows at the top. Danger from draft is thus avoided.

Air beds and bedding daily.

Sleep with enough covering to prevent a chill from a sudden change of temperature.

Keep dishes and iceboxes clean. Scald them frequently.

Use only fresh food.

Be sure the milk you use is pure.

Avoid overexertion and excitement.

HOW TO DRESS.

Keep cool and avoid unnecessary exposure.

Let the wrists be uncovered.

Don't wear high, tight collars.

The hat should be light and well ventilated.

The clothing should be light—in color as well as texture if possible—and loose.

Cleanliness is one of the requisites of perfect health, and the bath is the chief requisite of cleanliness.

Do not sleep in the same underclothing you wear during your waking hours.

Use common sense in dressing, and be careful to avoid drafts at night.

WHAT TO EAT AND DRINK.

Eat sparingly.

Avoid heating drinks or food.

Take mild laxatives.

A small dose of bicarbonate of soda three times a day is good.

Eat moderately of what the stomach craves, excepting fatty and heating foods.

Ripe fruit in good condition is excellent, but tainted fruit is poison.

Don't drink too much iced fluids. Milk and vichy is the best hot weather drink.—New York Journal.

The workman often eats his lunch on the same bench where he does his work. The office man turns his desk into a dinner table. Neither gets the out of door exercise he needs, neither takes the proper time for eating. It is small wonder that the digestion of both get out of order. In such cases Dr. Pierce's Pleasant Pellets come to their assistance by aiding nature in taking care of the food.

The cause of nine-tenths of the sickness of the world is constipation. From this one cause come indigestion, disorders of the stomach, liver and kidneys; biliousness, headaches, flatulence, heartburn, impurity of the blood and the serious complications that follow. To begin with, constipation is a little thing and a little thing will cure it. The "Pleasant Pellets" are tiny, sugar-coated granules. They will perfectly cure the worst case of constipation and indigestion. If the druggist tries to sell you some other pill that pays him greater profit just think of what will best pay you.

OUR STORED UP POWER.

Mr. Staybolt Considers Man as Built Upon a Compartment Plan.

"Man is, as one might say," said Mr. Staybolt, "built in series of compartments, though he may not know this fact at the outset, and he may indeed go through life and die without knowing it, taking with him unused stocks of ability and strength that he had never known he possessed, simply because they were never brought into play. As to what will bring their qualities into play men differ. There are some few men who command themselves, and some who open at a touch, and then there are many who respond only to the most urgent call. But there are few men who cannot in some way be moved to action.

"This brings me, for illustration, to a brief consideration of the personal quality commonly denominated as sand, of which, I imagine, most of us possess far more than we suspect, for there are few men who finally run away—mighty few who will not stand up and fight when they feel that they are really called upon. But our sand is in compartments, and most of us, I fancy, open only one and make that last through life, and we die without knowing how brave we are unless some great occasion, independent of ourselves, opens another compartment and shows us what we really have in reserve. I might add that there are few if any revelations that come to us in life that give us greater pleasure or more enlarge our horizon.

"The moral of all this is that in our good qualities we should trust ourselves without hesitation. There are qualities, which will easily suggest themselves, which it would be better to leave unused, better for ourselves and for everybody else if the compartments containing them were never opened, but as to such qualities as pluck, endurance, energy, capacity and moral strength we should call upon ourselves freely. We should not take down with us, as otherwise we are almost certain to do, stores of these valuable qualities untouched, but rather we should draw upon them now and constantly and confidently, and so doing we shall be gratified with our constant growth in strength and more than gratified with the attending substantial rewards."—New York Sun.

A SELFISH SHAH.

The High Prices of Persian Lamb Capes Accounted For.

The shah of Persia may be only in the 2:30 class in matters of diplomacy and he does not dare exactly to slap Queen Victoria or Kaiser Wilhelm on the back when the potentates chance to meet, but, so far as matters in Persia are concerned, when the shah makes a law it is generally enforced to the letter.

A case in point may be cited in the matter of Persian lambskin. Persian lambskins are and have long been an article of staple demand in the commercial world. They have commanded such good prices that the supply was hardly equal to the demand. Consequently, when the shah one day ordered spring lamb with mint sauce, the cook was obliged to confess that the dish was beyond the command of the Persian treasury. Of course the cook was promptly beheaded, but the shah could not find another cook who would agree to furnish spring lamb whenever his majesty desired to indulge in that delicacy.

This naturally irritated the shah. After consulting with three or four of his most trusted advisers, who could see no way out of the difficulty and who consequently disappeared from their homes and society in a mysterious manner, the shah finally decided that the commerce of Persia was threatened by the extinction of Persian sheep and Persian lambs. Consequently he made a decree that any person found with lambskins in his possession for purposes of trade or commerce would be fined heavily. Since then the export trade in Persian lambskins has stopped with a blunt and nauseating jar.—Boston Advertiser.

A Shrewd Surmise.

The professor, who by the way was of Irish extraction, was presiding over the class in English literature.

"What are the meaning and derivation of the word 'impediment?'"

"'Impediment' from the Latin 'pedes,' meaning 'feet,' is something in the way; literally 'in the way of the feet.'"

"Very well. Some one give me a sentence using the word correctly."

"He had an impediment in his speech."

"That," quickly retorted the professor, with the flash on his face which always heralded his wit, "must have been the man who never opened his month without putting his foot in it."—Pearson's Weekly.

A PRESSMAN'S STORY.

Mr. Parnham Tells how Dodd's Kidney Pills Cured His Lumbago.

Toronto, June 27.—The story of the escape of the Globe pressman, Mr. John H. Parnham, from the agonies of Lumbago, by using Dodd's Kidney Pills, is unusually interesting.

Mr. Parnham writes to the Dodd's Medicine Co., Limited, thus:—"I am proud to testify to the wonderful efficacy of Dodd's Kidney Pills. About eight months ago I was attacked by severe pains in my back. I consulted an eminent physician, who said I had Lumbago and told me to take Turkish baths. These did me no good.

"A friend advised me to try Dodd's Kidney Pills. I did so, and one box cured me. My back has never troubled me since."

A CANVASSER'S EXPERIENCE.

Suffered From Kidney Trouble and Rheumatism—Was Becoming Despondent When Aid Reached Him.

From the Journal, St. Catharines.

One of the most recent witnesses about Fonthill and vicinity regarding the virtues of Dr. Williams' Pink Pills is John F. Price, who is widely known in the Niagara District, as he has been on the road as an advertiser and canvasser for six years and has thousands of acquaintances. His complete cure has added fresh lustre to the reputation of this great medicine. Hearing of Mr. Price's sufferings and restoration, a history of his case was requested. His story is:—"I am 26 years of age and have been afflicted with rheumatism for seven years. At times I have been unable to get my clothes on or off without assistance and have often been compelled to have my food cut for me at table. In the winter of 1897 I was attacked with la grippe which settled in my kidneys. I then became so ill that I was compelled to abandon all employment. At that time my liver and kidneys combined in what seemed to me their last attack. I used several medicines and doctored in Buffalo and St. Catharines without getting any relief, so my confidence in medicine was about gone. I was getting no rest day or night and was becoming despondent, finally I was persuaded to try Dr. Williams' Pink Pills. I did so and have used in all eight boxes, and am now able to state that I feel better than in the past ten years. These pills are the nearest to a specific of anything I ever used, and they are the cheapest and best medicine I ever tested, having thoroughly reached my case and effected a cure. I feel so gratified for the relief I have obtained that I think it my duty to publicly make this statement. If all who are suffering will give Dr. Williams' Pink Pills an honest trial, I am sure they will be as enthusiastic in their praise as I am.

The Penalty of Perjury.

Brampton, July 8.—Small, Loudon and Coleman, the Shelburne perjurers, were sentenced yesterday morning by Judge McGibbon to two years in Kingston Penitentiary each, with hard labor.

The judge said he might pass a much more severe sentence, but on account of several mitigating circumstances, two years in the Kingston Penitentiary with hard labor, he thought, would satisfy the ends of justice.

Hamilton, the leader of the gang, has not been apprehended yet, and his bail is worthless. Should he be taken a much more severe sentence would no doubt be pronounced.

A Dutch Ironclad.

It is of interest to note that according to some authorities the Dutch were the first in the modern period of history to build an ironclad and that during the siege of Antwerp by the Spaniards in 1585 the people of that city built an enormous flat bottomed vessel, armored it with heavy iron plates and thus constructed what they regarded as an impregnable battery. This they named Finis Belli. Unfortunately the vessel got aground before coming into action and fell into the hands of the enemy. It was held by Alexander of Parma to the end of the siege as a curiosity, but was never employed by either side in any action.—Cassier's Magazine.
